The Broadway and Judia ts.
have made all arrangements t
for business Sunday afternoon
o'clock and continue through
day and until 11 at night. This
statement of Messrs. Mayhew
Broadway and Campbell of
Judia.

The picture shows have not
erated on Sunday in Cisco for ab
two years, although Eastland an
Ranger — like Dallas, Fort Worth
and the larger cities—have consist
ently ignored the state law forbid
ding Sunday picture shows for more
than two years.

Cisco picture show men, as well
as a number of Cisco merchants,
some weeks ago conferred with
County Attorney Barnes in regard
to the Sunday situation, their con
tention in the main being that the
shows should be closed in Eastland
and Ranger or permitted to operate
in Cisco; that the existing situa
tion was unfair from a trade or business
standpoint.

County officials, however, have
apparently been unable to stem the
tide of public opinion at Eastland
and Ranger, so the proprietors of
the Cisco amusement houses have
decided to follow the example of
these two business competitors and
furnish Sunday amusement to Cis
cons and the nearby countryside.

BRYAN AND EVOLUTION.

AUSTIN, April 26.—A telegram
from William J. Bryan, Miami, Fla.,
to Carl Finney, chief clerk of the
house, declining to deliver an ad
dress before the Texas legislature,
was read in the house Thursday a.
m. In his message Mr. Bryan said
he would make arrangements to
come to Austin if the governor could
be prevailed upon to submit a measure
prohibiting the teaching of the
theory of evolution in the public
schools.

SHOULD HELP CISCO IN FIGHT.

Breckenridge, April 26.—The lo
cal chamber of commerce at Wed
nesday's luncheon voted to remain
neutral toward other towns seeking
location of the tech college. This ac
tion followed announcement from
the chamber's secretary that min
eral rights are being reserved by va
rious oil companies on all land ad
jacent to Breckenridge, thus making
it impossible for this city to comply
with the tech college law requiring
2,000 acres of land adjacent to city
with free simple title.

MODERN WOODMEN AT WACO.

WACO, April 26.—Commemorat
ing the fortieth anniversary of the
order, members of the Modern
Woodmen of America from Tex
as points gathered here Wednesday
for a rally. At the ceremonies Wed
nesday night about 300 were
initiated. The exercises were preced
ed by a parade in the downtown sec
tion of the city.

PANHANDLE ODD FELLOWS.

AMARILLO, April 26.—The Pan
handle Plains district convention of
Odd Fellows continued Wednesday.
A street parade was a feature. Grand
Master Stratton, Grand Secretary
Vestal of the grand lodge, and Mrs.
J. D. Alexander, of Cisco, president
of the Rebekah assembly, are here.

STEPHENS COUNTY GUSHER.

Breckenridge, April 26.—What is
considered the biggest gusher drilled
in this field for many months is the
well of R. B. Pender and associates
on the J. L. Keel lease, two and a
half miles northeast of this city. The
well came in at 150 barrels per day
Tuesday afternoon, when the driller
barely touched the sand, and had
increased of its own accord Wed
nesday to 200 barrels per hour, or
about 5,000 barrels per day.

BIG LOAN TO AUSTRIA.

NEW YORK, April 26.—Part of
a second hue loan to Austria total
ing \$135,000,000 this time, is to be
floated in the United States through
"one of Wall street's best known
international banking houses," the
New York World announced Wed
nesday. It will be the first loan to
a world war enemy in which this
country has participated.

Martin-Westerfeld Gas Co. Has Plenty of Fuel and 50-Year Franchise

There are no new developments concerning the Martin-Westerfeld gas company, recently granted a 50-year franchise by the city council of Cisco for the distribution of natural gas in this city, although Mr. Westerfeld says his company means business and will have an important announcement in the near future.

R. A. Agnew is Native Texan and Has Lived in This Section 30 Years

R. A. Agnew, who lives nine miles northwest of Cisco on route 1, came in last week and renewed his subscription to the Cisco American.

STATEMENT

In view of the fact that a great deal is being said about the vote of the city commission of Cisco on the motion to reconsider the issuance of \$350,000 interest-bearing warrants to pay for street paving to be contracted, and also for building a modern sewage disposal plant, I desire to make the following statement in regard to my position:

I voted for the motion to reconsider the warrant issue, not because I was opposed to any of these improvements, or the plan of the commission in handling these matters, but for the reason that my time as commissioner will soon expire and I felt that the new commissioner who will take my place should have a part in determining them. S. E. HITTSON.

Ford's Weekly Purchase Plan is Taking Well, as Increased Sales Prove

A striking example of the popularity of the new Ford \$5 purchase plan, as well as of the enthusiasm and interest of Ford employees, was demonstrated at a recent meeting of Blease Motor Company salesmen, Manager A. D. Anderson presiding.

Seven salesmen were present at this meeting and Mr. Anderson sold to six of those present cars of Ford manufacture. "Elbert Blease, Jr., purchased a Lincoln, while five salesmen purchased Fords on the new \$5 weekly purchase plan.

Since its inception the plan of purchasing Fords on a weekly payment basis has shown that it is not only filling and meeting a situation long looked forward to by automobile buyers, but has resulted in a great increase in the sale of cars.

