

# WILD TALES OF DESDEMONA MOB ARE UNFOUNDED

## FIST FIGHTS RESULT IN STRAINED RELATIONS BETWEEN FACTIONS

### VIOLENCE IS FICTION

#### County Attorney Says Certain Members of A. L. Trying to Run Things.

Two fist fights at Desdemona have resulted in strained relations between county officers and members of the American Legion. Reports of gun plays between the two factions and of imminent mob violence are without foundation. An effort to settle the differences is being made while opposite sides tell widely divergent stories concerning the reason for the trouble.

Desdemona was very quiet yesterday afternoon following a day of strained tension Wednesday. Ten members of the sheriff's force and G. G. Hazel, county attorney, were on the scene. Sheriff Elmer Lawrence and Deputies John Barnes, Dude Thompson, Berry Nolia, Byron Parrish, George L. Jones, Jim Watson, J. E. Johnson, Steel Till and Ed Sparr were at the scene of the trouble yesterday. In addition to Deputy Sheriff John Bloxson, who is stationed there permanently.

Investigation disclosed that rumors current here regarding the situation at Desdemona were greatly exaggerated. While considerable ill feeling exists between members of the sheriff's department and members of the American Legion, reports of mob violence and serious trouble are not borne out by the facts.

Ill feeling has existed between the two forces since last fall. During the winter Bob Pascock, formerly a deputy sheriff and at that time a city marshal, was forced to resign his office by a number of legion men and citizens and together with his deputy was driven out of town.

John Bloxson was placed at Desdemona. Ill feeling between Bloxson and E. Taylor, an attorney of Desdemona and a member of the legion, culminated in a fist fight last week. This was followed by another fist fight between Bloxson and H. E. Williams, postmaster. A telephone message was sent to Ranger asking that more deputies come to the scene of the trouble as further clashes were expected. Some of the men mentioned left hurried in a car from Ranger. No further trouble was experienced, however. Several deputies left Desdemona yesterday.

Different stories are told regarding the causes of the trouble. Members of the sheriff's force declared that the dispute between Bloxson and Taylor came up over some civil papers and was purely a private matter. They said the fight between Bloxson and Williams was an outgrowth of the other affair, caused by certain remarks Williams had made about the first fight. Bloxson resented these remarks, they stated. It was pointed out by members of the sheriff's force that Bloxson made no attempt to use his gun or take any unfair advantage in either instance.

County Attorney Hazel said the trouble didn't amount to much and that only a few members of the legion were taking any part. He said certain members had tried to "run things" at Desdemona for the last six months, that these men were trouble makers and agitators and had private motives for wishing to cast discredit on the sheriff's department.

Dude Thompson said he had talked to both factions in town and to numerous persons not interested in the dispute. He said there was no reason for exaggerating a mere fist fight into proportions of mob violence. He said the

# SIBERIA CONDITIONS WORSE THAN REPORTED, SAYS TEXAN

GALVESTON, Tex., July 3.—Warren W. Peters, for 21 months a Y. M. C. A. worker in Siberia, who witnessed the Gaidia revolution of November, 1919, and the capture of Vladivostok by the bolsheviks and its subsequent occupation by the Japanese, has returned to his home here. Conditions throughout Siberia, he declared, are even worse and more depressing than press dispatches indicate.

Bolshevik leaders, Peters declared in an interview, assert that Russia's travail will, in the course of time, give the world a new and stable republic.

On the other hand, members of the American Legion charge that the two fights were a direct attempt to intimidate them. H. E. Williams, postmaster since last August, declared that he was going up the street to deliver a special delivery package and had this package in one hand and some money in the other when Bloxson stepped up to him and accused him of "butting" into things where he had no business. Several other deputies were present, he said, and when Bloxson struck him they formed a circle and warned bystanders not to interfere.

Williams told of a recent visit of a United States revenue officer to Desdemona and charged that Bloxson harbored resentment against him on account of episodes connected with the visit. The revenue officer stayed with him during the time he was there, he said. In company with a state ranger stationed there, the revenue officer raided four places in town and captured two stills and broke up two bootlegging places in addition, he declared. He also said that Bloxson and the city marshal of Desdemona were sitting in one place at the time it was raided. He said Bloxson believed he "tipped the location of the stills and bootlegging joints, but denied that he gave this information."

Williams and other legion men charged that the only mob violence connected with the affair was on the part of the sheriff's force. He said the legion had made no plans looking toward a clash with county officers and that the presence of 12 officers was merely an attempt to intimidate persons who were anxious for the enforcement of law and order.

Williams had a black eye and several scratches on his face as a result of his fight.

A number of persons interviewed were outspoken in condemnation of both factions and deplored the whole affair. Others held strong opinions in favor of one side or the other.—Ranger Times.

# Plans Campaign to Get Needed Money For Texas Schools

AUSTIN, Tex., July 3.—Plans for a campaign for the amendment to the constitution giving common school districts and towns privileges and exemptions now enjoyed by cities were formulated at an all-day conference here June 26. Many citizens from all parts of the state met State Superintendent Blanton at her request, to outline means and methods of advising the public of the importance and nature of the amendment to be voted upon at the November election.

"The \$4,000,000 emergency school appropriation was a stop-gap measure," said Miss Blanton. "As most districts could not support their schools adequately under existing constitutional limitations, the legislature came to their rescue. Should the voters of the state fail to adopt this measure in November, there will be no lack of legislators who will consider it a mandate from the people to cease legislative appropriations for schools. Hence the adoption of this measure to give the country districts the exemptions enjoyed by the cities is imperative if the schools are to be maintained in 1921."

# Cisco Will Close Monday.

We, the undersigned merchants, agree to close our stores on July 4, in celebration of the Fourth of July. Dry goods, groceries, hardware, furniture, jewelry the entire day; meat markets from 9 a. m. for the rest of the day; cold drink stands and drug stores throughout the day until 6 p. m.

