### LATIN-AMERICA IS BUILDING AND ARMING ARMIES RAPIDLY; U. S. WILL GIVE AID VIA LEND-LEASE

By LAWRENCE S. HAAS, U. P. Latin-American Editor.

The sum of \$150,000,000 in the new Lend-Lease appropriations of \$5,985,000,000 asked by President Roosevelt and pending in congress, is to be allocated to the Latin-American countries for the acquisition of military and naval armament and equipment.

This amount is equivalent to only slightly more than two and a half per cent of the total appropriation. It cannot buy a large amount of armament as modern armament goes, but it is a step which may indicate that the Latin-American countries are to share in any future lend-lease appropriations enabling them to acquire the arms, planes and ships they consider essential to carry out an appreciable role in the scheme of hemisphere defense.

It was disclosed that the U. S. army will allocate \$100,000,000 of this sum for airplanes, ordnance and other materials, and that the balance of \$50,000,000 will go for warships and naval material. The military arms and planes will be allocated among eighteen Latin-American countries, the naval armament among sixteen countries.

Uruguay Agreed On Needs.

Gen. Julio A. Roldeti, Uruguay's minister of national defense, has announced that an arms purchasing commission had reached a decision as to the type and quantity of armament to be acquired with more than \$17,000,000 of lend-lease funds. Uruguay is to obtain.

ably will be used largely to equip the newly-projected air base at Punta del Este, which has a strategically commanding position on the Atlantic near the mouth of the River Plate.

When the delivery of armament to the Latin-American countries can be completed has not been specified. One indication that it may not be soon seen in the war department expropriation at a Brooklyn, N. Y., pier of eighteen bombing planes, acquired by Peru from the refugee Norwegian and Dutch governments in Canada. The aircraft were on the pier awaiting trans-shipment to Peru at the time of their seizure.

The principal factor in aiding the Latin-American countries to arm is not essentially a consideration of financing, but one of production, just as it has come to be in the effort of the United States to aid Great Britain, Russia and China.

Argentine Looks to U. S.

The Argentine government, for example, has appropriated more than \$100,000,000 for a rearmament program, but there is only one source of supply—the United States, where all facilities are under a tremendous strain in supplying the enemies of the Axis powers and in furnishing modern armament to the greatly expanded American army of approximately 1,500,000 men.

Supplying of armament to the Latin-American countries on a scale larger than had hitherto been divulged would appear to introduce a number of newcomers to the growing field of priority claimants for arms.

An obligation to supply armament to Latin-America on a large scale adds to the existing priorities problem on industrial and agricultural goods ordered by Latin-America. Chilean government officials recently warned that if essential goods are not forthcoming soon from the United States, the national economy of the country may be sorely affected, with consequent hardship, unemployment and misery.

### RACKETEERS OF LABOR UNIONS GET THE MONEY

NEW YORK, Oct. 22.—Testimony that William Bioff, West Coast labor leader, once demanded \$15,000 from motion picture executives to pay off his district leaders was in the record Wednesday of the government's movie extortion trial.

Film industry heads have testified they paid the two defendants, Bioff and George E. Brown, president of the International Alliance of Theatrical Stage Employees (AFL), upward of \$26,000 to forestall paralyzing strikes and "bodily harm."

Samuel Carlisle, comptroller of Warner Brothers Pictures, Inc., and Thomas J. Martin, his assistant, corroborated Tuesday earlier testimony that \$100,000 in company funds was paid to Bioff in 1936 and 1937.

Martin identified vouchers totaling \$70,000 which he said ostensibly listed executives' expense accounts but in reality had been padded to cover up the funds paid out to Bioff.

Carlisle, recalling one of a series of payments he said had been made to Bioff, said the latter had demanded \$15,000 from Albert Warner, company treasurer, in May, 1937, with the explanation: "I'm going to a labor convention, and I have to dish it out to the district leaders."

### MOORE DRUG MAKES CHANGE IN PERSONNEL

O. W. Statham, popular prescription clerk with the Moore Drug company for the past eight years, and in business for himself for several years preceding, has accepted a position at Brady, Texas. His family will remain in Cisco temporarily.

J. E. White of Gainsville replaced him in the Moore Drug personnel. Mr. White is a married man and he and Mrs. White have a little daughter about seven years of age. The family will come to Cisco as soon as a house can be secured.

Miss Jewel Smith, who was with Moore Drug as fountain attendant for several years, but recently accepted employment at Lubbock, has returned to her former employment here and states she is glad to be back with her friends in Cisco and wants to meet them again at Moore Drug.

BISHOP FLAYS MUSSOLINI.

