WTCC Protests Cotton Allotment Cut in Texas

Ablene, Aug. 8.—The West Texas Ginners Association, holding annual convention in Abilene Thursday, heard D A Bandoen describe the "disruption and destruction of an economic and social structure for a proud, cultured and thriving people" residing in an area twice as large as pre-war Germany. "I refer not," he said, "to the ruthless and selfish destruction of many nations and empires, but the disruption and destruction of the agricultural economy of West Texas, Texas and the Southwest."

Bandoen is manager of the West Texas Chamber of Commerce. He is an acknowledged authority on economic causes and consequences. His address to the area's ginners on their problems, the plight of Texas cotton farmers and the cotton industry, was broadcast over a radio network.

While endorsing the broad agricultural objectives of the federal government, including crop regulation and control as a basic policy in striving for parity for farm products, the WTCC executive vigorously attacked the regulations under which the cotton program is administered. He charged that the allotment formulas set up by the Agricultural Adjustment Administration are grossly unfair to West Texas and to Texas. Regulations applied to the act, he contended, have violated the will and intent of Congress until—so far as Texas is concerned—the annual reduction of cotton acreage is approaching 10,000,000 acres; a \$95,000,000 per year planting and harvesting payroll has vanished; and the annual income from cotton has fallen 65 per cent—all within the past decade.

This has come about, Bandoen said, under laws whose purposes are good and desirable, but whose application is bad. The practices of inequitable allotments to Texas were started, he said, under the old Bankhead act in 1933, and have been continued under the original and amended Triple-A from 1935 on. He said that under these practices states of the old South have been allowed virtually normal production—in some cases actually exceeding the production of uncontrolled years prior to regulation—while Texas has been cut and cut, until, for 1940, its allotment is 223,500 acres under 1939 by which he said, "this state must bear 47 per cent of the nation's cotton reduction while producing only 31 1-2 per cent of its cotton."

"Now," said Bandoen, "what does all this add up to? It adds up to Texas, when judged by a ten-year average production, producing less and less of the nation's cotton, while other states are producing more and more. They say that the New Orleans AAA administrator governs our cotton allotment in accordance with the same rules as applied to the old South. We say the conditions between the old South and the Southwest are wholly different. They have small farm units, we have large. They can fertilize, we cannot. They have normal and consistent moisture which we do not have. For reasons such as the above, and in order to secure an administration conforming with our conditions, we think it would be helpful to have a separate administrator of the AAA for the Southwest. In this way we might secure administration conforming more to our conditions, and when nature penalizes us with a couple of dry years and low yields, we might be able to prevent the bureaucrats from again penalizing us with reduced cotton allotments."

"All that Texas and West Texas seek," said Bandoen in conclusion, "is an allotment that will make our losses and benefits, whatever they be, proportionate with the other fellows, and that will put an end to the shifting of cotton production from the low cost production states to the high cost production states. We ask all ginners, farmers, ranchers, oil men, merchants, and bankers to join with the West Texas Chamber of Commerce, whose policies I have enunciated, in demanding a cotton allotment plan which, in bales of cotton, will result in Texas producing its fair share of the national quota."

Miss Marie Hall, who has been working this summer in Lubbock is home for a two weeks vacation.

Fine Arts Club Holds First Meeting of Year

The first meeting of the year for the Quitaque Fine Arts club was held Tuesday afternoon at the home of Mrs Philip Hamilton. Marigolds, cosmos, golden glow and other fall flowers in hues of brown and gold, arranged in bronze bowls and rich toned containers, were placed in profusion about the rooms, in this recently remodeled home which is one of the most attractive places in Quitaque.

Heavy rain, which too seldom in West Texas interferes with entertainment plans, at this meeting necessitated some change in the program. The Floydada Music club members were invited guests and started on their way here, but had to turn back because of the muddy roads. Mrs Frank Hawkins, who is the new president of the club, was compelled by high water in the vicinity of her home to be absent from the first meeting over which she was to preside. She was also a member of a quartet on the program which had to be omitted. Mrs Jim Stroup because of heavy rains at her home, could not get to town, and her absence also interfered with program plans.

Undaunted by the unexpected changes in plans resulting from the "beneficial rains" the seventeen club members present proceeded with the meeting. The new vice president, Mrs Joe Graham, graciously and capably presided. Business was attended to, some changes being announced in the committee chairmen, as follows: program, Mrs E B Tunnell; year book, Mrs W R Scott; social, Mrs A S Alexander; nominating, Mrs E G Rice.

Two new members were welcomed into the club, Mrs Jim Baird and Mrs C T Rucker. Mrs Jim Stroup is also a new member.

Mrs Joe Slack was leader of the study which was "American Music." She gave an interesting outline of the subject, prefacing the information with a stirring definition of "what is patriotism." Emphasizing the beautiful thought expressed in her words on Americanism, before proceeding with the lesson, she was joined by the club in the singing of "America the Beautiful."

