Valley Patriots Lose Regional Game To Baird

The Valley Patriots, who were chosen to win over the Baird Bearcats in Friday night's game, took a beating in the game played at Vernon. They came up against a heavier team and a team that had been placed down from a 2A classification. The Patriots were shut out in every attempt to pass and even had a good one intercepted to give the opponents another score. The Valley defense played a very good game, but it seemed the heavier tackle could just pick the lighter Patriots up and place them wherever they wanted them.

The Patriots went into the game with 11 wins as compared with no losses for the season and came out with a 12-1 record and a 19-7 loss Friday night. There were approximately 1000 fans at the game in Vernon. The Patriots ranked No. 3 in the Harris rating and No. 9 by the Associated Press. They played a very good game and are to be commended

for their efforts.

Kirk Saul, the 6 foot, 185 pound senior from Valley, received recognition from all over. The Valley Tribune received three notices of his making "Player of the Week." He received the same recognition from the Lubbock Avalanche Journal and then before the last game played, Coach Adams, Saul and Matt Barrett received calls from all over. Saul was listed in Sports Illustrated which is headquartered in New York.

Barrett, the main receiver, is only 5 ft. 6 in. and weighs only 145 pounds. He is very wiry and quick. The Valley Tribune has not played his efforts as much as Kirk because we thought perhaps Kirk might want to play college football and want a scholarship. As the two boys have said all year, "We can't play by ourselves, we are part of the team." The Tribune gives Coach Adams credit for this attitude. He has proved over the ten years

he has been at Valley that he is "building men, as well as a football team."

Matt Barrett received recognition from the Avalanche Journal in an article last Thursday morning, November 27, and Eric Scoggins received good recognition in Friday's Amarillo Daily News.

The Valley School has received more media recognition during this football season than it has received in many years.

Statistically in Friday night's game, the teams had 0-0 at first whistle; 0-0 at half-time, then in the third period, the Bears scored, with 7-0, then they intercepted one of the Patriot passes and ran it back for another TD to go 13-0. The Patriots' Matt Barrett was double-teamed by the opponents all through the game, as were the other receivers. The Patriots went into the end zone from one yard out on a keeper from Kirk Saul for the first, and only, touchdown in the game.

Baird made another TD in the last quarter, bringing the score to 19-7.

The main reason for the Patriot defeat was the opponents holding the ball. It looked like two teams playing basketball and one side keeping the ball.

The Valley Tribune and the area are very proud of Coach Adams and all the Patriots. You played a good season.

Valley Booster Club Expresses Appreciation

The Valley Booster Club would like to express its appreciation to the Valley Patriot team, their coaches, cheerleaders and pep squad, and to all of the fans who helped make an exciting and successful football season.

Our Valley girls began their basketball season about a week ago and the boys begin their season Tuesday, December 2. We encourage everyone to follow and support our basketball teams. There are going to be many exciting games and tournaments on the schedule. We want our students to know we support them, win or lose.

The winter blue and white Valley caps are here and will be sold at our home basketball games. The price of the caps will be \$5.00.

Major Provisions Of 1986 Disaster Payment Program

Your local ASCS office has been instructed to publicize the provisions of the 1986 Disaster Payment Program.

Briscoe County HAS NOT been designated as eligible for this program; however, there is a good possibility that it will be.

All producers who expect the yield on any program crop to be less than 50% of their farm payment yield must file a request for disaster designation (ASCS-

574), report production and/or disposition of the affected crop by December 15, 1986. Program crops for this purpose are wheat, barley, oats, corn, grain sorghum, cotton, soybeans and peanuts.

The acreage of program crops that will be eligible for disaster pay will be the sum of the planted acreage, on farms that are participating in the 1986 program and are in compliance with all the provisions.

The payment rate is the basic county loan rate for all crops except peanuts. The rate for quota peanuts is 30.37 cents per pound and 7.49 cents per pound for additional peanuts.

There are provisions for disaster pay on other commercial crops for which insurance is offered by FCIC.

Should this program become a reality, you must make less than 50% of your yield to be eligible, and you will never be paid on more than 50% of the yield. All crop insurance benefits must be subtracted from the eligible amount of disaster pay. This includes insurance benefits from any and all insurance companies. Probably any pounds or bushels receiving this pay will not be eligible for deficiency pay.

