Kim Coker And Steve Eudy Of Turkey Receive Highest FFA Degree

Kim Coker and Steve Eudy of Turkey have been nominated to receive the American Farmer Degree, highest degree presented by the National FFA Organization. Coker and Eudy were nominated for the degree by the Texas FFA Association. The nomination was approved at a recent meeting of the national FFA board of directors in Alexandria, Virginia. Two of 701 FFA members nominated for the American Farmer degree, Coker and Eudy will receive the degree in a special ceremony on Thursday, November 13, pending a final vote of approval of 119 student delegates who represent FFA members in convention business sessions.

Eudy is the son of Mr. and Mrs. Jay Eudy, while Coker is the son of Mr. and Mrs. U. F. Coker, jr., all of Turkey, and both young men are currently students at Texas Tech. Both are engaged in farming during the summer.

They earned the American Farmer Degree on the basis of Project Programs that included cotton, milo, forage, sheep, beef and swine. Both boys were very active in the local chapter serving as President and Vice President as well as being members of all leadership and judging teams. Both were delegates to the district, area and state conventions.

Eudy served as President of the Greenbelt District and Vice President of Area I. Both boys were members of the State Courtesy Corps and are currently on the Dean's Honor Roll at Texas Tech majoring in Agriculture.

Valley High School vocational agriculture instructor and FFA advisor is Jay Eudy of Turkey.

The American Farmer Degree is a highly coveted award because it is presented to approximately one member in 700 of the 485,793 total FFA membership. It is presented only by the National FFA Organization to members who have demonstrated exceptional agricultural and leadership ability.

Each American Farmer Degree recipient will be presented a gold key and certificate by the National FFA Organization. Recipients who attend the convention will also be presented a check from the National FFA Foundation to help pay their travel expenses.

To qualify for the American Farmer Degree, FFA members must have advanced through a system of degrees unique to the FFA organization. All members begin as Greenhands and after one year of membership may be advanced by the local chapter to the degree of "Chapter Farmer." The third degree, that of "State Farmer," is presented by the State FFA Association to two percent of the State's FFA membership in any one year. Only students who have earned the State Farmer Degree are eligible for the American Farmer Degree.

The National FFA Convention is an annual event of the future

Farmers of America and is carried out in cooperation with the U. S. Office of Education, of the Department of Health, Education and Welfare. This year over 15,000 FFA members, Vocational Agriculture teachers, parents and guests are expected to take part in the 48th National FFA Convention.

The convention is conducted entirely by student members all between the ages of 14 and 21. Six National FFA Officers take charge of all business sessions and 119 official delegates represent the membership in voting on all issues of business.

In addition to the American Farmer Degree many other FFA awards are presented during the convention. Contests are held in dairy, livestock, poultry, meats, milk quality and dairy foods, agricultural mechanics, horticulture, and public speaking. Several guest speakers of national prominence address the convention audience and entertainment is interspersed with the business. The convention is the largest annual youth convention in the nation. Tribune Has New Reporter At Turkey

The Valley Tribune has a new reporter at Turkey and she will start reporting the news at Turkey beginning next Monday, Nov. 3.

Nadine Baisden, who is no stranger to people in the area since she has been a long-time resident of Turkey and is former publisher of the Turkey News, will become the Tribune reporter beginning Monday of next week.

Mrs. Baisden will replace Mrs. Mayme Blume who has been reporting the happenings at Turkey since August of last year. Mrs. Blume stated that she is not feeling too well at the present time and feels that she needs to rest awhile. The Owens are sorry to lose Mrs. Blume and sincerely hope that she gets to feeling rested again real soon.

We have appreciated her helping out over there.

Nadine knows the reporting business and she will sincerely appreciate any help, any tips on a news happening that you may know about and asks that you give her a call any time you have a news item. For the present time at least she will be at the news office at the back of the Peoples State Bank Building on Mondays and Tuesdays. The new telephone number of The Valley Tribune in Turkey is 423-1287, and at Quitaque the Tribune number is 455-1101. Call us any time you need us.