The social committee was in charge of the refreshments and served an attractive plate of chicken salad, dainty rolled sandwiches, olives, wafers and punch.

The next meeting of the club is scheduled for October 1, with Mrs E G Rice as hostess. The study will be on etiquette.

Good Program Heard At Gasoline Meeting

The regular monthly farm meeting of the Gasoline community was held Monday night, Sept. 2 at 8:30 o'clock. A good crowd, about 106 persons, was present and enjoyed the program very much. The objects of these farm meetings are: to become better acquainted, to take up problems of farming, and to enjoy entertainment.

The program committee, composed of Mrs Leon McCracken and Miss Una Bradshaw had an excellent program prepared and it was enjoyed by all.

The following numbers appeared on the program with Mr. E. P. Lewis acting as chairman:

Song, "America," by the audience.
Song, "Playmates," by a group of girls.

A talk on culling poultry, by R L King.

Reading, "Arithmetic," by Henryetta Finney.

A musical number by Rosalind and Martha Coker.

Talk on Bangs Disease and explanation of government testing plan, by Lem Weaver, county agent.

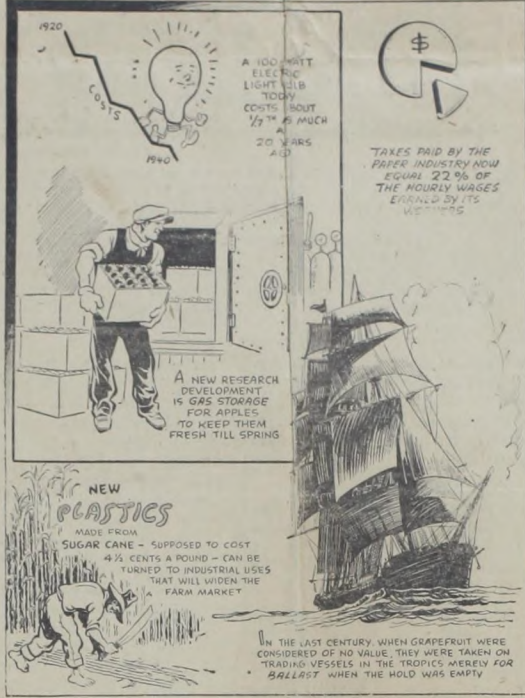

Reading, "Think before Speaking," by Jo Dean Bedwell.

Reading by Mildred Coker entitled "Talkative Tillie," who is so green a country lass that she has had several narrow escapes from being eaten by cows, and she tells the audience the romantic story of her engagement.

A chairman will be elected at the next meeting.

E H Stephens, Silvertown route mail carrier, is in the veterans' hospital at Amarillo undergoing treatment. Mrs Stephens is carrying the mail during his illness.

THE POCKETBOOK of KNOWLEDGE BY TOPPS

Former Gasoline Man Is Buried in Clovis

Wiley Jefferson Swinney, formerly of Gasoline, died at 9 o'clock Tuesday night in Clovis Memorial hospital following an operation. Sunday, on his way home from church, he suffered a brain hemorrhage and stroke. Monday night at 10:30, he underwent an appendix operation, never regaining consciousness.

Burial services to be held at Clovis Baptist church of which he was a member were set for today (Thursday) awaiting the arrival of his sons from California and Oklahoma. Interment is to be in the Clovis cemetery.

Mr Swinney was born Sept. 21, 1873 in Columbia county, Ark. He married Miss Fannie Clark and ten children were born to them, one daughter dying in infancy.

Surviving are his wife, five daughters, Mrs J T Rogers of Turkey, Mrs M A Clifton of Corpus Christi, Mrs J N Snodderly of Clovis, Mrs Jack Hardcastle of Palestine, Miss Grace Swinney of Clovis, and four sons, J Paul Swinney of San Diego, Cal., Charlie of San Francisco, Cal., Spurgeon D. of McAlester, Okla., and Wilson P. Swinney of Clovis.

He also is survived by 16 grandchildren, three of whom are Cleota, J. T. and Coleen Rogers of Gasoline, and one great grandson, Wayland Madison Black of Sudan.

Mr Swinney taught school at Gasoline for a number of years, at Kent one year and for several years in East Texas and New Mexico. He was a candidate for justice of the peace at Clovis at the time of his death. He had formerly served as justice of the peace there and also sheriff.

J W Ewing of Tatum, N. M., was in town the first of the week.

Morning Party Is Compliment to Bride

A morning party complimenting Mrs E H Haddock, Jr., of Mopton, a recent bride, was given last Saturday, at the attractive home of Mrs Philip Hamilton, who was assisted in entertaining by Mrs G Tunnell and Mrs Clyde Tunnell. The honoree was Miss Mary Jo Smylie until her marriage at Tulsa August 18. She is the daughter of Mrs Willie Smylie of Quitaque and a member of a pioneer Briscoe county family.

