NUMBER 33

## This And That About One Thing and Another

The hospital fund campaign will be launched next week, with a Talent Show to be presented at the school auditorium on Friday night, September 8. Folks you don't want to miss this. It's going to be good. We have codies of talent in Quitaque and everyone is putting forth their best efforts to make this a good entertainment. They want you to enjoy yourselves, because there will be more shows to follow and they want you to come back.

If this printer can find time to run off some tickets, they will be on sale this week end, or the first of next, so please buy a ticket—or several—even if you have to miss the show. The money could not go to a worthier cause.

Quitaque needs the hospital. We have a fine young doctor, who is winning his way into the hearts of all he has served, and for him to really serve his best, a clean and sanitary medical center is a must. But you know all that—we are going to have a hospital, one that we will be proud of. The plans for remodeling the building are drawn up and look mighty nice. The architect says we don't need the money, all we need is to START.

That's what we are ready to do. M. L. Roberson and Mayor C. C. Ham are joint chairmen of the hospital project, and the show next Friday night is the first to raise funds—as painlessly and pleasantly as possible.

The show will offer entertainment to please every palate. The churches will have some numbers, the business houses will sponsor numbers—there will be skits, and solos, vocal quartets, and instrumental music, readings, etc. Mrs. A. E. Gragon is general supervisor, and she knows how to keep things humming; H. G. Gardiner is master of ceremonies, and he's a good ring-master—things will snap along so quickly, you'll wish there were more. Be there—with your family or some friends. The more, the merrier.

This will be good news to kids AND parents—matinee shows will be resumed this Saturday at the Queen Theatre. For several weeks Mgr. Ham has discontinued the afternoon shows, and mothers have been at a loss to know what to do with their youngsters who had formed the Sat. mat. movie habit. And most of them have. Have to it, kids—the show will be open Saturday afternoon!

Two showers fell this week, one Saturday night, about 22 of an inch, and a little more than that fell Monday night.

The editors took off last week end for four days, and they are now four months behind with everything. Besides working with the force a man short, other things interfered, including hay fever, so if the past several issues of The Post have seemed a bit short to you, we'll try to make it up. Send in your complaints, and we'll file them and tend to them as soon as we can dig down to yours.

**GENE IS COOKING AGAIN**  
Mr. and Mrs. Agee and family who bought the Quitaque hotel and took possession on August 1, did not make their home here very long. They have already moved to Oklahoma, and have leased the hotel to Mr. and Mrs. Gene Chandler.

The Chandlers have done some re-arranging and have re-opened the dining room at the hotel. They are serving family style meals, with breakfast from 6 to 8 o'clock, dinner from 12 to 2 o'clock and supper from 6 until 8. Gene says to come in and eat with them—you are welcome to all you can pile on your plate—and be polite about it, of course.

In Plainview Sunday to visit Earnest Morrison who is in the sanitarium for treatment of a severe heart condition were Mr. and Mrs. Odell Setliff and boys, Mr. and Mrs. Dick Hooks, Mr. and Mrs. Gene Clary, Mr. and Mrs. Ralph Carter, Mr. and Mrs. Sen Washington and Travis Morrison and Mr. and Mrs. Johnny Brummett.

## Schools Start Sept. 4 At Quitaque & Flomot

Quitaque high school students report Friday morning, September 1, for registration at 8:30.

At 1:00 p.m. a general faculty meeting will be held in the high school building. All teachers are requested to be present.

School will begin Monday, Sept. 4 at 9 o'clock. There will be a general assembly in the auditorium at this hour. Supt. Cross announced and everyone, parents and others interested, are cordially invited to be present and meet the new members of the faculty, as well as greet those who are returning.

The lunch room will not operate Monday, but lunches will be served Tuesday. The school buses will operate Monday.

The Flomot school also will open Monday, Sept. 4, Supt. H. M. Allison announced this week. The buses will run at the regular time and classes will continue until noon. The lunch room will not operate Monday.

The faculty at the Flomot school is composed of H. M. Allison, who is serving his third year as superintendent; Mrs. Allison, english; W. Z. Martin, commercial subjects; Pete Brumley, coach and history; Mrs. Ethel Damron, 5th and 6th grades; Miss Vada Fraiser, 3rd and 4th grades; and Miss Ala Tinney, 1st and 2nd.

