

Population Eastland county, 65,000. Population Cisco, 10,217. Altitude, 1,214 ft. above sea level. Mild winters. Nights always cool and refreshing. "Typhoid and malaria practically unknown."

# CISCO DAILY NEWS

Three railroads, paved streets, natural gas, modern schools, churches, fire, banks, machine shops, steam laundry, broom, mattress and candy manufactories. \$1,000,000 water reservoir under construction.

VOL. 3.—NO. 20.

CISCO, TEXAS, MONDAY, MARCH 13, 1922.

FOUR PAGES TODAY

## CIVIC LEAGUE IS GRATIFIED OVER CLEANUP

The members of the Civic League are highly gratified over the success of the Clean Up, Paint Up and Keep It Up campaign, which ended Saturday. While conditions in Cisco are not as spotless and clean as could be desired, from a sanitary standpoint it is believed the city will rank with any in this section, following a week of cleaning up. On account of the weather the latter part of the week, it was not possible to do all the work that had been planned, but a big enough start was made that the members of the league are confident the citizens of Cisco will go ahead with the work and complete the entire program.

## TEXAS NEEDS TEN MILLION FOR HIGHWAYS

AUSTIN, March 13.—Texas needs about \$10,000,000 for the proper construction and maintenance of its highways, according to J. D. Fauntleroy, state highway engineer. The available funds for the department are about \$2,500,000, he said.

The following amounts are needed, according to Mr. Fauntleroy's statement: To match federal aid, \$6,000,000; state aid, \$2,000,000; for maintenance, \$1,500,000; for support of highway department, \$500,000.

## FAT STOCK SHOW IS ON AT FORT WORTH

FORT WORTH, March 13.—With the crowning of the Queen of the South with spectacular ceremonies, features of beautiful dances, singing and electrical effects, the Southwestern Exposition and Fat Stock Show opened its annual exhibition here Saturday night.

## ONION CROP ESTIMATED AT 1,800 CARLOADS

LAREDO, March 13.—Authentic statistics of the Laredo district show the onion crop in the Laredo section will aggregate about 1,300 carloads. The report indicates that about 200 carloads of onions were lost as a result of the severe cold spell of last week as previous to that time the yield was estimated at 1,500 carloads.

## Hutchinson, Kan., Will Not Be Shut Off From Outside World

HUTCHINSON, Kan., March 13.—Following Hutchinson's recent isolation from the outside world, members of the board of trade met Saturday and pooled \$2500 for the purchase of a high-powered radio station. During the recent storm one of the amateur stations demonstrated its capacities by picking up news items from the station at Dallas, Texas.

## WOMAN WITH EIGHT CHILDREN TO SUPPORT ASKS FOR WASHINGS

At 605 West Twelfth street there resides Mrs. Pearl Adams, a mother who has eight children to support. The father of the family died last December, and the widow has had a struggle to keep the children in food and clothes. She is not asking for charity, but she is anxious to secure enough work to keep her family together, without any of them becoming charges on the public. Mrs. Adams has an electric washing machine, and she solicits the patronage of the citizens in helping her earn a living for her family.

## CONSERVATION OF PRODUCTS OF FARM PROBLEM

AUSTIN, March 12.—"The two basic problems confronting the Texas farmer at the present time are how to shelter and conserve the products he takes from his farm, pending the marketing of these products to the very best advantage," S. M. Ramsey, state markets and warehouse commissioner said today.

As a solution of the first problem Ramsey advocates the bonded warehouse receipts, with one or more of these warehouses to every community. "When a sufficient number of these warehouses have been built," he said, "the farmers of Texas will enjoy a fuller measure of prosperity."

"Bonded warehouses, under close state supervision, provide a channel through which the producer may reach the manufacturer or the ultimate consumer without the assistance of the middleman. The warehouse gives the farmers of a community a chance to pool their products and market them co-operatively through a single agent."

## BRECKENRIDGE TO HAVE SEVERAL PAVED STREETS

BRECKENRIDGE, March 13.—Actual work of putting down paving on streets of Breckenridge will possibly begin within the next sixty days, it was announced Saturday afternoon by Ray B. Leach, chairman of the city street commission.

## MILLER HOTEL WILL HAVE RADIO SERVICE

BRECKENRIDGE, March 13.—The last innovation of the Miller hotel under new management of H. L. Mobley will be a radio telephone service which will be installed in the dining room and cafe just as soon as equipment is received.

## THE WEATHER

West Texas—Tonight, probably fair; colder in extreme west portion. Tuesday, fair; warmer extreme west portion.

## TAKING ON NEW LIFE IN FIELDS NEAR EASTLAND

EASTLAND, Texas, March 13.—Oil development in this territory is taking on new life and activity is again approaching boom times. A few months ago trucks and teamsters were idle, while now the man who wants material moved is having to hustle to get it done. There are great strings of casing moving toward Pioneer, while many of the rig timbers and well supplies are being hauled out from this city. In addition there is greatly increased activity in the Eastland field.

There are two gasoline absorption plants being built a short distance from this city, one three miles north on the Johnston tract and the other four miles to the northeast on the Perkins. The first is being built by Butler Brothers of this city and the second by Chestnut & Smith of Ranger. Each of the plants will turn out about 15,000 gallons of gasoline per day when completed. The building of these plants is furnishing work to from 150 to 200 men.

## REV. GAINES B. HALL INSTALLED AS PASTOR

Rev. Gaines B. Hall was officially installed on yesterday as pastor of the local Presbyterian church. Rev. Mr. Hall has been filling the local pastorate since February 1.

## BURLESON WELL AT NIMROD SPUN IN; ROBERTS FISHING

The D. W. Burleson well at Nimrod, was spudded in the latter part of last week.

## BRECKENRIDGE TO HAVE SEVERAL PAVED STREETS

BRECKENRIDGE, March 13.—Actual work of putting down paving on streets of Breckenridge will possibly begin within the next sixty days, it was announced Saturday afternoon by Ray B. Leach, chairman of the city street commission.

## MILLER HOTEL WILL HAVE RADIO SERVICE

BRECKENRIDGE, March 13.—The last innovation of the Miller hotel under new management of H. L. Mobley will be a radio telephone service which will be installed in the dining room and cafe just as soon as equipment is received.

When the radio telephone, with amplifier, is in operation busy people can listen to the current news, stock market reports and other things of interest while having their noonday lunch and in the evening listen to lectures, sermons, grand opera, etc., while having their dinner.

## COUNTY SCRIPT NOW BEING PAID AT COURT HOUSE

EASTLAND, March 13.—Payment of more than \$311,000 in county road script, which has been outstanding since the failure of the Security State Bank in this city the second of last August, was begun in the office of the county highway department on the third floor of the court house this morning.