The guests were received in rooms fragrant with a profusion of fall flowers denoting a color scheme of brown and gold. The receiving line was composed of Mrs Hamilton, Mrs Hardberger, Mrs Smylie, Mrs L B Kiker and Mrs G R McDonald of Plainview, Mrs O T Bundy of Silvertown, Miss Evelyn Jane Hawkins of Plainview, Misses Geraldine Shott and Gaynelle Douglas, Silvertown, and Mrs J B Russell.

A lovely handpainted register was in the charge of Miss Lela Mae Persons. The gifts were displayed in the bedroom, presided over by Mrs G Tunnell.

Refreshments were served in the dining room from a table laid with an Italian embroidered cloth and centered with a bowl of the bright flowers in the chosen colors. Colorful Italian pottery was used for the service. Miss Mary Ollie Persons poured coffee and Miss Jane Hughes presided at the cakes and salted nuts. Others assisting in the dining room were Misses Lorene Rhoderick and Emily Margaret Gardiner and Mrs Clyde Tunnell.

About forty-five guests called during the morning, bringing gifts and a large number of gifts were sent by those who could not attend the affair.

AGRICULTURAL BRIEFS

By Ray S. McEntire
County Agriculture Committee

Cotton Parity Checks Arrive

The first shipment of 57 1940 Cotton Parity Checks were received in the county office September 3, 1940. Other shipments are being sent out as rapidly as the forms are completed in the office and signed by the producers.

Also, application for agricultural conservation payments will begin next later than next week.

Each producer will be notified by card when his application is ready for signature. Every effort is being made to have all of the applications ready for signature, for the office personnel is aware of the fact that everyone is needing his check badly.

1941 Winter Wheat Plan
The 1941 Winter Wheat Plan must

be executed for each wheat allotment farm. In this connection, wheat allotment farm means a farm having a wheat allotment of more than five acres; and also a farm having a wheat allotment of five acres or less, and the producer has or will request within the required time that such farm be considered a wheat allotment farm.

The final date for the execution of the Winter Wheat Plan is November 1, in the commercial wheat area, which includes Briscoe county. It is anticipated that this form will be executed by the producers at the time that they sign either application for parity payment or application for conservation payment.

The certificate in the Winter Wheat Plan is as follows: "It is my understanding that this farm will be

N. V. Hamilton Brings In The First Bale

Norval Hamilton brought the first bale of cotton for the 1940 crop season to Quitaque Saturday afternoon. It was taken to Farmers Co-op gin which has just been overhauled, and when the gin was started up and the cotton began to flow through a pulley broke.

The hour being late and welding shops closed, repair could not be made of the broken part until Monday morning; but this was done and the bale of cotton ginned early Monday morning. However, receipt of the bale is dated as of Saturday, Aug. 31, the earliest first bale here in many years.

The bale of lint was of high grade and staple and weighed 555 pounds. It was ginned from 1750 pounds of seed cotton, which also returned Hamilton 700 pounds of seed.

Farmers Gin bought the cotton for 9c, giving the producer a little premium over the market price.

A premium list totaling \$31.65 in cash and merchandise was made up and awarded to Hamilton for bringing in the first bale. The contributors were as follows:

Cash
Palo Duro State Park, George Lay, Tiffin Grocery, Finley Variety Store, Pioneer Drug Store, Persons & Sons, E W Scheid, Rhoderick's Gro. & Mkt, H B Settle, Burgess Pharmacy, J R Castleberry, Roberson Food Store, Bill Hardcastle, Dellis Hooks, E G Rice, Jake Honea, Clem Woods, C M Bedwell, A L Patterson, West Texas Gas Co., R L King, West Texas Utilities Co., Quitaque Feed Store (Frank Miller), S T Bogan (Postmaster), V T Hall, I G Grundy, First National Bank.

Merchandise
Bedwell Gro., Cantrell & Jacobs, Bedwell Cafe, Ergin Laundry, Queen Cafe, Shoe Shop (Oliver Ware), J C Woolbridge Co., Bowling Club, Gulf Service Sta., Robins Barbershop, Dr Pepper Bottling Co., Willson & Son Lmbr. Co., Clark's Cafe, Queen Theatre, Coca Cola Co., Quitaque Post, Boyles Blacksmith Shop.

Prospects for a cotton crop are much better at this time than for many years and barring some unforeseen mishap this area will harvest a nice per-acre yield. The feed crop also is the best in years.

Womans Culture Club Year Books Delivered

The 1940-41 year books for the Womans Culture club were delivered last week. The course of study for this year is "The American Home," a timely subject in these days when the tranquility of the home is upset not only by reform and disturbances at home but the threat of world upheaval and even the terrors of war seem ever to draw nearer.

