Treats For Your Tummy

A new home based business has opened in Quitaque. UNIQUE TEMPTATIONS is a new service specializing in decorative, all-occasion cakes by Linda Stark and Susan Young. The idea for this service came about as a result of today's often hectic lifestyles.

Have you ever had a birthday sneak up on you of been pressed for time when company is coming? Linda and Susan hope this service will offer you the chance to relax.

Unique recipes, as well as traditional favorites are offered. Lower cholesterol, sugar and Weight Watcher cakes are also available. Special attention is given to detail, so that all cakes are as tempting to the eyes as to the tummy.

Your "temptation" will even be delivered to your door. So, with Mother's Day, Graduation, and the busy summer months almost here, call Linda or Susan now, as all items are suitable for freezing. (see advertisement for more information.)

As I See It!

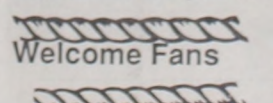

By Thelma Gafford

Welcome all Bob Wills fans. Glad to have you back! Hope everyone has a wonderful time in Turkey, and come back next year. The town is already busy as fans from all over the world renew old friendships and make new ones, while awaiting the big blow out! While here, be sure to visit the window displays in downtown Turkey, and the Sidewalk Museum in downtown Quitaque. Don't leave the area without visiting the beautiful, breathtaking Caprock Canyons State Park. You must try one of those world famous fried pies made by our own Aunt Zona, available only at the Turkey Drive In, or one of Mary Ann's Whopper Cinnamon Rolls at the Peanut Patch. Souvenirs can be found at various businesses along Main Street, including Two-J's, Lacy's and the Line Shack.

Was glad to see some of the "Jammers" (as we locals call them) make it in. Jammers are the group that meet here every year, park near the old football field and jam with those fiddles into the night. Be sure to catch their act, you'll be glad you did.

A number of our High School students are out of town at Regional Track and Tennis meets, FFA contests, and U.I.L. events. I'd like to wish them all great success in their competitions. Patriot Pride is on the Rise!

Twin Towns Featured In Magazine

The March edition of The Electric Times, a publication of West Texas Utilities Company, featured Quitaque and Turkey in a nice four page spread article.
 The reporter touched on everything from the early history of the two towns to the now famous Quitaque Sidewalk Museum, Caprock Canyons State Park, the beautiful Hotel Turkey, Texas Horse Pads, Bob Wills Day Celebration, to the two local teams of WTU employees, Keith Edwards and Jan Ramsey in Quitaque, and Charles Moore and Tami Lucero in the Turkey office.
 Texas Highways featured a layout on the area in a recent issue, also. Jim Saul was pictured riding a beautiful paint horse. He has received several offers for the horse as a result of the article.
 The article in the Times reports "the citizens have done everything (almost) they can think of to attract tourist, and one must admit, they have several things to offer."
Editor's note: This is exactly what the Quitaque Chamber of Commerce, the Briscoe County Task Force, the Hall County Centennial Committee, the Bob Wills Foundation, and a host of area citizens set out to do. And it is working.

Thinking of buying a new air conditioner or furnace?

Today many home owners are buying neither one because the smartest unit to buy is an all season heat pump.

A heat pump cools your home in the summer and heats it in the winter. And not only that, it'll pump savings back into your pocket because it's one of the most energy efficient cooling and heating systems you can buy.

As a WTU customer, you can qualify for \$500 cash when you install an electric heat pump and your home meets WTU's Energy Saving Plan requirements.

CAPROCK SOIL & WATER CONSERVATION DISTRICT NEWS

"How-to-Video" to help farmers meet conservation deadline

The U.S. Department of Agriculture's Soil Conservation Service and the National Association of Conservation Districts have produced a "how-to" videotape to help farmers carry out their conservation compliance plans under provisions of the 1985 Farm Bill.

"Over the next 5 years, we'll be helping farmers carry out their conservation plans on nearly 140 million acres of highly erodible land. Many farmers will be doing the work themselves and we feel these tapes will be helpful," said SCS Chief Wilson Scaling.

"With the December 31, 1994 implementation deadline for farmers to stay eligible for USDA farm program benefits, our SCS personnel still have an enormous workload. We appreciate the many farmers who will be applying their own conservation practices. We encourage them to call their local Soil Conservation Service (SCS) or conservation district office first for information we feel may help in adapting the practices to their land."

The hour-long tape, entitled

Successful Psychology

Whether you're married or single, the quality of your current relationship can be enhanced. That's the opinion of Dr. Allen Fay, a practicing psychiatrist who pinpoints 54 easily identifiable traps that couples can fall into such as: interrogating your partner; displaying negative dramatic behavior; demanding pure motives; compulsive truth telling, and others.