Pigg Brothers Have First Bale Of Cotton For Quitaque

The Pigg Brothers, twin sons of Mr. and Mrs. Jack Pigg, produced the Quitaque area's first bale of cotton, which was ginned on Tuesday, October 28, by Paymaster Gin at Quitaque, according to Gin Manager Ronnie Carpenter.

The boys brought in 2780 lbs. of seed cotton which produced a 530-lb. bale of cotton and 930 pounds of seed. This averaged out to a 19.6 turnout, which at first glance does not seem so good, but this cotton field happened to be in the path of a hailstorm that hit the area a couple of weeks earlier, so all things considered, it was a pretty good turnout. The cotton was grown on Mrs. Webb Taylor's farm.

The Paymaster Gin processed the cotton free of charge and Manager Carpenter is in the process of making up a premium for the boys.

Precinct 1 will vote at the City Hall in Silverton; Precinct 2 at the City Hall in Quitaque; Precinct 3 at the Pioneer Room at First State Bank in Silverton, and Precinct 4 at the Production Credit Association community room in Silverton.

Turkey Farmers Co-op Gin Gets First Bale For That Area

Turkey Farmers Co-op Gin received the season's first bale of cotton a couple of weeks ago to win "first bale of the season" honors for Turkey area gins.

Tony Galvan, who farms the Smith Rees acreage, brought in the first bale of cotton. Mr. Galvan brought in 2200 pounds of seed cotton which produced a 520-lb. bale. The gin processed the cotton free of charge and paid Mr. Galvan \$100 per pound for the cotton. Memphis Compress also gave Mr. Galvan \$100.00 for producing the first bale.

Turkey Residents Please Notice

General Telephone Company of the Southwest would like to announce to its Turkey subscribers that they have found an error in its listings on Page 1 of the new telephone directories. The number listed for Deputy Sheriff Clyde Rogers is 423-1341. That is incorrect. Mr. Rogers' number is 1038. The number listed inside the directory on Page 16 is correct.

Children's Pictures To Be Taken By Winston B. Lucas

Winston B. Lucas of Irving, Texas, a well-known photographer to residents of this area, will be in the Turkey and Quitaque communities next week to take pictures of the youngsters of this area. Mr. Lucas, an expert child photographer with all of the necessary equipment, will be in Turkey next Tuesday, November 4 at The Valley Tribune office from 1:00 p.m. to 5:00 p.m., and will be at The Tribune office in Quitaque on Saturday, November 8 from 10:00 a.m. to 4:00 p.m.

There will be no charge to parents for having the children's photos taken, nor are there any strings attached. Parents do not have to be subscribers to this newspaper nor will they be expected to purchase any pictures. Those who want to buy prints may do so when they come to select the pose they want to be printed in the paper. It is entirely up to them.

This paper simply wants pictures of the youngsters and the more the better. Be sure and remember the dates: Turkey next Tuesday afternoon, and Quitaque on Saturday of next week.

The Valley High Patriots won their seventh game of the season here last Friday night as they turned back the luckless Lazbuddie Longhorns 32-0, adding yet another goose-egg to their collection, a feat that is beginning to attract attention all over the state. Seems there are possibly only a couple of other teams in all classifications that are allowing fewer points this year than the Patriots. Only two teams have scored against the Patriots, Matador scored six points and Sudan, the only team to defeat the Patriots, put 10 points on the scoreboard for a total of only 16 points scored in eight games.

In last Friday night's action against Lazbuddie the Patriots went right to work. On the opening kickoff Scotty Setliff returned the KO to their 40 but one of the Patriots was caught holding and they were penalized back to the 19 yard line. It took the Patriots just ten plays to get their first score with Brian Wheeler lugging the ball in from five yards out. The PAT was missed and Valley led 6-0 with 8:14 left to play in the first period.

The Longhorns brought the kickoff back to midfield and lost six yards on three tries and had to kick it away. The Patriots had to start on their own eight yard line this time but the locals marched the length of the field for their next touchdown with Ron Eudy scoring on a keeper play from the one yard line. Once again the PAT was missed and the Valley boys led 12-0 with 2:18 still left in the contest.

