BUSTER CHADWICK BUYS CAGLE AUTO PARTS

Announcement was made last week of the sale of Cagle Auto Parts to Buster Chadwick. Johnny Cagle has been operating the parts store in connection with his Auto Repair Shop.

Chadwick, who has just recently completed a new building to house a Phillips 66 Service Station revealed that he will add another room on the west side of his service station in which he will house his new parts store. He estimates that it will take from ten days to two weeks in which to get his building ready for the new addition.

Buster also announces that he has purchased a new steam machine and is now equipped to steam clean your car engines.

Johnny Cagle reports that he will remain here in Quitaque and will have an announcement next week as to just what his plans are for the future.

LOOKING BACK . . .

This week's edition of the Tribune marks the beginning of the second year in the life of the paper.

Looking back, it is hard to realize that we have been publishing the Tribune that long. Still, enough things have happened to the editor's to last a lifetime in the way of trouble, that is.

The first several weeks of printing the Tribune saw more unbelievable things happen than we ever thought possible, some of them because of our own inexperience and some were just plain accidental. At times we were almost ready to give it up as a bad deal, then after a good night's sleep we would feel a little better about the whole thing. Through it all our readers encouraged us and were patient while we were trying to get our mailing list up-to-date—some of our subscribers missing several issues before we got things up-to-date. We appreciate your patience and we hope that we have most of the bugs out of the business. We will strive to improve the paper as time goes on—although many have expressed their appreciation for our efforts we know that our paper can stand a lot of improvement, but we are not unmindful of your kind words.

And now as we print this week's issue of the Tribune, your editor is preparing to take his good right arm off to Plainview to the hospital for surgery. If things go as planned, she will undergo surgery Friday morning. Can't hardly see how we will get along without her but it is something she must have done, and the Lord willing she will be back in a few weeks—well again. She will appreciate your good wishes and more especially your prayers.

Jackie Bedwell will be helping us out here at the shop and you can help us by calling in your news or giving it to us any time, anywhere.

The Tribune will be closed Friday and Saturday of this week while we are at Plainview.

OPEN HOUSE AT NEW PARSONAGE SUNDAY

The membership of First Methodist Church here is taking this means of inviting everyone to "open house" for the lovely new 3-bedroom parsonage, recently completed at a cost of \$17,000. Sunday afternoon, June 25th, from 3 until 5:30 o'clock will be time of open house.

Many people of this community, as well as those who now live outside the community, have had a part in providing this home for the ministers of First Methodist Church.

Much of the furniture of the home is new and has been provided by the W.S.C.S., The Guild, the Methodist Youth Fellowship, and by individual donors. The cost of the furniture is not included in the cost of the home, except for the built-in stove and oven. The furniture would make the overall cost between \$1500 and \$2000 more.

Total floor space, including the garage, is 1900 square feet. There are two baths, the brick, of which the building was constructed, is light colored to match the church. The living room and all bedrooms are carpeted. Frank Hedrick of Turkey was the builder.

PLEASE NOTICE!

An effort is being made to make up a list of people who are willing to give blood when it is needed, and their blood type. The list that was kept at the hospital has been lost and it is difficult to locate donors, especially the rare types, without such a list. If you are willing to give blood, please go by the Tribune office and leave your name and blood type. Bring your type card if you have one. After the list is complete, Mayor Alton Johnson will have the list available when it is needed.

BURGESSES SEND GREETINGS

Mr. and Mrs. Orb Payne, who had been fishing near Snyder, stopped for a visit with all of the Burgesses on their return home. The Payne's reported that Mr. and Mrs. E. E. We at the Tribune will say for everyone here that we are looking forward to seeing Mr. and Mrs. Burgess again.

HOME FROM HOSPITAL

Mrs. A. F. Van Meter was returned home Tuesday from the hospital at Lockney, where she had been a patient for several days. Mr. and Mrs. Johnny Van Meter of El Paso are here with her.

The wheat harvest in the Quitaque area will probably be wound up Wednesday or Thursday of this week, according to Arville Setliff, manager of the Quitaque Elevator.