"Conservation on Your Own," features eight segments on widely used soil conservation practices: (1) how to measure and manage crop residues; (2) how to lay out contour lines and use field borders; (3) how to lay out contour buffer strips; (4) points to consider in contour stripcropping; (5) how to lay out wind strips;

(6) how to control small gullies with grass; (7) how to plant and maintain a field windbreak; and (8) how to keep your terraces working.

"Each SCS office in Texas has a copy of the videotape," says Harry W. Oneth, state conservationist. "The videotape will be available for loan from local SCS or conservation district offices. Landowners are encouraged to view the tape at their convenience."

For more information, contact Soil Conservationist Don Gibbons at 823-2320 in Silverton.

All programs of the U.S. Department of Agriculture are available without regard to race, creed, color, sex, age, handicap, or national origin.

Turkey Lion's Club Sweetheart Attends District Queen's Contest

Vera Pinkerton

Vera Pinkerton, Turkey Lion's Club Sweetheart, attended the 1990 District Lion's Club Queen's Contest in Dumas April 20. Twenty-nine girls from across the Panhandle were also participants.

The interview portion of the contest counted double, then each girl competed in casual wear and formal wear.

The girls began the day with registration followed by a brunch at the Dumas Inn. The girls were assigned rooms at the Inn for changing and resting between activities. The interviews took place at the Inn and following these they were bused to the Dumas High School Auditorium for rehearsal.

The theme for the Queen's Contest was Western. Quilts were used for the background with saddles, oil lamps, etc for decorations. The open

ceremony was a Western routine performed by all the contestants. Entertainment was presented by the "Rockin' Rhythms" of Dumas High School.

Vera was accompanied by her mother, Margie Pinkerton. Attending the pageant from Turkey were Steve McLean and Keith Green.

Shelly Knox of Hart was the first place winner and Christi Close of Borger was second place winner. Chonda Blake of Sunray was voted Miss Congeniality.

Looking Back At The Dirty 30's

Annual Silver Tea Set For April 27

Editor's Note: The following was supplied by J.M. (Corkey) Garner.

This article was published by the Briscoe County News and was written by Jack Craft. John L. Garner brought this in and thought it might be of interest to everyone that remembers the depression.

Dirty 30's

By Jack Craft

The depression of the 30's left a heritage of mingled memories. The old house with the side rooms, the barns, the sheds and the cow pens are long gone from the old home place. I found an old snuff bottle or two and some red rock from the top of the cistern about where I think our house sat. The hill over the east was closer than I remembered. I hollered a couple of times and it echoed back just like it did when I was a country boy during the great depression of the early thirties.

They were hard years, but many of the memories are happy ones. Memories of things like snow ice-cream, the smell of shoe polish and lye soap on Sunday morning, town boys spending the night and sleeping on beds in the yard, smoking cedar bark, doing without nice things and not knowing the difference.

About all the real excitement we had in those days was when a cat fell in the cistern or a candle fly got in the lamp globe. We had 18 cats and Daddy milked four old half-jersey cows to feed them. The hawks and skunks ate most of our chickens, and about all we lived on was okra, rotten-ended watermelons, cotton-tail rabbits and clabber.

Mama wore tennis shoes and underwear made out of flour sacks. Once she was crawling through a barbed-wire fence and tore her panties right where it said "Light Crust Flour".

If there was any underarm deodorant on the market we didn't know

about it, and we had no air conditioners. If we got galled, we would slap a handful of starch wherever it would do the most good and forget it.

In 1933, we all took the itch. Every night we would apply a liberal amount of sulphur and grease to our bodies, slip on a suit of long-handle underwear, and crawl in bed. Scratching kind of broke the monotony and gave us young folks something to giggle about. Daddy never did catch the itch. Mama said it was because he dipped snuff.

When we went to town we would cut off the motor and coast from the hill to the forks of the road to save gas. Once we were in town an hour before we noticed the dead chicken on the running board of the car. We forgot to kick it off on the way.

The only way you could tell a rich man from a poor man, was that the rich man had two cars standing on blocks, instead of one.

The out-door restrooms we had were not very relaxing or comfortable, and not places for deep thinking or long time planning. Usually I was trying to beat a wasp or stomp a centipede to death with a Sears Roebuck catalogue while fighting a cold updraft or 120 degrees of heat.

On winter nights we huddled around a red-hot wood heater, roasting in the front and freezing in the rear. Daddy read Zane Grey books to us by a coal oil lamp. I can remember like it was yesterday when Daddy was out of money for gifts on Christmas Eve. He went out in the yard, fired the shotgun, came back in the house and told us Santa Claus had committed suicide.

The chickens roosted in a circle around the top rim of our drinking water barrel and my job every night before going to bed was to go out and turn them all around to where they were facing in.

