At a meeting at the chamber of commerce Friday afternoon, called by General Chairman Nick Miller to finish the organization for the Christmas trade campaign and street lighting event, further committees were appointed to care for the various phases of the program, all of which will be under the general supervision of the executive committee as published in Friday's issue of the Cisco Daily Press.

At the above committee meeting four subcommittees were appointed as follows: Finance committee—W. J. Leach, chairman, with all executive committees as members. Ticket committee—H. S. Drumwright, chairman; Geo. Boyd, A. D. Anderson, Pete Nance. Lighting Committee—H. H. Monk, chairman; Jack Elkins. Arrangements Committee—Charles Sandler, chairman; Paul Culp, A. G. Tuttle, E. P. Crawford. Treasurer and Gifts—J. D. Lauderdale.

Advertising and Publicity—A. G. Tuttle, chairman; W. H. LaRouque, Ralph Glenn and Edward Lee. The drive for raising funds will start Thursday, Nov. 13.

Santa Claus will make several appearances during the month. He will visit the ward schools with candy, displaying the Shetland pony that is to be given away in some manner not yet determined. He will also visit Putnam, Moran, Seranton and other neighboring communities.

The committee will meet Santa Claus in Ranger and bring him to Cisco in an airplane, where he will be met by Mayor Mitcham, who is chairman of the reception committee, the band and fire department. He will be brought from the airport on a fire truck and will enter a parade formed at the Daily Press office. All businessmen will enter the parade with their names on their cars or banners.

The mayor will be asked to proclaim a ladies' night and a men's night. These nights will be set apart for shopping. Any lady seen on the street on men's night will be jailed and fined. Men will meet the same fate if they are out on ladies' night.

Increased lighting will be on the main business thoroughfares, from overpass to Christian church on Eighth street, and to E avenue on Sixth and Seventh streets.

SHOCKEYS FIND PLEASURE IN BUILDING THEIR HOME -- HENCE NO IDLE HOURS ON THEIR HANDS

The beautiful yellow brick home of Mr. and Mrs. C. A. Shockey on Eighth street in Belmont addition shows to be one of the best kept homes in Cisco. The neat front and side lawns, with their shrubs, flowers, trees and strawberry beds, all carry out the first impression one gets of being well-kept.

Mr. Shockey, who is an engineer for the Humble company, decided a few years ago that it was time they were settling down in their own home. Finding that Mrs. Shockey was of the same opinion, they picked out this place which happened to be for sale at that time. They immediately began building more walks and laying out little nooks that make a home out of a house.

On the wide lawn east of the house, the grass is neatly mowed and is dotted with shrubs, with a climbing rose set at either end. Just back of this are rows of fruit trees and black and dew berries, with a well-mulched bed of strawberries. A row of grapes has been trained on wires. Peach, plum, apricot and apple trees are scattered here and there.

In the back yard a large fish pond teams with vari-colored fish. Lilies surround the pond in an artistic way. A well-trimmed hedge surrounds the yard proper, with a native stone wall on the west which protects the place from flood waters from street gutter overflow. Flowers are blooming here and there. Sweet peas are already up and Mrs. Shockey is planning to protect them from extreme cold in order to have early sweet peas.

The double garage shows the same well-kept condition. Every tool that a town farmer could possibly need is arranged in order. The work shop at which Mr. Shockey spends so much of his idle time is equipped with electric tools, used to make the many little stands and whatnots to be found in this home.

Mrs. Shockey takes delight in showing you inside her home, where everything is in its place. You see a lovely crocheted bed spread and she tells you that Mr.

Shockey made it. Also the rag rugs on the floor were made by his artistic and busy fingers.

One leaves with the thought impressed that there is no need to ever feel lonely or restless when there is so much entertainment that one could find in making use of the idle hours, when we are wondering how we are to pass them off. The Shockeys have found the secret of happiness for old age when it comes—working at and enjoying their home.

Oyster Supper Held Friday at Fire Station

An oyster supper was enjoyed by members of the fire department of Cisco in the fire station Friday night. Bill Sledge, fire chief, was master of ceremonies.

Piano music, played by Ray Judia, was much enjoyed during the evening. A few games of dominoes were other entertaining features.

Request was made by Miss Marie Tune for the women present to offer their help in the Red Cross work for knitting and sewing. Helpful talks were made by members.

