

CISCO—A home city, a delightful place in which to live; oil fields, rich agricultural lands, cattle, sheep, goats, hogs, turkeys, egg producing hens, feed crops, grain, truck farming and fruits.

THE CISCO DAILY PRESS

COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 4, 1937

An area of wonderful climate, blessed with an abundance of the purest lake water, possessing the best in recreational facilities, situated on the Bankhead, all-weather route, with three railroads and many highways, Cisco is the best place in Texas to live and to work.

VOLUME XXII.

CISCO, TEXAS, TUESDAY, NOVEMBER 4, 1937

NUMBER 46

TORPEDOED, U. S. TANKER REACHES PORT

MITCHAM FOURTH ANNUAL HEREFORD AUCTION SALE IS SET FOR NOVEMBER 12

The fourth annual auction sale at G. P. Mitcham's big home ranch of 3,100 acres, near Cisco, will be held Nov. 12 in the modern barns built to accommodate the big crowds of fancy breeders who come from many states to see and purchase one or two of the fine bulls, heifers or cows that have attracted the attention of these stockmen from the various states.

The show herd has just been returned to the barns from their tour of various fairs and cattle shows. This herd took about \$1,200 in premiums at Corsicana, Dallas and Kansas City, in addition to many ribbons.

About 45 head will be sold at the auction and should net around \$25,000 if they sell at even conservative prices. This group consists of about 30 heifers, 18 of which are already bred; 10 bulls and five cows. They are in top condition and some of them will be cheap at \$1,000 each.

This fine herd of registered cattle is headed by Don Axtell 39th, for whom Mr. Mitcham paid \$4,100 about five years ago. He was later offered \$10,000 for him and says he has been worth \$50,000 to his herd. The first six calves from him brought \$47,090. He was purchased at Manchester, Ill.

Everything is well kept at this ranch. Cleanliness is a motto. The lots are swept clean each day. Cattle are well fed and cared for. The fact that there are now three sets of twin calves in the lots, one set from a 13-year-old cow, another set from a two-year-old heifer, is a compliment to the care for which these cows are subjected. There is another cow on the ranch that will soon be bringing her eighteenth calf.

About 500 grade cattle are kept on the ranch in addition to the registered stock.

Three men are constantly engaged at the barns. There are seven men on farms of 800 acres on this home-ranch. Mitcham owns about 5,000 acres in Erath county.

Wives of these men are also busy helping to carry on. Mayor Mitcham provides the women with either turkeys or a flock of hens. He provides the stock and the feed and the women attend them on a share basis. Mitcham said he sells from 10 to 40 dozen eggs per week. He sold more than 100 turkeys Monday.

SIG ACREAGE FALL LEGUMES TO BE PLANTED

Eastland county farmers will plant the largest winter legume acreage on record for the county this fall, according to the county agent. Most of the legume acreage will be hairy winter vetch, but some Austrian winter peas, sweet clover and bur clover will also be planted.

The vetch and other winter legumes will protect the soil from blowing and washing this winter and help build up the soil by adding nitrogen and humus to it. Most of the vetch planted will be fertilized with superphosphate to stimulate growth.

Among those planting winter legumes are Frank Robertson, Rising Star; A. W. Armstrong, Rising Star; A. A. Hyatt, Carbon; I. S. Echols and Blackwell Brothers, Gorman.

Mrs. W. D. Kilgore and daughter, Delores Kilgore, visited her parents, Mr. and Mrs. H. C. Pelfrey, Breckenridge, over the weekend, returning to their home here Monday.

METHODIST ANNUAL CONFERENCE BE HELD FT. WORTH THIS WEEK; CISCO ASKS FOR SEYMOUR

SATURDAY CAR WRECK HURT FOUR PEOPLE

Saturday night as Mrs. Beulah Surles of Lubbock, accompanied by her brother, Dan Yarbrough of Hobbs, N. M., and her sister, Mrs. W. Tier of Wink, were enroute to Cisco to spend the week-end, their car collided with another car at an intersection near Spur.

Their car was demolished and Mrs. Surles sustained severe injuries. Mrs. Tier was painfully bruised and Dan Yarbrough was very seriously hurt.

They were brought to Cisco and all are in Graham sanitarium, where they are reported doing well under the circumstances.

The report is that the driver of the other car received a broken leg and other injuries.

"NO BLACKOUT OF THE CROSS" TO BE URGED

Dr. Gary Smith, pastor of the First Presbyterian church of Cisco, brought the devotional address for the monthly meeting of the ministerial association Monday morning, his subject being the peculiar function of the ministry in a world of distress and chaos.

Following his address the suggestion was presented that the churches of Cisco, as far as practicable, should cooperate with a nation-wide effort sponsored by the laymen's missionary movement, an inter-denominational organization of laymen, in observing Sunday, November 16, as a special day for emphasis of the theme: "No Blackout of the Cross."

The purpose of this special program is to arouse laymen to a sense of their personal responsibility in making vital the Christian message in our world and, since the suggestion has come from a group of laymen of various denominations, local ministers feel it would be well to pass the idea on to all the churches of Cisco.