The county commissioners' court came out this morning with an announcement that payment on this script would begin Tuesday morning, March 14, but all claims which are being presented to the county highway department today are being settled.

The payment of the script at this time, it is stated, was made possible through a loan negotiated by G. A. Davidson, of the Fleming-Sitzer Roadbuilding company. It was evident that the county road bonds would sell easier after the payment of all outstanding script, and that there would be less trouble in carrying out the roadbuilding program which has already been started.

## CISCO MAN CLOSES DRILLING CONTRACT IN MITCHELL FIELD

E. E. Jones of Cisco has closed a drilling contract at Colorado, in Mitchell field, to drill on the ranch of Dr. P. C. Coleman, 17 miles northwest of Colorado. Drilling is to be commenced not later than April 3. Jones stated that he would lay a pipeline from the location to the Colorado river, a distance of two miles, to supply water.

## RUSSIA A LAND OF LOST MOTION

Petrograd, March 13.—Russia is a land of lost motion. In consequence of the social and economic upheaval most of the city and town population are trying to do something they are not fitted for. Offices are filled with persons who can scarcely read and write and have no qualification for their tasks but party membership.

Universities and higher schools are crowded with students who are not prepared for the courses they desire to pursue. Men and women are working as waiters and doing manual labor who are qualified to teach or do other intellectual work.

In the general shake-up nearly every body in Russia has been forced out of his old zone. City people have been forced into the country districts and country folks have been forced into the cities, especially since the famine became so serious.

Teachers have left the schools because they were inadequately paid, or not paid at all. Peasants have become landless but lack the machinery, animals and funds necessary to put in crops. Families have been scattered and are vainly looking for lost members.

Individuals are having the same trouble adapting themselves to the new order that the government is and the process is slow and uncertain. The new economic policy has upset the plans of millions who managed to land themselves in berths where they obtained good food allowances and were able to exist without much salary. With the cutting off of the government free food a large percentage of workers and government employees, wholesale readjustments have been necessary.

## COAL STRIKE IS INEVITABLE, SAY HIGH OFFICIALS

WASHINGTON, March 13.—Government officials are represented today as being without hope that the threatened coal strike can be averted or that the proposed conference between operators and miners can be arranged. It is indicated that government intervention, at least in the preliminaries of the situation, are practically at an end.

Another recent gift to the governor was a head of cabbage, weighing eleven pounds, said by state officials to be one of the largest seen here in years. It came from the Harlem state farm, Fort Bend county, and was sent by Woody Townsend, manager of the farm.

## ASSAULTS FOUR-POWER TREATY AS A QUADRUPE ALLIANCE

WASHINGTON, March 13.—Assaulting the four-power treaty as a quadruple alliance, Senator Johnson, Republican, of California told the senate today that its ratification means not only a recession from American tradition but a national surrender under the threat of foreign powers.

## WIDELY KNOWN MINISTER IS DEAD AT KERRYVILLE

DALLAS, March 13.—Dr. John G. Slayter, pastor of the East Dallas Christian church for the past 19 years, and widely known in Texas Masonic circles, died early today at the Kerrville sanitarium where he was taken last week following a long illness. The body will probably be brought here for burial.

## ARMY APPROPRIATIONS BILL GOES TO HOUSE

WASHINGTON, March 13.—With provisions which would necessitate the reduction of the regular army to 150,000 enlisted men and 13,000 officers, the army appropriation bill, carrying \$270,353,039.67, was reported today by the house appropriations committee. No limitation was placed on the number of men to be maintained in the Philippines, the committee report stating, however, that Secretary Weeks believes that under present conditions some reductions can be made in the force there.

## TRADE ASSOCIATIONS WILL MAKE STUDY OF BUSINESS DEPRESSION

Representatives of various trade associations of the United States will meet in Washington on March 21, with members of the United States Chamber of Commerce, the department of commerce and the committee of the president's conference on unemployment, which is to undertake an exhaustive study of business depressions and practical means to be taken to prevent or mitigate this evil.

Research bodies and private individuals have contributed \$50,000 to make this study, which the conference expects to complete within six months. Wesley C. Mitchell, of the national bureau of economic research, New York City, has been made field director of the survey and Edward Eyre Hunt, of the president's conference, has been named secretary. A tentative plan for the study of unemployment and methods for controlling the business cycle has already been submitted to the committee by Mr. Mitchell. It includes an exhaustive inquiry into methods of stabilizing industry.

"We hope," said Mr. Hunt today, "to arrive at workable plans by which the peak of booms may be cut down and the trough of depressions partly filled up. At the same time we hope to reduce the evil of seasonal unemployment, just as some industries and individual plants have already done. Numerous able agencies have offered their help."

Beside the Federated American Engineering Societies, the staff of the department of commerce, the department of labor, the members of the conference on unemployment, the United States chamber of commerce, and the personnel of the national bureau of economic research, proposals for co-operation have been cordially responded to by experts connected with the bureau of railway economics, the Russell Sage foundation, the Harvard committee on economic research, the American association for labor legislation, and the Pennsylvania state industrial board.

The committee charged with this study consists of Owen D. Young, of the General Electric company; Clarence Mott Woolley, of the American Radiator company; Joseph H. DeForest, president of the United States chamber of commerce; Matthew Wolf, of the American Federation of Labor; and Miss Mary Van Kleek, of the Russell Sage foundation.

## RATHBLUM INVESTIGATION ON

DALLAS, March 13.—The police investigation of the flouting of Phillip Rothblum is complete, and Rothblum and his wife will be taken before the grand jury today. Captain of Detectives Moffitt announced this morning.

## Much Used Bottle Opener is Presented to Governor Neff

AUSTIN, March 13.—Governor Pat M. Neff receives many gifts and keepsakes at his office here. But the "prize" of them all was received here recently. It might have been Governor Neff's law enforcement campaign or it might have been a personal reform movement, but at least one devotee of the pre-Volstead brew has signified his intention of closing up shop, for attached to a tag addressed to the governor was a bottle opener.

It was worn shiny and smooth, evidence of long contact with key ring and pocket. The end of the "pulling claw" was worn down. No doubt it had been a useful pocket piece.

And on the back of the tag was typewritten these words: "In the days gone by." The tag was postmarked Houston.

## SEVEN THOUSAND TEXANS KILLED AT GRADE CROSSINGS

AUSTIN, March 13.—Out of 12,000 persons killed on the highways in the state last year, 7,000 were struck down at grade crossings, according to Capt. J. D. Fauntleroy, state highway engineer.

