NUMBER 110

BRYAN - DARRROW WAGE WAR

Excellent Program Arranged for the Joint Meeting of Eastland, Ranger and Cisco Rotarians Thursday Night

OFFICERS STAND WITH RUM RING; ATTORNEYS TOLD

WASHINGTON, July 18.—Starting evidence of corruption of public officials in the enforcement of the federal prohibition statute has been reported to Attorney General Sargent by United States attorneys from all parts of the country, it became known today. Many officials of federal, state, county and municipalities, said to be adverse to the Volstead act, are winking at violations, and in some cases actually in league with rum running trusts, the information said.

BAPTISTS OPEN ROMNEY MEETING FRIDAY EVENING

"The Baptist camp meeting at Romney opened Friday night with a blaze of spiritual demonstration." is the way one of those present described the initial service to the Daily News. A large number were present and the opening presaged a most successful camp meeting. The large tent was almost filled to capacity at the first service held. The opening sermon was delivered by Rev. A. C. Miller, owing to the absence of Rev. W. R. Underwood, who was scheduled to preach the opening sermon. However, Rev. Underwood was on the grounds Saturday and preached the evening sermon, and each evening will preach throughout this week, with Rev. Miller preaching at the morning hour.

The splendid preparations for the meeting, including the electric lights for the big tent, is due to the untiring energies of Rev. J. J. Ponder, local missionary officer.

This is the first Baptist camp meeting at Romney in eighteen years, and all are invited to come out and make it their meeting.

HARPERVILLE INCREASES SCHOOL TAX TO 75 CENTS
HARPERVILLE, July 18.—The canvass of the returns of the school election held in the Harpersville school district last Saturday to increase the school tax from 70 to 75 cents on the \$100 property valuation, shows that the proposition carried by a 2 to 1 vote. This will give Harpersville ample funds for a nine months term.

Asks \$25,000

LUCILLE McALMOND

Alleging she and her boy friend were falsely arrested, Lucille McAlmond, of Los Angeles, is suing Huntington Park, Cal., officials for \$25,000. Elmer Strong, the youth, is also suing on the same charge.

Cisco People Approve Suggestion of the Cisco Daily News to Light the Bankhead Highway, Cisco to Ranger

CLEMENCY PLEA FOR MURDERER OF EL PASO MAN

AUSTIN, July 18.—A delegation of Mexicans, headed by A. P. Carrillo, consul general with headquarters at San Antonio, appeared before the board of pardon advisers here this morning in the interest of Salvador Jaquez, sentenced to be electrocuted July 24, for the murder of K. J. Coleman, El Paso policeman. The board took the application under advisement.

MERCURY STOOD 105 AT FT. WORTH ONLY 98 AT CISCO

FORT WORTH, July 18.—The mercury stood at 105 through north central Texas at three o'clock this afternoon. Lack of wind caused much suffering.

And Cisco Thinks it Hot
While others are sweating with the thermometer standing above the hundred mark, Cisco things it hot at 98. The delightful breeze keeps Cisco folks comfortable.

IN DUAL TRACK MEET AMERICAN BOYS DEFEATED

ATLANTIC CITY, July 18.—Oxford and Cambridge scored a sweeping victory over Cornell and Princeton in their dual track meet here this afternoon. The issue was decided as early as the 220 yards low hurdles, this event being won by Lord Burghley of Cambridge. This victory, his second of the day, gave the British seven first places to two, and eliminated the American entrants.

SAN FRANCISCO POST HAS DEAN SHERRY AS HEAD

The friends here of a former Cisco citizen will be glad to know that his popularity and ability has not waned since he left Cisco, and that he is being chosen to fill places of prominence in his adopted home, and his new affiliations are of equal importance to the places he held here, when they learn that Dean Sherry, formerly law partner of Judge Burette Patterson, is commandant of Blackstone post, American legion, of San Francisco, where Mr. Sherry is now located. This information was gleaned from the San Francisco Recorder in a story in that paper recounting the establishment by Blackstone post of a free legal service bureau, whose object is to give free legal advice and service to ex-service men who are without funds.

WASHINGTON ORDERS PROBE OF DEATH OF U. S. CONSUL
WASHINGTON, July 18.—Official investigation will be started at once into shooting on July 16 of Harold B. Brotherton, American consul at Aguas Calientes, Mexico, presumably by a Mexican. He was shot in the back. Word of the shooting reached Washington today.

