Williamson as Mayor, M'Crea and Paschall, as Commissioners, Are Declared Elected by Commission

NAME OFFICERS NEW AUXILIARY OF LOCAL SOCIETY

At the regular meeting of the commission Monday night the commission canvassed the returns of the municipal election held April 4, and declared the results. J. M. Williamson having received a majority of all votes cast for mayor, was declared constitutionally elected; L. H. McCrea and Crigler Paschall having received a majority of the votes cast were declared elected commissioners for the ensuing two years, all commissioners being present.

John Sherman appeared before the commission asking that his taxes be adjusted on behalf of the trustee in bankruptcy, making the statement that the money now on hand with the trustee of his estate was insufficient to pay the taxes due the city, county and state. This matter was referred to the finance commissioner.

Extension of the sewer system, under certain conditions, was authorized to include the Cisco dairy, and property intervening.

Dr. J. W. Gregory and the city board of health was scheduled to meet with the commission and discuss sanitary matters, but Dr. Gregory, who was present, stated that he was unable to see the members of the board, and asked that the matter be deferred till next meeting. "However," he health officer said, "I have been considerably pepped up by a recent inspection of the premises of our people by the encouragement I received. I was accompanied by Judge McCrea, and we found many clean premises, and others who offered us their hearty co-operation. I have made it a practice to visit all newcomers to whom I have explained the sanitary laws of the city, and all were eager to co-operate with the officers in making Cisco sanitary."

Upon motion of Commissioner McCrea an ordinance was ordered drawn for abating the nuisance of burned buildings being allowed on lots in the city. Sixty days is the limit for allowing this debris on the lots after fires, unless a permit is secured from the commission to extend this time.

Dr. Gregory requested that the dairy ordinance be perfected and put in operation. It was stated that the ordinance was prepared and had been held up only to give the dairymen time to install the equipment to comply with the regulations. This ordinance was then ordered published.

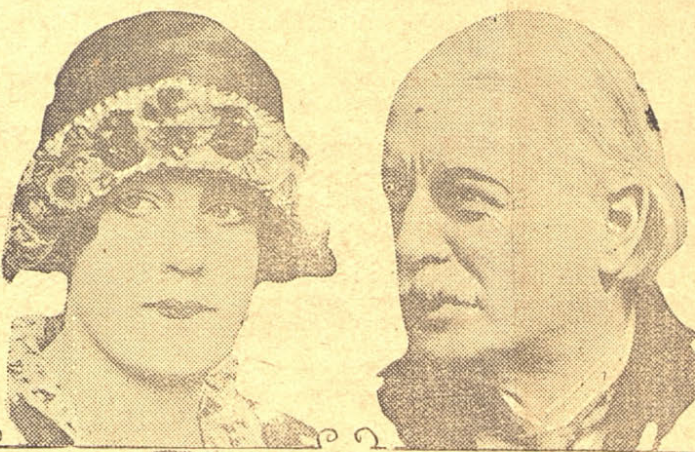

Discrepancies in the rendition of property owned by the W. E. Morris estate was ordered adjusted to that of similar property in the same block.

B. T. Maxwell, of San Saba, appeared before the commission and stated that without his permission other graves had been made on the lot owned by him in Oakwood cemetery, and offered to sell half of the lot to the city for one-half of the purchase price. Favorable action on his plan was being considered, when it developed that the other bodies had been buried on this lot under a misrepresentation. It seems that the party who ordered the graves made told the sexton that he had helped pay for the lot, and pointed the place where the graves should be made. Maxwell denied this, and stated that he did not know another had entered upon his burial lot until last Saturday. The commission instructed the secretary to get in communication with the parties concerned with a view of bringing about a settlement of the matter. Maxwell stated he would sell them half of the lot, and unless they decide to purchase the ground where the graves are, the commission indicated it would take steps to have the bodies removed.

Commissioner Paschall submitted plans for the six automobile stalls at the tourist park, to cost approximately \$800. These were approved, and the street commissioner ordered to proceed with the buildings. These plans call for three buildings with double driveways for cars, and floored apartments on either side that may be used for sleeping quarters during bad weather. It is proposed to charge \$1 per car each night these stalls are used.

The commission then recessed till Thursday night.

Her son Ted, 12 years old, and daughter Susie, 19, are not expected to live.

COLEMAN TO PAVE DOWNTOWN STREETS

COLEMAN, April 14.—Coleman is to have paved streets. Contract has been awarded to Joe McCarthy of Marshall, and work is to be started at once. The present contract calls for the paving of three blocks, the specifications being for brick. The present foundation with 1 1/2-inch application of sand will be the base. The paving is to cost \$1.65 per square yard, and the property owners are to pay one-half the cost and the city one-half. At least 15 blocks in the business section are to be paved before the work is completed. Mayor E. P. Scarborough has announced that, the signing of the contract marks the initial step in an extensive paving program.

