## CISCO COUNTRY FOLK CAPTURED MAJOR AWARDS OFFERED IN THE COUNTY FAIR SHOWN AT EASTLAND

Despite the fact that this has been one of the hardest years to gather and arrange agricultural exhibits, the Eastland county fair, held last Wednesday, Thursday and Friday was one of the best exhibits yet held. The attendance, too, was one of the best. A nice premium list was offered for the best exhibits. A glance over the list below will show that the people of the Cisco country was in the money in a majority of the prizes awarded. In fact, one would believe it was a fair for this part of the county, so conspicuous are the winners who live in this section. The winners were as follows:

C. H. Grist left Monday for Kansas where he will be associated with H. H. Bettis in the ice business, who was formerly with the People's Ice Co. here. Just where "Ceedy" will be located was not determined when he departed, but just as soon as he is located Mrs. Grist and little Barbara Nell will join him.

## Citizen Scores Again in Getting Statement of R. F. C. Activities

In last week's issue of the Citizen, one of our subscribers, writing under the moniker of "John Public" suggested that a statement of expenditures, disbursements, etc., of the RFC activities in Cisco would be of interest to the public, as it would advise the people what was being done with the funds entrusted to the relief committee. As the Citizen understood the communication it was not intended as a criticism of the manner in which the funds were administered, but rather might forestall adverse criticism if the committee should take the public into its confidence by giving the light of publicity to the activities of the relief work accomplished. In other words, we deemed this statement of as much interest to the administrators of the relief fund as it would be to the public.

The little communication has produced the desired effect, and is another achievement for the Citizen. Had nothing been said about the matter it is probable no statement would have been made at this time. The next day after the Citizen appeared Mr. F. E. Harrell, paying officer of the committee, furnished the Citizen a complete statement, so far as practical for publication, which is not only appreciated, but reflects credits upon those in charge of administering this relief fund.

The county, as a whole, has administered the relief measures at less cost than the average county, and the Cisco unit has been handled more economically than any of the other larger towns of the county. This is more to the credit of the local committee when it is remembered that Cisco's allotment of the funds was more than that of any of the towns of the county, yet the cost of administration less than either Eastland or Ranger.

The statement, prepared by Alex Angus, bookkeeper, is signed by himself as bookkeeper; F. E. Harrell, paying officer, and W. W. Gilbert, as administrator, sets forth the sums allotted to each unit, the cost of administration, and the amount and to whom salaries were paid. A supplementary statement shows the local projects fostered and number of persons given work and relief. The names of those benefitted cannot be used for the reason space is not available, but the books are open for inspection where it may be ascertained the names of all who have been given work.

Following is the statement as prepared by the local committee:

TO THE PUBLIC:  
 Information on the administration and disbursement of RFC funds in Eastland county has been given to the press from time to time and the record—

## Arbitration Award For Firing Squad's Damage Is Allowed

At the open session (there were two—open and secret) of the city commission Tuesday night, the commission allowed Mrs. May White \$75 damage for burning the privet hedge on her premises some time ago, by the RFC firing squad. The Citizen has briefly mentioned the demand of Mrs. White on the city for the destruction of this hedge. (The string paper alluded to the hedge as "being scorched.") This sum was the amount agreed on by a two-member vote of the committee of three appointed to arbitrate the damage sustained by Mrs. White. Commissioner Henderson explained that the city was not directing this firing squad, and not responsible, but had agreed to abide by the decision of the committee appointed to arbitrate the damage, and there was no honorable way to avoid it.

Mrs. White stated to the Citizen that the commission had decided to accept the committee's award "not until she had employed an attorney who had prepared papers to file a suit." She stated the city attorney, and those commissioners interviewed, had repudiated the decree of the committee, and refused to allow the damage awarded previous to the meeting Tuesday night. However, it seems that they saw a light when it became known that a law suit was about to be filed. One of the commissioners is alleged to have approached the committee members selected by Mrs. White and informed him that it "was probable the matter might be adjusted at the commission meeting, but to keep the facts from the Citizen."