RETURNS TO CISCO.

Mrs. W. L. Foy, former Ciscoan but who for several years has resided in Sweetwater, has returned to Cisco to make this city her home. She has taken over the Foy apartments, which she owns, and where she will reside. Mr. and Mrs. Foy lived in Cisco for many years prior to their removal to Sweetwater. Mr. Foy passed away there last summer. He was formerly in the drug business at the location now occupied by Moore Bros.

Miss Frances Pelfrey of McAllen and Mrs. H. C. Pelfrey of Breckenridge visited relatives in Cisco Monday.

At a joint meeting of the board of stewards and the fourth quarterly conference of First Methodist church Monday night, reports were heard concerning the work of the church year which ends with the session of the annual conference to be held in Fort Worth this week.

All financial obligations have been met for the year. The various departments of the church were reported to be showing a wholesome and consistent progress. An official request for the return of the pastor, Rev. Leslie Seymour, has gone from the board of stewards to Bishop Ivan Lee Holt, who will read the assignment of all pastors in the Central Texas conference next Sunday afternoon.

Officers were elected by the board at the meeting last night for next year, all of them continuing in the places they have held this year—Wm. Reagan as chairman, W. J. Foxworth as vice chairman, F. B. Altman as secretary-treasurer and Miss Mina Robinson as financial secretary.

The full roster of stewards as elected by the quarterly conference is as follows: Conrad Alexander, F. B. Altman, A. D. Anderson, J. T. Anderson, George Boyd, Wm. Childers, Dr. F. E. Clark, Jonah Donovan, H. S. Drumwright, J. T. Elliott, Homer Ferguson, W. J. Foxworth, Ed Huestis, W. R. Huestis, Sam King, Neil Lane, R. W. Merket, G. P. Mitcham, J. H. Nance, A. L. Osborne, J. C. Proctor, Wm. Reagan, J. H. Reynolds, J. W. Slaughter, O. L. Stamey, W. B. Statham, W. B. Statham and C. J. Turner.

Trustees of church property are Wm. Reagan, G. P. Mitcham, Jonah Donovan, Geo. Winston and Lee Owens.

Garland (Pete) Nance was re-elected general superintendent of the church school with five assistants—Mrs. L. E. Vaughn, Joe Meador, Sam King, Miss Lela Latch and Mrs. Jimmy Allen. Members elected to the board of Christian education in addition to certain ex-officio members are Mrs. John Shertzer, R. W. Merket, Mrs. Leslie Seymour and Mrs. T. A. Sherrill.

Mrs. John Shertzer and the pastor will be the official representatives from this church to the annual conference which begins in Wednesday night in Ft. Worth with an unusual communion service to be conducted by Bishop Holt. Other members of the church will be there for a part or all of the conference sessions.

One matter of special interest that will be reported on at Ft. Worth will be the new plan, instituted a year ago, for providing a conference fund out of which the smaller churches will be given an appropriation to supplement the salary of the pastor, the purpose of the plan being to establish a basic, guaranteed minimum salary standard for those pastors who, in many instances, have been underpaid. The fund is provided by voluntary contributions from pastors and congregations of medium and larger churches.

ROY MORRISON IMPROVING.

The condition of Roy Morrison, who underwent major surgery in Graham sanitarium last week, is reported improved. He is able to see his friends.

V. F. W. BACKS F. D. R.—Pledging whole-hearted support of his organization behind measures being taken by U. S. Government to preserve and defend American liberty, Max Singer (right) of Boston, national commander of Veterans of Foreign Wars, is greeted by F. D. R. in Capital.

LEADERSHIP IS NECESSARY TO GUARD RIGHTS

MIDLAND, Nov. 4.—Re-elected president, J. Thomas Davis today told the West Texas chamber of commerce convention that business leadership is essential to protect the American way of life.

"If ever rights of property ownership were challenged," he said, "they are today. Business leadership is needed in America to protect our way of life. We must organize for protection and leadership."

State Representative Joe Humphrey said adequate management for the fiscal affairs of Texas must be obtained.

OC TOGENARIAN OF RISING STAR BURIED SUNDY

RISING STAR, Nov. 4.—Funeral was held at the First Baptist church here, at 2:30 Sunday afternoon for J. M. Roach, 88-year-old Rising Star resident, who died Saturday after a brief illness.

The pioneer citizen had resided at the same home in Rising Star for 58 years, was a devout member of the Baptist faith and had been a deacon in the church here more than a quarter century. In the early '20s he gave a Bible scholarship to Hardin-Simmons university, in Abilene. A native of Alabama, he came to Texas when a young man.

Surviving are his widow, to whom he was married in 1901, three children, W. P. and John Roach, Rising Star, and Mrs. Mollie Poe, Breckenridge; two stepdaughters, Mrs. J. A. Beard, Abilene, and Mrs. Lee Brownfield, Big Spring; an adopted son, Warren Bailey, Rising Star; a brother, Bob Roach, Colfax, La., and two sisters, Mrs. Ed Lane, Rising Star, and Mrs. T. A. Smith, Kopperell. The Rev. H. C. Christian, church pastor, and the Rev. Greer Banks, a former pastor, officiated at the funeral, with burial in the local cemetery.

