Baird Recreation Club To Dedicate New Field; Cisco Junior College Matched For First Game

The Baird Recreation Club, Inc., was formed for the purpose of providing recreation and entertainment to the citizens of Baird and surrounding communities. Realizing the need for summer recreation program in this community, several citizens met April 6th and discussed the possibilities and means of securing facilities for this program. Shares were sold and a corporation, with state charter, was issued May 28, 1949. A meeting was held with the officers and directors being duly elected by stockholders. Bob Neal, president; Ray Black, vice-president; Cecil West, secretary and treasurer. Materials and necessary equipment was ordered by the City and an agreement was reached as to the supplying electric current and further cooperation in any way needed. Necessary labor was provided by stockholders and other interested citizens.

The Club wishes to thank all the citizens who contributed to this cause, either labor or other means, and to the City of Baird for their fine cooperation shown by officials and all employees. The members of this organization are dedicated to the principle of the available playing facilities for the youth of the community. We realize that boys and girls participating in a clean sports program are less susceptible to juvenile delinquency.

Due to the late opening, an organized youth program will be improbable for this summer, but with available facilities present and sponsored through local churches or other organization, this program will be possible next year.

Thus, with the opening Friday night, another phase of progress has been instituted for the city and community of Baird.

LEGIONNAIRES TO PLAY CISCO JR. COL. FRIDAY

In the latter part of March, at a regular Legion meeting, the members voted to sponsor a Legion softball team. Ed Sunderman was elected to organize and manage this team. After working out for several weeks, the Legionnaires played their first game against Cisco Junior College, in early May, and were defeated by a score of 6 to 5. The following week the locals played the Service Club of Albany and won by a score of 5 to 4. The next opponent was Rose Construction Company of Albany, the local team winning 8 to 6. The next playing date was with Putnam, with the Legionnaires winning by a score of 29 to 6. The last game was against the Radford Grocery team of Abilene and the Legionnaires defeated this team 13 to 7, and incidentally Radford Grocery is leading their league in the City of Abilene.

In Matching the game for the opening night, the Legionnaires felt that the local public would favor witnessing a very good opponent and this team, being the

only victor over the Legionnaires, a very good game is assured. Cisco Junior College boasts one of the strongest teams in central Texas, and the locals are out for revenge for their defeat handed them by this club.

Admission to all ball games for this season will be 25c for adults, children under 14 accompanied by their parents will be admitted free, otherwise there will be a 10c admission. Tickets are on sale at Holmes Drug, City Pharmacy and Black's Food Store. Let's turn out strong and show the Legionnaires that they have plenty of backing and support.

This Legion team is composed of the following players: Richard Windham, Burl Varner, Jimmy Allman, Charles Allman, Ray Black, Frankie Crow, Robert Warren, Jimmy West, John Conlin, Fabian Bell, Tom Barton and David Neal as bat boy.

On Saturday night, June 18, the Legionnaires will play the Breckenridge team, starting at 8:00 P. M.

LIGHTNING CAUSES REFINERY FIRE

The Baird Volunteer Fire Department responded to a call to fight a fire at the Premier Oil Refinery east of town Monday evening. Lightning came in to the office building and burst into flames around a wall switch. The fire started during a heavy rain, which was accompanied by a severe electrical storm. A minimum of damage was done by the fire.

CLYDE YOUTH HURT IN COLLISION FATAL TO 1

Bob Estes, 19-year-old son of Mr. and Mrs. John Estes of near Clyde, suffered minor injuries Sunday in a head-on collision near Lubbock which killed one person and injured three others.

O. N. Nippert, 43, of Levelland was killed when his truck collided with a car driven by Earl Turnell, 32, Lubbock.

Turnell was taken to a Lubbock hospital where his condition was pronounced critical.

Others injured less seriously were Caudell Pryor, 17, and Frances Anderson, 20, both of Lubbock. Estes and the two girls were riding in Turnell's car.

Buy Machine To Fog Town

A fogging machine will be delivered to the City of Baird this week with which the city can wage a fight against the spread of polio and other diseases. The machine is quite expensive and the solution to use in it will be costly. Some means of paying for the campaign will be followed without taking the funds out of the city tax funds, and it has been suggested that all the residents be given a chance to contribute to the cause. The city council will soon announce a plan for financing the drive, and whatever that plan is, all Baird people are urged to enter into and help in that way to keep our city clean and healthy.

Spraying the town will not be sufficient to prevent the spread of disease. A general clean-up campaign should be carried out all over town. To go into detail of what Baird needs in this way, we publish the following report from Dr. George W. Cox, State Health Officer:

Austin — During the last several summers, considerable enthusiasm was shown by various local organization such as Chambers of Commerce, many Civic Organization, and others in the arranging of a fly eradication program. Dr. Geo. W. Cox, State Health Officer, says that for taking interest in this work, the responsible parties are to be commended.

However, with year-round community sanitation the ultimate result, which is so important has not always been too successful; in some areas this has given rise to rumors that flies are DDT resistant.

"The Texas State Department of Health heartily endorses a fly spraying program, provided it includes a general clean-up program carried out during the entire year," Dr. Cox said. "For example, why spray a garbage heap that not only invites but actually breeds flies when it should have been removed. Why spray the city dump when it really should be covered. I fear the unplanned spraying program is similar to the application of perfume or toilet water to overcome B.O. or the application of powder to cover dirt."