Lazbuddie ran one play from scrimmage following the kickoff, then fumbled the ball away, Valley recovering on the Lazbuddie 33. Valley moved to a first down at the 20 yard line as the first quarter ended. On the first play of the second period Valley fumbled the ball back to the Longhorns at the Valley 21 yard line. Lazbuddie, with the aid of a 15 yard penalty,

moved to the 39 yard line, where they once again fumbled to the Patriots. Valley picked up one yard, then on second down, Barry Wheeler broke for 38 yards and the Patriots third score. The try for extra point was good and Valley was ahead 19-0 with 9:53 left in the second quarter.

Lazbuddie fumbled the ball away again on the kickoff and Valley was back in business on the Lazbuddie 35. At this point Coach Hulsey started playing his reserves.

Valley fumbled to the Longhorns on the Valley 46 and the visitors moved to the Valley 38, their deepest penetration of the game. Neither team was able to move the rest of the period and at half time the score was 19-0, Valley.

Valley put another touchdown on the scoreboard with less than three minutes gone in the third period, Ernie Lucero adding the PAT to make the score 26-0.

Scotty Setliff ran the final touchdown in from short yardage in the fourth period to make the final tally of 32-0.

Coach Bill Hulsey selected senior tackle Bruce Patrick as his Offensive Player of the Week for his performance against the Longhorns. Coach Hulsey stated that Bruce played his usual steady game and enabled the Patriots to run three touchdowns over his position.

Pepper Jones was named Defensive Player of the Week for his good play against the Longhorns.

Barry Wheeler picked up 134 yards rushing and his big brother Brian ran for 113 yards against the Longhorns. He has run for over 100 yards in every game this year.

Next week the Patriots will go to Nazareth for the next-to-last game and will close out the season here the next week against Amherst.

New Telephone Office To Begin Operations In Quitaque Wednesday

A new telephone office capable of providing faster call completion and a variety of services will begin operations in Quitaque Wednesday, November 5.

The new telephone equipment, called CXP5 in the telephone industry, is specially designed to offer a means of meeting growth demands and to provide special features to customers in areas up to 5,000 customers, said J. H. Davis, Division Manager, Memphis.

The telephone company manager explained the new office is designed for incoming and outgoing One Plus dialing, touch calling, and automatic trouble detection and recording. Touch calling is available, cost depending on style and number of telephones.

Davis said work now being done will make 1+ dialing in Quitaque and Turkey available on November 20, 1975.

The office also can be modified at a later time for several "exotic" features such as call transfers and three way conference calls. Davis said these services will be offered when studies indicate customers want and are willing to pay for these "exotic" services.

The CXP5 also features a duplication of some equipment to assure reliability of the system. Davis explained that the duplicate circuitry takes over when trouble occurs until the malfunction is corrected.

A feature that helps prevent cus-

tomers trouble reroutes the call over a different path through the equipment if the first attempt fails.

Davis said both of the features occur at split second speeds, and the customer is not aware of any changes.

In addition, the Quitaque office has automatic equipment that detects and records any call that fails to progress properly through the equipment. The location and nature of the malfunction are printed out on a teleprinter in the office for correction. Davis added, however, that customers should continue to call repair service when encountering trouble.

Davis added, the new office requires customers to have seven digits in their number and all seven digits must be dialed. A new directory has already been published for the customers of Quitaque and Turkey. Customers in Quitaque should begin using the new telephone numbers, effective at 12:01 a.m. Wednesday, November 5.

Another change involves party line customers. Davis said party line customers wanting to call another person on their party line should dial only the seven digit number. A ticking sound indicates to both parties that it is a party line call.

The same system was provided for Turkey at 12:01 a.m. today, October 30.

Capture Capering Kids In Memorable Movies

NEW YORK, N.Y. (ED)—Turn most children loose outdoors and you can be sure of one thing—they will not sit still. Given the opportunity, they will run and climb and dangle and ride, with some skipping, skating and sliding thrown in.

Capturing this unending activity on film requires a movie camera. Not just any movie camera, but one which will allow you to follow and film the action, indoors, outdoors, in sunshine or shadow, without worrying about adjustments. The Kodak XL320 movie camera fits this description exactly. As easy to carry as it is to use, it requires only that you drop in a film cartridge, aim and shoot.

