Newspaper Failures.

Failures among Colorado newspapers have been frequent of late. Last week the Georgetown Miner, a fine paper, went under, and the Gunnison Review-Press discontinued its daily edition.

The Review-Press, like all other business interests in Gunnison, has felt the pressure of hard times. That pressure has increased with the disappearance of railroad and wagon bridges all over the Gunnison country by the floods.

The prospects for improvement in financial matters within the next two or three months are not flattering. The railroad from Denver to Salt Lake will not be in operation for fully a month, if not two months; by that time any hope for great results this year will have passed.

It is further ordered that the Denver & Rio Grande Railway Company, its officers and agents, or whoever is in possession of it, deliver over to the Receiver all the property real and personal of the company in the same condition it was in at the time of the making of this order, except so far as is necessarily changed in the proper management of the road.

What Receiver Jackson will Do.

Denver Republican of the 13th. The order of the court, appointing Mr. Jackson Receiver of the Rio Grande, was formally made yesterday.

It fixes his bond at \$500,000, and authorizes Mr. Jackson to take possession of all the property of the company, real and personal, including money, road beds, iron ties, lands, right of way rolling stock, leases and franchises.

A Bull Fight on American Soil. The first bull fight on American soil take place in Dodge City on the Fourth. A dispatch from Dodge on the 5th said that a large number of visitors arrived from the East and West, and 500 cow boys were present.

The first bull fight on American soil take place in Dodge City on the Fourth. A dispatch from Dodge on the 5th said that a large number of visitors arrived from the East and West, and 500 cow boys were present. The fight occurred at the fair grounds in an arena 100 feet in diameter, enclosed by a fence eight feet high, provided with 8 escapes and two ladders.

The Boy in Made Over Clothes.

There is no experience of a man's life that causes more bitter recollections than do his boyhood days, when he had to wear clothes that were made over from those that had been worn out by his father or uncle.

In country places a man's clothes become a part of him, after he has worn them a few years, and when he finally sheds them, and his good wife overhauls them and makes them over for their boy, there is no way of disguising the fact that they are the same old clothes.

The secret service division of the treasury department has received advice that a new \$10 silver certificate has appeared in the West. It is supposed to have been printed from a wood cut, but is likely to deceive the ordinary judge of money.

A Forest Fire.

At 1:30 yesterday Denver was overcast by a vast cloud of smoke which darkened the sun to a fiery red ball, which cast a lurid glare over everything.

A Gentleman at a Theatre

A GENTLEMAN at a theatre said to his companion: "Who is that ugly creature who just entered the box opposite?" "Why, sir, that is my sister."

A Cloud Burst in Sand Gulch

A CLOUD burst in Sand Gulch, near Boulder, washed out twelve bridges on the Bonlder Canon branch of the Greeley, Salt Lake & Pacific road.

Fifty Thousand Postmasters.

Baltimore American. The second volume of the government "Blue Book," otherwise known as the official register of the United States, which contains a full list of the officers and employees of the postoffice department and the postal service, has just made its appearance.

The name of all mail contractors, post-office clerks and agents of all the various railroads, all of those employed in the mail messenger service and railway mail service, all letter carriers and clerks in post offices and all postmasters. The list of postmasters discloses some interesting facts. There are, in round numbers, about 50,000 postmasters in the United States whose salaries run from \$8,000 per annum down to 9 cents.

The Threatened Outbreak.

There is now no question, says the Apache, Arizona, Chief, but what the Mormons and Navajo Indians have formed a coalition. We have it from reliable sources, and further, the Mormons are getting in a large supply of ammunition. Every Mormon is now armed.

MINING MATTERS.

sudden and thorough. The drill will sink deep into the bowels of the earth before the search is given up.

ORE CONCENTRATION.

RICO, July 17th, 1884.

To the Editor:

Sir:—I am in receipt daily of letters of inquiry asking how much ore will the concentrating machines I represent treat in a day of 24 hours? What per cent. of the mineral will they save? There are a great many difficulties connected with the concentration of ores that but few people seem to understand.

It may carry a heavy mineral and a comparatively light gangue, as does, for instance, galena. It may carry a moderately heavy mineral and a light gangue, as do many of the iron sulphures. It may carry a light mineral and a still lighter gangue, as do most of the copper sulphates. It may carry a light mineral and a gangue of nearly the same gravity, as limonite generally does.

It may carry two minerals, of different gravities, both valuable, one of them heavier than the gangue and the other of the same gravity with the gangue, or a little lighter or heavier. For instance, a mixture of hematite and limonite ores, with a pyroxene gangue; or galena ores, carrying zinc blende in paying quantities or galena carrying chalcocites, with or without zinc blende.

It may carry mineral in the minutest forms of sub-division, either naturally, or because being brittle it is easily reduced in the stamps to slimes, which sink beneath the surface of the water, as for instance, many of the telluride ores and of the silver chloride ores.

It may carry minerals finely sub-divided that will float off on the surface of the water, as many of the antimonial silver ores do. It may carry mineral naturally coarse and not very brittle, which, crushed through a 60 mesh screen, will not become very fine.

Each one of the above varieties of ore may also be heavily charged with clay, or it may be entirely free from it. The speed and closeness of concentration are greatly affected by the comparative gravities of the ore and the gangue, the coarseness or fineness of the particles of mineral, and the presence of the clay. Machinery which will closely and rapidly work some of the freely concentrating ores, may be entirely worthless, without additional appliances and special adaptation in working other ores; and some ores are absolutely uncontrollable with any appliances.