Huntress

MISS MURIEL GRANT

GOV. LEN SMALL REPRIEVES BOY FOR FIVE DAYS

CHICAGO, July 18.—Gov. Len Small is on his way to Chicago to decide if the melodramatic developments in the past thirty-six hours justify another fight for the life of Russell Scott. Governor Small is expected to question three purported new witnesses upon whose testimony depends the fate of the man whose death on the gallows yesterday was halted by a week's reprieve. One of the witnesses is ready to swear it was Scott's brother that fired the shot ending the life of the drug store clerk during a holdup. Great interest is aroused in the case.

SPRINGFIELD Ill., July 18.—Unless Robert Scott who acknowledged in a telegram that he was the slayer of the Chicago drug clerk, for which crime his brother, Russell, was to have been hanged yesterday, surrenders before Friday morning Russell will be executed, Gov. Len Small declared today. "Robert has just five days in which to surrender," Gov. Len Small said. The governor thinks attorneys are "stalling."

CHARGE YOUNG M'ADOO DRUNK WHILE DRIVING

LOS ANGELES, July 18.—A man giving his name as William G. McAdoo, Jr., arrested here on a charge of drunkenness while driving a car, was identified today as the son of William Gibbs McAdoo, former secretary of the treasury, and candidate for president. Young McAdoo was arrested when officers saw him driving "uncertainly." A quart of bonded whiskey was taken from him, the officers stated.

Arrested

MRS. MINNIE REIGER

Suspected of having poisoned Elmer Sherman, 4 years old, who she boarded, Mrs. Minnie Reiger was held by Chicago police. The boy's life was recently insured \$250.

Former Asks Orthodox Christians To Repudiate Evolution Theory and the "Infidelity of Science"

DAYTON, Tenn., July 18.—With the conviction of John Thomas Scopes a matter of hours, the conflict between fundamentalists and modernists was carried to the public tonight in ringing statements by Clarence Darrow and William Jennings Bryan.

These documents, virtually teeming with personal hatred, are the opening guns of a national fight between the forces that have clashed in the Scopes fight. Bryan sounded the call to orthodox christianity to repudiate the evolutionary theory and "infidelity of science."

Darrow's statement struck several telling blows at Bryan and urged that hyperisry and ignorance be shunned.

TULSA HAS \$200,000 FIRE
TULSA, Okla., July 18.—A loss estimated at \$200,000, destroyed the Thomas Motor company sales rooms here early today.

TEXAS OIL MAN MAY BE VICTIM OF HIJACKERS

KANSAS CITY, July 18.—Investigation continued today into the mystery surrounding the identity of the man who is being held in the general hospital here, believed to be J. C. Brown of Waco, Texas, -oil millionaire. Letters on his person indicated he should have \$35,000, and it is believed he has been robbed of this amount. "Leave my business alone, I've dealt with con men before," is all he will say. The man may be suffering from partial amnesia, physicians said.

EASTLAND CITY CUMULATES AND REFUND BONDS

EASTLAND, July 18.—A deal whereby a sum, aggregating \$870,000 will be saved to the taxpayers over the period for which the bonded indebtedness of the city extends, has just been announced by the city officials. Briefly the deal is the refunding of the old term bonds of the city with an issue of serial bonds, at less interest and with the privilege of paying off the indebtedness in annual installments without the hazardous method of accumulating a sinking fund which cannot be applied on the liquidation of the securities until the time of their maturity.

The city officials and commission have been working on this matter for the past four or five months and have spent a great deal of time and much effort in working out a solution to the problem of combining the several separate and distinct issues of term bonds, maturing at widely different dates, into one issue of serial bonds.

PETAINE FINDS FRENCH LINES FORCED BACK

LONDON, July 18.—French reverses and increasing seriousness of the situation in Morocco greeted Marshal Petaine on his first day at Rabat, according to advices received here. The hero of Verdun, whose duty it will be to turn back the victorious Riffian tribes, arrived via airplane last night. At same time outposts were endangered by cutting of the line at Ainayoha. Heavy rifle fire were down the French line there and they were unable to drive the Riffians back.

American Fliers Ready
PARIS, July 18.—Final plans of the American aviators who will fly for France against the Riffs was completed today, and volunteers will entrain at Paris for Toulouse and will fly to Morocco from there.

