SIX FLAGS ON THE GROW— Six Flags Over Texas will feature Good Time Square, an all-new section for 1973. Shown in the artist's rendering above, the five acres include two major rides, a miniature circus, a games area and new restaurant facilities. Built at a cost of some one and one-half million dollars, it is Six Flags' largest expansion program in several years. Good Time Square reflects the architecture of a Texas town at the turn of the century.

SEASON BEGINS

**EXCITING NEW ATTRACTIONS
ADDED TO SIX FLAGS LINEUP**

Arlington, Texas—SIX FLAGS Over Texas' biggest expansion program in several years has added a completely new entertainment area and two major rides to the theme park's growing list of attractions.

The new section—Good Time Square—covers nearly five acres adjacent to the Park's Boomtown area.

Largest of the new rides is The Infernal Electrical Dumping Machines, a "giant size" version of the traditionally popular "bumper cars." The SIX FLAGS installation boasts fifty cars, which is approximately double the number usually found on such rides.

Another new ride, Crazy Legs, has seats which spin on the tips of long, arching arms that rise and fall as the entire ride turns in a huge circle.

Across the Square is Doc Snooker's Magnificent Main Street Exposition, featuring sixteen games of the type which have been the most popular attraction at major fairs through the years.

General Manager Robert W. Freeman said,

"We spent several years working on the concept and design for the games area. The whole project reflects the wholesome style of entertainment which has become a SIX FLAGS trademark."

Another highlight of the new section is the Dragon Bros. Circus, a fascinating miniature circus representing more than 10,000 hours of meticulous work by the late P. K. Schmitter of Irving, Texas.

Mr. Schmitter, a technical illustrator who passed away in July, 1972, built the elaborate model as a hobby. The project occupied his spare time for more than eleven years.

The circus, with more than 4,000 tiny performers and spectators and nearly 2,000 miniature animals, fills a large building.

Still another entertainment feature is Doc Snooker's Medicine Show, a re-enactment of the humorous, razzle-dazzle sales pitch of the old time patent medicine peddler.

The entire section is designed to reflect the architecture and charm of a Texas town at the turn of the century.

**The
Secret
That
Was**

When someone shares a secret, it's on its way to becoming no secret at all. And yet it doesn't cease to be a secret until you have shared it.

When Jesus preached in the wilderness, hundreds came miles to hear Him. They wanted to share His secret . . . the secret of God . . . the secret of Man and God.

So right there in the wilderness, it was on its way to becoming no secret at all. Except that, even today, not everyone has shared it.

Academically every intelligent person knows what Christianity is all about. But each Sunday all over this world someone is finding in church a new strength, a new purpose, a new faith. For the heart of Christ's message brings a human soul into harmony with a mighty and loving God . . . whose power gives our lives direction . . . whose concern gives our lives meaning.

The secret that was is still a secret, until YOU share it too.

STUDENTS STUDY NATURE IN OUTDOOR CLASSROOM

If you see students planting trees on a school campus or catching frogs from a miniature pond, don't panic.

They are probably studying nature in an outdoor classroom—a new concept in environmental education.

"At last count, we had helped plan and install some 343 outdoor learning areas in Texas," said Edward E. Thomas of Temple, state conservationist for the U. S. Soil Conservation Service. "And the number grows every week, especially in the larger cities."

Thomas said SCS assistance includes soil and plant adaptation guidelines, planning erosion control measures, laying out nature trails, identifying plants, designing small water holding areas for aquatic studies, and other technical help.

A recent survey revealed that nearly 900 individual schools plus 48 school districts are using the 343 outdoor classrooms. Some 1,700 other groups — from Boy Scouts to adult organizations to convalescent hospital patients—also use the areas.

Learning features used in outdoor classrooms include soil and water conservation examples, plant and animal identification, historical studies, and aquatic life.

Some areas also double as outdoor laboratories.

A total of 728 groups and organizations are helping schools install and maintain learning areas in Texas. These range from the American Association of University Women to parent-teacher organizations to a radio station.

Thomas said SCS first became involved in outdoor learning areas by helping schools cure campus erosion problems. Then someone suggested that letting students help install some of the conservation measures would be an excellent learning experience. From that came the idea that trees, grass and shrubbery could be added to beautify the conservation measures or to attract wildlife. Eventually, the idea of installing a complete outdoor environmental learning area evolved.

Students enjoy planning and installing the classrooms themselves over a period of months or years, Thomas said. This also enhances the learning experience, helping students gain a deep appreciation of the inter-relationship between man, plants, soil, water, animals and sunshine.