LONDON, Oct. 22.—Dr. Henry Wilson, the Bishop of Chelmsford, would like to shake hands with Josef Stalin. But not with Benito Mussolini. Stalin may not pray, says the bishop, but he is honest about it. Mussolini does pray, but he is a trickster all the same.

Firemen report a very entertaining and instructive session. W. W. Sledge is local fire chief.

### LIONS HOLD SESSION AT HIGH SCHOOL

Lions held their business meeting in the auditorium at Cisco high school today following the luncheon at the Laguna. High school students looked on and laughed freely at the antics of the tail twister and some of the victims who paid fines, culminating in the amputation of Lion Turner's tie on his refusal to pay his fine promptly.

Stanley Webb arranged a trio and sang a solo as a part of the program at the high school. Students encircled freely.

Lion Cub Coach Murphy was initiated into the club, being advised on some of the tenets of the club, the slogan and a portion of the code of ethics. He was given his pin, emblem of membership in the club. He had previously received rather rough treatment by the club at the luncheon, being forced to eat his dessert blindfolded, and chewed manfully on the lemon rind that had been slipped into his ice cream.

Lion Nance urged that all Lions and their wives attend the business men's dinner being given by the Scranton P-TA at Scranton Thursday evening, 7:30. The dinner is being sponsored as a goodwill gesture by the Lions and Rotarians, but all business men are urged to participate.

Those who intend to make the trip should telephone Lion S. H. Nance. The chicken dinner will cost 50 cents per plate.

### WHITE HOUSE ASKS REPEAL NEUTRAL ACT

WASHINGTON, Oct. 22.—President Roosevelt's white house spokesman, Stephen T. Early, today virtually invited congress to repeal immediately section two of the neutrality act, along with section six and permit American merchant vessels to go anywhere on the seven seas under protection of their own guns and the U. S. flag.

Secretary of State Hull said the sinking of the American freighter Lehig was a perfect example of the "Nazi policy of attempting to create a reign of terror, frightfulness and absolute lawlessness on the high seas."

### OUTBREAKS OF TERRORISTS A NAZI MENACE

Red army counter-attacks still hold back Hitler's offensives against Moscow and Rostov and new terrorist outbreaks menace the Germans in Western Europe, but Britain officially blasted any hope of opening a second fighting front this winter against the Nazis.

A statement in parliament by Lord Moynne, government spokesman, argued it would be "madness" to send an expedition to occupied Europe while Britain still is short of offensive weapons.

Failure of the British public's demand for an attack in the West now, came at the time the Russians were reported stabbing back at Hitler's tank wedges, dive bombers and air-bourne troops from Leningrad to the wintry, snow-swept Moscow front and southward before Rostov in the Ukraine.

Both Berlin and Moscow are vague on details of the fighting on a 350-mile arc before the Soviet capital, except to acknowledge heavy casualties.

### LEHIGH CREW OF 44 MEN ARE RESCUED

WASHINGTON, Oct. 22.—The maritime commission says 22 missing seamen from the torpedoed American freighter, Lehigh, have been landed safely at Freetown, West Africa. All of the 44 men aboard the ship are now safe.

The Lehigh, torpedoed Sunday night off West Africa while enroute from Bilbao, Spain, to an African port, where the ship picked up a cargo of ore for return to the United States, was announced yesterday.

Twenty-two men were landed at Bathurst, British Gambia. Today the commission was notified that 22 others, including five stowaways, had landed at Freetown.

Two of the men injured—Joseph Brady, 42, third assistant engineer of Brooklyn, is suffering from serious leg injuries, and Joseph Bartlett, 24, of Oakland, Calif., lost three toes.

A temperature of 66 degrees below zero has been registered at Yellowstone National park.

THIS IS IT.

Japan at last seems to mean business. With European Russia gravely weakened, the Nazis of Asia move to take over Vladivostok and Siberia. And not only those northern regions they have long coveted. The little yellow Nazis merely suspend their drive southward and eastward until they have done the job close at hand. Their ultimate aim is domination of the South Seas, with the rich resources of that region, and the sweeping of Britain and America from the southern and western Pacific.

In this program obviously Japan is not alone. She is not even master of her own campaign. Already behind the visible operations is seen the hand of Hitler, as he scans his chessboard and moves for mastery of the world. That attack on the American warship in our own clearly defined North Atlantic was evidently a warning to us and a signal to his Asiatic ally.

The mills of God are grinding, and it is not clear yet whom they will "grind exceedingly small." But Americans, now recovering faith and courage after a long, perilous slump of spirit, can make a fair guess. As Walter Lippman says in the New York Herald Tribune:

"We shall be tested. There will be tested the capacity of our democratic institutions to be equal to the occasion, and of men to see the truth clearly and without flinching. May we be able to say, adapting Shakespeare's words to ourselves: 'Come the three corners of the world in arms, and we shall shock them.' We and our friends together, made strong by faith and freedom.

