MEANING OF POSITIVE TB SKIN TEST
Hundreds of thousands of Americans are positive Tuberculin Skin-Test reactors — in fact, there are thirty million positive reactors within the United States alone, and countless other millions throughout the world.

This fact was emphasized today by Charles McIntosh, Executive Director of the Top Of Texas Tuberculosis Association, which serves the twenty-six counties of the Texas Panhandle.

Fortunately, McIntosh said, a positive test does not mean that an individual is sick. It does indicate that he has been exposed to an active case of TB, and should have an annual chest x-ray as a safeguard.

Many doctors put positive reactors on TB drugs to prevent a TB breakdown, since exposure—indicated by a positive skin test—is such a common situation, McIntosh stated that it is important for the general public to know the pertinent facts. "Too much harm can result," he said, "when people fail to have all the facts. And as a

consequence become overly excited by a few positive reactors within a community. Of course, we don't expect such a thing to happen in Quitaque, where good health education job has been done through the news media."

McIntosh commended the public schools and community volunteers in their part of the recent TB case-finding program in Briscoe County.

BRISCOE SURVEY COMMITTEE TO MEET THURSDAY, OCT. 24

QUITAQUE F.H.A. NOTES
On Monday, October 7, 1968 the F.H.A. girls held a meeting and we heard a very interesting talk by Dr. Looney of Lubbock. Dr. Looney spoke on "Morals and Manners" which was quite enlightening and sincere. From his speech we discovered things that most girls do not give much thought to unless it is presented into their personal lives.

After the meeting refreshments were served by Pam Loudermilk and Beverly Rogers.

The F.H.A. girls are still taking

orders for cookbooks which are ordinarily \$3.95 but are selling for \$2.95. The selections we have to choose from are the following: Meat, Salad, Casserole, Vegetables, Desserts, Foreign Foods, and Quick and Easy Recipes. They also come in a special box for Christmas. If anyone would want one please get in touch with one of the Quitaque F.H.A. members and they would be delighted to sell one.

Another project the girls are working on is the sale of a book called "School Day Records" and is used to keep material which the child has done from kindergarten through his senior year. These books are very useful and they sell for a dollar.

We not only do things for ourselves but we also do things to benefit other people. We recently sent off three boxes to the boys in Vietnam, consisting of needful things such as: razor blades, books, shaving cream, soap, Kool-Aid, and homemade cookies.

We are collecting old jewelry, glasses, and soft glasses cases for "The Eyes for the Needy." If anyone has anything to contribute in the way of jewelry or glasses, let the F.H.A. members know.

WOULD YOUR CONGRESSMAN VOTE FOR GEORGE WALLACE?
Some fine Texans are tempted to vote for the 3rd party candidate because they admire his stand and his statements on some of the major campaign issues...
STOP AND THINK WHAT WILL ACTUALLY HAPPEN...
The best that Wallace supporters can hope for is enough strength to throw the election into the turmoil of a Congressional election by the House of Representatives...
THEN WHAT HAPPENS?
The answer is certain and simple. Wallace supporters are at the mercy of Washington Politicians! Every vote for George Wallace automatically becomes a vote for Hubert Humphrey!
THERE IS A BETTER CHOICE...
A vote for the NIXON-AGNEW ticket is a positive vote for "change" with the definite promise that our National Affairs will take a new direction... the direction you want it to take!
YOU CAN TAKE OUR WORD FOR IT!

QUIT YOU LIKE JESUS

Sometime when a neighbor or friend does some small thing that pleases us we decide to quit, perhaps we make the comment, "They did so and so, so I'll never darken their door again!" Or it may be the excuse we give to justify our lack of church attendance.

I have a suggestion to make: let each person make a list of what they have done to him in one column of paper, then across from that set down SOME of the things done by evil men to Jesus, king note of what was done to him before He QUIT.

Never once did Jesus have a thorn free from trouble. When He went into the wilderness, He was tempted by the devil. When He went to rest, the multitude followed Him. When he taught in the synagogue, the hearers became angry and sought to throw Him off the brow of the hill. When He gave them rest for their souls, He had a place to lay His head. When He sought peace in the garden, they came with swords and staves and

led Him away to Pilate's halls of judgement. When He did His best to be kind and loving in the face of mockery, they led Him as a sheep to the slaughter, and drenched the hill of Calvary with His blood.

And yet, in spite of it all, He never grumbled about His burdens. Jesus did not complain at all. He never once faltered in His duties to His Father or man. We are called to walk in His steps. Where shall we quit, then, in the face of petty mistreatment by our brethren?

POSTMASTER JARRELL RICE REMINDS OF RATE RAISES

Postmaster Jarrell Rice reminded postal customers that higher parcel post rates and catalogue rates will go into effect Saturday (October 19).

The rate increase will average 10.5 per cent and in most cases will mean an additional ten cents postage per parcel.