Information of every sort pertaining to the home is included in the plan of study for the coming year. Practical knowledge useful in purchasing food, clothing and other supplies for the home is mingled with lessons on gardening, home decoration, health requirements, books for improvement and entertainment, pictures and a study of "home government" or "how to get along with others."

The years study is planned for improved relations, physically, mentally and spiritually in every home which the study contacts.

Plans are also included for the annual husbands' entertainment and other customary parties.

Binding of the attractive books follows the popular trend for "patriotic" themes. The backs are red, lettered in blue and silver and tied with blue cords, denoting a red, white and blue color scheme.

Officers of the club for the year are: president, Mrs R B Persons; vice president, Mrs E G Rice; recording secretary, Mrs P P Rumph; corresponding secretary, Mrs G Tunnell; treasurer, Mrs J C Rhoderick; parliamentarian, Mrs J R Stroup; custodian, Mrs J L Tunnell.

The FFA boys are looking forward to a big year in their work. Although rather small in quantity, the group this year makes up in quality. Agriculture I is being taught this year and agriculture III, a new course, is being introduced. The boys hope to get their projects underway in the near future.

Rain Reports Vary Over This Section

Quitaque area received very beneficial rains Tuesday, ranging from .25 inch in some localities to 5.00 inches in others, according to report. The precipitation in town was .75 of an inch.

The heaviest fall was in the vicinity of O W Stroup's place where five inches are reported to have fallen, which put the Los Lingos river on a rampage. The water in the river was up to the floor of the bridge south of Quitaque. The Quitaque river also carried quite a bit of the flood waters but not so much as the Los Lingos. The two streams converge only a mile or so below the Los Lingos bridge, thus the flood waters in the Quitaque went over the bridge near Flolot.

Dock Merrell who lives on Mrs J B Russell's place adjacent to Stroup, reported three inches of rain there. Lightning also killed a work mule belonging to Mrs Russell during the downpour and, electrical disturbance.

John Taylor reported about two inches at his home, while the fall was heavier at his brother Jim's.

Jim Tunnell received about a half or three-quarters of an inch at his place northeast of town, while F M Sachse reported an inch.

Cap Wise at Gasoline reported half an inch, while Marvin Tracy says he probably received a quarter of an inch.

Locket Payne, J T Persons and Clyde Tunnell's places west of town reported three inches or better.

Rails Tyler, four miles east, reported only a shower but of sufficient content to be of much value to crops. The rain extended only a short distance east of Tyler's place, and only a couple of miles or so west of the Caprock.

On R-B Persons place in the brakes west of town more than three inches fell while on his place a few miles south of town about half an inch was received, likewise on other farms between town and the river. Elmer Tibbets across the river, received more than two inches.

These reports from the various sections around Quitaque give an idea of the precipitation received all over the immediate section, which will increase crop yields to bumper proportions.

MARTIN DIES TO SPEAK IN AMARILLO FRIDAY, SEPT. 6

Amarillo—Revelations about what he terms communistic and fascist activities in the Southwest, among certain movie elements and labor groups on the West coast, and in the industrial centers of the East are expected to be made by Congressman Martin Dies of Orange, Tex., when he appears in Amarillo Friday, Sept. 6 for two addresses. He will tell what he has learned about "fifth column" activities in America.

The celebrated chairman of the House Un-American Activities Investigating Committee will speak at 2:30 in the afternoon and at 8 o'clock at night in Amarillo's renovated municipal auditorium.

Admission for the afternoon address is 50c for any seat. At night it will be 50c for balcony seats and 75c on the lower floor. All proceeds above actual expenses will be given by Mr Dies and the News-Globe, the sponsoring organization, to charity. The arrangements are similar to those observed on Mrs Eleanor Roosevelt's lecture tours.

Out-of-town visitors are urged to attend early to be sure of seats. However, a public address system will make the address plainly audible anywhere in the house.

JURORS CALLED FOR FALL TERM DISTRICT COURT

The fall term of district court meets Monday, Sept. 16, when the grand jury will be empaneled and set to work. The following have been called for grand jury service:

Eugene Long, Allen Kellum, A D Arnold, Don Grady, Jim Currie, J R Frakes, W J Heim, Henry Edens, P C Hamilton, Carl Vaughan, C M Bell, Boone McCracken, W N West, G Mayfield, Seldon Bailey, C R Piercy.

Mrs P O Woods and daughters LaVerne and Lanelle, Mrs Mollie Mae Chambers and daughter Wilma Jean spent the week end in Ft. Sumner, N. M., with relatives.

SCHOOL DAYS ARE HERE AGAIN!

And once more we welcome both school teachers and students of Quitaque, Flomot and all of this area. We want to remind you that we are still at the same location where we will be happy to serve you for all of your "beauty needs."

We invite you to visit us often, you are always welcome whether you come for service or just to visit.