HASKELL, April 14.—W. D. Beach, who resides eight miles north of here, was accidentally shot with a pistol. Two dogs were fighting and Beach's son shot at the dogs, missing them, the bullet hitting the father in the leg above the knee. Mr. Beach will recover.

HUMBLE-TEXAS SLASH COASTAL CRUDE 25 CENTS

Announcement of a cut of 25c per barrel in posted field prices of crude oil in the gulf coast fields of Texas was made Monday by the Texas company and Humble Oil & Refining company at Houston. The price has been \$1.75 per barrel, the cut bringing it to \$1.50 per barrel at the wells.

Increased production in grade A crude in the Liberty field and at Smaekover, Ark., is generally ascribed as the cause for the reduction in price.

A cut of 25c on both grades of coastal crude oil was also announced Monday by the Humble Oil & Refining company, making the price \$1.75 for grade A and \$1.50 for grade B. Overproduction is the reason assigned by officials of the company for the reduction in price. This cut was met later in the day by the Gulf Refining company.

RANGER SHUTS OUT HUMBLERS

RANGER, April 14.—Ranger Magnollas, playing errorless baseball, won a shut-out victory over the Cisco Humblers Sunday afternoon at Nitro park, by a score of 9 to 0. Hale and Koch for Ranger pitched nice ball and were given good support. Hale went the first seven innings for Ranger, allowing six hits and striking out eight men. Koch went to the mound in the eighth and struck out four men, allowing three hits. Henson for Cisco pitched good ball, but was given poor support. Henson allowed 17 hits, three of them for two bases, and struck out five men. The Ranger men were able to hit in the pinches, getting six hits and five runs in the fourth inning.

WASHINGTON, April 14.—The American foreign trade for March reached a new high record, according to Herbert Hoover, secretary of commerce, when the volume was eight hundred and thirty-eight million dollars, the highest in three years, said Secretary Hoover. Exports were four hundred and fifty million dollars.

W. S. BRANDON'S SKULL CRUSHED IN OIL FIELDS

Mrs. F. D. Pierce returned to Graham this morning to be with her brother, W. S. Brandon, who is a patient in a sanitarium in that place, having been severely wounded early Saturday morning in the oil fields near Oil City. Mr. Brandon, who is lease foreman of the New Domain Oil Co., was struck on the head by a length of the elevator while hoisting casing from a well. The blow fractured his skull so badly that a portion of the skull had to be removed. Mrs. Pierce was informed soon after the accident and went to him, but returned home Sunday. No reports have been received from the injured man today, but it was stated by Mr. Pierce that the doctors said there was no hopes for his recovery.

Mr. Brandon was formerly at Eastland, and for a year previous to his going with the New Domain at Oil City, was with Spang & Co. at Cisco. He is a widower, but has three grown daughters living in Pennsylvania.

FATHER OF BOB GILMAN BURIED AT MARIETTA, O.

Friends in Cisco received Monday the sad news of the death of the father of Bob Gilman, at Marietta, Ohio. The funeral occurred in that city Monday, according to the wire received here from Mr. Gilman, who was called there on account of the serious illness of his parent. The elder Gilman has visited Cisco several times in past years, and in his passing there is sincere regret. Mr. and Mrs. Bob Gilman have the sympathy of a host of friends here.

FUNERAL OF BRUCE CARROL BEING HELD THIS AFTERNOON

The funeral services of Bruce Carroll, who died Sunday afternoon at 4:30 o'clock, are being held this afternoon at the family home at 501 West Second street, conducted by Rev. A. C. Miller, pastor of the First Baptist church, in which denomination deceased was a constant member. Interment in Oakwood cemetery. At the time of his death Mr. Carroll was 48 years of age.

Texas Company Buys Production in Shallow Field; Taking Over Leases And Production with 1,300 Barrels

A new record transaction in shallow oil production was reached today when the Cisco offices of the Texas Company announced the closing of a deal for acreage and production in the south Putnam pool for a consideration of one-half million dollars. The property conveyed in this deal included the 40 acres recently purchased by John Hoosier of Dallas, from L. A. Warren, and owned jointly by Hoosier and Warren; 20 acres owned by Duffy & Goodloe, and 20 acres owned by Duffy & Moutray.