It appears that all crops that will not be harvested should be appraised prior to being disposed of. DO NOT dispose of crops without an appraisal at this time. Hopefully, the ASCS offices will know more about this program soon.

Quitaque Catholic Church To Have Mexican Dinner

A Mexican Dinner will be served Saturday, December 6, 1986, at the Quitaque Community Center. Take-out orders are welcome.

Santa Is Coming To Town

The Turkey Volunteer Fire Department has begun its Toys For the Needy project. Everyone is encouraged to donate a new toy or money so toys can be purchased and given to children when Ole Santa comes to visit.

Santa Claus will be at Lacy's Department Store on Saturday, December 13. Pictures can be made with Santa from 10:00 a.m. until 6:00 p.m. Everyone bring your children and come down to Lacy's to visit with Santa.

Bake Sale Saturday At City Drug Store

There will be a bake sale Saturday, December 6, at the City Drug Store in Turkey beginning at 9:00 a.m. This is being sponsored by the Turkey United Methodist Women.

There will be crafts also, that you can buy for Christmas gifts.

Do come in Saturday morning, because the sale will close at 12 noon.

First Bale Ginned For Seymour

J. W. Lacy of the Turkey Farmers Co-op Gin reported they ginned the first bale of the season for Mac Seymour. The bale turned out 520 pounds from 2,390 pounds of stripped cotton. The seed weighed 840 pounds.

ENVELOPES OVERLOOKED

It has been called to the attention of the Tribune that the Turkey people are overlooking the Salvation Army envelope notices included in their bank statements. The neighboring city to the west is making a better response than Turkey people are. Come on, Turkey; we can respond also.

Tax Collections Are Up This Year

The regular meeting of the board of directors of the Briscoe County Appraisal District was held Thursday, November 13, with all members present. Mrs. Carlye Fleming, chief appraiser,

reported that 1986 collections stood at 40% as compared with 28% at the same time in 1985.

Collections through the month of October 1986 were Briscoe County, 40.7%; Silvertown ISD, 40.9%; City of Silvertown, 29.2%; City of Quitaque, 36.3%; Mackenzie Municipal Water Authority, 34.6%.

Final reappraisal costs were studied. Mrs. Fleming reported the following to be extra expenses over a normal year, 1985 for example: Outside Appraisals, \$900.00; Extra Payroll Expenses, \$4,672.00; Extra Travel Expense, \$410.00; Extra Supplies, \$500.00, for a total above 1985 of \$6,482.00.

All other expenses were about the same as prior years. Cost per parcel was approximately \$4.96 as compared to \$17.50 per parcel in 1980. This included new, updated cards for all property owners and reworking all maps.

House Bill 79 of the 69th Legislature was discussed. Part of the legislation permits some cities and counties to opt for an additional 1/2% sales tax each, decreasing their local property tax levies to reflect revenue from the new sales tax. Either entity's tax may be put before the voters either by act of the City Council and/or County Commissioners or by petition signed by at least five percent of the voters. The method of handling this tax would be somewhat complicated, and although it sounds appealing there are several drawbacks.

The new government set-aside program was discussed at length. How this property will be valued in the future is the main issue for the appraisal district. This is a question that the State Property Tax Board will try to analyze in the coming months in order to offer guidance to real estate appraisers in appraisal districts.

The appraisal district will need two Appraisal Review Board members for the 1987-88 term. Board members chose persons to serve. Mrs. Fleming was instructed to contact these people before the December 11 meeting and to report back to the board at that time.

Following examination of the current month's bills, the motion carried to pay all bills presented at the meeting.

Present, in addition to Mrs. Fleming, were directors L. B. Garvin, jr., Ray Teeple, Joe Mercer, Robert McPherson and Paul A. Ramsey.

Conservation Corner

by John Crowell

A list of highly erodible and potentially highly erodible soils was released this week by the USDA Soil Conservation Service as mandated by the Food Security Act of 1985.

The list revealed that approximately 57 percent of the land in Briscoe County is highly erodible. Most, but not all, of this land is located below the caprock.

The conservation compliance provision of the Act denies most USDA farm program benefits to farmers who farm highly erodible land unless the land is being farmed in accordance with a conservation plan approved by the local conservation district.

The Act allows a grace period for those who are not using a conservation plan. They have until January 1, 1990 to develop and begin actively applying a plan. They have until January 1, 1995 to have the plan fully in effect.

