KANSAS CITY

TO

MEMPHIS

Without Change of Cars!

The attention of the people of the west and north-west is called to the Memphis extension of the Kansas City, Ft. Scott & Gulf Railroad, now completed and in operation between Kansas City, Mo., and Memphis, Tenn. The completion of this short line to the south brings that hereto fore to the West practically inaccessible section into close relation with the west and north-west to the very great advan-

tage of all.
Through trains for Memphis with Pullman Palace sleeping car and elegant day coaches leave Kansas City daily, saving frequent changes and many hours time to Memphis, Jacksonville, Fla., New Or-leans, and all southern cities. Tourist's tickets via this short route to Jacksonville, Mobile, New Orleans, and all the winter pleasure resorts of the South, will be on sale at all coupon offices through out the West. A map of this new route has just been prepared and will be mailed free on application to J. E. Lockwood, G. P. & T. A., Kansas City, Mo.

Business For Ladies.

The opportunities for ladies to find emloyment that is both suitable and renunerative are limited; their pay is usually poor as compared with the salaries paid to men in same line of occupation. But there are some very noted exceptions journalism, the drama, music and platform offer equal advantages to men and women, and one occupation in which omen are sometimes more successful than men, and that is in the management Suspender Company, of Cincinnati, O., are offering inducements to ladies that we think ought to attract attention. They are now manufacturing and introducing their new Stocking Supporters for Ladies and Children, and their unequalled Skirt Suspenders for Ladies. None should be without them, our leading physicians recommend them, and are loud in their praise. These goods are introduced on 'change Wednesday, went manufactured by ladies who have made into a Covington, saloon last night said the wants of ladies and children a study. and they ask us to refer them to some re liable and energetic lady to introduce them in this county, and we certainly think that an earnest solicitation in every household would meet with a ready response, and that a determined woman could make a handsome salary, and have an exclusive agency. We advise some lady who is in need of employment to send to the Company her name and address, and mention this paper. Address Queen City Suspender Company, Nos. 177 and 179 Main Street, Cincinnati, 243-259.

Extraordinary Offer to All Wanting Employment.

We want live, energetic and capable agents in every county in the United States and Canada, to sell a patent article of great merit, on its merits. An article having a large sale, paying over 100 per cent. profit, having no competition, and on which the agent is protected in the exclusive sale by a deed given for each and every county he may secure from us. With all these advantages to our agents, and the fact that it is an article that can be sold to every house owner, it might not be necessary to make an extraordinary offer to secure good agents at once, but we have concluded to make it to show, not only our confidence in our invention, but in its salability by any agent that will handle it with energy. Our agents now at work are making from \$150 to \$600 a month clear, and this fact makes it safe for us to make our offer to all who are out of employment. Any agent who will give our business a thirty day's trial and fail to clear \$100 in that time, above all expenses can return all goods unsold to us and we will refund the money paid for Any agent or general agent who would like ten or more counties and work them through sub-agents for ninety days, and fail to clear \$750 above all expenses, can return all unsold and get their money back. No other employers of agents ever dared to make such offers, nor would we if we did not know that we have agents now making more than double the amount we guaranteed, and but two sales a day would give a profit of over \$125 a month, and that one of our agents took eighteen orders in one day. Our large descriptive circulars explain our offer fully, and these we wish to send to every one out of employment who will send us three one cent stamps for postage. Send at once and secure the agency in time for the boom, and go to work on the terms named in our extraordinary offer. We would like to have the address of all the agents, sewing machine solicitors and carpenters in the country, and ask any reader of this paper who reads this offer, to send us at once the name and address of all such they know. Address at once, or you will lose the best chance ever offered to those out of employment to make money. RENNER MANUFACTURING CO.

161 Smithfield St , Pittsburg, Pa.

HUMORS OF THE DAY.

A Georgia man compels his daughter to eat onions every night for supper, and George Hughes, of Columbus, Nebraska, at 10 p. m. that house is sleeping peacefully.

Offering candy to an elephant is like an offer of marriage to an old maid. She deatly written by one of a party of cowmay turn up her nose, but accepts it all boys on the great range northwest of Ft.

A gentleman who was about to marry a plain girl said to his friend: "It is not for her exterior but her inward beauty that I marry her:" "Then for goodness, sake," replied the friend, "turn her inside out.

Miss Annie Huggup is one of the players in the Salem ladies' polo team. She is the "rusher" of the club, and when the Captain calls out, "Now Huggup," it completely paralyzes the young men in the opposing team.

In Armenia girls are married at 12 years of age. This enables them to procure three or four divorces before they are old enough to go on the stage, and thus prepares them to come to America with a star engagement the first year.

"Here! Do you know you are riding in the wrong direction? This train doesn't go anywhere near Philadelphia." "There! I kept a tellin' of him that 'twa'n't right to be ridin' back'ard, but he 'lowed he knowed it all. Men is dreadful smart,

The wife of a boarder at one of our hotels belted her husband over the head with a washbowl the other day. When his friends ask him what ails his head, he mutters, "Inflammatory room-mate ism," and adroitly guides the conversation into another channel.

"That lady is handsome, but she looks as if she had a temper of her own," remarked one drummer to another on the train the other day. "You bet! You read character correctly," was the reply. 'Why, you speak as if you were acquainted with her!" "Well, I am slightly. I married her some ten years ago, and have been studying her ever since."

"Doctor, I want to thank you for your great patent medicine." "It helped you, did it?" asked the doctor, very much pleased. "It helped me wonderfully." "How many bottles did you find it necessary to take?" "Oh, I didn't take any of it. My uncle took one bottle, and I am his sole heir."- New York Sun.

"Just to think!" said a Vassar graduate, here is an account of a train being thrown rom the track by a misplaced switch! of agencies. In this line The Queen City How utterly carcless some women are the judges stood, everybody knew that about leaving their hair around!" And the record was beaten and such a scene she went on reading and eating caramels, has never been seen since the memorable -Fall River Herald.