SEVERAL CISCO HOMES PLANNED BE BUILT SOON

"There is a strong probability of a house shortage in Cisco," said Minter Womack to a News man Saturday. "It is true that a good many are now preparing to build, but the way people are coming into Cisco, and the demand for houses, those who contemplate building will hardly be noticeable. Every day I am receiving applications for loans, and many of these will build homes; others are taking up vendors lien notes, and of eight loan contracts I have just closed over \$1,000 went to pay taxes on Cisco property. I am negotiating with three Cisco people who will build homes here. One of these is W. W. Johnston, who recently sold his residence on South D avenue. Mr. Johnston is a contractor, and in disposing of his home to use the money in his business, he was not contemplating leaving Cisco. He will rebuild, and being a builder will have the work done by his own men and save the contractor's profit."

BIG REWARD POSTED FOR MAN WHO KILLED CONNOR
AMARILLO, July 18.—A dragnet was spread over the panhandle today in an effort to capture the murderer of Fred Connor, son of the founder of Tulsa, who was shot to death early Friday and robber of his automobile. One thousand dollar reward has been offered for the arrest of the slayer.

THE ROAD TO NOWHERE

It is doubtful if the Scopes trial in Tennessee will be beneficial either to the evolutionists or the defenders of the faith.

All this is being done, the latter proclaim, to save the religious faith of the younger generation. Apparently the closer followers of Mr. Bryan in this movement do not realize that they, and not the evolutionists, are making it impossible for young men and women who are intellectually enlightened to remain in their denominations.

It is the fundamentalists, and not the scientists, who declare that Christianity and evolution are incompatible. It is a dangerous thing for the defenders of the faith to affirm, as they do repeatedly, that one cannot be an evolutionist and a Christian at the same time, for this forces students of nature who find themselves compelled by the evidence to accept the truth of evolution to conclude that they must therefore count themselves as opponents to the churches.

As Dr. Edwin Conkling says, "the worst form of infidelity is not disbelief in doctrines, whether theological or scientific, but disbelief in the ultimate triumph of truth. If evolution is false, it cannot be saved by truth; if it is true, it cannot be destroyed by theology."

The young gentlemen, believers in evolution, who stirred up this case, did so in the belief that they were aiding their cause. They supposed that if only they could get the public's interest centered on evolution, it would be an easy matter to wipe out the superstitions which surround the subject in the average man's mind. They forgot that these superstitions are wrapped up in the average man's inner consciousness. Man is not rid of his superstitions in a day, or a thousand days. It is a matter of generations.

The history of philosophy, of science, of religion, all shows that opinions are spread in the masses, but that that always comes to the front which is more easily grasped, is most suited and agreeable to the human mind in its ordinary condition. And evolution is less agreeable to the human mind than this Biblical version of man's creation.

Mr. Bryan would have all of us believe that evolution destroys religion; whereas it fortifies it. It is a religion in itself.

The religion of evolution is not new. It is the old religion of Confucius and Plato and Moses.

It looks forward to unnumbered ages of human progress upon the earth, to ages of better social organization, of increasing specialization and cooperation among races and nations, to ages of greater justice and peace.

The inter-city Rotary meeting to be held in Cisco next Thursday night should be one of the most interesting gatherings held in this city in many a day. Rotary membership is made up of the active heads of the various lines of business, and when the business men of Eastland, Ranger and Cisco spend an entire evening together, a great time and good results generally are likely.

LIBERTY

When a man exclaims that he is a free man he speaks in particularities rather than in generalities. In the United States all men are free in so far as they can not be bought and sold as chattels or slaves and to the extent that they can hold public office and possess the elective franchise.

It is right and proper for men to seek and glory in freedom, but absolute liberty is incompatible with civilization. Every law takes away a liberty, and congress, legislatures and municipal governments are enacting new laws momentarily. Customs are laws which cannot be violated with impunity. Employers and employes are masters of each other. Men who take unto themselves wives and acquire progeny are not at liberty to do and act as personal wishes dictate. No man is at liberty to operate his automobile as he wills because there are traffic rules, the rights of others and statutes to be observed. But to continue in this manner might convince us that there is no freedom, that the black slave had more freedom than our first citizens.