And in all cases both the speed and the closeness of the work will be materially modified by the nature of the ore under treatment. In consequence of the widely differing natures of ores, concentrating machines must be modified and adjusted to suit their peculiarities. It requires the most extreme nicety to pick out each little particle of mineral from the many particles of gangue surrounding it.

A mine owner who simply "orders a concentrator" as he would order a barrel of flour in the market, without a previous careful examination into the concentrating properties of his ore, is likely to be disappointed in the results. The operation of concentrating is one of the most difficult and delicate ones connected with the treatment of ores. And the machinery for it should be the most perfect possible. I will test samples of ores, for parties desiring to purchase concentrating machinery, and give an opinion on the following points: 1st—Can the ore be concentrated at all? 2d—How closely? 3d—At what cost for machinery? Parties sending ore from a distance must prepay the freight.

Your truly, JOHN McCASKEY.

The Condition of the D. & R. G.

The situation is summed up by the Denver Inter-Oceanic in the following language:

The Denver and Rio Grande railroad, under a receiver, will be in far better shape than it was. The Lovejoy management accuse the Palmer management of having kept up a fictitious show of prosperity, and the Palmer people retort that Lovejoy's methods have caused the wreck. That is the way the conflict stands, and the road meanwhile has gone to pieces through raids on the stock and through washouts along the line.

The greatest regret about such a collapse is that it will give the State of Colorado a very black eye, because there will be plenty of wise galks who will credit the break to a wild supposition that "the bottom has dropped out of Colorado."

We are not in the habit of swapping lies with the Eastern capitalists, and we shall not deny the evident truth that Colorado is having hard times; though, as to that, commercial travelers tell us that Denver is lively compared with Eastern cities. The year in Colorado has been a succession of natural cussedness. The snow fell deep, and lay long. When it melted, it went suddenly under our hot mountain sun, and the valleys were flooded. Then lead went cavoring down hill and the mines suffered. Then money went crazy in Wall street, and our smelters had to draw the lines together in buying ore, while there was a back set in development of our agriculture ditchland. These are some of the causes that have made Colorado dull, and they are all causes that would have affected any Eastern State. That they should affect Colorado is not at all strange, especially when we consider that the growth here has been so rapid that there has not been time to arrange the necessary basis for sound finances.

The Gulf coast of Mexico is quarantined against France on account of cholera.

Death of Colonel Boone.

Col. A. G. Boone died in Denver Monday night. He was the oldest son of Daniel Boone and was the earliest Colorado pioneer, coming here in 1826. Of him the Denver Tribune says:

Colonel Boone was one of the first white men who ever crossed the plains, having reached the Rockies nearly forty years ago. He was one of the first Indian agents ever appointed by the government. He it was who made treaty with the Cheyenne and Arapahoe Indians for the possession of this portion of the country by the whites. He was intimately connected with Indian affairs about three years ago, when he retired from public life. At the time of the uprising of the red man when General Custer was killed Colonel Boone was called on by the Government and succeeded in pacifying the Indians. At the time of his death Colonel Boone was 78 years of age and his death-bed sufferings were alleviated by the presence of two of his daughters, Mrs. B. D. Spencer, of this city, and Mrs. Judge H. W. Jones, of Southern Colorado. Two other daughters are living. Mrs. Coleman Elmore Otis and Mrs. Captain Charles Hobert, the husbands of both of whom are now in service in Texas and Montana respectively.

Capture of Six Indians.

The Indians have been trying their old tactics and after the recent trouble separated, and started off in different directions, some south and other bands towards the White River country. The story of the capture of six of the Indians is told by a Durango dispatch of last Tuesday to the Denver Tribune:

James Sparrow, in charge of the headquarters of the Carlile Cattle Company, arrived in the city from the Blue mountains yesterday. He reports that Captain Perrier, with his company, had arrived from Fort Lewis at the scene of the recent fight between the cowboys and Southern Utes, found the cow camps, except that of John Lewis, all destroyed, together with wagons and provisions, and about 100 horses driven away. Nine dead horses were found and eight shot so they will be useless. The mules of W. S. Wilson were killed. Another company of cavalry had reached Mitchell's store, on the San Juan, some distance below the Blue mountains, and captured six Utes riding branded horses in stolen saddles, and having other stolen property. They will be held for trial.

The cantonment will at once be built by the soldiers inside the Colorado line, near Mitchell's. The Indians have divided their booty and scattered, evidently hoping to reach the reservation in small parties. The soldiers and cattle men are resolved to capture and make an example of as many as possible. The scene of the trouble is about 120 miles west of Durango and off the reservation. There are fully 30,000 head of cattle in the vicinity. Geo. W. Kephart received a letter last evening from Durango stating that the Interior Department had issued an order authorizing settlers to shoot any Indian seen attempting to join the renegades from the reservation.

Terrible Texas Tragedy.