There are 32 producing wells on the property conveyed, with 1,300 barrels daily production of light oil. This deal, which is the largest yet recorded in the shallow field, was handled entirely through the Cisco offices. The fact that the larger companies are taking over acreage and production in the shallow fields, alone is salutary, and means that this field is now recognized, and larger development than ever will be done in that section. The consideration was cash.

FEDERAL MEN TAKING PART IN MAN HUNT

FORT WORTH, April 14.—Federal authorities had taken a hand today in the search for the murderer of G. M. Rogers and wife on the road near Fort Worth last night. A man giving his name as Bolchie McClain, told the officers he knew the identity of the slayer, and that he himself was a postoffice robber, and was a partner of the slain man. Police found money orders from Hope, Ark., postoffice in his grip. A love feud is blamed for the fatal shooting.

LAMESA TO IMPROVE ITS SEWER AND WATER PLANT

AUSTIN, April 14.—Water and sewer improvements calling for an expenditure of \$35,000 will be made in the near future by the city of Lamesa, according to plans submitted to the state board of health for approval. This includes the laying of 3 1/2 miles of sewer lines, 46 miles of water mains and the construction of a 50,000-gallon reinforced concrete covered reservoir.

FOUR GOVERNORS TO BE AT HOUSTON CONVENTION

RICHMOND, Va., April 14.—Four governors have accepted invitations from Governor Trinkle to attend the joint annual convention of the United States Good Roads association and the Bankhead National Highway association at Houston, Texas, on April 21 to 25, the Virginia executive announced Monday. Governor Trinkle is president of the Good Roads association. In addition to presiding over the convention, Governor Trinkle will deliver the principal address at the dedication of a memorial to Sam Houston on the battlefield of San Jacinto, near Houston. Governors Trapp, Oklahoma; Brandon, Alabama; Whitfield, Mississippi, and Governor Ferguson of Texas are the governors whose acceptances were announced. Senator Mayfield of Texas has also notified Mr. Trinkle that he will be present.

She alleged she was also held a prisoner in his garage. Stephenson charged that he was "framed."

Verbal Tiff

ARTHUR HAYDAY

A sensational scene was enacted in the English Parliament during a debate on the child adoption bill when Lady Astor, former American and first woman member, shouted that if she should tell the house all she knew about Arthur Hayday, Laborite, she would give the house "something to think about." Her remark was made after Hayday offered the suggestion that certain society women "pay more attention to human beings instead of nursing puppy dogs." Upon remonstrance from the Speaker, Lady Astor withdrew her remark.

URUGUAY WAKES UP

At last Uruguay is on the map. It is not only in the geography, but what is far more important, in the newspapers. Athletic prowess has done it.

Uruguay, be it known for the benefit of our ardent but rather provincial American sport-fan, has a soccer football team that has cleaned up everything in South America and almost everything in Europe. It has not yet lost a game. Its latest achievement is a tie game in Paris, where the French, who are very good at soccer, thought themselves lucky not to be ignominiously defeated.

The champion aggregation should stop off in this country for a few games, on its way home. There is no better way of cultivating acquaintance with "the other Americas" than through clean sport; and football is a rather better form of contact than prize-fighting, though no better for advertising purposes.

SELF-CENSORSHIP

Official censorship of films is no longer needed, says Will Hays, advisor to a large part of the motion picture industry. For a year his organization has been practicing a system of voluntary and co-operative censorship, for the elimination of obscenity and unpleasant suggestiveness. Producers and distributors are pledged to look out for objectionable matter. When one of them declines a play or book on moral grounds, it notifies Mr. Hays. If he considers the criticism reasonable, he notifies all the bookkeepers. Thus more than 100 questionable books have been kept from the screen voluntarily. No one, he says, could bring about such results. The only way, however, that there is still a good deal of advertising and misuse of titles, thoroughly reprehensible and must be eliminated. Apparently other industries are still far behind in avoiding public misrepresentations.

C. OF C. DIRECTORS TO MEET TONIGHT AT 7:30

The directors of the Cisco chamber of commerce are called to meet tonight at the chambers in regular session. It is important that a full directorate be present, and to be on hand early, that the business might be transacted with dispatch.

People Avoid You If You Are Pimply

A boy or girl may have ever so perfect a face, neck and poise, but if even one little pimple, blotch, bump or red spot shows, it ruins their whole appearance. You know how true this is, because you just naturally avoid people whose appearance is not pleasing.

These things are no longer to be endured, however, because thousands of people are getting rid of the worst and most stubborn cases of such skin diseases easily and quickly by using Black and White Ointment, and Soap. It seems like magic to eczema, ring-worm, itch, "breaking out," etc.

Dealers everywhere are recommending Black and White Ointment, and Soap, now. They are economically priced in liberal size packages. The 50c size Ointment contains three times as much as the liberal 25c size.