In a well-planned fly control program, Dr. Cox declared, all places where flies gather, such as dumps, rubbish piles, garbage piles, decaying vegetation should be cleaned up by hauling away and burying. Proper garbage and rubbish container with fly tight covers should be demanded from all. All buildings should be screened. Then, secure a sprayer outfit, preferably with one or more hoses each manned by a skilled operator to spray the areas where flies and other insects will light. It does little good to spray the center of the street, the ball diamond, or the sidewalks. Spray the surfaces where insects light or breed.

A residual spray remains active until the DDT washes off or is covered with grease, dirt or soot. This usually last four to six weeks. After that, a second spray is recommended provided the item of clean-up is still being carried out.

GRAVESIDE RITES MONDAY FOR MISS GREEN

Graveside services for Miss Lottie Roe Green, were held in Ross Cemetery at 5 p. m. Monday. The services were conducted by Dr. Millard A. Jenkins of Abilene. Funeral for Miss Green, who died of a heart attack in a Ft. Worth hospital Saturday afternoon, was held in the Elizabeth Chapel of the First Methodist Church in Ft. Worth at 10 a. m. Monday.

Miss Green was born June 28, 1903, and was reared in Abilene. She was the daughter of the late R. D. Green, former superintendent of schools there. She had been teaching at Paschal High School in Fort Worth since 1923.

She had planned to leave for Los Angeles Wednesday to attend summer school at University of Southern California before she was stricken with a heart attack Saturday.

Survivors are her mother, Mrs. R. D. Green of Fort Worth; three brothers, Col. J. N. Green and R. D. Green, Jr., both of Abilene, and Bill Green of Fort Worth; one sister, Mrs. A. B. Ruf of San Francisco, Calif.

Bill Jones is attending A.C.C. this summer session.

Diesels Taking Place Of 'Iron Hoss' On T&P

By Hamilton Wright in Abilene Reporter-News
Baird — Rail shanty talk here puts a "frog" in old school rails' throat, brings tears to their eyes.

All this because the old 'iron hoss' will soon be a thing of the past on the Texas & Pacific railroad between Fort Worth and El Paso. The modern Diesel-electric keeps on shoving up the steam locomotives.

Two of these sleek, 6,000-h. p. freight diesels have been blurring the landscape and blaring the ether through Baird and Abilene in the last three or four months.

"But you ain't heard nothing yet."

"Two more will be delivered this month. Each is 6,000 h. p."

"And come December four more Diesels — these of the 4,500 h. p. type — will be moving heavy tonnage in the Baird-Abilene country."

Pat Hailey, general yardmaster here, says he has learned the Tee-Pee's going to completely "Dieselize" the line from the Panther City to El Paso.

Even the switch yards are getting Diesel swith-engines. A 1,500 h. p. streamlined 'switcher' took over at Sweetwater several months ago.

By Jan. 1, 1950, the T&P will have received a total of 67 Diesel units. That means 21 switchers, 10 freight locomotives, five passenger. Freight Diesels combined horsepower will be brought to 54,000 and passenger h. p. to 20,000. Switchers combined h. p. will be 21,500. A grand total of 95,500 Diesel horsepower.

Envision 95,000 horses tugging an immense juggernaut. That's the T&P motive power.

The Road Runner watched a Diesel freight locomotive glide up Mount Airy here like it was a "depression" in the earth. The Diesel had about 4,500 tons hung to it.

But some of the railroad boys here express belief that this immense "Dieselification" will cause discontinuance of several present jobs. It has been unofficially hinted that telegraphers may be taken off at Colerado City and Pecos.

Tramps — poor hombres — who hang around water tanks waiting for a "rattler" to come along, will hereafter have an eternal wait. In fact, water tanks will be a thing of the past.

And those oil fueling stations en route! They too will vamoose, except probably at Big Spring.

The Diesels start with a 'drag' at Fort Worth, whistle through big towns and cities and deliver their tonnage to the Southern Pacific at El Paso.

It's almost more than The Road Runner himself can take. We prefer riding behind the Diesels, and in them. They are so smooth, so easy riding. But no black smoke rolls out the stacks and the steamboat whistles just don't appear to our ears.

But expert rail officials inform us that the steamboat whistle is more respectable, does not injure the delicate ear membranes, and does attract more grade crossing attention. We differ — but we just don't know. But can you do with a sentimental old rail who's prejudiced toward the rolling, rollicking steam locomotive?

BAPTIST REVIVAL AT OPLIN

A revival meeting will open at the Baptist Church at Oplin July 8 and continue through the 17th. Rev. Straus Atkinson, pastor of the First Baptist Church at Kermit, will do the preaching for this meeting, and the local pastor, Rev. John Ivy, will assist him. Everyone is cordially invited to attend.

JOINS STAFF AT MONAHANS

Ray W. Evans, former editor of the Sul Ross Skyline and employee of the McCamey News, has joined the Monahans News as advertising manager and general news reporter. Evans has taught in the Pyote school since graduation from Sul Ross in January of this year. Following his graduation from Crane High School, he served 4½ years in the Army Air Force. He married Miss Marjorie Brandon of Crane, daughter of Mr. and Mrs. C. L. Brandon of Putnam.