LOCAL BRIEFS

Mr and Mrs Eli Reagan of Lubbock visited relatives here Sunday.

Mr and Mrs Wimpoe of Matador were business visitors here Tuesday.

DON'T FORGET TO "Halt for a Mail" 16 oz. 10c. Pioneer Drug Store

John J Woods and O C Love returned Sunday from a sojourn in New Mexico.

A L Patterson made a trip to Plainview Monday for a check-up at the clinic.

Mrs Cole Boswell and daughters, Maurine and Mildred of east of Turkey, were in Quitaque Tuesday.

Ask for Mity Nice Bread—often but never bettered. City Bakery, Quitaque.

Mrs J N Hamilton returned home Friday from several weeks visit in California with a sister. Her son Paul met her in Amarillo and returned her to Quitaque.

Tom Persons who has been working at Canyon during the summer came in Monday to visit home folks. Tom says he has "finished" at Canyon and will go to work in Lubbock and attend Texas Tech the coming term.

Hal Overstreet Motor Co. sold and delivered to John A Johnson a new Dodge Bros. three-quarter ton pick-up Friday.

Gross Barrett, who has been staying with relatives here, left Wednesday for San Antonio, having been accepted for enlistment in the army and stationed there.

Amos Persons came home from Liberal, Kansas, to spend Labor Day with his parents, Mr and Mrs R B Persons and other relatives and friends.

Mrs N L Bedwell returned Sunday night from Morton where she spent a week visiting relatives, thus winding up a two week's vacation the first week of which was spent in New Mexico.

Mr and Mrs George Owens and girls have returned from several weeks away from home which Mrs Owens and the girls spent in Rising Star with relatives and George was occupied most of the time leading the singing in revival meetings.

DON'T FORGET THE 1941 RCA Farm Radio, the finest yet. Beautiful cabinet, very cheap to operate; uses only one battery which is guaranteed for six months, costs \$4.95 to renew. Complete installed \$32.50. Pioneer Drug Store.

Mr and Mrs Bill Woods left this week for Palo Duro Park where they will have charge of Palo Duro lodge. Big plans are in the making for the formal opening of the lodge, more particulars of which will be published when they are more complete.

Miss Audie Hawkins who spent some time here with relatives while recovering from an appendectomy, returned to her work at Amarillo last week. She was accompanied by her sister, Mrs Jimmy Partin, who remained for several days visit.

Mr and Mrs A L Patterson, Mrs O E Hutcheson, their father W P Hall, and Mrs George Hall and sons visited the latter's husband in Amarillo Sunday. George Hall has been under treatment in the veterans' hospital at Amarillo several weeks and while improving, is expected to have to remain there about six weeks longer.

Auto Quiz No. 10

1. Old Man Weather is bamed for a great many things, but how responsible is he for automobile accidents? Most fatal crashes occur under one of the following conditions — (a) rain. (b) fog. (c) clear. (d) snow.
2. If the turning radius of a car going 25 miles an hour is 80 feet, at 75 miles an hour it will be — (a) 80 feet. (b) 100 feet. (c) 160 feet. (d) 320 feet. (e) 500 feet. (f) 720 feet.
3. A car will start a great deal easier on glare ice or in slippery mud if you place the gears n — (a) low. (b) second. (c) high. (d) reverse.

Travelers Safety Service

Billie Brown Hutcheson went to Amarillo Monday night to undergo examination for army service, was accepted and left Wednesday for San Antonio where he will serve in the signal corps.

Anna, small daughter of Mr and Mrs Jodie Yowell is visiting her aunt in Fort Worth and attending school. She made the trip by herself on the new fast train operated by the Denver.

Philip Hamilton went to Wichita Falls Monday afternoon where he entered a hospital for an operation which was performed Wednesday morning. Mr Hamilton, who remained here to keep hot the many, many irons that Philip keeps in the fire, received word this morning (Thursday) from her brother, Judge O R Tipps that her husband was getting along fine after the surgical work which was removal of a growth from the bladder, and perhaps would be able to leave the hospital Saturday.

DO YOU HAVE COLDS? "Entoral" is a common cold bacterin that you take in a capsule instead of with a syringe and it is equally effective. The time to use it is NOW, or as early as you can before you begin to have colds. Take one capsule once a day for seven days, then two a week until the balance are taken. Bottles of 20 capsules cost you \$1.50. "Entoral" has been thoroughly tried and has proven its value. Begin Now.

Pioneer Drug Store

DR. DILLARD MOVED AWAY

several months, stated that he enjoyed living here very much, that these were fine people, but that rural folks had become so accustomed to going to hospitals in large towns when they needed medical attention that it was just about impossible for a "country doctor" to build up a practice upon which he could make a living. Dr Dillard stated that he would be connected with a hospital in Waurika.

