## Variety of Weather Pays Visits To Area

Hail destroyed or severely damaged a long strip of area crops late Sunday afternoon.

The hail started at the edge of the Cap southwest of Quitaque and traveled almost to Parnell. Fortunately, the strip of hail damage was narrow, at least the more severe coverage.

Hardest hit in the Quitaque area was reported to be in the Joe Edd Smith, Bob McWilliams and Willie Woods farms, along with others in that vicinity. They reported only stubs left from the storm. In addition to the loss of crops, the Smiths received extensive damage to the roof of their home.

Extensive loss was also received in the Turkey area as well. The storm traveled south and east of Turkey some two to three miles. Some of the farmers believe their crops will perhaps come out,

and plan to leave them. Others are replanting and hoping for a late frost.

Up to three inches of rain was reported in spots along with the hail. No rain fell in Quitaque. In Turkey around half an inch was received Sunday, and Flomot also had a pretty good shower.

Last week was a week of contrasts. There is an old saying that if you don't like the weather in West Texas at a given time—just stick around awhile and it will probably change. On Wednesday morning of last week a norther blew in and for several hours a jacket felt real good.

Two days later, on Friday, the thermometers soared above the 100 mark all over the Panhandle. Some readings of 106 were reported in this area. Saturday and Sunday were more of the same and each day saw high winds along with the heat.

Late Monday the clouds came again but this time they brought only a beautiful, slow rain that ranged from a little over an inch in Quitaque to a near inch in the Turkey area, bringing a respite from the heat wave and giving the thirsty young crops a good drink.

## Can We Wave the Flag too Much?

BY SIDNEY L. DeLOVE

Is it possible to wave the flag too much? Provided, of course that you wave it with integrity? Is it possible to study Lincoln or Shakespeare too much? Is it possible to read the Bible too much? The great, the good, the true, are inexhaustible for inspiration, example and strength. I believe that we are not waving our flag enough, not nearly enough. It seems to me that we are developing a tendency to be timid or even apologetic about waving the stars and stripes. Walk up and down the streets on July 4th and count the flags. It is our nation's birthday, a sacred day in world history, the most important day of America. Why isn't the flag flying on every rooftop and from every home and building? This complacent attitude

is strong evidence of cancerous patriotic decay. The flag is a symbol of our national unity. It is the spirit of our undying devotion to our country. It stands for the best that is in us... for loyalty, character, and faith in democracy. Isn't our flag a synonym of the United States of America? Does it not represent man's greatest, noblest, most sublime dream? Is it not the zenith of achievement, the goal to which generations have aspired? Ladies and gentlemen, I believe it is time for us... for the mad, rushing Twentieth Century... to stop for a moment and think. Let us arrest our near-reverential admiration of material success and return to the spiritual and ethical values. Let us imbue and rekindle in ourselves and our children the so-called old-fashioned way of patriotism, a burn-

ing devotion to the principles and ideals upon which our country was founded. Should not every home own and proudly display the colors on holidays and other such occasions? Isn't the flag Patrick Henry, Jefferson, Franklin, Washington, Nathan Hale, Gettysburg and Valley Forge, Paul Revere, Jackson and other great men and women who have given us our heritage. When you look at the flag can't you see the Alamo, Corregidor, Pearl Harbor, The Monitor and The Merrimack? Lest we forget, isn't the flag Flanders Field, Bataan, Iwo Jima, Normandy, Babe Ruth and Davy Crockett? The great events of our past and present are wrapped up in our flag. It is a symbol of this blessed nation, a giant in industry, education and commerce. Millions of fertile square miles, wheatlands, coal mines, steel

plants. Our great republic, the chosen infant destined to be man's last remaining hope for suffering humanity, a shining beacon of light, noble and glorious, the haven for the oppressed and persecuted and truly God's gift to mankind. That is what the flag means to me. Can we wave it too much? I don't think so.

Reply of S. L. DeLove on the Know Your History Hour, December 30th, 1956, to a listener who wrote as follows: "Your programs are wonderful — but you are waving the flag too much."

