THREE BADLY INJURED IN ACCIDENTS

Loboes to Play Childress Tomorrow at 3:30

Through the Editor's Spectacles By GEORGE

Although it represents a promotion which should be denied no deserving person, transfer of S. B. Wright from the superintendency of the Cisco state fish hatchery to superintendency of the hatchery at Jasper is a matter of regret to Cisco people.

I seriously doubt that the beauty of the Jasper layout can really be said to exceed that of the Cisco hatchery. Beauty, like value, is a thing of contrast.

Mr. Wright has done a mighty good work and we bid him goodbye with regret.

How times do change. Eight years ago and today represent a great deal of contrast in Cisco.

The dusty, windless avenues of water seen against a glowing evening sky and reflecting the flushed and mother-of-pearl colors of the twilight furnished last night a marvelous theme for the crayons of the artist.

Against it, and moving into and out of the shadows, were thousands of ducks. The long, widening ripples they set up melted across the glassy surfaces near where we stood at Lake Bernie, watching them from a distance.

It was a regular convention of ducks—a sight for the hunter's eyes. Some hunters had already divined it. Across the lake, twisting slowly down an invisible road, came a pair of headlights, subdued. A taillight gleamed redly across the dark when the car turned.

Former Cisco Jeweler Is Dead at Dallas

Death of J. W. Martin, former Cisco jeweler, occurred unexpectedly at Dallas last week, word to friends here said. Mr. and Mrs. Martin left Cisco about five years ago.

SEEK WIN TO PREPARE WAY TO ABILENE

"Dope" Route Favors Cisco Team But Little

The Cisco Loboes will play their next to last game of the season here tomorrow afternoon at 3:30 against an invading Childress high school team at Chesley field.

Childress comes to Cisco with a record that bodes no good for the hopes of the home brigade for a victory. The visitors defeated Quannah handily a week ago to cinch the district title for the Wichita Falls Coyotes.

However, Cisco holds a win over the Electra Tigers, who in turn, defeated Childress, so the dope favors the home town boys by one route at least.

Coach Shelley said at noon he had not received a Childress lineup, but he knew the team to be a heavy one.

Cisco was expected to start the same lineup that began the Ranger battle here last week.

Prospect of air skies and warmer temperatures reared hopes of a large crowd to witness the game.

ROLL CALL IS SUCCESSFUL

A splendid response to the Red Cross roll call campaign was reported this afternoon from the roll call headquarters at the chamber of commerce where Mrs. J. E. Spencer is chairman.

Teams of women who are canvassing the city, reported good progress. The drive was expected to be concluded tonight.

Burns of Clarence Tune Not Serious

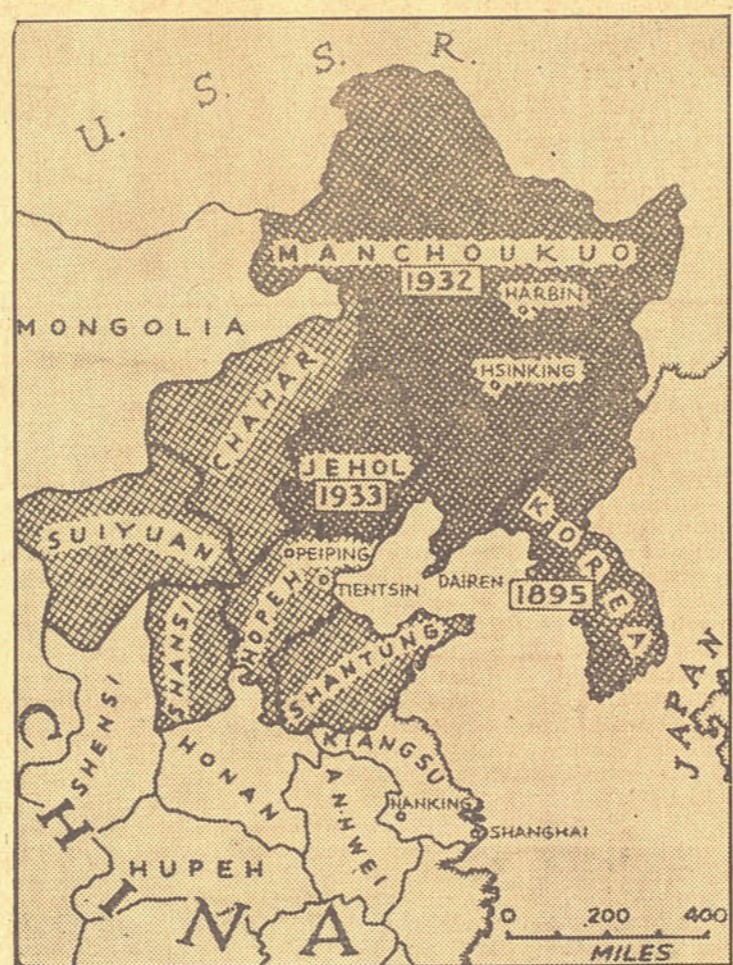

Clarence Tune, who was painfully burned Wednesday while priming a car with gasoline, when a spark from the engine ignited the gasoline, was reported at noon today to be doing as well as could be expected.

S. B. WRIGHT TRANSFERRED TO JASPER

D. C. Harper to Succeed Him as Hatchery Supt. Here

Transfer of S. B. Wright, superintendent of the state fish hatchery here since November 3, 1927, a few months after its establishment, to the superintendency of the state hatchery at Jasper was announced this morning.

The transfer is part of a general shift which moves five superintendents to new posts and a number of subordinate officials. O. P. Crimm, assistant superintendent of the Cisco hatchery goes to Brownsville hatchery as assistant tomorrow.

Mr. Wright came to Cisco from Kerrville in 1927, succeeding Joe Dixon, who took charge immediately after the hatchery was completed in April of that year.