Anita Ivy returned Wednesday from Abilene where she has been visiting Mrs. Victor Scarpelli and family. Mrs. Scarpelli returned with her to visit her parents, Mr. and Mrs. F. E. Mitchell.

Fandangle To Open Thursday

Assemble about 250 youngsters from 70 down to 7 years, dress them up in costumes of the late 60's - for that was the Fort Griffin Day - Square Dances, Heel & Toe, Chase the Buffalo - and add in the "Pace Special" - a herd of Longhorns, with a roving band of Indians, cowboys making fun or love in a song - a soprano that can sing a ballad nicely - or a tenor who can sing of frontier events around old Fort Griffin - and that is the Fort Griffin Fandangle show that is set for Albany's Stadium on evenings of June 23, 24 and 25.

All this show revolves around Robert E. Nail, Director and producer of the 7th Fandangle - he does it for fun on a non-profit basis - but he has a staff of workers that start a year in advance in preparation for the big show. President G. P. Crutchfield found 50 pairs of High Top Yellow Button shoes at a North Texas store near Red River and bought the whole stock. A group of college boys and girls with ability to paint, draw, design and build sets and scenery, carry on that part of the job, under Nail's supervision, and he trains the characters and casts, the boys and girls off the ranches and from local homes to perfection, in a community enterprise.

Sets are designed and built by Jack Miller, home for the summer from Pratt School of Design, New York City, with young Frank Booker adding some fine talent. Costume designs of Reilly Neal, Princeton University in New Jersey, are something to see, and the 30 or more seamstresses who have toiled for three weeks are turning out new costumes for boys and girls - it takes a lot of cloth to sew out a flounce and skirt of the late 60's - the locale of old Fort Griffin Days. Costuming and music by Miss Alice Reynolds, New York and Taos, New Mexico artist and musician - Miss Reynolds and Robert Nail turned out "Prairie Land" the Fandangle theme song, used in the Finale.

A host of college students spend their early summer working and learning with Bob Nail on the Fandangle, and they work harder for Nail than they would for pay some other place, as the genius of the director in casting and training makes the Fandangle click.

He puts real life of the pioneer past in highest tribute, with fun and a flair for showmanship in the best of style. "Mademoiselle" this year gave Albany's tribute to the West a spot on vacation map, and in times past the show rated Atlantic Monthly and Think Dancing and music, lights and sound make it a capable vehicle for the theme this year is the "Newspaper," old Fort Griffin Echo-it's editors were many writers, artists, dudes and hard workers in the lot. They formed an important part of the pioneer past of old Fort Griffin.

MASON FILES SUIT TO OUST WEST TEXAS UTILITIES CO.

Attorneys of the West Texas Utilities Company Wednesday said they would contest a suit filed by Mason to remove the company from the city.

Mason filed the suit to enforce provisions of a city ordinance which would require West Texas Utilities to move from the city by July 8.

The WTUC Attorneys say the company is "lawfully there" and has a right to stay.

The answer to the ordinance will be filed by Monday, they stated.

Attorneys said the WTUC was set up long before the city was incorporated but has no franchise from the city. It has been in the city for several years.

Mason is buying its power from the Lower Colorado River Authority and has started its own distribution system. A construction company is nearing completion of the work on the Mason system. It will serve all customers within the city limits.

Some customers at present are still using WTUC power.

Attorneys representing the company are Wagstaff and Alvis of Abilene and Scott Snodgrass of San Angelo.

Mr. and Mrs. L. Grinder of Houston visited his grandmother, Mrs. Bob Beck the past weekend.

PUBLIC NOTICES NOW MANDATORY—Governor Beauford Jester is shown here as he affixes his signature to Senate Bill No. 375. The Bill, known as the Mandatory Publication Law, requires that all public notices called for by Texas Statutes be published, or the official responsible for such publication suffer loss of salary, or removal from office for neglect of duty. Senator James E. Taylor of Kerens, pictured on Jester's left, sponsored the legislation through the Senate. House sponsor was Phillip L. Willis of Kaufman. Covered by the law are all public officers of the state, counties, cities, and school districts. Governor Jester signed the bill into law June 8, and it became immediately effective.

LLOYD NOLAN SHOOT WAY THROUGH 55 FILMS

Before Lloyd Nolan could play a romantic lead on the screen he had to shoot his way through fifty-five films, slug a couple of dozen crooks, and enact the guy who loses the girl for the past fourteen years.

But he's finally made the grade. In the new M-G-M Technicolor picture, "The Sun Comes Up" which will open at the Plaza Theatre Thursday and Friday, Nolan sheds his cop-and-robbers type of characterization to take his place along such heroes as Gable and Pidgeon. In this one he plays the romantic lead opposite Jeanette MacDonald.

Based on a novel by Marjorie Kinan rawlings, "The Sun Comes Up" casts Nolan as a writer who helps solve the problems of a concert artist, who lost husband and son. She finally has her faith in life renewed through sympathy of the writer, a mountain boy and a dog.

Claude Jarman, Jr., young Academy Award winner of "The Yearling," plays the boy, with Lassie as the dog. Also featured are Lewis Stone and Percy Kilbride.

Miss Helene Pierce of Houston is visiting Mrs. John McClelland and Mr. and Mrs. Jack Flores.