Uses of outdoor classrooms varies, depending upon the ingenuity of the teacher. Some biology classes study microscopic growth in tiny ponds built on the school campus; chemistry classes conduct soil and water related experiments; math classes compute slope and elevation or estimate tree heights; and language art classes write articles or poems based on outdoor sounds or observations.

For help in getting started on an outdoor learning area, SCS has a new publication entitled "Outdoor Classrooms on School Sites." To get a free copy, call the nearest SCS office, or write Soil Con-

Karnes County Farm Family Wins Award

The James H. Matthews family of Karnes County has won the 1972 Texas Farmers Home Administration Farm Family of the Year Award, according to an announcement by J. Lynn Futch, State Director of the Farmers Home Administration in Temple.

The Matthews family of Route 2, Kenedy, Texas, was selected from 21 FHA farm families nominated for the award. This is the third year that the agency has selected a state winner. Those nominated are farm families who have made outstanding success through the use of FHA credit in developing a family farm, while at the same time contributing to the betterment of agriculture and their community.

Futch stated that the State Selection Committee had a difficult job in determining the final winner due to the outstanding programs of all families nominated.

The Matthews family owns and operates a 224 acre dairy farm in the southeastern part of Karnes County some ten miles from Kenedy. Their milking herd consists of 68 cows with 32 replacement heifers for growth and replacements. Starting out in 1967 with Farmers Home Administration financing, the Matthews family, through improved dairy management practices, hard work, and the wise use of credit, has been able to develop a most successful family size dairy farm, while at the same time exemplifying rural community leadership and citizenship at its best. The Matthews have one son and three daughters who have been active in school, church, and community youth work.

State winners of the award compete for the National Farmers Home Administration Farm Family of the Year Award in Washington, D. C. The National winner receives a trip to Washington where they will be honored.

NEW ARRIVAL

Mr. and Mrs. Elwayne Turner are the proud parents of a new baby daughter, Jhon Alison, born Tuesday, April 10, 1973 in Central Plains Hospital in Plainview. She weighed 7 lbs. 7 ozs. She has a sister, Jennifer, who is five months of age.

Maternal grandparents are Mr. and Mrs. Bud Bailey of Quitaque, and the paternal grandmother is Mrs. Ruby Turner of Turkey.

Mr. and Mrs. Virgil Watson of Yeso, New Mexico visited his parents, Mr. and Mrs. J. A. Watson in Quitaque over the weekend. They all drove to Albany to visit a granddaughter and great-granddaughter, newborn Stephanie Renee Garrett, daughter of Mr. and Mrs. Cleveland Garrett of Albany.

Mr. and Mrs. Jim Mayfield and Mr. and Mrs. Wayne Whittington of Quitaque were in Amarillo Saturday to visit Mr. and Mrs. Pierce White in High Plains Hospital.

ervation Service, P. O. Box 648, Temple, Texas 76501.

INFORMATION ON ORGANIZED CRIME

Crime is somebody else's problem . . . until it touches you. Will your car be one of the 50 thousand stolen from the streets of Texas this year? Not if you protect your property. Start helping Texas law enforcement wipe out organized crime and auto theft in Texas . . . lock your car and pocket the keys. It may seem like a small thing for you to do . . . it's a start—but it's your part—in helping bring the wheels of crime to a halt in Texas. This message from the Texas Organized Crime Prevention Council, DPS Director Wilson E. Speir and Attorney General John Hill co-chairman —A division of the Texas Criminal Justice Council.

Mr. and Mrs. Buddy Morris received a surprise Saturday morning when their son, Danny Morris of Huntington Beach, California and another son, Corky Morris of Dimmitt, arrived for a visit. Danny had to come to Texas in the Houston area on business for the company for which he works. He flew in to Amarillo Friday and Corky met him there, then brought him down early Saturday to visit his parents. They enjoyed dinner and supper with their parents. Danny had to leave Amarillo at 9:00 a.m. Sunday to return to his home.

Mr. and Mrs. J. A. Rucker and daughter, Jon Ann, of Richardson stopped by for a brief visit with Mrs. C. T. Rucker and Mary Saturday. They were enroute to Friona and New Mexico.

Mrs. Dessie Stewart and daughter, Dessie, of Denton spent the weekend with Mrs. Rucker and Mary.

Mr. and Mrs. E. D. Richmond were in Plainview Tuesday for E. D. to see a doctor.

Mr. and Mrs. Lloyd Holland and family of Lubbock visited here over the weekend with his parents, Mr. and Mrs. Mutt Holland.