Baca's Boodle.

Juan C. Baca, of Las Vegas, N. M., the cattle king and millionaire who was into a Covington saloon last night, said the Cincinnati Enquirer of August 3d. (last Sunday) and professed to be the victim of a bold conspiracy. A man covered with dust, and answering the description of the Mexican, appeared at Dominick Boro's saloon on Front street and asked the loan of \$1, saying that he had been robbed of \$13,000, and wished to get to Cincinnati in time to stop payment on some drafts the robbers had taken.

His story was as follows: He disposed of a large lot of cattle yesterday, for back that now famous report on a shipping which he had received payment in drafts bill-"short, one bureau; ahead, one jackand cash. Early in the evening he fell in ass," the Eastern public has had a mass with a party of gentlemen(?) who invited of interesting information concerning bim to drive with them to see the city and this donkey of the Rockies, but they cable and horse roads. The economy of suburbs. A hack which was conveniently have never known how adamantine are at hand was entered, and several points the staying qualities of the beast. They of interest about the city were visited. know that you can put a burro on a lot After driving about for an hour or two, it that has nothing on it but glass and sand, was proposed that the party go out to the and the burro will fatten. They know Latonia race course and inspect some that the little creature will beat a goat in stock. The party drove out the Indepen- eating old tin and ancient campaign liter dence pike as far as the avenue leading ature; but even we never supposed that down to the track. They had been drink- this long-suffering animal would try to ing and the cattle king doesn't remember fight a railroad engine and, like Sampson, much from this on, except that the hack win the fight by taking death. A burro, turned in towards the track. When he like the mountains where he lives, and regained consciousness he found himself like the men who have been delving in District Court in Santa Fe county, a badly bruised lying by the roadside. The those mountains since the days of the first hack and his former companions were not gold hunt, has limitless staying qualities. jury for living with a lady Indian who in sight. The Condor of the Andes.

New Orleans Times-Democrat.

The announcement that the Chilian government has declared a war of extermination against the monarch of vultures tle washed down in the recent flood in the -the condor -and offers \$5 for every condor killed, justifies some remarks as to the possibility of the Chilian government realizing its purpose. The condor Laramie. It was given to the editor of has indeed been declared "an enemy to the Columbus Journal, who will forward the republic," and condor-hunting has become a highly lucrative business; but when one takes into consideration the astounding powers of the bird and its wonderful habits one finds it hard to beieve that the government can ever sucfriends may find my last resting place. Six of us are camped in the great desert, starving to death, having nothing to ceed in destroying the species at any price. Shooting it on the wing is almost out of the question, for it sails at alti-[here the word "eat," evidently intended, was omitted], horses have got away. Thank God, we have plenty of water, but tudes far beyond the reach of the human eye, and roosts on peaks immeasurably nothing else. We are all dying with the above the clouds. It has been seen at mountain fever, and now never expect to altitudes of 20,000 feet. It can withstand variations of temperature beyond and one day more will be our last, unless human endurance, and hatches its young I think of the friends far away. My God! I can't live much longer. Good by to this above the snow line-nevertheless, it rests quite comfortably upon the burning sands world. Be sure to have this published as of the Southern sea coast. It hunts the whole western slope of the Andes-not only Chili, but Peru, Bolivia and Patago-The paper was greasy and the note was nia. With the vast spread of its wingsmiserably written, being so misspelled and often exceeding twelve feet-it can perbadly worded that it was almost impossiform prodigious journeys in a few hours. ble to decipher it. Nothing was heard of Its eye is miraculously keen, for when no Hardin and his party at either Laramie or bird is visible in the sky even with the aid Cheyenne, and the impression prevails of a powerful glass, if a mule or other animal in a convoy falls or dies condors instantly drop upon it like lightning from Maud S. Lowers the 2:10 Record. heaven. Latterly the birds have so in-The Cleveland Herald of last Saturday, creased as to form a veritable scourge-August 2d, tells us of the wonderful pernotwithstanding the fact that the female formance of the Vanderbilt mare in beatavs but two eggs at a time, and that the ing the record of Jay-Eye-See made the condor hunting has been a regular and day before at Narragansett Park; "As ucrative calling for more than a century. the mare passed the quarter a murmur Traps are the only reliable means of rose from the judges' stand and those catching; but the day will certainly come who heard it knew that the pace was fast. when traps shall be of no avail whatever, Condors have already learned to fear a When fully extended she was a picture. gun; and with their wonderful sight it is Bair's mouth could be seen moving by a absolutely impossible to get even within strong glass, but it was quick talk he was rifle range of them. Birds soon learn to giving the mare and she moved well under avoid danger, as has been proved since the erection of telegraph lines in the and round the turn to the third quarter, United States; few are now killed by flyand everybody wondered if she could ing against the wires. It will be strange keep it up. She did and moving like that the condor does not learn to avoid snares instinctively. When the birds find Shouts rose in the air, and whether life in Chili or in Peru unusually difficult they rattled Maud or whether she was they have only to migrate further south tired was not known until she came in, or north, and propagate their species in but she faltered at the band stand, and other altitudes, until they become so nu-Bair laid on the whip. She jumped out merous as to migrate to those regions gamely from under it and with a rush was which ontlawed them. Then the work under the wire, and by the shout where of destruction would have to be done all over. All things considered it seems impossible to exterminate such a race of vultures unless means of destroying their victory of Smuggler over Goldsmith Maid eggs can be devised; but nobody-not even Mr. Graham-would undertake to Women and men cheered until they scale icy peaks 19,000 or 20,000 feet high were hoarse and a fresh burst went up as for such a purpose. The condor is certhe figures, 2:093 were hung up. Bair tainly gifted with rare powers of selfreceived an ovation, and said that had the preservation; and it is not unlikely his mare not tired a little she would have huge shadow may float above the corpse beaten 2:09. The quarter time was 3234, of the last South American in that lurid twilight preceding the world's final dissotent, but not official timers, registered

An electric street railway a mite in length has been completed at Cleveland, and was successfully operated for the first time last Saturday. The street railway company owning the electric line are so well satisfied with the experiment that they propose changing their entire system of over twenty miles to the electric system. Cars were started and stopped and reversed with the greatest ease, and without the disagreeable jolting incident to the running is claimed to be greater than that of cable roads, and the cost of construction is less than one-third as great. Any number of cars up to fifteen can be run at one time on a single circuit. The success of the new road has made a great sensation in both street railroad and electrical circles, and is expected to greatly extend the field of electric development.