GALVESTON, Texas, July 13.—The News-Dallas special says: "W. H. Beale and Bowie, in a room in the third story of the National Hotel, fought a duel to the death to-night with pistols. Shots were heard and the room was broken into but both were lying dead, with the pistol of each lying by his side. Both were shot through the heart and head. Shortly prior to the duel they were devoted friends. A few minutes before the tragedy they had a quarrel and one was heard to say, 'damn you, I'll kill you,' soon after they returned to the room when the shots were heard and the announcement was made that both were dead. The tragedy created great excitement and hundreds of people are surrounding the hotel. The cause is unknown at this hour."

We are just in receipt of the Halstead (Kansas) Clipper, of July 1st, announcing the marriage of Harry P. Schell, who is a well-known printer in Southern Colorado, having served a long time on the Durango Record. The paper first spoken of says: "H. P. Schell, an old-time friend of y e editor's was married to Miss Sonoma Shaw a sister of our wife last Sunday at McPherson, Sunday, June 29. Mr. Schell is also a newspaper man, having been associated with the Smoky Valley News, published at Lindsborg, for the past six months. It is not an uncommon thing for editors to get married, but it is not often that two of them marry sisters and get married at the same time. We wish the happy couple long life and prosperity, and hope Mr. Schell may meet success rarely known to journalists, that he and his charming bride may enjoy their wedded life as well as ourselves and bride hope to enjoy ours."

If the latter part of that notice don't savor of Kansas, we miss our guess. GEORGE BOYD, mail-carrier from this city to White Cross, nearly lost his life at the Nine-mile ranch last Saturday. The bridge across Lake Fork, at that point was washed away, and Boyd attempted to ford the stream. His buckboard was overturned and he fell under it. The tongue broke and his mules escaped after a hard struggle. Boyd was rescued by two men who saw the accident. The mail bag was lost and cannot be found. —Lake City Letter.

The pay car of the Denver & Rio Grande left Denver on Thursday, the 17th instant, to make a tour of the road, prepared to cash the unpaid checks of employes. This news will be received with rejoicing by the numerous attaches of the road who have had no pay for their services for the past three months. The Rio Grande track torn up by President Lovejoy was re-laid Monday by the order of Receiver Jackson.

Colorado Postoffices.

The annual report on Colorado salaried postoffices has been made and it is a matter of surprise that our own office shows the heaviest reduction in salary, being reduced \$300.

Five offices lose \$200, as follows: Alamosa, Durango, Gunnison, Lake City and Pitkin. The following named offices each have a reduction of a single \$100: Black Hawk, Boulder, Breckenridge, Cañon City, Central City, Colorado Springs, Del Norte, Denver, Fort Collins, Georgetown, Golden, Leadville, Longmont, Pueblo, Silver Cliff, South Pueblo and Trinidad.

The only offices in the state which show an increase of salary, the amount being \$100, are Salida and Silverton.

The following statement shows the presidential postoffices in the state, together with the salary as arranged under the present adjustment, for the fiscal year ending June 30, 1885:

Table with 2 columns: Office and Salary. Includes Alamosa (\$1,100), Black Hawk (1,100), Boulder (1,900), Breckenridge (1,900), Buena Vista (1,600), Cañon City (1,600), Central City (1,700), Colorado Springs (2,400), Crested Butte (1,100), Del Norte (1,300), Denver (3,400), Durango (1,700), Fort Collins (1,700), Georgetown (1,700), Golden (1,500), Grand Junction (1,400), Greeley (1,800), Gunnison (1,900), Idaho Springs (1,500), Lake City (1,200), Leadville (1,800), Longmont (1,500), Loveland (1,100), Ouray (1,400), Pitkin (1,000), Pueblo (2,400), Rico (1,100), Salida (1,600), Silver Cliff (1,400), Silverton (1,800), South Pueblo (2,300), Trinidad (1,800).

The cantonment on the Uncompaggre has been reduced to a one-company post. Three carloads of soldiers belonging to Company G, Tenth infantry, reached Gunnison on the Rio Grande train Friday afternoon on their way to the Cantonment.

J. R. DEREMER, the hero of the old railroad war in the Grand cañon, has been invited by the Denver and Rio Grande people to take a hand in anything that that turns up at the western State line and will probably do so.

FRANK DEWALT, the dude banker, has been proven a defaulter, while he was evening from Durango the First National Bank of Leadville. His sentence will be passed in a few days and will be not less than ten years.

The man who owns a property too good to abandon and too poor to sell is in an unfortunate condition, unless he can raise the money with which to work it.

The last of the bodies buried in the Woodstock snow-slide, that of Joe Revinge, the Italian, has been found. This makes thirteen bodies that have been found and buried.

RECEIVER JACKSON took full charge of the D. & R. G. last Saturday.

LOCAL BREVITIES.

FRED REED was down from Trout Lake early in the week.

MISS LILLIE HARTMAN is absent in Durango, having left yesterday morning.

Mrs. HUGH RAY has been visiting her friend, Mrs. Muncester, at the toll gate this week.

The advertisement of the old reliable assayer of Rico, T. Steudeman, appears in this issue.

JACK LITTLETON, formerly one of the firm of Littleton & Broughton, returned from Trinidad Monday.

The Gilbert & McGraw building, sold last Monday under trust deed, was bid in by Mrs. Martha E. Shimmis, for \$600.

DICK JOHNSTON, of the Parole, who has been down in the Farmington, N. M., country, for some months, returned two weeks ago.

W. H. BEAN has been nursing a sprained ankle with a crutch this week. With this and Brydon's tanyard, the firm has been too busy to kill flies and entertain George Conundrum and Pete Crawford.