"Investigation has shown that one motorist out of every three is careless at grade crossings," Capt. Fauntleroy said. "They approach the crossings at reckless speed without taking due notice of approaching trains. One railroad alone reported 1,900 motor vehicles wrecked in three years."

"A total of \$4,500,000 was paid out in death claims by American insurance companies for the 12,000 persons killed last year. In addition to the fatalities there were 1,500,000 non-fatal injuries."

"During the past three years the state highway commission has made provision for the elimination of approximately 150 railway crossings," Capt. Fauntleroy said, "and on work proposed fifty more crossings probably will be eliminated. In addition to the elimination on the secondary roads through the efforts of the counties and the state department."

## NEW CORN INSECT APPEARS IN TEXAS

WASHINGTON, March 13.—A comparatively new corn insect that promises to become a serious pest has made its appearance in Southern Texas and New Mexico, according to reports to the bureau of entomology of the United States department of agriculture. It is a boring caterpillar, closely related to the larger cornstalk borer of the South Atlantic States, and has been identified by the bureau as "diatraea lineolata walker." At least two generations occur annually in the Big Bend region of Texas, and the full-grown caterpillars of the second generation hibernates in the corn stubble, underground. During February many fields were found in this region in which 25 per cent of the corn stubble contained hibernating caterpillars.

According to representatives of the bureau who have investigated the situation, the distribution is very important, but the pest is believed to inhabit most of Southern New Mexico, particularly the Pecos River valley and is numerous in southwestern Texas. Apparently, it is said, this pest is moving northward from Mexico, where it was abundant and very injurious last season.

## VACATION ENDS FRIDAY

FORT PIERCE, Fla., March 13.—President Harding expects to conclude his vacation and leave St. Augustine Friday for Washington, he intimated to newspaper men.

## MEETINGS

Every citizen of Cisco is invited to attend the mass meeting tomorrow night at the city hall, at which the plans for the location here of the Midland Christian College will be outlined. Every phase of the matter will be gone into thoroughly and discussed by men who are conversant with the details of the proposed movement. Every citizen present will be privileged to express his views.

## BOWLES TRIAL BEGINS TODAY AT EASTLAND

EASTLAND, March 13.—The trial of C. B. Bowles of Cisco on a charge of burglary was commenced in the 38th district court here this morning. The charge grows out of the robbery of the Radford wholesale grocery at Cisco several months ago, in which ten cases of cigarettes, valued at about \$70 each, were taken. Cisco police officers discovered the doors of the plant open early one Sunday morning, and at the preliminary hearing one of the officers testified that he saw Bowles inside the building. Bowles was arrested at his home about an hour later.

The greater part of the morning was taken up with the selection of the jury, but it was thought at noon that the taking of testimony would begin in afternoon. County Attorney Overson is being assisted by Judge D. K. Scott of Cisco.

## CALL FOR BANK STATEMENT

WASHINGTON, March 13.—The comptroller of the currency today issued a call for a statement of the condition of all national banks at the close of business March 10.

## WM. M. EPPLER DIES AT HOME ON EASTLAND ROAD

William Eppler, aged 66 years, 5 months and 27 days, died this morning at 12:30 o'clock at his residence on the Eastland road, following an extended illness. Mr. Eppler was a native of Missouri, but had resided in Texas for a number of years.

Mr. Eppler was married May 4, 1884, to Miss Ruby Jones, who with the following children survives him: Mrs. Evelyn Hart, Mrs. Lily Richardson, Mrs. Willie Johnson, Mrs. Ruby Coleman, Mrs. Zora Terry, Grover, Union, Dorothy and Arna Ray Eppler. He also leaves three brothers, Gifford J. Sol, and Rufus Eppler, of Gorman; and two sisters, Mrs. Joe Kilborn and Mrs. May Stockton.

The deceased was a member of the Methodist church in East Cisco. He was also a member of Cisco Lodge, No. 281, I. O. O. F.

## MRS. CORNELIA GRINDER FUNERAL HELD SATURDAY

Funeral services for Mrs. Cornelia Catherine Grinder, who died Saturday morning at her home in Spears' addition to the city, were held from the residence Saturday afternoon at 3:30 o'clock, the Rev. Lewis N. Stuckey officiating. Interment was in the city cemetery, under the direction of H. C. Wippen, local undertaker.

## ARKANSAS CLAIMS BED OF RED RIVER

WASHINGTON, March 13.—The state of Arkansas Saturday entered the list of claimants to the bed of the Red river, now in dispute in the supreme court between the federal government, the state of Oklahoma and Texas and private individuals. Arkansas under a motion for permission to intervene in the dispute filed by Attorney General Utley, also asserted its title to a large part of the state of Texas.

The state declared that it is entitled under the boundaries laid down in the act of admission to statehood not only to the bed of the Red river, but also to that part of the state of Texas lying between the Louisiana boundary and the 100 degree of latitude and north of the 32nd parallel. The supreme court will decide later whether it will consider the claim in connection with the Texas-Oklahoma case.

## ROSCOE ARBUCKLE AGAIN ON TRIAL FOR MANSLAUGHTER

SAN FRANCISCO, March 13.—Roscoe Arbuckle this morning for the third time faced trial on a charge of manslaughter in connection with the death of Virginia Rappo, motion actress. Arbuckle arrived yesterday from Los Angeles and spent most of the day in conference with his counsel.

# Opportunity Here To Head Vote Column

## New Leaders in Daily News' Big \$6,000 Gift Distribution in Near Future Now Seems Almost Sure

INDICATIONS ARE THAT CANDIDATES ARE AWAKENING AND HAVE ENROLLED HELP TO HELP THEMSELVES.

### ATTENTION

The present big vote schedule goes out of effect on Monday April 3rd. Contestants and those who may become contestants have just three weeks in which to take advantage of the biggest Vote Offer of the entire campaign. After that subscriptions will count for less votes.

The entire campaign comes to a close and all the big awards will be distributed in a surprisingly short time.

All those who wish to share in the distribution should send in their nomination AT ONCE.

Interest in the great News election is increasing a little. More people seem to be taking a more direct interest in the fortunes of a particular candidate. Yet no one has accomplished anything startling. Why—

A new candidate who has it in him or her, who will really go after subscriptions, can do almost anything he or she desires in this campaign. And the field is ripe in either district.

Every day brings inquiries though now the greater part of them are accompanied by votes from persons who having been nominated, have thought it over carefully and decided that the opportunity of securing one of the grand new motor cars and hundreds of dollars in gold absolutely free is too good to pass by. They are starting them on the road to success, these men and women.