The first year's hatch under Mr. Wright's management was about 200,000 fish. During his tenure, the plant has been beautified, a home for the assistant superintendent built and the home sites beautified.

M'DONALD IS QUESTIONED

AUSTIN, Nov. 21. (AP)—J. E. McDonald underwent a close cross-examination today concerning the use of a truck his brother owned in transporting state jacks and stallions and the presentation to his sons of two mares as a Kansas breeder from whom the state purchased animals.

McDonald said he used his brother's truck because he couldn't obtain that type of vehicle elsewhere and his brother had allowed him to experiment with the truck to obtain an efficient bed. He denied he knew that this was a violation of the nepotism law.

WASHINGTON, Nov. 21. (AP)—A group of corn belt farmers today asked the supreme court's permission to file a brief supporting the government in the Hoosac Mills case, which is expected to decide the constitutionality of the AAA processing taxes. It was said the farmers are "vitaly concerned."

TWO SMALL GIRLS FIGHTING FOR LIFE AT HOSPITAL HERE

Victims of distinct but related highway accidents, one of which involved a school bus from Rising Star, three persons were in Graham sanitarium today suffering from serious injuries. Two of them are little girls who are fighting for their lives against critical hurts and extreme shock.

First to be injured was 9-year-old Delma Fay Richardson, daughter of Mr. and Mrs. Carl Richardson, who live six miles north of Rising Star on highway 23.

As she stepped onto the highway she stepped into the path of a car driven by a Brownwood woman, which came over the rise at a good rate of speed, witnesses said.

Other victims are Dulath May Richardson, 10-year-old cousin of Delma Fay, and Dulath May's 30-year-old father, J. M. (Jeff) Richardson, who were injured when the car in which they and other relatives were coming to Cisco to see Delma Fay left the highway and crashed into the guard rail on a bridge five miles south of Cisco at about 7 o'clock last night.

As she stepped onto the highway she stepped into the path of a car driven by a Brownwood woman, which came over the rise at a good rate of speed, witnesses said.

The accident occurred about 5 yesterday afternoon.

Other Victims

Other victims are Dulath May Richardson, 10-year-old cousin of Delma Fay, and Dulath May's 30-year-old father, J. M. (Jeff) Richardson, who were injured when the car in which they and other relatives were coming to Cisco to see Delma Fay left the highway and crashed into the guard rail on a bridge five miles south of Cisco at about 7 o'clock last night.

Fractured Pelvis

Shock, bruises and a badly injured right arm were suffered by the girl. Mr. Richardson sustained a fractured pelvis. The child was rushed to the sanitarium in the car of a passerby while Mr. Richardson was brought in a Green ambulance which responded to a call.

Other occupants of the machine at the time of the accident were Mrs. J. M. Richardson, and Mr. and Mrs. L. D. Richardson and their baby. Mr. Turner is the father of Mrs. L. D. Richardson.

Lions Talk Plans For Realizing on Electrolux Gift

Plans for turning the new Electrolux presented the Lions club by the Community Natural Gas company through Manager H. L. Dyer, into money, were being discussed by a committee of the club, headed by J. A. Bearman.

The box, of a value of \$246, was an outright gift to the club. Manager Dyer explained that the gift was made to the club in the belief that through the club it best would benefit the entire public.

Helen Girds For 1936 Canvas and Net Campaigns

SAN FRANCISCO, Nov. 21. (AP) —That talented right hand of Mrs. Helen Willis Moody's is acquiring skill at another form of art. Its prowess with a racquet regained her world's tennis laurels in a sensational comeback victory at the Wimbledon championships in England this year and its delicate touch with a sketching pencil already has gained her recognition as an artist.

This fall Mrs. Moody turned her hand to oil painting. Exhibition Next Spring. Her goal is an exhibition of her oils next spring if she has finished enough paintings of a calibre fine enough to suit her taste.

"Queen Helen" works at her painting several hours almost every day of the week in the big studio living room of her home, which is particularly adapted for her purpose because it was originally built by an artist. A large skylight gives the even light necessary to her work. The room itself is comfortably furnished, with lamps made from some of her many tennis trophies a prominent decorative feature.

So far, Mrs. Moody has worked chiefly at landscapes and still life paintings.

But her renewed interest in art does not keep the champion from the courts.

Keeps in Trim. "I practice four or five times a week and intend to play tennis as long as I am able," she remarked. And how about another shot at Wimbledon?

"Don't you think it is too early to talk about going to Wimbledon next year?"

SPORT SLANTS

By PAP

The grumbling of discontented football fanatics has been confined to a low rumble as far as their displeasure with the manner in which the officials at football games are handling their jobs is concerned. Here and there one hears of some minor complaint but on the whole there is no great amount of kicking.

The job of officiating at a football game is not an easy one these days and while it is impossible to avoid all mistakes, it is gratifying to note that errors on the part of the officials this season have been few and far between. Now and then a situation arises that might give the spectators slight reason to question an official's decision, but it must be remembered that the "men in white" are in the best position to see and judge accurately.

The grumbling of the spectators does not make the officials' task any easier. Nor does a demonstration such as the frenzied followers of the Dartmouth eleven staged in the Yale bowl add to the peace of mind of the officials.

The final minutes of the Yale-Dartmouth game were played on a gridiron devoid of goal posts. With the Big Green leading Yale by 14 to 6, Dartmouth rooters loosed their pent-up emotions, swarmed down on the field and tore down the goal posts. Fifty-one years is a long time to wait for a victory but that hardly justifies such a demonstration. Suppose the Yale eleven had put over a score in the last few seconds—just what would the offi-

Bears Risk Rose Bowl Chance at Stanford in West's Big Game

By O. T. BUCK.

California's Golden Bears, gathering momentum game by game, definitely will have their minds on the Rose bowl when they raid the camp of the Stanford Indians on November 23.