### SON OF MR.-MRS. A. A. JAMES KILLED MONDAY IN OKLAHOMA

Mr. and Mrs. A. A. James were notified Monday night that their son Paul James, about 30 years old, had been killed accidentally while operating an electric drill Monday afternoon. The message stated that the body was at Medill, Okla., and Tuesday morning Mr. and Mrs. Rudell James left to take his parents to Oklahoma. Details of the tragic accident were not available in time for publication this week.

### BILL EBBS TO PREACH SUNDAY

Bill Ebbs will preach Sunday at the First Baptist Church, in the absence of the pastor, Bro. Ray Riley who is at the bedside of his mother in California.

Word received early in the week from Bro. Riley stated that his mother was seriously ill and he did not know when he would leave her side.

### LOCALS

Mrs. John Castleberry is making a nice recovery from surgery performed last week, and Mr. Castleberry reported that she had been moved from the hospital to the home of her daughter Mrs. Claud Conner in Amarillo.

Mr. and Mrs. J. B. Baird took their son Tommy to Vernon last Wednesday and left him there for treatment. Mr. and Mrs. C. P. Richmond are also in Vernon and they are looking after young Tommy.

Mr. and Mrs. Odell Setliff and boys moved Tuesday to Clinton, Okla., to make their home. Odell is with the Graham-Hoome Plow Co., and in charge of the sales for southwest Oklahoma.

Mr. and Mrs. Dave Miller and girls of Tucson, Ariz., visited last week with relatives here.

Mr. and Mrs. Bill Helms and Joe Edd returned last Thursday from a delightful vacation trip to New Mexico where they visited her brother Arnold Johnson and wife and her sister and family at Tucumcari. They made a trip 150 miles back into the mountains, over rugged lumber camp roads to fish, and Joe Edd caught the first fish pulled out of the stream, for the thrill of his life. Mrs. Helms said the fishing was pretty good and they all enjoyed some thrills.

Miss La Juan Stell was returned home Sunday from the Plainview sanitarium where she underwent an emergency appendectomy last Tuesday, and she is getting along fine.

Billy Joe Sachse has returned to Quitaque and is again associated with the Farmers Co-op gin as bookkeeper.

### Gasoline Road Contract Slated For October

A message to County Judge J. W. Lyon, Jr., from James Potts, of Floydada, resident highway engineer, received earlier this week, stated that the contract on the Gasoline paving job would be let in October.

### CIVIC MINDED LIONS BEAUTIFY CITY PARK

At the Lions Club meeting Thursday night of last week, plans were made for a "working party" to clean off the city park, and believe it or not—the party was a howling success. We can't figure it out. The party was attended by about twenty or more Lions and friends—which is a better turnout than most of the regular meetings—and there wasn't a scrap of food to entice them.

Four power mowers were on hand to give the grass nice finish after some strenuous weed chomping with hoes, the lawns were raked and the park is beginning to look again like a park.

The Lions had some able assistance from Mr. Faust who is the architect in charge of remodeling the bank, and Faust did not confine his efforts to supervising but engineered some hoing and raking under his own power. F. C. Benson also made an appearance, and he more than likely has had lots of yard experience—his wife has the most beautiful yard in town.

One more working party will be needed to get the park back ship-shape and it will be held in the very near future. Everybody is invited to these affairs—and cordially welcomed. Of course it's elbow grease and not just suggestions that are needed.

### BARBER SHOP SELLS

In a business deal closed Wednesday, Dick's Barber Shop changed hands and the new owners, Ted J. (Susie) Wynn and Henry E. (Johnny) Pool, both of Turkey, took over the business this week. Dick Hooks has operated a barber shop in Quitaque since 1917, and perhaps his business has been in continuous operation longer (or as long) than any in town.

### PARTY FOR VISITORS

Miss Clara Ruth Woods was hostess at a party at her home last Friday night in honor of her cousins Christine Anderson and Doris Sanders who were visiting from California.

About 25 young people attended and enjoyed the backyard games and refreshments of ice cream and cookies.

The girls left Sunday with their mothers, Mrs. A. B. Anderson and Mrs. Preston Sanders for a visit with relatives in San Antonio, before returning to their homes in California.