Mr. and Mrs. Billy Wheeler, Mr. and Mrs. Arville Setliff visited in Plainview Sunday with Mr. and Mrs. Hubert Setliff.

Mr. and Mrs. Sidney Collie from California visited here Friday with her aunt and uncle, Mr. and Mrs. W. T. Hawkins.

Karen Eudy of Texas Tech spent the weekend here with her parents, Mr. and Mrs. Tom Eudy.

Mr. and Mrs. Jack Seals of Pampa and Mr. and Mrs. Doc Williams spent the weekend fishing at Plano.

Silverton Man Wins Supreme Court Case

A Silverton man was awarded \$3,000 by the Texas Supreme Court on Wednesday of last week in a three-year-old damage suit for loss of household goods in a tornado, despite the fact that the insurance policy was not in his name.

Carl L. Tidwell, secretary-treasurer and manager of Silverton Elevators, Inc., is entitled to receive payment of a policy the Silverton Elevators bought against Republic Insurance Company.

Tidwell, who lived in a house supplied him by the firm, lost household furnishings in a tornado in 1970.

A UPI story said that Republic contended the policy issued to the grain elevator covered the house but not the household goods personally owned by Tidwell.

Trial testimony showed the Re-

public agent knew Tidwell's personal property was inside the residence, and that he told Tidwell it would be insured.

Mr. and Mrs. Ronnie Richmond and children of Anson attended the funeral services of his grandmother, Mrs. Elmer Richmond in Turkey Friday. They visited his

parents, Mr. and Mrs. E. D. Richmond in Turkey and her parents, Mr. and Mrs. J. A. Mayfield in Quitaque until Sunday afternoon, when they returned to their home.

Mr. and Mrs. Richard Irby and Judson of Axle spent the weekend here with his parents, Mr. and Mrs. Reddell Irby.

PIONEER SEEDS

We're proud our seeds have earned the trust of farmers like these...

W. W. Cheatham recorded a yield of 5500 pounds on 25 acres of Pioneer brand 820. A top-yielding sorghum in many areas, Pioneer 820 did well for W. W. Cheatham, Rt. 1, Quitaque, Texas

Because we were the first company to commercially produce hybrid corn and with 17 years of work on sorghum, we know a lot more about hybrids and how to make crosses that really yield. We've had longer to test and re-test our varieties. We've stuck with some of our early crosses, and we keep developing new ones to fit every growing condition imaginable.

For the North Plains we recommend these sorghum, corn and forage varieties . . .

Pioneer brand 8417—new yellow endosperm sorghum—champion yielder in medium maturity class—large open heads—does well on all types of land.

Pioneer brand 820—good yielder under stress—outstanding with plenty of water and fertility—MDM resistant—full season.

Pioneer brand 846—excellent drought resistance—MDM resistant—medium maturity—our most popular sorghum variety.

Pioneer brand 3369A—champion-class corn favorite—tolerant to northern and southern blight—good ear retention—heavy grain yielder.

Pioneer brand 3306—most popular corn hybrid on the High Plains—tall with outstanding stalks and ear retention—good yielder on dry or wet land.

Pioneer brand 988—sorghum sudangrass hybrid for pasture, greenchop, hay or haylage—ready to cut or graze in a little more than a month—regrows again and again all summer with adequate moisture and fertilizer.

When you choose a hybrid for your land, choose one from the company that started it all . . .

NUEVO STUDY CLUB

The Nuevo Study Club observed their Easter program April 12, in the home of Mrs. Bert Degan.

Sixteen members answered roll call with a "Great Church." Mrs. Willis Walker gave "The Power of Resurrection" and "What Life is All About" was given by Mrs. Roy Patterson.

During the business session it was reported that the silver had finally arrived for the Chandelier Room. Final decision was made about the float for April 28.

Lovely refreshments carrying out the Easter motif were served.

April 26, Mrs. Blume will be hostess for the program, "Latest Word in Bibles."

INFORMATION ON ORGANIZED CRIME

When you place a wager on a football game through a bookie, you are contributing directly to organized crime in Texas. More than \$1 of every \$10 wagered is an illicit rakeoff for organized crime—nearly a hundred million dollars a year for the mobsters in Texas on football bets alone. Stop and think before you become a partner in crime with organized bookmaking. This message from the Texas Organized Crime Prevention Council, DPS Director Wilson E. Speir and Attorney General John Hill co-chairmen—A division of the Texas Criminal Justice Council.