Those attending were Mr. and Mrs. Bill Sledge and family, Mr. and Mrs. B. B. Hurst and son, Mr. and Mrs. Arlin Agnew and son, Mr. and Mrs. J. J. Collins, Mr. and Mrs. M. B. Osburn, Mr. and Mrs. C. K. Padgett, Mr. and Mrs. Clyde Weathers and family, Mr. and Mrs. L. D. Steffy and daughter, Mr. and Mrs. C. L. Tune, Mr. and Mrs. James Huddleston and son, Mr. and Mrs. Spurgeon Parks, Mr. and Mrs. Willie Theford, Mr. and Mrs. John Smith, Mr. and Mrs. Dick Thacker, Mr. and Mrs. Ray Judia, Cecil Lamb, W. O. Whorton of Albany, Miss Marie Tune and Mr. and Mrs. Curtis Saunders.

BAPTISTS WILL HOLD ARMISTICE SERVICE AT CHURCH SUN. EVE; FLAG CEREMONY, SPECIAL MUSIC

An unusual Armistice service will be held at the First Baptist church tonight, it was announced Saturday. Special songs and a Boy Scout entourage will be a part of the service. Special songs by the choir will be features of the usual good music heard at this church.

The pastor, Rev. Judson Prince, will preach an Armistice sermon on the text, "God Bless America." Miss Billye Cole will sing Irving Berlin's famous song by the same name.

Preceding the sermon flags will be born down the aisles by scouts of troop No. 49, at which time members of the congregation will give both Christian and American pledges to the flag.

The church cordially invites the public to attend this service, hear the message and songs, and witness the ceremony.

RAF SWEEPS 2 CONTINENTS IN OFFENSIVE

Great Britain's Royal Air Force smashed at the Axis from Berlin to north Africa in the greatest aerial offensive of the war today, but suffered the highest loss of planes—fifty-two—since the war began.

The air ministry said in a communique that 37 bombers were lost, due chiefly to sudden storms, during last night's raids, and the official figure would not change immediately, although two of the missing craft later returned to the home base.

This afternoon the air ministry said that fifteen more British and four German planes were shot down during the sweep over the French coast. London described the raids as "satisfactory," despite the unprecedented loss of airplanes during the night raids.

On the eastern front, the Red army is reported to have halted the German drive against Moscow, and inflicted heavy punishment on the enemy, and had taken the initiative.

Mrs. Geo. Biggerstaff Breaks Collar Bone

The Putnam News reports that Mrs. George Biggerstaff, living on route one out of Cisco, fell at her home the first of the week and was picked up unconscious. A physician was summoned from Cisco who treated her injury after examination found she had broken her collar bone.

It was reported that she had been suffering from dizzy spells, and had sustained several falls previously, which resulted in no serious injury.

Young Vandals Clean Cisco-Hi Windows

Nine boys, aged from 18 years down, were apprehended a few nights ago by the night patrol while in the act of committing minor vandalism by whitewashing the doors and windows of the Cisco high school building. The boys said their home was in Ranger, according to the officers.

All were taken to the home of R. N. Cluck, school superintendent, who gave them the choice of cleaning up the mischief done, or spending the night in jail. They exercised their option by scrubbing off the whitewash, and proved themselves adept window washers, the officers said, and made a good job of it before being released.

The mischief was done about 11:30 o'clock.

BULLDOGS INVADE CISCO FOR ARMISTICE DAY GAME AT CHESLEY FIELD; TEAMS WELL MATCHED

Coaches Murphy and McCasland have been drilling the Lobos early and late this week to get them in readiness for the Armistice day game here with the Ranger Bulldogs Tuesday afternoon at 2:30. The team is in good condition and should play the best game of the season thus far.

The Bulldogs are also said to be in top condition with none out and an open week for practice. Ranger always plays her best with Cisco.

The Lobos are a shade heavier than the Bulldogs but the advantage is with Ranger in speed. That team, which might well be called the Greyhounds this year, may try

MAYOR ISSUES PROCLAMATION ON RED CROSS

Mayor G. P. Mitcham makes the following proclamation designating the period beginning Nov. 11 and ending Nov. 30 as the time for Red Cross Annual Roll Call for the citizenship of Cisco during which period they may renew memberships in this international organization.

The proclamation follows: Whereas, conditions in the world today have necessitated an unprecedented peacetime extension of our army, navy, marine corps, coast guard; and

Whereas, our national civilian defense program necessitates a strengthening of all those services essential to the public health and welfare; and

Whereas, no section of the United States is free from the threat of natural catastrophe or disaster, such as flood, hurricane, tornado, drought, earthquake, fire explosion, epidemic; and

Whereas, the international situation still continues to cause intense distress among victims, making essential American aid to suffering humanity abroad; and

Whereas, the American Red Cross is the only organization in our land equipped and ready, first, to assist, advise and otherwise serve the men of our armed forces and their loved ones at home; second, to carry on in our own and every other community such indispensable welfare programs as Red Cross Public Health Nursing, instruction in Home Nursing, First Aid, Water Safety and all kinds of Accident Prevention, and through the Junior Red Cross in the schools, to act as the medium for service by our young people; third, to render protection and relief in case of the aforementioned disasters, and fourth to undertake the administration of American aid to stricken non-combatants and refugees abroad;

