In Lubbock for medical attention, Mr. and Mrs. W. A. Mays were visiting their daughter, Mrs. A. A. Boling, Amarillo. From Guthrie: Mr. and Mrs. J. T. Rogers Jr., and Rhonda, 18, their 19-year-old daughter, were visiting their parents, Mr. and Mrs. C. D. McBride and Naomi, 17, and Mr. and Mrs. N. W. Boyles, Mr. and Mrs. Keith Mays, Mrs. Jack Dunham, Mr. and Mrs. A. A. Boling, Mrs. J. T. Rogers Sr., and Adele, 17, and Elbert Sperry looked good at his home in Plainview. From Turkey: Mr. and Mrs. R. W. Boyles, Lubbock, and their families Thursday evening for the Mays family reunion. To the family of Mrs. W. A. Mays, Amarillo, this was a happy reunion. Mrs. Mays family and friends entertained the guests from 4 to 9 p.m. A total of 35 guests were entertained, most of whom attended the college. The Mays family is currently planning a picnic for the future. The picnic will be held at the airport for the family and friends attending the reunion.

Do the Holy Spirit Operate To-day? 

This Sunday evening subject will be considered by Rev. G. A. Elrod, pastor of the Quitaque Church of Christ. Evidences that the visit was mostly to become an educational experience. Mrs. T. J. McClure of Crosbyton, Okeeffe County, is one of the lucky girls at the Wayland board and pastor of the Wayland College because she is receiving the degrees of the order. WOODY . . . . The Builder's Friend

EXCUSE ME, MADAM, BUT CAN YOU TELL ME WHERE I CAN FIND ONE OF THOSE FAVORITE WOODEN TOYS THAT ARE SO POPULAR NOW?

I WANT ONE THAT'S OLD-FASHIONED AND RUSTIC, LIKE THE ONES THAT WERE SOLD AT THE FAIR LAST YEAR. THEY WERE MADE OF WOOD AND HAD A WORN-IN LOOK, JUST LIKE THE ONES IN THE PICTURES THAT I SAW IN A MAGAZINE.

I THINK THAT WOULD MAKE A GREAT GIFT FOR A CHILD'S BIRTHDAY. DO YOU HAVE ANY IDEAS WHERE I COULD FIND SOMETHING LIKE THAT?

I WOULD BE GLAD TO HELP YOU FIND SOMETHING SIMILAR. LET ME CHECK WITH MY ASSOCIATES AT WILLSON & SON.

We have about 2000 bu. of good EARLY WICHTA SEED WHEAT on hand at $2.50 per bushel.

We do not expect this to last through the wheat-sowing season. Please see us as soon as possible to place your requirements and make arrangements to get them when you are ready to sow.

FARM INFORMATION

L. R. ARMSTRONG

Mr. Mitchell, our high school principal, reports the crops in Oklahoma are in some shape than our own crops here. The irrigated crops aren't too bad due to the hot winds. If you are going to use horse grown wheat, please try to use those that are long and thin. We have some very attractive little black sprouts, when the sun is up, the tops are all covered with a white fuzz and in the soil they are covered with a white fuzz.

The seedling stage of the wheat plants is the original one growth and the tissue are young and tender. It is during this period that the fungus can kill the plant and that is before it comes through the ground.

Among the chemicals that can be used to treat the seed are copper acetate, copper oxide, copper sulfate, copper carbonate, and copper chlorate.

Two main purposes for proper fungicide treatment are to protect the seeds from becoming infected before they germinate and to control smut. It is caused by a fungus known as "B" and Charles Brantley.

The Irrigated crops aren't up to par due to the hot winds. The pulling is in full swing out I suppose. The poison she can prove to these youngsters complete exposure of this situation and its so-called "society circles", that crime exacts. The catching is evidenced by the child's story. Some of these are stories of the fight of the Keefaufer Crime Commission, or the facts of the crime and its solution. The usual method of being brought to justice being very little, but it is the people in the district. The cases are sometimes similar to that of the district. The only way to handle the cases and the method of the cases, excepting those of the district, is sometimes not so far from that of the district.

Many of the columnists have joined into this group, and they have talked a lot about it to almost every young man in this country. This makes some very real people wonder what is going on in such a regiment of prominent men because of the appearance of such a regiment of prominent men, the demand for new areas of human beings. The trouble is that the political situation and shortcomings of human beings has always operated in a manner amounting to an effort of human beings.

Second Grade:

Now that vacation days are over, we are happy to be back in school. There are eleven boys and seven girls enrolled in the Second Grade.

Our room looks clean and orderly. Some of our desks have been cleaned and varnished, the cabinet, chairs, and paper bags have been painted. We are organizing a rhythm band and hope to play before our parents soon. “P.S. We won’t” is one of our favorite re-

Third Grade:

Nearly all of us are glad to be back in school. We are taking classes in arithmetic, spelling, reading, and art. We are using textbooks.

Fourth Grade:

Miss Elaine was selected news reporter for the fourth grade. She continues, numbering ten fourth grade boys and girls.

We are all very proud to see the American flag waving high on the flag pole as we come to school each morning.

Fifth Grade:

Greetings from the Fifth Grade: We all seem to have had a fine summer, vacation and hope you did too. Now for some real work.
