

DISORDERS IN WICHITA FALLS WAITER STRIKE

ORDERS ISSUED PROHIBITING CROWDS GATHERING ON STREETS.

FOUR MEN ASSAULTED

Bricklayers, Barbers and Metal Workers Refuse to Go Out in Sympathy.

Associated Press.

WICHITA FALLS, Texas, June 1.—Orders were issued today prohibiting the gathering of crowds on the streets, due to disorders following the strike of cooks and waiters in the hotels and restaurants here.

Four non-union waiters were assaulted here last night, according to open shop headquarters. Strike leaders deny that the union men are implicated in the disorders.

The bricklayers, barbers and metal workers last night refused to go out in sympathy with the striking waiters and cooks.

ABILENE GIRL AND STEPHENVILLE MAN WED IN ST. LOUIS

Special to The News.

BAIRD, Texas, June 1.—Friends of the family in Baird have received announcements of the marriage of Miss Clara Pearl Jackson of Abilene to Jesse F. Winters of Stephenville. The nuptials were celebrated in the First Baptist church of St. Louis, Mo., on May 24, by the Rev. W. F. McMillan, pastor of the church, officiating.

The bride was born and reared in Baird, but some two or three years ago she moved to Abilene with her parents.

Miss Jackson is the only daughter of Mr. and Mrs. I. N. Jackson. She is a graduate of the Baird High school and of the Kidd-Key school of Sherman. Mr. Winters' home is in Stephenville. But he is well known in Abilene, having attended Simmons College several years ago. He has made quite a name for himself in baseball circles, both while at college and since that time having pitched for the New York Giants.

The young couple will make their home at New York.

BRITAIN GRANTS RUSSIA PERMISSION OPEN TRADE OFFICE

Associated Press.

LONDON, June 1.—As a result of the meeting held here yesterday in which the British and Russian representatives conferred relative to Russia establishing a central trading office here, the Evening Standard today prints a statement in which it is said that Premier Lloyd George and other British cabinet members, after having held several conferences with Gregory Krashin, the Russian bolshevik minister of trade commerce, announces that permission has been granted to the Russians to open in London a central trading office and that it is understood said office will be opened immediately.

PAT NEFF WILL SPEAK IN CISCO NIGHT OF JUNE 5

Pat Neff of Waco, candidate for governor of the state of the Democratic ticket, will speak in Cisco Saturday, June 5th, at the city hall auditorium. The former speaker of the house comes here upon invitation from the Young Men's Business League of the city. His supporters in Cisco are urged by that organization to make all necessary preparation for his visit and to report any plans they have for his reception to Stuart Williams, secretary of the Y. M. B. L.

Chamber of Commerce Receives Inquiry From Fighting Journalist

The Chamber of Commerce has an inquiry from one of the thirty or more fighting journalists who were in Cisco a short time ago. He is Frank G. Bolles of the International Press, Inc., representing twelve publications. Bolles asks for a general outline of the city's growth and development since the discovery of oil in this section. The acting secretary of the chamber preparing the brief wanted.

POLITICAL MIX-UP IN BERLIN RESULTS IN WILD DISORDER

Associated Press.

LONDON, June 1.—Riotous disorders are taking place in Berlin today in the political campaign there, according to a Berlin dispatch to the Exchange Telegraph company.

The meeting of the democratic party in Berlin last Sunday ended in a serious fight, and tension among the people everywhere is running high.

Land owners are fleeing from the surrounding country to Berlin in hope of escaping the communist violence now so prevalent.

BIDS OPENED ON GOOD ROADS, WITH NO FINAL ACTION

Cisco Chamber of Commerce Will Urge That Work Be Delayed for More Settled Conditions.

Bids on surfaced roads for Eastland county were opened and considered by the county commissioners, at a meeting held at Eastland Monday. No action was taken, and the commission adjourned to meet again this morning at nine o'clock.

J. O. Sue, advisory commissioner from this district, and representing the Cisco Chamber of Commerce and the city commission, was in attendance at the meeting. Mr. Sue reported the status of these Cisco bids at their respective meetings Monday night. He told them that there were three bids submitted, and that the one that perhaps sounded the most favorable called for 214 miles of road at a cost of five million dollars. This was for crushed rock road with asphalt surface. And the commission was given thirty days in which to act on this bid.

One estimate on a concrete base of eight inches, with a brick surface, from Cisco to Ranger, placed the cost at \$64,000 per mile. In view of the discount at which the bonds were held by the bidders, and the inflation of the contract prices, the Cisco Chamber of Commerce held to the opinion that Eastland county could afford to wait for more settled conditions before spending its \$4,500,000, and instructed Mr. Sue to use his efforts to have action postponed by the county commissioners at their meeting today.

HEADQUARTERS Y. M. B. L. MOVED TO GRAY BUILDING

The headquarters of the Young Men's Business League have been moved from the Masonic building to the second floor of the Gray building on Main street above the Hutchinson Hardware store.

The old headquarters was the office of Stuart L. Williams, secretary of the organization. When Williams moved his office today the Y. M. B. L. headquarters went with him as he is devoting his entire time and attention to the work of that body.

CONTROL WHEAT COMES TO END BY LAW LIMITATION

Associated Press.

WASHINGTON, June 1.—Federal control of wheat and wheat products ended today when the wheat director ceased to function under limitation of the law creating his office, and food administration control ended by presidential proclamation.

This means the passing of the \$2.20 wheat guarantee established during the war.

Thousands of New People Are Inquiring About West Texas

Special to The News.

ABILENE, Texas, June 1.—Every road used to lead to Rome; but now it leads to West Texas. The unparalleled prosperity of West Texas in 1919 whose intoxication was shared both by "wets" and "drys" is bringing thousands of new people to this region, according to a representative of the West Texas Chamber of Commerce, having charge of the employment service department.

"Men with families, recommending themselves as having large families and being honest, hard workers, are making application to this department for places of employment on farms, ranches and in the oil fields," he said. A sample of the letters received by the U. S. Employment Service of the West Texas Chamber of Commerce, follows:

"I have a large family, want employment on farm all year. We are good farmers and good cotton pickers. We are good people. Any one wanting us will make no mistake in getting us. A good cow or two will cut a big figure in getting us."

TRAFFIC OFFICER PUTS BAN ON TALK IN MIDDLE STREET

Six Arrests Monday for Stopping Automobiles and Hobnobbing in Violation of Traffic Laws.

If you want to talk politics or anything else hereafter, you can't pull up in the middle of Main street with an automobile and do it there. Park or get off on a side track.

This is the decree of Traffic Officer F. B. Mathews, who arrested six people Monday for drawing up alongside one another on the principal thoroughfare and hobnobbing while blocks of traffic behind them waited for them to move on. "I won't stand for it," says Officer Mathews. "If people in automobiles want to talk, there is plenty of room along the sidewalks without their having to block traffic. I am going to arrest every motorist I catch needlessly stopping in the middle of the street."

Mathews made eight arrests all told Monday.

MEN EXPATRIATED FROM MEXICO TO BE ASKED TO RETURN

New Provisional President Would Have Them Give Aid in Building Up Country.

MEXICO CITY, June 1.—Men who have been expatriated from Mexico to be invited to return and help build up the country, according to a statement made today by Adolfo La Huerta, provisional president. Huerta added that those with charges against them must face trial. Extraordinary sessions of congress will be called shortly, he continued.

A thorough diagnosis of Huerta's illness was declared by physicians today to be appendicitis, but shows the disease to be of a slight character. In a statement to The Associated Press, Huerta declared: "I do not assume this office to serve the interest of any political party." He further stated that he would give all political candidates guarantees and would make strenuous efforts to improve working conditions and develop Mexico's natural resources.

WILSON TENDERS U. S. AID TO FIGHT BUBONIC PLAGUE

Associated Press.

VERA CRUZ, June 1.—President Wilson has offered to send hospital ships, nurses, doctors and medicines to Vera Cruz immediately to assist in combating the bubonic plague raging there.

Late authentic reports from the stricken districts state that eleven cases have developed here with five deaths. The first case of the plague developed May 15.

GOVERNOR ASKS DELINQUENT TAX LAW BE AMENDED

Associated Press.

AUSTIN, Texas, June 1.—Governor Hobby today submitted to the state legislature, in special session, a proposed amendment to the delinquent tax law, which authorizes unincorporated cities and towns to bring suits for delinquent taxes.

A suspended sentence law, to provide in certain felony convictions, the suspended sentence not to apply to persons over twenty-five years old, was today submitted to the state legislature.

LAUNDRY GIRLS SCRUB AND IRON TO TIME LATE MUSIC

Associated Press.

BATH, England, June 1.—To stimulate quicker work in a laundry here, the proprietor has installed a phonograph which grinds out popular songs and dances while the girls scrub and iron. A marked difference in the amount of work done is said to be noticeable.

SANITATION IS THORN IN SIDE CITY OFFICERS

COMMISSIONERS HOLD A LIVELY SESSION; TALK FOR CLEANER CISCO.

CLAIM SOME DERELICT

Fifty Per Cent of People Have Garbage Cans, While Others Use Barrel and Boxes.