The above is reprinted and narrated annually in hundreds of national magazines, newspapers and radio stations, and is a part of the Congressional Record.

Dr. DeLove is the author of The Quiet Betrayal and president of Independence Hall of Chicago.

**THE BOB PATRICKS DESCRIBE RECENT VACATION TRIP**

Mr. and Mrs. Bob Patrick joined their daughter and her family, and Mrs. Patrick's brother on a vacation trip across country recently. The Tribune staff asked Mrs. Patrick to keep a diary of their trip for use in a story. Their daughter and family had purchased an old school bus and converted it into a

house on wheels so they were at home wherever they were. The story is told in Mrs. Patrick's own words as follows:

We left Quitaque about 6 p.m. Friday, June 14, and drove to Pampa where we met Mr. and Mrs. D. C. Lewis and daughter, Vickie, and Mrs. Darlene Sultuska and son, Dean. My brother, Jack Linn, also met us there. We left

Pampa at 1:15 a.m. Saturday, going through Borger, Guymon, Okla. and into Colorado where we hit highway 287 about 6 o'clock Saturday morning. We stopped and cooked breakfast and rested a while, then went on our merry way until we came to Denver. Since Bob and I had never been in Denver, we went right through the town, by the Gold Dome Capital, the Hilton Hotel, and the United States Mint, (since they were not passing out any samples we went right on through.)

We arrived at LaFayette where we camped for the night. Sunday, June 16, drove on into Wyoming and within 96 miles of Yellowstone Park. Never in my life have I seen such rocks (and I came from Arkansas.) There were great mountains of them and very little vegetation, except in the valleys and they were beautiful. Sunday night we camped in Wind Valley on the Wind River. We could see snow-capped mountains all day Sunday.

Monday we went on to Yellowstone National Park. It sure was not what I was looking for, and Old Faithful was still right on time. We camped in the Park Monday night.

Tuesday morning we started on our way to Idaho, stopping at Roaring Mountain. It has lost its roar since the earthquake. We went through Paradise Valley. It is really very beautiful at Livingston, Montana. We took highway 90 to Idaho, passing close to the world's largest smoke stack just out of Anaconda, Montana. After leaving Butte, Mont. and its mining and saw mills, Montana was really beautiful.

We arrived in Pinehurst, Idaho about 8:30 Tuesday night. We just rested Wednesday morning and visited. Thursday morning Bob and his brother-in-law, John Vaughn, went fishing and caught quite a few small ones. The rest of the group went sight-seeing at Kellogg. The High School there is built over a creek and the walls are mostly of glass. My brother came over from Richland, Wash. for the day. We had not seen him in 19 years. Saturday we all went fishing and really caught the fish, although it was really chilly.

It rained Saturday night and thundered, but it sounded different than it does here. Sunday the folks there all got together for dinner, and about 3:00 p.m. we started on our way home. We camped just out of Anaconda, Mont. We went through Billings,

Mont. and it rained. We stopped at Clark and Lewis Caverns and Jack, Vickie and Darlene went through the Caverns.

We drove through the Crow Indian Reservation between Hardin, Montana, and Sheridan, Wyo., with cold snow all around us.

Tuesday we were in Wyoming most of the day, but we camped just out of Wellington, Colorado. Wednesday we came through Ft. Collins, then Denver, (a different route,) to Colorado Springs, then Pueblo, Walsenburg, Trinidad, then Raton, N.M. where we camped.

Tuesday we were out in Texas where we found plenty of hot weather.

### SUCCESS AND DUTY

Ten' it strange how we are so quick to rationalize in the Church today: We are always ready to give, what on the surface appears to be, a very plausible explanation for our failures in doing those things that God has very clearly told us to do. A common situation which we see present in so many communities is that of the professed Christian who has developed a limited concept of his duty and responsibility. The reasoning goes something like this: "We have tried to do our duty in the past, and it just did not get us anywhere. People in this community are not like they are in other places. This community just does not have an interest in Spiritual matters. So, if it is not going to do any good,

why should we go to so much trouble?" So the professed Christian has the feeling that he is not under obligation to try to win souls to Christ.