GONE FISHING

Orla Stark and Judge Woodson Coffee are off somewhere this week on a fishing trip, just where we have been unable to find out as they just "snuck off" Saturday to some purported alluring stream to spend a week. Some say New Mexico and some Colorado. If they catch any fish we'll probably know Saturday where "the whaling" was done.

CARD OF THANKS

To my friends:
I take this means of thanking each of you who had a part in subscribing the nice premium given me for bringing to Quitaque the first bale of cotton for the 1941 season. Whether your part of the premium was cash or merchandise, one is appreciated as much as the other, and your friendship and good will is appreciated more than either or both. Sincerely,
N. V. Hamilton

BRYANS HAVE MOVED TO HALE CENTER

Mr and Mrs Sam Bryan and Edward drove into Quitaque last Thursday for a brief visit and to break the surprising news that they were moving. Mr Bryan received his masters degree from Tech this summer and accepted a belated offer as principal of the high school and coach at Hale Center. They moved their household things to Hale Center last Thursday evening.

Mr Bryan held like positions in Quitaque which he will fill at Hale Center, and left an excellent record for his three years here. Mrs Bryan, a gifted musician and active club worker, will be greatly missed from

NOTICE!

I have bought the City Shoe Shop from Ernest Morris and have taken charge. Mr Morris will remain with me two weeks to acquaint me with the shop. We invite you to bring us your shoe repair work, or any other leather work you need done—

Expert Saddle, Harness and Bridle Repairing

School has started and cooler weather is just around the corner. Let us get your footwear ready now for the wet, cold days that are ahead.

OLIVER WARE

Quitaque, Texas

the field of her activities. It is with reluctance that Quitaque yields to Hale Center this fine young couple and their attractive young son, who have the best wishes of their many friends here for success in their new home.

SHOE SHOP CHANGES OWNERS

Ernest Morris last week sold the City Shoe Shop to Oliver Ware and the latter took charge immediately. However Morris is to remain with the shop for a couple of weeks to acquaint the new proprietor with the machinery, etc.

Ware is an expert saddle and harness man as well as shoe repairman and will specialize in this class of leather work.

He invites his many friends to come to see him in his new business and location. Morris says his plans for the future are incomplete.

KID COWBOY SUIT GOES TO ORVAL PAYNE

Orval Payne received the kids cowboy suit Saturday night, given by Pioneer Drug Store as a premium in their August contest of Malt-A-Plenty sales.

Payne had only the one ticket and had just walked out of the store with it. The number was 38279, however there were a number of last minute tickets dropped in the box after Payne's was deposited. The coupons were so shaken that evidently Paynes number was shaken back on top.

The management states that they are well pleased with the results of the contest, about 1300 of the delicious drinks being sold between August 2 and Sept. 1—or about 50 per day, as the store is open only a few hours during the afternoon on Sundays.

A large crowd was present for the drawing—men, women, boys and girls.

Payne is rather a little large to wear the suit, which comprises a complete kid cowboy outfit including chaps, hat, belt, scabbard and six-gun, but he perhaps has a small brother who will get a big "kick" out of wearing the outfit which any kid would appreciate and which has been coveted by every kid in these parts ever since it was placed on display at the Pioneer Drug.

ALL DAY SINGING AT GASOLINE SEPT. 15

There will be an all-day memorial singing at Gasoline Sunday, Sept. 15, and plans are being made for a very large attendance.

The event is in memory of the late

Virgil Stamps and members of his quartet are expected to be present to participate in the program. Other quartets of renown also have been invited and are expected to be on hand for the occasion.

Dinner will be served on the ground picnic style and everyone is invited to come and bring dinner. A big time is promised for all, especially music lovers.

Leading hotels in a number of cities are featuring 'turkey steaks.' The meat of the turkey is removed from the bones with a special boning knife. It is cut into steaks of light and dark meat, as desired, in any size from a half-pound up. The steaks are fried slowly in melted fat in a heavy covered skillet and then steamed.

If all the 1940 United States wheat crop plus the supply in the Ever-Normal Granary were used for food it would provide every man, woman and child in the nation with twice as much bread, cereal and other wheat foods as each ate in the entire year of 1939.

actual material necessary to construct the unit. Inasmuch as the material will utilize any available salvage material from the old privy building or elsewhere on the premises the actual cash cost is definitely at a minimum and well within the reach of everyone in the county. The units are constructed in conference with the state department of health specifications and if a few simple maintenance rules are followed the unit will last a lifetime.

We all know the disease hazard ever present with the continued use of old, broken-down unsanitary toilets. Typhoid fever as well as numerous other diseases are directly attributable to the continued use of these unsightly health menaces. The public seldom stops to realize that those with unsanitary toilets are living under the same primitive health conditions as our earliest ancestors thousands of years ago. A sewer system without one-hundred percent connections operates for the convenience of the existing customers rather than for the health of the town as a whole. Even though a family has a sewer connection they are subject to the spread of disease from the flies coming from their neighbors' open toilet.