The sanitary situation and solution of the problem, was the live and paramount question discussed by the city commissioners at their regular meeting Monday night. And it was a condition that the mayor and all members of the commission admitted most difficult to handle satisfactorily to the city and the people.

Part of the citizens are paying for service that cannot be given because the other part of the citizens are derelict and obstructing the service by their cats. And yet, strange to say, claim the commissioners, the derelicts are clamoring for better service.

File Garbage in Alley.

While perhaps 50 per cent of the people have garbage cans, the others are using old barrels, boxes, sacks, or just piling the garbage in the alley, expecting the garbage man to scrape it up for them. With this condition, they cannot give service, say the commissioners. It would require more means than the city have for the purpose to keep the city sanitary without the cooperation of the citizens. It would take more wagons, teams and men than the city has.

Discussion said that people had been urged to get garbage cans, and that those who complied, now had them full and running over and they were not hauled away, because of insufficient equipment and men to do this and meet the derelict conditions.

More Flies Than Ever Before.

"There are more flies in Cisco now than ever before," said Dr. Gregory, city health officer. "And there have been cleaned out since April. Some of these are right in the close-in districts, where there is no excuse for failure to have sewer connection."

Mayor Williamson did not believe that the sanitary condition was so bad here, especially as compared with former years, but that Ciscoans were just progressing and were calling for improved sanitary service. He says that there are just more flies some years than others, and the excess this year did not indicate that they necessarily came from filth in the city.

However, Commissioner Claud Wild thought that if the fly menace was here extensively, it was time to reduce the filth—as it is the home of flies, which are the spreaders of disease germs.

Confiscate Improvised Receptacles. After a many-angled discussion, it was thought that the proper action to follow would be to instruct the garbage men to get the garbage from the regular cans, like that in irregular cans or sacks—together with these receptacles, to not be returned. That garbage which was placed in the alley without any container would be left where it has been piled by the derelicts.

It was recognized that this would be an injustice to those complying with sanitary regulations. So these derelicts will be given another opportunity to get cans and comply, and if they again fail to do so, the law will be applied by the city government.

The commissioners say they mean to get sanitary officials, and so instructed the executive officials.

It was believed that regular and prompt service will induce all citizens to provide regular garbage cans and cooperate with the city in its sanitary work.

They may district the city, and have a garbage contractor for each district. There were several minor subjects discussed at this meet, and routine business transacted.

It was ordered that the sidewalks on Main street shall be extended out to the new curb line; and if the property owners fail to comply with this order, the city will do the work and assess the cost against the property. However, the sidewalk portions of the walks were permitted to remain—over the protest of one commissioner, Claud Wild, who wanted to see this street with proper sidewalks now instead of ten years hence.

Humbletown Maintains Own Streets. Humbletown maintains its own streets and pays its own police, while being an integral part of Cisco. For violating traffic ordinances there quite a sum in fines has accumulated in the Cisco treasury. On petition from the Humble management, the commission appropriated this amount to Humbletown. Humbletown does much and asks but little, and they are entitled to the fees to help maintain their police force, in the view of the city commissioners.

The commission approved assessments for paving certain alleys and will give a hearing to the owners on June 14.

It was ordered that the street supervisor should have fine rock put on the course which has been placed on some streets, and which are now too rough for motor cars.

School Matters Discussed. Touching on school question, the (Continued on Page Two)

PALMER CHARGES POST GAVE HELP TO ANARCHISTS

Associated Press.

WASHINGTON, June 1.—Charging that Lewis F. Post, assistant secretary of labor, has "perverted sympathy for the criminal anarchist, Attorney General Palmer told the house committee today that in dealing with the attempts of the government to rid the country of dangerous aliens, Post employed "self-willed, autocratic substitution of his own mistaken personal view-point for obligations of public law."

Palmer, testifying before the committee investigating Post's official conduct in deportation proceedings, said: "By his habitual solicitude for the social revolutionists he perverted sympathy for criminal anarchists of this country. Mr. Post has consistently deprived the people of their day in court, and the enforcement of the law, which is of vital importance to their peace and safety."

Continuing, Mr. Palmer said: "By his wholesale jail deliveries and his release of even self-confessed anarchists of the worst type, he has utterly nullified the purpose of congress in passing the deportation statutes and has set at large amongst our people the very public enemies whom it was the desire and the intention of congress to be rid of. He has defied the rules of evidence as laid down by our most responsible courts and has canceled hundreds of legal warrants issued by his department entirely without justification."

Visitors From Wichita Falls. F. A. Bannon and H. A. Weir, of Dallas and Wichita Falls, are in Cisco, on business in connection with the Bannon Rotary Motor club.

Rod and Gun Club "Shoot." The Cisco Rod and Gun Club will hold its "shoot" at Lake Bernie, Friday evening. The "shoot" last Friday was postponed because their trap had been broken since formerly used. But this has now been repaired.

CISCO'S BUSINESS STREETS WILL BE CLEANED DAILY

Mexican With Pushcart Put to Work on Main Street and Improvement Is Evident.

At last some tangible evidence that Cisco's business streets are to be kept clean, has made its appearance.

Yesterday a Mexican with a pushcart got busy on Main street, and by noon the north end of that thoroughfare was considerably improved in appearance.

With one man putting in a full working day on the streets of the downtown business section each day, the problem of keeping the trade section of the city in a slightly condition is practically solved, as far as it can be solved at this time, the city officials say.

Credit is due the Young Men's Business League, as well as the city commission, for this first step toward civic cleanliness.

SHIP VALUED AT MILLION BURNED IN GALVESTON FIRE

Cotton Warehouse With 41,000 Bundles of Cotton Ties Stored, Badly Damaged.

GALVESTON, Texas, June 1.—Fire, starting last night on pier 41, was under control this morning, but burning fiercely. The Sisal, valued at \$1,600,000 and owned by a New York firm was destroyed. Two concrete warehouses were badly damaged.

Spontaneous combustion was given as the cause of the fire.

Forty-one thousand bundles of cotton ties were stored in the warehouses.

President Wilson Affixes Signature to Agricultural Bill

Associated Press.

WASHINGTON, June 1.—President Wilson today signed the annual agricultural appropriation bill, which continues in force the present cotton futures contracts under which trading on cotton exchanges is carried on.

Mrs. Riddle and Daughter Entertain. Mrs. B. T. Riddle and her daughter, Mrs. Fleet Shepard, entertained with two parties last week, at the home of Mrs. Shepard, 500 Avenue F. The home was prettily decorated with roses and ferns.

On Wednesday afternoon it was a "bridge" party, consisting of seven tables, at which high score was won by Mrs. Charles Fleming. Apricot ice and angel food cake was served at the conclusion.

Thursday at nine o'clock a. m. nine tables were set for a "forty-two" game, at which guests played. Angel food cake and ice cream was served the players.

Mayor Out of City. Mayor Williamson is in Brownsville on business. He will return either this evening or tomorrow morning.

ALLEGED SUGAR THIEVES FIRE ON CAPTORS; KILL 2

DREW CONCEALED PISTOL WHILE BEING CONVEYED OVERLAND IN CAR.

OFFICERS TO RESCUE

Wound and Capture All Three Prisoners—Man Who Started Shooting Fatally Wounded.

Associated Press.

MIAMI, Fla., June 1.—After officers had captured three alleged sugar thieves at Picher, Okla., and were bringing them to Miami in an automobile, one of the prisoners drew a concealed pistol and killed Detective O. B. Vanderpool and Morris Chandler, head of a wholesale grocery house here.

Officers following in another automobile opened fire and they wounded and captured the three prisoners. The man who started the shooting is believed to be fatally wounded.

WILL NOT SUBMIT UTILITIES BILL AT PRESENT SESSION

Associated Press.

AUSTIN, Texas, June 1.—It was announced today that no public utilities bill will be introduced at the present session of the legislature, but that Governor Hobby will appoint a committee to work out a bill for the next regular session. This announcement was made following a conference with Mayor Frank Wagoncraft of Dallas, and former president of the Texas League of Municipalities.

The bill proposing the appropriation of \$25,000 to reimburse the farmers whose cotton has been destroyed in the boll-worm fight, was introduced in the house today. Chairman McDowry says he thinks the boll-worm investigating committee will recommend to the legislature a bill proposing regulated zones in the alleged districts.

LARGE GREY WOLF SHOT AND KILLED IN CITY LIMITS

Cisco is no place for wolves—either real one or those in the business world who want to sneak in, clean up and get out.

This was demonstrated this morning when J. P. User, a pioneer of this section, killed a great grey wolf inside the city limits. The animal was two feet six inches in height, according to User, who says that he has killed many of them in by-gone days, but that this is the largest one he ever sent to eternal rest.

User lives in Efferton Heights. Early this morning he saw the wolf prowling around his rear yard. A shot gun was near at hand and the pioneer let the intruder have its full contents. User says he has lived in the western part of this country since 1868. His aim is still as good as it ever was.

Cisco Veteran of Spanish-American War Seeking Pension

The first case of a Spanish-American war veteran seeking disability pension or bonus from the government here was brought to the attention of the local chapter of the Red Cross today, according to Mrs. Philipp Pettit, in charge of activities of that organization in this city.