Any second now she is going to plop blissfully into that water. With your movie camera you can capture the whole sequence.

Visual appeal is achieved by applying some of the same basics that you use in still photography.

Watch the background and, when possible, adjust your shooting angle to avoid distracting clutter.

Be alert for opportunities for foreground framing, in or out of focus. Branches, fences, gates and so on add just as much to the composition of a movie frame as they do to a snapshot.

It goes almost without saying that you film only while standing still. Movement belongs in the movie, not in the camera.

If you do find it necessary to move the camera in order to keep a running figure in your viewfinder, be sure to do it slowly and steadily rotating your body from the waist.

There is really only one last point to remember. Movies should be fun to make as well as fun to view, so—enjoy.

Given one small boy, a butterfly net almost as big as he is, and a flower-filled meadow, you have the makings of memorable movie footage.

Outlining your subject against the sky by aiming upward is a good technique whether you are making still pictures or movies.

You are free to concentrate on what and how you shoot. "What" in this case, is attractive, busy kids who, in themselves, do a great deal to make your movies appealing and interesting. But, no matter how appealing they are, you can enhance your movies still further by the use of simple filming techniques.

First, provide visual variety by mixing long, medium and close shots. As you change your filming position, also change your shooting angle.

Scene length should be varied as well. Five to fifteen seconds (averaging out at ten) is the recommended rule.

Double up, America.

Two can ride cheaper than one

If you drive to work by yourself, you're spending twice as much money on commuting as you should. That's too much. Cut it in half. Take a friend.

Farm Organization Calls November 4 Election Important

An official of a statewide farm organization today called the constitution election of November 4 "the most important single election in which we will have an opportunity to vote."

Texas Farmers Union President Jay Naman of Waco made the remark during a statement when he called on farmers and ranchers to support the passage of the proposed state constitution. Naman said that while all citizens of the state will benefit with the passage of the document "farmers and ranchers particularly will benefit from several provisions in the state charter. I strongly urge all rural people to vote in favor of the measure."

Naman said that the decision by the Farmers Union to support the proposed document came after a careful analysis by the farm organization's Executive Board. "We feel that the proposed constitution incorporates many of our recommendations and policy statements."

Naman said that the overall impact of the proposed constitution will be to return control of the governmental processes to the people and away from "court house" government and government by agency control.

Among the provisions of particular importance to farmers and ranchers Naman emphasized two provisions in the Finance Article. "The provision which requires the legislature to establish a separate formula for the appraisal of agricultural land for ad valorem tax purposes is a major breakthrough in the state's property tax system," the farm leader said. "Agricultural producers, particularly those in area of rapidly expanding metropolitan areas and recreation areas, will benefit greatly by having their land taxed at its productive value rather than at its speculative value. In the end, this measure will help keep much valuable land in agricultural production."

The other provision which Naman said is important to the agricultural industry is the constitutionally guaranteed prohibition of a retail sales tax on agricultural machinery and parts, feed, seed and fertilizer. "Although we currently have such an exemption, it is statutory only. By protecting it in the constitution we will assure continued savings of millions of dollars in added production costs," the Farmers Union president explained.

Naman termed the argument that the document is "liberal" rather than "conservative" as "phony." "I do not believe you would find men such as GOP State Chairman Hutchison or Speaker Bill Clayton supporting the document if it were. The proposed document is neither liberal nor conservative," Naman declared. "It is simply a viable working document which will bring good management practices to local and state governments as well as some needed budgetary controls."

"The issue boils down to that of special interests in the state vs. the people. I urge rural people to vote in their best interest and that of the state and vote for the constitution," Naman said.

Last year more than 7½ million school children participated at local levels throughout the United States.

A unique opportunity is offered the elementary grade students to compete in the Amarillo Globe-News-WTSU event. Boys and girls in the sixth and lower grades may spell in the Junior Division and each county may select a champion in this category. The elementary county winners will not compete in the regional contest in April unless they should hold both titles in the respective county.