CHINESE CLAIM VICTORY.

SHANGHAI, Nov. 4.—"Annihilation" of 15,000 Japanese troops in Honan province a few miles south of the Yellow river was announced by the Chungking regime Tuesday.

NOV. 8 POPPY DAY

In a proclamation issued by Mayor G. P. Mitcham, Saturday of this week has been proclaimed Poppy Day in Cisco. Mr. Mitcham suggests that citizens observe the day by wearing the memorial poppy of the American Legion and Auxiliary, thus honoring the soldier boys of 1917-18, who offered their lives and bodies for America.

Cisco has always observed Poppy Day in a big way and the event this year will be no exception to the more than 20-year rule.

The women of the American Legion Auxiliary will distribute the memorials throughout Cisco all day Saturday. "Buy with a smile and wear with reverence."

The American Legion and Auxiliary poppies are made by disabled war veterans in government hospitals and in convalescent workrooms maintained by the auxiliary. Many hundreds of veterans, unable to do other work, are given employment during the winter and spring months, their annual earnings exceeding \$100,000.

This year poppies were made in 81 hospitals and 41 workrooms, with approximately 12,000,000 of the flowers being produced.

MISS VAN HORN GIVES WARNING OF MONOXIDE

Miss Blanche Van Horn of the Community Natural Gas company was on the safety meeting program of this district—which includes Cisco, Eastland and Brownwood—last night at Brownwood, with "Carbon Monoxide" as her subject.

"This is one of the most dangerous gases," Miss Van Horn said in her talk, "because it is colorless, tasteless and odorless." Others present from Cisco were C. M. Nevill, manager; J. M. Sauls and U. L. Bennie. There were about 35 in attendance.

MURPHY GAVE DOSE POPEYE'S SPINACH; WON

With the dawn of November, the jinx which seemed to dog the Lobo football team was apparently lifted when Lasater galloped 95 yards for a touchdown at Brownwood last night, breaking a deadlock for the first two quarters of the game when neither were able to score and ending in a 7-0 victory for the Lobos. Bruce Saunders converted.

The Lobos went into the game with the last two defeats bearing on them heavily. The defeat at Mineral Wells, after having scored in the first three minutes of play and apparently having the restorers on their hips, was a sore memory. Lasater and others were badly bruised in that tiff.

By all odds, Stephenville should have fallen an easy victim; but again disaster overtook them, and wounded Lobos depleted the team's power, causing the wrong end of the score.

So, it was none too optimistic fans who followed the pack and invaded the den of the Lions at Brownwood last night.

The first two quarters of the game showed the Lobos as the superior playing team, but somehow lacking the power to turn their advantage into scores.

At the half Coaches Murphy and McCasland evidently poured vitality into them, or perhaps opened a can or two of Popeye's spinach, for on Brownwood's kickoff at the opening play, Lasater received the pigskin on his five-yard marker and galloped elusively through the whole group of Lions for the 95 yards to set the Cisco band, pep squad and fans into a wildly yelling mob.

But the scoring was over. The Lions tried vainly for a come-back. It's Ranger next. On Tuesday afternoon, Nov. 11, the Bulldogs invade the local fair and it would be unusual, indeed, if they did not give their best.

Ranger is showing improvement and it's anybody's game, with the points in favor of Ranger.

CONDITION SERIOUS.

Mr. and Mrs. J. A. Tune returned Monday from Dallas, where they were called on account of the illness of his mother, who had suffered a stroke in the Dallas home of her son-in-law, Sylvester Dossett. They stated that Mrs. Tune is still in a serious condition and only immediate relatives are permitted to visit her.

GERMAN FORCES GAIN

Hitler's armed forces are reported aiming a great new offensive toward the Caucasus route for American supplies to Russia today, and in the Far East there were mounting signs of an early Japanese thrust against the Burma Road supply line to China.

Germans claimed a sweep by Panzer and dive bomber forces over the Crimea peninsula, with the capture of Feodosiya, advance to within 25 miles of Sebastopol and within 60 miles of Kerchenski Straits on a short cut to the Caucasus oil fields.

Russian sources estimated the Axis suffered 90,000 casualties in the Crimea fighting.

At the same time, reports said a new Axis advance was getting under way in the Ukraine, in an apparent attempt to close the pincers on Rostov and seize the oil pipe line essential to Russian mechanized forces and cut the main communications routes to Iran.

CATTLE MARKET

Cattle and calves found very slow market at Ft. Worth Tuesday. Receipts here were heavier than on Monday and buyers were bidding even lower than on Monday for most classes. However, with receipts around the 12-market circuit showing a reduction of some 20 per cent from Monday, salesmen were holding firmly for steady prices and bulk of the steers and yearlings were unsold at 10:30 o'clock.