The Ford is now regarded as being the popular car among the masses, and this reputation has been gained purely by its daily performance, low upkeep and low purchase price. Now that Fords may be purchased on a \$5 per week plan, payments being interest bearing, the demand for cars is meeting the full expectations of Ford company officers, who at the time the new plan was put in operation, made preparations for greater output than at any time in the history of the great Ford organization.

W. L. Parmer Has Been Resident Eastland Co. For Forty-Six Years

W. L. Parmer of route one was in Cisco Saturday and renewed his subscription to the Cisco American.

Mr. Parmer was born at Jacksboro, Texas, but he has been a resident of Eastland county for 46 years. He lived here long before the railroads came or the city of Cisco had come into being, and clearly remembers when it was the general custom to drive to Fort Worth in wagons for all supplies. His farm near Cisco contains 1,760 acres of good farming and grazing land, with about 600 acres in cultivation. Fifty acres is devoted to wheat and oats and about 20 acres to cane. With the exception of some 500 acres which he rents, the remainder of the big tract is held as grazing land for his cattle. At this time Mr. Parmer has 150 head of cattle.

Mr. Parmer's father, who is 85 years of age, was also born in Texas. The older Parmer enjoys good health and divides his time between the home of his two sons, W. L. and Van Parmer.

MRS. WOMACK ENTERTAINS.

Mrs. Minter Womack entertained Tuesday afternoon with bridge, honoring Mrs. J. W. Weatherford, of Houston. Beautiful marigolds and ferns were given as favors. Yellow and white brick cream and angel food cake were served to the following guests, Misses Lucille McCrea, Katherine Pettit, Helen Williamson, Sara Sue Sanders, of Farwell, Addie and Mary Fee, Lulu Bett, of Hamilton, Louise Hughes, Mary Jane Butts, Maurine Mancill, Gussie Newcomb, Louise Cowan, Mary Elizabeth O'Flaherty and Mesdames Gene Bell, Everett Davis, Mrs. J. W. Weatherford received the guest prize, a silver dorrine. And Miss Lucille McCrea received a hand painted picture for making high score.

Mrs. Gresham Came To Her Death in Unusual Manner Tuesday Morn

Mrs. Margaret Gresham, aged 60 years, died Thursday morning at her home in the Shady Grove community. The aged woman was found in the edge of a nearby tank or pond and breathed her last within a few minutes after being removed therefrom. It is the opinion of her physician that she suffered a heart attack and fell into the water. The pond is about 300 yards from the home.

Mrs. Gresham was the widow of G. H. Gresham, who died about ten years ago, and is survived by two sons and five daughters. At home with her when the end came were Mrs. Della Mac Gresham and Julius Gresham.

The funeral was held at the home, Thursday afternoon at 2 o'clock with Rev. Gaines B. Hall of the Presbyterian church in charge and the body was laid to rest in the Cisco cemetery late Thursday afternoon. H. C. Wippen was the undertaker in charge.

Action of City Fathers Is Death Knell to 100 Disease-Breeding Spots

One of the most progressive moves made by the Cisco council in many weeks was that of Tuesday night, when, following the recommendation of the city health board, bids were received for the installation and connection with the city sewer of approximately 100 toilets.

Probably 60 of these are on the west side of Main street and the remainder on the eastside.

Messrs. John Sherman, Jack Winston and G. W. Gardenhire were joint bidders. The bid naturally hinges on the amount of excavation and other work to be done in each case, but will average around \$47 per toilet, which is a rock bottom figure as compared with what individuals would pay if letting the contract for a single toilet. In case the property owner should desire to do the excavation work himself, he will be allowed a rebate on the job to the amount of \$2.50 per day.

The above action grows out of the fact that there are some 100 open toilets within the city limits.

A bill calling for the appropriation of \$5,000,000 a year from the next two years for the same purpose was introduced in the House by Mr. Leftin Wednesday.

Cisco Country Had the Hardest Rainfall in 12 Years, Says Dr. Mancill

According to Dr. W. E. Mancill, 5 1-4 inches of rain fell in Cisco Tuesday night, the heaviest rainfall in twelve years, or since Dr. Mancill started the practice of gauging the local rains. About a quarter of an inch fell Thursday, thus giving Cisco and surrounding country a total of 5 1-2 inches within less than thirty-six hours.

Owing to excellent sewers and the natural drainage of the city, comparatively little damage was done by the heavy downpour, although water ran into a few of the Main-street business houses, the Cisco Furniture company, the City tailors and Cecil's Cash store sustaining slight damage.

Early Wednesday morning Superintendent Scott of the city water department said Lake Bernie was within one foot of the spillway top. Thursday's rain will undoubtedly comfortably fill the lake from which Ciscoans obtain their most excellent drinking water.

Henry Stubblefield, county commissioner for the Cisco district, says a number of abutments were washed out on the Nimrod road, and that on the Rising Star road some 75 feet of rock highway was washed away.

Supreme Court Ruling Affects Authority of Commissioners' Courts

AUSTIN, April 26.—Affirming the judgment of the Court of Civil Appeals in the case of Adams et al. vs. Seagler et al., from Anderson county, the Supreme Court Wednesday held that a County Commissioners' Court under its authority to control and manage the finances and business affairs of the county, has the power and authority to employ attorneys to assist the regularly constituted officers of the county in the prosecution of claims and suits, and that it necessarily follows that it would be authorized to pay for such services out of county funds.