CHILDREN'S PICTURES TO BE TAKEN FREE IN COLOR

Next Thursday, April 26 is the big day to get Living Color pictures of your little ones. A professional children's photographer will be in the Quitaque and Turkey communities on that day to take pictures of all children accompanied by their parents or guardian absolutely free of charge or obligation.

The photographer will be in Turkey at the old Paulette's Shop location between 10 a.m. and 2 p.m. Thursday of next week.

The photographer will be at the Bank Community Room in Quitaque between 3 p.m. and 7 p.m. that same day.

Remember the date: Thursday, April 26 from 10 to 2 in Turkey at the old Paulette's Shop location. You may make an appointment for your children by calling Frankie Bell at 5511 in Turkey. In Quitaque that same day between the hours of 3 and 7 p.m. the photographer will be at the Bank Community Building and you may have an appointment by calling Gwen Martin at 4361 in Quitaque.

Spring Brings Increase In Scout Activities

As spring comes, more Scouts in this area head out for hiking and camping.

Doug Palmer, District Executive of the South Plains Council, Boy Scouts of America, explains that for Scouts, camping is the Great Adventure, and most troops plan a year-round camping program that culminates in a week-long camping experience—often at Camp Post or Camp Tres Ritos, two of the council camps.

Why is camping so important as a feature of the Scouting program?

Palmer says, "Scout camping provides opportunities for Scouts to develop leadership skills, to take part in relevant advancement

Mrs. Minnie Hulsey fell at her home Friday night and injured her left foot. The next morning she called Mrs. George Hulsey and told her the foot was swollen and hurt. Mrs. George Hulsey went down and told her she was afraid it was broken. She called Helen Eddleman in Silverton, and she and her daughter, Mrs. LaDora Rowell of Amarillo came down. Mrs. Rowell took Mrs. Hulsey to the home of her son, Jackie, at Washburn. He and his wife took Mrs. Hulsey to Amarillo Monday morning and the doctor determined it was broken. It was swollen and a cast was to be put on it Thursday. She will remain at the home of her son a few days.

Mrs. Eldon Martin and Kirk and her mother, Mrs. Lon McKay, drove to Amarillo Friday on business. They visited Mrs. Corky Davis and family, and Mr. and Mrs. Dwight McKay and family.

Mrs. Corky Davis spent Saturday night with her parents in Quitaque. Her son, Scotty, spent the weekend with his aunt, Mrs. John Francis and family, in Silverton.

Guests in the home of Mrs. Josie Johnston and David for Sunday dinner were Mr. and Mrs. J. A. Hardin of San Diego, California, Mr. and Mrs. L. V. Shockley, Memphis, Mr. and Mrs. Ted Hester and Grover Thomas, Silverton. The ladies are sisters and Mr. Thomas is their brother.

Mrs. Willie Mae Taylor and boys of Lockney and Mrs. W. W. Woods of Quitaque spent from Saturday until Monday in Vernon visiting Mr. and Mrs. Butch Baca and girls.

Mr. and Mrs. James Starkey and boys of Plainview spent Sunday and Monday visiting their parents, Mr. and Mrs. W. W. Woods and Mrs. Dora Starkey.

Mr. and Mrs. Larry Farley of Amarillo visited his parents, Mr. and Mrs. Wendell Farley, Debbie and Dennis, and other relatives over the weekend.

activities, and to be involved in decision making. They acquire desirable personality traits and improve themselves in the areas of physical, mental, moral and emotional fitness."

Camp Post, near Post, Texas, will run three consecutive weeks starting June 10.

The big emphasis at Camp Post centers around the aquatics program where boys develop skill in swimming, life saving, rowing and canoeing. Camp Post will be under the direction of Doug Palmer, a professional Scouter of the South Plains Council.

Camp Tres Ritos, located in the Santo de Christie Mountains of New Mexico, will open under the direction of Jerry Stevens and Don Hardgrave, professional Scouters, July 8 and will run six weeks.

MRS. BRADFORD WADE BEAL

Arkansas Choice Of The Beals

Cockrell Hill Baptist Church was the setting for the April 8 wedding of Miss Jerre Jo Gaddy and Bradford Wade Beal.

Mr. and Mrs. Jess Meacham of Los Alamos, New Mexico are visiting here this week with friends and relatives.

Mrs. Jim Guest and girls of Fort Worth visited here this week with Mr. and Mrs. H. E. Mullin and Mr. and Mrs. David Guest.

Mr. and Mrs. Tom Salem were in Amarillo over the weekend to attend market.

After a wedding trip to Hot Springs, Arkansas, they will live in Austin, where he attends the University of Texas School of Law.