Hogs were mostly 5 to 10 cents below Monday's levels with the Tuesday top \$10.60 and most best hogs selling at \$10.50.

Early sales in the sheep yards ruled steady. Some choice cattle—steers and yearlings—sold early at \$10 to \$11.50. Common to medium steers and yearlings drew bids of \$6.50 to \$9.25.

Cows were slow with a few sales on early rounds about steady. Good fat cows drew bids and sold at \$7 to \$7.50. Plain and medium butcher cows brought \$6 to \$6.75 and canners and cutters cashed at \$3.50 to \$6. Bull prices were steady at \$6 to \$7.50.

Fat calves of good to choice grades ranged from \$9 to \$10, plain and medium slaughter calves from \$6.75 to \$8.50 and culls from \$6 to \$6.50.

Good to choice stocker steer calves sold at \$9 to \$11.25 with similar heifer calves at \$10.50 down. Common to medium stocker calves cashed at \$6.50 to \$9. Stocker steers and yearlings ranged from \$6.50 to \$9 with a few choice stocker steer yearlings at \$9.50. Stocker cows went back to the range at \$5 to \$7.50.

Hogs sold mostly 5 to 15 cents below Monday's levels or 35 to 60 cents below prices prevailing last Friday. The Tuesday top was \$10.60 but most of the good and choice 180 to 280 pound butchers cashed at \$10.50. Good 150 to 175 pound averages brought \$9.70 to \$10.45. Packing sows were 25 cents lower, mostly at \$9.25, a few at \$9.50. Stocker pigs were weak to 25 cents lower, mostly \$9, a few up to \$9.25.

The sheep trade was slow. Early sales of ewes and yearlings were steady but bulk of the supply was unsold. Shorn yearlings cashed at \$9 and several lots of breeding ewes were reported at \$5.25. Good woolled lambs drew a bid of \$10.

97 OF REUBEN JAMES' CREW ARE GIVEN UP

WASHINGTON, Nov. 4.—The navy disclosed today that another American naval ship, the big tanker Salinas, had been torpedoed and "seriously damaged" in the favorite German submarine hunting grounds southwest of Iceland. The attack came one day before the destroyer, Reuben James, was sunk, with loss of 97 men and officers.

There was no loss of life or serious injury among the Salinas' complement of 107 officers and men, but the navy announcement indicated that 97 of the Reuben James complement was lost.

The navy said all hope of finding the missing men had been abandoned.

The Salinas reached an undisclosed port safely.

She was the fourth U. S. naval ship attacked southwest of Iceland by submarines.

Just what injury the Salinas sustained the navy would not reveal, because it would be of no value except to the Nazis.

This is the second time the Nazi government has been directly mentioned in official U. S. naval communications regarding attacks on American naval ships.

The Salinas was one of the navy's largest auxiliary units. She was under command of Commander Harley Cope who, like the missing commander of the Reuben James, Heywood Edwards, is a native Texan. Cope, 43, was born in Dallas.

CISCOAN HONORED.

Crandall Jones, son of Dr. and Mrs. Chas. C. Jones, who was recently made a member of Sigma Tau, honorary engineering fraternity of Oklahoma U., has also been made a member of Sigma Gamma Epsilon, honorary geology fraternity.

The Cisco Daily Press

(Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.)
Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under the Act of March 3, 1879.
A. E. O'FLAHERTY, Publisher and General Manager.
W. H. LAROUQUE, Advertising Manager.
Published daily except Saturday and Monday at Cisco, Eastland county, Texas, by the Free Press Publishing Corporation, incorporated under the laws of the state of Texas. Editorial and publication offices at 304-306 D Ave., Cisco, Texas. Telephone 608.
National advertising representatives, Texas Daily Press League, Dallas, Texas.
SUBSCRIPTION RATES: \$2 per year by mail (outside of Cisco) in Eastland, Stephens, Shackelford, Callahan, Brown and Comanche counties; Texas, outside the above-mentioned counties, \$3.50; \$4.75 in U. S. outside of Texas.
Per week, by carrier boy.....10c
Per year, in advance.....\$5.00

DO YOU REMEMBER?

(Cisco Roundup, February, 1913.)

After having 2,755 jack rabbits killed at seven and one-half cents a scalp, the county commissioners of Taylor county have repealed the county law because the neighboring counties did not offer a similar reward for a pair of rabbit ears.

The Albany News is fighting for the incorporation of Shackelford county's capital with a view that it would be a step forward to secure the waterworks. Years and years ago Albany furnished Cisco water, but is having trouble now getting a home supply.

Mrs. J. J. Davis and Mrs. Jim McDermitt were right badly frightened last Sunday afternoon when the buggy nag they were driving out on college hill cut some fancy shins. The two children with them were badly bruised.

The commissioners' court paid out one hundred and forty-three dollars Saturday as bounties on wolf and cat scalps. This represented those brought in since the session of the court held in December.—Breckenridge Democrat.