The Odd Fellows building has been raised and the addition completed, making a handsome building. The order is in a fine financial condition, and can afford to squander a few hundred dollars in permanent improvements of this kind.

CHARLIE BULLOCK returned Wednesday from Bernalillo, N. M., where he has been developing a property belonging to himself and partner, Wm. Shaw. He was a month on the road up from Bernalillo, having been detained by high water.

The opening Sunday dinner at the St. James hotel was a splendid spread, and was enjoyed by many. Sunday dinners will be a specialty of the house and will be largely patronized by the many miners who are off duty in the hills on that day.

CHAS. JONES brought in a wagon load of strawberries from the Animas valley Tuesday. The gentleman is no relation, but is the ninth of the name we have bumped up against in Colorado. If this sort of thing keeps up much longer we'll try John Smith a while.

LEWIS VERDIS, a prominent mining man from Leadville, who is connected with the Arkansas Valley Reduction Co., was an arrival of Thursday evening, and has been among the mines ever since. To-day he went up to the Little Magpie, Leila Davis and Black Hawk.

CAHN & BISHOP on Monday moved to the Goodrich building, which in future they will occupy. The building is on a prominent corner and will make a good business location. A large invoice of fine agents' furnishing goods and fresh staple and fancy groceries is on the road for the house.

GEORGE S. BARLOW brought down to the Waring works on Wednesday the first load of lumber for the new buildings to be erected to accommodate the amalgamation plant. He kept a force of his own men at work on bridges and road between the saw mill and works until he got his teams through.

L. S. DICKINSON, who has been looking after his interests in the Gunnison country since May, came in Tuesday by way of Lake City and Silverton, coming through from Gunnison in four days. He reports a season of terrible business depression in the Gunnison country, and that the San Juan towns, dull as some of them seem, are active in comparison.

ANOTHER game of ball will be played tomorrow afternoon between the Firemen and the Picked nine. Each nine has won a game and this is the deciding game and will be hotly contested. The members of both nines are requested to be on the field promptly at 1 o'clock, as it is desired to play nine innings, to make the final game a thorough test and an interesting match.

JACK WESTCOTT came in from his ranch at the mouth of Narragutup creek, on Monday. He is devoting his talents this year to the manufacture of butter. His ranch is many miles from Rico, but he will find his way here once in a while. The ranch is located in the summer hunting grounds of the Utes, but he apprehends no trouble to his family from the recent outbreak.

The first train to Rockwood for several weeks came up Monday, and since then regularly. All the force that could be put to work in the Animas cañon has been laying track all the week and expect to reach Elk Park, 7 miles below Silverton, to-day. Trains will run daily on the Silverton extension, putting an end to the silly rumor that the road would not be rebuilt and the route abandoned.

JOHN GAULT, Rico's pioneer butcher, having leased the meat market for one year to Gaubatz & Rule, will devote the coming twelve months more to pleasure than business. On Wednesday he left for a trip to Telluride, Ouray and Lake City, in the last two of which places he has many friends. In the fall he will try a lower altitude and travel through New Mexico and Arizona. Jim Callery will accompany him and guard his pocket-book on the southern trip.

The County Commissioners had a continued session this week. About the only business done was the acceptance of the semi-annual reports of clerk and treasurer, and the establishment of a new Dolores county voting precinct at Wallace's ranch on Disappointment creek. Justice of the peace, H. P. Wallace, Constable, Alfred Dunham; Judges of election, Sam Todd, J. N. Pearce and W. T. Ryan were appointed to serve in the newly-created precinct until the next general election.

WHERE is Ed Suydam?

AL. HAEN came in from Telluride to-day.

LEWIS RALLI has a wholesome fear of giant caps since Wednesday last.

The Darling family will enjoy the novelty of camping at the Black Hawk mine for the next two weeks.

JNO. F. WATKINS, wife and son and W. A. Adams and son are expected to-day or on Monday next.

VIC YEAGER is an artist in the arrangement of wild flowers. We judge from a magnificent bouquet in our possession.

ANDY BRYDON has a kid. It was found on the West Dolores by Joe Barker this week and Andy will go after it to-morrow.

We neglected last week to mention the birth of a boy baby to the Jas. Morris family. The young man will please accept our apologies.

Mrs. A. J. MATTSOFT, of Prophetstown, Ill., is expected to arrive next Friday evening, and will remain during the summer as the guest of Mrs. S. W. Bartlett.

Most of the poll tax suits brought last Tuesday before Police Judge Norton resulted in the citizen paying both tax and costs of suit. Some escaped under the disability clause.

The young ladies who were active in getting up the surprise party Wednesday night desire to return thanks to Messrs. Bennetts, Enfield and Lewis for the excellent music furnished.

AUGUST GORLA and daughter, Miss Belle, will start on their return to St. Louis on Monday, much pleased with Rico and her citizens. Gus Giamboni will escort them to Trout Lake.

E. L. DAVIS returned from Telluride Tuesday night and brought down 16 pounds of fine trout from the lake. While in Telluride he put 32 men to work on some mines of which he is superintendent.

D. A. McGRAW, ex-postmaster and until lately one of the drug firm of Gilbert & McGraw, left Rico on Thursday morning, bound for Kansas City, where he has been offered and accepted a position with the wholesale drug house of Meyer Bros.