Why Buy High-Priced Liquor? Plenty Clear Water Will Intoxicate

CHICAGO, April 26.—Experiments that indicated excessive drinking of water caused intoxication similar to that caused by alcohol were related here by Dr. L. G. Rowntree of Rochester, N. Y., speaking before the Chicago Medical Society of Internal Medicine.

Animal subjects in the experiments, Dr. Rowntree said, developed all manifestations commonly associated with intoxication, starting with a period of playfulness, followed by convulsion and climaxed when the animals lapsed into a state of coma.

Two persons who voluntarily tested the theory, the physician said, developed such acute cases that no further experiments were tried on men.

NEEL RETURNS TO CISCO.

It seems that the lure of Cisco gets you, it matters not where you go. After having once lived in Cisco and enjoyed the social atmosphere of its good citizenship, and its city-like conveniences and cleanliness, you are bound in its toils, from whence there is no release. It matters not where you go, nor how far you wander sooner or later — like the proverbial cat — you wander back. And we presume this is why P. O. Neel, who left Cisco several months ago for the land of sunshine and grape juice, found no lasting joy, nor unbreakable ties to hold him in California, but rather breaks away as soon as possible and never wavers but makes a bee line for old Cisco — the city with a personality. P. O. has brought his children back with him, with the fixed idea to make his home here, because he says there is no place else to go. His children are at the home of his brother-in-law, A. B. Soward.

INCREASE A. AND M. EXPENSE.

AUSTIN, April 26.—The senate has adopted an amendment to the educational bill adding \$25,000 annually to the committee recommendations for salaries of professors and employes of A. and M. college. The action has the direct effect of restoring the salary schedule of 1919, Dr. W. B. Bizzell, president of A. and M., said. Other amendments adopted increased the amount for contingent expenses from \$5,000 to \$20,000; appropriated \$30,000 for the purchase of land for forestation demonstrations; increased from \$12,500 to \$25,000 the item for reforestation and inserted item of \$8,000 for tree culture at A. and M.

BAPTISTS MEET AT EASTLAND.

The fifth Sunday meeting of the Cisco Baptist association began Friday morning and sessions will be held Saturday and Sunday at the First Baptist church in Eastland.

Pleasant Hill Farmers Make Regular Shipment of Cattle and Swine

The Pleasant Hill Co-operative Marketing association made another shipment of livestock this week to the Fort Worth market. Cows were cheap, and the market dull, but a few surplus head were disposed of, which gave the shippers some ready cash. The hog market was stronger and the returns very satisfactory.

Ten farmers were represented in the car of cattle shipped out, while twenty-three shipped in the car of hogs.

There were 97 head of hogs in the shipment, with a gross weight of 21,640 pounds, which brought \$1,452.61. The 34 head of cattle weighed 46,890 pounds, bringing \$630.09. The combined receipts of this shipment brought the farmers a little over \$2,000.

Following is a list of the shippers: Cattle—C. M. McClelland, 11; W. F. Brooks, 1; Van Parmer, 5; S. G. Beard, 1; J. W. McKinney, 1; R. O. Finley, 1; W. T. Fry, 1; E. J. Reich, 1; W. R. DeWitt, 2; Adolph Reich, 4; Buck Myrick, 2; Joe Wallace, 1; Robert Slaffer, 1; Clemon Bushear, 2.

Hogs—Joe Wallace, 1; A. L. Kozart, 1; Ed Kellerman, 1; Will Stroebel, 1; Van Parmer, 1; W. I. Maple, 1; W. J. Poe, 4; B. Britton, 1; W. L. Parmer, 1; Kent Word, 1; J. H. McKinney, 9; Adolph Reich, 20; E. F. Trott, 1; I. E. Ramsey, 2; W. H. Stephens, 3; O. G. Reich, 4; D. R. Phillips, 2; O. G. Phillips, 5; E. T. Altom, 1; T. B. Garrett, 10; J. W. Gage, 9; Herman Reich, 7; R. L. Tucker, 2.

METHODISTS RAISE FUNDS.

ST. LOUIS, April 26.—Plans for the raising of a \$10,000,000 endowment fund for superannuated ministers and widows and orphans of ministers of the Southern Methodist church will be presented to each of the thirty-eight annual conferences of the church for approval this year. It was announced Wednesday afternoon by the board of finance of the church, which concluded a meeting here. Under the plans which were adopted by the board the basis of apportionment will be for each congregation a sum equal to the combined salary of the pastor and presiding elder, the amount to be paid in five years.

WORK OF H. S. GIRLS.

EASTLAND, April 26.—Nine Eastland high school girls left on the Sunshine Tuesday morning for Fort Worth, where a great display of clothing made by the domestic science department girls of the entire state is being arranged. These girls were chosen to represent the local high school and they took with them the garments which they have made and which are to be included in the display. Prizes will be awarded. Representing the Eastland high school are Misses Dorothy Johnson, Lorene Cox, Daudie Carter, Inez Cook, Eunice Hamilton, Valera Hargus, Jewell Brawner, Irma Fields and Olive Carter.