# PROPOSE REORGANIZATION OF MEXICAN ARMY; 50,000 MEN

Associated Press. JUAREZ, Mex., July 3.—Details of the proposed reorganization of the Mexican army have been made public here. It will consist of battalions of infantry and regiments of cavalry with artillery and aviators making a personnel of 50,000, it was stated.

Two kinds of uniforms will be used, one for garrison and the other for the field. A commission will be appointed to revise all the army ranks and make a minute revision of all promotions before and since the recent Sonora revolution.

It is stated there will be a careful selection of officers and soldiers for the new army. Officers and men wishing to return to civil life will be sent to their homes by the government.

Highest honors awarded at the recent commencement of the New Jersey Law School to a woman—Miss Fannie Bear, of Newark.

# MANY FEDERAL OFFICES TO BE ESTABLISHED IN DALLAS

Associated Press. DALLAS, Tex., July 3.—Dallas has been selected for the consolidated offices of the federal board of vocational education, the United States war risk insurance bureau, and the United States public health service for the 14th district, according to an announcement by the Dallas Chamber of Commerce.

Nearly 400 people are employed in the three departments to be brought here, and officials estimate that approximately \$100,000 a year in various transportation costs will be saved by placing their headquarters near the center of the district.

# DECLARE WAR ON WEEDS

## CITY ORDINANCE DECLARES WEEDS PUBLIC NUISANCE

PROPERTY OWNERS MUST  
CUT THEM IN THREE  
DAYS AFTER NOTICE.

FINE FROM \$5 TO \$25

Commission May Order Clearing  
of Vegetation, Imposing Lien  
on Premises.

Here is the city ordinance which declares weeds a nuisance and gives property owners three days after notice in which to clear their property, be fined, or have a lien attached to their premises:

Be it ordained by the City Council of the City of Cisco:

Section 1. That rank weeds growing and decaying on lots and premises within the corporate limits of the city of Cisco, being a menace to the health and welfare of the inhabitants of the city of Cisco, are hereby declared to be a public nuisance.

Sec. 2. That the owner, agent, person who controls, or occupants of any lot, or lots, within the corporate limits of the city of Cisco shall, within three days after being given notice to do so by the city marshal, or any police officer of the city, cut and remove from the lot, or lots, so owned, controlled or occupied by him all weeds thereon.

Sec. 3. That any person violating the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not less than \$5 nor more than \$25. And each day that the provisions of this ordinance shall be violated shall constitute a separate offense.

Sec. 4. In case the owner, agent, person in control, or occupant of any lot, or lots, within the corporate limits of the city of Cisco, shall, after being given notice to do so, as provided in section 2 hereof, neglect, fail or refuse to cut and remove from the premises owned, controlled or occupied by him, the city council may order and direct the city marshal, or other police officer, to have the weeds cut and removed from said lot, or lots, and the cost and expense of cutting and removing such weeds shall be a personal liability against such owner, agent or occupant thereof, and the city shall have, and there is hereby created, a lien against the lot, or lots, on which the weeds are on shall be cut and removed at the expense of the city, to secure in repayment of all sums by it expended in cutting and removing the weeds therefrom. Provided, however, that the city shall have no such lien unless the notice provided for in section 2 of this ordinance shall be given to the owner, agent or person in control of such lot, or lots.

## HEALTH DEPARTMENT AND CIVIC BODIES LAUNCH BIG CAMPAIGN AGAINST MENACE

### Citizens Urged to Join in Clearing Away of Unsightly Jungles of Vegetation Which are Breeding Disease and Making Unfavorable Impression of City Upon Minds of Visitors.

Cisco has declared war on weeds! A drastic campaign has been launched by the city health officer, flanked by civic organizations, which will declare no truce until all of the vacant lots of the city have been cleared of their jungles of weeds.

The army of civic workers goes forward under the banner of a city ordinance declaring weeds a public nuisance and imposing a fine of from \$5 to \$25 on those neglecting to clear their premises of this menace within three days after they have been notified to do so by the police department.

Citizens of Cisco are urged to join in the fight. With the health officer it is a matter of precaution against possible epidemics of fever and other sickness.

With the civic organizations it is chiefly a matter of beautification.

With the public at large it is an immediate duty.

Let's jump to it and get it over with as quickly as possible!

### Call Sounded.

Here is what Dr. Joseph W. Gregory, city health officer, has to say on the subject:

"I urged all citizens and property owners within the corporate lines to join in a campaign beginning Monday, July 5, 1920, at which time all vacant lots, curbs and yards should be cleaned of all weeds and grass in compliance with the city ordinance. A close search will be made by the police department for all derelicts and any and all such persons not complying with the weed ordinance will be dealt with according to the terms of the ordinance. The sanitary committee of the Young Men's Business League and the Civic League committee will be invited to assist in seeing that all persons comply with the weed ordinance."

Stuart L. Williams, secretary of the Young Men's Business League, says:

"There is no question as to how the Young Men's Business League stands

on this question. From the time of its inception this organization has been waging a fight for the clean-up of this city.

"Whether it is weeds, rubbish, garbage or any other kind of debris that is impairing the healthfulness and sightliness of this city, the Young Men's Business League will be in the front ranks of any campaign launched to drive it out.

"The weeds in the vicinity of the depot are growing so high that passengers can hardly see the city from the trains. We ought to jump on this menace with both feet and kill it while it is yet young. The quicker we get to it the easier it will be for us.

"We can't start earlier than right now."

Mrs. Harry Hastings, well known in educational circles, is the woman to be appointed a special examiner of the New York Civil Service Commission.

THE BALANCE WHEEL.

Look into the back of your watch.

Among the myriad and minute units of mechanism you will find there is a wheel that is a little larger than the rest and which is known as the balance wheel.