The county commissioners court has gone to considerable hard work to make this service available to the public and urges that the public please cooperate and take advantage of the program. This project certainly cannot be kept open indefinitely and the units constructed can receive the state department of health approval and have the benefit of skilled technical supervision. Landlords that have rent property should do the right thing by their tenants and build them a sanitary toilet under the program. The material cost isn't too great and they should keep in mind that the children of the families should, at least have the opportunity to grow up under normal healthy surroundings.

Those in the county without immediate cash to take advantage of the work should come in and make arrangements with their lumber company. They are sympathetic with the program and will do anything reasonable to help anyone secure a sanitary toilet. Let's everyone cooperate and help make Briscoe county one of the cleanest in the state.

Another thing to bear in mind is that the government is paying local labor the wages to do this work. All of the money remains in the community and indirectly benefits every business man in the county. The payroll is averaging around \$2,000 per month and unless local support is forthcoming for the program part of this labor may have to be discontinued.

Those desiring sanitary toilets are directed to leave their orders in Quitaque or Silverton at the headquarters of the project. If more convenient they may write Jeff Steele, County Sanitation Solicitor at Box 283, Silverton, and he will be pleased to call by your home and explain the program. Otherwise they may contact the county judge or any one of the county commissioners.

Requests For Birth Certificates Pour In

Austin—"Patience should be exercised by those who have made application to the State Department of Health for a certified copy of their birth certificate, and have not received them, states Dr Geo. W Cox, state health officer.

"The Bureau of Vital Statistics is receiving an average of five hundred applications for birth certificate copies daily, and the number of personnel available in the health department to handle this flood of requests is grossly inadequate to meet the demands made. The files must be searched for each individual record and when it is found it is photostated for the applicant."

"The reason for this great increase in applications for birth certificate copies can be found to be due, in part, to the gravity of the international situation. Army and Navy recruits must have a certified copy of their birth certificates to be eligible to enter military service. All persons connected with the radio broadcasting stations must have a copy of their birth certificates. Since a birth certificate is in reality the first citizenship paper of a baby born in these United States, thousands are applying for this personal record as

**Drivers Won't Hit
What They Can See**

No single factor contributes more to the traffic accident problem than the pedestrian's invisibility at night, according to "Smash Hits of the Year," tenth annual booklet published by The Travelers Insurance Company in the interests of highway safety.

Few pedestrians, and especially those who are not drivers themselves, realize how difficult it is for approaching drivers to see them during dusk and darkness, the booklet asserts. If the walker is wearing dark clothing, less

than five per cent of the light which falls on him is reflected back to the driver's eyes. Rain, wet pavements and glaring headlights make matters even worse.

When wearing dark clothing the pedestrian is all but invisible at a mere 100 feet away, it is shown. If he wears something white, or carries a handkerchief or newspaper, he can be seen fairly easily at that distance. "Never depend upon the driver's ability to see you at night," the booklet urges.

legal proof of citizenship," continues Dr Cox.

Some other important uses of birth records are:

1. To prove that a child has reached school age.
2. To prove legal age to enter a profession or employment.
3. To prove legal age to marry without parental consent.
4. To determine the parents' liability for certain acts of their children.
5. As evidence in criminal cases involving age of consent.
6. As evidence to determine relations of guardians and wards.
7. To obtain passport and similar documents.
8. As evidence in the administration of estates, and in settlement of insurance and pensions.

As evidence in connection with service.

To secure old age pensions.

To prove age as qualifications for voting and holding public office.

These are only a few of the valuable uses of birth certificates and it

is small wonder that the citizenship is flooding the health department with requests for certified copies of this vitally important record. With the continued patient cooperation of those who are requesting certified copies, the state health department will furnish this service with the greatest possible dispatch," continued Dr Geo. Cox.

SPORT POINTERS

Quail are confronted with an unusual danger in East Texas this year. The Palestine Herald quotes Calvin Hinson to the effect that redbugs are so bad this year, due to the extremely plentiful supply of rainfall, which kept grasses and other vegetation green longer than usual, that they are killing many, many young quail. Redbugs are so bad, it is reported that young chickens have been bitten to death and many hens have quit laying.

The crocodile is the largest of living reptiles.

It is unlawful to kill or injure a bat in Texas. The reason: Bats eat

Wrong, Again!

The Post has had difficulty in both the first and second primaries in arriving at the correct vote for commissioner in precinct 2. It took two "barrels" in the first primary and we thought we were getting along nicely in the run-off, but we are having to shoot our second barrel in this event also to make our figures "add up." So here's hoping this salvo is correct before we run out of ammunition. To the best of our knowledge and belief the following, though unofficial, is correct (we hope):

considered as a wheat allotment farm, and that the total acreage seeded to wheat for all purposes will be measured and classified as acreage planted to wheat to determine compliance with the wheat acreage allotment. I request that the wheat acreage for this farm be measured."