The higher rates were approved by the Interstate Commerce Commission in July.

Under the new rates the minimum charge for local parcel delivery will go from 40 to 50 cents. The minimum charge for parcels destined outside the local delivery area will be raised from 50 to 60 cents.

Almost all parcels that are charged up to \$1.10 under present rates will go up 10 cents. This accounts for more than 80 percent of

all parcel post. Postmaster Rice pointed out.

There will be a 15-cent hike on most parcels now charged between \$1.10 and \$4, and a 20-cent increase on parcels now charged over \$4.

Parcel post rates are based on the weight of the package and the distance it is mailed.

Higher rates for the delivery of packages and catalogues are required to bring revenue of this type of mail within four percent of operating costs, as required by law, Postmaster Rice explained. The higher rates are designed to pay parcels and catalogues, which are fourth class mail, on a break even basis.

Additional revenue is needed from parcel post and catalogues to offset higher costs resulting from pay increases approved last year for postal employees.

SUPT. AND MRS. HERMAN MOSELEY ATTEND READING CLINIC

Supt. and Mrs. Herman Moseley attended a "Read-In" on Friday and Saturday, October 4th and 5th at Coronado High School in Lubbock for reading teachers and administrators.

The topic of the two day seminar was "Let's Have a Read-In." Each interest group there would say a word beginning with "in", as in insatiable, informative, involvement, inspirational, innovative, etc. Topics dealt with the library in the elementary schools, oral language projects, motivation

and children with learning disabilities.

Friday afternoon the speaker was Dr. Bill Martin, Jr. author and educational editor for a New York publishing firm. He reminded the group that the world is changing rapidly; therefore, the schools and teachers must change with the times.

Friday night Dr. Roy Kress, who is author of several educational books and co-editor of "The Reading Teacher," spoke on the topic, "Understanding the Reading Process." He emphasized that English, spelling, writing, listening and speaking, make up the reading process.

Saturday morning, classrooms were opened for group meetings. The Moseleys attended a meeting concerned with the migratory and Latin-American child. A Latin-American woman teacher from Brownsville spoke to the group and used techniques in dealing with the teaching of these children. She told them that a husband and wife missionary team with a small mission near her home taught her English, encouraged her, and helped finance her education in order that she become a teacher to help children of her own race. She closed with a smile: "I'm proud that I'm a Latin-American, and I'm proud to teach Latin-American children."

The Moseleys attended Sunday morning church services at the College Avenue Baptist Church with their daughter, Dianne, and Gretchen Pruitt of Princeton. Dr. Carl Hereford, former pastor of the First Baptist Church at Lubbock, preached that morning.

Mrs. Cox and Mrs. Marie Wilkerson of Tullia spent Wednesday of last week with Mrs. W. J. Carter. The ladies returned to Quitaque Monday to buy some produce from the Oneal garden and they visited Mrs. Carter again.

Mr. and Mrs. Ralph Warren of Parris, Calif. visited their daughter

and children with learning disabilities.

Friday afternoon the speaker was Dr. Bill Martin, Jr. author and educational editor for a New York publishing firm. He reminded the group that the world is changing rapidly; therefore, the schools and teachers must change with the times.

Friday night Dr. Roy Kress, who is author of several educational books and co-editor of "The Reading Teacher," spoke on the topic, "Understanding the Reading Process." He emphasized that English, spelling, writing, listening and speaking, make up the reading process.

Saturday morning, classrooms were opened for group meetings. The Moseleys attended a meeting concerned with the migratory and Latin-American child. NUEVO STUDY CLUB MET WITH MRS. BLUME LAST WEEK

The Turkey Nuevo Study Club met last Thursday night, October 10 at the home of Mrs. M. T. Blume, with 12 members present.

Miss Amy Davis presided during the business session in the absence of the president, Mrs. Willis Walker. Mrs. Paul Meacham was leader of the program, "America's Great Ladies". After the devotion by the leader and roll call of the group, parts were presented by Miss Davis, Mrs. Adamson, Mrs. Degan and Mrs. Alga Turner.

The hostess served delicious refreshments during the social hour. A Santa Rosa Workshop was held in Quana Monday of this week.

Next meeting of the club will be held Thursday, October 24 with Miss Amy Davis leading a United Nations program and with Mrs. J. R. Nall as hostess.

TWO MASONIC LODGES TO BE HONORED

Two Masonic Lodges in this area will receive awards during a Masonic Workshop meeting to be held Monday, October 21, at the Masonic Lodge Hall in Quitaque.

Silverton Lodge 754 and Quitaque Lodge 1248 are being honored during the meeting for outstanding attendance during the Spring series of Masonic Workshops, a project of the Grand Lodge of Texas which is aimed at improving the quality of Lodge officers.

The workshop being held in Quitaque will also have officers of Hall County Lodge 1271, Turkey, attending.

