PART SOVIET GOVERNMENT LEAVES MOSCOW

US NAVY WANTS 100

According to information released by Commander A. Laverents, head of the Naval Aviation Cadet Selection board at Dallas, a quota of one hundred aviation students has been assigned to the Texas-Oklahoma territory for the month of November. The navy is now training one thousand students per month from the entire United States.

The one hundred Texas-Oklahoma students will train the first two months at Dallas, after which they will move to the advanced training centers at Corpus Christi, Pensacola or Jacksonville, Fla., for the remainder of their training. Upon completion of training, they are commissioned as officers in the naval reserve and sent to active duty with the aviation squadrons of the navy.

Commander Laverents states that in his opinion this represents one of the finest opportunities offered in aviation today and he urges all interested parties to apply to the nearest navy recruiting station or write him direct, at once, at Allen building, Dallas, Texas. Candidates must have two years of college. Examinations are arranged at government expense.

Charlie Fee has many warm friends in the old home town and all join the Cisco Daily Press in the sincere hope that he will suffer no permanent inconvenience from the mishap.

ZOGI SHOWS RECEIVE MANY COMPLIMENTS

Zogi & company, at the high school auditorium tonight, arrived in Cisco today from Olney where standing room only was available during the exhibition there. A crowd of enthusiastic people cheered through the entire hour and forty-five minutes of the program, it was stated.

President Lunn of the Olney Rotary club said: "It was the finest program ever presented in Olney."

Talent scouts for the government recently reviewed the Zogi show and Zogi was handed a contract to present his show in all the army camps in the south, opening at Alexander, La., Tuesday, Oct. 21.

Colorado City high school says: "Zogi is one of the best of magicians. We look forward to his return."

"Time, effort and money has not been spared to create one of the largest, most elaborate mystery productions on the road," said Zogi.

According to H. H. Monk, W. W. Fewell presided at today's Rotary luncheon and furnished the "fuel" for a very interesting program.

The club voted to attend a community meeting at Scranton next Thursday night. The local Lions are also invited to the gathering, as are all Cisco business men and women.

Leonard King, high school band leader, gave several excellent cornet solos and was accompanied on the piano by Mrs. Leander Hall. Mrs. Hall also gave a special piano number that was very pleasing.

Eight Rotarians were absent from the luncheon.

JAILED FOR CONTEMPT.

KINGSVILLE, Oct. 16.—Joe P. Hatchitt, district attorney for five South Texas counties, Wednesday completed a 24-hour jail sentence assessed after he told District Judge George C. Westervelt "I'll quit and let you prosecute the suit." Judge Westervelt rescinded a \$100 fine levied with the jail sentence for contempt of court. Hatchitt became irate when the judge upheld a defense objection to remarks the prosecutor made before a jury.

ROSE AMID THORNS—Here's one for the bees who probably never knew they could find a bit of honey in a cactus plant. She's Nan Beal, chosen "Sun Queen," for Tucson, Ariz., winter fete.

LAND LEASES BRING TEXAS A NICE SUM

AUSTIN, Oct. 16.—Texas was richer by \$76,999 Thursday on moneys paid into the treasury for leases to 8,304 acres of school land, submerged areas and river beds in eight counties.

The school land board Wednesday awarded leases to high bidders without exception. The bids, opened Oct. 7, were on land located in Andrews, Aransas, Crockett, Ector, Gaines, Pecos, Terry and Victoria counties.

The state agency also sold 34.5 acres in Foard county 82.7 in Ochiltree county, 237 in Kent county and 1,510 in Mason county, all excess land.

HOPE LOSES HOPE.

HOPE, Ind., Oct. 16.—There's no hope for the thirsty in Hope. Townspeople stood off Wednesday the fifth effort in five years to open this place of 1,046 inhabitants to the liquor trade. Donald Emerson Wheeler had an application before the Bartholomew county liquor board for a permit to sell beer in his delicatessen here. But when he showed up at his hearing in Columbus he found five clergymen and more than 150 citizens on hand to protest. He withdrew his application, turned around and walked out.

EGG THIEVES BUSY.

DALLAS, Oct. 16.—Eggs are going up and so is the ire of two poultry dealers who lost 700 dozen eggs to thieves for whom Dallas police were searching Thursday. The eggs represented exactly 2,400 separate achievements by proudly cackling biddies. A parked truck, belonging to J. B. Woodard of Hico, was rifled of 500 dozen while the E. E. Foster Egg Company lost 200 dozen.

SHIPS TO ARM IS SEEN

WASHINGTON, Oct. 16.—Speaker Sam Rayburn predicted today the administration's merchant ship arming resolution would pass the house Friday by a majority of 100 to 150 votes.

Rayburn and House Leader John McCormack told reporters they believed the cabinet crisis in Japan would contribute to large majorities for the ship-arming legislation on which the house started debate today.

CISCO MAY GET REGULAR AIR PLANE SERVICE

The civil aeronautics board, says P. R. Warwick of the Cisco chamber of commerce, will give consideration to the feeder airline problem within the next thirty days. This announcement has just been made by Thomas O. Hardin, president of the Southwest Feeder Airlines, Inc., whose company has filed for a system of routes which will include regular stops at Cisco.