It governs the workings of the watch by maintaining a steady equilibrium, and a uniform cadence. If each of the smaller wheels were permitted to run fast or slow or not at all, according to its inclination, we would get very poor time from our watches, indeed, and they would soon become indecipherable and worthless.

Here in Cisco we have all kinds of independent wheels revolving in an attempt to do something for the civic betterment. Each of them at various times has attempted to move the whole clock, but as a rule it has only been when they have become enmeshed with other wheels that they have been able to substantially move the hands of city progress forward.

This is not an editorial on co-operation; it is not an invitation to join hands and dance around the Maypole; least of all is it an attempt to urge anybody to become a cog in a machine, which idea is entirely repugnant to most of us.

It is intended simply as an appeal for a better pose and some regulation of balance in our relations with one another as we toil in our segregate fields toward the common end of public good.

If that be fair enough ground for discussion, let us proceed.

What we need in Cisco right now is a balance wheel—something that will preclude the possibility of our several fields of work overlapping; something that will prevent conflict in our various endeavors, and something that will turn friction into a harmonious momentum by insuring that all wheels are running in the same direction.

On its face this would seem to be an ideal condition of affairs that almost anyone might desire, but how to go about attaining it is a different matter.

To set up some dominant control for ourselves, either in the form of a person or an organiza-

tion, might be as harmful as it would be helpful.

But domination and control of that sort is just exactly what we're not discussing. It is balance and self-regulation we seek.

It is the mainspring rather than the balance wheel that constitutes the motive power of the watch. The only main spring we desire or have need of is a concerted will for concentrative effort.

That granted, we lack only a balance wheel to keep our activities in their proper courses, lest they foul one another by collision.

All well enough, but what is this balance wheel to consist of?

Outside of falling on one another's necks in a maudlin fit of brotherly love or maintaining an artificial spirit of "co-operation" because it is expected of us, there is about only one other solution.

And that is the principle of coordinating units.

Independence begets respect, and it is quite possible for a number of independent organizations to compete with one another in civic enterprises with a sincere admiration for what one another are doing.

But in order that this competition shall not take on the aspect of antagonism, it is necessary that there should be some mutual tie among them. Men will bind themselves with the cord of voluntary obligation where they will strain at the leash of compulsion.

Neither of two men in the same boat can beat the other to shore, no matter how fast he rows, and the quicker our organizations get aboard our little ship of state the quicker the odious aspect of rivalry will be eliminated and the quicker we shall get somewhere.

The balance wheel of Cisco might be a more or less informal conference of the heads of all our civic bodies once a month. Its members might preside in rotation.

As a balance wheel will not balance accurately with one of its spokes broken, it might be required that every member be present at every meeting, either in person or by proxy.

The head of each organization in turn at such a conference might render a written report of what his organization had accomplished during the preceding month. In this way it would be quite probable that everyone would have something to report. In this way a record would be kept of all civic activities.

The chairman might then call for an announcement of contemplated projects. A member might rise and state what his organization was planning to do and might call for assistance upon one or more of the civic heads present. The person called upon would discuss the project with the speaker and in event his organization could be of help, offer to appoint a committee. This would eliminate overlapping and conflict.

The conference would not need to go on record as endorsing or rejecting any project proposed. During discussion it might be found undesirable or infeasible, but there should be nothing to prevent the member from carrying it out if he so determined or desired. This would keep intact the independence of organizations and at the same time give their heads an insight into the probable

Oil Well Activity  
Revives Colorado Salt  
Mines Development

Special to The News.

COLORADO, Tex., July 3.—Colorado's great salt industry is destined to be come wonderfully revived with the bringing in of oil hereabouts to make possible a cheap fuel, according to local business men. At the present time there are two salt-making plants here, one of which is not in operation due, it is said, to the high price of coal.

The history of the salt industry is interesting. The discovery was accidental. In 1884 drillers in seeking an artesian flow of water at a depth of 700 feet went through a 45-foot stratum of almost Simon pure salt and a little further down went through a sub-rock formation which threw up a stream of pure, fresh water nearly to the top of the bore. The eyes of northern capitalists were attracted. They developed these wells and the salt plants were the result. The entire region about Colorado is underlaid with inexhaustible supplies of salt as later wells have proved. At one time merchants here were able to purchase salt at 10 to 15 cents for a 200-pound sack. Hundreds of cars were shipped out. Increasing cost of fuel made the industry almost impracticable, resulting in the suspension of one plant.

Colorado boasts of the best water supply anywhere in this section of the state. It is to be found in unlimited quantities. With sufficient water for the salt industry and the proximity of cheap fuel, the business interests see a revival of the salt manufacture, believing that it is necessary only to tell the world at large of this valuable deposit in order to initiate rigid investigation and utilization.

support their projects would receive if put into execution, by which they could gauge its chances for success.

In this way every organization would know what every other organization had done, was doing, or expected to do. If they could not help, they would not hinder one another. They could divide their work into distinct and definite fields of activity. And, moreover, each would be given proper recognition for its achievements.

That is what might constitute the balance wheel of Cisco.

It is not known whether it has been conceived or executed elsewhere.

The plan may have faults as well as virtues.

But isn't it worth trying?

Underwriters' Well  
Near Colorado Now  
Swabbing 35 Barrels

Special to The News.

COLORADO, Tex., July 3.—The Underwriters Producing & Refining Company's Texas & Pacific well No. 1, 19 miles west of town, which was reported good for 500 barrels several days ago, is now swabbing about 35 barrels a day and has 105 feet of pay sand. When the sand has been penetrated the well will be shot with 700 quarts of nitroglycerin, according to a statement made yesterday.

The Underwriters Company owns 15,000 acres and the test is 11-1/2 miles from the east boundary of the tract.