The veteran showed that he had been discharged from a hospital during the war of '98, with an injury to his eye which has since become aggravated to such an extent, he says, that he is forced to call upon the government for the first time for aid.

Mrs. Pettit has written to the St. Louis headquarters for instructions as to what disposal to make of the case.

LEGISLATION ON PINK BOLL WORM CAUSE OF STIR

CHAIRMAN FEDERAL HORTICULTURAL BOARD SAYS PROPOSED ACTION WILL FORCE QUARANTINE ALL TEXAS.

AUSTIN, Tex., June 1.—Charles L. Marlett, chairman of the federal horticultural board, who left here today for Washington, announced this morning in a statement issued by him relative to the pink boll worm legislation being considered by Texas legislators:

"If said legislative laws are enacted they will force a quarantine of all Texas by making it impossible for a prompt and continuous inspection of regions under suspicion."

He further said: "The federal horticultural board does not venture to interpret the constitution and laws of Texas, but the board does believe it is competent to point out these and other radical defects in the bill."

Mr. Marlett then added: "The federal horticultural board and its advisory duties under the invitation of Governor Hobby and the legislature of Texas were now concluded."

Hope that federal aid would continue in the matter was expressed by Mr. Marlett, however, and he asserted that this was possible should the outcome of the legislative session not prove a handicap to the federal government's position in this important matter.

SUPREME COURT FAILS TO ACT ON PROHIBITION AMENDMENT

WASHINGTON, June 1.—The supreme court of the United States failed again today to decide the validity of the prohibition amendment and portions of the enforcement and recessed until next Monday, when the present session will close.

SEVERAL HURT IN AUTO MISHAP ON EASTLAND ROAD

Several people, whose names and identity could not be learned this afternoon, were badly hurt when the touring car in which they were driving to Cisco from Eastland leaped over the edge of a culvert about four and a half miles from this city Sunday evening, and turned turtle. Motonists here who passed the scene of the accident, reported the matter, but were unable to discover any of the circumstances attending the car was a Hudson Super Six. The culvert is said to be narrow and treacherous with a considerable drop to a gully below.

HOUSE ADOPTED A RESOLUTION TO ADJOURN JUNE 5

Associated Press.

WASHINGTON, June 1.—The house today adopted a resolution to adjourn congress, sine die, at 4 o'clock Saturday afternoon.

CANNOT VOTE TO RATIFY FEDERAL AMENDMENTS IN STATES WITH REFERENDUM

Associated Press.

WASHINGTON, June 1.—The supreme court today held that federal constitutional amendments can not be submitted for ratification to referendum vote in the states having the referendum provision in their constitutions.

The court also declared in operation the Ohio state constitutional referendum amendment, insofar as it affects the ratification of federal amendments. The court declared unconstitutional the war revenue act requiring the president and all federal officers to pay income tax on their salary.

CISCO'S HERO DEAD HONORED WITH PROGRAM

MEMORIAL EXERCISES UNDER AUSPICES WM. BUTTS CHAPTER AMERICAN LEGION.

Cisco's hero dead were honored Sunday afternoon when crowds of friends and relatives, together with old buddies, gathered at the city hall auditorium.

The memorial program was under the auspices of William Butts' Post Number 123 of the American Legion here, with Joseph Cullinan, vice-commander, presiding. The auditorium was tastefully decorated with flags and flowers.

Speaking for ex-service men, F. D. Wright, who made the principal address, said:

"We are here not in honor of or in deference to ourselves, but rather for the cause for which we fought and the men we know who surrendered everything to that cause."

The Chamber of Commerce Band was particularly pleasing with its music. Harry Schaeffer, leader of the band, played a touching violin solo. He was ably accompanied by Mrs. Ernest Mison.

The Rev. E. H. Holmes, pastor of the Christian church, read from the scriptures and made introductory remarks.

Following the ceremony, those present proceeded to the cemetery where the graves of three of the Cisco heroes of the war were decorated with flags and red, white and blue sweet peas and larkspur. The graves were those of Fids Walker, Clinton Alexander, and F. E. Bryan.

Mrs. Phillip Pettit of the local Red Cross Chapter assisted throughout both memorial programs.

Britisher Asserts Women of Egypt Are Serfs, Beasts of Men

Associated Press.

LONDON, June 1.—The treatment of women in Egypt is the darkest phase of Egyptian life, says G. N. Barnes, member of parliament, who recently returned from a tour of that country.

The men in Egypt, said Mr. Barnes, so far as sex relations were concerned, thought themselves the lords of creation. They could divorce their wives at will without whim or reason, and it was not uncommon for a man to have three wives.

"In many houses," continued Mr. Barnes, "I never saw a woman and you can take it from me that the position of the women in Egypt is absolutely one of serfdom and dependence. They spend their lives in miserable hovels, in working in the adjoining fields, or in getting water."

"They are the serfs of the men and as much beasts of burden as the donkey and the camel. A people which uses women folk in that way are destined to be a subject race and do not deserve to govern."

PERSONALS.

Mrs. W. L. Foy and her little daughter Myrtle, are visiting for some days in Rotan, with the family of Mr. Foy.

A. J. Wisdom is back from Missouri, where he spent two weeks' vacation, and says he had a most pleasant trip.

Elisha Roper has gone to Plainview to superintend the harvesting of his wheat crop on his ranch near there.

Mrs. E. L. Battle successfully underwent a surgical operation at her home, 401 West Second street, Saturday, and is reported recovering nicely.

Mrs. M. F. Stamps and Mrs. J. A. Williams, sisters, have gone to California to spend the summer. They left Monday.

Greene Hazel, Eastland county attorney, was in Cisco today.

Mayor James Williamson made a trip to Breckenridge today. It was personal business that took him away.

Mrs. John Kirby of Waco is visiting with Mrs. E. Gray Powell, 402 4th street.

Mr. and Mrs. J. W. Westerman of Cross Plains returned into the city today.

Three Deaths at Brownwood.

BROWNWOOD, Texas, June 1.—Three deaths occurred in and near Brownwood Sunday—James Morrison McCaughey, a pioneer farmer and citizen, near Bangs; James Ralph Hughes, five-month-old child of Mr. and Mrs. H. M. Hughes of this city; and George W. Reese, a well-known citizen of Brownwood, aged 74.

Test Well at Brownwood.

BROWNWOOD, Texas, June 1.—The Bowen-Olympic Oil company of New York, is preparing to sink a test well in the suburbs of Brownwood Heights. The company is prepared to put the well down to a depth of 2000 feet, nothing but the most approved machinery being used.

The Hon. T. H. McGregor, candidate for Governor of Texas, will speak at the City Hall in Cisco Wednesday afternoon at 2 o'clock.—Adv. 1-11

An exhibition to show the progress of the textile industry in the Mississippi valley is to be held in St. Louis next August.

Too Late to Classify

BILLY SUNDAY'S SON ENJOYS REST FROM DUTIES AS WOOD'S PUBLICITY DIRECTOR

George M. Sunday, George M., Jr., John Mason and Mrs. Sunday at Atlantic City.

George M. Sunday, son of the world famous evangelist, Billy Sunday, is publicity director of General Wood's campaign for the Republican presidential nomination. The picture above shows George and his wife and two children enjoying a brief rest as Atlantic City recently.

Sanitation Is Thorn In Side of City Officers

(Continued from Page One)

Mayor said that it would be September, 1921, before Cisco could have a new high school building, but in the meantime some relief must be had. Commissioner J. O. Sue suggested that steps be taken to build a ward school in the northwest portion of the city, which is needed anyway, and let it relieve the present high school, including the grades—which would serve until the new high school building could be constructed. This suggestion was received favorably, and may result in early action.

It developed that no report had ever been made to the commission of the result of the recent school election, whereby the schools of this independent district were transferred to the charge of the city.

Mr. Carroll was before the commission asking information concerning paving on East Broadway. The engineer will give them figures as to cost.

Planning For Another Year. Mayor Williamson brought up the subject of "planning" by the commission for another year, including the budget. And he would lay these plans before the Chamber of Commerce, the Young Men's Business League, and other organizations of the city, and seek a concerted action in carrying out the sentiment of progress which these organizations had helped to crystallize.

He says that some people are kicking because of conditions which they do nothing to prevent. All of which tends to anarchy and disintegration. He says that some persons are disposed to dictate, but that officials and organizations refuse to take distasteful orders. However, they want the support of public sentiment.

The commission will meet again Wednesday night, when its budget and plan proposition will be taken up and discussed by the members.

Wednesday night, when its budget and plan proposition will be taken up and discussed by the members.

Katy Official Passes Through.

Attached to train No. 37, on the M. K. & T., passing through Cisco at 2:55 this afternoon, was the private car of H. E. McGee, general manager of this road in Texas.

Mr. McGee, who is making an inspection tour of the line, is a West Texas product, and one who has risen to position by his own efforts.

Killing Near Santa Anna.

BROWNWOOD, Texas, June 1.—James C. Goodwin was killed, J. W. Conner perhaps fatally wounded, ten miles southeast of Santa Anna, Sunday by John Wallace, brother-in-law of Goodwin. Family troubles are said to be the cause of the tragedy.