Such Christians have missed a very important point. The "duty" of a Christian is not measured by success, but with actions. The Christian has a duty to do, even if the doing of that duty does not seem to be producing the kind of results desired.

But after all, it is easier to say we are not under responsibility than it is to face up to the fact that more than likely, we have not been successful in the past because we have not done our part. The Bible principle is still true, that we reap what we sow. If we sow as we have been commanded, God will

give the increase. Our duty is not measured by success, but by God's direction.

Claud L. Woods  
Minister of First Church of Christ

Mabel Christian and Ollie Meacham were in McLean for the week - end visiting Jewel and Dixie Nell Meacham. They went to Leke Meredith Sunday.

SP/4 Donald L. Turner received a letter of Appreciation from LTC Oliver F. Raymond, Military Intelligence, Commanding Officer of A Company. It stated:

"I wish to express my sincere appreciation for your outstanding performance of duty while assigned to Company A, Headquarters, United States Army Security Agency, Pacific during the period 18th Dec. 1967 to 20th June 1968." "Your devotion to duty coupled with a willingness to work long hours assisted in the fulfillment of an extremely important United States Security Agency mission.

While the drivers of Texas are making plans for 4th of July trips and outings, the Texas Department of Public Safety is getting ready for "Operation Motorcade," a five - day vigil of tabulating and reporting traffic deaths in Texas, stated Captain C. L. Russell, in charge of the Highway Patrol for this district.

Captain Russell said that "Operation Motorcade" will be placed in effect from 6:00 P.M. Wednesday, July 3, and continue through 11:59 p. m. Sunday, July 7, 1968. It is estimated that 38 lives will be lost during this five - day period.

In order to increase surveillance over the heavy holiday traffic, additional Department of Public Safety personnel are being assigned to augment the Highway Patrol. These patrolmen have been instructed to be alert for and direct their enforcement efforts toward those violators that most often cause an accident. Every effort will be made to remove drinking drivers from the highways.

"Since police traffic surveillance cannot cover the entire street and highway system in Texas every minute of the day, the big hope for safe driving rests with the individual motorist," Russell concluded.

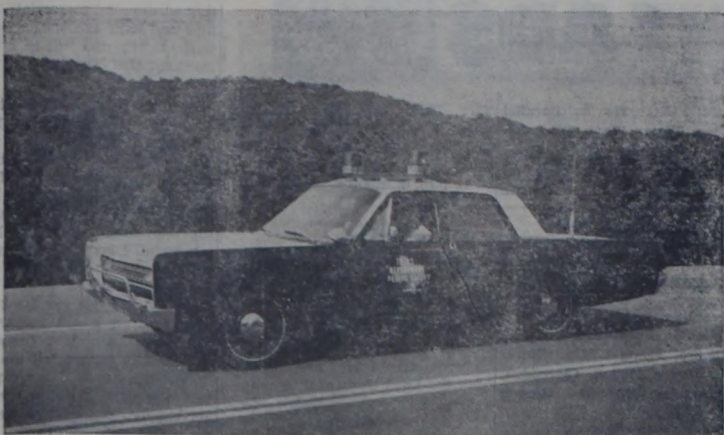

through voluntary compliance. No other Nation can. As long as we have Americans who are willing to lay their hard - earned dollars on the line for their fair share of operating our government, we have not lost the "Spirit of 1776."

### SOCIAL SECURITY NOTES

#### THE AMERICAN WAY

There are still a few people around who feel a real sense of pride in the achievements of our country. Certainly we have a lot more accomplishments to be proud of than all of our critics put together have. The thing that has made our country great is that willingness of the American people to do their share in working for their country, in working for better laws, better health, and better social conditions, and in being willing to die for their country or to pay their fair share of the taxes required to support their government. Of course there is a small percentage that may want to place limitations on fighting or dying for their country, but fortunately there appears to be a very large percentage that have no reservations.

Finally, every American can feel a real sense of pride that the Internal Revenue Service collects 97 per cent of our federal taxes

MODERN PATROL CARS of the Texas Department of Public Safety will be cruising Texas highways in full force over the long July 4th weekend. Trained and experienced officers of the DPS will render assistance, promote a safe and smooth flow of traffic and enforce the law.

almost 1 and one - half years since we first got you on August 3, 1966.