JUDGE AXTELL writes us from Santa Fe: "During the present season of the Pueblo Indian was indicted by the grand Pueblo. The Indian has been in attendvery close observer of all the proceedings. To day he came to the Attorney-General, asked to be permitted to renounce his relations his relations to the Pueblos, and requested to be naturalized, 'in order' he said, referring to his indictment, that I may enjoy the privileges of an American!"

MINING MATTERS.

THE PIGEON.

The Pigeon will make a mine. It shows a large body of ore running well.

SOLD AN INTEREST.

T. H. Wagensler last Saturday night negotiated a sale of his one-fourth interest in the Catskill to Louis Schloss.

THE GERTIE PATENTED.

The patent has been received for the Gertie lode, the property of the Rico Consolidated Mining Co., of which L. M. Kelly is the manager. THE C. H. C.

A force of six men is at work on this property, a good one on the noted threemile vein which cuts across Dolores and Telescope mountains, and has many of the best mines in the district located on it.

MOUNT WILSON G. & S. M. CO. The Mount Wilson Gold & Silver Mining Company is working some of its properties and are having ore taken out of others under the lease system. We have not seen the ore, but it is said to be fine. CONVENIENCE OF ACCESS TO RICO MINES.

The easy accessibility of mines about Rico is often remarked by visitors from other camps. They are accustomed to seeing mines which are reached only by long and tedious climbing up rope-ways and Mexican ladders, while here wagon

RECEIVING MACHINERY.

The workmen at the Rico Reduction Company's establishment are busy putting in place the invoice of machinery which was received on Monday. Longenbaugh, who has the contract to bring in the machinery, is on the road with another in stallment. With his present capacity, it will take several trips to land the whole outfit in Rico.

THE STEVENS.

The W. L. Stevens was originally one of the Newman group, but has fallen into the hands of other owners. W. B. White side, one of them, and George Spentzer, have commenced work. They intended to at once commence taking out ore for shipment, but a caving in of some of the workings necessitates the running of a new tunnel 40 feet before any ore can be Bandled. This work they are now doing.

THE BLACK HAWK. Continuous recent work on the Black Hawk has made a great improvement in the appearance of the ore bodies and the amount of ore in sight. A contract for the delivery of 200 tons of ore to the Pasadena smelter has been made and L. F. Hill is making a wagon road to the mine. "It is likely," says one of the owners, "that our shipments this summer and fall will run far up into the thousands of tons. All we have to do is to shovel it from the vein and throw it into the wagon." The owners of the Black Hawk are three of the few genuine pioneers of the Dolores country, all having lived and worked here long before Rico was thought of, and the Black Hawk stakes were the first stuck in the district and bear the names of John Glasgow, R. C. Darling and E. A. Robin-

THE UNCLE NED. The Uncle Ned and Harvey are claims which may be considered as one. We spoke last week of a shipment to Durango, from which returns have not yet been received. The vein is opened by a tunnel 150 feet long and three shafts; 1st 110 feet deep, with 50 foot drift from bottom; 2d, 90 feet deep, with 40 foot drift from bottom, and 3d 40 feet. Owned by J. F. Wannemaker and N. J. Bradley, of Rico. Herman Garlichs, of Aurora, Illinois, and A. M. Friend, of Brighton, Iowa. The vein is one of the "streak of fat-streak of lean" variety; by stripping down a layer of waste, a streak of ore is exposed, thus making it an easy matter to sort and sack the ore in the mine; removing the ore, another layer of waste occurs, and so on to the wall-rock. In this way, a few days

sorted mineral in five hours.

THE LEILA DAVIS. week were fine. The trail around the mountain to connect with that of the Little Maggie was completed last evening. It is five feet wide, almost level in grade, solid rock. It has cost a few hundred ore will be greatly facilitated. The trail intersects that of the Maggie at the mouth a much more capacious dump. While breaking down trees and generally smashing things. A piece struck a large stump can be largely increased at short notice. in front of the Black Hawk tunnel and split it into fragments.

COAL-LANDS.

Regulations Thereunder."

Section 18.—The opening and improv- for many more upon development. preference right of purchase, must not be considered as a mere matter of form; the T. Overman and M. M. Smith, who are "That may all be," replied an undaunted

good faith of the claimant.

Section 19.—These lands are intended to be sold, where there are adverse claimants therefor, to the party who, by substantial improvements, actual possession, and a reasonable industry, shows an in tention to continue his development of the mines, in preference to those who would purchase for speculative purposes only.

SECTION 20 .- In conflicts, where improvements have been or shall hereafter be commenced, priority of possession and the law has been fully complied with by each party. A mere possession, however, without satisfactory improvements, will not secure the tract to the first occupant when a subsequent occupant shows his full compliance with the law.

SECTION 30 .- One year from and after the expiration of the period allowed for filing the declaratory statement is given within which to make proof and payment.

"BACK CAPPING," AND THOSE WHO DO IT.