Candidate

Caso March of Waco has resigned his position as professor of law at Baylor University to make his third consecutive race for Governor of Texas. The Waco lawyer has announced that he will open his campaign headquarters in Waco and hit the campaign trail in early June and stay on the road until the election, 1950. March's platform calls for the redistribution of the tax burden in Texas from the small home owner and farmer to certain natural resources; \$50 a month old age pensions, rural roads, aid to institutions for the mentally sick, veterans bonus, assumption by the State of the local bond indebtedness of school districts and the preservation of local self government in Texas.

FALSE NOTIONS HINDER TEXAS CANCER CONTROL

Houston — False notions about the causes of cancer are hindering cancer control in Texas to a great extent, J. Louis Neff, executive director of the American Cancer Society Texas Division, said recently.

"Unfortunately, we do not yet know exactly what does cause the dreaded disease," Mr. Neff said. "What we do know, however, is that certain old-fashioned ideas about cancer are not true. It is a great misfortune that so much about cancer is cloaked in ignorance and fear."

The executive director stated, with emphasis, that cancer is NOT caused by a single severe injury, or by the use of aluminum cooking utensils, or by electric refrigeration, or by any particular food or combination of foods, or by the use of alcohol, or by kissing or by any other form of contact between persons and between persons and animals.

"These versions of what causes cancer are all old wives tales, and the more we of the American Cancer Society can do to discredit these false notions and bring the true facts about the disease to the people of this state, the sooner it will be that Texas conquers cancer."

"Cancer is not caused by a germ or infection. It is neither contagious or infectious. Nor is

Giles Explains Operation of New Veterans' Land Program

By BASCOM GILES
Commissioner of the General Land Office

Here briefly are some of the outstanding provisions of the new law:

The Board may issue up to \$25 million in bonds to finance the program.

Land may be purchased from an individual, from the State, or Corporations for re-sale to veterans at cost. (This provision will be more fully explained in a separate article—Editor's Note.)

Veteran may select land which he desires to purchase subject to the approval of the Board.

The maximum purchase by each veteran shall not exceed \$7,500 to be financed by the State.

Veterans disabled by combat service connected disability have 90 days preference right to purchase.

Lands may be purchased for a minimum of 5% down payment with 40 years to pay the balance at 3% interest. (This indebtedness may be retired sooner if the veteran wishes.)

All money received during the six remaining years of operation shall be used to pay interest on bonds and to purchase additional land for re-sale to veteran. The purchaser shall not transfer or sell lands purchased for a period of 3 years from the date of purchase. The veteran will not be permitted to make more than one purchase. The veteran is not required to reside upon the property.

All applications should be addressed to Bascom Giles, Commissioner of the General Land Office, Austin, Texas.

The second article explains how a veteran should proceed in selecting a tract of privately owned land for his future home.

cancer necessarily hereditary. Evidence indicates that children may inherit a certain degree of susceptibility which should make them more alert to warning signals. But there is no reason to assume that children will inevitably die of cancer because one or more parents die of the disease."

The American Cancer Society official pointed out that cancer results when certain body cells rebel against the orderly process of growth and start off on a rampage of lawless expansion, destruction, and death. What causes this wild and destructive growth is not known.

"Until we do find the causes of cancer and develop additional methods of treatment," he concluded, "we must fight cancer with what we now know."

HEALTH FACTS

Austin — The disabling and often fatal disease of children, rheumatic heart disease, is one of the leading causes of death among children and young adults in the age group 10 to 25 years.

Unfortunately, there has been developed for this disease no vaccine such as we have for smallpox, whooping cough and diphtheria, but by recognizing the early symptoms and obtaining a competent physician's diagnosis and treatment, some of the damaging results of rheumatic heart disease can be prevented or moderated.

The State Health Officer, Dr. Geo. W. Cox, says that "in general the early symptoms of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows or wrists. The pain is felt usually in one of these joints, and spreads frequently to the others. Often a doctor's examination of a child who becomes irritable and cross without apparent cause, cries easily, and develops nervous habits, will disclose the presence

of rheumatic heart diseases." Predisposing causes of this serious illness include frequent chilling, living in damp, steamy quarters, poor diet, frequent colds, and sometimes scarlet fever or other infections caused by certain streptococcus germs. All such conditions should be avoided if at all possible.

Protection for children against rheumatic heart disease, should include a thorough physical examination by a physician at least once a year; a well balanced and nourishing diet; sufficient rest and sleep, and dressing at all times in accordance with the temperature of the room or playground. Consult a physician at once if any symptoms suggest that this disease may be present or in the process of developing.

VACATION SCHOOL CLOSES

The Methodist Vacation Church School, which has been in progress since June 6, will close Friday, June 17, after two weeks of work and fun for 70 children and adult workers.

The children will participate in a program Friday morning at 9:30 o'clock to entertain parents and friends with a demonstration of work that has been done. This program will be followed by a refreshment hour.

The success of this school has been due to the efforts of parents and other interested adults who gave their time and talents to the training and development of youth.

The following workers have been responsible for the school: Director, Mrs. Hugh Ross; Kindergarten, Mrs. Irvin Corn; Primary, Mrs. M. D. Bell; Junior, Miss Isadore Grimes; Intermediates, Mrs. Kenneth George.