Goodyear Tire Men Here.

G. N. Kinkhead and M. L. Francis, manager and assistant manager, respectively, of the Dallas branch of the Goodyear Tire and Rubber company, were in Cisco today on a tour of inspection for their concern. Both are pleased with this field of activity, and say that their sales here have exceeded expectation.

Brownwood Building Permits.

BROWNWOOD, Texas, June 1.—During the month of May building permits were issued in Brownwood to the amount of \$16,500. The list includes two residences at \$5500 and \$5000, respectively.

Thirty-One Marriage Licenses in Brown.

BROWNWOOD, Texas, June 1.—Thirty-one marriage licenses were issued by the county clerk here in May, as compared with twenty-one for the month of April.

AUSTIN BUREAU OF WEST TEXAS C. C. NOW OPEN

SEEKING TO HAVE MUNICIPAL BONDS FREED FROM BOTH COUNTY AND STATE TAX.

Special to The News.

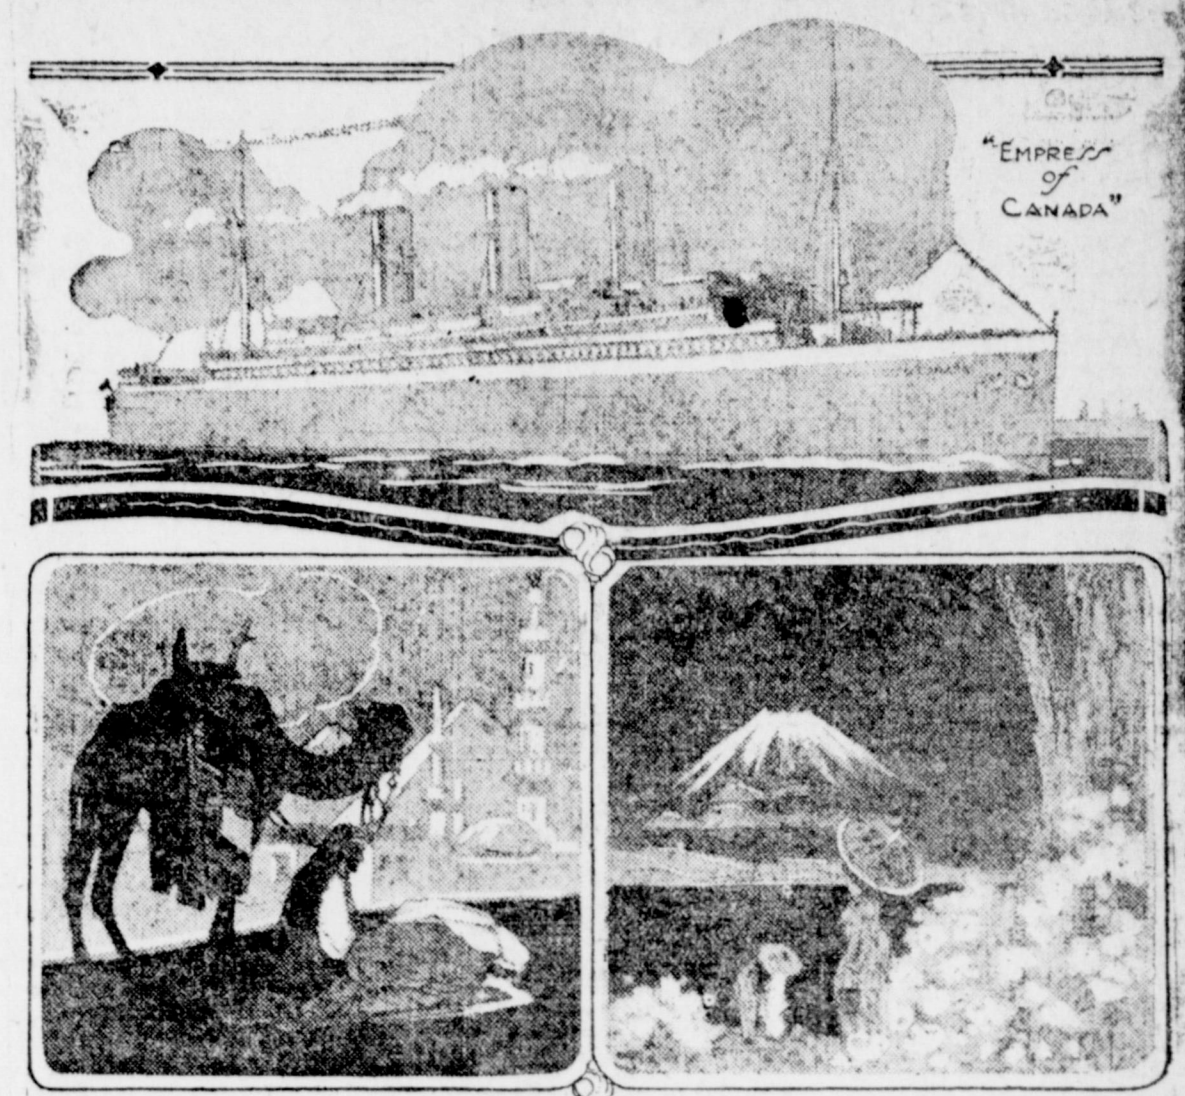

AUSTIN, Texas, June 1.—The West Texas Chamber of Commerce has opened its Austin Legislation Bureau, an entirely new department, which is finding steady employment during the strenuous days of the special session. The office is temporarily in charge of Manager Porter A. Whaley and W. M. Woodall, secretary of the Eastland Chamber of Commerce, but later to be placed in the hands of W. H. Wright, Publicity Manager.

Consensus of opinion of representatives of the bureau who have interviewed leading solons is that the governor will not submit the matter of a state income tax at this session. Most of the legislators are pledged against it. The East and West Texas Chamber of Commerce, the two main regional commercial organizations of the state, are firmly opposed to it.

The Austin Bureau is seeking to have municipal bonds freed from county and state taxation so as to permit of their ready sale. This action is taken upon petition of Sweetwater, Hamlin, Cisco, Wichita Falls and other West Texas towns whose bonds are unsold because of the unstable money conditions.

Every new phase of the boll-worm hearing is being digested to the end that it may at the psychological moment safeguard all the interests of the cotton world in the West. If federal and state parties lock horns the West Texas Chamber of Commerce will ask that West Texas be regarded as not a party to the quarrel nor in any way implicated in the situation, so that it as a territory may be eliminated. West Texas believes it has more support for freedom of quarantine than Louisiana, Arkansas and Mississippi, which are closer to the infested territory than the West. The organization is also taking up the cause of owners of patented lands in Wilbarger and Wichita counties on the Red River to prevent their inclusion in the present receivership imbroglio.

NEW "EMPRESS OF CANADA" TO TOUR THE WORLD

The big, new "Empress of Canada" is to signalize her service as a Trans-Pacific ship by an around-the-world voyage. This 22,000-ton leviathan is being built especially for the trans-Pacific service. She will be launched at Govan, Scotland, on August 17 and will be completed by March 15, 1921, on which date she will leave Liverpool on her maiden cruise, stopping first at Gibraltar, Monaco, Naples, Port Said and Suez. On this leg of the voyage there will be side trips to Monte Carlo, Nice, Rome, Pompeii and Vesuvius; there will be three days at Cairo, visiting the Sphinx, the Pyramids and the Nile; and the "Empress" will then pass through Suez Canal and the Red Sea to Bombay, India. At Bombay she will give her passengers shore leave to visit Agra, with its famous Taj Mahal, Pearl Mosque and Palace of Akbar. Colombo, Ceylon, Singapore, Batavia on the Island of Java, Manila, Capital of the Philippines, Hongkong, Shanghai, Kobe and Yokohama will also be visited, and the "Empress" will reach Vancouver in June. Here a special train will take her passengers through the Canadian Pacific Rockies on their way eastward to the Atlantic Ocean. The "Empress of Canada" is the largest and finest steamship ever built for service in the Pacific. Her length is 644 feet, her beam is 77 feet and her depth 53 feet. Her turbine engines, driven by oil fuel, will give her a speed of 22 knots per hour. Canada may well be proud of her new "Empress."

PARTICIPATED IN TOTAL OF 62 DEBATES AND WON FAVORABLE DECISION IN 42.

Special to The News.
AUSTIN, Tex., June 1.—Since the establishment of the school of public speaking in 1899, the University of Texas has participated in a total of 62 debates and has secured a favorable decision in 42 of these, or a percentage of about 70 per cent in debates won.

In 1916 Charlie Francis and Orville D. Woodson debated with Colorado, the University of Southern California and the University of Arizona, on a single trip, giving the University of Texas a record for that year of six straight debates won. This record has been eclipsed during the past two years by straight victories in eight intercollegiate debates with out-of-state institutions, credit for the recent victories being due solely to the efficient work of the debate-coach, C. D. Tomkies. Calls have been received from two publishing houses for the Texas debates on the teachers' union question.

The public speaking council has decided to have the final preliminaries for the intercollegiate teams held before the close of the fall term next year, so that the squad of 12 men will be chosen the week preceding the winter term examinations. The question for the preliminary next year is "Resolved That the Movement for an Open Shop in the United States Subverts the best interests of America."