On the short end of the scoring in the "Big Game" since Stanford's sophomores who are now seniors started slashing their way to two Pacific coast conference championships, California has only this big hurdle as the barrier to a Rose bowl bid.

Thanks to the opportune kicking of "Monk" Moscrip, the Indians' great end, Stanford has edged out most of its conference games by field goals. On the other hand, California has been the opportunist—putting the pressure on its opponents and pulling out victory by heads-up football.

Called in some quarters the team "without an offense," the Bears nevertheless uncovered an attack when needed in their most sensational victory, the 14-to-0 he stepped back to drop-kick. The ball bounded squarely into the stomach of Capt. Mike Hilgers of Wesleyan who with no need of interference, sped to the goal line for the touchdown that tied the score. Playing time was over during the run and all that remained was the try-for-point. Captain Hilgers took a careful squint at that crossbar, kicked successfully and won the game.

win over Washington. California quickly capitalized a break for its first touchdown and made the second on sheer power and judicious use of the forward pass.

Moscrip's Toe Is Indian Weapon. While the team "without an offense" has shown the punch at critical moments all season, the powerful running attack of Stanford had to turn to Moscrip's toe to win three games in succession—over Washington, 6 to 0; over Santa Clara, 9 to 6, and over Southern California, 3 to 0.

It has been a case of the great Stanford back, all-America Bobby Grayson, motoring his team down the field to let Moscrip put over the winning goal. And not by coincidence perhaps is it the case that Stanford's 7 to 6 loss to U. C. L. A. came on an afternoon when Moscrip's aim was faulty on both the point conversion and field goal tries, partly because of lack of practice due to a knee injury.

A 'Reserve' Is the Hero. As usual, the starting halfback is not the hero at California. This season it is Floyd Blower, who is the sparkplug, usually injected into the game some time after the start. He has engineered most of the Bears' scores with his running and accurate passing. He has been the mainspring of the California offense.

Stanford's power has suffered a drop since Grayson has been deprived of the blocking of Frank Alustiza, out with an eye injury, and "Bones" Hamilton, who suffered an injured leg in what was expected to be his best season. Grayson, too, has been bothered by a leg injury. To offset this the Indians have developed three sophomore backs, Coffis, Vigna and Paulman.

Until the Washington game, California had not suffered a se-

rious loss from injury. Then Jack Brittingham, flashier of the two Brittingham brothers at the ends, wrenched a knee while making a sharp pivot.

As the "Big Game" nears, California is apparently set to throw a wealth of capable material at a bunch of seniors backed by a willing but small group of alternates on the Stanford side.

Veteran Catcher of 'Hoss Thieves' Still Tracks 'Em

SPRINGFIELD, Mo., Nov. 21. (AP) — Benjamin Thomas Bristow reckons he's "the best hoss thief catcher in these parts" although business isn't as brisk as it used to be. Just the other day he nailed his sixty-fourth horse stealer in the 50 years he's been "trackin'."

"There's two things you need to be a good hoss thief catcher," he advised, with gestures. "You naturally got to know hosses. You got to work hard and make a lot of inquiries. A kid you meet along the road sometimes will help more than grown-ups."

Bristow takes the measurements of the tracks of the missing animals before he hits the trail.

Like Fingerprints. "A hoss's hoof prints is kinda like human fingerprints — each one of them's different to a man that really knows hosses. I used to think I pussonally knew every

hoss in these parts. Whenever a strange hoss come to town, I spotted him right away."

It was a strange "hoss," he said, that led him to look twice at a man, woman and child who drove into Springfield years ago. At the sheriff's office he found their pictures—"wanted." A short time later he arrested them and an Iowa sheriff called to take them back to that state.

"Up in Iowa a mob got 'em and hung 'em—I recollect they sent the baby to an orphans' home. I had figured they might be hoss thieves when I saw them come in, but it turned out they were just murderers."

From the Chief of Police to the Housewives and Citizens of Cisco

THIS IS A WARNING to BEWARE of STRANGERS posing as salesmen, solicitors or inspectors calling at your homes. THEY SHOULD NOT BE ADMITTED UNTIL THEIR CREDENTIALS HAVE BEEN CHECKED UP AND VERIFIED AND THAT YOU ARE SURE you are dealing with local people — REPRESENTATIVES OF LOCAL FIRMS. IN MANY CASES and from our police records lack of caution on the part of householders in allowing STRANGERS — without reliable credentials in the homes have resulted in costly property losses and bitter experiences. Often the man or woman calling today

—THE STRANGER — is the "spotter" or "locator" for a professional who follows in a later date.

DO NOT PAY CASH IN ADVANCE TO STRANGERS— On an order as too often we have had reports from our own citizens that THEY HAVE NEVER RECEIVED ANYTHING FOR THEIR CASH IN ADVANCE—much less the refund on the down payment.

DO NOT CASH CHECKS for STRANGERS — or issue a check to a stranger on an order as many times these checks have been altered and later cashed by an innocent party.

IT'S BETTER TO BE SAFE THAN SORRY — be absolutely sure you KNOW with whom you are dealing before granting admission to strangers to your home.

IN CASE YOU ARE SUSPICIOUS PHONE THE POLICE AT ONCE — Phone 539. DO NOT DELAY THIS — as it will aid the police to locate the itinerant.

ONE NEED NOT BE AFRAID of OFFENDING the honest salesman known to you as a local citizen REPRESENTING LOCAL FIRMS, THEY HAVE THEIR CREDENTIALS WITH THEM — welcome such investigation.

M. L. PERDUE,
Chief of Police, Cisco, Texas.

DO NOT confuse representatives of local institutions with the itinerant peddler . . . for they represent legitimate business houses which furnish employment to local people, pay local taxes and are entitled to an interview. Protect yourself. Ask the man who calls for credentials from his employer.