According to Mr. Setliff, 63 car loads of wheat have been shipped from the local elevator as of Wednesday morning. This compares to 40 cars shipped from here last year.

Mr. Setliff says that the 63 car of wheat is the largest crop of wheat raised here since the controlled acreage program came into being.

According to Setliff the wheat crop for this area will average 25 bushels per acre. There have been some yields of 35 bushels or above in small acreage. Walter Graham had about 100 acres of wheat that was reported to have yielded 35 acres but his entire crop averaged around 25.

Cecil Price had the highest yield for an entire crop brought in to the local elevator. Mr. Price's entire wheat crop averaged 33 bushels per acre, and that is good dry-land wheat.

Our immediate area has been very fortunate because we have not received a real killer hail storm, considering the number of times we were threatened with storm clouds. Some farmers received some damage from hail but no one was wiped out.

SOME WIND DAMAGE REPORTED IN FLOMOT AREA LAST WEEK

Rains have fallen almost daily in parts of our community the past week, some accompanied by severe winds in some part. WALTER ROGER'S NEWSLETTER —

**To The People of the 18th District
BLACKMAIL BACKFIRE**

Castro's sordid attempt to blackmail this country has gone far enough, and should be branded before the entire world for what it is and what he stands for. His "iron for flesh" deal was recognized by all decent human beings as nothing more than an act of international piracy and a perfect example of the philosophy that constitutes the difference between our way of life and that to which he subscribes. This pronouncement, above all others, clearly demonstrates the basic principle upon which Castro and his cohorts operate. The dignity of the individual has no place in his ideology, except as regards his own person, which is usually the case with dictators.

At the time Castro proposed this unscrupulous and inhuman trade, everyone should have recognized that the author if such devilry must be wholly devoid of character and integrity. Nevertheless, many people in this country took the position that the humanitarian

thing to do was to accept the offer and thereby show to the world that this country, in pursuit of its human life as the property of God, and would do whatever was necessary to prevent its destruction. Others took the position that this was not the issue, but that the whole matter was a question of pure and simple blackmail in which no individual in this country should have a part. This controversy has raged during all of the negotiations, and will probably not be settled regardless of what is done.

Looking at the matter objectively as it presently stands, it would seem to me that the recent statements and demands of Castro prove beyond any question of doubt that he had no intention of ever releasing the prisoners. His sole intention was the same as that which usually prompts the pirate, the extortionist, and the blackmailer. That is, to get hold of the material wealth demanded and then destroy the victim. In my further opinion, his greed has caused him to overplay his hand. When he was able to have a visit from negotiators, he probably felt that he may as well ask for more, so long as people were willing to deal with a scoundrel. This, in my opinion, is where his greed completely condemned him. He has now proven beyond any question of doubt that his Communist beliefs underwrite the proposition that material is superior to human life, and that he is completely devoid of any character or integrity.

Assuming that there was some justification in the first instance to try to meet the requirements of the "iron for flesh" offer, it should now be clearly evident that the chances for the salvation of these prisoners will not depend upon whether or not tractors or bulldozers are delivered to the Bearded Wonder. If ten thousand bulldozers were delivered to Castro tomorrow, the lives of the prisoners in Cuba wouldn't be worth a plugged nickel. If these prisoners, or any of them are saved, it is going to be because the world recognizes what has happened. The world should be told now in unmistakable terms that Castro has not only made the offer but has openly admitted it, and has now reneged on it and is trying to extort more and more. Under the circumstances he has convicted himself completely under any system of law ever employed by mankind. Hence, it would seem to me that the time is ripe to tell Mr. Castro that there will be no tractors and there will be no bulldozers, but that if he harms even one of the prisoners he has attempted to use as pawns, he must stand condemned before the bar of world opinion and every judicial system in existence as an international murderer, and that he should expect to pay the same pen-

alty as has been paid by other international murderers — to wit: Hitler, Mussolini, and company.

**FOLLOW SIMPLE RULES IN
AUTOMOBILE ACCIDENT**

Vacation time is near. Soon millions of people will be driving about the country, and automobile accidents will occur with increasing frequency. What should a person do when involved in an accident?