This question will be used for the debate preliminaries next year, regardless of whatever question or questions may be chosen for the intercollegiate debates.

At the last meeting of Delta Sigma Phi, honorary public speaking fraternity, it was voted that steps be taken to send at least one debating team to northern or eastern institutions next year. Judson Francis of Austin was elected captain of the debating squad and plans are being made to debate either Northwestern University or the University of Chicago, or eastern universities, including Harvard and Yale.

COTTON ACREAGE IN WEST TEXAS WILL SHOW INCREASE

Special to The News.
STAMFORD, Texas, June 1.—It is conservatively estimated by the research department of the West Texas Chamber of Commerce, that at least 75 per cent more acreage will be devoted to cotton in West Texas this year than was the case in 1919, due largely to the restriction of acreage to wheat and oats. Much more maize, Kaffir and fetterita will also be planted.

ROCHESTER HAS UNIQUE PLAN FOR LABOR TROUBLES

Clothing Industry Adopts Method of Collective Bargaining and Puts End to Disputes.

Associated Press.
ROCHESTER, N. Y., June 1.—Collective bargaining is the method adopted by the clothing industry in Rochester to solve its labor problems. Manufacturers declare that it has been so successful here that the National Industrial Federation of Clothing Manufacturers has been formed to deal with a national organization of the workers. In a time when strikes have been frequent in other industries, there has been peace in this industry here, except in one plant which is not a party to the agreement between the employers and workers.

Shoe manufacturers of Rochester have adopted the plan and ended a strike by an agreement similar to that in the clothing trade.

Under these agreements, the strike and lockout are believed to have been eliminated and the open shop prevails. The union relinquished its claim for a closed shop. One of the labor managers, representing the employers, says that the union suffered no loss by doing so, but that on the contrary the number of clothing workers organized has increased from 50 per cent of the total employed to 90 or 95 per cent.

As the collective plan operates here, the more general agreements between the workers and employers are made by a local joint board, composed of representatives of the clothing manufacturers and the workers. Working conditions are formulated by a labor adjustment board composed of representatives of both sides. Its decisions become the laws of the industry. Appeals can be taken to a court presided over by an impartial judge, whose decisions are accepted by both sides as final.

In the shops labor managers represent the employer and shop chairmen the unions. The manufacturers have their price commodities and time-study men and the unions retain their local business agents.

The plan had its conception as the result of a threat of the workers to go on strike. In its adoption the manufacturers obtained the advice of Dr. Meyer Jacobstein of the University of Rochester, who has been teaching methods of service management.

West Texas Exhibits.

Special to The News.
STAMFORD, Tex., June 1.—The cull of the agricultural exhibits which 59 counties in West Texas will display at the Dallas State Fair this fall will be moved to Waco for the Cotton Palace to enter into competition with the picked products of any other section of the state for a prize to be awarded by the Young Men's Business League of Waco.

MODERN BUSINESS AND THE PUBLIC SERVICE UTILITIES

California Commission Says Stoppage Of Investment Means Tremendous Losses to Many Communities.

To what extent does growth and expansion of business life in modern communities now depend upon the prosperity and the ability to attract new capital of its utilities?

The railroad commission of California in a decision rendered on April 15, says failure of the utilities to obtain new money and to grow, would result in "tremendous losses to the whole community," and that "business life of a community is in a very large measure dependent for its growth and expansion and in some instances, even its continued operation," upon the utilities' ability to earn sufficient profit to attract capital from other businesses.

In the decision, which grants an increase of 37 per cent in rates to the Southern California Edison company, one of the largest electric utilities of the state, the commission gives this interesting view of the relationship of the utilities to the community:

"It is vitally necessary for the continued growth and prosperity of the vast territory in southern California supplied by the company with electric energy, that its full program of development go forward without interruption.

"We believe it to be in the interest of the consumers that they pay rates sufficiently reasonable to enable the company to earn a fair and reasonable return upon the actual investment. Unless this is done it is plain that this utility cannot borrow sufficient funds to carry forward necessary developments. It is of great importance that this program of development go forward. Should there be any halt in this program, it is evident that tremendous losses will result to the whole community, if sufficient electric energy is not developed to meet the growing demands.

"It is becoming increasingly evident that the business life of a community is in a very large measure dependent upon the growth and expansion and in some instances even its continued operation, upon electric energy."

DANISH SCIENTISTS HONOR AMERICAN

Prof. Theodore W. Richards. Professor Richards of Harvard University, winner of the Nobel prize for chemistry in 1914, has been elected a member of the Danish Society of Science as a mark of honor.

ity, if sufficient electric energy is not developed to meet the growing demands.

"It is becoming increasingly evident that the business life of a community is in a very large measure dependent upon the growth and expansion and in some instances even its continued operation, upon electric energy."

SPECIAL TRAIN TO CARRY NEW YORK'S WOMEN DELEGATES

Fifty-Four Leave for San Francisco June 19, Led by "The Mother of Women Democrats."

Associated Press.

NEW YORK, June 1.—Led by Mrs. John Sherwin Crosby, called "the mother of New York democrats" a special train carrying 54 women delegates and alternates to the National Democratic convention in San Francisco, will depart from New York, June 19. This will be the first expedition of its kind in the United States. Many of the women will be accompanied by their husbands, children or other relatives. The party will be augmented by delegates from other states at various points en route to Chicago; and after the convention, the members will visit Pike's Peak, Colorado Springs, the Grand Canyon of the Colorado, Riverside, Hollywood and Los Angeles, and the Catalina Islands. The return home will be by the way of the Canadian Rockies, reaching New York on the evening of July 11.

The delegates at large from New York are Elizabeth Marbury and Harriet May Mills and the alternates at large are Mrs. Maurice Connolly of Corona, L. I. and Mrs. Nellie Hewitt of Carthage, N. Y.

Mrs. Crosby organized the first woman's democratic club in the United States in 1904. It was located here and subsequently, in 1912, she founded the Woman's National Democratic League. Two years later she established a New York branch of the national body. Mrs. Crosby says she cherishes no illusions as to what women, in their first actual participation in a national political convention, will be able to accomplish. She said, however, she and most of the other women delegates—they will constitute more than 300 of the 1025 in the gathering—have certain ideas which will be discussed at a caucus before the convention assembles and that they will be submitted to the platform committee in the form of resolutions.

Some of these ideas, Mrs. Crosby said, were government ownership of oil wells, and coal mines, railroads and other public utilities; a modification of the prohibition enforcement act to permit the manufacture and sale of "light wines and beer;" a plank to make it a felony to profiteer in necessities; higher pay for postal employees; advocacy of the Sheppard-Towner "maternity bill," providing for government care for every expectant mother and child; and making it unlawful for anyone to employ a woman in that condition; more rigid child labor laws; shorter hours for workingwomen, 12-

000,000 of whom are now said to be in industries and professions; more equitable taxation and the stimulation of building and other industrial enterprises by the removal of restrictive burdens.

Elizabeth Worral Austin, a 17-year-old heiress of Philadelphia, has found the cost of living very high, so high, indeed, that she declares herself totally unable to get along on her annual allowance of \$200, and has petitioned the court to increase it to \$12,500.

From the earliest times flax has furnished the raw material from which linen is made. Linen mummy-cases bear witness to its having been used in ancient Egypt.

Advertising....

---the foundation of your business

A Request

To insure The News' advertisers the best service—position, set-up and good-looking ads—we would request that all advertising be in The News office one day ahead of date of publication, as far as possible.

Going into the afternoon field, The News will have to have a "dead line" as to how late copy will be accepted for publication in the paper of current date. Copy for publication on same day it is given must be in The News office by 10 o'clock of that day.

Advertising has long been one of the principal assets in the success of any business—it has been likened to the rudder and his business as the rudder is to a ship—and is just as indispensable to the business man as a rudder is indispensable to a ship.

Advertising is not a hit and miss proposition; it should receive just as careful consideration as the buying of the merchandise; no matter how cheap you buy the best of merchandise, you will have to have publicity of some sort to dispose of it. And the best form of publicity for any merchant in Cisco is newspaper advertising.

Advertising to the Cisco merchant is vitally important at the present time because of the effort now being made to make this city larger and better. And if Cisco is going to be a larger and better city, advertising will play the most important part in this work.

Advertising in The News is not an experiment—it is an investment. The advertiser who uses space in The News consistently and persistently will soon notice the increase in business—and will know for a surety that the increase was the result of this advertising.

Plan your advertising campaigns ahead—if you are too busy to give it your full attention, just call for our Service Department and our representative will call and give you the benefit of his experience and knowledge.

Our Advertising Service Department Will Assist in Planning Your Advertising Campaigns.

BRITISH MANDATE OVER PALESTINE — TURNS JEWISH DREAM INTO REALITY

NEW YORK, June 1.—When the Turkish delegates to the peace conference affix their signatures to the treaty of peace the dream of the Jew will have been realized. The Israel that crumbled under the tyrannical heel of Titus in 70 A. D. will be reborn in its native religious glory, but on American political lines—that is, if the Jews of the United States have anything to say for the treaty which those Turkish plenipotentiaries must sign gives Great Britain a mandate over Palestine, and England has pledged herself, both in the terms of the mandate and in a wartime declaration, to make the Holy Land the homeland of the Jew.