The horse sent out in the McCurry herd by Al Haen was on its way in last Monday and when near the Snyder ranch was bitten somewhere about the head by a snake and died in a few hours, its head swelling to immense size before death. The kind of reptile is not known as it was not seen.

ONLY two more weeks of school and then the children will have a vacation before the commencement of the fall term. Financially the school district is in a splendid condition, but the directors complain that parents take so little interest in the school. An occasional visit from parents would encourage both teacher and pupils.

W. C. KUHLMAN came in from his ranch Thursday and reports the road down the river in a very bad condition and it will require a great deal of work to make the fordings crossable, as the stream has cut out the banks until they are much too steep to allow a wagon to be driven into the stream. This road is in La Plata county and should be attended to.

Mrs. FILER L. THOMPSON left Rico yesterday morning and will at once proceed to Milwaukee, Wis., her former home, and will commence to study and practice her favorite art—painting—for which she has developed such talent. Her absence will probably extend over a period of many months, and the matter of a course of study in Europe is seriously thought of. Her progress will be of much interest to her Rico friends.

W. S. POINDEXTER returned to Rico Wednesday, after having been absent about three years, during which time he has traveled over Arizona, New Mexico, parts of Old Mexico and California. He has been twice reported dead, but he turns up bright and smiling and none the worse for wear. He reports the financial status of the southern country to be quite distressing and that he has had enough of alternate desert lands, where water must be carried two or three days, and raging torrents of water impossible to cross.

The baseballists of Rico effected an organization last Tuesday night and will be known as The Rico Baseball Club, to be composed of two nines—first and second. A committee of two (John W. Summers of the Firemen's nine, and A. H. Munde of the Picked nine) was appointed to select the first nine and present their names at the next meeting—Monday evening. This nine will then select a captain and make other preparations for winning the Trans Continental championship belt. A committee of three, Munde, Wakeman and Kelley will draft constitution and by-laws. The boys are anxious for a tilt with Telluride.

GEORGE V. MESEROLE, proprietor of the Western Stage, Mail & Express Co., (as he summer stage line as the world ever knew) arrived in Rico last Monday evening. Personally Mr. Meserole is a very pleasant gentleman, with an excusable weakness for opera, and his mail service at this writing is all that could be desired by the most exacting. If this olive branch is not sufficiently supplied with foliage, remember that the season is a trifle backward this year and that all species of vegetation is stunted. Mr. M. left on Wednesday, bound for the Southern Pacific country, along which line he has several mail contracts.

Contributed by Claudius.

The present year, as we are glad to note, promises to be a prosperous one for Rico. The Pasadena smelter which has been called into existence, as a consequence of the demand for minimum charges for the treatment of the large amount of low grade ore, has given mining a new impetus and inspired all with new hope and energy. The enterprise is in the hands of men having the experience, intelligence and means to make a howling success.

Many persons are inclined to discredit the assertion that Rico has not yet reached its zenith and that it is fast improving. It seems incredible that a field which has promised so much is destined in the near future to astonish even its most zealous supporters. Recent events, however, confirm the prosperous conditions of Dolores county so strongly that the most skeptical must believe. In spite of the unprecedented snow of last winter and the lateness of the season, the output of Dolores county last year will be considerably augmented the present year.

Several mining properties are being quietly and actively worked, and what ever is being done, is carried on in a business like and prudent manner. There are a large number of very valuable mining properties, which have heretofore been idle, that will pay to work now that the charges for treatment will be reduced to the lowest possible minimum. In fact, impartial, capable mining men who would look the field over here, would be agreeably surprised at the result of their investigation.

Upon the completion of the new re-venteratory furnace being erected, Rico will be equipped equal to the best districts in the state. We have the Grand View, a blast furnace, for the treatment of our smelting ores. The Waring lixivation works for the treatment of our dry ores and the Santa Clara amalgamation works for the treatment of free milling ores. In the matter of the treatment of ores Rico cannot be surpassed.

The work of tearing down the new blast furnace, in which a fire was never ignited, erected by the Rico smelter people, was commenced Thursday. The material being used in the construction of the new furnace is all on hand. The engine arrived this week and will be placed in position at once. The excavation of the flue chamber, which is 250 ft. in length, is completed and the erection of the wall, under contract, is progressing rapidly. The excavation for the cupel furnaces is completed, the brick work is now being laid and, indeed, everything is assuming completion under the skillful management of Messrs. Dixon and Neville.

Work For the Rico Militia.

L. S. Dickenson tells us that while he was in Lake City last Sunday, Capt. Geo. J. Richards of that place received a telegram from Adjutant-General Sheppard, asking how many men the Lake City Co. could turn out to go at 24 hours notice to the scene of the track tearing on the D. & R. G. at the state line, and also instructing him to communicate with the Rico and other San Juan companies to ascertain their available strength. From this it would seem that trouble is apprehended and that possibly the state troops will be called on to quell the disturbance. No word has been received by Company E., of Rico, but the boys might as well brush up guns and pantaloons and prepare for a double-quick.

TWO FIRES.

The Residence of Geo. Percival Burned To-day.