The term "back capper" is one which peculiarly well describes a class of bloodsucking leeches which preys upon the mining industry, bringing disrepute upon its name. Rico has always contended against the hidden influence and few have not felt the blighting effect of the "backcapper" at one time or another. The object to be gained by him in his underhand transactions are not generally apparent, unless it be to gratify a malicious, selfish impulse, born of pure cussedness, to injure his neighbor. The principle he uses seems to be not "How much can I myself make out of this?" but "How much can I keep my neighbor from making?" We have no reference to the man who will not knowingly permit a fraud to be perpetrated in a mining sale, but to the skulking bounds who maliciously injure a property by base lies and foul insinua

THE PASADENA REDUCTION CO. Smelter. - The work at the smelter this week has been productive of very good results. The furnace plates are in position and Mr. Neville has been busy lining with fire brick. The arch will be completroads are easily made to most producing ed by Monday evening. The crusher was started for the first time on Tuesday and its capacity was thoroughly tested yesterday afrernoon. It was demonstrated that with two feeders it can crush about four tons per hour of hardest quartz. The quartz crushed is to be used in bedding the furnace and about 100 tons of fire clay is to be run through next week for use in flues, etc. The flue chamber will be commenced Monday. Wood has been purchased to fire up with, it being necessary to fire up at least two weeks before blowing in, which will be done at the earliest possible moment.

Coal Banks-A large force of men is at work on the coal-banks recently purchased, and a boarding house 26x40 feet is being built to accommodate them. Van Liew & Watson have a contract to pack 15 tons a day from the bank to the wagon road until snow flies. They go to Durango early next week to secure more jacks. THE MAGPIE AND SUNLIGHT.

George Higbee, one of the owners of the Magpie and Sunlight mines at timber- or else when we publish a map of Cololine on Mount Wilson, went up to the property on last Monday, returning Wednesday. The boys who are working up there among the clouds, have spent most of their time on dead work, but on next Monday Love's pack train will bring down the first load of ore, which will go to the Pasadena smelter. A cross-cut tunnel of 110 feet has been run on the end-line between the claims, beside a large number of open cuts and shafts. A few tons of ore have been mined, sorted and sacked, and it is expected that it will mill as high as 200 ounces. Specimen assays have run away up in the fancy figures-1350 ounces in silver. A complete assaying outfit will be sent up to the mine next week. One of the owners, J. O. Campbell, was formerly metallurgist of the Santa Clara mill, and will fully test the ore as extracted. The following persons own the mines: Chas. J. Uban, one fourth in each the Magpie and Sunlight; George Higbee, Frank Johnston and Campbell, one-sixth each in both; J. C. Thompson, one-eighth in both; Nathan Cahn, oneeighth in the Magpie and A. E. Cobb, one-eighth in the Sunlight.

THE GRAND VIEW.

Smelter: - Mr. Grierson informs us that

the new metallurgist has been unavoidably detained in Denver, but that he will be in Rico before many days. Upon his Mexican cupel furnace is now being built southwest of the smelter building and is intended to run over the slag and furnace cleanings, in which are large quantities ago, two men took out 2700 pounds of of silver. In fact, Mr. Grierson says that in the one large sau born to the Grand View furnace last fall, there cannot be The first work on the Leila Davis is less than \$5,000 or \$6,000 worth of silver encouraging, and tests on mineral this and in the slag there must be much of that precious metal as pure silver is seen sometimes upon breaking open one of the hardened pieces from the slag-pots. Of course such wasteful errors would not ocand is blasted for some distance out of cur under the management of a compe tent metallurgist, but the Grand View has dollars, but is solid and permanent as the been cursed at times by highly-recom hills themselves and the transportation of mended, but thoroughly incapable men.

Mines .- Work on the Grand View's mines was re-commenced after a short of the tunnel on the latter, cribbing with term of idleness, on Wednesday morning \$41.63, while Arapahoe distances all withheavy timbers across the steep gulch. last, the work being under the manage-This cribbing will be filled with waste ment of John Clark. About the same from the Maggie mine, giving that mine old force is employed, both as to number and individuals. The work will be upon blasting on the trail Wednesday after- ore bodies, principally, to furnish ore for noon a large ledge of rock was displaced, the smelter. At present there are only which went crashing down the mountain, out about 150 tons in the ore-bins at the the result of the reduction in postage. mine and at the smelter, but this amount

labor expended and improvements made preparing to run a tunnel in on the lead.

must be such as to clearly indicate the As it now shows, near the surface, the and leave a margin for the owners.

parties and is situated just across the river | ment. from the the Little Emma, of which it is thought to be the extension. Vein, 18 mprovement shall govern the award when inches; paystreak, 10 inches. The ore shows antimonial silver.

The Ida-Is an old location which is showing some nice brittle silver ore from a vein claimed to be two feet wide. The lode is about half a mile below the pregentleman who conceals his meekness by using the terrifying soubriquet of "Wild Hank"), a Mr. Tollinger and a merchant who resides in Iowa.

The Alice-Is being worked by Oscar Carter, its owner, and is showing a good vein, in which ruby silver cah be seen without the aid of a microscope and jackknife. Oscar also points with pride to the Louise and Pivot.

The Mountain View-Is a location that created considerable excitement two years ago, since which time but little work has been done, owing to misunderstandings between the owners, who are F. J. Walker, J. J. Davis and T. K. Gash. The last named commenced work this week. The vein is a fissure three feet wide, with a paystreak from six to ten inches of tellurium ore in a quartz gangue, assaying up to \$136 per ton.

The Emma and Center-Which are two good properties, are idle, as is also the Little Suse group.