Renewing Our Youth
Being the personal experiences of a Rotarian engaged in Boys Work

The chief object of this article is a brief practical message for the Rotarian and the Rotarian Club "not interested," by a Rotarian who was "not interested" until recently. Our club has been organized eight years, but never really "caught" it until a year ago. Why? Too much general advice; too little specific plan.

How should we start? First catch the kind of boys that needed us. Clean, well dressed, out of good homes, our own and our neighbors' boys? No, I don't think so! Vicious, juvenile court boys? Probably, not unless in a special section, run by men with more brains for it than we have. However, it was our endowed mission that put us in touch with our boys, boys a little better than they wanted to handle in the mission, but largely of foreign parentage so that they did not immediately feel comfortable with the other clubs: Ages eleven to sixteen years, not very clean, decidedly not well dressed, certainly not vicious—just normally full of the devil, that's all.

Last winter we hired a club room, about 30 by 50 feet, very scantily furnished, and arranged two club meetings a week with a splendid volunteer leader, financed by voluntary contributions by Rotarians. The cost was only \$350.00 for all last winter. On the program was basketball

and a few other games, a few short worth-while talks (must be interesting if you want fifty boys quiet even five minutes) orderly club meetings run by the boys under supervision, attendance rules strictly enforced (three absences unexcused—then out).

The Rotary Boys' Club was a success from the start, but the method of financing was not. Last June our club of slightly over one hundred members voted seventy-three to eleven to increase yearly dues ten dollars per member, the entire amount for Boys Work only. First we put the entire Boys' Club in the Y. M. C. A. and organized an inter-club league for four baseball teams, with a schedule running twice a week until September, each followed by a shower and a swim in the "Y" pool and a club meeting. Of course, the baseball was for fair play and team work as well as for exercise and pleasure. In September we put them in Y. M. C. A. "Gym" classes twice a week and furnished each of them with a "Gym" suit.

The Rotary Boys' Club is now limited to fifty boys, with a waiting list of five having all privileges except voting, and a number of boys always waiting to get even on the waiting list. The average attendance is 95 per cent. In August we formed a troop of the Boy Scouts of

America of twenty-five of these same boys, put them in camp for a week and now have a third evening for the Scouts. The Scouts supply their own uniforms and pay very nominal dues. We supply troop property, registration fees, and everything else for the Scouts, and for the Rotary Boys' Club as a whole. The sincerity of the boys in Scout work is noteworthy. "Gym" suits and a free week in camp make expenses heavy the first year, but our budget of \$1,000 per year approximately \$20 per year per boy is covering everything. All our boys were born in the United States. The nationality of their parents runs as follows: Polish, 70 per cent; Jewish, 10 per cent; Italian, 10 per cent; Negro, 6 per cent; Austrian, 2 per cent; Irish, 2 per cent. More than 70 per cent are Catholic. They range in age from the fourth grade up to the first year of high school. We work with the Y. M. C. A. and the Scouts, but always under our own personal supervision. Every meeting of the boys is on an exact time schedule which we have previously planned and the whistle and occasionally the megaphone are all we use in demanding order and discipline.

A year ago their language was bad in most cases—very bad in some. Now it is clean—no profanity, no smutty stories. The boys themselves bring in new applicants, and elect their own members as vacancies occur and they will not accept petty thieves, drones, or any boy who does not "belong with a clean crowd," as the Scout says it. There is absolute fair play, good team work, and no disputing the officials in their games now. Juvenile court has never in the entire year had any of our boys up for offense, although some of them were before it a couple of years ago. We believe that intensive work with fifty or fifty-five boys will have more far-reaching results than work spread too thin over a hundred. The committee cannot really know more than fifty-five on account of the detail. We watch out for health, cleanliness, eyesight, school standing, morals, and tactfully encourage them in their various church affiliations. Among special programs have been a trip to the circus last summer, an auto trip 60 miles to one of the great inter-collegiate football games, a Christmas supper for the boys and the committee at our Rotary hotel, several Scout hikes, trips to regional Scout meetings, and many others.

Soft lovely skin ruined by constipation—let Kellogg's ALL-BRAN bring sure relief

You can permanently rid your system of this harrowing disease.

Constipation leaves its marks upon the face. Its terrible poisons, which lead to over forty serious diseases, cause pimples, hollow cheeks, sallow skin, circles under the eyes and spots before them. Unpleasant breath, too, may be traced to constipation.

Rid your body of this frightful disease. Kellogg's ALL-BRAN has brought health to thousands when all else has failed. The reason—it is ALL BRAN and nothing but ALL BRAN. That is why its results are sure. That is why doctors

recommend it. It takes ALL BRAN to be wholly effective.

