Food Donations Given Meals on Wheels

BAIRD - Let us say a great big "Thank You" to the following that were so generous to donate fresh fruit, dried fruit, green beans and turnips: Mrs. Lloyd Duncan, Mrs. Henry Lamb, Mrs. Charles Walker, Mrs. E.J. Bates and Mrs. Floy McMullen. We also want to mention that Mrs. Mary (Brown) Dix of Abilene donated a real nice couch for our sitting

room we have started. We enjoyed another day of work on the quilt. Those attending were, Maybelle Cline, Cordie Brame, Mary Finley, and Ethel Seelig. Those of you that forgot it this time put it on your calendar for next Monday at 1:00 p.m. Bring your scissors and join in the fun.

As of July 1st, we are starting a five day a week meal delivery. We are in

great need of volunteers to deliver so please think about the wonderful thing you would be doing by giving one hour per week to brighten the day for someone less fortunate than yourself. We would appreciate having some of the younger people getting involved for the summer. Come and give us a call at 4-1916. Ferne Lee Director

Spend a quiet evening at home without electricity ...and see just how quiet it really is.

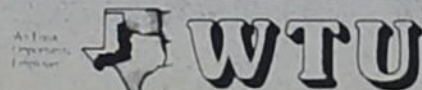

Forget about watching TV or listening to the stereo. How about reading a good book — that's a great idea if you do it before dark or if you plan on using Abe Lincoln's lighting, the fireplace.

Nobody has to tell you how important electricity is in your life. It surrounds you daily, lighting the way, entertaining you and making life more comfortable.

And that's the way it should be, but we at West Texas Utilities hope you'll use electricity wisely and efficiently. Make sure your home is properly insulated and weatherized, turn off unnecessary lights and appliances, and above all, watch that thermostat setting. These things not only conserve valuable energy, they can help to lower your monthly bills. And that's important now and in the future.

ONCE YOUR CHILD CAN SAY "HELP," TEACH HIM HOW TO GET IT.

Dialing "O" for the operator in an emergency is so simple even a child can do it.

But you'd be surprised how many children don't know how—only because they haven't been taught.

That's why it's important to teach your children this emergency procedure as soon as they can understand it.

Dialing "O" is fast because there's only one digit to dial.

Dialing "O" is easy because it can be used for any emergency situation.

And dialing "O" alerts an operator who's specially trained to handle an emergency. That's particularly important if a younger child becomes confused or panics.

Older children can be taught to find the emergency service number in the telephone directory. And, of course, make sure all your children know that phones aren't toys and shouldn't be played with.

Any child can get involved in an emergency. What's important is that they know how to get out of it.

company such as this performs a most important function. It delves into the often complicated records which are so confusing to the average property buyer and converts them into a readily understandable title to the property.

The most important qualifications of an Abstractor of Titles are his integrity, ability and thoroughness, in that order.

IS THE CHURCH PART OF YOUR LIFE?

TWO BY TWO

"The Lord [Jesus] appointed other seventy, also, and sent them two by two." (Luke 10:1)

I sold aluminum ware one summer during my college years. The first two weeks were spent in becoming intimately acquainted with the product and the fine art of selling. "Work in pairs," our instructors said, "and let the product speak for itself. Show it, caress it, and let the customer get the feel of it." And you know, it worked! It really worked! And at night my partner and I would buoy each other up by telling tall tales of our selling exploits. There was a companionship that made the work more enjoyable.

"Two by two" they went—but Jesus went alone. Even those moments before His death He had to plaintively ask, "Could you not watch with me one hour?" (Matthew 26:40)

There was Paul and Barnabas, Peter and John, Jesus andme!