For those producers who request approval of nonwheat-allotment option, the following applies: "I request that this farm be approved as a nonwheat-allotment farm for 1941. If my request is approved, I understand that this farm will not be eligible for a wheat conservation payment, a wheat parity payment, or a wheat loan; that compliance will be checked on the basis of the acreage of wheat harvested after reaching maturity; that any acreage of wheat harvested as grain or for any other purpose after reaching maturity in excess of my allotment will be subject to the regular rate of deduction for excess wheat."

It is not anticipated that there will be any producers who want the nonwheat-allotment option. Any one interested in the further regulations regarding this option, please contact the AAA office.

ANSWERS TO AUTO QUIZ NO. 10

1. c. clear. Note that this question refers to fatal accidents. Most of us have learned to fear snow, rain and fog, and we drive accordingly. There are many minor mishaps in such weather, but because few of us drive at high speeds under these conditions fatal accidents occur more rarely than one would suspect.

2. f. 720 feet. As speed is increased the car requires an increased turning radius. This radius increases as the square of the speed. Thus, when speed is doubled, the safe turning radius is quadrupled; when speed is tripled the safe turning radius is nine times longer. An appreciation of these facts will explain many accidents on curves.

3. c. high. Under any other conditions this would be considered a driving error. Using the gentler gear maintains the light friction which exists between the tires and ice, mud or clay. Be sure, however, that you engage the clutch with all possible care and slowness.

"ONE NATION, INDIVISIBLE"

They look different—the different parts of this country. The climate-shaded streets of old New England towns are not at all like the wind-blown streets or prairie villages. The square white houses topped with "captain's walks" of seaport settlements have an atmosphere about them that is altogether lacking in the new stucco houses of the Southwest.

But underneath and through it all is something stronger than these differences; something more potent than the fascinating variety. And that is—the sameness!

Everywhere you go, from Maine to California, we are, first and foremost and above all, Americans. We are nourished by the same traditions—stirred by the same impulses—inspired by the same ideals, and to be mundane and practical, served by the same producers.

A 10-cent store on the street of a town built by sea-faring Yankees in the 18th century even smells the same as a 10-cent store on the street of a western oil town that sprang up a dozen years ago. Looking at the familiar displays in a drugstore window you feel yourself "at home" no matter where you are or what part of the country you hail from.

Monotonous? Stereotyped? Maybe. There might be more color to the American scene if there were great

sectional differences and regional cultures. But there would not be the strength, the similarity of outlook and the possibility for national unity such as the world has never known, without this national uniformity.

If the good people of Connecticut ate a breakfast food the good people of Nebraska never heard of—if the movie stars of Hollywood had a face cream unknown to the ladies of New York—and if the people of South Carolina drove cars strange to Michigan, this country couldn't be what it is today and will be tomorrow.

Eating the same foods—using the same face powder—wearing the same clothes—driving the same cars, gives us an understanding of each other that has nothing to do with distance or climate or historical background.

So it is our manufacturers, as well as our writers and statesmen and educators, that make us one people. For by producing goods for Americans as a whole and by a unique system of distribution they are able to sell them in every city throughout this far-flung land.

Thus we are united by our everyday habits of living, as well as by our ideals of Liberty!

FSA Favors Long Term Leases For Tenants

Farmers, just like all other citizens of this country, must be in a position to shoulder their part of the national defense load, according to

Claude C Carpenter, county supervisor for the Farm Security Administration. And to those farmers, he added, who have security of tenure, who can produce an ample supply of food and yet protect the soil and conserve the moisture will be better able to help in times of emergency.

Mr Carpenter believes it is time for landlords to be thinking about the tenants who will farm their places next year. He cited a number of reasons why a tenant, if he has been satisfactory, should be told at this time he may continue on the farm for another year or even longer.

"If the landlord and the tenant make a contract now for next year, they can plan for cover crops, improvements in the buildings and perhaps acquire needed machinery and livestock."

Mr Carpenter reports definite progress in the landlord-tenant relations in Briscoe county. He said a check of the tenant families in this county on the FSA program shows that 35 of them have leases of from two to five years and that 10 families have written leases with renewal clauses.

The Farm Security Administration has been working for improved landlord-tenant relation. We have tried to cooperate with landlords in finding good tenants and we have been working with tenants to secure long-time leases in order that the farms of this county can be operated at a profit and conserved rather than mined." Mr Carpenter cited a wellknown fact that tenants who move each year usually are compelled to mine the soil in order to make the most out of it and leave it poorer than before. He said a short term lease cannot justify the landlord or tenant to build up the soil or make improvements on the farmstead.

The supervisor said the FSA has flexible farm lease forms for landlord and tenants that he would be glad to explain them to all interested parties. "We hear a great deal about na-