It seems that after failure to get action on damages for the hedge Mrs. White and Mayor Berry (for the commission) agreed to arbitrate the matter. Mrs. White selected C. J. Daniels as her committeeman, the mayor selected J. B. Ely to represent the city and these two named W. P. Moore as the third member. At the meeting

## "General" Restores The 10 Per Cent To Employes' Pay Check

The Citizen scores again. It has been announced that the "general" has restored the 10 per cent bonus to the salary checks of the employes of the string newspaper. We had a tough job to get the general of the volunteer army in line under the Blue Eagle but now that he has partially, at least, decided to conform to the regulations of the code and the National Recovery Act, the Citizen feels that its labor has not been in vain.

But why take two bites on a cherry, general? The little girl needs the full salary in such cases made and provided. If this has been done it has not yet been conveyed over our grapevine service.

But so far the Citizen extends congratulations, and hopes to chronicle full observance of the code ere long, and that you will have forgotten how "to get around it."

Mr. and Mrs. J. B. Hicks had as their guest this week their mother, Mrs. Hicks of Rising Star, who has returned home.

Daniels and Moore favored an award of \$100, which Ely refused to sanction. To affect an agreement Daniels and Moore agreed to \$75. Ely opposed paying this sum as excessive, but the others, it seems, held out for \$75 as their final decision, which Mrs. White said the members refused to consider on the advice of the city attorney, until preparations were made to sue the city.

The Citizen is not informed what action Mrs. White will take, but we are informed that she will insist on attorney's fees in addition to her damages.

## Dr. D. W. Tyndall Is Elected President Randolph College

At the meeting of the board of trustees of Randolph college Monday the presidency of the school was tendered to Dr. David W. Tyndall, and his acceptance announced Tuesday. The new college head is a younger brother of the deceased president, Dr. John W. Tyndall, whose incumbency was terminated on the beginning of his first term in the tragedy enacted near Altus, Oklahoma, when his car collided with a truck Sept. 4.

The election of the brother of Dr. Tyndall is regarded as particularly fortunate for the school, and meets with perfect approval by all friends of the college in Cisco. It is believed that none other can carry out, to a degree, the ambitious plans of his deceased brother to better results than the new president. His election not only inspires confidence among the faculty and student body, but gives the citizens of this city renewed hopes for the ultimate building of a great school in Cisco.

Dr. Tyndall comes from Savannah, Ga., where he has been pastor of one of the leading churches of that city for several years. He visited Cisco during the past summer, and during his stay assisted in a series of meetings that his brother was conducting at the First Christian church.

At considerable material sacrifice Dr. Tyndall takes the presidency of Randolph, and in accepting the mantle from the fallen educator he states he does so in the hopes that he may be able to carry on where his brother left off.

He and Mrs. Tyndall and daughter are expected to remove to Cisco about the first of November, when he will actively assume the duties of the presidency. He will have the full cooperation of Mrs. John W. Tyndall, who will remain in Cisco for some time, where she will prove an inspiration to the faculty and students of the school.

**BIBLE THOUGHT FOR TODAY**

And the world passeth away, and the lust thereof; but he that doeth the will of God abideth forever.---I John 2:27.

*Love doth not leave thy soul in desolation;  
Love doth not suffer thee to stay in hell;  
Look up, God's angels bring swift consolation;  
Listen to Truth, and hear that all is well.*

Rosa M. Turner.

The invisible realities are the only things that abide. The song of Homer still lives, whereas the world in which it was created has vanished. The thoughts of Virgil still move us mightily, whereas imperial Rome has crumbled. Yet who ever saw a thought? We hear men say "Providence is on the side of the strongest battalions," but how different is the testimony of history. Pilate had all the battalions, yet he has barely escaped oblivion. He is remembered only because of his momentary association with a man "who had no battalions except the invisible ones of truth and right."---Arthur C. Archibald.