Yes, I remember the depression. I can't forget the bad things, like people not having new clothes very often, like some people not having

The annual Silver Tea, sponsored by the March of Time Study Club will be held Friday, April 28, 1990, from 3 to 5 p.m. in the library of the Briscoe County Courthouse. This event is in observation of National Library Week April 22-28. The general public is welcome to attend.

Memorials are accepted anytime to purchase new books for the library.

Recent improvements include the purchase of three sets of double metal shelves to enlarge the book displays. Mrs. Sharon Pigg has donated a number of fiction and non-fiction books to the library. Zobie Self is continuing the time involved process of cataloging the entire library.

Hours for the library are Tuesdays, 8 a.m.-12 noon and 1-5 p.m., and Friday afternoon from 1 to 5 p.m. Mrs. Claudine May is the librarian.

If you are an adult who did not have the opportunity to learn to read, or you know of someone who desires to learn, please contact the librarian. There are two volunteer, certified teachers who are available for class schedules.

enough food or enough medical care, or enough money to hold things together.

But, I remember good things too, like people coming over to visit on the porch at night, without wondering what they wanted. Like a stranger stopping on the road to help you fix a flat. Like people just pulling together.

The great depression, as bad as it was, had a little good in it. I'm glad I was there then, and I'm glad I'm here now. I just hope I don't catch the itch again.

The sound of thunder is caused by the violent expansion of the air after it has been heated by lightning.

Lines From Lynda

"In many ways, if cities did not exist, it now would not be necessary to invent them." This quote from the new book, *Megatrends 2000* should give us in small town rural America a feeling of satisfaction that the benefits of rural life are now being discovered.

As we conducted the Extension study group meetings last week and looked at the future of our county, we tried to encourage community leaders to look at the broad, global picture beyond our city limits and county lines. We today are all affected by what happens in our area, state, nation, and the world. We can no longer isolate ourselves and believe that we do not have to be concerned by what is happening outside our community.

The *Megatrends 2000* authors, in their chapter on "Triumph of the Individual", tell us that today's information society allows more people to choose where they live--and they are choosing to leave the cities and live in small towns and rural areas. Computers, fax machines, telephones, and Federal Express allow us to be linked technologically with the world regardless of where we live.

Cities arose because the industrial revolution caused factory jobs to draw millions of people to a few large areas to work. Now that there is a reduced need for industrial jobs, and a greater need for service and information jobs, people are free to move from the cities to rural areas and still be able to be connected to the cities by high technology.

They see an increase in home based business which allows people to work away from the cities. There were 14.6 million full-time home based businesses in 1989, according to the authors, and they expect 20.7 million by 1995. This is an area that is feasible for our county.

If you are hunting for a thought-provoking book to read, pick up a copy of *Megatrends 2000*. It's hot off the press and very timely to help us see beyond our local boundaries.

Centennial Group Prepares For Branding Party

One of the featured activities to be held during the 1990 Hall County Centennial Celebration will be taking place May 5, 1990, at the "Shoe Bar Ranch" Headquarters. A Branding Party is planned for all Hall County residents who would like to have their brand and symbol permanently etched into wood are invited to attend.

The brand, and owner's name and/or ranch will be burned into the wood also. The Branding Party will ensure future generations to identify the various brands. Gaylon Clark is the chairman for this committee.

Terry Widener, a member Boy Scouts of America Troop # 435, is to furnish the lumber for this project as a requirement toward earning the Eagle badge in scouting. Everyone owning a

brand, which has been used in Hall County, past or present, is urged to bring their brands for this historical event.

Many other activities are being planned for May 5, 1990, and the Hall County Centennial Committee extends a welcome to everyone. The event will begin at approximately 2 p.m., at the Shoe Bar Ranch. Programs will be distributed at the gate as each vehicle enters the grounds, so everyone will know the agenda for the afternoon and evening.

The evening meal will be served beginning approximately 5 p.m. Bob and Dixie Barbee will host this event with the Hall County Centennial Committee assisting.

Centennial souvenirs will be available, with proceeds going for centennial activity expenses.

"WELCOME BOB WILLS FANS"

Turkey Featured In German Magazine

The Bob Wills celebration is gaining fans with every passing year. Obviously not only in the United States, but also in foreign countries. Recently Patsy Bell, resident of Turkey, met Monique Muri, a former German resident, newly relocated to Dallas. To Patsy's surprise, Monique mentioned she had read about the Bob Wills celebration in Turkey, Texas before moving from Germany.

It seems Ms. Muri had purchased a German publication about Texas to help acquaint herself with her future home.

The book featured articles about major Texas cities, the western cowboys, the Dallas Cowboys, and "Who Shot J. R." Nestled among pictures of the Houston skyline, the San Antonio Riverwalk, downtown Amarillo, and Galveston beach, is an aerial view of Turkey, Texas with the following article:
