Native Of Cisco Fatally Wounded In Gun Accident

Funeral service for Mrs. J. C. DeMoss, 47, a native of Cisco, was held at 2 p.m. Monday at the Owens and Brumley Funeral Home chapel in Wichita Falls with Rev. M. O. Evans, pastor of First Baptist Church, officiating. Burial was in Crestview Memorial Park.

Mrs. DeMoss died Saturday morning, Jan. 2, at her home when a shotgun accidentally discharged, wounding her in the head. Red Slack, justice of the peace at Holliday, ruled death was due to an accidental gunshot wound.

Born Nov. 26, 1917, Mrs. DeMoss is survived by her husband, J. C. DeMoss; two daughters, Lanette Babb and Sharon Babb, both of Holliday; her mother, Mrs. H. H. Hageman of Cisco; one brother, Henry H. Hageman, Jr., of Irving; and four sisters, Mrs. Lane Gilmore of Cisco, Mrs. R. L. Davis and Mrs. L. D. Philpot, both of Fort Worth, and Mrs. D. J. Jobe of Sedalia, Mo.

Palbearers were W. H. Todd, Ray Sanger, W. H. Gibbons, D. A. Lowder, C. W. Alderman, Jack Frost, L. D. Vandergriff, and Roger Lewis.

Mr. Johnson, Sr., is a native of Salina, Kansas and has lived at Albuquerque since 1934. He finished high school there and attended the University of New Mexico and a commercial school. He worked for the telephone company for three years before WWII when he enlisted in the Air Force signal corps.

Following the war, Mr. Johnson established and sold two large grocery stores and, in 1947, entered the real estate business. His success in this field included handling two of the largest sales ever made in New Mexico — both ranches that sold for five million and ten million dollars, respectively. He owns a large entertainment center in Albuquerque.

"We are looking forward to doing business in Cisco," Mr. Johnson said. "We invite criticism and suggestions."

100 Student Jobs Are Available At CJC For New T-V Courses

Three new full-time programs will be inaugurated by Cisco Junior College's Technical-Vocational School as the spring semester opens on February 1, 1965, according to an announcement by President G. C. Hogue.

Registration for the semester has already started, and prospects are good that spring enrollment will exceed 450 students, Mr. Hogue said.

The new programs are: Industrial Drafting Technology, Industrial Engine Technology, and Industrial Welding Technology. Director L. E. Jenkins of the T-V School said that each program would require four semesters or two years for completion and an Associate of Arts degree.

The college will have fully equipped shops in readiness for the engine and welding courses, Mr. Jenkins said. The drafting courses now being offered will be expanded for the new program, he added.

Eligible for the new programs are students or individuals at least 18-years old with a high school education or the equivalent. High school drop-outs or those who have not been able to continue their high school education will be accepted on approval for certain phases of any one of the technology programs, according to Mr. Hogue.

Approximately 100 jobs for students in the programs are tentatively planned on the campus of the college, Mr. Hogue said. These will be under the College Work-Study Program of the Economic Opportunity Act. This means that students needing financial assistance may work while attending school and meet the majority of their total expenses, Mr. Hogue explained. This will include room and board, he added.

In addition, CJC has National Defense Student Loans available to students, Mr. Hogue said. The college offers a fully accredited program leading to degrees in virtually any field.

The T-V School also has started enrolling students for the Electronic Data Processing program for the spring semester. Anyone interested in the T-V programs or in the regular academic courses was invited to visit or write the Registrar or T-V School Director at Cisco Junior College.

Purpose of the meeting is for a general discussion of matters vital to the community and its future, Mr. Webb said. He added that the meeting would be open to the general public.

"We are anxious to work with the Chamber of Commerce for the betterment of our community," Mayor Webb said. "Any civic minded citizen will find a warm welcome at the meeting. We hope through this and probably future meetings to find ways of working together on matters that could mean a great deal to our community."

Mr. Webb complimented the new CofC idea on holding a quarterly board meeting at night with the public invited to attend. Bob Elliott, new CofC president, suggested the plan and it was adopted by the board.

FIGURES RELEASED by the First National Bank the other day shows that their resources and deposits were in real good condition at the end of the year. Deposits were up from \$4,915,803 to \$5,006,020 for the year, and resources gained from \$5,462,303 to \$5,950,200.

The condition of the bank is regarded as a good barometer of business conditions generally in a community.

PRESIDENT Bob Elliott of the Chamber of Commerce suggested to the new board that once each quarter they hold a public meeting at night instead of the regular noon luncheon. The directors liked the idea, and plans are going forward to carry it out.

This could be kind of a town hall type of meeting with people invited to talk about anything on their minds of good to the community.

Dr. E. E. Adcy, who retired after two years as president of the CofC, is due an expression of thanks from us all for his work. During that period he took up a lot of time on community affairs and directed a busy program of things that stand to benefit our town generally.

WHILE WE'RE taking our hats off let's do so and say thanks to local Jaycees for their help in the Christmas program. These hard workers put up and took down the street decorations. They spent a good many hours last weekend taking down the trimmers and so forth.

The town was mighty attractive during the season — thanks in no small part to the Jaycees.

SHERIFF LEFTY Sublett and Constable A. W. Dawson rode out to Lake Bernie last Sunday afternoon and arrested eight men who were busy shooting dice. Justice of the peace W. L. Lewis fined each \$29.50 each. JP Lewis reports that District Attorney Perry Brown plans to be in Cisco every Friday to try justice court cases for him.

The touring Ciscoans, Mrs. F. D. Wright and Missary Jane Butts, were supposed to have spent Jan. 4 and in Saigon. They were in dia during Christmas.

A NOTE FROM the Jimmy Fitzgeralds of New York City, no used to live here, reports at all is well. The fall season was delightful with trees solid orange, yellow, brown, red and green. At Christmas, they crossed the new Verrazana — Narrows bridge between Brooklyn and Staten Island. It's the longest suspended bridge in the world. They saw Robert Kennedy live near Captain Kangaroo of television. They enjoyed cards and pictures from Cisco during the holidays. Guess you saw the picture of the two Fitzgerald boys with footballer Y. A. Tittle in yesterday's Press.

he said, and the thing is to be really ready when one comes along. Those who are, win. He cited Marshall, Tex., as an example, where one man has led the industrialization program so successfully for the town that he can't afford to leave even for better pay because he has so many good "suspects" working.

Clark briefly outlined the function of the state commission, pointing out that it is a small-budgeted, small-staffed organization, whose goal is to coordinate the work, efforts and ability of the some 217 professional industrial developers and hundreds of civic-minded individuals such as those at the meeting, in working toward the common goal of bringing industry to the state.

"We're in the information, not action, business," he said. The state's broad advertising program, only recently begun, resulted in 275 inquiries last year, with three definite plant locations resulting. This week a Texas film, financed by private enterprise, will be previewed. Advisory Council Offers Ideas On Social Security

Following some 18 months of study, a 13 person Advisory Council has reported its findings and recommendations to the board of trustees of the social security trust funds, says R. R. Tuley, Jr., social security district manager, Abilene.

Major recommendations, some or all of which may be considered by Congress, included these:

1. A program of hospital insurance for the aged and for those with long-term total disabilities, using the method of contributory social insurance. (One member dissented from this proposal.)

2. A change in the benefit formula for retirement, survivor, and disability benefits, with a resultant increase of from 7 to 15 per cent in present social security checks.

3. Increase the maximum creditable for social security purposes from \$4800 to \$6000 per year, and later increase to \$7200.

4. Change the tax schedule for social security to a final top rate of 5.7 per cent (including .4 for hospital insurance) for self-employed. Present law calls for a top of 4.625 per cent, each, for employees and employers, and 6.9 per cent for the self-employed.

5. Improve benefits for men who retire before 65 so that their rates will be the same as women's.

6. Continue children's benefits past age 18 to age 22 if the child is still in school and unmarried.

7. If a widow is disabled before her husband's death, or before her youngest child reaches age 18, or becomes disabled shortly thereafter, begin her benefits prior to age 62.

8. Extend social security coverage to self-employed doctors of medicine; also extend coverage to interns as employees of hospitals.

Persons desiring more detailed information about the recommendations of the Advisory Council may write the Abilene Social Security Administration district office as Tuley will have a limited supply for distribution on a first come, first served basis.

Natives of the Solomon Islands captured the English ship Dancing Wave in 1876 and ate all except one of the crew, who escaped and reported the incident.

NEW EAGLE SCOUTS WILL BE HONORED AT JAN. 14 DINNER

Twenty-five Boy Scouts and Explorers who have earned the rank of Eagle Scouts during 1964 will be recognized for their achievement when the Comanche Trail Council, Boy Scouts of America, holds its annual recognition dinner on Thursday, January 14, 1965 in Brownwood, Carl Arnsperger, chairman of the advancement committee for the eight county Boy Scout council announced this week. The dinner program will be held in the Starlight Roof of the Browntowner Motor Inn.

The rank of Eagle Scout represents the finest in leisure time training for boys character development, citizenship preparation, and physical fitness. The Scout who earns the Eagle Scout Award advances in rank from Tenderfoot to Second Class then for First Class as he prepares himself for life in the out-of-doors by participating in the program of his Troop and Patrol with his buddies.

Here he begins carrying out the ideals of service to others which is the mark of a true citizen. Then he starts work toward "merit badges", giving leadership to younger boys, and more adult-like and meaningful conservation and service projects. A minimum of one year is required between First Class and Eagle, during which time the required 21 merit badges must be earned and service rendered. Although he may choose from more than 100 merit badge subjects covering vocational and avocational subjects, he must earn 11 required badges in the fields of: camping, cooking, first aid, swimming, life-saving, personal physical fitness, safety, nature, soil and water conservation, citizenship in their community, and citizenship in the nation. King Ranch Book Is Reviewed At Rotary Luncheon

A review of Tom Lea's two-volume book on the King Ranch of South Texas was given by W. B. Wright as the program feature Thursday at the weekly luncheon of the Cisco Rotary Club at the Victor Hotel. Mr. Wright described the book as a work of art, complete with records, pictures and photostats of the ranch. The huge ranch was founded in 1853 by Captain Richard King when he bought 15,000 acres of Spanish Land Grant property at two cents per acre. The ranch now is composed of 726,924 acres of land and is regarded as one of the most successful livestock ventures in the world, Mr. Wright said.

Guests for the meeting included Dr. Robert Cluck of Dallas and Mr. Kenneth Cooper and Mrs. W. B. Wright. Greg Graham and Ed Stuart were introduced as the Cisco High School student guests for January.

President Oz Gerrard announced that the club's board of directors would meet next Thursday morning.

REESE WILL SPEAK

The Rev. Bob Reese, pastor of Calvary Baptist Mission, will speak at a meeting of the Men's Brotherhood of the East Cisco Baptist Church at 7:30 p. m. Monday at the church, according to an announcement. The meeting is open to all men interested, it was said.

ALTAR SOCIETY

The Holy Rosary Altar Society will meet in regular session Tuesday evening in the Parish Hall, according to an announcement by the president, Mrs. John Torres.

Eagle Scout is prepared for responsible, participating citizenship.

Boy Scouts and Explorers to be honored January 14 include the following: Eastland — Steve Lund, Chris Pryor, Jerry Franklin and Charles Moseley. Ranger — Richard Herweck and Jimmy Ratliff.

ARBOR DAY IS PROCLAIMED FOR TEXANS ON JAN. 15th

Arbor Day, by official proclamation of Governor John Connally, will be observed in Texas, Friday, January 15.

Governor Connally in his proclamation said, "By resolution of the 51st Legislature, the third Friday in January each year was designated as Arbor Day. It was set aside as a day to encourage the planting of trees throughout the State, for pleasure and use of its citizens.

Trees provide Texans with many benefits. From our forests come fibre and wood for our daily needs, with employment and payrolls important to the economic growth of our State.

Trees also supply food and cover for wildlife, aid in regulating stream flow, protect soil against erosion by water and wind, and provide scenic beauty to our landscape.

The economic progress of our State is, to a large extent, dependent upon the forests, a renewable resource.

To perpetuate this gift of nature our forests need protection from wild forest fires, insects and diseases.

Assisting in the protection of our useful and beautiful forests is the Texas Forest Service, a part of the Texas A&M University System; this year it is celebrating its Golden Anniversary.

"THEREFORE, I, as Governor of Texas, do hereby designate Friday, January 15, 1965, as ARBOR DAY in Texas, and urge all citizens, especially the public schools, to appropriately observe this occasion in the interest of our State and Nation.

Arbor Day was first observed in Nebraska, January 4, 1872. In Texas the occasion was first celebrated February 22, 1889, in the community of Temple. Now, 72 years later, this tree-lined city is a memorial to all men who protect and replenish rather than destroy this natural resource for future generations.

This year, as in the past, the Texas Forest Service will assist schools and other organizations in arranging special Arbor Day programs.

PATTERNS FOR PROGRESS IN COMMUNITY DEVELOPMENT

Today many Towns are "waking up" to Community Development

Everywhere you go these days you see towns engaged in or planning "community development." These activities range from simple clean-up programs to business modernization, new schools, hospitals, public buildings and recreational facilities as well as commercial and industrial promotion . . . making the towns better places to live, work and play. In 1965 we will run a series of ads which will picture and describe examples of community development now taking place in our service area. This is part of our area development program in which we are dedicating our efforts to assist the towns we serve to grow and progress. Growth-conscious towns are invited to contact their local WTU manager for the services of our area development representatives.

Early Vehicle Inspection Urged For Area Motorists

AUSTIN — Col. Homer Garrison, director of the Department of Public Safety, has encouraged Texas motorists to "start the new year with a safe vehicle" by securing the 1965 vehicle inspection sticker without further delay.

The Public Safety Director said that approximately one-half of the inspection period has expired and only about one-fourth of the vehicles in the state have been inspected. He added that unless the inspection pace is stepped up, motorists may expect to find the usual waiting lines at the inspection stations when the April 15 deadline approaches.

"The inspection stickers for

1965 have been available since September 1," Garrison said, "allowing ample time for all vehicles to be inspected without delay prior to the deadline. There can be no extension of the deadline and vehicles not displaying the new sticker will be in violation of the law after April 15."

There are 14 public inspection stations and one fleet station in Eastland County, Carl Boustead of Eastland, Motor Vehicle Inspection Patrolman, has announced.

They are:
Gorman: Smith Brothers Chevrolet; Rising Star: Butler Motor Co.; Cisco: Rutherford Chevrolet, Graham Motor Co., Huffman Motor Co., and Booth's Garage; Eastland: Allen Auto Repair, Hood King Motor Co., Muirhead Motor Co., City Garage, and Fullen Motor Co.; Ranger: Anderson Chevrolet Co., Crawford's Garage and Mission Garage.

The Lone Star Producing Co. station at Ranger is the one fleet center and does not accept public vehicles for inspections.

Territory covered by Boustead includes Eastland, Callahan, Stephens, Shackelford,

Brown, Coleman and part of Taylor counties.

Patrolman Boustead urged county residents to have their vehicles inspected early for their own convenience as well as the inspection stations, to avoid the last-minute rush.

Texas now has more than 5,200 authorized inspection stations over the state. According to Garrison, these stations are ready and capable of handling the remaining un-inspected vehicles without delay provided vehicle owners do not wait until just a few days before the deadline.

He pointed out that the basic function of vehicle inspection is to detect and correct vehicle defects that might cause an accident. He said that last year vehicle defects contributed to fewer traffic accidents than ever before in Texas.

Lady Bowlers Will Hold Annual Dinner

The Eastland County Bowling Association will hold their annual banquet at the Victor Hotel in Cisco at 7:30 p. m. Friday, Feb. 12, according to an announcement.

President Helga Tiner of Eastland announced that arrangements were in charge of Mrs. Wanda Strother and Mrs. Betty Maynard of Cisco. Trophies for the county tournament winners will be presented as a highlight of the program.

Texas has 6,500 oil producing firms.

Discover the difference in the '65 Chevrolets (As different from other cars as they are from each other)

CHEVROLET - As roomy a car as Chevrolet's ever built.

When you take in everything, there's more room inside this car than in any Chevrolet as far back as they go. It's wider this year and the attractively curved windows help to give you more shoulder room. The engine's been moved forward to give you more foot room. So, besides the way a '65 Chevrolet looks and rides, we now have one more reason to ask you: What do you get by paying more for a car—except bigger monthly payments?

CORVAIR - The only rear engine American car made.

You should read what the automotive magazines say can touch its styling. They say if you haven't driven a new Corvair Corsa with a 180-hp Six Turbo-Chargaarged! think there's nothing else this side of the Atlantic that you just don't know what you're missing.