Mr. and Mrs. A. L. Morris and Bobby spent the week end in Greenville with his mother Mrs. May Morris who returned home with them. Her daughter Mrs. Austin Crabbe and family of Gallup, N.M., will be here this week end and will return her to her home in Greenville.

## The Bank Will Be Closed MONDAY, SEPTEMBER 4 Labor Day

Please arrange your banking business accordingly and avoid possible inconvenience. Thank you.

THE FIRST NATIONAL BANK  
Member of F. D. I. C. Quitaque, Texas

### Rogers Wins Congressional Race Grewe Chosen For Sheriffs Office

The turnout at Quitaque for the election Saturday was splendid, 314 votes being cast at the Quitaque box. The local voting went very much on the same pattern as the rest of the district and state.

Raymond Grewe shaded out Bill Hardin by a small margin in the only local race, for the office of Sheriff, Tax Assessor-Collector of Briscoe county, winning by 84 votes.

Grewe had a short lead in all boxes except San Jacinto and Antelope. Returns show the following: Silverton, place 1—Grewe 142, Hardin 103; Quitaque—Grewe 179, Hardin 129; San Jacinto—Grewe 11, Hardin 26; Antelope—Grewe 6, Hardin 11; Silverton, place 7—Grewe 89, Hardin 82; Silverton, place 8—Grewe 593, Hardin 509.

In the congressional race, Rogers carried every box in the county with the totals: Altavene Clark 404, Walter Rogers 654. At Quitaque vote was Clark 94, Rogers 203.

The Lt. Governor's race showed a county total of 638 for Ramsey and 405 for Pierce Brooks. At Quitaque, Ramsey 182; Brooks 101.

John C. White of Wichita Falls is Texas' new commissioner of agriculture.

The Texas Election Bureau's final count gave the 25-year-old White 11,074 votes more than J. E. McDonald, 69, who had hung on to the office for 20 years. The election bureau estimated only 12,000 votes remained uncounted from Saturday's Democratic runoff primary.

For Commissioner of Agriculture, the county totals were White 583, McDonald 382. At Quitaque, White 165, McDonald 94.

The other three runoffs, for judicial offices, Dickson won over Wilson; Griffin over Harwood, the county results showing Griffin 943 to Harwood 66; and Morrison won over Lattimore.

Walter Rogers of Pampa, elected Democratic nominee for Congress in the Saturday runoff election, had some kind words for his opponent, Mrs. Altavene Clark.

"I want to pay my respects to a gracious lady and a worthy opponent," the Pampa attorney told The Amarillo Daily News in a long distance telephone conversation. Rogers is at Sherman, where he rushed to be with his ailing elderly mother late Saturday.

He declared his "humble appreciation for the vote the people gave me, I owe so much to the unstinting work of the fellows who worked in my behalf," he affirmed.

Rogers said he is dog tired after more than eight months of straight campaigning — through three elections. He began the political trek for the May 6 special election, continued through the primary and finally to the runoff.

He referred to a series of misfortunes which plagued his family during the critical last days of the campaign. One child was quite ill; another was bit by a dog (belonging to Mr. Guill, incidentally) and the climax came with the sudden illness of his mother, Mrs. T. G. Rogers, who is believed to have suffered a slight cerebral hemorrhage.

Grady Starkey became ill Monday and was taken by Daniel ambulance to the Stanley hospital at Matador where he has remained for several days treatment. Grady is pretty sick.

### Last Rites Held At Flomot For W. I. True

Last rites for William I. True were held Thursday, August 24, at the Flomot Baptist Church, at 3 p.m., with the pastor Rev. J. E. Lee officiating, assisted by Rev. J. J. Terry of New Mexico. Burial was in the Flomot cemetery under direction of Daniel Funeral Home.

Pallbearers were nephews of Mr. True: Woodrow Cobb, Orval Cobb, Weldon Slayton, Wallace Slayton and Bobby Slayton, and Levey True of Snyder. Flower bearers were Dortha Faye Slayton, Ravenel Cobb, Jeane Pigg, Betty Ruth Merrell, Virginia Welch, Mrs. Florine Cobb and Mrs. Delores Pigg.