During the last few days the campaign department has been flooded with votes which were sent by friends for their favorite candidates. Evidently some of them who have been less active in the past have enrolled the help of their acquaintances. Subscribers when renewing or subscribing to the News invariably have their favorite candidate in whose favor they cast their votes. We take this as an indication that there are to be some surprises and shifting about in the vote standings.

## District No 2

District No. 2 includes participants residing outside of the city of Cisco. One of the big automobiles and just as many cash awards as there are active candidates will be distributed in District No. 2.

### The Standing of Contestants as Totaled from All Votes Cast for Publication Up to Friday Noon.

The names of present candidates for District No. 2 follow:

|   |        |
|---|--------|
| Mrs. Oscar Comer, R. F. D. Cisco            | 97,250 |
| Mrs. E. L. Carpenter, R. F. D. Cross Plains | 98,400 |
| Miss Willia Ervin, Rising Star              | 86,700 |
| Miss Della May Gresham, R. F. D. Cisco      | 86,275 |
| Mrs. W. M. Kurklin, R. F. D. Cisco          | 87,175 |
| Mrs. B. G. Lindley, Cross Plains            | 5,000  |
| Mr. Eual Lieb, Albany                       | 5,000  |
| Mrs. Fay Lockhart, R. F. D. Rising Star     | 7,125  |
| Miss Maurine Orr, Putnam                    | 96,475 |
| Mr. L. J. Reynolds, Parks Camp              | 43,100 |
| Mr. Earl Strickland, R. F. D. Cisco         | 41,350 |
| Mr. W. A. Tate, Carbon                      | 41,350 |
| Mrs. O. P. Thornhill, Baird                 | 17,800 |
| Mr. P. F. Trammell, Moran                   | 5,000  |
| Miss Lillie Wragg, Harpersville             | 5,875  |

### NEW LEADERS SEEN

In fact, some of the candidates who have been lower down in the lists are now starting their campaigns in earnest and if we are "good guessers" some of those who have been leading will have to look out or they will be passed by. A little mathematics used will show any candidate how to jump to the top of the list.

Following are a few examples: One six-year subscription to the News will give a candidate 360,000 votes. This constitutes two clubs or 200,000 extra free votes making a total of 560,000 votes. Or six new subscriptions for one year each will produce 108,000 regular votes plus a bonus of 150,000 votes at the end of the first period because they are NEW subscriptions. Then these six subscriptions make two clubs or 200,000 votes. The grand total of votes, then, for six NEW one year subscriptions secured in this period is 458,000 votes. A little work done among your friends and acquaintances on these longer time subscriptions and NEW subscriptions will do wonders for any candidate.

### LAST CALL FOR NOMINATION.

If you have not yet sent in your nomination, send it in today and participate in one of the greatest "gift giving" campaigns ever inaugurated in West Texas.

The office of the campaign department will be open until 9:00 o'clock each evening to receive votes, issue supplies and give information. Call in this evening and have it all explained to you in detail.

### CAN YOU USE CASH?

Now, Let's Go. Let's realize that opportunity is here today. Let's go in and win. Are you a candidate? Are you "electioneering?" What are you doing, now, honestly? Have you any ambition? Have you any pride? Are you willing to go through this campaign with the mute evidence that you can't "carry on?" Are you so well "fixed" that you can't use money?

In these days of financial depression there ought to be many more who could use money.

Well, if you can use it, why don't you get it? It is here for you. You can have it now. In a few short weeks the opportunity will be gone. Then, maybe, you will see the light. Let's have a little foresight as well as hindsight. Let's be up and doing, working for our own interests, enhancing the golden lining to our purse.

What do you say? Let's Go!

If you are a candidate or become one you know that right soon it is possible for you to be driving around in your big, new model, 4-door, 5-passenger, 1922 Model Essex Touring Car. You can make more honest to goodness hard American coin in the next few weeks than you ever made before in all your life in like time, if you will just will it so.

This enterprise is merely a sound business proposition. You who participate are being paid and mighty well paid, for your assistance in aiding the News to increase its subscription list. The News, too, appreciates it all, but is some disheartened at the way this election is going.

### ATTENTION DIST. NO. 2.

Several times in the last few days it has been called very forcibly, to the attention of the management of the Daily News and Weekly Round-Up, that, perhaps one reason that the \$6,000 automobile and gold campaign is attracting so little interest in District No. 2 is because people living outside of the city of Cisco, who at first thought of entering the campaign have not done so because they had the impression that the outside territory was limited to the residents of Elastland county.

This is a very erroneous impression and the News wishes to correct it. District No. 2 includes all territory outside of the city of Cisco, either in Eastland or bordering counties. There are several good, live, towns and communities in this outside field in which there either has not been a single candidate enter the campaign or those who have entered have failed to poll a single vote.

This should not be the case as prizes identical in value to those given residents of the city of Cisco will be awarded to active candidates residing outside of the city. All active non-prize winners will receive twenty per cent of all money on subscriptions turned by them.

Isn't this the best business proposition you have received in a long time? Without investing one cent you can make as high as \$1,300, in your spare time, in the next few weeks.

You can't lose; you can win mighty big.

### YOU CAN WIN!!

## Here is The Way

Every \$15 club of subscriptions, either NEW or RENEWALS, will entitle you to 100,000 EXTRA votes in addition to the usual votes issued at the time each subscription (see regular vote schedule) is turned in.

This big 100,000 offer, coupled with the present liberal vote schedule, is the biggest and best vote offer of the entire campaign. Subscriptions are worth more votes these next few weeks than they ever will be again.

A \$15 club may include subscriptions of any length of time up to six years.

A candidate has the privilege of turning in more than one club. Two clubs, for instance, would net you 200,000 extra votes. As soon as you complete your first club, you can start on your second.

Subscriptions may be secured anywhere. Candidates are NOT restricted to their own district. You can obtain subscriptions from friends and acquaintances in any district, any town, city or state.

The \$15 does not have to be turned in all at one time. You can turn in the subscriptions as you secure them. Accurate record is kept at the Campaign Department. The 100,000 Extra Vote Ballots are issued at the close of the offer for the EXTRA votes due.

This 100,000 offer is the biggest and best offer that will be made.

If you have entered the campaign, here is your chance to make a fine beginning, and build your way to success. If you have just started, let this vote offer put you in the lead.