The infrequent cry of "fire" was raised about 9:30 last Monday night and the scene of the conflagration was found to be Pat McKenna's house on Glasgow avenue, across Silver creek. The fire had evidently been burning some time and so had quite a start of the firemen, who did some lively rustling at the first tap of the alarm. The roof was all ablaze on their arrival, but ladders and buckets of water soon extinguished the fire and soothed McKenna's feelings. The Als, Steele and Munde, mounted the burning structure and handled the buckets with grace and effect. Munde and others introduced their heads under buckets in their descent to the ground and Race Duntun soured himself in the creek; beyond these, no casualties. The cause of the fire is a mystery, as there had been no fire in the stove since 6 o'clock, and the conflagration started behind the cupboard several feet away from the stove.

Shortly before two o'clock this afternoon the cry of fire was again heard and the cause was soon seen to be a serious blaze at the residence of George Percival, just two doors distant from the fire of Monday night. It was instantly seen that there was no hope of saving the building as it was all in flames in a few seconds after the alarm was given. It seems that Mrs. Percival had lighted a fire in the stove and had gone over to Mrs. Robinson's place to get some milk. She was absent longer than she expected and was hastened home by the alarm. The whole inside of the building must have been in flames before the fire was discovered, as it is in an out of the way part of town. W. B. Norton first saw the fire and managed to get out two trunks, which were the only things saved from the flames. The wind was high and swept the flames over the adjoining building, the property of Mrs. E. E. Rust, and it seemed to be impossible to save either that or the McKenna house, which was so badly scorched Monday night. The firemen worked like beavers and Andy Brydon stood up in the face of the flames for more than half an hour when it seemed that he would be scorched to a crisp. To him is due much of the credit for saving the two adjoining buildings.

The Rust building was unhurt save a severe scorching; it was on fire more than once. The Percival house had just been paid for by dint of hard work and economy and everything was sacrificed to the merciless maw of the flames, even to the few dollars which Percival had saved, which were in his coat pocket. Appreciating the situation, the following paper was circulated by W. H. Bean this afternoon and received many signatures. It will be found at Bean & Brydon's to-morrow and next day for those who desire to sign it. The men are requested to meet at that place at 8 o'clock Tuesday morning:

"We, the undersigned, agree to furnish the labor of one man on Tuesday, July 23d, to assist in building a new house for our neighbor, Geo. Percival, who was rendered homeless by the fire of to-day. Bids for replacing the bridge which spanned the Dolores between Rico and Piedmont were received by the town council until 8 o'clock Thursday evening. There were five bids, as follows, all bids agreeing to accept town warrants at par: Victor P. Bushey & H. Bannan.....\$244 W. H. Doyle.....395 Sol Enfield.....346 W. H. Doyle, Jr.....390 H. E. Snyder.....459 The contract was awarded to Messrs. Bushey and Bannan, whose bond was accepted last evening and work commenced to-day. Bond is \$600, with \$15 forfeiture for every day over eight consumed before completing the bridge."

TANSILL'S PUNCH.

Smokers who appreciate a good cigar, go to Finello's for the above brand.

TANSILL'S PUNCH.

Tansill's Punch cigar, for sale at Finello's fruit and cigar store, is having a great run.

BEWARE !!

All persons notified to pay poll tax had better do so before August 1st and avoid suit. SOL ENFIELD, Street Supervisor.

TO MY CUSTOMERS.

I will continue in the future as in the past, to furnish milk as cheap or cheaper than any other dairyman in Rico. I am not at all disgraced, am still in the ring and propose to stay by the pot. H. E. SNYDER.

NO. 348.

Application For A Patent.

U. S. LAND OFFICE, DURANGO, COLO., May 20th, 1884. NOTICE IS HEREBY GIVEN that George A. Bute, by his attorney in fact, Henry Schwank, whose postoffice address is Rico, Colorado, for himself and co-claimants, Conrad Walbrach, Calvin Donaldson and Mrs. Gertrude Schwank, has this day filed his application for a patent for 1482.5 linear feet of the ALTITUDE LODE, bearing silver and galena, with surface ground 250.9 feet in width, situated in Pioneer Mining District, county of Dolores, and state of Colorado, and designated in the field notes and official plat on file in this office as Lot Number 1936, being described as follows, to-wit: Beginning at Cor. No. 1, whence N. W. Cor. Sec. 36, T. 40 N. R. 11 W. of N. M. P. M. bears S 72° 22' 20" E 822.0 ft; thence S 40° 30' 00" E 300.0 ft to cor. No. 2; thence S 51° 14' 25.5 ft to cor. No. 3; thence S 40° 30' 00" E 300.0 ft to cor. No. 4; thence N 87° 20' 00" E 300.0 ft to cor. No. 5; thence S 72° 22' 20" E 822.0 ft to cor. No. 1, place of beginning. Magnetic variation, 14° 10' E; containing 9.95 acres. The location of this mine is recorded in the Recorder's office of Dolores county, Colorado, in Book 4, page 546. The adjoining claim is Sur No 1955A. No others known.

NO. 347.

Application For A Patent.