Mr. True was born August 20, 1883 at Bentonville, Ark. He passed away three days after his 67th birthday at the Traweek hospital in Matador where he was taken by ambulance Monday following a stroke at his home.

He married Miss Amanda Virginia Latta in 1906 in Montague County, and they were the parents of seven children. Two children died in infancy and one passed away at the age of two. A daughter, Pauline died when she was 10, and a son Raymond True was a casualty of World War II, going down with his ship the Plymouth in August, 1943.

The loss of this son was a grief from which Mr. True never recovered and his health gradually failed until he suffered a series of strokes the past month.

After their marriage Mr. and Mrs. True lived for a time in New Mexico, moving to Turkey in 1912, and to Flomot in 1915. They moved to Quitaque in 1944. He was converted and joined the Flomot Baptist church in 1915.

Survivors are the wife and two children, a son Robert True of Carlsbad, N.M., and a daughter Mrs. Irene Johnson of Flomot; five grandchildren; three brothers, Ed True of Whitesboro, George True of Decatur and Allen True of Quitaque; and three sisters, Mrs. Cecia Slayton and Mrs. Walter Cobb of Quitaque, and Mrs. George Braley of Sterling, Okla. All were present for the last rites except the brother from Whitesboro.

### NEW SON

Mr. and Mrs. P. T. Clark, Jr., of Silverton announce the arrival of a son, weighing 7 pounds and 2 ounces. The boy was born Monday at 3:25 p.m. at the Silverton hospital and was named Robert Paul.

### Paulita McCracken Is Bride In Home Rites

In a simple but impressive home service, marriage vows were exchanged at 9 o'clock Sunday morning by Miss Paulita Joyce McCracken, daughter of Mr. and Mrs. Boone McCracken of Quitaque, and Joe Harold Young, son of Mr. and Mrs. J. T. Young of Tulla.

Herbert Gipson of Amarillo directed the rites which were spoken in the home of the bride's parents. The couple stood before a window in the living room where garden flowers were used for decorations.

The only attendant was the bridegroom's brother John Young of Tulla who served as best man. The bride given in marriage by her father, was very attractive in a pinstripe suit of medium blue, with slippers and a small hat in color to match. Her blouse was pink and her corsage was of pink carnations. For something borrowed she carried a pink silk lace handkerchief and for something old she wore her Grandmother McCracken's wedding ring.

Immediately following the ceremony the couple left for a honeymoon in Ruidoso. Upon their return they will be at home in Tulla where he is employed at the Texico station.

Wedding guests were the bride's parents and her sister and brother Glenda and Stewart; the bridegroom's mother Mrs. J. T. Young of Tulla; Mr. and Mrs. Ralph Carter and children, Mr. and Mrs. W. J. Carter, Mrs. Leon McCracken; and Otho Ellis, Mr. and Mrs. John Young and daughters, Mr. and Mrs. Bill Chandler and children, all of Tulla.

The bridegroom attended school at Quitaque when the family resided here, and at Tulla. The bride is a graduate of the Quitaque schools, receiving her diploma as salutatorian with the class of 1950.

### TO YOU FOLKS OF BRISCOE COUNTY

I wish to thank you for the support you gave me in the Saturday August 26, election.

I will greatly appreciate your cooperation as one of your next county officials to make my term of office a success.

To you who did not support me I wish to say thank you for the vote you gave Bill because he is your friend and mine.

Sincerely,  
RAYMOND K. GREWE

the first of the week for a business trip to Dallas.  
Mrs. Lewis Lyles and daughter Judy returned home Sunday from a week's visit with her parents at Henrietta.

Blackie Stidham left last Thursday morning for Dallas to report

for military service and will be sent to San Antonio for training.

James L. Stidham, 23, son of Mr. and Mrs. J. L. Stidham of Quitaque is out of the hospital at Kermit where he had been for three weeks as a result of injuries re-

ceived when he became entangled in a catline while employed at an oil well. The leaders in his left arm were severed.

Mrs. Stidham and Blackie were down to see him over the week end and report that he is getting along nicely.