**TRUST LAW MENAGE.**

There is serious danger of Texas' anti-trust law being thrown into the discard. The law has come down to this generation as a heritage from some of Texas' wisest and safest statesmen, and it is hardly conceivable that a free state would lightly toss it into the discard just to harmonize our actions to a policy of the federal administration. But that is indicated. A bill already has been reported favorably out of committee to amend or repeal the anti-trust law to make it conform with the NRA. To my mind this is a wanton betrayal of the people. With the tinkering with the law the people will be left at the mercy of trusts and combines to be exploited at their will and pleasure. It is better far that Texas repudiate the NRA than sacrifice this heritage that has come down to us as the one measure to protect the common man from peonage. The NRA will have been a forgotten thing in a few years, but our anti-trust law has been a wall that has kept the invading monopolist from his ad-

vance over the bodies of the people whom it would prostrate.

The Citizen is not informed, at this time, just what the anti-trust bill contents are, but I take it that any tinkering with the bill—whether repeal, amending or suspension—is a wanton betrayal of the people, and destruction of this heritage that is sacred to all who appreciate their liberty as free Texans.

But the American people are always carried on a wave of popular acclaim. It was true during the world war. Now that the federal government has initiated a policy of recovery that no one claims is constitutional, and so far as being Democratic, is about as far removed as the iron governments of Russia during the regime of the Czars. But the country was sick, and appreciating the president's attempt to restore prosperity, we have endorsed this policy, as drastic as it is. But we can carry it too far, and to my mind the sacrifice of a state statute that has been a bulwark in protecting the people against the onslaughts of ruthless monopoly, is asking a too high price for fealty to our president.

But American people, to some extent, are like sheep. Where the self-appointed leaders direct, the herd follows.

The Texas anti-trust law represents the best brains of the state for the past 50 years—men who were real statesmen—not the brand that we are now electing. In the perfection of this statute is represented 50 years of labor, but it can be killed in one measley session of the legislature.

And even Jim Ferguson, who has been the patron saint of the common people, at whose hands he has been the recipient of many honors, is now advocating, not only the tinkering with the anti-trust law to conform to the NRA, but advises the attorney general to dismiss the anti-trust suits now pending.

The Commercial Printing Co. now has the small NRA stickers at low prices. 50 for 10c, 100 for 15c, and 500 for 65c.

**BUSINESS AND BOOZE.**

It seems that some of the dries are beginning to realize that "business follows booze," even the 3.2 variety, which is declared by national statutory enactment to be non-intoxicating. According to reports, many who are regular customers of the merchants of Cisco, Ranger and Eastland, have found some attraction at Breckenridge, Albany and Moran, that did not previously exist. Then, reports have reached the Citizen that Breckenridge merchants are capitalizing on being one of the three oases in the desert of 3.2 libations. Seeing the vast throngs of thirsty Eastlanders who come to the oasis for the beverage that does not inebriate but cheers, those merchants have reduced prices on merchandise to induce the thirsty Eastlanders to spend a part of their cash for the comforts of life than to waste it all for suds.

So, if this plan is successful many will not "put all their money in bags with holes," but spend a part for the necessities of life.

Does business follow booze? It seems that it will if the plan of the Breckenridge merchants succeed.

In the meantime what will the merchants of Eastland, Ranger, Cisco, Rising Star and Gorman do about it? Continue to add the process tax and percentage to their merchandise while their trade goes to the business men living in the oasis?

The Citizen sees in the purported action of the Breckeneidge merchants the grasping of an opportunity that the sale of 3.2 has opened up for them.