## District No. 1

District No. 1 includes participants residing in the city of Cisco. One of the big automobiles and as many cash awards as there are active candidates will be distributed in District No. 1. The names up to the present time in District No. 1 follow:

### The Standing of Contestants as Totaled from All Votes Cast for Publication Up to Friday Noon.

|                         |         |
|-------------------------|---------|
| Rev. A. Arndt           | 180,975 |
| Master Richard S. Boyce | 71,400  |
| Mrs. Mabel Bagley       | 5,900   |
| Mrs. A. E. Baten        | 202,100 |
| Master Howard Bettis    | 5,975   |
| Miss Gertrude Caldwell  | 165,200 |
| Mrs. L. V. Carroll      | 202,450 |
| Mrs. W. A. Coffman      | 203,700 |
| Floyd Cooper, Jr.       | 152,600 |
| Miss Maybelle Daniels   | 187,350 |
| Miss Frances Dorsey     | 201,000 |
| Mrs. Hattie Fairless    | 194,875 |
| Miss Beatrice Farquhar  | 200,700 |
| Miss Addie Fee          | 201,325 |
| Miss Gladys Finley      | 196,100 |
| Mrs. S. L. France       | 190,450 |
| Mrs. A. C. Green        | 164,500 |
| Miss Lucille Harris     | 133,700 |
| Mr. Buck Harrison       | 15,700  |
| Master Louie Huskey     | 74,150  |
| Mrs. Frank Harrell      | 189,475 |
| Miss Fern Hubbard       | 89,900  |
| Miss Clova Leeson       | 198,725 |
| Mrs. Harley Laws        | 117,250 |
| Mrs. J. F. Langston     | 161,300 |
| Master Quincey Lee      | 204,975 |
| Miss Velma Morrison     | 188,750 |
| Mrs. Louis Medearis     | 185,625 |
| Miss Virginia Mitchell  | 201,025 |
| Mrs. Chas. Mount        | 185,175 |
| Miss Lucille McCrea     | 141,550 |
| Miss Marcia Pettit      | 131,350 |
| Miss Florence Pulley    | 204,700 |
| Master Elgin Reid       | 87,400  |
| Master Clyde Rowe       | 49,300  |

### REDUCED VOTE SCHEDULE.

Contrary to the plan usually followed, the News plan calls for a reduction of votes as the campaign progresses. In the News' campaign the last week is the least important because the subscriptions then count for so few votes. Live contestants who are on the job ought to be able to cinch one of the cars within the next few weeks, before the vote schedule is cut. It can be done. Perhaps you will do it.

### FREE VOTING COUPON

#### Good for 75 Votes

IN THE CISCO DAILY NEWS AND WEEKLY ROUND-UP I hereby cast 75 FREE VOTES to the credit of

Miss, Mr. or Mrs. \_\_\_\_\_  
Address \_\_\_\_\_

This coupon neatly clipped out, name and address of the candidate filled in, and mailed or delivered to the Election Department of the Daily News and Weekly Round-Up, will count as 75 FREE VOTES. It does not cost anything to cast these Coupons for your favorite candidate, and you are not restricted in any sense in voting them. Get all you can and send them in—they will count. Do not roll or fold. Deliver in flat packages. NOTE—This coupon must be voted before March 19th.

### FIRST SUBSCRIPTION COUPON

#### Good For 20,000 Extra Votes

Accompanied by the nomination blank, and your first subscription this coupon will start you in the race for the magnificent Daily News and Weekly Round-Up Prizes, with a grand total of more than 38,000 votes. This coupon may be used only once and is valid only when accompanied by a subscription remittance

Name of Subscriber \_\_\_\_\_  
Contestant's Name \_\_\_\_\_  
Amount enclosed \$ \_\_\_\_\_

This coupon will count 20,000 free votes when returned to the Campaign Manager, together with the first subscription you obtain. It must be accompanied by the cash, and the subscription must be for a period of one year or longer. The 20,000 free votes are IN ADDITION to the number given on the subscription, as per the regular vote schedule

DEVOTED TO THE INTERESTS OF CISCO HIGH SCHOOL

VOL. III.

CISCO, TEXAS, MONDAY, MARCH 13, 1922.

NUMBER 25.

WESTHALL QUARTET NEXT LYCEUM NUMBER

A Well Balanced Organization of Exceptional Talent That Will Delight Everyone With the Variety of Its Program.

The Westhall Male Quartette, the next number on the Lyceum, will entertain in Cisco at the City Hall on the night of Friday, March 17. By some good fortune, the four gentlemen who make up the personnel of the Westhall Quartette form an organization that is exceptionally well balanced vocally.

No quartette need be required to give a more varied or entertaining recital. There is plenty of clean comedy, for these are rollicking, red blooded chaps who get a tremendous amount of fun out of their work.

The program will conclude with a travesty on the old-time minstrel show of about the time of 1835.

What better assurance could there be than that this quartette realizes that their collective and individual work must be of the highest order to insure their success not only in Cisco but in the future.

Hear the Westhall Quartette when you have the chance. It may be years before you have the opportunity again.

SHEPHERD STARS IN CLASS MEET SATURDAY

In the class track meet last Saturday at the ball park the Sophomore class carried off the honors. All the events were not held but at the end of the incomplete meet the Sophomores had 34 points to their credit while the Juniors came a close second with 33 points.

100 yard dash—Shepherd, McCannles, Bateman. Shot Put—Erwin, Bivvins, Westerville.

440 yard run—Tomlinson, Bateman, McCarty. High Jump—Shepherd, McCannles, Waters.

850 yard run—Loving, Tomlinson, Lane. Broad Jump—Shepherd, Poe, Bollinger.

1 Mile run—Shepherd, McCannles, Lovins. Fish, looking at map diagram: That there picture of the high school on that diagram looks like a 'Baby Giant' just about ready to blow up."

Joseph Woodard, reading theme, "What time does the 1020 train come in?"

"Skinny" Stephens says he has discovered a way to enter the door without opening it, but he will surely fall if he grows any.

Did the lost "safety pin" ever find its owner? In the recent debates Wade Cook earnestly shouted, "Oh, yeh." This drew a laugh, but a little of that, Wade will take you a short way out.

CISCO DEBATORS WIN AND LOSE IN CONTEST WITH MORAN FRIDAY

Moran Girls and Cisco Boys the Winners in Debate at Moran—All Teams Show Results of Careful Study and Practice.

Cisco and Moran split even on a heated debate at Moran last Friday evening. The Cisco boys team won and the Cisco girls team lost. This is the second time these teams have debated, having met in Cisco two weeks ago, at which time both Cisco teams won. It was very gratifying to our boys to win twice over the same team, the girls, although they felt their loss keenly, took their defeat in a sports-anlike manner.

The boys' debate was held first, and Wade Cook got off with a flying start and clearly proved that because of the existing economic and political conditions it was necessary to prohibit all immigration for two years.