Therefore, I, G. P. Mitcham, mayor of Cisco, Texas, proclaim the period of the 1941 American Red Cross Annual Roll Call, from November 11 to November 30, a time during which the public spirited people of this community, both men and women, boys and girls, should make every effort to support and strengthen the Red Cross by enrolling through our local chapter as members of the Red Cross, or by renewing their memberships in it; and I further proclaim that it is the sense of all of us who are residents of Cisco, Texas that our membership enrollment in the Red Cross must be larger than ever this year, in order to enable this great national organization of ours to meet whatever demands may be made upon it.

A number of members of the local Lutheran church gave Mrs. W. H. Symank a birthday surprise party Friday night. All enjoyed the evening very much.

Mr. and Mrs. C. P. Carey and children of Westbrook, spent several days with their parents, Mr. and Mrs. C. C. Carey, living north of Cisco.

FD PLEA REFUSED BY TOBIN

Daniel J. Tobin, head of the AGL Teamsters' union, Saturday rejected the appeal from President Roosevelt for the striking teamsters to return to work Monday in the Railway Express Agency strike at Detroit, which is now threatening the interruption of the commerce in eight other major cities.

The president acknowledged the receipt of Tobin's telegram with another repeating his request, and saying he had "fully considered" Tobin's answer.

The navy department's ultimatum to the strikers on the San Diego, Calif., defense projects to go back to work, remained unanswered, and government authorities are greatly concerned over the nation-wide railroad strike threat.

ENEMY HOPES VAGUE, SILLY HITLER SAYS

Hitler obviously speaking of the American navy patrol in the Atlantic said at Munich Saturday night where he spoke to a crowd of the Nazi old guard who had followed him through his rapid rise from a common painter to a dictator of a great part of the old world, declared that, "Every German ship has the right to defend itself when attacked."

Hitler spoke sarcastically, and attacked the statement of Stalin, saying: "It's foolish, this vague and silly hopes of the enemy who believe they can undermine Germany's fighting strength at home or at the front."

The beer cellar where the Fuehrer spoke the 18th anniversary of the unsuccessful Munich putsch, was crowded with Nazi of the old guard, some of whom wore brown shirts and others dressed in army, navy and air force uniforms.

Hitler expressed "unbending determination and belief" in Germany's ability to develop defense powers not only of the Reich but of the "whole of Europe."

Hitler scathingly attacked "stupid efforts of certain Americans to create a nightmare in Germany with threats and plans for gigantic armaments.

Praising Germans killed in war, in Munich beer garden cellar putsch and in the present war, Hitler said, "You have indeed conquered."

SAFEGUARDING INVESTMENT.

Looking forward to the next "post-war period," Fortune Magazine's monthly round table says that period "should be primarily concerned with stimulating private investment and employment, as a balance wheel rather than the chief motive power."

With the war just starting, that following period may be farther in the future than we think. Still, it is worth thinking about now, even though we don't know what the situation will be.

One sure thing is that we're going to emerge with a very much larger national debt. And the interest on that debt, not to mention reduction of the principal, will take far more from current taxes than we have been used to. At the same time our money may be worth less, making the big debt payment easier.

The final conclusion of the round table dealt with the importance of preserving private enterprise. The experts recognize that there will have to be government expenditures for military purposes, relief abroad, slum clearance, tapering off war contracts and extending employment insurance. But they maintain that "public expenditure will defeat its own ends if its effect is to dry up private investment." That is the big thing we shall have to keep steadily in mind and guard against.

WAR OF MATERIALS.

People usually think of war in terms of men and weapons, but materials are no less important. Indeed, they might be put first in modern warfare.

The aggressors in this war started with a great quantity of trained man-power and weapons. But they were short of raw materials, and this deficiency has increased with the spread of their operations. They have naturally conquered some materials as they proceeded, but not enough to keep them going at the rate required in modern warfare. The Germans are now engaged in a frenzied drive to the southeast for oil, steel and other resources of the Black Sea and Caspian region, because that is the only way to keep their vast war machine going.

Meanwhile the democracies, thanks to their foresight during the period of world expansion and settlement which occurred mainly in the last century, are well supplied with materials. This group, tied together neatly as the "A-B-C-D" powers, includes America, Britain, China and the Dutch Indies.

The essential materials in their control include oil, tin, lumber, iron, chrome, manganese, copper, hemp, tungsten, jute, cotton and other products. And it is such materials, along with the qualities of the people owning them, that are counted on to save the world for human freedom and enlightenment in this darkest age that the modern world has experienced.