Home Economics students, under the direction of Miss Evelyn Frazier, have made a big contribution to the school. We are grateful to Miss Frazier, Elsa Lamb, Billie Reese, Virginia White, Dolores Benson and Faye Strickland.

Land owner is to keep ditches in repair, river runs the year around, water rights will be transferred with deal. Some of this ranch is very rough but good grass all over. Easy terms. 15 miles from town on school bus route. This ranch is near Colorado Springs, Colo.

In the Panhandle, 5 sections, about \$35.00 per acre, the outlook for oil is good and the price will be based on the royalty deal. Extra good improvements, plenty of water, good hay meadows, 1 1/2 miles off pavement.

531 acres on the plains, good wheat land, 500 acres in cultivation, 31 acre lake, good well, windmill, 5-room house. \$50 per acre.

LEGISLATURE HAS GOOD CHANCE FOR RECORD

Austin — This Legislature has equalled and gives promise of breaking the record for submitting constitutional amendments at one election.

Thus far it has submitted eight amendments with two more in prospect. All are to be voted on Sept. 24.

The preceding Legislature submitted nine amendments and this session may make it ten for an all-time high. The ninth amendment submitted by the Fiftieth Legislature was the college financing plan adopted in a special election Aug. 23, 1947. Thus far only the Sept. 24 date has been used by this session.

The eight amendments now definitely approved and submitted for Sept. 24 are as follows:

1. To authorize the Legislature to give counties above 75,000 population the power to accord civil service to their officers and employees at option.

2. Empowering a district judge in a district of two or more counties to enter orders returnable in any of his counties without having to go into the county to do it.

3. Increasing pay to legislators to \$3,600 per annum and providing for annual session, always to start on the second Tuesday of January.

4. Authorizing the Legislature to provide for the creation of rural fire prevention districts. Taxes and bonds would be used to obtain and operate fire equipment.

5. Making women eligible to serve on juries. They are now barred and have long wanted jury privilege.

6. Waiving trial by jury in lunacy trial either by the person under inquiry, his counsel or a relative. (It awaits House concurrence in minor Senate amendments over which there is no controversy.)

7. Empowering the Legislature to authorize a state-wide retirement system at the option of counties for their officers and employees.

8. Vesting the Legislature with power to authorize the creation of hospital districts in the several counties to levy taxes for hospital purposes.

Two highly important and controversial proposals await action after having made progress. One is to repeal the poll tax for voting purposes and the other to remove the 35-million dollar ceiling for old-age pensions, needy blind and dependent children.

A motion to concur in House amendments to the poll tax voting repeal amendment lost in the Senate last Thursday by a vote of 19 to 11, but still pending. The motion must get a minimum of twenty-one votes to complete submission. It may get it yet, particularly in view of President Truman's latest threat and blast at the poll tax and demanding its abolition.

The amendment to remove the 35-million dollar annual social security limitation is in conference committee. The highly controversial issue to be composed is a Senate amendment giving the state a lien on the pensioner's property for total assistance paid up to death.

If either or both of those controversial amendments is to be submitted in the Sept. 24 election action thereon must be completed by June 19.

Because of the National Guard training camp and, possibly the \$5-a-day pay, the House average attendance has perceptibly shrunk to make it extremely difficult to obtain the 100 votes to submit a constitutional amendment. Affirmation must be near unanimous to effect it.

It was learned Saturday that the Secretary of State has used diligence in contacting all counties in preparation for the publication of the amendment.

Under the Constitution there must be a minimum of four consecutive publications starting at least ninety days before the election.

Since the election is set for Sept. 24, publication must begin by June 25. It will require at least a week to print the amendments and the forms and then mail them to the newspapers in each Texas county.

It is because of the time element that Ben Ramsey, Secretary of State, said Saturday that it is imperative that all mailings be completed by Saturday, June 18. He will start sending out the notice early next week, possibly Tuesday.

At least two constitutional amendments were declared dead in the past without a vote of the people because publication had not started ninety days before the election. The Attorney General had advised the Secretary of State that it would be useless to send out the notices of publication as it was after ninety days.

Ramsey has received replies to his inquiry to the weekly newspapers over the state and all except one have accepted the state's terms and can qualify.

No papers are published in Borden, Glasscock, Hartley, Jeff Davis, Kenedy, King, Loving and McMullen Counties with one just started in Read which can not qualify as it must have been in publication for at least twelve months. That makes nine counties where there will be no publication and possibly a tenth, Victoria, where terms have not been arranged.

This election is the first since the Supreme Court's final decision upholding the election wherein the college financing amendment was adopted.

Many irregularities were alleged in the publication of the amendment, even omission in some counties. The court held that the Secretary of State had made a determined effort to obtain publication and that the election could not be nullified because of irregularities unavoidable to him. Ramsey is using the same persistence to make the publication unassailable from a legal standpoint.

Eligible papers must publish general news and rate as second-class mail. The state pays the munificent sum of 2c a word for the first insertion and 1c a word for subsequent publication.

Among Baird people attending the funeral of Mrs. Rittie Coffey at Stamford June 10 were Mr. and Mrs. P. E. Dungan and Mr. and Mrs. M. M. Dungan.