The provisions will have no effect on farmers who are using up-to-date conservation plans. If you are farming highly erodible land with a conservation plan, check with your local Soil Conservation Service office to find out if it meets conservation compliance provisions.

We are ready to help anyone prepare a conservation plan that doesn't have one. We will do our best to try to help people figure out how to apply enough conservation practices to keep them in compliance with the 1985 farm bill.

Such plans may include wind strips, windbreaks, crop rotations, crop residue management, terraces, contour farming and other measures.

Farmers with highly erodible land may also want to consider placing it in the conservation reserve.

SURVEY SHOWS NEWSPAPERS BEST SOURCE OF INFORMATION

Newspapers outdistance television, radio and all other media as the medium most often relied upon for "best buy" shopping information, community and area news, and news about political issues and candidates, according

to a recent survey conducted by the Media Research Bureau of the University of Missouri School of Journalism in Columbia. A total of 518 Missourians, geographically scattered across the state, were interviewed by telephone.

According to the survey, newspapers are by far the best source of shopping information. Newspapers were selected by 74.5 percent of persons interviewed, compared to 20.1 percent for television and 5.9 percent for radio.

Newspapers were mentioned most often (48.5 percent) when those interviewed were asked about sources of community and area news. Television was selected by 38.4 percent and radio was named by 13.5 percent.

The gap between newspapers and broadcast media widens for political issues. The majority (61 percent) said newspapers are their major source of information regarding LOCAL political issues, compared to 31.5 percent for television and 7.8 percent for radio.

Newspapers again far outdistance the electronic media as the source of information regarding individuals who are running for local, county and statewide office. Nearly 73 percent said newspapers are their major source of information about candidates compared to 21.6 percent for television and 6.7 percent for radio.

So, to get the most for your advertising dollar, advertise in your local newspaper.

Mrs. Willene Johnson of Tulla spent Friday night in Turkey visiting with her sister-in-law, Mrs. Ciema Johnson.

Mrs. Alice Fuston spent Friday night in Childress in the home of her daughter, Mr. and Mrs. Eldon Lyles.

Mr. and Mrs. Johnny Fuston and girls of Hereford spent Thanksgiving in Turkey with his mother, Mrs. Alice Fuston.

Visiting for Thanksgiving with Mrs. Virginia Degan were Mr. and Mrs. Arland Schneider, Mr. and Mrs. Mark McKnight and Mike Prather, all of Amarillo.

Mr. and Mrs. Jim Lard and son, Benjamin of Gallup, New Mexico visited in the home of Mrs. Majorie Bain and Mrs. Virginia Degan. Mrs. Lard is the former Tommileen Miller, niece of Mrs. Bain and Mrs. Degan.

Mrs. Bain and Mrs. Degan and the Lards visited with Mr. and Mrs. Billie Joe Turner in Lockney and Mr. and Mrs. Tim Parker and family in Canyon.

Mrs. JonEtta Ziegler and Trey of Silverton and Mrs. Linda Karnall and daughter of Plainview visited in the Johnny Peery home in Turkey Sunday.

Mr. and Mrs. Elgin Conner and daughters, Gina, Lori and Karyn of Quitaque joined Mr. and Mrs. Billy Lyles and Beth for Thanksgiving in the home of their mother, Mrs. Stella Conner, in Turkey.

Mr. and Mrs. Leon Lane enjoyed Thanksgiving in the home of their son, Mr. and Mrs. Bert Lane, in Plainview.

During the weekend, guests in the home of Mr. and Mrs. Leon Lane were Mr. and Mrs. P. T. Clark of Sweetwater, Mr. and Mrs. Bud Clark of South Carolina. Bud Clark reported that he has served 16 years in the service and will go to Alaska in March to serve his other four years and then take his retirement.

The first women's labor organization was established by maidservants in 1734, in New York City to protect abuses they suffered from their mistresses' husbands.

After a queen of Egypt had a long reign of peace, her successor said it was a disgrace. He had her name and figure scratched off the stone carvings of Egypt.

Hall County Retired Teachers Have Meeting In Turkey

The Hall County Retired Teachers Association met Thursday, November 20, at the Senior Citizens Center in Turkey.

A light supper was served at 7:00 p.m. by Marjorie Bain and Virginia Degan and Marcella Patterson.

Beth Lemons, president, conducted the business meeting. It was voted to have the next meeting at Memphis the third Thursday night in March. Tops Gilreath gave a legislative report. Alma Bruce read minutes of the previous meeting.