Varner Stevens of Childress, chairman of the ten-county Masonic Workshop Area E-3, will present the awards and conduct the meeting.

He said the Workshop is a part of the semi-annual program held for officers of almost 1,000 Texas Lodges. The Masonic Lodge is the largest fraternal organization in the state, with membership of nearly 250,000. The group is noted for its charitable activities.

Mr. and Mrs. Ray Gene Hutcherson and Billy of Midland spent the weekend in Quitaque with their parents, Mrs. Lela Mae Barrett and Ronnie, and Mr. and Mrs. Joe Bedwell.

Sunday dinner guests in the home of Mrs. Lela Mae Barrett and Ronnie were Mr. and Mrs. Ray Gene Hutcherson and Billy of Midland; Mr. and Mrs. Kenneth Vines of Stratford; Mr. and Mrs. Tom Persons and Tommy, Tullia; and Mr. and Mrs. Ray Persons.

DRINKING AND DRIVING BEING STUDIED BY TEXAS D.P.S.
Austin — The problem of drink-

ing while driving, which Texas Department of Public Safety experts say is involved in the state, is soon to come under increased enforcement pressure as the Texas Highway Patrol begins use of breath analysis instruments.

Colonel Wilson E. (Pat) Speir, director of the Department of Public Safety said that 450 highway patrolmen and sergeants last week completed training in use of the "breathalyzer" which analyzes a suspect's breath to determine the percentage of alcohol in his bloodstream.

The DPS recently secured a Federal grant of \$114,627 to launch the breath testing project. Funds obtained under the grant were matched with State funds and used to buy 90 breathalyzer instruments, to hire six additional chemists for supervision of the program, and to train the DPS personnel in use of the equipment.

"We plan to locate breathalyzers in about 80 of the state's most populous counties where the driving while intoxicated problem is greatest," Speir said. "Trained personnel will use the instruments under rigidly controlled scientific conditions," he added.

Driving while intoxicated suspects who consent to the test will accompany the highway patrol to an office where an instrument is located. There, the suspect will blow into a tube attached to the breathalyzer and the percentage of alcohol in his blood will register on an indicator on the instrument's face.

"The test will be of special value to persons suspected of being drunk, but who are driving erratically due to illness or other reasons," Speir said.

DPS officials believe the program will establish the value of breath testing by contrasting its effectiveness with contiguous areas which do not have it. And they hope the project will ultimately delineate the need for a chemical test law and implied consent law for control of the driving while intoxicated problem in Texas.

The magnitude of the problem is reflected in studies conducted by the DPS. It is believed that — depending on area — the use of alcohol figures in from 40 to 50 per cent of the traffic deaths in the state. Based on the 1967 traffic death toll of 3,367, the use of alcohol may have accounted for 1,347 to 1,684 fatalities.

THE TRIBUNE

BRISCOE COUNTY From The County Agent's Desk

Proper Harvesting Essential For Quality Cotton
With so much emphasis on the production of quality cotton, farmers in Briscoe County should take a close look at their harvesting operations.

Key factors for a proper harvest:
1. Lint moisture should be down to about eight percent. This point is reached when the relative humidity in the field is 60 percent or below. Moisture can also be checked by collecting a few locks of cotton and squeezing them in the palm of the hand. If the cotton balls up, it is too moist. If it fluffs out, harvesting can begin.
2. Harvest-aid chemicals permit earlier harvest of mature cotton. For defoliation, at least 60-65 percent of the bolls should be open and a minimum of 80 percent or more should be open when dessicants are used. Use of these chemicals before bolls

are open will result in reduced micronaire and lint yields and lower seed quality.
3. Proper timing of the harvesting operation after the use of harvest-aid chemicals or after frost also insures maximum lint quality. Cotton is at its maxi-

WAY I GIT ALONG WITH A MULE - I FIGURE WHUT HE WANTS TO DO AN' WE DO IT.

mum quality level as soon as bolls are open. Any change in quality will be in only one direction—downward—with delay in harvesting.
4. Strippers should be checked carefully to assure that they are properly adjusted and green separators should be operating efficiently.
5. Careful operation of the stripper is important. Driving the machine off-center on a row results in skinning pieces of bark from the base of the stalks. Excessive stripping roll pressure or too much speed can cause the same problem. "Barky Grades" will generally result and cotton so classed is automatically reduced a full grade under USDA cotton classing rules.
6. Seed cotton should not be stored on trailers if the moisture level is above 12 percent. Seed quality will also be reduced drastically if stored with a high amount of trash.
7. Seed cotton should be ground or separated when any difference in quality is suspected. Grading should be based on variety, irrigation or dryland, disease or insect damaged, hail damaged, lint moisture and planting date.
All these items make for more orderly, efficient ginning as well. Such problems as mix-packs or two-sided bales, overdriving and ginning at improper moisture level can thus be minimized. Ginner, thus far, have been doing a commendable job with the block ginning program.