Mr. and Mrs. Gilbert Hinds and Mr. and Mrs. Ed Lambert are spending their vacation with relatives and friends in and near Galveston.

TEXAS NEEDS YEAR-ROUND TOURIST BUSINESS

Houston — Texans are "sleeping blissfully through an unparalleled opportunity to expand Texas' biggest money crop -- a year-round tourist business." Little has been done to attract tourists to this state, Colonel Ike Ashburn, executive vice president of the Texas Good Roads Association, said today in a speech prepared for delivery at the Texas Chambers of Commerce Managers Annual Convention.

The chambers' activity has been mainly that of bringing conventions to their individual cities, Ashburn said, adding that another factor in attracting tourists was the introduction to

Texas gained by service men stationed here during both World Wars.

The speaker observed that a number of corporations have spent considerable sums for institutional advertising, but: "We need a highly selective advertising campaign to secure additional tourists, to divert tourist trade from competitive areas, to increase itineraries and length of stay, and to encourage 'repeater' tourists."

The advertising campaign, Ashburn observed, "should be to seek as vacationers persons who have a contribution to make to Texas and its development."

Other states, such as Arizona and New Mexico have spent modest sums for advertising,

and have thereby doubled or tripled their tourist income, Ashburn said.

"Texas, with no funds and no descriptive literature except Texas Parade Magazine, drew 1,849,000 out-of-state automobiles in 1948," he declared. The occupants of these automobiles spent \$114,528,000 in Texas last year.

"If we spent \$100,000 per year we could more than double the number of visitors, making a quarter of billion dollars per year income from our activities," Ashburn told his audience.

"That is what Texas Parade is for, primarily, to bring visitors and industries into Texas," he said.

The speaker advocated that

the State Highway Department be authorized to expend some of its money for expansion of tourist travel in Texas.

"The local chambers of commerce can help," he said, "by giving support to the idea of a combined Texas non-profit, non-political publication, artistically prepared and replete with colored pictures of the scenic wonders of Texas."

Misses Ruth and Gayle Dyer with Mrs. Modelle Fulton of Houston, left Dallas June 4 on a months trip. Among places visited are Tulsa, Okla.; Topeka, Kan.; Omaha, Neb.; Sioux City, Iowa; Lake of the Woods, Winnipeg, Saskatchewan; Lake Louise, Rockies, Canada.

CONTINUES EFFORT TO ACQUIRE STORAGE

Waco — The Texas Farm Bureau Federation today continued to press officials in Washington in an effort to acquire ample government approved storage facilities for the 1949 grain crop. "We are still hoping that storage will be made available," J. Walter Hammond, president of the federation stated.

As wheat harvest got underway in Texas this week, elevators declined to accept wheat for government on loans on the grounds that no storage was available, although wheat was being bought by elevators as low as \$1.55 a bushel.

"If farmers continue to dump wheat on the market it will

steadily depress the price," Hammond said. As an alternative farmers may sign purchase agreements at their PMA offices, which in effect is a contract with Commodity Credit Corporation whereby CCC agrees to purchase wheat at the loan figure with delivery designated for May 1, 1950. The wheat may be placed in any type of storage, even piled on the ground in the open; however, condition of the grain at time of delivery is the full responsibility of the farmer.

"Unless too much damage is incurred this would be better than selling the grain at depressed prices and would have a tendency to maintain the market at a higher level," Hammond said. Later on, after the heavy

grain movement is over, government approved storage may become available and the wheat may be placed in the loan or sold on the market if the farmer does not wish to hold it for May 1 delivery. Signing of a purchase agreement does not obligate the producer in any way. On May 1, he may deliver the agreed amount of wheat to CCC, a portion of it, or he may dispose of all the wheat in some other manner.

Miss Vonnie Folter, who recently graduated from T.S.C.W., Denton, arrived Thursday of last week to visit Mr. and Mrs. C. J. Redwine here and Mr. and Mrs. C. E. Rutherford at Moran.

PONTIAC

Two of America's Most Popular Motor Cars

Pictured above are typical examples of the two smart and separate lines of cars which bear the current imprint of Pontiac goodness—the Streamliner and the Chieftain De Luxe Sedan Coupes.

Each is in such demand that, on its own, it ranks among America's most popular cars today. That two cars of such decidedly different appearance should each enjoy such wide acceptance is easy to explain. THEY'RE BOTH PONTIACS!

While each has its own individualized smartness, both offer all the great basic Pontiac virtues. Both

are conspicuously beautiful. Both carry the well-known promise of Pontiac quality—long life, dependability, and fine performance. Both afford the smooth, enjoyable performance of Pontiac's two great engines—the power-packed straight eight or its equally famous six-cylinder companion.

Finally, both represent unusual values—a very fine product at a very low price. Either one you choose will make you mighty happy.

Omelet Special
6 eggs, separated
3-4 teaspoon salt
3 tablespoons flour
1-8 teaspoon pepper
1-3 cup green pepper or parsley, finely chopped
2 tablespoons onion, finely chopped
2 cups creamed chicken, lobster, tuna, or creamed vegetables

Add salt to whites and beat until stiff. Beat yolks, then add pepper and flour and beat to blend thoroughly. Add green pepper and onion. Fold yolk mixture into beaten whites. Pour mixture into 2 well-greased, hot 8-inch layer pans, place greased pans in oven to heat while mixing omelet. Spread lightly in pan having mixture higher around edge. Bake in moderate oven 350 F. 15 minutes, or until knife inserted in center comes out clean. To serve, invert 1 layer on warm serving platter. Pour about 1-2 cup creamed mixture over layer. Invert second layer atop sauce. To serve, cut in pie-shaped pieces. Pass remaining creamed mixture in bowl. Serves 6.