There is apparently no question but that the Jews are going to make Palestine "a prosperous home for the Jews," as Premier Lloyd George hopes. Plans already on foot call for the expending of more than \$100,000,000 in restoring the Holy Land to its ancient glory, but with modern methods of living and modern sanitation. It will not be restored as the Palestine of Christ's time, but as the land of Christian and Jewish religious tradition would have had it kept step with the progress of civilization during the decades it was under the heel of the Turk.

BRITISH MANDATE OVER PALESTINE — TURNS JEWISH DREAM INTO REALITY

Judge Julian W. Mack (above) and Judge Louis D. Brandeis. Dotted line on map indicates old boundaries of Palestine; solid line the new.

Country to be Americanized.

To use the words of United States Judge Julian W. Mack, president of the Zionist organization:

"The country must be prepared for the coming of the masses. Disease must be eradicated, the hillsides reforested, the waterfalls harnessed and converted into electrical energy, the soil fertilized and irrigated, the highways built, the railways extended, the harbors cleared and deepened, agriculture, commerce and industry established, the land itself in largest measure naturalized, the natural resources and the essential public utilities developed and preserved for the whole people."

Estimates vary as to the number of Jews that the Holy Land can accommodate. The Jewish population of the world is placed at 14,000,000, so about two-sevenths of the world's Jews may return to their homeland. There are 3,000,000 Jews in the United States, about half of whom are in New York.

Rabbi Wise declared recently:

"It may be that no more than one-third or one-fourth of world Jewry will find their home in the new Zion, but every Jew on earth, whatever his nationality, loyalty and devotion, must have part in the rebuilding of that homeland, which means the end of exile for the weary and the door of hope for all such as languish in the desolation of homelessness."

"Holy Pilgrimage" Under Way.

Already the hordes have started on the Jews' term the "holy pilgrimage." Recent reports from southern European countries had it that thousands of Jews walking afoot and traveling in all manner of conveyances, had crossed the border into Italy and parts of Turkey, there to await the opening of the door into Palestine by Great Britain. This even, according to the best information the Zionists have been able to obtain, will take place very soon after the Turkish treaty has been ratified by Great Britain and the other allied powers.

How this great migration is to be governed will in a large part be decided at a world conference of Zionists, which is to be held in Carlsbad, Czechoslovakia, July 4. Every civilized country in the world will be represented at this conference. The United States will be represented by 39 delegates, headed by Justice Louis D. Brandeis of the United States Supreme Court.

Other delegates from this country will be Nathan Straus, Judge Mack and Joseph Brandeis.

Palestine's Growth.

The Palestine of the twentieth century will differ materially in size from the Palestine of Christ's time or of that under the Turk. Its boundary on the north, according to best advices received here, probably will run in a straight line from Sidon to the Litany river, then in a semi-circle around Mount Hermon and in a general east, south-east-

erly direction around the Hauran to the Arabian desert. It will run south through the desert to the Hejaz and west-southwest to the Gulf of Akabah; from the gulf in a northwesterly direction through the Sinai desert to the Mediterranean sea, hitting the sea at El Arish. Haifa, if present plans are carried out, will be the principal seaport.

The government of Palestine will be strictly British, with a leaning if any toward Jewry. Saturday will be the Sabbath. Time will be kept according to the modern calendar. While the home life of the Jews will be built entirely along Jewish traditional lines, the industry and commerce of the country will be conducted by modern American methods. Up-to-date modern sanitation will be used in Jerusalem and the other cities that are bound to increase in size, and the schools, where the Talmud will govern, are to be modern in every respect.

The Hon. T. H. McGregor, candidate for Governor of Texas, will speak at the City Hall in Cisco Wednesday afternoon at 2 o'clock.—Adv. 1-11

Billiard balls of hard rubber are now used instead of the mere expensive ivory spheres. An infinite number of tests have proved them not only much livelier but also much more durable than the old-style composition balls.

50 Texas Girls at Austin Today for Clothing Contest

Associated Press.

AUSTIN, Texas, June 1.—Fifty-odd girls from 14 Texas cities and towns entered in the state-wide clothing contest here today.

A style show, in which the girls will appear in clothing and hats of their own design and make, is being held this afternoon.

The Texas congress of the Mothers' Parent Teachers' association has offered various cash prizes for awards in this, the first state-wide contest of the kind ever held, according to Miss Lillian Peck, director of the contest.

WELL BROUGHT IN NEAR CISCO WITH 1,000-BARREL FLOW

A well estimated to have an initial production of 1,000 barrels per day has been brought in on the J. Z. Carter tract about 6 miles northeast of this city by Root, Hupps and Duff. Together with the Exall well, recently brought in near Cisco, this new test seems to have established a pretty well defined trend directly to the north of here and it looks as though great things may be expected from this field.

EDUCATION AND THE AFGHAN.

Must Be Bribed to Go to School Where They Learn How Not to Work.

When I first went to Afghanistan the Amir sent me 20 boys to serve as apprentices on the electric work. I asked the boys that had been educated in the schools. H. M. frowned, hesitated and then said: "We haven't got these schools in Kagul, but the Amir had to bribe boys to go to school. After they were graduated they were asked whether they wished to be doctors or engineers and then they began their professional careers by being paid 70 rupees a month. It was optional with them to work or not to work.

"Of course, they were all superior to work of any kind. A grammar school boy could have put them to shame in any branch of learning. However, my students could all read and write and knew a little mathematics. They were supposed to be from 16 to 18 years old. But some must have been at least 40, although they shaved clean and tried to disguise their age. They all came to me dressed in frock coats and equipped with fountain pens. After much labor my assistant and I piloted them all through the multiplication table.

I became so expert that I could say the multiplication table crosswise and upside down in Persian.

Those who were notoriously backward and lazy were punished by making them carry hand barrows with the common workmen. They did not like this and would walk around repeating "seven times six is chihil u lu," etc.

If one of the 20 could do a problem in mathematics, the rest copied. So one day we gave out different lessons. The answers returned were all alike.

About the only spur to achievement was to work on their vanity or jealousy of one another. And ridicule often brought results that could not be obtained with a stick.

The Afghans are not quick witted (unless it is in connection with some devilry), and they have no power of concentration. They absorb knowledge parrot like by constant repetition and forget much more quickly than they learn.—A. C. Jewett in "Asia."

CHEVROLET WINS SPEEDWAY RACE DRIVING MONROE

INDIANAPOLIS, June 1.—Gaston Chevrolet, driving a Monroe, won the international speedway sweepstakes here Monday afternoon.

INDIANAPOLIS, June 1.—At 400 miles De Palma had a lead of three laps over his nearest competitor, Gaston Chevrolet. The Ballot was averaging better than ninety miles an hour and seemed to be bearing the strain remarkably well. Ballot cars, driven by Rene Thomas and Chassagne, were third and fourth. Joe Boyer was fifth, but at the 400 mark he slipped still further back, due to engine trouble, allowing Tommy Milton, in a Deussenberg, to go into fifth place.

An expert in color photography, Miss Olive Ellis, of Sheringham, England, is on her way to Western Canada where she plans to spend two months in making a color record of some of the beauty spots in the Rocky Mountain region.

Farmers of 18 States. In First National Ref- erendum, Oppose Tax

Associated Press.

CHICAGO, Ill., June 1.—The result of the first referendum of farmers ever taken in this country will be reported tomorrow to the executive committee of the American Farm Bureau Federation. The committee convenes here then for its first called meeting.

The referendum was taken on a bill in congress to place a special tax on land. The farmers cast against it 357,264 votes, and for it 2,256 votes.

The number of counties voting was 521. The states numbered 18: New Jersey, West Virginia, New Hampshire, Missouri, New Hampshire, Vermont, Michigan, Illinois, Minnesota, South Dakota, New York, California, Indiana, Iowa, Ohio, Colorado, Idaho and Massachusetts.

The largest vote cast was in Iowa. Farmers to the number of 77,394 participated there in the referendum. New York farmers cast 60,586 votes. Illinois showed third in voting strength in the referendum, casting 59,267 votes.

The farmers' referendum was taken on a bill introduced in the house at Washington, providing for the raising of public revenues by a tax on the privileges of the use and enjoyment of lands of large value. The bill provides "that all persons, firms, associations and corporations owning land in value in excess of \$10,000, whether in possession or leased to others, shall be subject to an excise tax upon the privilege of the use and enjoyment of such excess at the rate of 1 per centum."

In sending the referendum to the farmers, the American Farm Bureau Federation said in explanation:

"The object of this act is to raise public revenues. It is not supposed that it will do away entirely with but be supplementary to the present income tax laws. The proponents of this and similar measures believe that land does not at present bear its just proportion of taxes as compared to the industries.