In rebuttal Wade Cook took up the negatives points and tore to pieces as many as the time would allow. Hill rought down the house by his clever answers to some questions which the Cisco boys had asked, hoping that they could form a dilemma, thus completely confounding the affirmative.

In the girls' debate which followed the contest was particularly close, but in the rebuttal the affirmative, held the Moran girls, easily outclassed the Cisco girls. The affirmative's reminder was responsible in a large part for the decision. The vote was two to one in favor of Moran.

Mr. Wells gives a wicked hammer—and when he strikes he is no respecter of persons. Miss McCarty declares that she will never again be found in the immediate vicinity when Mr. Wells is intent upon erecting a bulletin-board.

At chapel last Friday, Mr. E. R. Williams gave a very inspiring talk on the development of the spiritual side of man. As an example of a man of recognized greatness as to spiritual stature Mr. Williams cited the late Mr. Gladstone.

The high sophomore class in English has been studying versification. The instructor introduced them to a method of writing quatrains in doggerel, and invited them to shower her with their efforts. They did. Here is one:

That's one thing which there ain't, If I should see one dance a jig, I know that I should faint."

Joe Britain, in his critic's report on the scene given by Junior girls, remarked: "The girls made the scene more horrible by carrying bread knives instead of daggers. It made it look as if they were going to stab Caesar and then slice him."

The only known special privilege granted to seniors: to obtain passes to the library during the second period. "There's a reason."

Wanted: A seat mate for assembly. Must be able to talk and have good disposition. Gwendolyn Clements.

How many tacks in a quart milk bottle? (adv) 3-13

BREVITIES

Miss Robbins (in English III) "This theme should interest almost all of you for most of you will live in houses all your lives. A few of us, of course, will live in boats and tents."

The principal's new suit occasioned much delighted comment on the part of the freshmen.

Beauty seekers, take notice: If you desire a complexion unvarnished, just take a nap during assembly. For instruction see E. F. G. and E. R. W.

Wallace Bateman: (in history II) "Sure, my rat (Miran) was Napoleon's son-in-law."

Mr. Turner (in Algebra class) "Now let's all sit down on that problem." Myrtle: "Oh, no, Mr. Turner—there are too many of us."

Mr. Gaither (in Algebra) "Your opinion." Willie Ross: Is an option an eye-doctor?"

The Gusher has received numerous inquiries regarding two missing articles, the absence of which has caused much general concern. One is Isabelle Guthrie's powder puff; the other is Miss McCarty's glasses.

Mr. Wells swings a wicked hammer—and when he strikes he is no respecter of persons. Miss McCarty declares that she will never again be found in the immediate vicinity when Mr. Wells is intent upon erecting a bulletin-board.

Ruel Lane was absent from school last week.

At chapel last Friday, Mr. E. R. Williams gave a very inspiring talk on the development of the spiritual side of man.

The high sophomore class in English has been studying versification. The instructor introduced them to a method of writing quatrains in doggerel, and invited them to shower her with their efforts.

That's one thing which there ain't, If I should see one dance a jig, I know that I should faint."

THE GUSHER STAFF INCLUDING CUBS GUESTS AT A PARTY

The sponsors of the Gusher Staff, Mr. Gaither and Miss Robbins, entertained the staff at a party last Monday evening from eight to ten o'clock in the D. E. rooms. The affairs were begun by a joke-telling contest, at which Chesley Kilborn proved to be the best contributor—in fact, he "got the dog."

Next came the most exciting feature of the evening a game of indoor base ball, with Marvin Boyd and Elizabeth Smith as captains, and everyone playing. The game was played through nine innings, and ended with a score of 8-7 in favor of Captain Boyd's team.

As soon as the game was over, the happy group pink checked from their vigorous exercise, sat down around the table, where their fortunes were told by magic bamboo sticks after an ancient Chinese custom. What futures are in store for these budding journalists, Carl Olson will probably be president, if what the Chinaman told him should come true.

Vera Hyatt is in line to inherit a fortune from a rich foreigner. Zella Blanche is to be surrounded by friends all her life—though there is really nothing surprising about that.

Miss Robbins was assured by the Chinaman that she is the luckiest person in the world, and as she received this news, she caught a whiff of burning chocolate, and rushed back to the kitchen.

Mr. Gaither was told that a tall girl in distant state is in love with him, but he bore up bravely under the bad news, since the Chinaman also declared that he would soon be fabulously wealthy. Marion was told to stay in the tall timber if he expected ever to be rich.

So went a half hour or so—and it would have been difficult to tell which brought more color to the cheeks of the revelers—the baseball game, or the game of fortunes.

The hostess shooed everyone away from the table, however, and made the sit as far apart as was possible in the limited space, for the next event. This was a contest in finishing "limping limericks." Each person was supplied with a verse about someone else in the room, the last line of which was missing. The honor of sitting at the head of the table was offered as distinction to the one who should finish the limerick in the clearest fashion.

There was much chewing of pencils, for a few moments, and then the efforts of the aspiring poets were read. The vote of the assemblage was cast unanimously for the limerick finished by Elizabeth Smith:

"The Mascot of H-Y is our Freak, For convenience often called Spec, In his ivory dome, He never says a word at home And his countenance is wholly a wreck."

When the laughter has subsided, Miss Robbins delivered to each the original "last line," hitherto missing. Then, of course, all of the limericks had to be read again, to see what Mr. Gaither had made up about them to begin with.

Immediately following this contest, refreshments were served. All were seated about the tables, and every victim began mentally to say over the speech for which he expected to be called upon, but the host and hostess fooled them, and capped off the list of surprises by not having any speeches. Carl and Spec indulged in a spirited contest, to see which one could devour the greater amount of pheasant.

W. H. won easily. Then they began a sandwich race, which ended in a tie.

After the delightful refreshments were served, Marvin Boyd was initiated into the mysteries of Gusher Staff. He passed the first and most important journalistic test, which was to take the base of a chair and lift it up.

He then took the vows of the staff, and memorized the pledge.

During the initiation, Spec escaped into the kitchen, got remnants of lettuce, olives, pineapple juice, bread, cherries, and spiced walnuts, put them

More Ideals Given Inquiring Reporter Girls the Subject

The inquiring reporter this week asked the question of the boys, "What is your idea of an ideal girl?" Whether through bashfulness or other causes most boys were loath to express themselves. However, two opinions were procured. Two are from members of the faculty (male, of course).

