## As I See It!

By Thelma Gafford

The recent tremendous turn-out of area kids ready, willing and able to play baseball could not compare to the turn-out we had in Turkey at our Park Task Force meeting last Thursday night.

We had a one-hundred percent show of support. All three of us showed up! Isn't that something. It was wonderful, as well as extremely informative. I would like to report that the wheels are slowly being put in motion, it takes time, but hopefully by next Summer, we will have a beautifully landscaped city park.

Happy Easter

**Spring Storm Season Approaching Our Area**

Although tornadoes, severe thunderstorms and floods can strike virtually any part of Texas at any time, spring seems to bring an increase in violent weather.

You can take precautions to assist yourself and your family in the event of a tornado.

Periodically hold a tornado drill so that family members know what to do and where to go if the National Weather Service issues a tornado warning. The safest part of a house during a tornado traditionally is the basement, but be aware of the potential for flooding if there is heavy rain in the area. Interior bathrooms, hallways and closets on the ground floor also offer protection from tornadic winds. Avoid windows and out-side walls. Take along blankets or sleeping bags to protect yourself from falling debris and shattering glass, which are frequently the cause of death and injury during a tornado.

Make certain you have a portable radio and several flashlights (and fresh batteries for both) as well as bottled water, extra prescription medications and a first aid kit in your shelter area.

Your local (city or county) emergency management office can provide you with additional information on severe weather precautions. The Governor's Division of Emergency Management, the National Weather Service, the Texas Insurance Advisory Association and the Federal Emergency Management Agency are sources of information and publications on various weather phenomena for local governments.

Mobile homes and automobiles are dangerous places to be during a tornado. If you live in a mobile home, make sure all family members know where the nearest substantial shelter is. If you are in your mobile home or car and can't get to a better shelter: go outside, lie down in the nearest ravine, ditch or culvert and cover your head with your hands. Be aware of

Without clouds and other constituents of the Earth's atmosphere, the surface of our planet would reach a temperature of 176 degrees at the equator by day.

### LEGAL NOTICE

By Executive Order of the Honorable Hubert Price, Mayor of the City of Turkey, it is proclaimed:

WHEREAS, April 1989 marks the twentieth anniversary of the passage of the Civil Rights Act of 1968, which included Title VIII, the Fair Housing Law, for guaranteed equal housing opportunity for all citizens; and

WHEREAS, Fair housing is consistent with the principle of equality and justice for all, providing the challenge to combat discrimination, and to broaden the protection of the beliefs upon which our nation was founded; and

WHEREAS, This month provides an opportunity for all Americans to rededicate themselves to the principles of free choice and to reacquaint themselves with the rights and responsibilities that are theirs under the Fair Housing Law.

NOW, THEREFORE, I, Hubert Price, Mayor of the City of Turkey, do hereby proclaim April 1989 as

**FAIR HOUSING MONTH**

In the City of Turkey, and urge my fellow citizens to join me in reaffirming the obligation and commitment to fair housing opportunities for all people.

Let all within the reach of this proclamation heed its directive.

By his Honor the Mayor of the City of Turkey, Texas,  
Hubert Price

### Hall County Clerk Attends Seminar

County and District Clerk, Phyllis Becker of Hall County joined about 550 other officials for the 17th Annual County and District Clerks' Seminar in College Station February 27, 28 and March 1.

As an enrollee in the continuing education seminar, Phyllis Becker participated in the three-day training effort which focused on the theme, "Yearning to Learn... Learning to Serve."

Phyllis said, "The responsibilities of our office are quite extensive, and this was reflected in the seminar program. Some 35 sessions involving about 50 speakers or panel members made up the seminar."

Separate sessions were held for district clerks and county clerks in a number of instances, with joint sessions following.

Major discussion subjects included a preview of the 71st regular legislative session, tips on making an effective budget presentation, registry of court and fees of court, fundamentals of legal research, management of personnel and administration, and open records in the clerk's office, said the clerk.