At such times it is hard to keep your wits about you and know just what to do. It is therefore a good idea to plan in advance just what you would do in event of a smash-up. Here are a few simple rules that every driver should commit to memory:

1. STOP. Failure to stop can result in serious criminal consequences.
2. RENDER AID. If anyone is injured: (1) Render first aid. (2) Stop bleeding. (3) Call a doctor or an ambulance or both. (4) DO NOT move an injured person in any way that could possibly add to his injury.
3. Protect the Scene from Further Damage. You may be liable for damages to approaching drivers, unless they are properly warned. If the highway is obstructed at night, have someone turn his headlight beams on the wrecked vehicles.
- Call an Officer. Policemen, Highway Patrolmen, Sheriffs and their deputies are trained accident investigators whose testimony may be invaluable in establishing your civil claim for damages.
5. Gather information. Write it Down. Don't trust your memory. Don't guess—be specific. Measure skid marks. Step off distances. Be sure to obtain names and addresses of witnesses. You are required by law to exhibit your driver's license to the other driver—and he must do the same.
6. Be Careful What You Say. Even if you feel that you are probably to blame, it is best to make no admission. You may learn later that the other driver was equally at fault, or more so. Emotional comments can be misconstrued by others, or may be misquoted. Whatever you say, make it factual.
7. See your doctor if there is the slightest chance you may be injured. Serious injuries do not always result in immediate pain or bloodshed.
7. Consult Your Lawyer Immediately. The sooner your lawyer is brought into the matter, the better he can advise you and protect your

rights. He can obtain statements from the witnesses while their memories are fresh, and do many other things to insure that the true facts are preserved. Get your lawyer's advice before giving any interviews or statements to investigators or adjusters for the other side.

9. Inform your Insurance Company promptly. Failure to do so may void your policy.

10. Report the Accident to the Department of Public Safety. This is required by law if there is any injury, death, or total damages exceed \$25.00.

An official accident report form may be procured from the Police, Sheriff's Department, Highway Patrol, or State Department of Public Safety.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

**HIGHWAY PATROL REPORT
FOR MONTH OF MAY**

The highway patrol investigated only 1 accident on rural highways in Briscoe County during the month of May, according to Sgt. D. R. Dowdy, highway patrol supervisor of this area.

This wreck accounted for a property damage of \$800.00.

This brings the total for the first five months of 1961 in this county to 6 rural traffic crashes resulting in no persons being killed, one injured, and a combined property damage amounting to \$1,670.00.

After noting the accident picture for this county for the first five months of the year, the Sergeant pointed out another significant fact. As summer approaches with longer days and additional good driving weather, the driver should be especially aware of the danger period at dusk. Many accidents happen during this period. One cause of this is the driver fails to turn his lights on soon enough. Although the law sets out when lights must be turned on, the driver should also use his own good judgment. Any time a driver cannot see an unlighted object one-half mile away, he should turn his lights on. He may be able to see the other driver, but can the other driver see you?

700 Fights Ago

This month marks a triple 20th Anniversary — it was just 20 years ago that (1) Joe Louis (left) dropped Billy Conn in the 13th round to retain his world heavyweight championship, (2) Don Durphy began his famed sportscasting career with his first network fight, and (3) the Gillette Safety Razor Company sponsored its first broadcast boxing match. Today, more than 700 boxing bouts later, Durphy and Gillette are still together, bringing the Saturday night Fight of the Week to an average of 17,000,000 boxing fans.

The Fiftieth Anniversary plates earned by Sunday School pupils who attended 11 out of 13 Sundays were presented Sunday morning to a round 115 people who had qualified. If you did not come the re-

quired number of times, you will have an opportunity to order a plate later, but you will have to wait until Anniversary Week in October to do so.

Congratulations to these three couples who have celebrated wedding anniversaries recently: Mr. and Mrs. C. L. Smith, their 66th, and Mr. and Mrs. J. W. Lyon and Mr. and Mrs. Ernest Moseley, their 50th anniversaries.