The well was spudded in February 8, 1920, with an 18-inch hole. A showing of oil was reported at 260 and another at 440 feet. This latter stratum is now being developed by a small star rig 380 feet west. There was enough gas in the well at this depth to make water flow out of the 15-inch pipe for seven weeks. A 55-foot water sand was struck at 350 feet.

After passing through 1100 feet of grey sand the drill went into the pay at 2345 feet and late yesterday had drilled to 2453 feet without getting out. This sand is very compact and doubtless so adamantine that the oil can not flow well into the bore. However, the bailer has been able to take up an average of 35 barrels a day. The well has a 10-1/2 inch bore at the bottom. According to officials the well will be shot immediately that the sand has been passed through. The well is 10 miles due west and 21-1/2 miles northwest from Westbrook.

TEXAS TO HAVE THREE RIFLE TEAMS AT CAMP PERRY MATCH

AUSTIN, Tex., July 3.—Texas will have three rifle teams at the national matches to be held in Camp Perry, Ohio, the latter part of August, Adjutant General W. D. Cope has announced.

One of the teams, he said, will be composed of national guardsmen, another of civilians, and the third is to be selected from members of the reserve officers' training corps from Texas schools now at Camp Jackson, South Carolina. General Cope has requested the commander of Camp Jackson to select Texans at the camp who can qualify and who are willing to attend the meet. The two other teams will be announced by the adjutant general later. Each team is to be composed of a captain and 17 men. The federal government bears the expense of the trip and supplies the men who make up the teams with subsistence.

Courtesy, coolness and sanitary conditions is what they have at the Liberty Cafe.

TO BUILD HOME FOR NEGLECTED CHILDREN AT WACO

AUSTIN, Tex., July 3.—Actual construction of the Home for Neglected and Dependent Children, to be located at Waco, will begin early in the fall, according to Acting Governor W. A. Johnson. The legislature in its recent special session appropriated \$100,000 for the establishment of the institution.

Governor Johnson said that two fire proof cottages will be constructed at a cost of \$37,500 each. The site will cost \$9000 and the remainder of the appropriation will be used for up-to-date equipment.

The book that takes you into the realm of fine furniture. The illustrations show you everything—the articles tell you everything you want to know about the Edison period cabinets.  
The Best in Period Furniture has been worked into these 17 exquisite models. French, English and Italian designs are faithfully perpetuated. Every New Edison phonograph is encased in one of these cabinets.  
Endorsed by Authorities  
No less a furniture authority than Miss Elsie de Wolfe vouches for the authenticity of Edison period cabinets.  
Step in for this book and read what she says about them. Ask us about our Budget Plan, which finds the purchase price of the New Edison.  
RED FRONT DRUG STORE

Last Tuesday afternoon at the home of Mrs. L. A. Harrison, Circle B of the Baptist Ladies' Aid Society was hostess to the other circles of the aid. The house was beautiful with sweet peas and Shasta daisies. Punch was served the ladies during the entire afternoon. Mesdames Caldwell and Evans made interesting talks on various phases of the W. M. U. work. Little Miss Stafford gave a reading. A very clever and entertaining contest was held, each riddle being answered by some kind of "tea." Mrs. Jones was the most successful contestant. At the close of the afternoon Mrs. Harrison, assisted by Mrs. J. T. Berry and Mrs. Forest D. Wright, served brick ice cream and wafers to about thirty-five members of the aid.

Mr. and Mrs. H. L. Winchell were at home in their usual charming and hospitable manner to a few of their friends Tuesday evening. Forty-two was the game for the occasion, and six tables were placed on the beautiful lawn. Electric lights were strung over all the lawn, casting a soft light over all, and making of all a beautiful scene. A color scheme of yellow and white was carried out in every detail. At a late hour the hostess served a lovely banana sundae and cake with nasturtiums as favors.

Those who enjoyed this delightful evening were: Mr. and Mrs. Cate, Mr. and Mrs. G. E. Berry, Mr. and Mrs. J. L. Berry, Dr. and Mrs. W. P. Lee, Mr. and Mrs. Frank Harrell, Mr. and Mrs. Charlie Fee, Mr. and Mrs. E. P. Crawford, Mr. and Mrs. George Lingie, Mr. and Mrs. W. W. Moore, Mr. and Mrs. C. Davis, Mr. and Mrs. G. B. Kelly, Mrs. D. C. Poe, Mrs. Claud Ganes.

Mrs. T. J. Dean at 511 West Seventh street was hostess to the Thursday "42" Club last Thursday afternoon. There were three tables of club members and two guest tables. The house was beautifully decorated with nasturtiums, roses and lilies. A color scheme of orange and white was carried out in the refreshments of orange and white brick ice cream and angel food cake, with nasturtiums as plate favors. Those participating in the afternoon's pleasure were: Mrs. R. Q. Lee, Mrs. Waddie Mancill, Mrs. E. Brownlee, Mrs. A. Carradine, Mrs. J. E. Cate, Mrs. William Reagan, Mrs. C. Davis, Mrs. Will Triplett, Mrs. Gunther, Mrs. Shupe, Mrs. Guy Dabney, Mrs. Duncan Sadler.

Winston, George Fee, Mrs. Dorsey, Mrs. Lee Owen, Mrs. Jim Sopher, Mrs. Ellis Dean, Mrs. Bass, Mrs. Loyd

The Presbyterian Ladies' Aid met with Mrs. John E. Chesley last Tuesday in its regular work meeting. The afternoon passed quickly with needles, thimbles and scissors busily engaged in making dainty things for their annual bazaar. Mrs. Chesley served ice cream and cake at the close of the meeting.

Mrs. Joe Wilson was hostess for the ladies of the Methodist Ladies' Aid last Tuesday afternoon. This meeting was set aside for a work and social afternoon. There was a large attendance and a great deal was accomplished during the short time. A delicious ice course was served by Mrs. Wilson, assisted by her sister, Mrs. Will Turner.