In giving employment to miners, all other things being equal, it seems to us that mine owners should give preference to that class of men who expend their wages in the camp, who own property and in other ways contribute their share towards building up a mining district. There are many men here who work for others in order to get a grub-stake to develop their own properties. Among this class are many as capable and industrious miners as the world ever saw, and they should be encouraged, for they fill a very important place in the general prosperity of every mining camp. They live here year in and year out, winters and summers alike, and bear the brunt of the battle in placing the camp upon a prosperous

THE last Denver Mining Review, August 2d, contained an article on Rico, from the pen of Richard Thursby, who was here a few weeks ago in the interests of the paper. The article is complimentary enough, but the foreman has "rung in" a cut of "the San Juan mining region" in which Rico is conspicuous by its absence, the western side lines of the map having been so drawn in as to exclude it. Better extend your boundaries, gentlemen, rado, we'll leave out. Denver. It would be equally just. San Juan without Rico is not exactly a desert without an oasis. but it would lose a very important factor in its prosperity.

THERE are rumors again of the commencement of a railroad from Montrose into the mountains of San Juan. An Ironton correspondent of the Montrose Mes senger says: "I also heard that a party, probably composed of Dodge and Palmer. are to build a railroad from Montrose to Ouray, to act in conjunction with the Denver & Rio Grande, which itself cannot do while in a receiver's hands; work to be commenced within ten days.'

THE Department of the Interior has our thanks for copies of the existing land laws of the United States, local and To J. R. Crooke: temporary, Vols. 1 and 2 and History of the Public Domain. These books are of course thoroughly reliable, covering all points in government land law of every description. Our friends may consider them always at their disposal.

JAY-EYE-SEE on Friday of last week trotted a mile at Narragansett Park in 2:10, beating the record of all horses. Maud S. included. Vanderbilt will have to lower the record of his little mare. On the next day she did, making the mile in arrival the smelter will be put in operation 2:093, as will be seen by reference to a at as early a date as practicable. A little more full account appearing elsewhere in

W. T. DENISON. SALE UNDER CHATTEL MORTGAGE

TOTICE IS HEREBY GIVEN that by virtue OTICE IS HEREBY GIVEN that by virtue of a chattel mortgage executed by E. S. Norton to the undersigned as Trustees, dated October 13th, 1883, and recorded in Book 7, page 64, records of Dolores county, Colorado, to secure the payment of various notes for the aggregate sum of \$343.55, with interest at one per cent. per month from October 13th, 1883, upon which notes default in payment has been made, we the undersigned, as such Trustees, per cent. per month roth Cotober 1st., 1885.

upon which notes default in paymeut has been made, we the undersigned, as such Trustees, will sell the property in said chattel mortgage mentioned and described as follows:

All of the hotel outfit, including furniture, fixtures, stoves, tables, dishes, bedding and all of the goods and chattels of every kind, nature and description whatever situate in, at and about the building known as the St. James Hotel, on Glasgow avenue in the town of Rico, Dolores County, Colorado, at public auction, to the highest and best bidder for cash, at the said St. James Hotel building in said town, on Wednesday, the 3d day of September, 1884, at 11 o'clock, a. m., for the purpose of paying said notes and interest.

Dated at Rico, Colorado, this 2d day of August, 1884.

CHARLES P. ASHCOM, LOUIS SCHUELER, Trustees and Mortgagees.

ORDINANCE NO. 68.

AN ORDINANCE CONCERNING FIRE

Be it ordained by the Board of Trustees of the Town of Rico:

SECTION 1.—All chimneys, flues, fire-places and stove-pipes in the town of Rico, shall have a sufficient amount of brick, adobes, mud, tin, iron or non-combustible material between said chimneys, flues, fire-places or stove-pipes and any logs, lumber, or any combustible material, to prevent said com bustible material from igniting.

riting.

Section 2.—All stove pipe that protrudes through the roof, or side of any house in the town of Rico, shall protrude not less than two [2] feet, and shall be guarded with tin, iron, or some non-combustible material, where it pass-[2] feet, and shall be guarded with tin, iron, or some non-combustible material, where it passes through the roof or side of said house.

SEC. 3.—All chim neys, flues, fire-places and stove-pipes in the town of Rico shall be subject to the inspection of the Fire-warden, and said Fire-warden shall. If he deem it necessary, or complaints having been made, inspect any or all chimneys, flues, fire-places and stove-pipes in the town of Rico.

SEC. 4.—Any person or persons having been warned by the Fire-warden that their chimney, flue, fire-place, or stove-pipe is in an un-

ney, flue, fire-place, or stove-pipe is in an un-safe condition, and shall neglect to place the same in a safe condition within 24 hours, shal be fined not less than \$10.00 or more than \$50.00 or imprisoned in the town jail, not less that five days or more than twenty days.

Passed and approved this 28th day of July,
A.D. 1884. WILLIAM J. COX, Mayor.

ATTEST: GEORGE O. GILBERT, First publication, August 2d, 1884. Last publication, August 16th, 1884

PROPOSED AMENDMENTS

—то тне— Constitution of the State of Colorado.

PUBLIC NOTICE

is hereby given that at the general election to be held in the several wards and precincts of this state or the Fourth (4) day of November, A. L. 1884, and pursuant to the provisions of an act of the general assembly of the state of Colorado, passed at the fourth session thereof, being an act entitled

"An act to submit to the qualified electors "of the state of Colorado amendments to security in the state of Colorado amendments to security."

tions six (6), nineteen (19), and twenty-two (22), of article five (5), of the Constitution of the orado, concerning legislative de-Approved February 11, 1883, The following proposed amendments to to constitution of the state of Colorado will submitted to the qualified electors of said state for their approval or rejection, which when ratified by a majority of those voting thereon shall be valid as a part of the Constitution of said state, that is to say: "Section six (6), of article five (5), of the Constitution of the state of Colorado shall be amended so as

o read as follows, to-wit:"
"SECTION 6.—Each member of the general assembly, until otherwise provided by law, "assembly, until otherwise provided by law, "shalı receive, as compensation for his ser"vices, seven dollars—\$7.00—for each days at"tendance and fifteen—15— cents for each
"mile necessarily travelled in going to and re"turning from the seat of government, and
"shall receive no other compensation, perqui"site or allowance whatsoever. No session of
"the general assembly shall exceed ninety
"days. No general assembly shall fix its own
"compensation." compensation."
"Section nineteen—19—of said article five
5—of the Constitution of the state of Coloado shall be amended so as to read as follows,

rado shall be amended so as to read as follows, to-wit:"

"Sectron 19.—No act of the general assembly shall take effect until ninety days after "its passare,—except in case of emergency which shall be expressed in the act—[unless] "the general assembly shall by a vote of two-withirds of all the members elected to each "house otherwise direct. No bill, except the "general appropriation bill for the expenses" of the government only, introduced in either "house of the general assembly after the first "thirty days of the session shall become a law."