County directors have complete control over their contests and may conduct the spelldowns either verbally or orally. The Amarillo regional contest will be oral competition.

Most schools use the booklet prepared by the national sponsors, "Words of the Champions." The 1976 issue may be obtained by writing Spelling Bee Editor, Amarillo Globe-News, Box 2091, Amarillo, Texas 79166. The price of the book is 25 cents.

The champions from Briscoe County in 1975 were: SENIOR DIVISION: Carolyn Carey, a student in the Silverton Junior High; JUNIOR DIVISION: Penny Cogdell, also a student in the Silverton Schools.

COFFEE PRICES EXPECTED TO JUMP SHARPLY

COLLEGE STATION—It's going to cost more to wake up in the morning, at least if you depend on coffee as an eye-opener.

Coffee prices are expected to jump sharply in the coming months due to a July freeze in the top coffee producing states of Brazil, which annually produces about a third of the world coffee crop.

"The freeze is expected to cut in half next year's harvest of coffee beans in Brazil," points out Dr. Russell McDonald, economist in marketing with the Texas Agricultural Extension Service. "Furthermore, this year's world coffee crop is down about 8 per cent from that of last year."

Buyers in the United States generally have small inventories and were anticipating a large coffee crop for the 1975-76 crop year, which would have meant lower prices. But, they must now build their stocks in the wake of the disastrous freeze losses in Brazil.

"Following the July freeze, the New York cash price for green coffee jumped about 20 cents per pound from the June average of 55 to 65 cents for Arabica coffees. Retail coffee prices may increase 25 to 75 cents per pound during the next three to nine months," speculates McDonald.

Despite the lowered production forecast for the coming crop year, there will be enough coffee to go around, notes the Texas A&M University System economist. However, reserve stocks will be down sharply. U. S. Department of Agriculture officials estimate that Brazil now holds about 21 million bags of coffee in reserve. The country annually exports about 18 million bags and itself consumes another 8 million. So, carryover stocks going into the 1976-77 crop year are highly uncertain at this point and will depend heavily on just how short next year's harvest is in Brazil.

Mr. and Mrs. Alton Lane and Greg of Ruidoso visited his parents, Mr. and Mrs. Luke Lane, other relatives and friends, over the past weekend.

Mrs. Arlie Clark and granddaughter, Carrie Poole, of Amarillo, Mrs. Dicie Gilliland and Mrs. Gladys Wilson were in Memphis Sunday visiting Mr. and Mrs. Leonard Lusk.

Mr. and Mrs. Shine Stephens visited in Claude Sunday with their daughter and family, Mr. and Mrs. Stacy Ward.

Mr. and Mrs. N. B. Willborn of Winters, parents of Rev. James Willborn, visited in Turkey from Thursday of last week until the following Monday and Richard Willborn and family of Plainview were visitors over the past weekend.

A Land Bank loan at work

Labor-saving devices won't turn farming into a "rocking chair" occupation. Still, there are ways that a long-term Federal Land Bank loan at reasonable cost could help you expand—and handle the increased production with less effort. GIVE ME A DRINK

Jesus asked the Samaritan woman a simple but needed request, "Give me a drink." From this moment he drew her into a conversation, a person considered outcast from God's people. In the encounter she was led to know something of herself, the meaning of eternal life, and the Messiahship of Jesus. The ripples of one request reached beyond the woman to an entire Samaritan village.

Perhaps the best way to call anyone into fellowship with us is not to offer them service, which is liable to arouse the resistance of their pride, but to ask service from them. Of course the request must be genuine, prompted by a real need.

I believe that Jesus seeks to win us to deeper fellowship with himself by putting some part of his purpose into our hands. God is all-sufficient to himself, but he needs and entrusts his purposes to us. God makes himself dependent upon us, as Jesus was dependent on the woman for the quenching of his thirst. God asks for our service. We should ask the service of others. God's love needs me, and behind that love which he is ready to give, lies the basis of my love and need for others.

Jesus said: "If you knew the gift of God, and who it is that is saying to you, 'give me a drink,' you would have asked him and he would have given you living water." John 4:10

We need you!