One of the jolliest parties given this summer was the one given Thursday night by Roy Stockard. Each guest was requested to come masked and many original and comical characters were seen. A merry time was had trying to identify the different ones. Many games were played after the unmasking and it was at a late hour when Mrs. Stockard served a delicious sherbet and cake.

Mrs. Jess Sessions and daughters are home from a trip to Seymour, where they visited relatives.

Miss Anna Lou Powell has returned to her home in Dallas after an extended visit in the city, the guest of Mrs. W. J. Foxworth and Miss Theresa Lee.

Mrs. Henry Benham and daughter, Sarah Maud, motored to Breckenridge Friday to attend the Fourth of July celebration there.

Mr. and Mrs. Guy Dabney and daughter, Virginia, are here from their ranch near San Angelo. They are the guests of Mrs. Dabney's parents, Mr. and Mrs. Gus Ward.

Mr. and Mrs. Thomas Brownlee spent last week-end in Abilene, the guests of Mrs. Brownlee's mother. Mrs. Brownlee remained for the week.

Mrs. Fred Cook of Munday is visiting her parents, Mr. and Mrs. R. A. St. John.

J. W. Weatherford of Houston is the guest of his sister, Mrs. D. D. Fuwiler.

### AT THE CHURCHES

**First Methodist Church.** (Worshipping in City Hall Auditorium.) "America—the Land of Promise" will be the subject of the sermon Sunday night at 8:30 o'clock. This will be the subject because of the fact that Sunday is the Fourth of July.

We are pleased to announce that C. R. Hooton, our new choir director, is in town, and will sing a solo at each service today. Hooton has a very excellent voice, has studied voice for years, was concert director of the University of Texas Glee Club this year and was tenor soloist of the same club. We are sure that our people will be delighted with his work.

The services of the day will be as follows: Sunday school, 9:45 a. m. G. Fisk.

superintendent. The school has been doing the best work in its history lately, and we wish to continue the advance. Morning service, 11 a. m.; sermon by the pastor. Story hour, 4 p. m.; story by Mrs. Stuckey. Intermediate League, 5 p. m. Senior League, 7:30 p. m. Evening service, 8:30 p. m.; sermon by the pastor. Strangers, visitors and everybody else welcome to all our services.—Lewis N. Stuckey, pastor.

**First Presbyterian Church.** Services at 11 a. m. and at 8:30 p. m. Sunday school at 9:45 a. m. Christian Endeavor Society, 7:30 p. m. The Lord's Supper will be celebrated at the close of the morning service.

A most cordial invitation is given to visitors and strangers to worship with us.—J. D. Leslie, pastor.

**First Baptist Church.** The service for today will be as follows: Bible school at 10 a. m., with classes

for all. S. E. Hittson, superintendent. Sermons by Rev. Howard, pastor, at 11 a. m. and 8:30 p. m. Musical program for both services is as follows: Morning—Soldiers' chorus, Gounod. Solo, "Christ in Flanders" (a song of the battlefield, written by Stephen Wood), Mrs. F. A. Van Doren, soprano. Offertory, selected. Violin solo, "Serenata" (Moskowsk), J. B. Ely. Evening—Popular song service. Choir, hymn, "Thy God Reigneth." Offertory, selected. "No Light There" (Roberts), Mr. Evans and choir.

**Christian Science Society.** Christian Science Society of Cisco holds services every Sunday at 11 a. m. and Wednesday at 8 p. m. at I. O. O. F. Hall, to which the public is cordially invited. The subject of today's lesson is "God."—Adv.

**First Christian Church.** Services at the First Christian Church

today will be as follows: Bible school, 9:45 a. m. Preaching, 11 a. m. and 8:30 p. m. Intermediate C. E., 6:30 p. m. Senior C. E., 7:30 p. m. Prayer meeting Wednesday, 8:30 p. m. Every one is most cordially invited.

**Eworth League.** Program for tonight's meeting at the City Hall auditorium, 7:30 o'clock. Topic, "Our Duty to Our Country" (Isaiah 1:16-29). Leader, Oscar D. Montgomery. Hymn, "America," No. 161. Prayer. Hymn, "I Love to Tell the Story," No. 254. Scripture reading. Tenor solo, C. R. Hooton. Announcements. Hymn, "I Am Praying for You," No. 55.

"Our Duty to Our Country," Oscar D. Montgomery. "Patriotism by Rule," Owen Barker. Reading, "Wanted," Mrs. Lewis N. Stuckey.

Discussion of topic by leader. Questionnaire, Mrs. Lewis N. Stuckey. Mymn, "He Knows the Way," No. 33. League benediction.

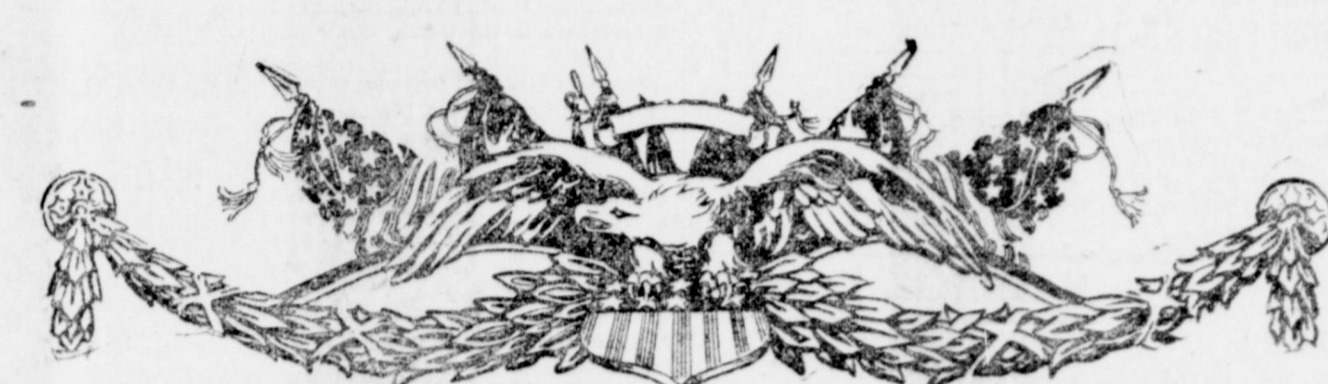

### Lutheran Church Services.

All Lutheran Christians are heartily invited to attend the gospel services that take place at the City Hall auditorium every other Sunday at 4:30 p. m. Those who have no church of their own or who are still without God and His grace are especially welcome to attend these services. Then Kalamazoo, Michigan, will see the