Weather conditions remain favorable for the wood haulers of this vicinity. Say, but truly didn't the ice-covered shrubs and timber look beautiful last Sunday morning in Cisco?

Uncle Jimmy Daniels, who lives eight miles northeast of Cisco, is using the gas from a well in his yard to light his house and for cooking. Mr. Willis, who has a similar well near Moran, went out and put in the works. He lights his house and cooks from his well and says that Mr. Daniels has a much stronger flow than his. The gas was struck 145 feet from the surface. It is only a short time when our gas and oil resources will attract capital for development.

TABLE-POUNDING.

"We get more excited about the war than you do," says Senora Ana Rosa S. de Martinez-Guerrero of Buenos Aires, now visiting this country. "We have discussions that make the house shake. Everybody is pounding on the table and roaring. But after that we don't do anything, because of the feeling that the war cannot come to South America, because it is very far."

COM. SCHOOLS GET \$2,229 AID FOR TEACHERS

The office of T. C. Williams, county superintendent, has received and disbursed \$2,229 received from the state as salary aid for teachers of the common schools of Eastland county. This is the first salary aid received this school term and is only 25 per cent of the total to be paid. Schools benefitting, with the amounts received by each, are as follows:
Flatwood, \$10.
Morton Valley, \$217.
Kokomo, \$117.
Alameda, \$405.
Hallmark, \$25.
Shady Grove, \$21.
Reich, \$102.
Long Branch, \$56.
Friendship, \$26.
Elm, \$34.
Crocker, \$16.
Grandview, \$19.
Okra, \$65.
New Hope, \$78.
Romney, \$157.
Cook, \$28.
Grapevine, \$23.
Scranton, \$823.
The independent school districts received their remittances direct from the state department.

CROWDED PARKS.

More than 21 million people have visited the national parks so far in 1941, according to figures of the national park service. So 16 per cent of the people of the United States made some use of their park areas during the year. The total is 26 per cent bigger than for 1940, and this is the eighth consecutive year in which park attendance has grown.

The most popular apparently in Great Smoky Mountains National Park in Tennessee and North Carolina, perhaps because it lies close to the most populous region of the United States. But less accessible parks draw admiring patrons, too.

This is what the national parks are for. This is why the government has built fine roads through them, provided camping and hotel facilities in or near them, trained attendants to take care of them and to make the public welcome. The national parks, monuments and historical sites are set aside for all time to preserve for the whole public both their unique scenery and their recreational opportunities. The tax money devoted to the preparation and upkeep of the parks would be wasted if the public were not thus increasingly aware of their value.

Nazis are people who think they have a divine right to kick other people around.

One of the things Americans don't do is to let Uncle Sam down.

DEFENSE BOND QUIZ

Q. Are foreign - language groups aiding actively in the Defense Savings Program?
A. Emphatically yes. Through purchase of Defense Savings Bonds by their organizations and by individual members, Austrian, French-Canadian, German, Greek, Italian, Hungarian, Polish, Russian, and many other groups are participating extensively.

Q. The banks have plenty of money. Why did the Government turn to the people for defense funds?
A. Extensive borrowing from banks has a strong inflationary influence. Borrowing from citizens has two good effects: It diverts increased national income from excessive spending that tends to send prices up; and it gives every American the opportunity to invest in his country's welfare.

NOTE.—To buy Defense Bonds and Stamps, go to the nearest post office, bank, or savings and loan association; or write to the Treasurer of the United States, Washington, D. C. Also Stamps are now on sale at retail stores.

W. C. RANDALL IS INSTRUCTOR AT KELLY FIELD

Fifteen navigators stationed at Kelly Field were rated as aircraft observers (airial navigators) and received commissions as second lieutenants in the army air force Saturday, when they took their oath of office.

Among the men receiving commissions was Weldon C. Randall, son of Mrs. J. D. Browning of 309 W. Sixteenth street, Cisco. Lieutenant Randall attended the University of Texas from 1936-1938. He enlisted in the air force in September of 1939 as a private and received training as a radio operator. In November of last year he was accepted as an aviation cadet and since then has received training in flying and navigation, having graduated from the Pan American airways navigation school at Miami, Fla., in June of this year. Since then he has been at Kelly Field taking advanced courses and teaching navigation. He will remain at Kelly Field navigation school as an instructor.

The Kelly Field school will train one-third of the nation's navigators who, combined with the pilots trained in multi-motored ships, complete the combat crew of these planes.

Others becoming lieutenants are E. W. Doyle, Long Island, N. Y.; J. A. Dewey, Mandan, N. D.; J. W. Frazer, Orange, Va.; E. B. LaRoche, Dallas; R. O. Lefoldt, Vicksburg, Miss.; R. H. Ling, Manchester, N. H.; G. J. Keely, Tacoma, Wash.; J. C. McIlvey, Chicago; C. G. McGuire, Italy, Texas; H. B. Messick, Jr., Indianapolis; W. B. Nasif, Sunnyvale, Calif.; H. L. Parrish, Bethany, Okla.; E. A. Perry, Charleston, Ill.; R. F. Wilson, Chicago.