But there are two ways of looking upon the restrictions of civilization. One is that every restriction is a denial of an inalienable right of the individual. The other is that every restriction liberates each individual from the trespassing of other individuals. Legislation is a concomitant of civilization. We enact, enforce and obey laws not for our restriction but for our protection.

We have not outgrown the proverb "one man's rights end where another's begin."

There is a demand in Cisco right now for at least twenty additional modern residences. Which shows how the commercial wind is blowing. What are we going to do about it?

HARD TIMES

A portrait painter sat in his favorite cafe in Paris sipping his wine. His first small bottle finished, he was about to order more when his eyes fell on a headline in the Figaro. "Hard Times Are Coming," so instead of ordering his usual second bottle he called for his check.

"Is there anything wrong with the wine?" asked the landlord.

"The wine is good, but I did not order a second bottle because hard times are coming and we must economize," explained the artist.

"Hard times," said the landlord. "Then my wife must not order the silk dress we planned, but must take one of cotton."

"Hard times," repeated the dressmaker when the order was canceled. "This is no time to expand. I must not make the improvements I had planned in the place."

"Hard times, eh?" said the builder, when the dressmaker canceled the building plans. "Then I cannot have my wife's portrait painted."

So he wrote to the artist and canceled his order.

After receiving the letter the artist went again to his favorite cafe and ordered a small bottle of wine to soothe him. On a nearby chair was the paper in which he had read of hard times two days before. He picked it up to read more closely and found it was two years old!

DO YOU REMEMBER?

Roundup, August, 1912.

Mr. and Mrs. W. R. Mahan chaperoned several couples to the lake Thursday night and a most enjoyable time was reported.

Those who went were Misses Eula and Hattie Smith, Ella and Minnie Moore, and Messrs. W. L. Burke, Fred Grist, Clay Edwards and Scott Nobles.

About seven years ago the son of M. H. Fleming was killed in Amarillo by a train and was buried at that place. Since that time Mr. Fleming has established a home in Cisco and has buried his wife in the cemetery here, hence he decided to have the remains of his son buried by his mother. E. C. McDonald, with the firm of H. C. Rominger & Co. went to Amarillo and returned with the remains.

Mrs. R. F. Weddington entertained the members of the Presbyterian Ladies Aid society Tuesday afternoon. The president, Mrs. A. H. Johnston, having charge of the meeting. After the regular course of business had been dispensed with, Mrs. Weddington, assisted by her daughter, Theresa, served delightful refreshments of cake and cream.

Cisco and Eastland are getting up by private subscription money to be applied on the improvement of the public road between the two towns, and the county will give a like sum. H. Bulbrook was circulating a subscription blank Wednesday and was getting very liberal responses.

Mr. and Mrs. W. C. Lovelady left Saturday returning to their old home at Texarkana. Mr. Lovelady was employed by the Star Electric Co. during the few months that he was in Cisco.

Hon. H. P. Brelsford passed through Cisco Tuesday enroute to Cross Plains where he delivered an address in connection with the laying of the corner stone of the Masonic temple which is being erected at that place.

W. J. Pass, wife and children of Benton, Ark., are in the city the guests of Mr. and Mrs. R. C. Pass. Mr. Pass has been spending some time in Texas and has been at Mineral Wells on account of his health. He is thinking of moving to Texas.

Ralph St. John left Saturday night going to Waco where he has entered a business college. Ralph is a bright young man and no doubt has a bright future before him. He is studious and will no doubt do good work while he is in school.

Miss Lizzie Elkins returned Wednesday to her home in Comanche after having spent several weeks with her sister and brother, Mrs. John Sherman and John Elkins.

G. B. Kelly returned from the eastern markets Monday, where he had been to purchase his fall stock of dry goods.

Mrs. C. M. Payne and children and Miss Effie Davis left Wednesday for Dallas and Galveston to visit several days.

Dr. J. W. Howell, who moved to Crosbytown some few weeks ago, writes that he is getting pretty well straightened out.

Mrs. Louis Degenhardt was called to Dallas Monday on account of the serious illness of her aunt, Mrs. W. A. Dorsey.

Mrs. W. A. Bentley and daughter, Miss Willie, of Clyde, spent the first of the week in the city at the G. H. Joiner home.