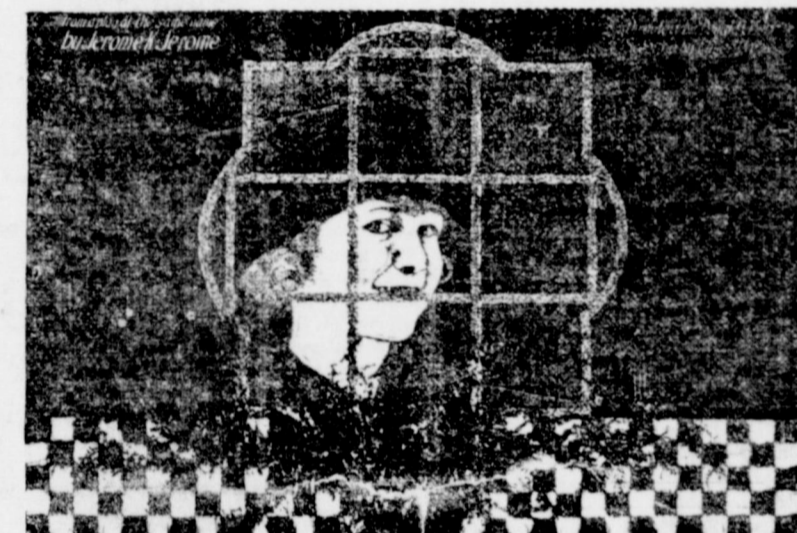

**Catholic Church.** Corner Avenue F and Twelfth street. Mass at 8 a. m.

### Scores Housing Scandal.

PLYMOUTH, England—The housing scandal is a thing which Christ would denounce in righteous wrath if he were vicar in this parish. Thus said Rev. H. G. Poole after an inspection trip through the slums.

### "I DESPISE MEN"

So said Miss Hobbs to all wooers and she had plenty of them, because she was amazingly pretty. And not only did Miss Hobbs reject all the supplications of the opposite sex, but she persuaded her girl friends to frown on the attentions of courting boys. She made these friends join her in her hobbies, such as barefoot dancing on the dewy grass at daybreak, and so thought to keep their minds off their ex-acquaintances. Can you imagine a youth making a wager he could win the love of a GIRL LIKE THAT? It doesn't seem possible any man would take such a chance, but this was a daredevil! How far did he get with his courtship? You may imagine, but to know you must SEE

**MINERAL WELLS, Tex., July 2.**—Four successive hits and a base on balls off Toner for Mineral Wells netted Cisco four runs in the eighth, Cisco winning 4 to 2.  
 Mineral Wells used five new players. Umpire Doyle ordered Manager Carson of the Cisco Scouts out of the park in the fourth inning.

## FOUNDATION BEING LAID FOR MASONIC HALL AT EASTLAND

**Special to The News.**  
**EASTLAND, Tex., July 3.**—Work of putting in the concrete foundation for the Masonic building is progressing rapidly. This structure is to be two stories in the front and three in the back and every precaution is being taken to get a foundation that will carry the weight of the walls. All excavations have been completed and the concrete is now being poured. The building is located east of the high school at the corner of Olive and Plummer streets.

## TOMATOES COSTING \$1.50 SELL FOR \$12 IN DALLAS

**Associated Press.**  
**TYLER, Tex., July 3.**—A crate of pink tomatoes were recently purchased in Tyler for \$1.50 and shipped to Dallas with a 25-cent parcel post charge. A letter received from Dallas stated that these tomatoes were being retailed at 20 cents per pound, or at the rate of \$4 a crate. The total cost of buying the vegetables and shipping them to Dallas was \$1.80.

## MEXICAN RAILROAD TRAFFIC ALMOST AT NORMAL AGAIN

**Associated Press.**  
**EL PASO, Tex., July 3.**—Railroad traffic on lines of the Mexican National Railroad is normal in all parts of the republic, according to a report of the directors of the road, with the exception of the line in Chihuahua and the branch from Victoria, Tamaulipas.

## NEURALGIA HUNT'S LIGHTNING OIL

Nearly one twelfth of all the women who are engaged in gainful occupations in the United States occupy managerial positions.

## First Industrial Art Club Holds Its Final Summer Meeting Here

The last regular meeting of the First Industrial Art Club of Cisco for the summer, was held at the home of Mrs. M. D. Paschall between the hours of 4 and 6 Thursday afternoon.

There was a good attendance and many new members were accepted into the organization.  
 Mrs. A. J. Olson, president, gave an enthusiastic and instructive talk outlining the work done by the club in the past and stressing the necessity of pressing on to greater endeavor in the future.  
 The hostess served a dainty course.  
 The club will hold its next meeting early in September.

## FOUNDATION BEING LAID FOR MASONIC HALL AT EASTLAND

**Special to The News.**  
**EASTLAND, Tex., July 3.**—Work of putting in the concrete foundation for the Masonic building is progressing rapidly. This structure is to be two stories in the front and three in the back and every precaution is being taken to get a foundation that will carry the weight of the walls. All excavations have been completed and the concrete is now being poured. The building is located east of the high school at the corner of Olive and Plummer streets.