HOUSE CLEANING.

When Daniel Webster made his famous speech about "liberty and union, now and forever, one and inseparable," he was thinking of Americans generally. But when the words are read or spoken now, many people instinctively apply them to union labor.

There were no labor unions, as we know them, in Webster's time. They and the liberties connected with them are mostly a growth of the last 40 or 50 years, with their greatest expansion coming only in the last decade. The new unions have brought greater freedom and opportunity than American labor ever knew before.

So great has this movement become that labor itself is in danger of abusing its power, as capital did. It will be unfortunate for labor itself, and certainly for the nation as a whole, if this trend continues. Especially in this time of national peril from foreign sources.

It is not the rank and file of American workmen, however, who are starting all these jurisdictional strikes that cripple war production and play into the hands of foreign enemies. For the most part it has been the arrogance of union leaders abusing their authority and, in many cases, shamelessly racketeering at the expense of labor as well as the public. It is time for honest labor to clean house.

WHEEL CHAIR HUNTER. PORTERVILLE, Cal., Oct. 22.—The first deer killed near California Hot Springs during the 1941 season was shot by a man in a wheel chair. Joffrey Newman, a cripple at the health resort, drove his gasoline-powered chair a mile into the mountains east of here, shot the deer, and was back in an hour for help in bringing it home.

DO YOU REMEMBER?

(From Files of Cisco Daily News, February, 1928.)

AUSTIN, Feb. 15.—A survey of census of the 71 deputy game warden districts of the state, showing the amount of wild game in the state, has been completed by Will J. Tucker, fish and oyster commissioner. Reports were tabulated from 67 districts. The other four districts are unimportant, it was stated. According to the survey there were 129,478 wild turkeys remaining after the close of the hunting season December 31. During the season 15,118 turkey gobblers were killed, while 118 turkey hens were unlawfully killed. During the hunting season 9,408 bucks were killed while 409 does and spiked bucks were unlawfully killed. The number of does on the range at the close of the season was estimated at 76,679. Twenty-six districts reported a good supply of quail on hand at the end of the hunting season; 24 reported an extra good supply, while 18 reported a poor supply. There were 26 fatal accidents during the hunting season and 96 from which the victims recovered. "In a general way," the report of the survey says, "the heaviest turkey and deer districts in the state, overlap; turkeys are more widely scattered than deer. The Edwards Plateau counties and from there southwesterly toward the Rio Grande river is the banner section for both turkeys and deer. The district comprising Bandera, Raal and Kerr counties leads in both turkeys and deer.

Aside from the unusual and intense interest in the fate of the horned frog in the corner stone of the old court house, there has come to light several other articles that have brought back to minds of the older citizens, happenings and people of the times when the structure was built. In addition to the frog, which appeared to be a perfect specimen of the horned variety, a Bible, part of a \$20 Confederate bill, a verdict of acquittal by a jury in a criminal case in which Judge Earl Corner of Eastland, was defendant's attorney; a copy of the Cisco Apert of the issue of July 29, 1897; copy of the Eastland Chronicle, predecessor of the Eastland Telegram of the issue of July 30, a piece of paper showing the letter head of O. T. Maxwell, druggist, formerly of Cisco, whose widow Mrs. O. T. Maxwell now lives in this city, and on which was written the names of E. E. Wood, his wife, Carrie Wood, and two sons, Will and Harry. Mr. Wood was district clerk and to him is due the credit for the horned frog story. He remembered the frog was placed in the corner stone and gave the story to local newspaper men who gave it to the world through such newspapers as the Dallas Morning News, Abilene Morning News, Associated Press, United Press and International News Service. This in addition to the local daily papers and other papers of Eastland county. Hundreds of letters and clippings of the story which have been received in Eastland are conclusive proof that the story had been widely circulated and also showed the great interest it attracted. Most of the papers in the corner stone were badly decomposed and much of the printing and writing was not legible. The names that could be deciphered were James Schmick, D. K. Scott of Cisco, Nobles and Harbin, officers of the Eastland Masonic lodge at that time. B. F. Chastain, father of O. F. Chastain, was county judge when the corner stone was laid. W. V. Garrett, father of C. L. Garrett of Eastland, and C. E. Anderson and W. C. Graves were county commissioners. Garrett and Chastain are both dead. A number of photographs were taken of the corner of the building in which the corner stone was set both before and after the large column of brick was removed. Pictures were also taken of the horned frog and other articles taken out of the corner stone. The horned frog and other items taken out of the corner stone were taken in charge by Eastland county officials and were placed in a show window in an Eastland store where they were viewed by large numbers of people. Efforts to feed and water the frog were

fruitless as its mouth appeared to be grown up.