TIMELY TIPS

1. Home-grown vegetables as turnip greens, collards, and mustard greens are the "best buys" at leading Texas markets.
2. Take care of those plentiful eggs. Treat a good egg right and store in right; clean, covered, cold.
3. Sprinkle Blue Cheese on top of a fresh green salad and add your favorite french dressing - it will give a new tang to spring salads.
4. Eggs may be used to thicken a custard or sauce, to leaven, or lighten, a soufflé or cake, to hold together oil and vinegar in a creamy mayonnaise. Use egg whites to make cloudy soups clear or an eggshell with some of the white still clinging to "settle" muddy coffee.

THE MOTH MENU

Most folks figure when they protect their woolen winter garments from moths, the job is done. But wool isn't the only item on the moth menu. It also includes animal hair, fur, feathers and any articles made from these materials.

Now comes the time of year to store the winter woollens so the moths won't make a feast of them while you're in cottons and rayons. Mary Routh, extension clothing specialist of Texas A. & M. College, suggest checking the out-of-the-way floor cracks and baseboards where woolen lint and hair may have collected. Such places are often fertile breeding places for moths. So you might get them all out at one time while you're busy putting the woollens in storage. Clean out the clothes closets

and spray the walls, woodwork, baseboards and shelves with DDT. About a half pint will be needed for the average sized closet. Miss Routh suggests using a residual oil spray, since the water spray leaves a white deposit where it's applied. The residual sprays are effective over a period of months in killing insects that come in contact with the closet surface. Space sprays last only a short time.

DDT solutions may be sprayed lightly on woolen clothing without injury to the fabric. It's also good for protecting clothes hanging in closets. Moth balls, flakes or crystals are advised for clothes stored in tight bags, trunks or other containers where a fumigating effect is desired, Mith Routh concludes.

"ACT OF VIOLENCE" FILMED ON LOS ANGELES STREETS

Not since the days of Keystone Kops in careening cars had pedestrians hopping for the nearest telephone pole, has Hollywood filmed a major motion picture, almost in its entirety, on the streets of Los Angeles.

The nation's third—by its own claim—largest city now comes to the screen not, it is imagined, with the blessings of the city fathers but more as a celluloid study of Los Angeles, Past and Present.

For Director Fred Zinneman, remembered for his brilliant direction of "The Search," by-passed the spacious boulevards, the impressive buildings and the city's beauty spots in filming his new M-G-M excitement drama. Instead, in "Act of Violence," in which Van Heflin and Robert Ryan play a grim game of tag with "gats," the principal action takes place in and around a section which was once the site of the city's finest mansions but which is much changed today.

Angel's Flight, that almost perpendicular miniature street car system which clings to the side of a hill, figures prominently in the film. It provides a nostalgic and creaking note against its modern competitors, the Second and Third Street tunnels which pierce the hill.

"Act of Violence," which opens at the Plaza Theatre, the 21 and 22, was filmed almost one hundred percent in and around the city, with a thirty-year-old house in Santa Monica

selected to represent the typical quiet home on a quiet street in the average small town. The story's suspense-shot climactic sequences were shot around ugly warehouses, once the locale of peaceful gardens of fine homes boasting their own orange trees. Similarly, the human element portrayed in "Act of Violence" ignores the socially prominent and the civic and film colony leaders. The Angelenos presented here represent the average family, plus some of the city's less desirable residents—obviously new arrivals from the East. Mary Astor, featured in the film with Janet Leigh and Phyllis Thaxter, portrays the type of girl not invited to meet the folks.

SELECTIVE SERVICE OFFICER WARNS MEN TO REGISTER

Officials of the Taylor-Callahan Board of the Selective Service System, are calling attention to the fact that all young men reaching their 18th birthday, still must register within 5 days, at Board office in Abilene. Also, all men within the age groups of 18-26 still are subject to all Selective Service laws, as passed by Congress. They must report any change of address to the Board with which they registered. Questionnaires must be filled out and returned within the time limit specified on the form.

The Armed Services have not called for any men in some time, but that has in no way changed the law. Classification of all men within this group, must still be made. At the present time there are several Callahan County men who have not returned their questionnaires. Anyone knowing the following men should advise them to return their questionnaire: Hugh L. Tarrant, Clyde; Jimmie D. Womack, Cross Plains; John F. Warren, Clyde; Donald T. Underwood, Cross Plains; and Clifford W. Curtis, Baird.

Anyone who needs advice in preparing his questionnaire should consult the following Callahan County Advisors: D. J. Anderson and B. H. Freeland, Baird; Fred Tunnell, Cross Plains; and T. O. Dulaney, Clyde.

Members of the Board are Terrell Williams, Baird, chairman; C. T. Connerly, Abilene, co-chairman, and A. M. King, Abilene secretary. Offices are on the third floor of the courthouse in Abilene.