The lower story will be for rent for some business concern. The second story will be the main Masonic hall. It will not be the best in the state, but it will be finished inside and furnished in such a way that every member of the local lodge will be proud of it. Further, it will be so arranged with fixtures and ante rooms that not only the lower degrees but the highest degrees in Masonry can be given.  
 Last, but not always least, the upper story will contain a banquet hall with all the equipment necessary for preparing banquets. In other words, the hall will be fitted throughout in such a way that the social functions, business transactions and fraternal relations may be carried out with the greatest degree of efficiency.

**Hico Ice to Oil Fields.**  
**Special to The News.**  
**HICO, Tex., July 3.**—Through the cooperation of the West Texas Chamber of Commerce arrangements have been made for the facilitation of movement of carload lots of ice from Hico to oil field towns, which was heretofore delayed from 10 to 24 hours.

**NEURALGIA HUNT'S LIGHTNING OIL**

The powerful, quick, certain relief of Hunt's Lightning Oil is the result of the positive relief of the following nerve-racking pains of Rheumatism, Neuralgia, Headache, etc. At your druggist's or see for a bottle.

## TO GIVE SUNRISE BREAKFAST, 5 A. M.

**MR. AND MRS. HOLLOWAY HOST AND HOSTESS AT SWIMMING PARTY MONDAY.**

Mr. and Mrs. Jim B. Holloway will be the host and hostess at a sunrise breakfast to be held Monday morning on the Guide ranch north of town.  
 The party will assemble at the Daniels hotel at the sleep-disturbing hour of 5 a. m., and will motor to the scene of the outing.  
 While waiting for the sun to rise, or regardless of whether or not it has risen, a breakfast of bacon, eggs and coffee will be cooked over camp fires.  
 An early morning swim will then ensue.  
 The personnel of the party includes: Miss Leila Wild, Miss Mary Fee, Miss Ruth Williamson, Miss Sarah Lee, Miss Addie Fee, Miss Billie Rawes, Miss Frances Dorsey, Miss Sarah Benham, Miss Theresa Lee, Miss Adah McMillan, Miss Lucile Brown, Miss Betty Newcomb, Miss Lillian Coffee, Mr. and Mrs. Charles Gray, Mr. and Mrs. Dag Herring, Mr. and Mrs. Jack Colquitt, Mr. and Mrs. Jim B. Holloway, Frank Cullum, Garrett Smith, Bill Bell, Chap Williams, Guy Gillespie, John Kelly, Stuart Williams, John Ducker, N. F. Ellensburg, George Connor, Neil Hitt, John Beck and George Fee.

# TEX. UNIVERSITY GETS EFFICIENT COACHES '20-'21

## WHITAKER, SEDDON, LITTLEFIELD AMONG STARS FOR SEASON.

### OVER 4,000 TO ATTEND

#### Increasing Interest In Sports and Physical Training Greatest Since War.

Special to The News.

AUSTIN, Tex., July 3.—The athletic activities of the University of Texas during the 1920-21 season will be handled by the largest and most efficient group of coaches that has ever been gotten together by a southern institution. With an attendance which is expected to exceed the 4000 mark, and with the increasing interest in sports and physical training in general since the war, even this staff will be taxed to the utmost to fulfill the need.

The football coaching staff is composed of five former college stars, headed by Berry M. Whitaker, formerly quarter back of the University of Indiana. Whitaker was assistant coach of the 1919 team, and is the man responsible for the inauguration and development of many intramural activities. His past successes as a coach of well-trained and fighting teams led to his selection last spring as the proper man to lead the Longhorns to victory this fall.

As first assistant to Whitaker, Charles E. Seddon will act as head line coach. Seddon was all-western guard on the Ohio State University's championship team for three years. His playing ability and fighting qualities are shown by the fact that he was recognized as the best guard in the middle west, although he only weighed 145 pounds.

To handle the freshman football team and also to take charge of intercollegiate track for the coming season, the university secured Clyde Littlefield. Littlefield made more letters than any other athlete ever made at the University of Texas. For four consecutive years he made his letter in football, basketball and track and in all three sports he was reckoned as a star of the first magnitude.

To handle the second-string men, known in varsity circles as the short-horns, B. D. Bryan has been engaged. Bryan was a former football star of Washington and Lee University. He played in the line for four years on the strongest teams ever turned out by that institution.

Albert Penn of Austin will be the line coach of the freshmen. He was on the 1915-17-18 football teams of the university, and was rated as one of the head-

linemen in the southwest. The baseball team will be coached by the incomparable Billy Ditch, who has just turned out his ninth consecutive championship team at the University of Texas. "Billy" has probably turned out more championship teams and developed more star baseball players than any other coach in the country, and the young man who is able to get under his tutelage is fortunate indeed.

As stated above, Littlefield will handle track. For the past three years Littlefield has been coaching the Greenville (Texas) high school football and track teams and turning out winning teams. His experience as a former star and coach should insure the success of the Longhorns in track next spring.

Wrestling and cross country runs will be in charge of Jack McLean. These sports will be placed on an intercollegiate basis next season, and excellent competition is looked for.

### 16-YEAR-OLD SERGEANT HAS SEEN 20 YEARS ARMY SERVICE

Associated Press. GALVESTON, Tex., July 3.—Sergeant Edward Pitts, 16 years old, who has 20 years of service to his credit, is believed to be the army's youngest "old timer," according to recruiting officers here.

Pitts, according to their story, literally was born in the army. They account for his 20 years of service by the fact that nearly all his service has been in foreign lands, where double time is allowed. Pitts' father was killed in the Philippines and his mother died when he was only four months old, after which he became the protégé of the Second Cavalry. Pitts served overseas from August 1917 until after the armistice.