"Section twenty-two-22—of said article five—5—of the Constitution of the state of Colorado shall be amended so as to read as follows, to-wit:"

"SECTION 22.—Every bill shall be read by "title when introduced, and at length on two "different days in each house; all substantial "amendments made thereto shall be printed "for the use of the members before the final vote is taken on the bill, and no bill shall be "come a law except by a vote of a majority of "all the members elected to each house, nor "unless on its final passage the vote be taken "by ayes and noes and the names of those vot-"ing be entered on the journal."

"And by said act submitting said amendments it is further provided that"

"Each elector voting at said election and de-"sirous of voting for or against all of the "amendments as a whole, shall deposit in the "ballot box a ticket whereon shall be written "or printed the words "For the amendments." Any "such elector not desirous of voting as afore-"said may express his approval or rejection of SECTION 22.—Every bill shall be read by

said may express his approval or rejection of any one or more of said amendments as in the other case; Provided, That he shall des-"ignate any amendment so approved or re-jected by him, by number in the order in "which it occurs in this act, "and that" the which it occurs in this act, "and that" the worker in which it occurs in this act, "and that" the worke cast for the adoption or rejection of 'said amendments or of either of them shall be canvassed and the result determined in the manner provided by the laws of the state for the canvass of votes for representative "in congress"

D. A. Holmes went over to the West MESSRS F. A. W. Day and C. M. Smith | Dolores on Monday to enjoy a season of have been up from their Dolores river recreation. During his absence L. S. Dickenson raked in the shekels.

OUR former distinguished citizen, Geo. easy reach of Rico are Trout Lake, West R. Long, familiarly known as "Wichita," is now a resident of the Telluride district, where he has a fat wood contract.

> JOHN BISSELL shared the fun with the West Dolores hunters this week. He left A. H. Mundee with the money-bags and went across the divide on Tuesday.

F. H. FINLEY, representing the Bradstreet Mercantile Agency, Denver branch, was in Rico a couple of days early this week, asking the customary questions in order to quote business houses in reports.

A PARTY of pleasure seekers went into camp Monday at the hot springs on the West Dolores and have spent the week fishing, hunting and generally enjoying camp life. In the party are Mr. and Mrs. S. W. Bartlett, Mr. and Mrs. E. B. Quigley, Mrs. A. J. Mattson, Mrs. C. A. Jones and Miss Gussie Bartlett. They will probably return early next week.

A GENTLEMAN whose head is generally considered level, was heard to remark a few days ago: "After a residence of five years, studying the while the resources of this district carefully, I can say that my F. J. Walker and Sam Fleming. They opinion is there is not a district in the entire south which to day offers such in- trious predecessors and would not agree. ducements for investment of capital in Yesterday afternoon another change in the mines, domestic stock raising, dairying, etc., as does Dolores county."

WITHIN the next week the friends of Miss Katie Johnston and L. Frank Cromer will be called upon to congratulate don started out Sunday last and visited them upon their wedding. Mr Cromer the West Dolores, Trout Lake, Ames and is a deserving and industrious young man Ophir regions, returning Thursday night. and merits the good fortune which is in All these productive districts will make store for him. The happy couple will cecupy the pretty new house across Silver creek recently built by Henry Hensel. It has already been furnished.

HENRY C. W. BLOCK arrived Monday in company with Harry Cahn, and until parture, he was the guest of Joseph Meredith, superintendent of the Grand Duke Gus Heffernan started out Thursday | Mining Co. The young man is the son of with honors from Freiberg.

MESSRS. C. M. Williams and Charlie Wilcox came in yesterday from Durango. house of Goodrich, Weightman & Wilcox of Durango, but on last Monday sold his interest in the business to his partners, and will return to Chicago, his former home. He still retains his interest in the large building on the northwest corner of Glasgow and Mantz avenues, occupied by Frank H. Bishop. Mr. Williams is cashier of the Bank of Durango, one of the solid institutions, of the country, and came up

on some matters of business.

WE have often regretted our inability during the past two years to keep our readers posted on the whereabouts, occupation and progress of the notorious Eskridge brothers. We were informed this week that Harg, some time ago went to Philadelphia and secured a position there in some sort of a mercantile establishment as a clerk, and that he has renounced all his wild western ways, neither wears guns, An old man and his son camped a few drinks, smokes, chews, swears, wears any Chihuahua hats, nor "yips" on the street blood during his residence in the Quaker

JOHN GAULT and Jim Callery returned | Holmes is the best posted man in Rico on Monday from their trip to Big Bend. On base ball. Sunday the general round up for that district reached Johnston's ranch and they batting, the effect of which is shown in enjoyed the fun of seeing the cowboys the score, which is very high. This fact cut out, rope and brand calves, etc. The is chiefly due to the grounds, there being ED. SCHIFFER, of the well-known firm boys say the country around Johnston's several cabins, in reach of heavy batters, of Ed. Schiffer & Co., of Durango, came seemed alive with men, horses and cattle. and these give many a batter one base or in on Monday and remained here several Miss Schwenk, the school teacher down more, when he should be out. days in the interests of his house. The there, also viewed the round-up and in-Schiffers have been prominent southern spired the cowboys with enthusiasm. He does not state

ploits and performances.