No matter what he says or thinks, he isn't being loyal to America if what he does is pleasing to Hitler.

Wholesale prices of refined sugar are averaging about 15 per cent higher than a year ago.

MORE POUNDS OF PORK

ELMO V. COOK, County Agent.

Eastland county farmers have been asked to increase their production of pounds of pork at least one-tenth over the 1941 production in order to do their part in the national defense program.

If every farmer in the county increases his hog production as much as possible and still do sound farming, the increase will be much more than the one-tenth asked for.

A higher percentage of pigs that are farrowed can be saved if sows are placed in a clean, dry, warm farrowing pen before they farrow pigs and some clean straw or hay made available to the sow. To prevent the sow from laying on the pigs, guard rails should be put around the walls of the farrowing pen, about eight inches from the floor and running around the walls about eight inches from the wall. Guard rails can be made from 2x4 lumber, straight poles or any kind of lumber.

If possible to attend the sow while she is farrowing, as each pig is born it should be wiped dry and placed in a warm, dry tub or basket. After the sow is through farrowing take a small pair of wire cutters and cut the tusks (eye teeth) of each pig close to their gums, then place each pig on a test of the sow. If the sow is in good health and the weather is not too cold, she can then take care of the pigs. Sitting up with a sow that is farrowing pays well, for every extra pig saved means a pretty good day's pay.

Fast-feed the 1941 fall-farrowed pigs on a good balanced ration for cheap gains and get them off to market before spring farrowing starts. This will also produce hogs ready for home butchering before the weather gets too warm. If hogs are properly fed, 4 pounds of feed should make a pound of gain.

One of the most economical ways to feed hogs is from a self-feeder. Partition the feeder so that grain can be fed in one part and protein in another smaller part of the feeder. A good protein can be made by mixing 40 pounds of peanut meal or cottonseed meal, 40 pounds of tankage and 20 pounds of finely ground peanut hay. If hogs are running on good green pasture the peanut hay can be left out of the mixture.

If hogs are hand fed instead of using a self-feeder, they should have all the grain they will clean up twice per day and a pound of the protein mixture for each eight pounds of grain they are eating. The protein should be mixed with water or slop for feeding unless fed in a self-feeder. Feed pregnant brood sows a pound per day of the protein to produce large litters but feed them only enough grain to keep them in good flesh. Do not let brood sows get too fat. Sows should not have the protein for the last two weeks before farrowing.

Green pasture will cut the cost of feeding hogs about one-third. Sow some small grain for pasture now and plan to sow some sudan for hog pasture in April. Native grass such as Bermuda or buffalo are not as good as small grain or sudan pasture for hogs and they

supply no green grazing in the winter months. If pigs have access to a self-feeder when they are three weeks old they will start eating and will naturally wean themselves when they are about 8 weeks old. This takes a lot of load off the sow and helps make the next litter larger. For best markets, breed sows so they will farrow in March and September. This places the hogs on the market in September and March when hog prices are usually highest.

Keep clean water before hogs all the time. In the winter the water should be warmed and in the summer it should be as cool as possible. Hogs can do without feed longer than water since more than ninety percent of a pound of gain is made up of water. A simple plan for a covered hog water trough can be gotten from the county agent's office. The same trough should not be used for both slop and water. Hogs like their water clean, otherwise they will not drink enough.

If shade is not plentiful for hot weather it can be provided by building a brush arbor. The shade should be built so that air will circulate under it well. Hogs should have a wallow for hot weather but this wallow should not be in the shade. The water should be at least 8 or 10 inches deep. A cheap wallow can be made from flat rocks and a little concrete.

Loose salt should be kept in a dry place available to hogs all the time. No animal can do without salt and no animal known will take too much salt if allowed access to it all the time.

Government attitude toward incompetents: "Your mistakes are forgiven; go now and make some more."

MINISTER SETS COMANCHE CO. GOOD EXAMPLE FIRST DAIRY DAY NOV. 6TH OTHER CLERICS

C. S. Moad, popular pastor of the Church of God, was displaying today a giant stalk of okra of the white velvet variety, measuring 13 feet and 7 inches in height, with a production of 74 pods for the season. The fact that the stalk was still blooming and producing when uprooted, shows that more pods would have matured had it been left alone.

Asked if he was trying to build up his reputation as a farmer in order to be able to lease a good farm somewhere, Moad replied that his only reason for this publicity was to try and show other Cisco ministers the possibilities for an outlet of their surplus energies.

The fact that this minister is a fisherman of some renown should not be held against him, since he has proved he can really grow fine okra in addition to a lot of other garden vegetables.

Comanche county dairymen will hold their first Dairy Day at Comanche on Thursday, Nov. 6, beginning at 10 a. m.

Eastland county dairymen who have outstanding animals have been invited by Doc Ruhmann, Comanche county agent, to bring them to the show for classification. Appearing on the program will be E. R. Eudaly, extension dairyman, and Elmo V. Cook, Eastland county agent.