Mrs. M. V. Mitchell left last week for Gainesville, Texas, where she will spend several months. Uncle Van is not doing so well.

After spending several days in the city the guest of Miss Elizabeth Butts, Miss Charlotte Wray returned Saturday to her home in Fort Worth.

Dr. F. M. Oldham accompanied by his sister, Miss Mary Oldham of Alabama, went to Mineral Wells Tues-

To the Honorable School Board, Cisco Independent School District, Cisco, Texas. Gentleman:

In accordance with your instructions, I have made a careful examination of all records; have checked each entry both original and final of the Cisco Independent School District, for the period of July 1, 1924, to July 1, 1925, inclusive, and the result you will find enclosed.

Your secretary, Mr. Vaughan, has kept an accurate, neat set of books, making quite an improvement over the way they have been kept in the past. The office requires quite a bit of detail work, that he has handled in a skillful manner.

I experienced no trouble in making this examination and checking these records as all information and records were easily accessible. Respectfully submitted, P. L. KELLEY.

FINANCIAL STATEMENT

Cisco Independent School District, Cisco, Texas, July 1st, 1925.

Table with columns for Assets and Liabilities. Assets include Real Estate, Buildings, Liquid Assets, etc. Liabilities include Cisco Banking Company (Borrowed Money), Bonded Indebtedness, etc.

DETAILED STATEMENT—Sundry Receipts, Cisco Independent School District, July 1, 1925, Cisco, Texas.

DETAILED STATEMENT—Sundry Disbursements, Cisco Independent School District, July 1, 1925.

Table listing various disbursements including Buildings and Sites, Chesley Park, Interest Paid, Bonds Retired, and Equipment.

DETAIL STATEMENT—Cisco Independent School District, Cisco, Texas, July 1, 1925.

Table listing various operating expenses including Board of Education, Office of Superintendent, Assessing and Collecting Taxes, Other Purposes, Printing and Stationery, Wages of Employees, Janitors' Supplies, Fuel, Gas, Lights and Power, Telephone, Express, Freight and Drayage, Repairs, Insurance, Miscellaneous, Note, Interest Paid, Teachers' Salaries, High School, West Ward, East Ward, South Ward, Negro School, and Liberty Hill.

ANALYSIS—Cash Account, Cisco Independent School District, Cisco, Texas, as of date July 1, 1925.

Table showing ledger balances for Sinking Fund, Building Fund, State and County Apportionment, Local Maintenance Fund, Text Book Fund, and Plus Warrant Outstanding No. 1643, along with total standing cash.

VS

day to spend some few days before Mrs. Oldham returns home.

Mr. and Mrs. Guy Dabney returned Saturday from a pleasant visit with his parents at Granbury.

Luther Browder has returned to Cisco after having lived in Rising Star for several months.

APPOINTED COMMITTEE

SUPPLIES MANY TEACHERS

AUSTIN, July 18.—Vacancies are fewer this year in the teaching profession, and faculties are being made up for next year sooner in the summer than usual, according to Miss Miriam Dozler, secretary to the teachers' appointment committee of the University of Texas. While there have been large numbers of requests for teachers this year, positions are being rapidly filled and superintendents and principals are completing their staffs for the fall session earlier than usual. Science and mathematics teachers are still in demand, according to Miss Dozler, but teachers with degrees and successful teaching experience are wanted. Only such teachers who have high qualifications of scholastic training and experience are desired. It is stated.

ARRESTED FOR CASHING

HOT CHECK 15 YEARS AGO

WILLOWS, Calif., July 18.—A fictitious check for \$450, said to have been cashed on the Novinger bank of Novinger, Missouri, fifteen years ago, led to the arrest here of E. N. Daniels, 55, a Butte City rancher.

FLOYDADA-MCBAIN

RAILROAD IS SOUGHT

WASHINGTON, July 18.—Approval of a project for the construction of twenty-seven miles of new railroad between McBain and Floydada has been sought from the interstate commerce commission by the Quannah, Acme and Pacific railroad.

HUSBAND HITS HIS WIFE; PAYS \$3,000

CHICAGO, July 18.—Judge John R. Caverly, sitting as divorce referee, has awarded Mrs. Helen Ruth Periman alimony at the rate of \$1,000 a month. In obtaining a divorce from her husband, Dr. A. J. Periman, Mrs. Periman brought witnesses to the fact that she had been struck three times.