Audrey Tribble, program chair person, presented Lorean Hulsey, speaker for the evening. Mrs. Hulsey, who has been

around the world and to Europe four or five times, gave some tips for travelers.

Gertrude Rasco gave a committee report and stated in conclusion, "Keep on your toes and you won't run down at the heels."

Those attending from Memphis were Audrey Tribble, Lorean and Carl Hulsey, Alma Bruce, Ethel Hillhouse, Clara

Pyeatt, Gertrude Rosco, Tops Gilreath and Beth Lemons. —Reporter

Blakney Attends Board Meeting

The Farmers Union Board of Directors met in Austin on Wednesday of last week.

State President Joe Rankin chaired the meeting. All the usual business was taken care of, then the meeting was given over to the speakers present.

The first report was given by Dianne Parish, the Green Thumb Director. Bob Gerard reported on the Step Program.

It was reported that each of these programs employ over 1,000 Senior Citizens. These programs are sponsored by the Texas Farmers Union.

In Hall County, the Green Thumb workers received \$39,546.00 this past year.

J. B. Blackney reported on a bill that is being presented in Texas that is trying to do away with the Homestead Law.

Bob Bobbitt, the Department of Aging, commended the Farmers Union for the programs that they sponsor. Van Stewart also reported on the seven programs in Texas that assist the aging. A report from Jim Hightower's office was also given, including the fact that he is trying to secure industries in Texas.

Virgil Blakney of Turkey was in Austin attending this meeting as a representative of Hall County.

Thanksgiving visitors in the Odis Reagan home were Mrs. Ella Mason of Tulia, Mrs. Margaret Chapman and son, Clint Chapman of Springtown, and Mr. and Mrs. Cliff Chapman and baby of Springtown, Mr. and Mrs. Rex Harmon and children, Mr. and Mrs. Stan Price and children, Quitaque, and Mrs. Eva Gail Clay and Tiffany of Childress.

Mrs. Willie Gragson of Wellington, Mrs. Evelyn Raines and children, Sasha and Brandon of Lubbock, Mrs. Laura Eignemann and children of Pomona, California visited Mrs. Cora Gragson in Quitaque Saturday afternoon. Mrs. Gragson accompanied them to Wellington and spent the night and Sunday. Mrs. Brenda Morris and children, Kimber and

Play It Safe With Your Holiday Lighting!

Inpect lights before decorating.

Be sure to discard strands of lights with frayed wiring, and burned out bulbs BEFORE you decorate.

Also, never leave your Christmas tree lights or outdoor decorative lights unattended. Be sure to unplug them when you go to bed or leave the house.

Watch for the U.L. seal of approval.

Only buy lights that have been checked for safety. The Underwriter's Laboratory's seal of approval is your guarantee that lights and wiring have been properly safety checked.

Hang ornaments away from lights.

Make sure paper ornaments and tinsel do not touch light bulbs. Also, never adjust outdoor or tree lights while they are turned on or connected to a power circuit.

Always use a wooden ladder or a metal one with rubber-tipped legs when installing outdoor lights. Be sure to stand on a dry surface.

Make sure you don't overload circuits.

Avoid overloading electrical wiring by using more than one circuit for your tree lights. Use heavy-duty extension cords to run to other circuits.

Hard Water Causes Laundry Problems

The quality of your local water supply has a lot to do with whether detergents can actually work to get clothes clean, says Dr. Ann Beard, a Texas A&M University Agricultural Extension Service clothing specialist.

"In hard water, much of the detergent added to the washer goes to soften the water instead of clean the clothes," she says. "Over time, clothes washed in hard water become dingy or yellow, develop a build-up of soil, may have a stiff, harsh feel or show white or gray streaks on colored fabrics."

The specialist says that you can compensate for hard water—to a certain extent—by using adequate amounts of low-sudsing phosphate detergent and water as hot as recommended for the fabric. The harder the water, the more phosphate detergent you will need to use, she says, although this can be expensive and contribute to water pollution. Non-phosphate detergents and soap will not perform satisfactorily in hard water. Dr. Beard notes.

In addition to using extra detergent, water can be treated in the washer with a non-precipitating water conditioner, or water softener, commonly sold in powder form in the detergent section of grocery stores.

FACTS & FIGURES

Buying your own phone can usually save \$15 to \$60 a year per phone, depending on which type of phone you are currently renting and where you live, experts say. You can purchase new phones to replace the ones you now rent, or increase the number of phones you have. In most areas, the telephone company can accommodate up to four to five phones with ringers per household.