Relief At Last For Your Cough
Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly always the cough or you are to have your money back.
CREOMULSION For Coughs, Chest Colds, Bronchitis

RED CROSS ROLL CALL PERIOD IS FROM NOV. 12 TO 30; NEED OF VOLUNTEER WORKERS GREAT

"The Red Cross needs many volunteer workers this year to carry on the expanded services necessary under the national defense program," Mrs. George P. Fee, local chairman of the Annual Red Cross Roll Call, said today. The roll call period is from Nov. 12 to 30.
"Opportunities for constructive volunteer assistance and leadership in the Red Cross are greater now than they have been at any time since the World war. Men and women of all kinds of experience and interests can find satisfying work in the volunteer special services of the Red Cross, which include production for both war relief and home use—canteen, motor corps, braille, administration and staff assistance, nurse's aide corps, home service, and hospital and recreation gray ladies.
"Financial support of these and all other Red Cross activities must come from membership funds received during the annual roll call, Mrs. Fee said, "but the active cooperation of a great army of volunteers is just as necessary for the carrying out of those services which the nation relies on the Red Cross to supply."
As an example of the way certain of these Red Cross activities have had to expand rapidly in the past year to meet national defense needs, Mrs. Fee cited home service. Pointing out that frequently the welfare of families of men in the armed forces is referred to Red Cross, the chairman said that with close to 2,000,000 men now under arms, there is a need for home service workers in every chapter. Women taking part in this activity work with the families of enlisted men, assist in doing family case work for disabled veterans and also cooperate in emergency disaster relief.
National defense needs permeate every branch of the volunteer special services. Canteen work has taken on a new significance, with volunteers being urged to study nutrition, emergency group feeding and similar projects as part of the preparedness program, and motor corps volunteers are also being trained for disaster and emergency service. The gray ladies, who have carried on the Red Cross hospital and recreation work since the World war are in greater demand than ever for work with sick and convalescents as army and navy hospitals increase their capacity to 100,000 beds. The drain on national nursing

resources caused by the needs of the defense forces has opened another big field for volunteers, with the office of civilian defense calling for 100,000 women to be trained by the Red Cross as a volunteer nurse's aide corps. These aides, who are already being enrolled and trained through local Red Cross chapters, are needed to act as assistants to graduate nurses, to forestall a serious shortage in essential civilian hospital and public health services. By performing a number of necessary routine services, these Red Cross volunteers can release professional nurses for duties which can only be undertaken by a graduate nurse.

FINAL CHAPTER OF COMMERCIAL BANK WRITTEN

The last chapter of the Commercial State Bank of Cisco was written Monday and today when Judge B. W. Patterson of the 88th district court granted the application of John Q. McAdams to sell the remaining assets of the former local financial institution.
The Commercial State Bank closed its doors prior to 1929, but all depositors were paid in full and the remaining assets passed into the hands of the state banking commissioner.
The litigation Monday and today was on the application of that official as statutory receiver of the bank's assets. There remained one tract of mineral land, which was deemed the only asset of value, and it was this parcel of real es-

MAGNOLIA IN WINTERPROOF CAMPAIGN NOW

"It's Winterproof time" said J. B. Pratt, local Magnolia distributor for Cisco territory, in a friendly little visit today. He reiterates the saying of Vice-President George Miller who is in charge of marketing for the Magnolia Petroleum Co. And that saying is, "Keep It Running," which is the slogan for the Winterproofing campaign.
"The necessity for building more and more airplanes, and keeping them flying is obvious," continued Mr. Miller, "and the necessity for motorists to keep their present cars in the best pos-

sible condition so they can be kept running for the duration of the present emergency should be equally obvious.
"Priority orders have already reduced the number of new cars to be manufactured during the remainder of this year, as well as next, and additional orders for further reductions are being discussed.
"Not only will new cars become increasingly difficult to get, but new parts for repairs will also be hard to get. Everyone should consider it a duty to see that parts do not fail to give service for which they were designed, due to lack of proper lubrication.
"Keeping your car in as good condition as possible is not only sound, common sense, but it is a token of your willingness to cooperate in a time of emergency.
"Cars should be prepared for winter driving, now, because Southwestern weather is so deceptive. Pleasant fall days often make us forget that winter is sure to come.
"Without warning, a blue norther sweeps down, and temperatures often drop thirty to forty degrees in a few hours. Lines of motorists form outside service stations for anti-freeze. In such a rush there is no time to give vital, moving parts the protection they need. That's when parts lubricated with summer oils take a beating, because in cold weather summer oils thicken, very much like molasses, and do not provide adequate lubrication.
"That is the reason Magnolia Winterproof Service is offered, now. All cars, old or new, need the correct winter lubricants to keep them running most efficiently and economically over the longest period of time.

Bradshaw Gives Dates of Important Meetings For Farmers of Eastland Co.