"In considering this act you should not allow the fact that the revenues therefrom will come in principal part from the farmers to prejudice your judgment, but should consider it in relation to fairness to other interests, and whether or not it would be of sufficient burden to affect land values, rentals or

incomes and thus affect production." Nearly half of the farmers voting in favor of an extra land tax came from Illinois. Here 1103 of the 2280 affirmative votes were cast. New Hampshire gave the largest percentage in proportion to the vote cast by a state; 571 New Hampshire farmers voting for

and 3435 against. In seven states not a single ballot was cast for the proposition.

Mrs. Elsa S. McGinn of San Mateo, California, is the first woman police chief, health commissioner and jail custodian in the United States.

Jolson Sings to Spanish Sweetheart

We have just received a big consignment of that song with more than a touch of tabasco, "That Wonderful Kid from Madrid." This exclusive Columbia artist sings it with such snap and swing that this latest Sinbad hit gets a laugh with every line. Stop in and hear it today. A-2898—\$1.00

"Music in the Home Puts Sunshine in the Heart"

Now is Your Opportunity to Buy Fine Silks

---at large savings

May has proved to be our banner month—never before in any month of our history have we sold so many yards of Silk.

OUR SILK SALE WILL CONTINUE THROUGH THIS WEEK, AND THOSE WHO EXPECT TO BUY SILK ANY TIME THIS SPRING AND SUMMER WILL HAVE A BIG SAVING IF THEY WILL VISIT OUR STORE BEFORE THIS WEEK CLOSES.

SILK HOSIERY AND SILK UNDERWEAR INCLUDED

In this Silk Sale is included Silk Hosiery, Silk Underwear, and in fact, everything in Silk carried in stock.

SILKS GOING HIGHER

The prices on Silk went low; in fact, the bottom was hit, but since the low price was reached a continued advance has been made, until the price has almost gone to the old price, and further advances are predicted. People who will need Silks will save money by making their purchases while the price is low.

OTHER REDUCTIONS

Our Shoes have been going rapidly, but we still have some high-class shoes for ladies, in the latest styles, that we will continue to sell very low during this week. It is our opinion that the people have seen their cheapest merchandise, as there is now an advance all along the line, yet we are still continuing our reduction prices. The merchandise at the mills have advanced, and when the retail merchants sell their present stocks they will have to pay higher prices for new goods.

MEN'S AND BOYS' SUITS

We have in stock 110 Men's Suits and 135 Boys' Suits that we are offering for sale at a big reduction; in fact, cheaper than they will ever be again at any store in this section. While these low prices prevail we would advise those who contemplate buying at any time within the next few months to lay in a good supply of all goods offered at reductions; they cannot go lower, but may go much higher.

We will be pleased to see you in our store any time, and even just a social call will be appreciated. We sell both Dry Goods and Groceries.

SCOUTS DROP

SECOND GAME TO EAGLES, 10 TO 6

ABILENE CLOUTS BALL FOR TWO HOMERS, THREE RAGGER AND SEVEN SINGLES.

The Abilene Eagles clouted out two homers and a three-bagger yesterday and won the second game of the series from the Scouts, 10 to 6.

Allison, first man up for the Eagles in the third, poked a homer to center field, and Milan followed with a single through first. Bugs Young then caught hold of one to hit sinking and sent it up against the left field wall for the second circuit drive of the inning.

The Scouts didn't get started until the third, when Neely walked, was advanced to second by Flagg's hit through pitcher's box, and went to third on Notselnic's hard chance to second. Neely scored on a sacrifice by Griesenbeck.

Table with 9 columns: Player, AB, R, H, E, O, S, P. Lists players like Allison, Milan, Young, Kizlar, etc.

Totals: 32 10 27 11 6. Score by innings: R H E. Abilene 103 132 000-10 10 0. Cisco 000 002 030-6 7 0.

NITROS SWAMPED

MINERAL WELLS IN MONDAY GAME, 15-1

MINERAL WELLS, Texas, June 1.-The Ranger Nitros swamped Mineral Wells here Monday, 15 to 1. Local pitchers were hit hard while Boyer for Ranger allowed only three hits and struck out nine men.

Table with 9 columns: Player, AB, R, H, E, O, S, P. Lists players like Ranger, Mineral Wells.

JUDGES TOOK AN EASY GAME FROM GORMAN; SCORE 14-3

EASTLAND, Texas, June 1.-The Judges took an easy game from Gorman here Monday, 14 to 3. Hits were made freely by both clubs, but Dorough kept his bases stacked and the only runs made off him were homers by Gressett, Sturdy and Whitney.

Table with 9 columns: Player, AB, R, H, E, O, S, P. Lists players like Gorman, Judges.

PALESTINE ONLY NATION WITHOUT POSTAGE STAMP

LONDON, June 1.-Palestine is now the only nation which has no postage stamp of its own. But representatives of the Zionist government have informed London philatelists that this anomaly promises soon to be rectified, for with the establishment of Palestine as the national home of the Jewish nation it is believed little time will be lost in embulating the example of other small nations called into being by mandates of the peace conference by the issuance of distinctive stamps.

\$130,000 Increase Pay Monthly. Associated Press. LOUISVILLE, Ky., June 1.-The pay roll at Camp Zachary Taylor will be increased from \$435,000 to \$565,000 monthly under the revised temporary army and navy increase pay law. The first pay under the new allowances is June 10.

The Hon. T. H. McGregor, candidate for Governor of Texas, will speak at the City Hall in Cisco Wednesday afternoon at 2 o'clock.-Adv. 1-14

A conference has been called to meet at Washington, D. C., for the purpose of organizing and soliciting in the United States into one representative engineering body.

GIL'S GLEANINGS

Ross Johnson started off with a scream on third Sunday. He handled a couple of chances in big time order, and when Segrist shot a bone bruiser down toward the third station, Ross grabbed the ball just as he would a fifty-dollar bill, and it was all off with Segrist's chances.

In Monday's game, Johnson was the big story. He clouted an opportune single that brought in Cisco's first two men, and then in the eighth, with a couple on the base, he whopped the ball to deep center for a homer and three runs. He is improving wonderfully in his playing.

The Eagles are leading the league, according to our way of thinking, because they are evenly balanced in all departments. In other words, a ball team is like a chain, no stronger than its weakest link.

Eastland turned the tables on Gorman Monday, and gave the Buddies a terrible lacing. The Judges nipped Gorman pitchers for 15 hits.

Segrist had the Scout hurlers kinda buffaloed yesterday. He drew four walks and a safe hit out of five times to bat.

In the 15 years that Ty Cobb has played professional baseball, he has played in 1925 games and has made a grand batting average of .372. This record will perhaps stand for a great many years.

Baseball authorities say that although third base is easier to steal than second, yet it is not tried nearly so often. It must be because a runner hates to lose out when he is as far advanced as second, and he doesn't want to take chances.

SPORT SNAP-SHOTS

By Jack Keene.

The ninth international horse show of England, held annually at Olympia, will open its doors to the public on June 16, after a lapse of six years, and will remain open for ten days. Always a social function of interest, the exhibition promises this year to outshine all previous efforts in this direction.

King George is again patron, and the English directors are the Earl of Lonsdale, chairman; Sir Gilbert Greenall, Bart., C. V. O.; Sir James Buchanan, Bart.; Arthur E. Evans, O. B. E.; Walter Lloyd, Walter Winans and R. G. Heaton, managing director. Judge Moore, with E. T. Stotesbury, Clarence H. Mackay and Lawrence Jones, represent America. Canada is represented by Colonel Sir Adam Beck, George W. Beairmore and Sir Montague Allan, C. V. O. Frank F. Euren, as before, is secretary of the show.

In all there are 101 classes, for which prizes are offered amounting to \$45,000. Pre-war entrance fees are maintained. The new classes are many and interesting. One is for trotters and pacers, for which there is a large demand nowadays in England.

Another novelty will be a Marathon drive for horses in single harness, which will run over a course of 12 miles, finishing in the Olympia arena. A third will be for horses in private use and not kept for show purposes, and yet another where champion cups will be awarded for the best trotting horse and the best pacer.

"I can see no reason why spitball pitchers in the American league now using that style of delivery should not be allowed to continue employing it until they pass out of the league," Walter Johnson, greatest of all modern day pitchers, recently gave expression to the foregoing when someone asked his opinion on the new pitching rules, as relating to freak deliveries.

The King never discusses baseball without saying a mouthful of logic. And

GUBERNATORIAL CANDIDATE SPEAKS HERE TOMORROW

The first of the gubernatorial candidates to be brought to Cisco through the efforts of the Young Men's Business League will be the Hon. T. H. McGregor of Austin. Mr. McGregor will speak at the city hall at 2 p. m. Wednesday, June 2nd. He is making a very thorough canvass of the state, traveling in an automobile. He is scheduled to make an address in Eastland Wednesday morning and will drive over from there immediately afterwards.

In the interest of good government, the Young Men's Business League believes that the voters should be given an opportunity to see and hear every candidate for this high position.

Texas Ranchmen Now Sending Solid Trains Of Cattle to Northwest

Associated Press. SAN ANGELO, Tex., June 1.—Solid train loads of well-conditioned cattle have almost daily been leaving points in West Texas over the Santa Fe, Orient and Texas & Pacific railroads for native pastures in the Northwest.