WOOL SELLS AT FIFTY CENTS.

SAN ANGELO, April 26.—The sale of wool still on the sheep's backs at 50¢ a pound has spread beyond the Pecos river. W. T. Noelke, of Sheffield, ranchman, in San Angelo Wednesday, reported that he had contracted to deliver to J. M. Lea of Del Rio the twelve-months clip from 5,500 sheep he will shear between May 1 and 10. The clip is expected to aggregate about 50,000 pounds.

SENSABAUGH TO PREACH.

SIPE SPRINGS, April 26.—The baccalaureate sermon for the 1923 class of Sipe Springs high school will be preached by Dr. O. E. Sensabaugh, of Cisco, at the Methodist church, Sunday, May 13, at 11 a. m. This is the first four-year class to graduate from this school and the class consists of Miss Ina Stovall, Revis Poteet and William Hartford.

CRAZY DANCE FORBIDDEN.

WACO, April 26.—Marathon dancing will not be countenanced in Waco. This was determined at a conference Wednesday between Ben C. Richards, mayor, and the city commissioners, following the receipt of a telegram from Houston inquiring whether the commission approving of this form of amusement.

PRIEST TO AMARILLO.

WEATHERFORD, April 26.—At the close of services at the Catholic church Sunday Father O'Brien, for 6 years pastor, announced that the Rt. Rev. Bishop Lench of Dallas had appointed him to take charge of the church at Amarillo, as well as dean of the Amarillo district.

SCHOLASTIC INCREASE.

BALLINGER, April 26.—The scholastic census of Rannels county shows a gain of more than 600 over last year, according to County Superintendent Bugg. The total scholastic population for the present year is 5,900. There are about 1,000 pupils in the Ballinger schools.

CISCO WILL BE STRONG CONTENDER FOR STATE TECH AND SHOULD WIN

A committee composed of C. H. Fee, chairman; Eugene Lankford, L. H. McCrea, Frank Harrell, Walter Ray, Aaron Mayhew, Guy Dabney, J. T. Berry, B. S. Huey, W. H. Morse, R. Q. Lee and A. J. Olson will round up the citizens of Cisco within the next ten days in the interest of the technological college to be established by the state.

Cisco's brief—it's a jim dandy—is about ready to leave the hands of Dallas printers, and those in close touch with the college situation and the work performed, feel assured this city has an A1 chance to secure the great tech school.

In fact, it is the opinion of some of the best posted workers that the contest is already narrowing down to two towns—Cisco and a middle west city. The accessibility of Cisco to the populous centers in and about Dallas, Waco and Fort Worth is expected to turn the tide in favor of Cisco—the home of good schools and churches and unquestionably one of the healthiest cities in the entire state.

BRECK BOY WOUNDED.

Breckenridge, April 26.— Clarence Keith, 12-year-old son of L. C. Keith, is in a local hospital with a rifle bullet in his right side as a result of a cartridge being thrown in a fire by boys with whom he is said to have been playing.

THIS THIEF WAS CERTAINLY UNLUCKY.

Amarillo, April 26.—A traveling shoe salesman who visits this city lost a case of his samples from a local sample room here some time ago and on Tuesday the case was found by police, hidden in an old well. It is presumed that the thief who took them was disappointed on finding that the shoes were all for the right foot and decided he could not use them to advantage.

MAY ASK RECALL OF HARVEY.

BOSTON, April 26.—Massachusetts may join New York in asking President Harding to recall Ambassador George Harvey from England. A resolution to this effect was offered in the legislature Wednesday.

Miss May Howard, of Marfa, is the guest of Miss Flora Mae Stockard.

SHERIFF'S SALE
THE STATE OF TEXAS,
COUNTY OF EASTLAND.

By virtue of a certain order of sale and execution issued out of the Honorable Justice court of Taylor county, on the 5th day of April, 1923, by P. B. Ford, Judge of said court against W. H. Munn for the sum of one hundred ninety-eight and no/100 (\$198.00) dollars and costs of suit in cause No. 5103 in said court styled H. O. Wooten Grocery company versus W. H. Munn and placed in my hands for service, I, J. D. Barton, as sheriff of Eastland county, Texas, did on the 9th day of April, 1923, levy upon certain personal property situated in Eastland county, described as follows, to-wit:

Three 7-foot glass show cases; one 4-foot glass show case; one 120-gallon computing oil tank (Beman Automatic); one 50-gallon Q. & B. lubricating oil tank; one 280-gallon gasoline tank; one pair Howe scales, no number, and levied upon as the property of said W. H. Munn and on Saturday, the 28th day of April, 1923, at Cisco, Texas, in Eastland county, in the city of Cisco, Texas, between the hours of ten a. m. and four p. m. I will sell said personal property at public vendue, for cash, to the highest bidder as the property of said W. H. Munn, by virtue of said levy and said order of sale and execution.

And in compliance with law, I give this notice by publication, in the English language, once a week for 10 days immediately preceding said day of sale, in the Cisco American, a newspaper published in Eastland county.

Witness my hand, this 13th day of April, A. D. 1923.