A member of the Athenean Club, the bride attended Baylor University and her husband is a Baylor graduate.

He has been a member of the BU Student Foundation and Kappa Omega Tau.

She is the daughter of the Rev. and Mrs. Jerrel Dee Gaddy, and the Rev. Mr. Gaddy officiated at his daughter's wedding. She is the granddaughter of Sid Bogan of Quitaque.

Miss Sherri Lynn Gaddy was maid of honor for her sister, Mike McCully, Bryan, served as best man for the bridegroom, son of Mr. and Mrs. Oren Woodrow Beal, Bryan.

DOUBLE BUCCANEER STAMPS WEDNESDAY ON ALL PURCHASES

Dreams for sale.

It's easy to forget that emergencies *do* happen. And when there is a crisis, you'll need a nest egg to fall back on.

The Payroll Savings Plan is one of the easiest ways to make sure you've something saved for when you need money fast. When you participate in the Payroll Savings Plan where you work, an amount you designate will be set aside from each paycheck and invested in U.S. Savings Bonds. It's an effortless way to build up a reserve.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, $5\frac{1}{2}\%$ when held to maturity of 5 years, 10 months (4% the first year). That extra $\frac{1}{2}\%$, payable as a bonus at maturity, applies to all

Bonds issued since June 1, 1970 . . . with a comparable improvement for all older Bonds.

Let's hope there are no troubled waters in your future. But remember, emergencies don't always happen to the other guys.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

MISS PIGG MR. BROOKS

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Jack Pigg of Flo-mot announce the engagement and approaching marriage of their

ONCE UPON A TIME . . .

A man who "just couldn't get around to subscribing" to the hometown newspaper sent his little boy to borrow his neighbor's copy. In his haste the boy ran over an \$80 hive of bees and in 10 minutes he looked like a warty squash. His father ran to his assistance, and failing to notice the barbed wire fence, ran into that, cutting a hole in his anatomy as well as ruining a pair of \$10 trousers. The old cow took advantage of the gap in the fence and killed herself eating green corn. Hearing four-gallon churn of cream into a four-allon churn of cream into a basket of chicks, drowning the entire batch. In her haste she dropped a \$135 set of false teeth, which the family dog buried thinking it was a new type of bone. The baby having been left alone, crawled through the spilled cream and into the parlor ruining a \$250 carpet. During the excitement the oldest daughter ran away with the hired man, a stray dog broke up 11 setting hens, the calves got out and chewed the tails off four fine

daughter, Janinne, to Bill Brooks of Silverton.

The prospective bridegroom is the son of Mrs. A. T. Brooks of Silverton and the late Mr. Brooks. June 30, 1973 is the date set for the garden wedding at the home of the bride's parents.

Mrs. E. B. Baisden, Mrs. Aubrey Turner, Mrs. Gilbert Wedge and Mrs. R. C. Green were in Floydada Saturday to attend the Plainview District celebration of the Union of the Wesleyan Service Guild and the Woman's Society of Christian Service into one organization, "The United Methodist Women." Theme of the program, "United we serve," was presented at the Floydada United Methodist Church.

Otis Purcell and O. C. Love of Albuquerque and Glenn Cooper of Lockney visited here during the weekend with Mr. and Mrs. Dale Garner.

shirts on the clothes line, and the cat had a batch of kittens. All this just to save 10 cents. And in this case, the poor guy never did get to read that week's edition.

Don't let this happen to you. Subscribe today!

It's Centennial Time In Texas

It's centennial time in Texas. The Calendar of Texas Events, issued today by the Texas Highway Department, indicates that the year 1873 was an important one in Texas history. During the April-September period covered by the Calendar, at least eight cities, from El Paso to Texarkana, will be celebrating their 100th year.

Others reaching that milestone are Terrell, Overton, Mineola, Plano, Weimar and Schulenberg. One of the state's oldest cities, Columbus, marks its 150th birthday on May 11-20, while Yorktown takes note of its 125th anniversary in April.

The entire month of August has been set aside to commemorate the 150th anniversary of the Texas Rangers, with activities centered around the Texas Rangers' Fort Fisher in Waco.

Some 800 events are listed on the Calendar in addition to the special anniversary celebrations.

As befits a Texas Calendar, there are dozens of rodeos and roping contests, and rodeo fans will have no trouble finding places to follow the sport.

From flea markets to major festivals; from sand sculpture contests to displays of fine art, whatever the traveler's pleasure, he will find it some time, somewhere in Texas.

Copies of the six-month Calendar are available at Highway Department tourist bureaus, or by writing the Texas Highway Department, Travel and Information Division, P. O. Box 5064, Austin, Texas 78767.