MESSES. YOUNG AND CLARK came in Thursday and have been guests of J. H. Burghardt.

MRS. S. SAMUELS, mother of Mrs. Nath. Cahn, will leave on Monday, for Columbus, Ind., and will be joined in September by Mr. and Mrs. Cahn, who go east about that time.

GEORGE W. BEMIS will erect a saw-mill in the park just above town on Expectaare busy hauling wood to the Pandora tion mountain. Bob Brown and Hank Royce on Thursday commenced building a road up Iron gulch, down which logs will be drawn.

THE question of the trail to the West Dolores region was taken up by the county commissioners again on Wednesday and the viewers sent out made their report. It appeared that the "greatest good to the greatest number" would result from the construction of the route by way of the Johnny Bull mine and the county surveyor was instructed to at once proceed to survey the route and estimate the cost of building a trail three feet wide on a wagon road grade. The route is up rival this week, to attend to some mining Horse creek to the Johnny Bull, thence down Bull gulch to the West Dolores. The building of the trail on this side of COUNTY CLERK W. L. HULL started for the Johnny Bull divide will be under the West Dolores on Monday, leaving Ed | the direction of D. Hayden, road supervisor for this district vice Gus Misch resigned; on the other side W. T. Overman. who holds a similar office in that district, will see to the work. The trail will be of great benefit not only to the rich West Dolores region, but to the Horse Gulch people as well. The old trails in this gulch are now much cut up by rock and land slides, fallen timber, etc. We are heartily in favor of good, free trails and roads, and lots of them. Nothing would benefit this county more than a good system of free roads. The trail spoken of will be built at once. Surveyor Wannemaker, with the road supervisors, started out Thursday morning to com mence their work.

> THE "right of trial by jury" has been extensively exercised the latter part of this week in the case of Habermann vs. Clark & Wilkinson, in which the liability of a horse to attachment for the debts of George Haney is involved. Haney was until lately the owner of the horse, but gave a bill of sale to C. & W., without actually turning over the horse in the flesh. Habermann attaches and the battle begins. A jury trial is demanded and Sheriff Swickhimer on Thursday drafted W. H. Bean, John Gault, F. C. Loring, A. A. Waggoner, A. I. Goodell and John the unfortunates were F. H. Bishop, C. M. Smith, Harry Cahn, Tom Thompson, followed in the footsteps of their illusjurymen was made and this time the victims were Wm. Davidson, Jos. Mereditn, F. L. Downs, Robert Brown, J. Hicks and L. J. Levis. This jury was locked up until two o'clock this morning and compromised, C. & W. paying the costs, of sale cannot be too careful after seeing the developments of this case.

DROWNED IN THE DOLORES.

The Sad Death of James H. Burns On His Way to Unaweep.

The startling news that a well-known citizen of Rico had been drowned, was brought in by mail on Wednesday eve-Worden Grigsby and was written by Jim Hall. It reads as follows:

MESA CREEK, July 31st, 1884. DEAR GRIG:-It is with a sad heart that I write to you to day. Poor Burns was drowned yesterday evening about fifteen minutes of six o'clock. We got to Cornell's camp about noon yester-day and stayed there till about five o'clock, when we started for the claim. The first crossing on the river looked as if it was fordable and Burns started in ahead and I right behind him. He got about half way across, when the current got too strong for his horse. I turned and went back. When I got on shore, Burns and his horse were about 150 feet below me Burns then turned his horse for the shore he had left, and turned his horses head up stream, when the horse turned and got quartering with the current. It washed him on his side and threw Burns out of the saddle. Burns went down the river about 200 feet and got footing on a rock or gravel bed and stopped himselt. As soon as I saw him go down the river I got a rope as quickly as I could and when l saw he was on his feet I tried to wade to ward him till he could reach the rope, but could not do that. I then went to the bank opposite him and threw the rope and he got hold of it. I was standing or a rock that extended out over the channel about 15 feet. As soon as he got hold of the rope he started for me. He had not moved four feet from where he stood till he went out of sight. He was washed under the rock and I never saw him again. He still had hold of the rope and I had the other end, but I could not pull him because he was so far under the rock and the current was so strong and heavy. I could not move him a foot. will go down the river to-day to see if I can find the body anywhere.

Yours in haste. JIM HALL. Hall and Burns left Rico on Saturday, July 26th, intending to go to Unaweep cañon and had been five days on the road when the terrible accident so well describ ed in the above letter occurred. The letter was taken by Fred A. Cornell to Campbellsville, the nearest postoffice, which is in Mesa county, this state. As near as can be learned, the place of the accident was a crossing of the Dolores river about seven miles below the mouth of the San Miguel. Almost immediately the Dolores cañons begin, which close abruptly over the stream and continue for a vast number of miles. In view of this, unless the body of the unfortunate man remained in the whirlpool under the rock, there is Shaver. They agreed to disagree and no reason to hope that it will ever be reanother jury was empanelled; this time covered. It is more than likely that his death grip on the rope was finally broken by the surging torrent and that he was swirled away in the deepening darkness, unseen by his companion, who with strain ing eyes peered from the rocks above, helpless and alone. Hall's feelings must have terrible, knowing that his friend was dying and unable to render him any as-

James H. Burns was born and spent his early years in Newburgh, N. Y., about were discharged before reaching a verdict. 60 miles from the City of New York, and After having three juries, the matter was here his father still resides. His two un married sisters, Misses Emma and Addie \$111, and taking the horse. Haney gave Burns, are now traveling in Europe. Clark & Wilkinson security to indemnify | The sad news has been telegraphed home. them against loss. People accepting bills The age of the deceased was 33 years. He came to Rico two years ago, at the close of the expedition into the Chilili mountains. He made hosts of friends, who deeply and truly mourn his death. Physically, he was a giant; he was far above medium height and weight and walked the streets erect as a statue with the stride of an athlete. To think that so fine a specimen of physical manhood, in the full flush of vigor and health, should be so suddenly taken from its field,

seems more than a pity. Mr. Burns leaves behind him a goodly quantity of this world's goods. A little over a year ago a dying relative bequeathed him \$10,000 and he was already the possessor of much property and ready money. In Rico he owns both town and mining property. Poor fellow, if his body is destined to be dashed about in the merciless waves, we hope his soul has found perpetual peace and rest as an