Death of Doswell Lane Is Described

The following account of the accidental death of Doswell G. Lane, son of the late Mrs. J. M. Lane of Cisco, appeared in the Almagorda, N. M., News of recent date:

"Doswell G. Lane, of Las Cruces, received fatal injuries in a crash against guard rail posts near the J. H. McNatt store Thursday, Nov. 7, at about 4 o'clock. Lane died in a bout half an hour but was conscious and able to tell his name and names and addresses of relatives.

"Apparently he was driving too fast to make a slight turn and crashed the rail and posts. Funeral was held Friday, Nov. 8 at Almagorda and interment was made in Mount Vista cemetery, a brother and sister coming to attend the funeral. The deceased was an ex-service man. His mother died only a few days before his death, relatives being unable to apprise Doswell of his mother's death as he was on a hunting trip and his whereabouts unknown.

"Deceased leaves survivors in his immediate family: Mrs. W. S. Doss, Seminole, Texas; Joe J. Lane, Roswell, N. M.; Marvin Lane, of Buckeye, (formerly a resident of Almagorda); and another sister in Texas, address unknown. The deceased was a single man."

TURKEY CROP SO FAR WORTH \$12,000 TO CISCO, ESTIMATE

By R. W. H. KENNON
The turkey crop this fall has been worth around \$12,000 to farmers and others in the Cisco country, according to estimates of J. H. Ballard, Cisco poultry dealer.

In connection with the Western Produce Co. of Abilene, Mr. Ballard said they were loading out a third car of dressed turkeys Saturday evening, and could easily have handled the fourth car had the market not closed Saturday, as another car was in prospect when the message came to cease buying.

"Whether the market will open again for Thanksgiving I am not advised," he told the Daily Press Saturday. "But I feel certain it will re-open for the Christmas holiday trade."

"A car load of turkeys weighs from 20,000 to 22,000 pounds, or an approximate average of 21,000 pounds, making a total of about 63,000 pounds of turkeys that left Cisco for other markets during the turkey season. This means a cash income of about \$10,740, as the price will average 18 cents per pound. Then we easily paid out \$2,000 additional for pickers, helpers and others, such as truckers, graders, classes and other helpers.

"I don't think I have ever seen such fine specimens of birds as those produced this year. They were fat and well developed."

"We were badly hampered for lack of pickers. We just couldn't get them. Pickers were paid five cents per turkey. Experienced pickers could handle as many as 40 turkeys a day, while green hands could take care of from 15 to 20. In addition to the pickers we have to employ eight or ten

others during the turkey season. All the week, starting Saturday, November 9, we had from 75 to 100 pickers, and could have used many more if we could have gotten them. But at that, \$12,740 is no mean sum to be distributed among the people of the Cisco country."

The Ballard Poultry Co. moved out of the D avenue location at the beginning of the turkey season as the slaughter equipment is located at that stand, but he stated he will return to this location January 1.

Owing to the illness of B. D. McNutt, who has been representing the Western Produce Co. here, W. R. Andrews arrived in Cisco Saturday to take charge of the local plant. He stated most of his records had been sent in to Abilene, and he could not supply the actual figures, but those given the Daily Press by Mr. Ballard, while quoted from memory, he said were practically correct.

SHE'S THE GIRL WHO HANDLES YOUR TELEPHONE CALLS

This is the girl who handles your telephone calls. Every part of the far-flung Bell System organization exists largely to help her do the best possible job of connecting you with the people to whom you want to talk.

Linemen cling to icy poles to keep the voice-paths open to her touch. Staff experts of American Telephone & Telegraph Company, parent company of the System, hunt better methods for her to use. Scientists of Bell Telephone Laboratories seek new inventions to place at her finger-tips.

And the factories and shops of Western Electric, supply unit of the Bell System, are busy making the insulators, the wires and the equipment she needs to flash your voice around the block, across the state, or across the nation.

It is largely because this group of specialized organizations stands behind her...and has done its job so well for her...that she is able to give you the good, economical telephone service you receive today.

DAILY PRESS 100 PER CENT RED CROSS ROLL CALL FIRM

The Cisco Daily Press was the business firm in the territory canvassed by the team of Mrs. Paul Woods and Mrs. George... Fee to go 100 per cent in the red cross roll call, they said Wednesday. Every employee of the company enrolled as a member when the workers called in the course of the campaign. The campaign started off at 9 a. m. with most of the team captains and their workers on the park, and reports of the progress being made over the city were encouraging, Mrs. J. E. Spencer, roll call chairman for Cisco, said. The goal before the roll call this year is 500 memberships, or one-third of the total sought from the entire county.

6 Churches Put Offerings in Car for Buckner Home

Twenty-six churches brought offerings for Buckner's Orphans home to the car spotted Tuesday at the T. and P. yards to receive the gifts, a checkup showed. Value of the offerings was \$1,200. The car was donated by the railroad, the Rev. T. J. Sparkman, pastor of East side Baptist church and chairman of the committee, said. He expressed the committee's thanks to the railroad and to the T. and P. officials for their cooperation in loading it. The offering is an annual event with the Cisco Baptist association.

FD APPROVES COMM'N DRIVE

WASHINGTON, D. C., Nov. 21. (P)—Presidential approval of an aggressive securities commission fight to win holding company conformance with the new utility law was reported given Saturday at a White House conference.

James Landis, commission chairman, talked at length with Roosevelt. Landis was noncommittal on the parley, describing it as "general in score," but conceded the utilities situation was "mentioned."

The capital understanding was that Roosevelt had approved the commission's warning to stockholders and its generally aggressive attitude toward holding company registrations. Companies must register within 15 days for supervision or face a court fight.