Motorists Reminded To Stop For Buses

A reminder on the State law about motorists stopping for school buses was issued today by Colonel Wilson E. Speir, director of the Texas Department of Public Safety.

Speir said the law, which applies on city streets as well as rural highways requires motorists moving in either direction on the same roadway or street with a school bus to stop and remain stopped as long as the flashing top red lights on the bus are in operation.

He said the problem is becoming

PHOTOGRAPHS AID HOME INVENTORY

Photographs can help identify items lost through theft or fire.

"Most families cannot describe their possessions—even the most valuable ones—after home and belongings suddenly are destroyed or stolen," Lillian Cochran, Texas Agricultural Extension Service home management specialist, Texas A&M University, noted.

"A photographic inventory of the home's contents can provide definite proof of ownership—a valuable asset for any household," she noted.

"Taking photographs for an inventory requires no special skill, talent or equipment—anyone with an ordinary snapshot-type camera can do it.

"For ease and thoroughness, photograph each wall of a room to achieve an overall view — take close-up shots of particularly valuable objects—open cabinets and drawers to expose contents," she added.

"Newlyweds and engaged couples can begin family records by taking pictures of their wedding gifts on display—and using them as an inventory.

"Save negatives from these pictures—if needed for insurance purposes, enlargements will provide details.

"Store photographs and negatives in a safe place, such as a safety deposit box or fire-proof container.

"Pictures help families remember exactly what was in their homes—should accidents or thefts occur," she concluded.

Glaucoma Testing Will Be Done Free

"More than one-million Americans, thirty-five years of age and older, have Glaucoma and half of them don't know they have this eye disease, which may result in blindness unless it is diagnosed early and treated continuously," says the Texas Society for the Prevention of Blindness. One of every eight blind Americans is a victim of Glaucoma, or as it is commonly called, "The Sneak Thief of Sight."

The test for Glaucoma can result in saving priceless eyesight, since the disease can be controlled if detected in time but cannot be cured or lost sight restored. Symptoms are not always noticeable, especially in the early stages, and this is why many victims of this eye disease are unaware they have Glaucoma until they begin to go blind.

The Texas Society for the Prevention of Blindness and the Plainview Noon Lions Club will sponsor a free Glaucoma Screening program (free tests for Glaucoma) for residents of Plainview and surrounding areas, who are thirty-five years of age and over, on Tuesday evening, April 24, 1973 at the Plainview High School Cafeteria, 1500 Smyth Street, Plainview, from 7:00 p.m. to 9:00 p.m.

The free test for Glaucoma will be administered by members of the Hale - Floyd - Briscoe counties Medical Society assisted by nurses from the nursing staff, Central Plains General Hospital, Plainview Clinical Nurses, Plainview Public School Nurses, Plainview - Hale County Health Nurses and the Hale County Licensed Vocational Nurses Association. Also participating in the program as a public service will be members of the Plainview Noon Lions Club and their wives.

Mrs. Jim Tunnell, mother of Mrs. Amelia Johnson, fell and broke her right leg on Thursday (two weeks ago) and underwent surgery on Saturday. She is in Northwest Texas Hospital and is improving.

more serious in cities due to increased use of school buses in urban school districts.

There are only two exceptions to the law on stopping for loading or unloading a school bus: Those vehicles on another roadway of a divided highway (divided by median or physical barrier) are not required to stop, and stops are not required if the bus has stopped in a loading zone of a controlled access highway where pedestrians are not permitted to cross.

Speir said the problems of school bus accidents is of concern to law enforcement officials and educators throughout Texas. Only a few weeks ago, the Travis County Grand Jury urged the news media to publicize the law about stopping and not passing a school bus which is loading or unloading children.

The grand jury noted that serious criminal charges might result if a motorist disregards this law.

Decorating With Wallpaper

Wallpapers furnish patterns and textures to rooms —yet require little maintenance.

"Many present-day papers are washable—even scrubbable," Patricia A. Bradshaw, housing and home furnishings specialist with the Texas Agricultural Extension Service, Texas A&M University, pointed out.

Factory-applied plastic coatings make washing possible and minimize maintenance. However, even non-washable paper can be treated after its hung.

Wallpapers are available as two basic types—handmade and machine-made.

"Hand-made types are usually colored manually, using a separate silk screen for each color. Since they require considerable time and labor, they're the most expensive.

"Colors of machine-made prints are applied simultaneously on printing presses having up to 12 rollers. Consequently, several yards can be done by machine in the time required to do one yard by hand.