ALASKA FISHERIES ARE WORTH OVER \$40,000,000

WASHINGTON, July 18.—Showing an increase of 2 per cent over 1923, the Alaskan fisheries harvest was valued at \$40,289,000 last year, according to figures compiled by the department of commerce. Salmon was the chief fisheries product. The report showed that 25,195 persons were engaged in the fisheries industry last year and that the investment in the business was \$62,660,000.

RANDOLPH COLLEGE

One of the most encouraging features of the work at Randolph college has been the attitude of the citizens of Cisco generally in the program and work of the school. This confidence will be rewarded by having on College Hill an institution that will be a credit to the community. The days of beginnings are always hard and discouraging, but definite progress is now being made and the prospects of the school increases as the days pass.

It is due the citizens and friends of the school that a statement of conditions be given:

For the year ending June 30, 1925, we received from the Christian churches and individuals of Texas \$10,675.20; from other sources \$11,912.70; making a total of \$22,587.90 actual money received. We supported through the school year a faculty of seven teachers and carried forward a work that "closely approximated the requirements for recognition by the state department.

The college has been organized for 1925-26 with a majority of the teachers having M. A. degrees, reaching in full the state requirements. Prof. W. F. Bruce, M. A., has been elected dean. Prof. Bruce is a real scholar and one of the finest teachers to be found anywhere. It is fully expected he will bring the school to the highest standard of scholastic attainments, as he is satisfied with only the very best. Prof. J. D. Shaw, M. A., will have charge of the department of mathematics; Prof. R. R. Swain, M. A., will direct the department of history; Prof. F. West, will teach the department of science and athletics; Miss Grace Read, A. B., will teach the department of Eng-

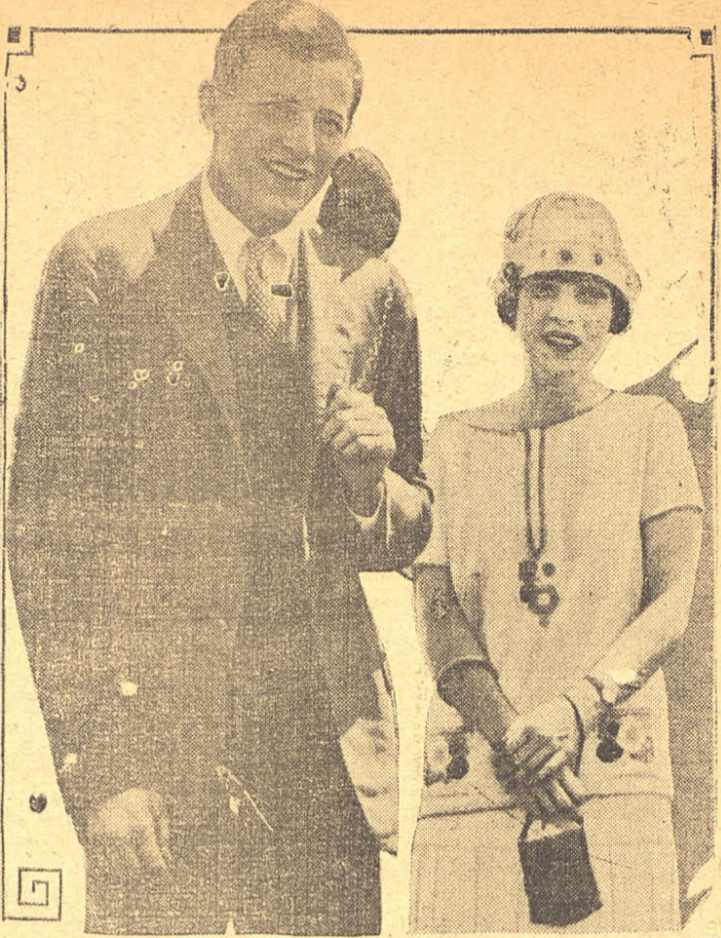

lish; Prof. T. H. Weddington will teach public speaking and expression, and Prof. G. W. Collum will have charge of the music department. Business management and Bible work will be taken care of by Prof. Joseph Keevil.

Each teacher chosen is a specialist in his work. The management has been careful to select only those having special qualifications for their tasks, and is confident they are presenting a faculty for the coming year that will challenge the attention of those interested in the highest and best educational work.