Mrs. Lottie Boyd, wife of John Boyd, living on the C. H. Fee farm east of Cisco, died Saturday afternoon, and funeral was held at the family residence Sunday afternoon, conducted by Rev. P. T. Stanford, pastor of the First Methodist church. The Green Funeral Home directed the funeral. She was a daughter of Mrs. C. P. Stafford, of East Cisco, and is survived by her husband, three small children, a mother, three brothers and two sisters. She was born June 22, 1902.

Many Cisco families are regaling gastronomically today on fresh pork, spareribs, sausage, backbones and other delicacies derived from fresh pork, for W. B. Starr was in town Saturday, having butchered ten head of hogs, which were readily disposed of to the people of this city after he had prepared this fresh meat for market. Starr did not say whether his sales included chitlings, but the chances are he kept this delicacy for home consumption.

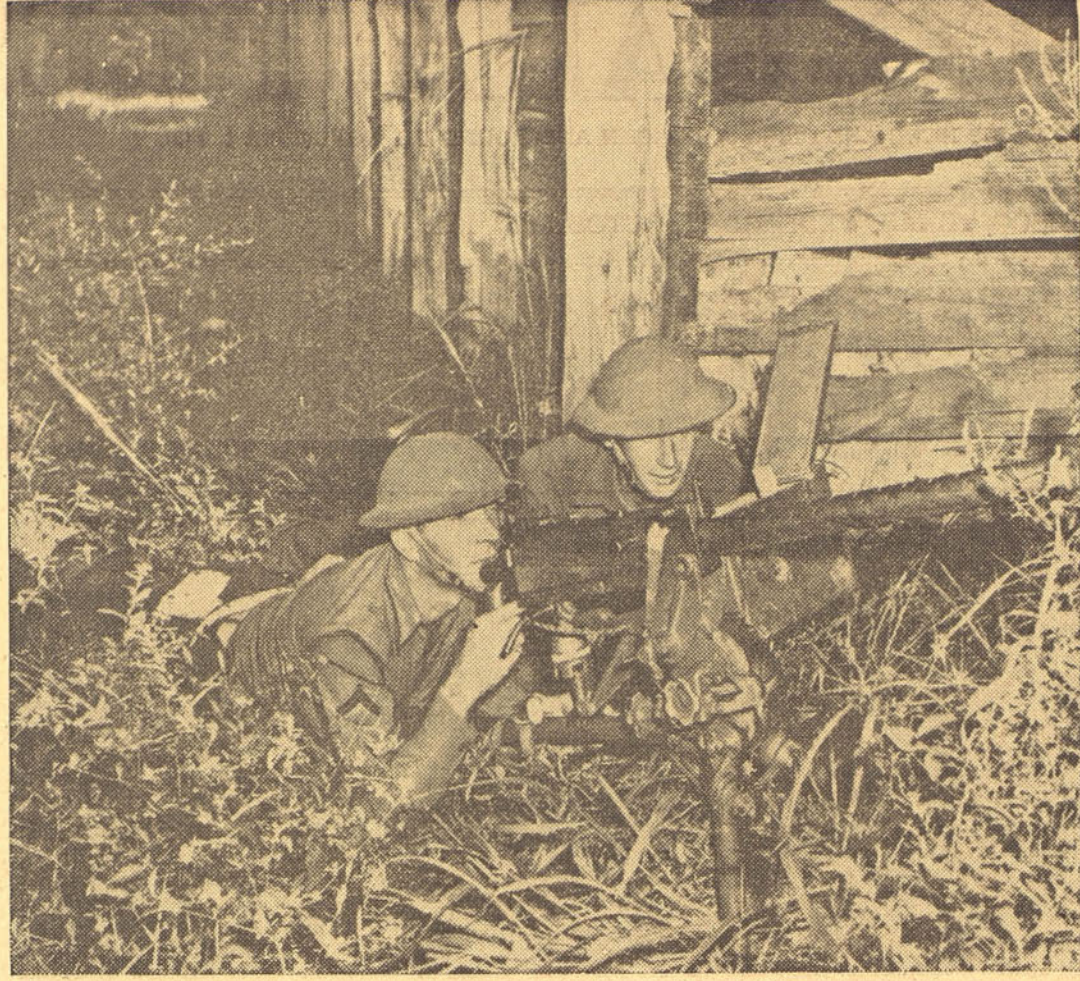

"Bringin' Up Bill" is a message to the fathers, mothers, sons and daughters of the community to be delivered Sunday evening at the First Methodist church by Charles O. The services will be in honor of the Boy Scouts of Troop 4 and the community in general. The Scouts