"However, prices of roller prints vary greatly—depending on quality and weight of paper use, complexity of design, and number of yards produced," Miss Bradshaw explained.

Vinyl wallpapers are another category. Considerably heavier, they consist of vinyl surface backed with either paper or fabric. Designs are printed on the vinyl surfaces.

"Since most vinyls can be scrubbed, they're ideal for kitchens, utility rooms and bathrooms.

"As an added bonus, vinyl fabrics pull off the wall in strips—making replacement easy."

To determine how much paper to buy, multiply distance around the room by the wall height. Then divide this figure by 30 (number of square feet in a single roll of paper) to get number of rolls needed. Deduct one roll for every two doors or windows of average size.

For "insurance," buy an extra roll of paper—for repairing any damage or lining a closet.

As an extra precaution, take the room measurements along when going shopping.

"In addition to patterns, textures and solid colors, scenic murals and border prints are also available.

"However, shopping for murals or scenic requires a few extra precautions," the specialist noted. "Consider the number of strips needed for a specific area, placement of the entire design horizontally, appropriate distance from design to floor, and possible existence of a chair rail.

"Border prints, on the other hand, are made in widths up to 18 inches. Many of the widest are designed so they can be cut to make borders of varying widths—adapting to home decorators' needs."

Be Leery Of Fabulous Plant Ads

The Sunday supplements of many newspapers contain full page color ads urging the gardener or would-be-gardener to take advantage of fantastic prices on fabulous plants by mailing a check to some far-off mailorder house for their choice items which are all too often sucker bait.

Special names are frequently concocted for rather common plants with fantastic claims made for their flowering or fruiting ability or for their rapid rate of growth. Seldom is there any mention made in the ad regarding age or size of the plants being featured.

When reading these ads one should remember that the customer usually gets what he is paying for. Plants offered at such ridiculously low prices are usually of poor quality, undersized, or even outright culls.

Many of the ads feature plants that are unsuited for local climatic conditions. By reading the fine print one can often determine the correct botanical or common name. Then by checking this information in a garden encyclopedia, the reader can determine whether the plant is suited to his area. He can also obtain information as to its culture requirements, its growth habits and size, hardiness as well as a true description of its flower or foliage characteristics.

It would be wise to check local nurseries and garden centers; if they aren't offering these same species, it is in all likelihood because they are not adapted to the area. This does not mean to imply that one should not patronize mail-

Mrs. Widener Is Shower Honoree

Helen Wedge, was honored with a bridal shower Friday, April 13, in the Methodist Fellowship Hall from 3 to 4:30 p.m. The colors of pink and white were used in the decorations. Guests were greeted by Mrs. Preston Jouett. Those in the receiving line were the honoree, her mother-in-law, Mrs. Roy Widener, and her mother, Mrs. Gilbert Wedge.

The serving table was centered with an arrangement of pink carnations and pear blossoms flanked by pink tapers and gold lettering. Mrs. Reddell Irby presided at the register.

Hostesses were Meses. Keith Green, Bert Degan, Joe Fuston, Jack Case, Preston Jouett, Aubrey

order houses. There are many reputable, well-established mail-order nurseries that provide excellent service to their customers. They usually provide well illustrated catalogs and do not make exaggerated claims for their products.

If the reader will take time to carefully read the ads and not make purchases on impulse, it is usually rather easy to differentiate the reputable ad from the so-called sucker bait.

TO SEE ICE CAPADES

On April 10, 1973 the Sophomore class of Valley High met to discuss the probabilities of a class party.

We discussed it, voted, and decided to go to the Ice Capades on Thursday, April 19.

We also decided to wait and later go roller skating for a class party.

Harold Lane volunteered to drive a bus for us. Our sponsors, Betty Nan Tiffin, and our class parents, Mr. and Mrs. Wayne Lorry and Mr. and Mrs. Bennie Brown, will accompany the class to the Amarillo Civic Center.

The meeting was then adjourned. Debra Gragson, reporter

Truman Hadaway was a patient last week in Veterans Hospital in Amarillo.

Mr. and Mrs. Truman Joe Hadaway and children of Amarillo spent the weekend here with his parents, Mr. and Mrs. Truman Hadaway.

Turner, Emmett Baisden, Reddell Irby, W. D. Maxwell, Jess Ray Jones, J. T. Stanfield, J. R. Adanson, Jr., Bill Farley, Euman Lytle, Hazel Fuston.

Mrs. Mike Wedge of Okinawa was present, along with local guests.

"I've seen the amount of mail we handle get bigger every year. Zip Code's the only way we've kept up with it."