Hardin, together with Paul A. Gareau, vice president of the company, has just returned from Washington, where a series of conferences were held with civil aeronautics board officials and the company attorneys. It is expected that the board will call together the various applicants for feeder airline service within the next month and make plans for early hearings. Until now, the urgent demands of the national emergency have practically crowded the question of local air transportation and airmail service out of the board's program.

The pressing demand for faster transportation of passengers, mail and express, due to increased defense production, makes it imperative that air service be expanded to include many cities not now served by the airlines. This statement was made today by Hardin, who has spent the past few months in South America on a government mission. Returning to Ft. Worth, the company's headquarters, he will devote his entire time to his duties as president of Southwest Feeder Airlines.

The company has asked for a certificate to serve 253 points in eight middle and southwestern states. Surveys made during the past summer throughout the territory, showed a definite lack of adequate transportation facilities and a genuine need on the part of local business for faster communication and service to metropolitan centers.

Several federal agencies, including the Reconstruction Finance corporation, Commodity Credit corporation, and United States Housing Authority, now borrow money directly from the public, from time to time.

The total debt of federal agencies other than the treasury on Sept. 30 was \$6,928,941,005. In a period of five years, as these securities come due for payments, Morgenthau said, they might all be refunded by direct treasury obligations.

STAMP & BOND WEEK

November 3 to 11 has been proclaimed by Hon. Coke Stevenson, governor of the state of Texas, as Defense Savings Stamp and Bond week in all of our 13,791 schools and colleges in Texas.

As a great army they will move forward with one accord to revive the Spirit of '76—the spirit that made America great.

The Spirit of '76 made possible those great privileges we stress so loudly today — FREEDOM OF SPEECH, FREEDOM OF THE PRESS, and its continuation will be perpetuated only by the boys and girls of today that are prepared and protected for tomorrow.

The treasury department of the U. S. government has been given the Herculean job of administration of the sale of Defense Stamps and Bonds, so necessary NOW to our defense program.

Won't you be a Minute Man of '41 and help break this week of Nov. 3-11 with a big noise?

Stress it in all possible ways, contact your school superintendents and work out ways and means to get the news about.

FT. WORTH, Oct. 16.—The coolest weather here in six months greeted early risers Thursday. The mercury dropped to 54 degrees, the lowest since April 25, when that mark was equalled. Twice before this fall, however, a low temperature of 55 degrees was recorded, on Sept. 26 and Oct. 11.

FIFTEEN CONCRETE BARGES.

WASHINGTON, Oct. 16.—The Maritime Commission has decided to build 15 reinforced concrete barges suitable for the transportation of oil. The commission said five of the barges would be built in each of three yards to be located on the Pacific, Atlantic and Gulf Coasts.

JAP CABINET FALLS; LITTLE MEN HESITATE

Axis armies drove the hard-fighting Russian defenders back toward imperiled Moscow today and thus prompted Japan to seek a new war government for the threatened showdown in the Far East.

Resignation of the cabinet of the Japanese premier, Prince Kono-ye, and suggestions that a pro-Axis military cabinet would take power in Tokyo to strike at Siberia if Russia fails to halt the Germans, coincided with reports that diplomats and part of the Soviet government had departed from Moscow because of threat of encirclement by Nazi pin-cer operations.

Radio broadcasts by a Moscow station described danger to the capital as great after Nazi tanks broke through from the west, but told of stern resistance by a still unbroken Red army, aided by civilians.

Press dispatches direct from Moscow were sporadic or entirely disrupted Wednesday night and Thursday, indicating the gravity of the situation in the Soviet capital, but the official radio continued to broadcast generalized reports from the war front.

Berlin dispatches were also vague, but indicated the Nazi mechanized vanguard is within perhaps 50 miles of Moscow, having gained another 10 miles in bloody fighting.

Some German sources sought to convey the impression that the Soviet capital was already encircled.

The government crisis in Japan remains to be clarified, but it is obviously encouraged by the German offensive.

BROADCASTS.

People are glad to get the radio news broadcasts in these times, to catch swiftly-moving events on the fly. But there is growing complaint about the encroachment of commercial announcements on the time and unity of the news releases.

Many people say they would gladly pay for such service if it were possible to obtain. But by ordinary procedure it couldn't be given to subscribers without non-subscribers also taking advantage of it, and that wouldn't be fair.

Some are wondering whether exclusive, paid services of this and other kinds couldn't be managed by using "frequency modulation" instead of the usual radio waves.

MEMORIZING.

Angelo Patri, authority on child training, declares that young people need to memorize more of the great literature, poetry and speeches written in the wonderful language which is their heritage.

The little folks, he says, should know most of Mother Goose by heart, as well as Stevenson's verses for children and Bible verses suited to their years.

The reason for all this is not the old one of "training the memory." It is to "furnish the mind with beautiful and useful and inspiring ideas."

Baltimore Receives Exact Duplicate Of Original "Star Spangled Banner"

A huge flag which is the first exact duplicate of the original "Star Spangled Banner"—was presented to the city of Baltimore recently with impressive ceremonies and it is now preserved in the War Memorial Building there.

