NEW RELIEF PROGRAM NOT YET OUTLINED

There still seems to be some confusion and uncertainty in the new set-up of the relief program, which, unless some definite policy is established, probably as much so as the former administration.

I was informed recently, and so stated in the story regarding the new set-up published in the Daily Press, that "there would be maintained one man as local commodity distributor in each of the towns in the county, where the commodities would be distributed under the orders of the case workers taken at the homes of the relief clients.

It seems now that this is either all changed or the district administration at Abilene, or possibly the state administration at Austin. or the national administration at Washington, have not yet worked out any definite policy to be pursued. I was told today that the local distributor, Guy Alsup, would keep the local office open only about two days in the week, and there had yet been no commodities sent to this office.

Under the old regime the administration of the relief has been changeable, uncertain, and of course unsatisfactory. The impression I gained when talking to Chief Case Worker Seale at Eastland the local relief offices would commodities for Eastland county

A Tribute to All

EXPRESSIONS obtained from state park board representatives indicate that especial effort will be put into the development of the state park site here. The site is fortunately situated. Possessing all the qualifications of scenic interest, rugged naturalness and atmosphere of remoteness, the park site is peculiarly blessed with accessibility. Reaching to within a few hundred yards of some of the most travelled and one of the most important transcontinental thoroughfares in the nation, it is yet so sheltered and so remote in effect that the visitor may spend days in a sylvan peace. There is no available place in all this section comparable to this for a park. It is peculiarly blessed because of its close relationship with Lake Cisco and the resort area that has been developed there. It is, moreover, of great recrational value, not only to Cisco and the immediate environs of Cisco, but to a national tourist traffic because it touches one of the most important and perhaps the most route. The energies of those who have promoted and who are continuing their efforts to develop it; the generosity of those who contributed the land and the work of the state park board have provided this part of

community cooperation which is the only thing needed to realize upon the resources and the opportunities with which the Cisco country is blessed. From time to time the lack of community initiative has been mourned publicly and privately. The depression with its destruction of values and and its sadder lowering of morale for a time defeated individual efforts to arouse the town to the advantages it possesses. It has taken lots of preaching and lots of futile trying to revive the necessary interest and open the eyes of community leadership. Apparently, now, the fruits of that exhortation are practice. Nothing so distracts from the wobeing realized.

IN community building as well as individual business enterprises, the competitive element is a healthful influence. Putting the Finger on Russia

IN a stern note to Soviet Russia, the United States has pointed out the probability of 'serious consequences" in the event the soviets either refuse or are unable to stop communistic activities in America contrary to the solemn pledge given this government when it consented at the start of the Roosevelt administration to recognize the state that has arisen upon the ruins of the czarist | Human and regime. The instinct of a person inflamed with a doctrine is to transmit it to others. The instinct is healthful and has produced much sacrificial missionary work of great value in the spreading of beneficial influences. The Christian religion, one of the greatest forces for world stabilization and enlightment that has ever occurred, was spread out of the narrow boundaries of its origin into a great international and preserving movement because of this instinct.

THE farmer who found unloveliness in the presence of naked women in a nudist colony adjoining his acres expressed the instinctive reaction to this unnatural human manly ideal as the presence of her nakedness. The X's were the kind of pepole who were always bickering. It had become so habitual that they were no longer conscious of it and would have been amazed had they heard that they were generally considered a quarrelsome pair. To them the closeness of marriage was not a privilege but a necessary trial.

When Mr. X was not present Sam had to act as whipping boy and either listen to his mother's nagging and scolding or to her bitter comments on her husband's shortcomings. It was not a happy environment and no amount of money could make it so. Sam not only felt miserable in it himself but was ashamed to bring his friends into it.

Home is not a matter of bricks and mortar, of three meals a day, furniture and tennis courts. It is a state of mind. A home can exist in a hovel or a palace, for it is dependent on no material things. One of its essential features is peace. If that does not exist there is no home

seventh inning of an exciting but my own personal nomination game that netted seven runs, Nance Motor company last night won the second half of the city soft ball league's season with a 13 to 7 victory over the Community Natural Gas team.

The Fordmen tonight meet the

tain winner. Nance came right do at Columbus is to take tickets. back in the second however, to even matters.

Making it a scoring fest of well nigh sensational proportions, Waddy Bennie for Community, slammed out a homer in the fourth that cleaned the bases and again put Community in the lead. The game moved through a couple of uneventful innings with the gasmen tops until the seventh when the Fordmen had their big hour.

homer that sent three runs whipping over home base. Four other runs the Fordmen netted in the demoralizing effect of this attack, making the total for the inning This lead was too much for Community to overcome and the game was on ice for the Ford-

Starter

By a strange coincidence of the diamond the team that gave Community its lift into the top column of the second half was also the team that started it back down the ladder. John H. Garner's, He was the first-string catche victors in the first half, going into the second phase of the season with a perfect record, took the gasmen less seriously than they should and got a walloping. With that victory as a bracer Community was wellnigh unbeatable until they, too, took Garner's less seriously than they should and had the favor returned. Nance, second in the parade followed the Garner victory with two stiff attacks that moved them to the top of the ladder and put them in a season tie with Garner's with whom they will play a championship series beginning tonight.