The first one runs as follows: "In the first place an ideal girl should be brave. She should fearlessly venture forth in any sort of weather bare breasted, and with spiderweb hose on, to show her undying courage. She should even be brave enough to face the ferocious mouse without fear or trembling. As a final proof of her bravery, she should unhesitatingly kiss a three miles southwest of Cisco, the local chapter of the H-Y, and opportunity to show that she cares not for disease germs nor for the boys opinion of her. Next in importance to bravery is the requirement that she be an expert in the art of flirtation, for there is nothing that will give a boy such a thrill as the one he receives when the girl he is in company with winks, smiles or waves at every boy he meets."

The second ideal girl must be an absolute blockhead in regard to studies and to everyday matters of life. Life would be dull indeed if we didn't have the sweet young things to tell us that "cosmetics" is now a curable disease, or that a catastrophe is the omission from a word of one or more letters. Nor would we expect the model girl to know anything at all about housework, for, after marriage she were to devote her time to housekeeping and cooking, she would have very little time to walk the streets or go to the dance hall with other men; and it is only natural for the husband to want to see her in the embrace of some other man to prove to his satisfaction that he is not the only one who loves her. Ah! life is indeed miserable for the man whose wife is so unpopular that she doesn't have a half dozen beaux after her marriage. Life!

"In addition to all these mutual qualities, she must be able to disguise herself so skillfully by the use of paint and powder that the young man can never tell exactly what she looks like. She should also be very careful at all times to have her ears covered in order to keep the young man guessing as to the appearance of the one part of her anatomy that present day styles do not reveal.

"Finally the ideal girl should always be untruthful in her statements even when the truth would do just as well because if she were truthful, she would be understood; and we all know that it is the fact that we can't understand them that makes them ideal."

(Author's Note: The foregoing statements were taken from the diary of a confirmed bachelor who died only a few days ago. His closest friends say that he died of worrying because there are so many ideal girls that he could never decide which one he wanted.)

Another faculty member expressed himself thus: "My ideal girl? That's a stunner, and something I am afraid I cannot define very accurately, having been compelled to change so many of the original specifications.

"In physical appearance she need not be at all unusual, although beauty would be no drawback. She should successfully have passed the flapper stage and have a few higher interests than jazz and movies—not bored to tears by an occasional serious conversation. She must have musical ability—be able to play something besides a player piano and phonograph; economical by all means, and, sine qua non—a good cook."

Another young man's opinion runs in this fashion: His ideal must be a girl that is unselfish, refined, friendly, kind, and loving. By her unselfishness she lets the boys have her math problems and other things to copy. She is refined by not doing what boys think she should not do. Being friendly she winks at the boys during study periods and wants to walk to class with them, and waves at them as she goes the street when going home. Her kindness is giving home made candy to all her high school friends. And best of all is her unceasing loveliness. She always has a smile and some sweet proverb of slang to tell boys on every occasion.

Those who contributed were C. G. Turner, E. F. Gaither, and Billy Bacon.

HI-Y HOUSEWARMING A DELIGHTFUL AFFAIR

From seven to nine o'clock on Saturday evening at their newly completed three miles southwest of Cisco, the local chapter of the H-Y, gave hosts to their parents and sponsors, at a house warming. The affair proved to be one of the most delightful social functions of the school year up to the present time.

The cabin, which was built by the members of the club, was in apple-pie order, showing that boys can be excellent housekeepers. The "home-made" furniture occasioned much comment. Coal oil lamps; chairs with seats woven of rope; the huge fireplace, with old-fashioned dog runs; the table with its turkey red cloth; the rude benches; all contributed enough suggestion of pioneer life to give the guests a real thrill or two.

The gentlemen of the party, indeed, were observed to gather about the fire, to tell yarns of famous hunting parties or fishing expeditions, so deeply influenced were they by the rustic environment.

The yard was lighted by a ruddy glow from the great outdoor fireplace, and also by several lanterns hung at strategic points.

For a half hour the entire party explored in and about the cabin, or scrambling over the rocks; then the signal was given and all assembled on the rocks near the cabin, for delicious refreshments of doughnuts and coffee.

After the "eats" several excellent speeches were heard. First of all, Marion Olson, in a neat oration, formally dedicated the H-Y log cabin to Mr. Wells, the sponsor of the organization.

Mr. Wells responded with a brief outline of what he expected of the club in the future, together with his appreciation of its work in the past. Then the board of directors, Mr. A. J. Olson, Mr. B. F. Gaither, and Rev. C. G. Howard, made inspiring expressions of their hopes for Christian work among the boys of Cisco. Each mentioned his great surprise at the actual completion of the tremendous task of erecting the club house.

W. H. Magnus gave a complete history of the activity of H-Y in Cisco, which concluded the program.

Guests present were Mr. and Mrs. Olson; Rev. and Mrs. Howard; Mr. and Mrs. Wells; Mrs. Kilborn, Mrs. Springler; Mrs. Glascock; the Misses Alice and Kate Bacon; Mr. Bacon; Miss Robbins; Miss Soderstrom; B. F. Gaither; Lula Bell Trigg; Essie Olson; Opal Risher; Blanche Stephens; George Alden Wells; Frances Wells and Willis Howard.

Wightman Moore (translating the line, "They sought her bath in glen and dale"); "They sought her in her bath."

Mr. Godbey (in Chapel): "You know, you might get a pin out of something you eat."

Gwendolyn Clements: "My mama, doesn't cook pins."

Bert Waters (in geometry): "How can you tell a right angle from a left angle?"

Mr. Gaither: "You were supposed to have learned that when you were a child."

The same Caesar (in English III) died again, then walked out Tuesday.

Wonder how much "Spec" ate at the Gusher Staff party!!!

Schools Prepare to Entertain Visitors During This Week

The schools of Cisco are expecting any visitors this week, and are preparing for them. Illustrations of the work the class have been doing are being hung up in the room. School children will be ushers to the visitors, owing them the classes they want to see, and also showing them the pictures and work of the classes.

The annual exhibit will be held during the week. Illustrations of the work in the class rooms where the work is done. If you want to see what our children are doing, be sure to be here, or, if you have no children in Cisco schools, remember that you are helping to support these schools.

"Would it not be better to know what you are supporting than keep helping schools without knowing what you are helping?"

The parents do not have a definite idea about what the schools are doing, unless they can see for themselves. If, as it has been said, you have no children in school, you surely have a friend who has a child or children in schools. At least three-quarters of the growing population of Cisco ought to be here.

Mrs. Kean did Muriel Bowler the honor of letting her teach the History IV class recently. Everyone, even Harry Hampton, responded when called on. Muriel conducted the class in a characteristic manner.

During the debate with Moran Miss Tucker, one of the sponsors, was heard to remark, "Marion is getting warmed up now. If he gets much angrier, he will melt his collar."