The original flag was flying above Fort McHenry during the attack on the city in September, 1814, and it inspired Francis Scott Key to write his immortal poem.

In the presence of representatives of historical and patriotic societies, and of the United States treasury, war and navy departments, and thousands of other persons, the duplicate was presented to the Hon. Howard W. Jackson, Mayor of Baltimore, in ceremonies at the War Memorial Plaza.

The presentation was made by George B. Sippel of Cincinnati, president of the Master Brewers Association of America on the occasion of its 38th Annual Convention. The ceremonies included an address by Arthur P. Sewell, curator of the "Flag House" on the history of the "Star Spangled Banner."

APRICOT CRESCENT

THAT remarkably agile fellow, the knave of hearts who stole the queen's tarts on a summer day, would have left the tarts and made off with this delicious fruit-filled apricot crescent if it had also been on the table. However, there would have been a different ending to the story, because he would have never returned this delightfully fruity bread. Instead, it would have been safely stowed away beneath his knavish heart.

The foundation for this quick coffee cake is a rich scone dough which is unsurpassed for its kitchen simplicity and goodness. Economical it is, too, and when made with enriched flour this coffee cake brings added vitamin values to the table.

Any fruit filling for this crescent is equally as good as the apricots and raisins used to fill this scone crescent. During rainy days, when this universally liked fruit is so plentiful and so reasonable in price, finely chopped apples flavored with a dash of cinnamon and nutmeg make an ideal filling. Tender, plump prunes are also good and as always, nutritious and flavorful.

For breakfast, luncheon or dinner, not to mention afternoon coffee or tea, family and friends will vote this menu quickie a contribution to good eating.

MILK AND ITS PRODUCTS ON THE WAY UP

WASHINGTON, Oct. 16.—Keen competition between domestic consumers and Uncle Sam for dairy products has contributed to a 14 per cent advance in fluid milk prices for most city users during the past three months, the Agriculture Department reported Wednesday.

Government purchases of cheese and evaporated and dried milk are being made for shipment to Great Britain under the lend-lease program.

The department reported today that three-fourths of the 110 city markets which regularly report have raised prices either to producers or consumers, or both, during the past 90 days.

The October retail average of 25 representative cities was 13.74 cents a quart for home delivered milk. This was an increase of .15 cent per quart over the September average, and about 1.75 cents a quart, or 14 per cent, over the October average of last year. The

highest price reported was 17 cents at Charleston, S. C. The lowest was 11 cents in a number of Midwestern cities.

The sharp competition for milk is reflected, the department said, in the fact that during the first eight months of this year the production of evaporated milk and American cheddar cheese—two products needed in large quantities for shipment to Britain—increased 14 and 18.4 per cent, respectively, over the corresponding output of 1940.

GOVERNOR OF TEXAS TALKS TO FARMERS

AUSTIN, Oct. 16.—Texas abhor the life that a Hitler would impose upon them, Gov. Coke Stevenson told educators, legislators and farmers at a dinner in his honor under auspices of the Diet Farmers Congress here Tuesday night.

He asserted that despite the vastness of the state, Texans have a tremendous lot in common and get along surprisingly well in the conduct of their affairs.

"All of us have—I believe to the last man and woman among us—an abhorrence and a vital dread of the herded life that a Hitler would impose upon us," he said.

"It is our blood; it is our greatest heritage perhaps that we will sacrifice and fight, and if needs be

die for the unregimented liberties that were gained for us by the blood and sweat of those who gave us life."

The governor spoke of the share the farmer and the ranchman had in building Texas and commended efforts of agricultural organizations in meeting new problems.

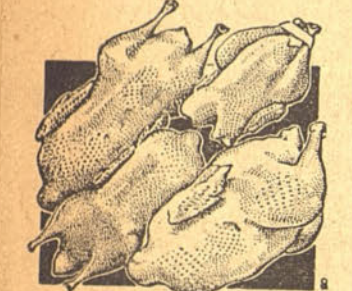

President Bailey E. Ragsdale of the congress presided and Speaker Homer Leonard of the Texas house was toastmaster.

Speakers included Homer P. Rainey, president of the University of Texas, and T. O. Walton, president of A. & M. college.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Crawford, chairman, called the circle to order in regular meeting and presided during the transaction of business. Mrs. A. J. Olson led the opening prayer. Report was made of the purchase of a desk chair for the Presbyterian Tex-Mex boys' school. Roll call responses were items of interest about the Pres-Mex school for Mexican girls, at Taft. The session was closed with prayer. Members attending were Mrs. E. P. Crawford, Mrs. R. S. Cope, Mrs. O. Gustafson, Mrs. H. L. Jackson, Mrs. A. E. Jamison, Mrs. Chas. J. Kleiner, Mrs. John Kleiner, Mrs. Frank Leach, Mrs. H. H. Monk, Mrs. A. J. Olson, Mrs. C. O. Pass, Mrs. Alex Spears, Mrs. Lloyd Willis and Mrs. Caffrey.