SPORT SLANTS

Baseball is full of versatile playrs like Jimmy Foxx of the Atnetics, Mark Koenig of the Giants, Tony Lazzeri of the Yankees, Billy Sullivan of the Cincinnati Reds Staging a scoring spree in the and Ralph Kress of the Senators, for the leading all-around performer in the game goes to Mike Ryba of the Columbus Red Birds. Right now Mike is setting the

pace for the pitchers in the American Association with 16 victories to show against 4 losses. He had The Fordmen to night meet the job of maniging the Red Birds the job of maniging the Red Birds while Ray Blades was under suswinners, in the first game of a series to determine the season on an even keel. The Columbus on an even keel. The Columbus championship. A second game club's second-string catcher, he will be played Thursday night stands ready to fill in any spot on and a third, if necessary, Monday the diamond that may need plug-Community led off the scoring parade with a bunch of runs in the first inning, looking like a certification. About the only thing he hasn't been called on to ging. At one stage or another of

Ryba is a graduate of the Pennsylvania coal mines, that tough old school that has sent up a flock of real ball players. He never cared particularly what position it was just so long as he was out there tossing a ball around.

Joins The Cards Back in 1928 the St. Louis Cardinals signed him as a pitcher and promptly sent him off to Dayton, in the Central League, for further seasoning. He turned up with Barnhill led off with a rousing Scottdale, in the Middle Atlantic League, a year later, and pounded the ball at a .440 clip. The management felt that he was too valuable a hitter to be in the game only when it was his turn to work on the mound so they handed hi a mask, chest-protector and a pa of shin-guards and put him work behind the plate. In 1930 h was in the main a catcher, but l managed to keep his hand

Manager-Pitcher-Catcher

Ryba was manager of th Springfield club in 1934 and when his pitching staff faltered Mik went in and ran up a string o victories as a relief hurler.

It seemed that Mike was distin ed to be a pitcher and there wa nothing he could do about it bu go out there on the mound and toss 'em over the plate. He has powerful throwing arm and eve in the numerous roles he played one important feature stood out i his work-he always had rare

He is getting along in years as ball players go, he's 30 now, so there is little likelihood that he will ever cause much of a stir as a player in the big leagues but one of these fine days he is going to pop up as manager-and then his experience will stand him in good stead.

By ALAN GOULD NEW YORK, Aug. 27 (P)-Great Britain and the United States were the last of the world's ranking athletic nations to accept invitations to compete in the 1936 Olympic games in Berlin. Both did so last year only after

considerable debate and agitation, arising from anti-Jewish activities initiated by the Nazi govern-

vestigation of conditions in Germany. He extracted promises from the Nazi sports leaders (1) that all Olympic pledges would be solemnly kept; (2) that visiting Jewish athletes would be treated on equal terms with all others; and (3) that no discrimination would be shown against Jews seeking positions on German sports teams Brundage returned, satisfied, and the A. ETHIOPIAN WOMEN PLEDGE SELVES TO BEAR ARMS

As the civilized world grew more tense over the Italo-Ethiopian dispute, the little country of the upper Nile seethed with patriotic fervor. Here are shown some Amharic women of the upper Ethiopian class who met at Addis Ababa and pledged themselves to bear arms, if needed. Right, the wealthy Woizero Shorraga, wife of an Ethiopian general, owner of an oil refinery, great tracts of land and several mills, shown leaving a conference which she heads. She announced her hope of leading a regiment of women in battle (Associated Press Platter) In battle. (Associated Press Photos)

> Take John Doe, 25, who gets \$200 a month and is good for another 40 years of work. Beginning in 1937 John pays in to the government one per cent of his salary and an added one-half per cent every three years until the maximum of three per cent is reached All this time John's boss pays the same amount on John's salary At 65 John may retire on a pension of \$71.25 a month.

Take Richard Roe, 55, who also gets \$200 a month and figures 10 more years will be the end of the road for him as a working man. Roe, paying in at the same rate, will get \$32 50 a month when he leaves the office for the last time.

Pensions Start in 1942 Take Joseph Blank, already beyond 65 and unable to work. In Joe's case he can't pay a payroll tax so there is a special system for his class, the government paying \$15 a month and the states expected to match it. Thus Joe gets \$30 a month.

The sort of pension that Doe and Roe will get won't start until 1942. Blank's help is due as soon as his state agrees to go 50-50 with Uncle Sam. Unemployment insurance can't be forecast so precisely because it depends largely on what the states do. The government is levying a payroll tax, running to three per cent in 1938, to encourage the states to set up unemployment reserves.

The courts, as well as congress, directly touched the ordinary citizen while house and senate were in session. The Frazier-Lemke bill giving a five year moratorium! against farm foreclosure; the NRA. designed to raise wages of millions of workers, and the railroad pension plan, affectng 1,000,000, went out, all held unconstitutional. A w railroad pension was adopted his session.

CHANCE OF A PARTY OF THE PARTY means

The stout-hearted Texans who declared

Independence on March 2, 1836, at Washington-on-the-Brazos would be filled with pride to know that their efforts have not gone unrequited. Texans, today, are stout-hearted! Today they prepare for a birthday of a hundred years of achievement on the battlefield and in peaceful achievement.

Texas is a land of romance, love and adventure; of progress and memories. This hundredth anniversary will link its airways, seaports, highways and railroads of today with the oleander and jasmine of old-world towns of yesterday!

Texas started on its road of independence at San Jacinto. She fought valiantly through the years for worldly recognition and now is going to give a birthday party for the world, whose respect she has earnestly desired and so courageously

All Americans everywhere revere the memory of the men who contributed to the growth of our common country. We invite them to join us in holding a fitting celebration of the one hundredth birthday of Texas.

Texas is the State it is! Because Texans have made it so! This is YOUR Celebration! It is YOUR State!