U. S. LAND OFFICE, DURANGO, COLO., May 20th, 1884. NOTICE IS HEREBY GIVEN that George A. Bute, by his attorney in fact, Henry Schwank, whose postoffice address is Rico, Colorado, for himself and co-claimants, Conrad Walbrach, Calvin Donaldson and Mrs. Gertrude Schwank, has this day filed his application for a patent for 1482.5 linear feet of the BERTHA S. MINE, bearing silver and galena, with surface ground 300 feet in width, together with the shafts, situated in Pioneer Mining District, county of Dolores and state of Colorado, and designated in the field notes and official plat on file in this office as Lot Number 1935 A and B, being described as follows, to-wit: [A]—Beginning at cor. No. 1, whence N. W. Cor. Sec. 36, T. 40 N. R. 11 W. of N. M. P. M. bears S 72° 22' 20" E 822.0 ft; thence S 40° 30' 00" E 300.0 ft to cor. No. 2; thence S 51° 14' 25.5 ft to cor. No. 3; thence S 40° 30' 00" E 300.0 ft to cor. No. 4; thence N 87° 20' 00" E 300.0 ft to cor. No. 5; thence S 72° 22' 20" E 822.0 ft to cor. No. 1, place of beginning. Magnetic variation, 14° 10' E; containing 9.95 acres. The location of this mine is recorded in the Recorder's office of Dolores county, Colorado, in Book 4, page 547. The adjoining claims, Sur nos 1956 and 1956B.

MILL-SITE (B).

Beginning at cor. No. 1, whence N. W. Cor. Sec. 36, T. 40 N. R. 11 W. of N. M. P. M. bears S 71° 27' 33" E 913.9 ft; thence N 46° 15' 33" E 153.3 ft to cor. No. 2; thence N 50° 30' 00" E 300.0 ft to cor. No. 3; thence S 40° 30' 00" E 300.0 ft to cor. No. 4; thence S 72° 22' 20" E 822.0 ft to cor. No. 1, place of beginning. Magnetic variation, 14° 10' E; containing 1.272 acres. The location of this Mill-Site is recorded in the Recorder's office of Dolores county, Colorado, in Book 12, page 123. The adjoining claim is Sur No 1956A. No others known.

Trustee's Sale. WHEREAS, The Santa Clara Mining Company, of Colorado, did, on the 12th day of January, A. D. 1881, by its certificate of deed of trust of that date, duly recorded in the office of the County Recorder of Dolores county, Colorado, in Book 20, page 229 of the records of said County, convey to Benjamin P. Easton, of Covington, Kentucky, as trustee, and in case of his death, resignation, removal, or absence from the city of Covington, Kentucky, to Albert Bettinger, as successor in trust, the following described real estate situated in the County of Dolores, State of Colorado, to-wit: Commencing at the northeast corner post No. 1 and running west 300 feet to the south 310 feet, thence east 430 feet and north 300 feet and bounded on the north by the Hall mill-site, the south by the City place claim, on the east by the Little Cora placer, known as Division Placer Mining Claim, refer to book 49, Dolores county records, page 385; and also the following: Beginning at the southwest corner No. 1, from which the north-south line of the Dolores river bears N 72° W 180 feet; thence south 72° E 50 feet to the northeast corner No. 2; thence north 92° west 315 feet to the northwest corner No. 4; thence north 92° west 300 feet to corner No. 1, east bank Dolores river [refer Book 21, page 204, Dolores County Recorder's office, as the Santa Clara Placer Claim, 4 75-100 acres.

Also the following: Beginning at cor. No. 1, a post 5'x4" marked on side cor. No. 1 and on opposite side S M 664, whence Mevina lode No. 8 location monument bears N 87° E 67.4 feet thence N 87° E 140.4 feet to cor. No. 2, a post 5'x4" marked on one side cor. No. 2 and on adjacent side S M 694, the S M 694 location monument bears N 87° E 140.4 feet to cor. No. 3, a post 5'x4" marked on one side cor. 3 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 4, a post 5'x4" marked 4 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 5, a post 5'x4" marked on one side cor. 5 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 6, a post 5'x4" marked on one side cor. 6 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 7, a post 5'x4" marked on one side cor. 7 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 8, a post 5'x4" marked on one side cor. 8 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 9, a post 5'x4" marked on one side cor. 9 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 10, a post 5'x4" marked on one side cor. 10 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 11, a post 5'x4" marked on one side cor. 11 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 12, a post 5'x4" marked on one side cor. 12 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 13, a post 5'x4" marked on one side cor. 13 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 14, a post 5'x4" marked on one side cor. 14 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 15, a post 5'x4" marked on one side cor. 15 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 16, a post 5'x4" marked on one side cor. 16 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 17, a post 5'x4" marked on one side cor. 17 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 18, a post 5'x4" marked on one side cor. 18 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 19, a post 5'x4" marked on one side cor. 19 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 20, a post 5'x4" marked on one side cor. 20 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 21, a post 5'x4" marked on one side cor. 21 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 22, a post 5'x4" marked on one side cor. 22 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 23, a post 5'x4" marked on one side cor. 23 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 24, a post 5'x4" marked on one side cor. 24 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 25, a post 5'x4" marked on one side cor. 25 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 26, a post 5'x4" marked on one side cor. 26 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 27, a post 5'x4" marked on one side cor. 27 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 28, a post 5'x4" marked on one side cor. 28 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 29, a post 5'x4" marked on one side cor. 29 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 30, a post 5'x4" marked on one side cor. 30 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 31, a post 5'x4" marked on one side cor. 31 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 32, a post 5'x4" marked on one side cor. 32 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 33, a post 5'x4" marked on one side cor. 33 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 34, a post 5'x4" marked on one side cor. 34 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 35, a post 5'x4" marked on one side cor. 35 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 36, a post 5'x4" marked on one side cor. 36 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 37, a post 5'x4" marked on one side cor. 37 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 38, a post 5'x4" marked on one side cor. 38 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 39, a post 5'x4" marked on one side cor. 39 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 40, a post 5'x4" marked on one side cor. 40 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 41, a post 5'x4" marked on one side cor. 41 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 42, a post 5'x4" marked on one side cor. 42 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 43, a post 5'x4" marked on one side cor. 43 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 44, a post 5'x4" marked on one side cor. 44 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 45, a post 5'x4" marked on one side cor. 45 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 46, a post 5'x4" marked on one side cor. 46 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 47, a post 5'x4" marked on one side cor. 47 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 48, a post 5'x4" marked on one side cor. 48 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 49, a post 5'x4" marked on one side cor. 49 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 50, a post 5'x4" marked on one side cor. 50 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 51, a post 5'x4" marked on one side cor. 51 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 52, a post 5'x4" marked on one side cor. 52 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 53, a post 5'x4" marked on one side cor. 53 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 54, a post 5'x4" marked on one side cor. 54 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. No. 55, a post 5'x4" marked on one side cor. 55 and on opposite side S M 694; thence S 70° W 149.6 ft to cor. Familiar to Rico.