Try it! If eaten regularly, Kellogg's ALL-BRAN is guaranteed to bring permanent relief in the most chronic cases or your grocer returns the purchase price. Eat two tablespoonfuls daily—in chronic cases, with every meal. You will like its nut-like flavor. Try the recipes on every package. Sprinkle it over other cereals.

Kellogg's ALL-BRAN is made in Battle Creek, Michigan, and served by leading hotels and restaurants everywhere. Sold by all grocers. Buy a package today.

Broadway Today

"Movie kisses do not have the emotional reaction which they seem to have on the screen," says Constance Talmadge.

"There is absolutely no privacy about a motion picture kiss, and for that reason all of its charm is lost.

"Real love-making does not screen satisfactorily. Only simulated emotion is convincing to the public, paradoxical as that must sound. But every actor knows it."

Constance's latest First National comedy is "Her Night of Romance," which was produced by Joseph M. Schenck.

The picture will be the feature attraction at the Broadway theater today. It is a fast-moving comedy, involving an English lord, a London money lender and an American heiress.

Ideal Today

"The Price of a Party" which opens at the Ideal theater is, to our way of thinking, a really fine picture. It is actionful and many of the situations are startling in their dramatic effects. Added to this, a magnificent cast, which is headed by Hope Hampton, Harrison Ford, Mary Astor, Arthur Edmund Carew, and Dagmar Godowsky, helps to make this a truly splendid film.

TYLER SHIPPING BERRIES

TYLER, April 14.—With prices to growers ranging from \$3.50 to \$4 per 24-pint crate, strawberries are finding an unusually strong market here. From 100 to 200 crates are shipped out daily by express. Many are sold to Dallas buyers who come here in trucks and return with strawberries.

MARY JANE'S MERRY JOURNEYS IN THE ENCHANTED FOREST

Mary Jane Thinks The Pavo Has Reason To Be Proud

"And those who know me," said Mary Jane, "like to have me with them all the time."

IN one of the beautiful gardens of the Enchanted Forest, Mary Jane sat down to rest one afternoon near a lovely white marble summer house. While she was dreaming of all the good times she had had in the Enchanted Forest there stepped over the white railing of the summer house a glittering Pavo, the most splendid of birds, spreading his gorgeous tail and quivering his wings till the colors sparkled in the sunlight.

"Oh!" exclaimed Mary Jane in delight, "you are the wonderful Peacock. If I had such beautiful colors in my cloak I, too, should be very proud."

"You may be proud anyhow, Mary Jane," said the Peacock, "because you do so much good, and because everyone is so fond of you."

"I do all I can to make people happy," said Mary Jane modestly, "and those who

know me like to have me with them all the time."

Then Mary Jane spread a little table in the summer house and made tea. She served the tastiest little ginger cakes made with delicious Mary Jane Syrup, while the gorgeous Peacock strutted delightedly about, leaving not a crumb to be blown away.

"You are a charming hostess, Mary Jane," said the Peacock finally. "There is no one who makes more delicious things."

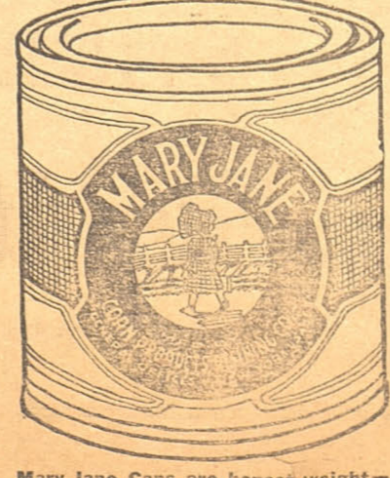

"Oh, thank you," said Mary Jane, "You see I use MARY JANE SYRUP as often as I can. It is not only good to taste," she added, "but it makes everybody strong and happy too. Let your children have plenty of it—and just watch them grow big and strong, then you will have reason to be proud."

A Governor's Wife Who Does All Her Own Housework

YOU remember the story—quite a sensation in the daily papers.

She entertains, she pays her calls, she presides at club meetings—and does every bit of the cooking, cleaning and laundry work in a twenty-one room house.

Marvelous, of course, but most of us marvel, not so much at how she does it, but why she does it. A Governor's wife—the First Lady of the State! Why does she ever do such menial labor?

She doesn't. Housework isn't menial labor in this day and age. Electricity comprises a staff of servants, thoroughly trained and highly specialized. Electricity cleans the rugs, washes the dishes, irons the clothes, cooks the meals.

The housewife is House Manager. She has but to direct the work of the force at her command.