WPA Jobs Are Now Available for All Employables, Says Paschall

There is a WPA job available at this time for every employable on the relief rolls in Cisco and vicinity, Crigler Paschall, director of the NRS at Eastland, announced Saturday morning. Three WPA projects are under way, their quotas of workers as yet unfilled, while several others are yet to be started. It was estimated that more than 200 additional men will be required to fill these quotas.

Projects under way in Cisco at this time are the west ward school remodeling calling for 144 men, and now employing 65; the Lake Cisco Sandy park project, calling for 50 and now employing 35, and the state fish hatchery projects, to employ more than 100 men and now using only 35. These quotas are being filled as rapidly as possible, Mr. Paschall said.

To Be Started.
Projects to be started include that for the general repair of the school buildings and two "farm to market" road jobs in Precinct No. 4. The road projects will employ 72 men.

It is very necessary, Paschall said, that those applying for work on these jobs report to his office in the county court house at Eastland Tuesday or Wednesday of this week.

Mr. Paschall also explained that a former rule which jeopardized a WPA worker's place on relief if he left a WPA job to accept temporary private employment has been rescinded. A WPA worker, he made clear, may report to the superintendent on his job and obtain a leave of absence to do private work and return to the WPA project when the private work is completed. This will be encouraged, Mr. Paschall said, because it has a tendency to increase private employment.

The amount of WPA work that will be available in the county this winter is large, he said. More than \$2,000,000 worth of projects have been approved, including a \$1,500,000 "farm to market" road program submitted by the county. The other \$500,000 is scattered around in municipal, school and state work. The total does not include the re-location of Highway No. One through Cisco which calls for an expenditure of \$162,000. This work will pay standard wages, in contrast to relief wages, Paschall explained. His office will furnish the men, however.

NEW HEAD OF PRISON DIES

AUSTIN, Nov. 21. (P) — Dave Nelson, 48, manager of the Texas prison system since November 1, died early Saturday.

Death followed a heart attack coming after Nelson had showed signs of gaining strength in a critical illness with pneumonia.

Nelson, a war veteran and a native of Texas, was widely known in the business and political circles of the state. He was a director of the First National bank of Orange, had been president of the Orange chamber of commerce and the Orange Rotary club, a Texas democratic executive committee member, state prison board member and chairman of the Texas Livestock Sanitary commission.

Members of the family left Huntsville Saturday afternoon with the body for Orange where funeral service were held Sunday afternoon.

Nelson had planned several changes in the prison system, including segregation of convicts and a full athletic program.

Texas Plans Hunt for Lost Public Domain

AUSTIN, Nov. 21. (P) — Texas plans a hunt for some of her lost acres.

Somewhere along the line, it was estimated, 6,000,000 acres of public domain have been lost in the state's vast area. It is proposed to recheck Texas real estate through a federal works relief project, now tentatively approved.

With oil discoveries, vacant Texas land has assumed added importance.

Thrift Stamps Will Publicize Centennial

Motivated by a desire to publicize the Texas Centennial celebration in 1936 and to enable every Texan to attend one or all of the magnificent pageants absolutely free, dozens of the nation's organizations and corporation have banded together for this purpose. Through the medium of "Centennial Thrift Stamps," which will be issued by merchants in every cross-road and city of the state, every Texan will be able to pay his or her transportation to and from any Centennial center they select, also, pay their hotel and restaurant expenses, entrance admission charges, and even to purchase gas and oil for the family "Lizzie."

Cooperating in this gigantic patriotic Texan plan are such famous names as the Greyhound Bus Lines, Bowen Air Lines, Western Union, some 250 hotel and restaurants, uniform bodies of the Shrine and, to date, better than 3,000 Texas merchants in every line of business.

Do You Know Him?

The Chances Are You Do Not - -

He is an individual, one of the hundreds of thousands who are engaged in earning an honest living. The results of his work came to you in the form of efficient services. He may be one of the personnel who supply you with food, with automobiles, with gasoline or with any of the other commodities essential to modern living.

You would probably like him if you knew him. You would find him entirely human, with warm blood in his veins, with likes and dislikes, preferences and feelings like yours.

But because you don't know him personally—because he is to you the impersonal unit of a system that is mathematically exact in its functionings, you think of him, not as human, but in terms of the organization.

There is a tendency in services while aiming at efficiency to subordinate the personal, friendly element and eventually to present a cold, polished and unsympathetic front. We believe that personal service is essential to efficient service. We want you to know us as fellow citizens, engaged with you in building a prosperous community. DEEP WELL ON DELAFOSSE.

ALBANY, Nov. 21.—Pitzer & West-Humble Oil & Refining Co. No. 2, Geo. T. DeLafosse, is rigging up with standard rig, preparatory to spudding the second Ordivician test on the DeLafosse ranch, 10 miles east of Albany in the center of southwest quarter of T. E. & L. survey No. 1,559, being located about a half mile north of the Pitzer & West No. 1, Geo. T. DeLafosse which was junked after nitroglycerin explosion 1,100 feet off bottom which collapsed casing and ruined a well which had made several good flows from Ellenberger lime at 4,453 to 4,460 feet. Breckenridge lime at 3,168 to 3,640 feet carried a good show of oil and gas, which was not acidized or shot, although operators thought they might have commercial production if they failed in the deeper Ellenberger formation.

The 5,000-acre block held by Pitzer & West of Breckenridge and Humble Oil & Refining Co. of Houston, centers on the DeLafosse ranch and where big company holdings have been for the past 17 years, with Magnolia Petroleum Co. holding lease on the DeLafosse during that period since 1918, on tracts close to the new well, being the only major company holding acreage inside the block, and O. H. Chapman of Waxahachie being the only other operator holding leases inside the block.

Gulf Production Co. had previously carried this large structure on their lease books for 15 years, but allowed their leases to expire a short time before Pitzer & West leased the large area little more than a year ago. Mid-Kansas, Cosden, Wesheimer & Danube, Sun Co. and Milham Corp. have also held leases in the area that have expired.