At the annual convention of the Christian churches held in Abilene during June, the Educational committee of the state was directed to put on a special drive for funds to meet the present needs of the two junior colleges and provide for the expenses for the coming year. This work the committee has now under consideration and plans will be perfected in the very near future to carry out this instruction of the convention. However, the Christian church gave last year over \$10,000 and it is the conviction of all this will be largely increased during the coming year.

The one important thing the people of this community can do to put over the task is to provide the students for the coming year. Randolph college can offer your child a program of education second to none. With the spirit of loyalty so characteristic of the citizens of Cisco and this community, there ought to be no question of opening the school September 15 with not less than 150 in our student body. Those interested may write Prof. W. F. Bruce or J. Keevil, Randolph College, Cisco, Tex.

Just Plain Mrs. Smith?

CONSUELO VANDERBILT and EARL SMITH

The engagement of Miss Consuelo Vanderbilt, daughter of W. K. Vanderbilt, 2d, to Earl Smith, her childhood sweetheart, is to be announced soon, according to her New York friends. The youthful heiress to millions was said to have been chosen at one time by Queen Marie of Rumania as the prospective bride of Crown Prince Carol of Rumania, but preferred to become plain Mrs. Smith.

in at this time, according to Harlan, is the extension of the Denver line from Spur to Lubbock and Plainview and the Missouri, Kansas & Texas from Rotan westward to Roswell. The construction of branch lines from the Denver or elsewhere into the vacant plains is accepted here as vitating the future prospects of Stamford getting an outlet to the plains through its 32-mile Stamford & Northwestern, which gets within 30 miles of the caprock.

The Stamford celebration at Plainview will endeavor to show the examiners of the Interstate Commerce Commission that the representatives of the various regions for new rail lines are warranted by the annually increasing development, colonization and trade of the west.

which he was named as beneficiary. The new turn in events came as a surprise, even to the blood relatives of young McClintock, the cousins and second cousins, who contested Shepherd's right to the million dollar estate. They had expected that the will would be admitted to probate without ado and that the battle would be theirs, rather than Shepherd's.

"It is not that there is suspicion of undue influence in this case," said Judge Horner, "but Shepherd was an attorney and was the foster father of McClintock. Moreover, he was the husband of a co-guardian. Those facts alone are enough to prove a fiduciary relationship, and where a fiduciary relationship is proved then it is the duty of the court to deny admission of the will."

Judge Horner permitted Shepherd's attorney to appeal his case to the circuit court, where Shepherd will be allowed to prove the McClintock will before a jury.

A further ruling went against Shepherd when Judge Horner permitted the estate to remain under the trusteeship of the Northern Trust Company.

Shepherd's attorney again raised the objection: "We will accept any executor except the Northern Trust Company."

Shepherd in the course of the murder trial charged that one of the company's officials led "the persecution ring."

The attorney for Miss Isabelle Pope, fiancée of the dead youth, who was left an annuity of \$8,000, attacked the will as being "not the real will of William Nelson McClintock."

"My client," Miss Pope's attorney said, "asks that this be not admitted to probate because she believes it is a part of a criminal conspiracy on Shepherd's part to get control of the estate."

The effect of Horner's decision is to throw the estate into administration to the regular channels for persons who die without leaving wills, subject, of course, to appeal by Shepherd.

The heirs at law have an agreement by which they will deliver a major portion of the estate to Isabelle Pope, whose marriage to young McClintock was prevented by his death.

WILL TEST THE PRESENT STATE SEARCH STATUTE

DALLAS, July 18.—Claiming that he is the first officer in Texas arrested for violation of the new search and seizure warrant law was made today by M. A. Hudler, city marshal atagle Lake, just before final adjournment of the convention of the Chiefs of Police and City Marshals' association of Texas. He said he was arrested for violation of the law requiring search warrants in all search and seizure cases, by Sheriff Adam Bartschell for arresting a Mexican for liquor violation. His case has been set for July 25.