Lincoln State Journal A west-bound freight on the B. & M. main line yesterday reported at Dorchester that there was a man-lying doubled up near the track some distance back, who looked as if he might have been hurled off a train and killed or made insensi-

The word was sent in, and orders were sent that the east-bound passenger should stop and an examination of the matter !e made. As it approached the place designated, the passengers saw the man, evidently in the same position he was when seen by the freight train crew. The train stopped and the conductor and the engineer, and the fireman and most of the pas. Or Money Refunded! sengers got off in great excitement and gathered 'round the prostrate form.

'See how he is doubled up," said one of the passengers. "Poor fellow, that must be the way he fell." "Look, he moves," said another, as they came closer. "He isn't dead, anyway. Seems to be breathing allright.

"I don't believe he's much hurt," said a little man frem Kansas. "Here, what's the matter? Can you hear?"

The figure raised up, and wiping his eyes with a pair of grimy fists, said: "It beats h-l if a man can't lay down and take a nap without having an excursion train run out to gape at him."

A design for the permanent tomb of President Garfield has been occepted by the committee having it in charge. Mr. George H. Keller, of Hartford, received the first \$1,000 prize. The monument is to be in the form of a tower, which rises from a broad terrace reached by widespreading steps. A projecting room at the base contains a vestibule, on one side of which is the keeper's office and on the other a room for a register of the visitors. The vestibule leads into a round, vaulted chamber containing eight polished granite columns in a circle around a sculptured tomb. Richly mullioned windows light the interior. In the walls of the chamber are niches for busts, statues or tablets. A spiral stone staircase leads from the aisle surrounding the columns to the top of the tower, which is to be 250 feet from the ground. At intervals in the ascent are commanding views of the surrounding country, and the birthplace of Garfield, eight miles distant can be seen from the top. Outside of the monument, above a deeply recessed portal is a terra cotta band or frieze of sculpture six feet high, extending around the base of the tower, and with bas relief, representing Garfield as a soldier, statesman and teacher, with touching incidents of his assassination and funeral. At the back of the chamber a vault for the Garfield family is to be constructed. Garfield's remains will be enclosed in a crypt below the level of the

A New Railroad. From the Grand Junction News.

Yesterday it was learned that certain heavy railroad contractors had been invited to examine the profiles and send in bids on 400 miles of the road to be built through the mountains of Colorado. The matter is being kept quiet, but within two months it is said that a large force of laborers will be brought to Colorado, and work upon the prospective road commenced. It is expected that the work will be completed within a year. Those cognizant of the facts in the case positively refuse to state what company controls the projected line,

new line is a Burlington extension, and that the road will be built to Grand Junction, at which point a conjunction is to be made with the Rio Grande & Western,

but say that the new road will be built as

soon as possible. It is hinted that the

Texas Bronchos for Asia. The New Orleans Times July 27th says

and a third rail laid to Ogden.

this morning a freight train outbound for New York, left here with sixteen cars of broncho horses, stallions and mares, the destination of which is Constantinople. The animals were purchased in Texas by an agent of the Turkish Minister at Wash ington, and are destined for the plains of Tartary, where they will be released to resume their wild life. The object of introducing Texas bronchos into Turkey, is to interbreed them with the will horses of the steppes of Asia, with a view to improving the breed.

THE Texas cattle drive this year is the largest known since 1874, and is variously estimated at from 300,000 to 500,000. The cattle are in much better condition than usual and will find purchasers in Kansas, Colorado and the Northwest. A much larger per cent than ever before are coming forward by rail. It is pretty generally affirmed that next year will see all of 65 per cent of the Texas cattle shipped by rail, and that in a few years the drive from Texas north will only be a camp-fire story related by old cowboys while on the Western ranges.

The Shortest, Quickest, Cheapest, Safest and only all-the-year-around route to points in California, Nevada, Oregon, Idaho and Washington Territory. No heartless Sioux, Modocs, land or snow-slides, but smooth and

AT SAN FRANCISCO

Connections are made with ocean steamers for Chili, Peru, Honduras, Buenos Ayres, China, Japan, Alaska and the Sandwich Islands.

Go West, Young Man.

There is the promised land; there is the purple of the ripening grape and the cluster of the apricot's bloom; doubt not, as Moses did, but go out into the land where honesty and industry go hand in hand with peace and prosperity.

Kansas,

Colorado,

New Mexico and Arizona

Offer inducements to the capitalist, merchant, farmer, miner, mechanic, stock-grower and the laborer; inducements that are never encountered in the older and more densely populated states. They invite you to bring your wives, sweethearts, politics and religion-all will be protected.

For information regarding cheap homes, land, etc., address A.S. JOHNSON,

Land Commissioner, Topeka, Kansas. For passenger, emigrant, or colony rates, address

ST. MARY'S SCHOOL

St. Mary School, under the care of the Sisters of Mercy, was established in North Durango in September, 1882, and accepts either boarding or day pupils. Particular attention is given to vocal and instru-mental music, and German, drawing, plain sewing, and every variety of fancy work are taught without extra charge.

There is a separate building on the grounds for boys, who receive all the care and attention from the sisters to which they are accustomed in their own homes, and during the night are in charge of a trustworthy secular. The charges of this very worthy institution are very moderate. For further particulars address "Mother Superior, Sisters of Mercy, Durango, Colo."
