Time Again For Christmas Mailing

Well folks, here we are again with the same old story, yet it is a happy one, that is early mailing for Christmas (not Xmas). Again the first thing is "begin now" to hurry up and get your packages and cards in the mail early. It is going to be a stupendous (that is a big word, isn't it') and it is going to be a big job to handle this Christmas mailing, but we are going to do our very best to do it in a satisfactory way, but we do need your help. Heretofore we have had your cooperation, for which we are very, very thank-Well folks, here we are again which we are very, very thankful. Be sure your packages are

Memphis wins new Textile Plant

Today, because of aggressive leader-ship, this Texas Panhandle town boasts an active new textile plant making sheets for national distribution. What is more important, the plant's parent company is the world's largest manu-facturer of textiles using all known fibers.

This new industry is the Hall Plant of Postex Cotton Mills, a unit of Bur-lington Industries, Inc. It is designed to have in excess of 100 employees, mostly women, and is an important

addition to the economy of this 3500 population community. It is another reason we say big things are happening in General Telephone towns.

These towns are on the move. Com-Inese towns are on the move. Com-munity improvements are under way, local resources are being developed, new businesses, new industries are coming in. If your town seeks addi-tional information about expansion, perhaps we can help. Just write our Community Development Depart-ment, Box 1001, San Angelo, Texas.