J. D. BARTON,
Sheriff Eastland County, Texas.

BILLY SUNDAY'S GOOD ADVICE

Billy Sunday, famous evangelist, was denouncing gossips in a sermon and declared: "Believe that story false that ought not to be true."

This is a rather large order, but the statement gets bigger and sounder the more you consider it. If the advice were literally followed, it would save a vast amount of trouble and heartache.

A very large part of all idle gossip is wholly false and the rest is mostly exaggerated. A scandalous story is rarely as bad after you investigate it as it appeared at the first telling. Seldom if ever is any good to be accomplished by the repetition of gossip.

Mr. Sunday's rule, "Believe that story false that ought not to be true," is a mighty safe one and the world would be better off if more people followed it.

DRIVE ON TAX DODGERS

The Federal Government has started an intensive drive against tax-dodgers. It is hoped to collect a record breaking amount of back taxes this year, and thereby add to Uncle Sam's resources somewhere around \$300,000,000.

If necessary, drastic measures will be taken to collect the overdue and unpaid taxes. Warrants of distraint will be issued in stubborn cases which call for the seizure and sale of the property of the delinquents. Under these warrants, after certain exemptions have been made, enough "goods, chattels and effects" of the non-payer may be sold to pay the amount of the tax, plus a penalty of five per cent, and interest at the modest rate of 12 per cent per year.

It is not a cheery outlook for the fellow who thought he could shift his share of the tax burden. Many a one will wish that he had come across promptly with his meeker brethren. Those who are conscious of delinquency will do well to dust around and pay up before the matter is taken out of their hands.

TOMBSTONES FOR MOTORISTS

An old-fashioned blue marble tombstone marks the top of one of the most dangerous hills for motoring in Pennsylvania. On the stone are carved the words "Dangerous," and "Fourteen Miles to the Nearest Hospital." A skull and crossbones is tastefully carved at the top of the stone.

This type of tombstone graces many an ancient cemetery and bears witness that there was a time when men took the hazards of life and death seriously. "Prepare for death and follow me" was their grim warning to the passerby. Nobody mourns their passing from popularity as cemetery memorials, but they re-appear fitly as warnings to the careless motorist.

The reckless driver never thinks that he is preparing for death, but statistics prove his optimism is often unwarranted. Every time he disregards safety precautions he is preparing for death—his own or that of some victim of his selfishness. If he and his possible victim are spared it is not because safety precautions are unnecessary, but because that day's fool calendar is full.

The dour old tombstone probably will make a good many people laugh. It should make a good many think, also—not only on the hill where fatal accidents have been numerous, but out among motorists generally.

TURNING BACK TO NATURE

Serge Essenne, temperamental Russian husband of the temperamental dancer, Isadora Duncan, is going to Africa.

"I cannot bear European civilization," he says. "It is false. I want a civilization that is real. In Africa I will find men and women acting their natural selves. They do not do a thing there because some one else does it. They do whatever they want to."

It is a curious notion that a savage does whatever he pleases. The individual savage has that privilege only as long as he pleases to do what other savages do. Otherwise he gets into trouble compared with which an American jail is paradise.

Nowhere are custom and tabu so strict as in tribal society. It is highly civilized society that permits the greatest individualism.

If Serge insists on doing absolutely as he pleases, he will have to go on a desert isle. And then he will be very unhappy, because nobody will be there to see what he is doing.

THE CHURCH IS GAINING

One great cause for rejoicing at Easter among the religious bodies of the country was the great increase in church membership during the past year. The gain was 1,220,428 new members, which is fifty per cent more than the average annual growth of the five preceding years.

This is a fact of the greatest importance and interest to the people of America. It shows that materialism and immorality have not so strong a hold upon the nation as has been feared. It shows that however strong a hold they may have, the church is fighting them successfully and intelligently. In spite of all the dark forebodings to the contrary, the church is finding the way to serve the religious needs of modern life, and it grows as it serves.

What one of the Devil's pet projects can boast of a million and a quarter recruits in the past year?

Queer state, Utah! It used to be that a man could have all the wives he wanted there, and now he can't even smoke a cigarette when he wants to.

Diversification Often Bridges the Gap

Between success and failure.

Farmers in every state have learned that the difference between success and failure on the farm may now be bridged by diversification—a program of "living at home."

A garden, orchard, a cow and some chickens, will supply many necessities, even when crops fail.

Make your plans for the year one safe plan of safe and sane diversification.

CISCO, TEXAS, TUESDAY, APRIL 24, 1923.

DEVOTED TO THE INTERESTS OF CISCO HIGH SCHOOL

WHO WINS?

Tuesday afternoon the report cards were given out for the third time this semester. In looking over the grade sheets it is very apparent that while some pupils are going steadily forward, others who made excellent grades in the beginning are falling behind. Are they resting on their laurels of previous months, thinking that just before the end they will wake up, get busy and win out?

It might be well for these to remember that the race is not always to the swift. In the Tortoise and the Hare, who won the race—the swift runner that rested at intervals on the way, or the slow one that plodded faithfully on? Faithfulness to a purpose, sticktoitiveness, what a rare virtue, and yet how essential to success!

