# TO TURN AGAIN

In winter the pond freezes over, and the old mill wheel is idle. But although the landscape appears dormant, there is hidden life beneath the surface. One day it will be spring again, with water rushing over the mill wheel and corn being ground into meal.

If you have been living in a winter of your own, why not take a lesson from the old mill? The winters of our life are bleak—they are hard to weather. But forever and ever there is the chance to start again. Spring *will* come and your church will sustain you through doubt and disappointment and give you promise of another chance—another life.

**FOR SALE:** Beautiful Colonial Home: 3 Bedrooms, Modern Kitchen, 1/2 Basement, 1/2 Playroom.

Would you answer an ad like that? Probably not, but you might have to live in such a house if you can't make full recovery after a serious loss. A surprising number of people run such a risk by being underinsured!

Naturally you hope you never have a fire or other catastrophe. But insurance, to be effective, must protect you in the event you do. Building costs have risen so substantially that many people don't realize they are no longer fully covered.

Our job is to keep all of our policyholders as completely current as possible—it's part of our service. If you have any question about your present contract please feel free to call. We will be happy to give you a professional appraisal, without any obligation.