Confused by the number of phone styles and features now on the market? Experts at GTE, a leading phone manufacturer, say today's consumers want style, function and features in their phones, and that's what they get with the company's new Ultraline phones, which you may have seen in a recent Reader's Digest ad.

The Ultraline phones are available in Touch Calling, UDK, and "Switchable." The smooth contemporary design is slimmer and smaller than most desk phones. You have features such as last number redial, 9 number memory and newly designed keypad with easy to read buttons on this fully modular electronic phone. Electronic as opposed to electro-mechanical means fewer moving parts—little maintenance for you, the consumer.

THEN/NOW!

THEN: France became the perfume center of Europe in the 1500s. Paris made the most expensive perfumes, becoming the mecca for scent manufacturing. Flowers for the fragrances came from the region around the town of Grasse, near the Mediterranean Sea.

A new fragrance "that echoes the heartbeat of Paris" will capture the imagination of American women.

NOW: A new fragrance that is said to "echo the heartbeat of Paris" is expected to capture the imagination of many American women. A spicy daytime floral, it's called "Vivage." It was inspired by French couturier Louis Feraud, exclusively for Avon. This follows the huge success of their first such venture, "Fantasque," which debuted in the U.S. in 1982. Women who have tried it say Vivage gives them a sense of the color and vibrancy of Paris.

The first woman cabinet member was Frances Perkins, Secretary of Labor from 1933 to 1945.

UNDERSTANDING COMPUTERS

How To Choose A Printer

Good rules for choosing a printer: don't have any set ideas and take a few tips from the pros.

• Look for two things: reliability and quality. If you are unsure, ask a dealer for advice. Sometimes a knowledgeable dealer can mean the difference between getting the proper printer or having an unpleasant experience.

A series of tiny dots can make computer-generated letters better than ever... for less.

• Keep in mind how you are going to use the printer. Do you need printouts that look as if they were typed? Or will draft copies do? Is a high-speed printout essential?

• Not too long ago, there were only two choices of printers for personal computer owners: the dot matrix printer or a letter-quality printer. There is now another choice, a high-performance, letter-quality dot matrix printer. These printers produce copy that looks as if it was done on a typewriter, but prints at a much faster speed than earlier letter-quality printers.

• A new high-performance dot matrix printer, called the LQ-1500 from Epson America, Inc., a firm that sells more printers than anyone else, does the work of a letter-quality printer, a graphics printer and a high-speed draft printer. Type-styles you can use include all the favorites and sub/superscript for fine print and scientific notations. Type-styles also may be switched in mid-text.

• Make sure you get the right cables and interfaces to connect your computer and printer.

It's believed the word "brat" meaning "child" comes from the Welsh "breth" meaning baby clothes.

When Souls Communicate

When souls communicate — it's like prayer. There may never be a word spoken . . . just a sigh, a wish, a hope, a longing. A child trying to express some simple feeling to its Mother. Mother trying to express her devotion to her child.

All prayer is founded on the idea that God loves us and cares about the things that affect us. Jesus taught us to pray "Our Father . . ." He wanted men to see God's love on the parental level.

When you feel the need to pray, reach out with your heart to God. You may not be able to find words. Yet He hears, He understands those deep feelings we find hard to express.

In church our efforts to communicate with Him are strengthened by the fact that many others are praying with us. They need Him just as much as we do. And we need their longings, their hopes and wishes and feelings to help us express our own. Join us in prayer at your local church or synagogue.

Packaging People

Know why we build skyscrapers? In order to have many more people working in a limited area. We package people vertically!

Among the skyscrapers our photographer has discovered a church. It too has a vertical element — a steeple pointing heavenward.

Church architecture with its traditional spires expresses our beliefs. People today are packaged too tightly. Pressure, custom, conformity crowd in upon our souls. Christ teaches that every person is important . . . each one of us is loved by our Lord.

As we worship God each week side by side, our beliefs point us heavenward.

Rev. Roy Patterson received word Tuesday night that his brother, Rev. J. V. Patterson, of Stanford was to have heart surgery in Abilene on Wednesday. Later it was reported that he had five by-passes and other complications. At last report he was doing some better, but had been critical. He is well known in this area as he was manager of the Ceta Canyon Methodist Camp for ten years.