Brilliance, precocity, do not argue great intellect or power. Those things in nature which develop slowly are usually of greatest worth. The gourd vine may spring up overnight, but it lasts only a short time, and what with all its tropical leaves and brilliant bloom, what does it produce? Only gourds. While the oak that comes from the tiny acorn and is years and years in maturing, goes on day by day, month by month, developing until it becomes a thing of beauty and usefulness. In like manner the pupil who goes faithfully on, doing his best, learning day by day, little by little, and accentuating the learning, in the end usually outgrows the more brilliant one who takes his learning by occasional bursts of application.

Yes, it takes work—infinite work, infinite patience and infinite determination—to keep going on, to stick to duty when so many pleasures call; but, boys and girls, the reward is worth the price, isn't it? How about the happy senior who decides that as the goal is almost won he will take a nap, and wakes up to find he is no longer a senior, but just an ordinary junior—didn't he pay a big price for his nap?

After all, our success in anything comes from having a real purpose, a clear vision of what we want to do and want to be, and then going after it with every ounce we have of mind, will power and stickability!

NEXT YEAR'S POSSIBILITIES IN TRACK WORK.

With the cups, medals and ribbons won at the county meet just arrived, and our worthy contestants just returned from the district meet, it seems that we are at last awake to the importance of track work.

Although we had a few heroes in athletics this year, we realize that as an entirety we were far below what we should have been in that phase of track work, and that we must by some means or other secure an entirely different record next year. Our showing in literary events is indeed something to be proud of. However even in that we did not win as many points as we could have won had we tried a little harder. When we consider that we have as large a group to draw from and as good material as there is in the county, it is quite plain that there is something radically wrong in our system. What is it? It certainly is not lack of opportunity or encouragement to enter and try. It was a very small percent of our large number of students who responded to the appeals of the members of the faculty who were in charge of the training for the track events.

The faithful few who did answer the call deserve all praise and honor. It is such as they who build the reputation of the school, and make a name for it. It is they who make it possible for us to advertise our school as a progressive, live institution. What we need is more students like them. More students to wake up to the fact that there is really keen enjoyment and actual, worth while enjoyment in this phase of school training. It is also necessary for those who enter, to enter early. One should not wait until three days before the preliminaries to enter and then expect to win. This was one of our greatest faults this year. The thing to do is to begin preparation now for next year's event. Decide what you are to do and work to that end. Especially those who expect to enter in athletics next year should keep in physical training this summer and have good hard muscles all ready for the training when the season opens up next year.

With the material we have, and our opportunities for excellent

training in both literary and field events, there is no reason why we should not win over the whole county in all events next year. What do you say, folks?

TEN DON'TS

Don't be satisfied with yourself; believe you can do better and do it. Don't work just for the present—keep your eyes on the future.

Don't stand and watch your classmate—keep up with him in the race. Don't ease up, even for a day, if you want to win.

Don't be content to merely get by; believe you are going to be first, you can if you try.

Don't take everything for granted, it will cause you disappointment.

Don't get angry and lose your head, you might not find it again.

Don't put off your work for the Gusher; if you do there won't be any.

Don't say "I can't"; the word is obsolete.

Don't be pessimistic—it bores your friends.

WHO'S TO BE QUEEN O' THE MAY

The outcome of the "May Queen" contest was announced Tuesday night between the second and third acts of the "Hoodoo." The charming young lady, Mintora Mayhew, of the senior class received the most votes and was therefore chosen May Queen.

Mintora Mayhew received 22,902 votes.

Betty Mae Rominger received 3,378 votes.

Gladys Richardson received 1,796 votes.

Margaret Lauderdale received 1,516 votes.

Norma Wren Mahan received 975 votes.

GO TO SUNDAY SCHOOL!

This week is "Go to Sunday School Week" in Cisco, and especially in Cisco High. The Hi-Y club is sponsoring the movement and is being assisted by the pastors association and the various churches of the city. The purpose of this drive is to stimulate interest in Sunday school work, and to secure

a record breaking attendance at all churches next Sunday. In line with the movement, the Hi-Y club is bringing speakers from the churches and Sunday schools to speak to the student body.

On Monday morning Rev. Holmes of the First Christian Church spoke to the students on the need of a Bible education and the prevailing ignorance of people concerning the Bible. He urged the students to attend Sunday school and thus acquire a knowledge of the greatest book in the world. Wednesday morning, Ernest Hittson of the Baptist church was the speaker of the hour.

The Hi-Y club wishes to call on all the citizens of Cisco for their cooperation in this drive in order to make it the greatest possible success. Several of the churches have set a high goal to reach next Sunday and let us all help them reach it.

Being an undenominational organization and yet one that adheres closely to the churches in all their activities, the club is in position to do a great deal of good in the campaign. Let us all help them to make this the greatest Sunday school success that we have ever had in Cisco.

TRAGEDY

Our hero rushed madly into his room with anguish plainly written on his face. He threw himself in a chair, buried his face in his arms and remained there a motionless figure of tragedy—yes motionless except when he moved to heave his shoulders in weeping. He remain-

ed there ten or twelve minutes, then with determination got up, walked over to the mirror and saw himself for the first time as others saw him. Despair, anguish and misery played hide and seek on his mournful mien, until his features suddenly assumed that peculiar convulsion that marked the birth of an "idea." Now lifting his head with that proud exultation that is noticed in martyrs, he threw off his collar, jerked on his bathrobe, and strode with long strides into the bathroom. He locked the doors, grabbed his razor, hesitated only one moment, closed his eyes, pressed the dangerous instrument to his lips and looked up in sorrowful triumph—he had shaved off his young mustache.