Ralph R. Bradshaw, chairman of the Eastland county USDA defense board, has mailed the following letter to farmers of the county:
Dear Producer: Enclosed is a sample copy of a plan sheet you will be asked to fill out on your farm in the near future. This plan sheet has been designed by the United States department of agriculture defense board to aid you in planning your crops for 1942 so that we may have an increased production in eggs, milk, butter, cream, pork and feed grains.
Farmers of America are being asked to increase production on the above products so that we may feed our own people and the democracies of Europe.
This food is vital for the defense of our country, and this is our chance to do something. This does not necessarily mean an increase in producing units, but an increased production from the units already on the farm.
Study the enclosed copy and have the answer ready when commitment come to your community to sign up the official sheet. There must be a plan sheet on every farm for 1942 for defense purposes.
You will be given your 1942 cotton, wheat and peanut allotment when you make out the plan sheet. Below is a schedule of the meetings to be held over the county for

the purpose of signing the Farm Plan Defense sheets. Make every effort to see that one of these plan sheets is made on your farm. It is very important to the defense program.

WOMEN WORKERS IN INCREASING DEMAND

"UNDERNEATH IT ALL," LASS LEARNS AUTO MECHANICS.

Today the nation's industry is finding itself in much the same predicament it was during 1914-18—losing its manpower to Uncle Sam's war arm. To offset this condition most firms are resorting to the same tactics that proved their salvation during the first World War—hiring women. Aircraft plants, service stations, munitions plants, etc., are fast absorbing their quota of feminine workers, both skilled and unskilled, for their role in the national defense effort. Industrial schools speedily prepare the untrained for their respective roles on the "factory front," even in such exacting fields as electric welding, drill press operation, material inspection, etc. Recent camera tour portrays the female "stands-ins" as they plied their various duties in shop and afield.

Members present were Mmes. E. McCracken, C. E. Moore, Yancy McCrea, C. A. Williams, C. E. Moore, Eugene Lankford, Delmar Johnston, Joe Wilson, Alex Spears, C. H. Fee, J. E. Spencer, A. J. Olson, Standee McCracken, Ben Lynch, Chas. J. Kleiner, E. Hooks, H. C. Henderson, W. W. Fewell, Geo. P. Fee, G. R. Brogdon, Miss Theresa Weddington, and the following visitors: Mrs. Bob Fee, Colorado City; Mrs. Hattie Earl, Fort Scott, Kan.; Mrs. Jas. Horton, Mrs. W. P. Leslie, Eastland, and Mrs. Rosalie Pentecost.

WORKERS' CONFERENCE.

Among Ciscoans attending the Baptist associational workers' conference today in Rising Star are Rev. Judson Prince, Rev. H. D. Blair, Mmes. W. D. Hazel, Ida Shelton, W. F. Walker, Miss Willie Frank Walker, Mrs. J. W. Mancill and Mrs. W. H. LaRoque from the First Baptist church; Rev. and Mrs. Russell Dennis, Mmes. H. Barron, Claud McBeth, C. Hightower, V. H. Bosworth, L. E. Shirley, Glenn Garrett and T. C. Dawson of the East Cisco church.

ANNOUNCEMENT.

There will be a meeting of the Parent Education study group Thursday, November 6. This group is composed of Cisco nursery school mothers.

MRS. MARY WINN SMOOTS, 'AUNT LUCINDY' IN PERSON, TO WRITE SERIES OF STORIES FOR PRESS

East Cisco W. M. S. Meets Monday at 3

The Women's missionary society of the East Cisco Baptist church met in the church in a Bible study Monday afternoon, with Mrs. Herman Barron, president, in charge.

Spooks, Witches Visited Cisco Junior College

Spooks and witches crowded the Cisco Junior college recreation hall hallowe'en night after which students and their guests assembled in the living room of the dormitory and spent some time in guessing who was who, in the various false faces and costumes.

After these horrifying experiences the guests went to the appropriately decorated recreational hall where they were served with a bloody brew by a string-haired, toothless witch, who turned out to be our very good-looking librarian, Miss Maymie Estes.

One of the most distinguished literary women ever to visit Cisco arrived Monday and will spend several days here.

It is doubtful if there are any native Texans in Cisco, or one who has been in Texas during the past 20 or 30 years, who has not read with delight those stories as they appeared in the Dallas news.

A few years ago, a woman associated with Mrs. Smoots, came to Cisco and ran "Aunt Lucindy" stories weekly for one month, featuring the various business concerns of Cisco in shopping tours which her imaginary characters took up and down the streets.

Now, "Aunt Lucindy," in person, has come to write weekly features for Cisco merchants, doing her shopping so as to give ample publicity to all her clients.

Aside from her work as a business, Mrs. Smoots is a wonderful character to know and to chat with. She is intensely human, showing the same sweet, gentle interest in people that makes her characters so appealing to those who have read them and wished for more.

If you make too much to get a government pension, but don't make enough to save a dime, you are part of the "fortunate middle class."

MARRIAGE LICENSE.

Robert L. Smith, Rising Star; Mildred Bailey, Graham. P. S. Rhodes and Helen Marie Huntsberry, Abilene.

Sales of passenger cars in Sweden are restricted to taxicab owners and other commercial users.