PASTOR HONORED

A welcoming party for the new Methodist pastor and his wife, Rev. and Mrs. David Binkley and sons, David and John, was held Friday evening, June 10, at 7:30 o'clock in the Methodist basement.

Invocation was given by the pastor. After the meal, gifts from members of the church were presented to the Binkleys by Randall Jackson, and responses were made by Rev. and Mrs. Binkley.

Approximately 150 members attended. Arrangements were made by the Missionary Society of the church.

NOTICE OF ELECTION THE STATE OF TEXAS COUNTY OF CALLAHAN

Callahan County Water Control and Improvement District No. 1:

To the qualified Resident electors of Callahan County Water Control and Improvement District No. 1:

TAKE NOTICE that an election will be held in the District on the 16th day of July, A. D., 1949, for the purpose of electing five members of the Board of Directors for said District, in accordance with an order passed by the Board of Directors of the District made and entered on the 9th day of June, 1949, which is substantially as follows:

AN ORDER

By the Board of Directors of Callahan County Water Control and Improvement District No. 1, calling an election for the purpose of electing five members of the Board of Directors of Callahan County Water Control and Improvement District No. 1.

Be it ordered by the Board of Directors of Callahan County Water Control and Improvement District No. 1 that an election be held within said district for the purpose of electing five members of the Board of Directors for said District. Said election shall be held on the 16th day of July, 1949, at the City Hall in the City of Baird, within said District, and the following persons are appointed as officers of said election:

D. J. Anderson, Presiding Judge.
C. E. Andrews, Judge.
Mrs. S. I. Smith, Clerk.
Miss Corrinne Barringer, Clerk.

The President and Secretary of the Board are hereby authorized and directed to give due and legal notice of said election by publishing notice thereof once a week for three consecutive weeks in a newspaper of general circulation in said District, the first of said notices to be at least twenty-one days prior to the date of said election, and not more than thirty-five days prior to said election, and by posting notices thereof at three public places, one of which shall be at the courthouse door in said Callahan County, one at the City Hall in Baird, and one at the American Legion building in said City of Baird. All qualified voters in said District may vote at said election.

Passed and approved, this the 9th day of June, 1949.

N. A. WALDROP,
President Board of Directors,
Callahan County Water Control and Improvement District No. 1.
ATTEST:
ROY GILBREATH,
Secretary,

4-H BOYS ATTEND CLUB CAMP AT BUCHANAN DAM

Five Callahan County 4-H Club boys attended the District Club Camp at Buchanan Dam on June 8, 9 and 10. The boys attending were Roger Crook, Winifred Gardner and Bud Farmer of Eula, Robert Collins and Jimmy Hicks of Clyde.

The boys took part in games, fishing, rifle firing, grass judging and swimming. They also made a trip through the Longhorn Cavern and went under Buchanan Dam to see how electricity is made.

In the rifle firing contest the Callahan County boys placed 2nd as a team. This entitles the boys to a trip to the state 4-H Club Round-Up at College Station, where they will vie in the state contest against 27 other rifle teams. Roger Crook won 4th place in the individual score in the rifle contest.

MRS. GEORGE CRUTCHFIELD HONORED AT PARTY

Mrs. George Crutchfield, Jr., was honored with a gift party at the home of Mrs. J. V. Thompson Wednesday evening between eight and nine-thirty o'clock. Other hostesses were Miss Evelyn Blakely, Mmes. Jack Sims, Jay Ashlock, Bill Bragg, and Arnold Colcleasure.

The reception rooms were decorated with arrangements of cut flowers. The lace laid service table was centered with pink and blue flowers in a crystal bowl, and appointments were of crystal. Mrs. Colcleasure ladeled punch and Miss Blakely presided at the registry. Many beautiful gifts were displayed in an adjoining room.

Out-of-town guests were Mmes. J. A. Hall, Sidney; E. C. Fisher, Eastland; R. H. Jackson, Levelland; Aubrey Ground, San Angelo.

CARD OF THANKS

Words cant express our appreciation for all of the nice things you did during our deep sorrow. The visits, cards, flowers and kind words will never be forgotten.
Mr. and Mrs. Hulan Barr.

CARD OF THANKS

I wish to thank all of my friends, and especially my doctors, for the kindness extended during my recent illness. I shall never forget these good friends.
Mrs. J. H. Hammons.

B. A. HAYS WILL PREACH FOR CHURCH OF CHRIST

Arrangements were made at a business meeting Monday night for B. A. Hays of Abilene to preach for the Church of Christ until a minister can be employed to devote his full time to the work here. Brother Hays will be here for the Wednesday night prayer meeting services and for the Sunday services. Elders and deacons of the local congregation are taking time to

locate the right man for the work and, after trying out a number of student preachers, have decided not to employ a preacher except on a full time basis. Brother Hays is known to many Baird people having filled the pulpit at the church here and also was an instructor in the veterans school for more than a year. The public is extended a cordial invitation to attend any of the services of the church.

Among other items of business discussed at Monday's meeting was the installation of an air conditioner at the church building. The church board is anxious to have this done before severe hot weather sets in, and in time for use during the summer meeting.

Dr. and Mrs. W. G. Holmes and daughter, Gretchen, of Denison, visited Mrs. Haynie Gilliland Monday night.