**Family Style Meals**

AT THE QUITAQUE HOTEL

**REPORT ON FLOOD DAMAGE FROM FLOYD COUNTY SCS**

The Floyd County Conservation District board of supervisors held their monthly meeting Tuesday August 1. The flood damage that has been occurring for the past month was discussed at length. Ten farms that have conservation plans with the District have been checked to see how they withstood the flood. These farms had the major portion of planned practices applied on them prior to the heavy rains. Cecil Purcell, chairman of the board, said the treated farms stood up very well. Most of the damage occurred on terraces where runoff from other land occurred. Purcell thinks it is very necessary to start terracing and contouring at the top of slopes and work down. He said the proper maintenance of terraces and farming with them is equally important. The removal from cultivation of land that is too steep, shallow soils or severely damaged by erosion by planting to grass is the best conservation for these conditions.

The J. H. Boggs farm was in the middle of the heaviest rainfall. Water ran over the top of every terrace on his farm but none washed out. The worst damage to this farm was from hail.

Mrs. U. C. Purcell reports that her terraces in a rolling field held but had some breaks in a flat field due to a railroad dump break. Mrs. Purcell stated the terraces saved her farm.

The Leon Elliott farm that is

farmed by L. B. Monk suffered no damage to terraces. This land has been replanted four times, due to heavy rain after each planting.

Virgil George had one small break in a terrace but his three ponds were not damaged. He had to replant some cotton and feed but probably did no more replanting than normal. George says if he had not had terraces he would have lost everything.

Pete Clark has had no damage to his terraces on his home place but terraces broke on another place because they caught runoff water from other land. The heavy runoff was due to terraces giving away on the adjoining farm.

James Kimbell had some terraces to break on his home place due to runoff from the road. The road ditches had not been maintained and could not take care of the water properly. Mr. Kimbell reports that terraces on another farm he operates did not break although the rain was heavier.

The Ben Cogdill farm, operated by Leon Elliott, has some bad breaks in the terraces. They held a 3.5 inch rain but washed out later when a still heavier rain fell after the ground was saturated.

There was no damage to the terrace system on the W. O. Cobb farm.

The Soil Conservation Service assisted the district cooperators in getting treatment on the various farms. The terracing and contouring withstood the flood quite well, however, with a few grass waterways and other conservation prac-

tices the damage would have been lessened. Terraces not only held the water and prevented erosion but also kept it on the land and it

<b>Fresh Okra</b> lb.	15¢
BELL PEPPERS, lb.	13c

will be available for future crops. Terracing alone cannot prohibit all the damage but must be combined with other equally important practices. Conservation farming by managing stubble and crop residue and planting grass on steep shallow soils or eroded areas would have prevented much damage.

**Your Choice Is My Choice**

Friends, you who voted for me did so in good faith believing that I was capable of the job. Thanks a million for your confidence.

Now, I ask that you put that confidence and trust in the winner, Raymond Grewe, without the support of the people he nor anyone else could do the job.

To you who could not vote for me, I believe, after considering everything, you were not against me, but that the majority of you were voting for the one whom you believed would perform the duties of the office in a more business and man-like manner.

I am sorry if I failed to convince you that I could, and would, have rendered you an impartial and equal service. But I want to make it clear that your friendship is worth more to me than your vote in Saturday's election, and that I do thank you for your kind consideration.

We are graced that we live in a country where we can, in our own judgment, give an impartial consideration, go to the polls and cast a vote for our choice and then, win or lose, join hands as a body and support the winner. Thanks a lot.

Congratulations, Raymond. I thank you a lot for being a good sport. I appreciate your fairness.

## before you buy a new truck

**MOST EFFICIENT COOLING SYSTEM** with jet-directed water stream to valve areas.

**FULL-PRESSURE LUBRICATION** with rift-drilled connecting rods which forces oil to full-floating piston pins.

**TOCCO-HARDENED CRANKSHAFTS** — finest known—used in every GMC.

**MILES PER ENGINE** — the number of trouble-free miles you can expect from a truck engine is mighty important to know—especially now.

GMC valve-in-head engines are designed and built for truck service—there's not one lightweight "converted" part in even the smallest GMC engine!

GMC engines are tough and powerful. They have high sustained pulling power at normal operating speeds — don't have to race themselves to death like lighter-duty, geared-up engines.

Check GMC's many other extra engine features and you'll see why you get most Miles Per Engine in a GMC —with less maintenance and repair. Come in today and let us give you the facts.