For the last few weeks it has seemed that the High School has been giving a new type of training for both teachers and students. The teachers who are on duty at noon get good practice as detectives in trying to keep the pupils from going upstairs. The pupils get good practice as "slicks" by trying to slip by them. If caught, the punishment is nothing more than a command to go back down. While Miss St. John's attention was centered on something else, one boy succeeded in getting upstairs. Many of the students do not like this plan and a large majority of them would not try to go on a good day, but do so just to see if they can get by the teacher.

Floyd Tomlinson and several other students were huddling about a radiator last Tuesday morn, when a teacher approached with the question: "Why are you all hunched in this corner?"

Floyd with one of his bright smiles said: "Well, you see it is easier for us to keep this corner warm than to keep the whole building warm."

Dear Editor: What's happened to Bud and Co.? We haven't heard from him for a long time. Wonder if he's bankrupt or has broken his arm.

Answer: Neither one kind reader. He is afflicted with mental inertia.

Frank Jacobs: "Mrs. Kean, I just can't take a test."

Mrs. Kean: "Yes you can. You ought to make up your mind to make a good grade or die."

Frank: "I'm afraid I would die."

How many tacks in a quart milk bottle? (adv) 3-13

Hold On There. If cheese costs thirty cents a pound, how many tacks in a quart milk bottle? Did you say, "I don't know?" We did not expect you to but it will pay six boys and six girls, between the ages of seven and eighteen, to do their best guessing. If your guesser is hitting on all four you can win a cracker-jack pocket knife, or a nobby rutter hat that will "azzitively" cost you not one cent. Just walk over to our store and we will break the news to you of how simple it is done. GRAY HARDWARE CO.

# The Importance of Expert Fitting

An improperly designed corset may look well when you first put it on. It may feel reasonably comfortable, but if such a corset is worn any length of time your figure is bound to suffer. The same is equally true of a properly designed corset if the model selected does not suit your figure requirements.

Some women can pick exactly the right model without assistance but they take grave chances. Most women appreciate reliable advice on so important a matter. For their protection and greater satisfaction we have enlisted in the personnel of our Corset Section only experienced corsetiers.

These experts study your figure requirements, help you select the correct model, and fit with extreme care. You may rely upon their recommendations.

E. M. Paschall, has returned to Fort Worth.

Mrs. Della Heath, of Rising Star, spent the weekend here with relatives.

Miss Ruby Snoddy, of Graham, is the guest of her aunt, Mrs. O. D. Bibby.

Mr. and Mrs. H. A. McCannles were here from Eastland Sunday as the guests of relatives.

Louis Sirriani, of Breckenridge, was the weekend guest of friends.

Miss Leila Putnam, who has been visiting in Leuders, arrived in Cisco Sunday to visit her sister, Miss Gustava Putnam, before going to her home in Lockhart. Miss Putnam is a missionary in Brazil and is on a leave of absence.

George Daniels returned Saturday night from Fort Worth.

Mrs. Blanche Boon, of Fulton, Ky., arrived on the Katy Sunday for a short visit with her cousins, Mr. and Mrs. T. T. Cooper, on Avenue E and 16.

O. M. S. O. Club which was to have been entertained this evening by Miss Iantha D'Spain, has been postponed until Wednesday because of the illness of her grandmother. On Wednesday she will entertain with an all day picnic.

Mrs. A. D. Martin is visiting in Fort Worth.

Mrs. C. D. McKey with her little son, C. D. Jr., returned from Mabank Friday night. She was accompanied by her mother, Mrs. Irvine.

Mr. and Mrs. C. W. McLaughlin, of De Leon, are the guests of Mr. and Mrs. W. J. Campbell.

Mrs. M. S. Long, of Albany, was the guest Saturday of Mrs. Fleet Shepard.

The W. M. U. will meet in the Baptist church Tuesday afternoon for a mission program which will be in charge of Circle A.

Mr. and Mrs. Sam Tunnell will come in from Ranger tonight to visit her mother, Mrs. J. S. Tunnell.

Mr. and Mrs. S. A. Williams and Mr. and Mrs. Leon Maner motored to Pioneer Sunday afternoon.

Miss Mary McGinnis, of Ranger, spent the week-end in Cisco visiting with Miss Alma Huddleston and Miss Ada Louise Neell.

The Wednesday Bridge Club will meet with Mrs. Dick Starr, 704 West 10.

Mrs. J. A. Rainer and Mrs. Charlie Bradley left last night for Fort Worth to attend the Fat Stock Show.

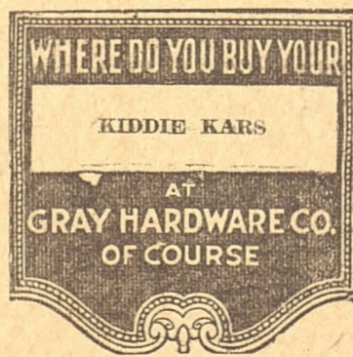

W. A. Magness left yesterday on a fifteen days business trip to Dallas.

Miss Ethel Manning has returned to Strawn.

How many tacks in a quart milk bottle? (adv) 3-13

The ladies of the Christian church will have a work meeting at the home of Mrs. Jack Winston Tuesday afternoon. All members are urged to attend and assist in making articles for the Easter sale.

Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

Liggett & Myers Tobacco Co.

# Chesterfield CIGARETTES

of Turkish and Domestic tobaccos—blended

"I like 'em!"  
"They Satisfy"

## TO OUR PARKS READERS:

In order to assure you of getting your Daily News on the day of publication we have arranged with our agent in Parks, the Loomis-Smith Drug Store, to furnish you your paper every afternoon.

We have furnished Loomis-Smith with a list of our Parks subscribers, and we are sending them sufficient papers daily to take care of this list.

Mr. L. J. Reynolds is our Parks correspondent. If you have any Parks news he will be glad to have you give it to him.

It is our aim to serve all our subscribers with the very best paper possible and deliver it to them just as soon as possible.

## RYZON BAKING POWDER

RYZON-raised cakes keep fresh longer. The special process of manufacture is the reason.

RYZON, a slow, steady raiser, has greater raising power. Provides home baking insurance—no bad luck. You may mix batter today. Set in cool place, bake tomorrow.

Order a can today. Have RYZON hot biscuits cheer the home folks.

## AT THE JUDIA

Today, Tomorrow and Wednesday

"FOOTFALLS"

"FOOTFALLS"—WILLIAM FOX SPECIAL PRODUCTION

Powerful drama in which New York critics acclaimed the impression of sound conveyed convincingly from the screen for the first time in the history of the film.