SAYINGS OF SALLY ANN

Travis said, "Sally I heard
 That the girls' Debating team went to Parks. Ask Miss Postick about
 It and make a Report for Us." So I said "Alright,"
 And when I Asked her, she Took off her glasses, got a Ruler, and—no I Escaped. So I Asked Lela. She rolled Up her sleeves, picked up a Dictionary and—no I escaped
 Again. So this time I Got a six-shooter to protect Myself with
 And asked Lerma. She Got a megaphone and called The whole Debating club—and I've Been in the hospital Ever since.
 (Wonder why they wouldn't tell.)

LOTTA FUN!

This is W. B. A. P. radio broadcasting station. The speakers today are members of the cast of "Niobe All Smiles." The first speaker is Thomas Johnson: "My subject today is taken from the trip to Park's Camp. It is entitled 'Why we had so much fun.' In the first place the fun may be attributed to those making the trip.

In the second place the fun may be attributed to the truck and the rough roads. Personally I would not mind taking trips to Parks for the rest of my life provided I could sit by a certain girl."

The next speaker is Doris Day (the actress who took Park's Camp by storm.) Miss Day: "I just wish to tell Cisco High School for the rest of the members of the cast, that more fun can be had in the Texaco Hall at Parks Camp than can be had in Eastland. Mr. Johnson expressed my thoughts of the trip very forcibly and there is only one addition to make, and that is that advertising a play is twice as much fun as giving one"

REDISTRIBUTION OF CUPS, MEDALS AND RIBBONS

Several days ago the silver loving cup which our debating team won from Eastland at the county track meet, and also the medals and ribbons won by our deserving contestants at that time, arrived and were duly presented to the winners.

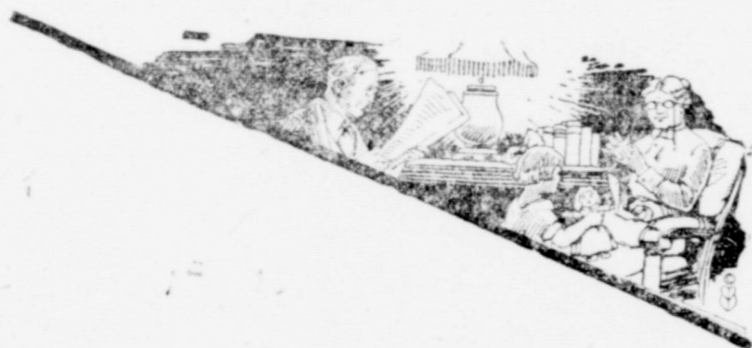

The loss of the cup was evidently a very sad event for Eastland. They sent it to us swathed in flowing streamers of black crepe.

Medals were presented to the following: Helen Gould, winner in essay writing; Mal Rumph, spelling; Alta Lisenbee, spellin. Terry Turner, boy's declamation. Eugene Smith, discuss; and Waymond Westerfeldt, 440 yard run.

Those winning ribbons were: Boyce Strickland, half mile relay; Alsabrook, 100 yard dash; Waymond Ted Huestis, broad jump; Oda Al-Westerfeldt, shot put; and Yancy McCrea, 220 low hurdle.

"OUR HOLIDAY"

The students of C. H. S. appreciate the half holiday they got Thursday, as anyone had lots rather hoe weeds, hoe yards and clean up the house and lawn, than study. There is not much difference in digging weeds out and digging Latin out; in cutting lawns and cutting history, (here history is worse); in chopping grass and chopping Algebra; and last, but not least, in cussing work and cussing English. Anyone who really and truly enjoyed this holiday was lucky, but just the same we appreciate it.

A Quiet Evening at Home With Proper Lighting

What could be more comforting and restful than a quiet evening at home with a newspaper or sewing machine when the room is lighted just right by dependable Edison Mazda Lamps.

Each of your living room fixtures requires a particular type of Edison Mazda Lamp to give the best lighting effect.

Stop in and we will be glad to show what size and type of lamps are best suited to every socket in your home.

GENERAL NEWS

Large Sums Lost in Oil Speculations.—Half a million persons have lost more than \$100,000,000 in wildcat oil stock schemes in the last five years, the Postoffice Department announced on April 6. This is an average of \$200 each or nearly \$1 for every person in the United States. Authorities are now trying to run down the promoters and punish them. Complaints from investors who bit at the colorful get-rich-quick schemes have been pouring into the department since last summer.