But the following from one of our exchanges, the Rockdale Reporter, whose editor is one of the dryest of the dries, both by precept and example, than whom there are no more ardent supporters of the Volstead act and the "noble experiment." The Reporter, over which the Citizen editor once presided, has the following to say about the effects of the legal sale of 3.2 in that section of the state which voted wet August 26:

"We prohibitionists can say what we please, think as we please and act as we please, but the fact remains quite evident that the sale of 3.2 beer is putting a lot of money in circulation—or maybe taking it out of circulation, according to personal viewpoint. Here in Rockdale last Saturday one retail dealer—the Mrosko Cafe—sold 49 cases of bottled beer and 10 half-barrel kegs of draught beer over his counter and tables. At 15c a bottle and 10c a stein—well, figure it up yourself. A Rockdale citizen, coming back from Waco Saturday afternoon, declares he counted fifty automobiles with Bell county license plates coming into Rosebud off of the new Rosebud-Temple highway. Rosebud is wet; Temple and Bell county dry. And the same citizen avers that the streets of Rosebud were so crowded Saturday it was difficult to thread the traffic. Apparently 3.2 beer was bringing a lot of Bell county trade to Rosebud that day."

**Work Started On New Directory For Cisco**

A. K. Wagner, of the firm of A. K. Wagner & Co., of Abilene, is in Cisco for the purpose of issuing a new directory for this city. In fact, the work has already begun. Material is now being collected, and Mr. Wagner is asking the cooperation of the people to make this directory one that we will be proud to use and hand to strangers.

The last directory issued for Cisco was for 1928-29, and therefore is now practically obsolete. This, like former directories, will be a composit volume,

containing the directories of Cisco, Eastland, Ranger and Breckenridge, making a more convenient volume for the office or the home. For the oil belt towns Cisco will be headquarters where the work will be done and copy prepared for the printer, but in each town local people will be employed where needed, Mr. Wagner said.

This company is yet a new institution, but has already successfully published directories for Abilene, Sweetwater and San Angelo, and the samples shown are very creditable. Mr. Wagner stated that so far the people have given him splendid cooperation, and he expects to have the data compiled in the shortest time possible.

**CHRISTIAN SCIENCE CHURCH SERVICES**

"Unreality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 1, including the First Church at Eastland.

The Golden Text is: "The Lord bringeth the counsel of the heathen to naught; he maketh the devices of the people of none effect" (Psalms 33:10).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Teach me, O Lord, the way of thy statutes; and I shall keep it unto the end. . . Turn away mine eyes from beholding vanity; and quicken thou me in thy way. . . Let thy mercies come also unto me, O Lord, even thy salvation, according to thy word" (Psalms 119:33,37,41).

The Lesson-Sermon also includes the following passage from the

Christian Science textbook, "Science and Health with key to the Scriptures" by Mary Baker Eddy: "If men would bring to bear upon the study of the Science of mind half the faith they bestow upon the so-called pains and pleasures of material sense, they would not go on from bad to worse, until disciplined by the prison and the scaffold; but the whole human family would be redeemed through the merits of Christ, through the perception and acceptance of Truth. For this glorious result Christian Science lights the torch of spiritual understanding" (page 202).

**The Right Spirit**

The following local item appeared in the Eastland Telegram, and reflects the local spirit, which we would like to see universally practiced by Cisco people:

One of our citizens attended the

World's Fair recently. Upon their return the wife of the business man was asked if she purchased any clothes and so-forth while in Chicago. She proudly stated: "I certainly did not. I bought everything right here in Eastland before I left and am glad of." That's true loyalty and deserve the applause of all concerned.

**Patterson Cut Pay**  
Of Court Reporter

In keeping with the general trend of economy in public office Judge B. W. Patterson, a few weeks ago, decreed the salary of the court reporter of 88th court should be reduced from \$3,000 per year to \$2,400. Even with this material cut the court reporter will be able to keep the wolf from breaking through his portals.