### "LITTLE GIRLS"

You're a little too young to understand What has been written here by your Father's hand. But this letter was written and mailed today

In hopes that you will understand in some way.

Your Mother and I, in true love we grew

To matrimonial bliss, and then we adopted you.

You were given to us by a Court's decree

Two girls of our own, for your Mother and Me.

Now it's hard for a new Father to understand

That babies and diapers go hand in hand.

But I tried and I tried, and I'll admit

That slowly but surely I got the hang of it.

And then as you grew, as all babies will

You grew in body, and more lovable still.

But a fear was there, deep in my heart

Knowing some day that we would part.

Then finally it came, that dreadful day

That I, your Father, was going away.

Away to a land of fighting and death

As I walked away, I had to hold my breath.

We're fighting for freedom, day and night

Sometimes I wonder if it's even in sight.

We keep fighting and hoping, day after day

That God will look down and show us the way.

Now while I'm away, your Mother will be

A Mommy and Daddy, to you for me.

But one day I'll return, and when I do,

The four of us will live, as God wants us to.

Your Daddy

sympathy from our many friends through flowers, memorials, cards, food and visits are such a comfort to the family and will be a lasting memory. God bless each of you is our prayer.

The Family of Ruth Redding **AN OPEN LETTER TO MY TURKEY FRIENDS**

It's impossible to find words to express the feeling I have for you all. The flowers, cards and letters, thoughts and prayers you've sent my way, makes me feel just wonderful. I know I've been blessed with the most precious friends a gal could own.

The nurses tell me I get more mail than anyone they ever knew. One cute little nurse asked me, "Would you please tell me where is Turkey, Texas?" I explained just a small town out in West Texas, but the people have hearts of gold. She said, "I can tell they really like you." This made me feel very proud.

So let me take this opportunity to say "Thank You Turkey." You're the Greatest. See you soon.  
 Love — Belle Jones

**CARD OF THANKS**  
 I would like to thank everyone for the Cards, Letters, Thoughts and Prayers since my illness. It is so nice to be thought of at a time like this. May God Bless and keep you all.

**SOCIAL SECURITY NOTES**  
 One of the recent changes in the social security law will benefit many young families, according to Travis C. Briggs of the Benefits are now available to some Amarillo social security office,

workers, disabled before they reach age 31, who could not have been eligible under the old law.

"Under the old law," Briggs said, "a worker needed social security credits for at least 5 out of the 10 years before he became disabled unless he became disabled before 31 because of blindness. But a young worker might not have had a chance to work long enough to meet this requirement."

"Now, if he becomes disabled before 31, regardless of their age now, to get in touch with the local social security office soon, even if they have had a previous claim turned down because they had not worked enough. The new law may help them and their families. If they have young children, monthly benefits may be available to the wife and youngsters as well as to the disabled worker."

For further information and assistance in filing applications contact the Amarillo social security office.

Use only approved charcoal lighter fluids when starting the fire for outdoor cooking. Gasoline, kerosene and fuel oil are dangerous substitutes because they are highly flammable and explosive.

Charcoal can be saved and reused by putting the hot coals into a bucket with a tight fitting lid. Set it aside to cool. Since burned charcoal is hard to light; when reusing it, mix it half - and - half with fresh charcoal.

Chicken cut up in pieces, cooked outdoors, should be placed 4 to 6 inches from the fire and cooked 25 to 30 minutes. Cook the inside

first, skin side last.

Having a cookout? Try roasted corn — Indian style. Pull back husks and remove silks. Replace husks and tie ends with string. Soak in cold water to prevent excess browning, place ears on grill; roast 15 to 20 minutes, turning frequently until husks are dry and browned.

Select tender cuts of meat, shaped regularly, for rotisserie roasting. Spear the meat through the middle to balance weight and to insure that it is turning with the rod.

When using a rotisserie be sure the spit turns away from the cook. Then fat drops off on the upswing with the fire, toward the back of the firebox.