There were a number of visitors in the services last Sunday morning and night.

The Church extends sympathy to all who have been in sorrow or had illness in recent days.

SENIOR ASSEMBLY AT

MCMURRY COLLEGE NEXT WEEK

Abilene — Around 250 Methodist high school youths from the entire Northwest Texas Conference area will be on the McMurry College campus June 26-30 for the annual Senior Assembly, featuring as speaker the Rev. Bill Kent of Abilene, former missionary to Bolivia.

Kent, associate pastor of St. Paul Methodist Church in Abilene, and his wife spent nine years in Bolivia as missionaries.

The Assembly, held each year on the McMurry College campus, opens with registration Monday, June 26, at 1:30 P. M. It will close on Friday, June 30, at lunch.

Theme of the assembly this year is "My Living Bible." It is designed to help youth appreciate the Bible as a resource for living the Christian's life in their day.

The Rev. Kenneth Wyatt of Chillicothe, and the Rev. Albert Lindley of Lubbock, and Mrs. Leonard Chessir of Brownfield will serve as deans for this year's assembly. Miss Barbara Sommerville, youth director for the Northwest Texas Conference will also be in a supervisory role.

The staff will include the Revs.

Tommy Strother of Lubbock, Bob Ely of Wheeler, Lee Crouch of Hart, Rodney Williams of Rochester, J. Weldon Butler (executive secretary of the conference Board of Education), Lubbock, Dr. John English of Childress, Charles Hastings of Canyon; Mrs. Pat Bobo of Muleshoe, Mrs. Cecil Tune of Lubbock; Mrs. Rodney Williams of Rochester, Miss Betty Lemmons of McMurry and Mrs. Ruth Cooper, pastor of Whiteflat-Flomot.

Cecil Green, director of music at St. John's Methodist Church in Lubbock, will serve as music director for the assembly.

This year's assembly will feature a series of workshops instead of classes, all dealing with some phase of Bible study. It will also involve a recreational and Christian fellowship program.

HI-PLAINS HI-LIGHTS

GRAIN SORGHUM

Grain sorghum planted on benches produced a higher yield than the same amount planted on sloping land in the water conservation study conducted by James C. Valiant, Water Engineer at the High Plains Research Foundation.

None of the water was wasted on the benched acres, which had a total application of 16.9 inches. A yield of 5,795 pounds of grain sorghum produced a gross return of \$87.71 on the bench. The pumping cost, at \$9 per acre foot, totaled \$12.69, giving a net return of \$69.02.

Two slope areas were tested in comparison with the benched area.

Number 1 slope had the same irrigation treatment as the bench. There was a loss of 2.5 inches through the run-off, which amounted to 1%.

The net return on 3,900 pounds of grain sorghum was \$42.30. Slope Number 2 had 24.5 inches of irrigation water applied at a pumping cost of \$18.36. The run-off loss was 5.9 inches or 24% of total application. The yield was 3,500 pounds per acre, which gave a net income of \$30.99 per acre. Each plot had the same fertilizer treatment of 80 pounds of nitrogen

and 40 pounds of P2O5. The crops were cultivated twice with a sweep cultivator and twice with a flame cultivator.

COTTON

One benched and two sloping areas were planted in cotton on May 5th and replanted on May 26th, in an irrigation comparison test at Halfway. These tests followed the same plan as that used on grain sorghum.

Ten and nine-tenths inches of irrigation water was applied to the benches and the number one slope.

Seventeen and nine-tenths inches of irrigation water was applied to slope number two. The run-off was none on the bench, 2.7 inches on slope number one and 5 inches on slope number two. Twenty-five per cent of the water was wasted on slope number one and twenty-eight per cent on slope number two. The net return from the benched area on 720 pounds of lint was \$175.00.

On slope number one, with 790 pounds of lint cotton per acre, the net return was \$188.77. On slope number two, the yield was 894 pounds of lint cotton per acre. The net return was \$203.16. The results from these tests indicate that cotton is a much better crop to plant on sloping land than grain sorghum. The irrigation test will be continued to give further data on the most efficient management of sloping land.