CARD OF THANKS! Dearest People:

There are no words to express how thankful I am to have such friends. I am so grateful for each visit. Jim Stroup and Bro. Freddie will never know how glad I was to see them so early the morning I had surgery. I would like to say thank you to each one who came to see me, for all the gifts, flowers, cards, and, especially, for the prayers, also the visits and food since I have been home. May God bless each of you.
Leon McCracken

Sid Bogan Visits In Dallas Area

Sid Bogan left Quitaque Thursday, March 19, accompanying Mrs. Gladys Wise and Mary Ollie Persons to Childress where he took a bus to Dallas. He left Childress at 9:25 a.m. and arrived in Dallas at 3:30 p.m. His son, S. T., jr., met him at the bus station and took him to his place of business, the Fina Company. S. T.'s wife, Esther, met him there and took him to their home. Mr. Bogan reports he enjoyed seeing the country, having been behind the wheel of the car always before when he was down that way.

On Friday, Mr. Bogan accompanied his daughter-in-law to pick up her two daughters, Dorrie, the youngest in school, and Pat, the oldest who was at work. On the way to pick up Pat they had to travel the freeway for several miles on No. 635, better known as LBJ. You can go a lot of places on this road if you don't get run over, according to Mr. Bogan.

Saturday, S. T. took his father for a drive. They stopped and made a tour of the office where S. T. works. He is on the 12th floor. Mrs. Jerrel Gaddy, Mr. Bogan's daughter, called and wanted to know if he wanted to go see Bro. J. Lowell Ponder, a former pastor of the Quitaque church and hear him preach. He has moved to Farmers Branch where he pastors a Baptist Church. He says he would enjoy seeing the Quitaque people again. S. T. and Mr. Bogan went to hear him preach on Sunday night.

The following week Mr. Bogan accompanied his daughter-in-law on trips taking the girls to school and to work and on a shopping tour of "Big D." They had lunch in Dallas. S. T. got tickets to see

an American League baseball game with the Texas Rangers opening the season, the game was rained out.

The next Saturday night they met Barney Bogan and his wife from Nacogdoches at the home of Mr. and Mrs. Clarence Taylor for a fish fry and met several more relatives there. The fish came from Florida waters and Mr. Bogan reports they were delicious.

Sunday was the day for the wedding of Mr. Bogan's granddaughter, Jerre Jo Gaddy, daughter of Mr. and Mrs. Jerrel Gaddy. The wedding was performed in the Cockrell Hills Baptist Church April 8 at 3:30 p.m. She married Bradford Wade Beal. After the wedding the group went to the Gaddy home for a visit.

Mr. Bogan enjoyed some more going and visiting Monday and Tuesday, then S. T. took him to the bus station Wednesday where he left for Childress. Mary Ollie Persons met him there and brought him home. He reports a very enjoyable trip, getting to be with three of his children and his grandchildren and friends. He saw Edgar Hatton, a former Quitaque resident. He attends the same church with S. T. and his wife. Mr. Bogan says he was glad to be back in Quitaque, the best place to be.

Eddie Owens came home Friday to spend this week with his parents, the Gaston Owens, during Spring break and to be home for Easter Sunday. He left Wednesday to visit in Albuquerque, New Mexico until Saturday.

QUALITY OF RESEARCH DEPENDENT ON PERSONNEL

Quality of research conducted at the High Plains Research Foundation is dependent largely upon its personnel. For this reason, Dr. T. C. Longnecker, Executive Vice-President of the Foundation, is proud to announce the appointment of Gaylan Floyd Goddard to the scientific staff of the organization. His principal duties as Associate Agronomist will be in the field of agricultural chemicals, including herbicides, pesticides, and fertilizers.

Gaylan was born in Plainview, and resides there now with his wife, Lynn, at 2700 West Fourth Street. He graduated from Plainview High School in 1964, and received his Bachelor's degree in Crops in 1968 from Texas Tech University. He then obtained his Master's degree in 1970 from Texas Tech while also working with the Texas A&M Agricultural Experiment Station at Lubbock. His master's thesis was titled: "Effects of Water Quality on Herbicide Leaching Depth." Since that time, he has been employed by Custom Farm Services in Plainview and has gained valuable experience working with plants, particularly in the field of weed control.

Gaylan is a member of the American Society of Agronomy and the Soil Science Society of America. His hobbies include hunting and wood craft.

Buffie and Tonya Baisden of Pampa are spending the Easter holidays with their grandparents, Mr. and Mrs. Emmett Baisden.