### Absolutely the Limit.

The evening party was over, and most of the guests had gone. As one young man took leave of his hostess the lady said:

"I'm sorry you found Miss Bigbee a poor conversationalist."

"Poor conversationalist!" exclaimed the guest. "She's absolutely the limit! Why, the only thing she said to me the entire evening was 'No,' and I had to propose to her to get that out of her."

## Curtain Rises Today on the Grand Circuit Harness Races of '20

Associated Press.

CLEVELAND, Ohio, July 3.—Tomorrow the curtain will go up on the 1920 season of the Grand Circuit harness racing.

The season will open at the North Randall track Cleveland's suburban racing plant, and, after a week of racing, the crack drivers of the nation will move their pacers and trotters to Toledo for the second meeting of the year. Then a Kalamazoo, Michigan, will see the third meeting of the "Big Ring" and from Kalamazoo the caravan will move to Columbus, Ohio. The season comprising 15 weeks of racing will close at Atlanta, Georgia, October 23.

Two \$500 stakes for trotters, the Ohio for 238 trotters and the Tavern "Steak" for 214 trotters, will be raced off during the week at Randall and these big events will have large as well as high-class fields. Other early closing events will be the \$3000 Edwards stake for pacers eligible to the 238 class, and the \$2000 Fasig stake for three years old trotters. These will be the feature events on the week's program.

There are now over 400 trotters and pacers stabled at the North Randall track, the stables of Tommy Murphy, Walter Cox, Lou McDonald having been in training there for 10 days. Then there is "Pop" Geers with the big string from Memphis, Tennessee, J. L. Dodge from Lexington, Kentucky, Charles Valantine, the Columbus (Ohio) trainer, Ben White, who has a stable of crack trotting colts, and many other leading lights of the harness horse world.

from Cisco Daily News, Friday, July 2, 1920:

ESSEX BREAKS TIME RECORD

STOCK ESSEX MAKES ROUND TRIP TO RISING STAR FROM CISCO IN 72 MINUTES FLAT.

Seventy-two minutes actual running time over rough roads from Cisco to Rising Star, a total distance of 44 miles.

This is the record made Thursday by an Essex stock car, driven by Byron Brown of this city. In the car with Brown were two passengers who were witnesses to the city-to-city test, both of whom had watches, and both of whom kept accurate time on the run.

The car left Cisco city limits at 5:08 and arrived in Rising Star in front of the Rising Star X-Ray printing office at 5:50, five minutes being deducted from this when a screw worked loose from the brake and a stop had to be made to replace it.

On the return trip the Essex crossed the Katy tracks at Rising Star at 5:45 promptly and arrived at the city limits of Cisco at 6:20, the return trip being made in exactly 55 minutes, and the trip to Rising Star being made in 27 minutes, making the actual running time for the entire trip 72 minutes.

This stock Essex took every rough spot, every sandy stretch and every hill without losing speed. Thrown into second in the heavy sandy places, this light car pulled ahead without losing any of the speed.

This test was made here as a part of the general tests which are being made throughout the United States this week. Many records have been broken like this trip from Cisco to Rising Star. An average of fifty miles an hour was made from San Antonio to Medina over very bad roads. In a reliability run over the Sierra Mountains in Sacramento, an average of 24.4 miles was made to a gallon of gasoline.

The Essex in a time trial made 80 miles in 88 minutes from Buffalo to Rochester, N. Y., the fastest train time being 84 minutes, and the train route is 12 miles shorter. This popular car also broke all records in rim of world hill climbing, making 88.10 miles in 17 minutes, 23 seconds.

The ESSEX ---automobile supreme

The last six days were ESSEX DAYS in the United States—days when records were broken—days when this sturdy light car showed its supremacy in the automobile world, conquering conditions which prove the worth of a car. These tests included Reliability, Economic Uphill, City-to-City runs, Circuit runs, Dirt Track runs, Non-Stop runs, and other gruelling tests. Every test made by the ESSEX established a new record in the particular locality where it was made. Stock cars were used exclusively and the reading of the following records will prove to the most skeptical what a truly wonderful automobile the ESSEX is.

A Few of the Records Made

The ESSEX traveled 80 miles in 88 minutes from Buffalo, N. Y., to Rochester, N. Y. (Fastest train time is 84 minutes, and the train route is 12 miles shorter than the route used by the ESSEX).

24 miles to a gallon of gasoline over the Sierra Mountains at Sacramento. A new record.

An ESSEX stock car, which has been driven over the streets of Cisco for many miles, and also on the roads outside of Cisco, was driven to Rising Star and back Thursday by Byron Brown with two passengers in the record time of 72 minutes flat for the round trip. The trip over was made in 37 minutes and the return was made in 35 minutes. This is indeed a record between these two cities which will undoubtedly be unbroken by any other car.

Eight and eight-tenths miles in 17 minutes in the rim of the world hill climb, breaking all world's records for a feat of this kind, and proving to the world the supremacy of this automobile in hill climbing.

50 miles an hour over very bad roads from San Antonio to Medina. A new record.

new world record, 1261 miles 24 hours

The dirt track record for 24 hours' running was broken at Dallas when the ESSEX ran 1261 miles from 9:30 Wednesday night until 9:30 Thursday night in Dallas on a dirt track in the 24 hours. The best previous record was made at Daytona Beach, 1234 miles, in 24 hours.

All Records Made with Stock Cars

All the above records and many others were made with ESSEX stock cars—cars that had already seen many miles of service. And all of these cars were in condition after their runs to repeat the performance the next day. The proof of the pudding is in the eating—and the proof of the reliability of an automobile is in the actual performance made by that automobile. If you wish to know first hand how the ESSEX performs, call us and we will gladly demonstrate it to you.
