Pecos Valley Base Ball Players to get Down to Business---Roswell Town Team Defeats Artesia 8 to 7

The boys returned from Roswell Tuesday night and reported that the Pecos Valley League is now and arrangments will be made in the near future for its organization and the perfecting of a schedule. The only reason that it in existance is because is not now only three managers were present Tuesday and they at Roswell not feel like going on with the business. The teams represented husi ere Lake Arthur, Roswell and The other towns in the Artesia. League will be Hagerman and Lakewood, and probably Carlsbad. The Roswell town team defeated

Artesia Tuesday in one of the hottest games so far this season, by a score of 8 to 7, in twelve innings. The prettiest play in the game was the catch made by Leland. Baker had lined out one that was headed for the dim distance beyond the fence, and looked good for a home run, when the Roswell player ran back to the fence and jumped as high as he could after the ball. He caught it in one hand and spoiled Artesia's chances for win-

As it was the first game with Roswell, we had not intended to say anything about the brotherly way the umpires worked for the well team, but when the Rec ord landed with a dull heavy thud on the Artesia pitcher, it seemed to us to be better to give the facts. The game was stolen in a shameless manner, and Artesia would have won out if she had not had to play against the two um-pires in addition to the regular team. These gentlemen followed no set rules but made up ground as they rules to suit the occasion These to suit the occasion as they went along. If this is the best Roswell can do, the next time they have a game Artesia would be pleased to lend them a couple of her high school boys who know the difference between a fair ball sion fee. and the admi

Manager Kemp has resigned his position as he had not time enough to do the team justice, and Mr. Linell will undoubtedly be the new manager. Two Needed Reforms

There are two evils that Artesia would do rid herself of. The one is the foreign trade habit and the would do rid herself of. other is the fake advertising schemes. It is the business of the people of the town to attend to the one and the special prerogative of the merchants to care for the oth-

How much has one of these for eign firms given? Has this though ever come to you --- what would become of Artesia in case everyon purchased goods from firms located in Chicago? We are willing to admit that prices are higher here than in the states but suppose that we charge the prevailing prices for our advertising and job work and then purchase all of our supplies from Chicago or elsewhere, in order to secure the lower rates, provided they are lower the which w are not willing to admit. Would we then be bearing our rightful share in the development of the country? Could we expect our rights to the patronage of the community to be protected?