**THE TRUTH ABOUT ... ICE!**

**DID YOU KNOW** that ice you are paying 60 cents per hundred for in Cisco is being hauled 40 miles and more to Santo, Gordon, Mingus and other towns east of Cisco, and sold for one-third the price you are now paying locally. Your local company hauls ice to dealers they have appointed, furnish them the boxes, sell them the ice at 10 cts. per hundred, delivered, they then sell it at 20 cents retail.

We haul our ice from Thurber, Texas, and because the plant we get our ice from continues to let us have their ice, hence the low priced ice going into that territory from Cisco.

There have been numerous reports out—that we have quit business, and that we are selling third grade ice. There is no such ice made; there being only clear ice, number one grade, and white ice number two grade and we handle only clear ice. And we have not quit business, but our business is growing each day.

We have several affidavits duly sworn to as to the above statements, and can be seen at our plant room on Broadway.

We are in the ice business; we built our building for this purpose, and will continue to sell you the best grade of ice that money can buy, at 40 cents per hundred pounds. When we close or quit business we will notify you through the papers. Our help are all grown men, with dependents, and we employ no school children.

We will handle ice through the winter months, and hope to be able to deliver to your home by next spring. We appreciate your patronage, and trust that you will show this to your friends.

**Fifth Annual Exhibit  
Rabbit Raisers A Big  
Hit At Eastland Fair**

The fifth annual exhibit of Eastland County Rabbit Raisers association was a real feature at the Eastland County fair, held in Eastland the past week. The largest number of exhibits yet shown were entered in the show. The rabbit raisers of this part of the county were in the money in several contests, but the preponderance of awards that come to exhibitors from the Cisco country were not as noticeable as the winners in the agricultural and women's departments of the fair itself. Those awarded prizes from Cisco were:

John A. Garrett, who was fifth on Standard senior Chinchillas; first on Standard Chinchillas 6 to 8 buck; third on New Zealand White senior buck Fred Grist was first on H. W. Chinchilla doe; Leonard Eppler was third on N. Z. White senior doe.

Exhibits were entered from as far south as Waxahachie and Houston, and as far north as Pampa, as well as several from near by towns outside of Eastland county. T. L. Owen, for the American Rabbit and Cavey Breeders association, judged the entrants.

**CHURCH OF CHRIST WILL  
BEGIN REVIVAL MEETING**

The congregation of the Church of Christ requests the Citizen to announce the beginning of a week's revival meeting at that church, located on Broadway and Avenue H, Monday evening, October 2. Services will be held each evening, starting at 7:45. Mr. H. F. Oliver, of Austin, will do the preaching.

Mr. and Mrs. E. F. Bender, accompanied by Miss Esta Duncan, have returned home from the Century of Progress fair at Chicago. They were away three weeks. En route they visited relatives of Mrs. Bender at Daltart and Denver, and while returning home they were guests of relatives of Mr. Bender in St. Louis. They also made short stops at Hot Springs, Ark., and other places.

The fire boys were the recipients of a handsome radio, presented by H. S. Drumwright this week. The present was as much a surprise as it was appreciated, as the members of the department were contemplating the purchase of a radio.

A baby girl was born to Mr. and Mrs. W. M. Evans, Saturday afternoon, 7½ pounds. The little Miss has been named Lena Mae.

A message announcing the death of T. E. Hart, called Mr. and Mrs. W. S. DeRossett and Mrs. Leota Ray to Archer City Monday. Mr. Hart was the husband of Mrs. DeRossett's sister.

The entire county aided a total of 6,190 cases to the end of July, and in August the segregation is as follows: Direct relief to 236 families, representing 853 persons, at a cost of \$1,250.76; work relief to 1,772 families, representing 7,015 persons, at a cost of \$9,834.95; direct relief to 18 single resident persons, at a cost of \$84.09; work relief to 205 single resident persons, at a cost of \$932.60, and direct relief to 159 transients at a cost of \$149.47.

Respectfully submitted,  
F. E. HARRELL.