Detroit Free Press. Two residents of Springwells had a difficulty over a game of cards the other day, and the result was the arrest of one for assault and battery.

"You see, Judge," he began, "we were three points up."

"What's a point?" blandly remarked the court.

"Why, we were playing five-point-euchre; we each had three. A point counts one, your Honor."

"Ah!" "He dealt and it was my lead."

"Deal—lead, Please explain."

"Why, he shuffled the cards and dealt the hand, and it was my first play."

"Well, go on. Perhaps I can understand."

"I led the ace of diamonds and he trumped it with a club. That is, he refused suit."

"Do you mean he refused to be sued?"

"No, sir. I'd like to explain this thing to you, because it was about the suit we had our fuss."

"I see—go on. You said you put a diamond down on the table. Did he grab it?"

"He trumped it with a club."

"Ah! Did you see him carrying a club around before you sat down to play?"

"Your Honor, I'd like to take a pack of cards and explain to you."

"No use—no use. I've heard some of the Aldermen speak about the right and left bowers, and I've heard of jacks and kings and aces, but it would be lost time to try to show me. You don't seem to have any case."

"But that's because you don't understand me. When I charged him with refusing suit he struck me in the mouth."

"Did, eh? Well, there isn't any case to speak of. The prisoner is discharged, and you'd better whack up on the costs."

"And to think," groaned the counsel for the plaintiff as he reached the sidewalk, "that only the evening before, this same innocent old J. P. beat me out of seven glasses of beer at that very game of euchre, and I'll take my solemn affidavit that he stocked the cards on me at least every other hand."

Wages of Leadville Miners.

Leadville Chronicle. We have taken considerable pains the past fortnight to gather reliable figure on the wage labor of the Leadville mines, the smelters and the other industries directly connected therewith.

The mills and smelters employ 500 men, including those who will have no work by the temporary blowing out of the Manville smelter, but which will not last long.

And we know you will derive more good than you have any idea of. Our reputation as a manufacturing company is such that we cannot afford to deceive.

The Ruined City in Arizona. Boston Journal. The ruined cliff city discovered in Arizona last summer occupied the sides of a cañon, which has been christened Walnut Cañon.

Three full courses, four years each. Scientific, Latin Scientific and Classical.

PREPARATORY SCHOOL. Pupils fitted for any one of the College courses.

NORMAL SCHOOL. Three years' course, with thorough training for the teaching business.

SPECIAL COURSES. Excellent facilities for giving instruction in chemistry, assaying, etc.

Tuition Free. For full particulars send for catalogue and circular.

J. A. SEWALL, President, Boulder, Colorado.

DISEASE CURED

WITHOUT MEDICINE.

A valuable discovery for supplying Magnetism to the human system. Electricity and Magnetism utilized as never before for healing the sick.

THE MAGNETON APPLIANCE CO.'S

Magnetic Kidney Belt!

FOR MEN IS—

WARRANTED TO CURE Or Money Refunded!

The following diseases without medicine:— Pain in the back, head, hips or limbs, nervous debility, lumbago, general debility, rheumatism, paralysis, neuralgia, sciatica, diseases of the kidneys, spinal diseases, torpid liver, gout, seminal emissions, impotency, asthma, heart disease, dyspepsia, constipation, erysipelas, indigestion, hernia or rupture, catarrh, piles, epilepsy, dumb ague, etc.

To the Ladies: If you are afflicted with lame back, weakness of the spine, falling of the womb, incidental hemorrhage or flooding, painful, suppressed and irregular menstruation, leucorrhoea, chronic inflammation and ulceration of the womb, barrenness and change of life, this is the best appliance and curative agent known.

Price of either belt with magnetic insoles, \$10, sent by express C. O. D., and examination allowed, or by mail on receipt of price.

NOTE.—Send one dollar in postage stamps or currency (in letter at our risk) with size of shoe usually worn, and try a pair of our Magnetic insoles, and be convinced of the power residing in our Magnetic Appliances.

THE MAGNETON APPLIANCE CO., 218 State St., Chicago, Ill.