Roeser & Pendleton, Inc.—Merry Bros. & Perini, Inc., 4,000 acres adjoining the Pitzer & West-Humble block on the west and south will see an Ellenberger test starting around the first of December.

Big companies and independent operators have been watching the eastern Shackelford developments closely and leases have been in demand, with several nice deals having been made on surrounding leases. The largest royalty sale near the DeLafosse well was on 480 acres to the northeast side of the block on a base of \$40 per acre.

A large casinghead plant of Phillips Petroleum Co. at Ibex and the Lone Star Gas Co., Ibex booster plant on their trunk line to Fort Worth and Dallas, creates a demand for gas from the eastern portion of Shackelford county and the plants are only five miles south of the new test on the DeLafosse ranch.

NEW WELL ON LEE RANCH.

ALBANY, Nov. 18.—Owens-Snebold Oil Corp.—F. H. E. Oil Co. No. 10, T. W. Lee, scored a south extension well with a 60-barrel pumper from Flippen sand at 1,072 to 1,078 feet on the south end of their 80-acre lease in west half of northeast quarter section 23, block 11, T. & P. three miles west of Albany, where production is coming from Tannehill, Flippen and Hope sands.

Ray & Stanforth No. 2, J. P. Vickers is drilling at 400 feet, one location north of the same operators' No. 1, completed last week for 100 barrels in the Bluff Creek sand in southeast corner of northwest quarter of section 207, E. T. Ry. in western Shackelford.

J. L. McMurray heirs No. 2, Dawson & Conway, is drilling at 1,350 feet in the center of southwest quarter of section 193, E. T. Ry. in advance of production on the northeast side of Bluff Creek pool.

Fortex Oil Corp. No. 1, R. E. Burns, is drilling at 1,200 feet on a Strawn or Moran sand test in section 18, Orphan asylum lands seven miles southeast of Albany, which will test to 2,000 feet.

A. A. Michaels et al No. 1, Florence J. Whitney, is drilling at 950 feet on another Strawn sand test just across the Shackelford county line in Stephens county in J. Gregg survey 4.

Tannehill, Kiser & Fleming No. 1, J. A. Matthews, is drilling at 800 feet in the east portion of north half survey 2, E. T. Ry.

Mauna Kea, highest mountain in Hawaii, has not had an eruption for 25,000 years, according to the Hawaiian Academy of Science expedition which studied the 13,825 foot peak recently.

The first woman to compose and conduct her own opera is said to be Ethel Leginska, the pianist. The piece is called "Gale," and will be given November 23 by the Chicago City Opera.

\$20,000 Oil Deal Is Made in Shackelford

ALBANY, Nov. 21.—One of the largest production deals of the past few months was completed this week with filing of transfer of lease holdings of Texas Central Oil company of Albany to Kittery Oil company of Wyoming of the 83-acre lease and two producing wells on the Anne Eaheart farm, survey 18, block 11, T. & P., a half mile west of Albany and 120 acre lease and one producing well on T. W. Lee ranch, five miles southwest of Albany.

Production on the Eaheart lease was from Bluff Creek sand at 700 feet with an average of around 40 barrels daily, and from the Lee lease in the Tannehill sand.

Consideration in the transaction was \$20,000, with considerable undrilled acreage included.

Texas Central Oil Co. has other holdings in the Dawson & Conway and in Newell ranch that were not included, and is now drilling a test on the Dawson and Conway ranch in section 162, E. T. Ry.

Bits weighing nearly a ton have been invented to bore wells more than two miles deep.

Theater Manager Who Balked at \$175 For Rogers Later Glad to Pay Him \$3,000

Twenty years ago, John R. Elliott Youngstown, Ohio, theater manager, sought a nextra-special vaudeville bill—something with plenty of zip and snap—for the opening bill for his fine new vaudeville theater. And here's the bill he finally lined up and what he paid for it for the week:

Prevost & Brown.....\$125.00

Will Rogers.....175.00

Blossom Seely.....650.00

Cantor & Lee.....350.00

Billie Gaxton.....350.00

Bernie & Baker.....250.00

Five Columbians.....300.00

Total.....\$2,300.00

The whole bill was satisfactory to Elliott—that is, all but the one act with the horse.

"This guy Rogers," argued Elliott, with the booking agent, "won't do. The rest of the bill is fine—but Rogers is out. This, you understand, is something special, an opening bill."

But the booking agent finally prevailed upon Elliott to accept the bill. Rogers and his horse, along with the others—Joe Brown and Marie Prevost, movie celeb-

rities now; Blossom Seely who later became a famous stage star, Eddie Cantor, Billie Gaxton, now a famous Broadway star; Ben Bernie, the radio and movie star and Phil Baker of radio fame; and Marilyn Miller, who became a famous Ziegfeld and movie star.

Years later, Elliott sought to book Will Rogers again—this time for a single performance at \$3,000; and he didn't get him until he got a bad scare.

Meeting Elliott, Will Rogers launched a lengthy tirade.

"You—you—you," he stormed. "You beat me. You, as I figure, owe me \$41,825."

Elliott was taken back, under the storm. Rogers went on. "You're willing to give me \$3,000 now or one appearance; before you paid me \$175 for 14 appearances. I'm still the same man."

"You owe me \$41,825—to say nothing of what you owe my horse."

He broke out laughing at Elliott's discomfort. They later became fast friends.

Four Americans Reported Beaten by Rome Fascists

ROME, Nov. 21. (AP) — Four American musicians were beaten by Blackshirts here, friends were told Saturday, after they had laughed and failed to salute when a fascist funeral passed. The Americans composed the "Manhattan String Quartet" and were scheduled to play Monday under the auspices of the Rome Philharmonic society. They cancelled the engagement after the incident and left for Paris. The quartet was composed of Rachmael Weinstock, New York; Oliver Edel, Yonkers; Harris Danziger, London, and Julius Shafer, New York.