To Build 8800 Foot Causeway. Construction of an 8,800-foot wooden causeway, at a cost of \$60,000, to replace the one across the Nueces Bay, which was destroyed by the storm last summer, will begin soon it was decided upon today.

Of the millions of regular patrons of the motion picture theatres probably few have noticed the fact that the screen actresses almost invariably wear small hats. The reason for this is that large hats throw nasty shadows on the face.

OBJECT OF GREAT BRITAIN PAYING ARGENTINE DEBT

Financial Arrangement to Keep From Sending Any Part of Money To the United States.

Associated Press.

BUENOS AIRES, June 1.—Although the agreement on the part of the British government to pay off the \$50,000,000 owed by Argentina to United States bankers, payable May 15, has been hailed here as "an act of friendship," official publicity has not yet been given to the understanding in banking circles that the agreement was only a conditional part of an ingenious financial arrangement which enables Great Britain to pay her own hundred million dollar debt to Argentina without sending to this country a single cent.

Not only is this \$50,000,000 to be credited by Argentina against Great Britain's obligation, but the remaining \$50,000,000 after being renewed, is to be gradually extinguished through an arrangement whereby Great Britain for a certain period pays in London the interest on the principal part of Argentina's external debt, bankers have learned.

Thus far the Argentine Government, which was unable to get removal of the loan in the United States, has made public only the fact that Great Britain has agreed to take care of the obligation in behalf of Argentina and La Plata, the government organ has praised the transaction as an evidence of Great Britain's friendship to Argentina and of great promise for the future relations of the two countries.

Bankers say there is no doubt but that the payment by Great Britain of Argentina's debt has greatly increased the prestige of the British in this country and has been correspondingly detrimental to that of the United States, but call attention to the fact that the transaction is not without its advantages to Great Britain also.

"I regret it very much," said one Argentine banker to The Associated Press correspondent, "but I fear the failure of the American bankers to get a new loan and the fact that Great Britain has stepped into the breach and paid it, mean a loss of economic good will toward the United States. While the complete transaction is a good business deal for Great Britain, the fact stands out in public opinion that the British did what the Americans would

SPIRIT "DICTATES" BOOK TO MRS. LANE

Mrs. Franklin K. Lane.

Mrs. Franklin K. Lane, wife of ex-Secretary of the Interior Lane, is responsible, with Mrs. Harriet Blaine Boale of Washington, for a psychic volume, just published, purporting to have been "dictated" by a spirit which never has been on earth.

not. We in financial circles understand that money is badly needed for domestic purposes in the United States. Nevertheless, Britain and America are represented as waging a commercial contest for trade in Argentina. The economic effect of the transaction in favor of British prestige is obvious."

As told in local banking circles, the best terms that Finance Minister Salberry could get from the American bankers on his recent trip to the United States was a renewal of the \$50,000,000 for five years at 7 per cent, the bankers asking delivery of the new bonds at 92 which would have been equivalent to an interest of 9 3/4 per cent. The maturing loan was at six per cent.

Turning to the British government through a prominent Anglo-Argentine banker, the Minister was able to get a loan of \$50,000,000 at five per cent to pay off the Americans. This he was able to do, it is pointed out, because of conditions which enable Great Britain to pay her own obligation to Argentina, a \$100,000,000 credit for cereals, on favorable terms.

Editor Asserts Orient Must Cease Operation Unless U. S. Assists

Associated Press.

SAN ANGELO, Tex., June 1.—Representatives from twenty-one towns served by the Kansas City, Mexico & Orient railroad, which, according to statements made at a meeting in San Angelo, were losing \$100,000 a month and will have to cease operation September 1, when the government guarantee period ends unless it receives aid, voted the road to be essential to the financial prosperity of the country it serves.

Not only would millions of dollars worth of property in West Texas depreciate in value if this road should cease to operate, the representatives declared, but the whole nation would suffer because it would be impossible to continue the cattle and sheep raising industry on its present scale.

For the first time in its history, said Houston Harte, editor of the San Angelo Standard, the Orient road was up on a paying basis when the government took over the administration of railroads.

"But," he added, "with the war came its disasters and under federal control all the Orient's freight was diverted to other roads, its engines taken to pull other trains, its lines used only to haul empty cars to the coast and its shops to rebuild locomotives of some competitor. When it was thrown back upon its own resources, its employees were scattered and its business in some one else's hands."

The Orient railroad, which serves a territory 800 miles from Wichita, Kan., to Alpine, Texas, on the Mexican border, will have to close down unless the Interstate Commerce Commission comes to its assistance and gives this road aid from the three hundred million dollar revolving fund made available by recent railroad legislation.

Old-Time Settler of This Section Returns After Long Absence

J. G. Werneburg, an old time settler of this part of the country, has moved back to Cisco after a long absence. Werneburg lived in this city from 1853 to 1917, when he moved to Denison. From Denison he went to Rotan. Finally he decided that "there is no place like home" and moved back to Cisco.

Schools All Closed; It's Now Open Season for Kiddies of Cisco

Swimmin' holes, fishin' lines and vacation time returned to Cisco's youth yesterday with the close of the school term. After telling the sweet young school mams a few things in geography, reading, "ritin" and gazzinta, the kiddies went back for their cards. Remember that feelin' you used to have when you were a kid? That sorta living heart failure when you'd rather take all the ticks on earth than face dad with a failure. You remember the exultant shouts of the kids, "I passed, I passed," and then the poor tear beddened little fellow who dragged on behind with nothing but darkness to hide his misery, and knit his raveled sleeves of care? Well, the kids are living those same days now. And if we will but stop, we can spy a few of the old boys makin' eyes at the barefoot kids, and showing that they have never quite bowed their necks to old man time.

REGULAR MEETING Y. M. B. L. TONIGHT MUCH IMPORTANCE

The Young Men's Business League will hold its regular weekly meeting at the city hall auditorium this evening, according to announcement of Stuart Y. Williams, secretary.

The Y. M. B. L. is pushing ahead rapidly with its membership campaign and at the present time has more than 200 members. It is now seeking paid-up funds and pledges with which to stage its enthusiastic work on a larger and broader scale in the interest of the civic welfare of this city.

The meeting this evening will be of prime importance according to Williams.

Won Prize in Magazine Contest, Special to The News.

AUSTIN, Tex., June 1.—Cletus O. Oakley of Texas City, freshman engineer at the University of Texas, has been awarded a prize of \$10 for writing the best short story in The Longhorn Magazine contest. "His Hour of Triumph" is the title of the winning story.

MAIN STREET SCENE AUTOMOBILE CRASH SUNDAY EVENING

Two expensive automobiles were badly damaged, but no one was injured, in a collision at the corner of Seventh and Main streets Sunday evening about 6 o'clock.

One of the cars, a Peerless-8, was being driven by Miss Marie Judia, daughter of G. H. Judia, of this city. The other machine, a Hudson Super-Six, was driven by Nick Barros.

Miss Judia is said to have been proceeding north on Main when Barros turned into that thoroughfare from Seventh. The machines struck side-long with such impact as to turn one of them around to face the other. The Judia machine was damaged to the extent of approximately \$500, according to the owner. This was covered by insurance. The Barros car was not as badly damaged.

DISTRICT CLERK OF COUNTY WORKS FOR NEW COURT

Special to The News.

EASTLAND, Tex., June 1.—J. A. Russell, clerk of the district court, is in Austin, having carried with him a large array of facts and figures in relation to the matter of an additional district court of Eastland county. The governor has agreed to submit the matter to the legislature, and Mr. Russell is expected to return after the legislature has acted favorably on the bill for the new district court.

Summer Schools Opens.

Summer school opened here at the high school building Monday morning. All grades, from the first on through to the highest elementary class, were represented by children who are either attempting to make up for lost work during the past term or who are trying

to advance themselves in a first grade. Miss Fannie Stevens, a vocational teacher of this city, has charge of the summer classes.

One of the finest natural dyes—geous purple color—is obtained from shell fish found on the Pacific coast of Costa Rica. It is used chiefly for dyeing silk thread. The natives take thread to the shore, where the shell is pounded, and dye it there.

GARNER'S

The Dependable Store

The real test of the quality of an automobile comes only in actual service—in its ability to meet emergencies.

It is this ability, possessed in a truly extraordinary degree by the Essex, that has aroused the enthusiasm of more than 35,000 owners.

The smooth flow of power, the sense of an instantly available and apparently limitless reserve of strength, is both soothing and stimulating.

Its velvety spring suspension, soft upholstery, easy acting clutch and breaks and ease of handling and control rob bad roads and crowded traffic of their terrors and make good roads doubly delightful.

You relax in the Essex. It sets you free from taut nerves and tense muscles and gives you the wonderful feeling of a noiseless flight through space.

The power impulses of the Essex motor melt and merge into such a steady flow that you forget the engine that is carrying you forward because all the usual unpleasant reminders of effort and labor are removed.

You only know that hills are high because you see them—for they seem to melt away beneath the wheels of your car.

All of this is the result of the patented Essex motor which can be obtained in no other car. It has brought a new luxury to motoring, as any Essex owner will tell you.

Yours very truly,

Huey Motor Co.

CISCO, TEXAS