BRIGHT KIDS.

It seems too bad, in some ways, about these "quiz kids" and other precocious youngsters who come into the limelight. They are interesting, and they enjoy showing off, and they may serve as a stimulus to less gifted youngsters; but what about the long-range results? It is well known to psychol-

ogists that childhood brilliancy is deceptive. Often the bright boy or girl flattens out in high school or college. Often, too, those who make a fine record all through their school and college years turn out to be comparative failures in mature life, because their brightness has been superficial, depending mainly on memory.

It should be better understood that merely learning and knowing things is not enough. Scholarship based primarily on memory is, for most purposes, not very important.

IT IS REASONING POWER, PERSONALITY and CHARACTER that are the big factors in life.

CHRISTMAS GIFT FOR MOTHER.

It never comes to Christmas, but I think about the times We used to save our pennies and our nickels and our dimes; And we bunched them all together; even little baby brother Put in something for the present that we always gave to mother.

We began to talk about it very early in December, 'Twas a very serious matter to us children, I remember, And we used to whisper nightly our suggestions to each other, For by nothing cheap and tawdry could we show our love for mother.

Hers must be a gift of beauty, fit to symbolize her ways; It must represent the sweetness and the love that marked her days; It must be the best our money, all combined, had power to buy; And be something that she longed for—nothing else would satisfy.

Then it mattered not the token, once the purchase had been made, It was smuggled home and hidden and with other treasures laid. And we placed our present proudly in her lap on Christmas Day, And we smothered her with kisses and we laughed her tears away.

It never comes to Christmas, but I think about the times We used to save our pennies and our nickels and our dimes. And the only folks I envy are the sisters and the brothers Who still have the precious privilege of buying for their mothers.

Miscellaneous Reception Shower Honors Miss Garrtt, Bride to Be

A miscellaneous reception-shower complimenting Miss Mary Olive Garrett, was given in the home of Mr. and Mrs. W. R. Winston Thursday evening by the women's council of the First Christian church. Miss Garrett's marriage to Sgt. G. Roy Heifrin, Jr., of Fort Sill, Okla., will take place on Thanksgiving day, in First Christian church.

Decorations of chrysanthemums were placed about the rooms. Mrs. Sam Kimmell, Mrs. Laila Smart and Mrs. J. S. Mobley welcomed the guests. Mrs. Blake Stephens presided at the bride's table.

In the dining room the lace-laid table held a patriotic centerpiece of a miniature army tent placed in an enclosure which was guarded by soldiers standing at attention. In the archway giving entrance to the enclosure, stood a bride and groom. Red, white and blue candles in candelabra gave radiance to the scene. Mrs. J. F. Benedict and Mrs. James Haynie presided at the silver tea service. Misses Jane Moore, Mary Sue Mobley, Mary Elizabeth Wright, Betty Lou Powell and Mrs. Marston Surles passed refreshment plates to the guests.

A program in which piano numbers were played by Mrs. Ben Krauskopf and a vocal solo sung by Mrs. Randolph Lee Clark was presented. Mrs. Troy Powell then gave a clever rhyme exhorting the bride to make use of the mail-order houses and told the benefit of the installment plan; a large mail box was brought in and presented to the honoree. The box was opened and contents were displayed to the assembly. Those attending were Miss

DOUBLE FOR YOUR MONEY

---that's what we're getting! Twice as much Electric Service for what we used to pay for lights alone

NOW that the season is open, duck hunters will be shooting for doubles. Getting two birds with one volley means getting double for your money... something to brag about.

And something to brag about, too, is the electric service you're getting for your money!

You may not realize it but it's about the biggest bargain you can buy today. And it's about the only thing that has continued to go down in recent years while most everything else has been going up.

Why do we say you may not realize it? Two reasons. First, the reduction has been gradual, periodical over the last 10-15 years. Second, you may still be paying about the same sized bill.

Now—here's what we are likely to forget:

YOU, IF YOU'RE LIKE THE AVERAGE FAMILY, ARE USING MUCH MORE ELECTRICITY THAN YOU USED JUST A FEW YEARS AGO.

Count up the appliances on the job in your home today—refrigerator? Toaster? Washing machine? Sweeper? Radio? Larger, better lamps? Probably several more. Fact is, if the amount of electric service you're using today were figured at the rate of 10 or 15 years ago, your bill would be two or three times as much as it is now. In all fairness, you'll agree you're getting double for your money. And where is the credit due?

The ultimate aim of the men and women who run this company is to give YOU better service at lower cost. Their training and experience is making it possible. Their payroll is helping our town. And the taxes paid by this organization are essential to our town, our state, and our nation.