JAPS BLAME US POLICIES

(By Associated Press.)
 The Japanese foreign office attributed to British and American policies in China the necessity for an internal political campaign to ouster North China from the Nanking government.

Tokyo explained that the United States' silver purchase policy had intensified China's economic troubles and that Britain's support of Nanking currency reform had aided the autonomy movement.

Washington betrayed deep concern, although there was no comment. American business firms have large holdings in the affected territory. There was much speculation whether a note would be sent to Japan. At Nanking, Japanese Ambassador Akira Ariyoshi said "Generalissimo Chiang Kai-Shek (Chinese nationalist leader) has given me solemn assurance that Japan has no cause for apprehension regarding North China."

Advertising is not an expense—its the life blood of any business.

Nance Again Heads Methodist Stewards

S. H. Nance was unanimously re-elected chairman of the board of stewards of the First Methodist church for the new conference year at the initial meeting of the board Monday night. S. R. Wood was chosen vice-chairman and A. G. Bradley was elected secretary. Mr. Nance was given high praise for the work which he did during the last year in directing the church's financial program. The church paid out in full.

Mistrial Declared in Eskridge Case

HOUSTON, Nov. 21 (AP)—District Judge Langston D. King Tuesday declared a mistrial in the Reverend Eskridge murder case, when he was informed that one of the men chosen for the jury, W. R. Morgan, was under a two-year suspended sentence on a charge of assault with intent to murder.

It was not announced whether the trial will be reset for a later date or be transferred to another county.

WORK ORDERS ISSUED UPON \$134,000 ROAD PROJECTS

Out of a total of approximately \$1,500,000 in approved W.P.A. "farm-to-market" road projects in Eastland county, work orders have been issued on \$134,802.81, with some already under way, County Comm'r Arch Bint said today.

Two of the projects are in Mr. Bint's precinct No. 1, and another—the Grapevine-Eastland road—is located between Precinct One and Four and shared jointly by them.

All the roads will be widened, reshaped and gravelled, making them all-weather in character, Mr. Bint said.

The projects on which work orders have been received are:

Gorman-Desdemona road — 42 men, \$3,679. Project under way.

Grapevine-Eastland road — 113 men, \$31,704.85. Work started Tuesday.

Scranton-Dothan road — 82 men, \$12,320. Work to begin Thursday.

Cisco canyon road—64 men, \$16,684.46. Work to begin Friday.

Okra-Rising Star road—60 men, \$27,354.50. Work to begin Monday.

Ranger-Chaney road—92 men, \$43,060.10. Work to begin Monday.

J. R. Stubblefield Estate Comes Out of Receivership

EASTLAND, Nov. 21—The estate of the late J. R. Stubblefield of Eastland emerged from receivership Friday.

Receivers J. A. Beard and L. A. Hightower were discharged and their salaries, \$959.10 and \$650, respectively, were ordered paid.

The suit was brought by Mrs. M. J. Rust, who was joined by

39 individuals, companies and corporations as intervenors. Defendants were William Tilman Stubblefield, B. W. Wilson, B. W. Patterson, R. L. Rust and Walter H. Wilson.

The court found with the exception of Mrs. Charles C. Robey, H. W. Wilson, Mrs. Ruth Martin Wood and Dave Earnest all accounts had been paid off and satisfied. For those intervenors whose accounts had not been paid, the court found satisfactory arrangements for renewal and extension of the indebtedness had been made.

Intervenor were G. W. Fisher, Walter H. Wilson, Ruth Martin

Wood, Belle Wilson, Minnie R. Robey, Charles C. Robey, Mrs. M. C. Callerman, joined by her husband, M. E. Callerman, Mrs. J. L. Ramsey, Mrs. Carrie Marchbanks, Clara Bendal, Pattie Towler, and husband, E. G. Towler, W. D. Sneed, Lawyers Co-Operative Publishing Company, a corporation, Cities Service Oil Company, a corporation, J. R. Thomas, A. Grist and Fred Grist, West

CLASS NAMED FOR TEACHER

Paying tribute to his long service, the men of the First Baptist church Sunday school have formed one large class and named it the "Walker Bible class" in honor of W. F. Walker, teacher.

F. E. Shepard was elected president of the newly organized class. Doc Cabaness is vice president; Parks Poe and Clarence Cleere are secretaries, and Jewel Poe and W. F. Robertson are group captains.

The group captains are responsible for attendance, a goal for which has been set at an average of 50 or more each Sunday. A large and comfortable class room is located in the church basement. An invitation was extended to all men of the community.

Employables Refuse Work, Ordered Off

FORT WORTH, Nov. 21. (AP)—Dist. Adm'r Floyd Helm ordered all employables off direct relief in Tarrant, Denton, Montague, Wise and Cooke counties because they had refused to accept jobs in turkey dressing plants, he said.

"There is no excuse for any employable man or woman turning down work of this kind," Helm asserted.

Wild-Fowl Hunters Enrich Bird Lore Of U. S. Survey

By SIGRID ARNE. WASHINGTON, Nov. 21. (AP)—The dim paths that birds travel across the skies will become a little better marked as the crack of hunters' guns sound across marsh and woodland this fall.

Some of the fallen birds bear on one leg a little aluminum band with the request, "Notify the biological survey, Wash., D. C.," followed by a serial number for identification purposes.

Those numbers will be mailed to the survey with description of the place where each bird came down. The survey files tell where the bird was marked, and, by comparing the facts, the survey staff will know how far the bird has flown, just about in what direction, and about how old it is.

It's a Year-Around Job. Such records flood the department during hunting season, for the most part concerning birds which are sought by sportsmen. But all year long the trails of hundreds of other species of birds are traced through trapping or through their death.