Lady Astor Wins Victory in Liquor Restriction Law.—Lady Astor has scored her greatest parliamentary triumph, according to London dispatches. Her bill making it illegal to sell intoxicating liquors to any person under eighteen years of

age in licensed barrooms has passed the House of Commons by the overwhelming majority of 22. It has been a foregone conclusion that for sometime that this bill would pass if it ever came to a vote, but Lady Astor had to fight hard to secure for it a place in the calendar, and a large number of members who subsequently voted for it did their best to stave off the calling of the roll. In the United States, long before prohibition came, nearly all of the states had laws forbidding the sale of intoxicants to persons under 21. But those laws were, in the main, treated as if they did not exist. In England, however, they enforce the laws to the letter and the penalties prescribed for violating this law will be required of the law-

breaker. Considerable interest, the reports say, is felt in Lady Astor's next move. The "trade" in England looks upon Lady Astor as an out and out prohibitionist. But she affirms she has no intention of bringing forward a general prohibitory law; not that she does not believe in prohibition, but she does believe that the English people are not ready for anything so radical. In the meantime she pushes well considered proposals, such as the one above.

Infant Mortality Statistics, for the world for 1919, just issued, indicate that the death rate of infants is lowest among the Nordic and highest among the Latin nations. Chile is highest with a rate of 306 per 1,000. New Zealand, where the work of Dr. Truby King and the Royal New Zealand Society for the health of women and children has been effective, is lowest, with a rate of only 45 per 1,000. Next to Chile, is Hungary with 264. Next to New Zealand is Australia, with 69. Japan's rate is 184, Spain's is 183, Germany's 145, France's 119. Below the 100 mark are Norway, with 94; Denmark, with 92; England and Wales, with 89; Ireland, with 88; United States, with 87; Switzerland, with 82, and Holland with 80. The average of the so-called Nordic nations—Norway, Denmark, England and Wales, United States, Holland, Australia and New Zealand—is 78. The average of the Latin nations—Hungary, Spain, France and Chile—is 233. The average of Germany and Switzerland is 113. Mongolian Japan, with its 184, is twice as heavy in infant mortality as Celtic Ireland with its 88. Though populated by various races, the United States' death rate is 2 points less than that of England and Wales, 18 points higher than Australia's and 43 points higher than New Zealand's.

Suicides in the United States.—Figures made public a few days ago by the Save-a-Life League show that there were 12,000 suicides in the United States during the calendar year 1922. In New York City 839 persons killed themselves, and an increasing number threw themselves in front of subway trains and jumped from high buildings. Some parts of the country reported waves of suicide, and one girls' suicide club was discovered. Those who took their lives—about the same number as in the preceding year—including wealthy, socially prominent and highly educated persons. There were 38 college students, 50 college professors and school teachers, 19 preachers and leaders of religious work, 52 judges and lawyers, 84 physicians, 100 presidents and heads of big business concerns, and a number of bank presidents, one of whom tried ten times to die before succeeding. Seventy-nine millionaires were among the number. In many cases the cause of the suicide was so trivial as to seem ludicrous except for the tragic sequel. The report continues: "The suicide of children is a matter particularly distressing, and a most serious problem. In 1919, we reported 477 child suicides. In 1920 there were 707. In 1921 the number had increased to 858. In 1922 there were over 900, or nearly 3,000 in four years. The average age of boy suicides is sixteen, girls fifteen. Most girls use poison; the boys use a gun. When five school girls in four days commit suicide—it is time for the public to ask the reason why. The conclusion reached probably will be that they were temperamentally disordered, or home conditions were intolerable, or that the school system was at fault. All three are the chief causes for child suicide. Child marriage is another serious cause. In 1920 there were 16,000 boys and 12,000 girls fifteen years of age in the United States listed as married, and nearly 500 of them were recorded as widowed or divorced. The married boys of sixteen numbered 3,222. Those of seventeen numbered 7,690, those of eighteen 24,644. Girls who had married at 16 numbered 41,620, at seventeen 90,930, and those at eighteen 186,645. Many of these children soon after marriage find they have made a great mistake in their choice, quarrel, separate, get divorced and supply many of our suicides as well as homicides."

French Population Statistics.—For many years before the world war the greatest problem before the French economists was the rapid decline in the birth rate, the statistics often showing a decrease in population from year to year. That there is a tendency in the opposite direction since the close of the war is shown in the statistics for the past two years made public in Paris last week. The figures are as follows:

	1921.	1922.
Marriages	456,221	383,220
Divorces	32,557	27,684
Births, living	813,396	759,846
Birth, still born	37,800	34,854
Deaths	696,373	689,257
Excess births over deaths	117,023	70,589

You Are A Capitalist

Did you ever think of that?

The word "capitalist" refers to one who has wealth

Wealth does not always refer to money or worldly goods.

Good health is wealth--and so also is a sound mind.

Good health and keen intellect are sometimes more valuable than gold.

If you have good health and a workable brain, you are a capitalist.

A capitalist mixes good health and brains to accumulate material wealth.

Are you using your capital for this purpose?

The staunch oak grows from the tiny acorn.

From small beginnings great fortunes have grown.

This bank has watched with keen interest the efforts of a great many people who have used their capital. Will you let our experience be of service to you.

BETTIS RETURNS HOME.

Bob Bettis of the Dean Drug store is home from Dallas, where he attended a two-session of the Rexall convention. Mr. Bettis says the convention was well attended and that many interesting subjects were discussed. A number of eastern visitors were present, among them Mr. Simpson, president of the Rexall company. In an address to the convention Mr. Simpson predicted a great business revival throughout the south and west at an early date. He said improved business conditions are very apparent in the east; that money is decidedly easier and that the former great army of unemployed has almost entirely disappeared.