The grandfather of them all so far was an aged osprey, a species of hawk, which died at Gardiner's island on June 1 of this year. He had been banded in the same neighborhood on June 19, 1914. Whether he lived there all his life or flew away at different seasons there is no way of telling. But that he lived to be 21 years old, they do know.

Some birds go back to the same neighborhood each year. Trappers catch them five and six years running. Some of the birds are so

canny they seem to use the survey traps as free lunch counters, acting as if they know they will be set free again.

Others, in particular the terns, hitch-hike their way across the Atlantic probably following boats, taking rests either on deck with the cash customers or huddling on the water, since they are a species of sea-gull. Two have been taken in Africa bearing markers which had been placed on them in Maine. Some, found in Greenland, had been marked in Denmark.

Trans-Atlantic Fliers! Two black headed gulls which set out from Germany were found five months later on this side of the ocean, one near Vera Cruz, Mexico, and one in the British West Indies.

Through this method of marking the biological survey has checked the meanderings of more than a million birds. In the fiscal year ended July 1, 1935, records of 249,829 birds were acquired.

It has been found that migratory birds of North America travel four great air highways. They are listed as the Atlantic, The Mississippi, the Central and the Pacific fly-ways. Somehow, each year the birds travel north and south by the same route.

The facts have been uncovered bit by bit through the work of volunteers who are instructed and granted a federal license for banding birds by the survey office. There are 1,800 who hold such permits now.

Unlike hunters, their primary purpose is to turn the bird free

INJURED IN ROAD MISHAP

Miss Minnie Henry, 23, Moran, Texas, is in Graham sanitarium with a fractured pelvis bone sustained when the car in which she and a Moran group were returning from a football game late Friday afternoon struck another machine and ran into the ditch on Highway 23 five miles south of Cisco.

The accident occurred when the second machine drove upon the highway from a side road, it was said. Miss Mohlia Henry, 17, sister of Miss Minnie, was driving. She said she saw the second machine, a trailer attached, driving toward the highway and sounded her horn. She slowed down, but when it appeared the other driver was going to stop, she swerved the car to avoid a collision, the front fender of the Moran machine struck the rear fender of the other, and the Moran car ran off the road and plunged over the dump into a 12-foot ditch, filled with water. It did not turn over.

Miss Margaret Chambliss, another occupant of the car, was severely cut by broken glass. Mrs. Theodore Henry, sister-in-law of the Henry girls, and Miss Gladys Nell Thomson were other occupants, neither of whom was hurt.

The women were returning from a Moran-Pioneer football

game at the time. J. D. Collingsworth, also returning to Moran from the game, brought Miss Henry to the hospital. Miss Chambliss was given treatment at a local doctor's office. She returned to Moran with others of the group.

Mexico and U. S. War Upon Fruit Pests

HARLINGEN, Nov. 21. (AP)—The United States and Mexico are joining in a more intensive war against insect pests common to both countries as a result of the first international plant quarantine conference held here.

Eradication of the Mexican fruit fly, which sometimes infests orchards of the Lower Rio Grande valley, and of the pink boll worm were the chief topics discussed.

Mother, I can't Study—My head hurts!

As a usual thing, he is "such a regular guy." He comes home from school full of pep and energy. Of course you want him that way always. But are you protecting his health and safety during the few short months of winter when he must spend his evenings indoors?

That uncomfortable "stuffy" feeling . . . dullness . . . lowered vitality . . . headache—these are some of nature's ways of complaining against improper heating and insufficient ventilation. These are the warning signals that America's Public Health Enemy Number One, the common cold germ, has found another fertile field in which to attack. For your health's sake and that of your loved ones do not wait for these definite signs of warning that the air indoors has become stale. Keep the air you breathe constantly purified with fresh oxygen through adequate ventilation in every room in the house.

Tune in each Thursday night at 6:30, WFAA-WBAP, for vital facts to help you guard your family against the common cold germ.

Without oxygen man cannot live. Without oxygen, fuel cannot burn. Therefore, if your family "huddles" in one or two rooms around an open flame heater during cold weather with the doors and windows tightly closed, you are violating all the rules of nature, good health and good heating. Sooner or later the occupants of the room and the burning fuel reduce the oxygen content to the point where the room air becomes stale. Without adequate ventilation and circulation the air indoors may become as foul and unhealthy as that of the tenement slums of large cities, even though your home may be the most beautiful in the neighborhood.

A simple and easy method of providing a constant circulation of fresh air is found by opening a window in each room a few inches from the top and bottom. Connecting doors left open between adjoining rooms when the entire house is adequately heated provide a natural circulation of pure warm air from one room to another. Incidentally, fresh, pure air is easier and more economical to heat than "stale" air.

Guard the health of your loved ones with adequate heat and proper ventilation of pure air in every room in the house.

WTCC COTTON PLEA BACKED BY CHAMBER

A resolution endorsing the West Texas chamber of commerce appeal to Sec'y of Agriculture Wallace for a more equitable allotment of tax-free cotton to west Texas areas under the Bankhead plan was passed by the board of directors of the Cisco chamber of commerce Tuesday night.

It was pointed out that the base years upon which cotton allowances have been allocated include subnormal years in certain west Texas counties due to drought when nothing was produced. Effect of this is to reduce the allowable for these areas much below what it should be, in comparison with other areas not affected by those droughts.

The appeal is made to adjust the base period so as to include productive years of a character to increase the allotments to an equitable extent.

At the time of passing the resolution, the board also voted to circulate petitions among the cotton producers of the Cisco area urging the department of agriculture to accede to the WTCC request.

The highway situation was reviewed and satisfactory progress was reported on all projects, including that of securing right-of-way for the relocation of Highway No. One.

REICH

Rev. A. D. Armstrong of Cisco, the new pastor for the Reich Methodist church, filled his regular appointment Sunday. His messages were enjoyed by those attending.