PROBATION OF M'CLINTOCK'S WILL DENIED

CHICAGO, July 18.—The McClintock millions again slipped from the grasp of William D. Shepherd when Judge Horner refused to admit the will to probate, ruling that a fiduciary relationship existed between Shepherd and his ward at the time Shepherd drew up the document in

Wakefield's Cross Plains Townsite Wildcat Arouses Intense Interest Resembling Frenzied Days of 1922

CROSS PLAINS, July 18.—Eclipsing in interest all discoveries of history in this section the wildcat strike of the M. E. Wakefield et al townsite well just outside the city limits of Cross Plains, continues holding the spotlight of attention of the entire oil fraternity. This well touched the pay at 1430 feet late Wednesday night and the 6-inch hole filled with fluid and began flowing by eight minute heads two hours after the sand was touched. A gauge of present production shows the well to be making 200 barrels, and tankage is being provided as fast as possible. The flows are being run into earthen storage pending the arrival of tanks. Drillers state that no more than one foot of the sand had been penetrated when drilling was suspended and at that time experienced producers variously estimate the well good for from 200 to 400 barrels when completed. This well is almost three miles west of the old Acker deep pool and is in virgin territory. The

oil comes from the same sand as the Barr gasser, one-half mile southeast of town, and is the first well to be drilled to that sand in this direction. The new well has brought on the greatest volume of lease trading that has ever been witnessed in this section since the boom of 1922 and trading is especially active in townsite blocks with preparations already under way for the drilling of at least five wells within the city limits of Cross Plains. The streets of the town already present an appearance not unlike the big boom of other fields in former years.

In the Cross Cut section the big play continues to take on added impetus with a long list of new locations being added daily to the extensive development program already under way. In that section Moore & Wilson have completed their No. 4 Gafford for a 75 barrel producer and are rigging up on their No. 5 Gafford. The same company is drilling at 900 feet on their Baxter No. 2, and at 300 feet on their Baxter No. 3. Conway Bros. et al are on the sand at approximately 1260 feet on their No. 8 J. W. Newton, and have a showing for a good well. F. W. Stone et al brought in their Jesse Byrd No. 1 at a depth of 1340 feet for a good producer. The production is estimated at about four million feet of gas and the well is spraying oil. This well is located northeast of and adjoining the Cross Cut townsite. Mendenhall et al are reported to have a good well on the J. W. Newton tract. The J. K. Hughes Development company is making a location on the J. T. Arledge tract in the east extension of the field and adjoining the Byrd tract. The Midwest Exploration company is making a location on the Coffelt tract, approximately 8 1/2 miles south of Cross Cut. This well is to be a deep test, going to the Pioneer sand.

Developments in the Cross Cut field are expected to be augmented by the laying of the Phillips Petroleum company's pipe line from Pioneer to take care of the gas. This company has bought the big gasser of Carter, Lowe & Dulaney on the Beck survey.

In the shallow field southwest of town, the Canyon Oil & Gas company have a 15 barrel producer in their Burns No. 9, and are spudding in their Burns No. 10. The same company is drilling at 320 feet on their No. 2 Harris and have a fishing job on their Harris No. 1.

Drilling is progressing at 250 feet on the Childers No. 1 two and one-half miles southwest of town. This

is another promising wildcat to which much interest has been added owing to its proximity to the McDonough discovery of M. E. Wakefield.

EXTENSION OF KATY TO ROTAN STAMFORD AIM

STAMFORD, July 18.—A detail of business men of the Stamford chamber of commerce to the Plainview rail hearing will be "unofficial observers," according to O. P. Harlan,

chamber of commerce president. "We are not disposed to champion the cause of any of the rail contestants in this case," Harlan said, "but we will do our best to convince the examiners of the Interstate Commerce Commission that all West Texas is ripe for rail projections."

Business men of Stamford express themselves as somewhat disappointed that the Denver selected the route from Estelline to the Plains rather than the already constructed line from Stamford to Spur, closing the gap between here and Fort Worth with a new straight line as proposed by Hale Holden, chairman of the board of the Burlington system, in his protest against the Texas, Panhandle & Gulf railroad at its hearing at Austin several months ago.

Radio Goes on the Automobile Tour

THERE is a new piece of luggage on the running boards of many a touring automobile this summer. It might be a luncheon kit or a new style of suitcase or again a folding stove in its container. Presently an automobile with said new piece of luggage arrives at an inviting and secluded spot. The occupants step out and stretch their weary limbs to remove the kinks of a long ride. Then the women members bring forth a wide variety and liberal quantity of food. Meanwhile a male member of the party has busied himself with that new piece of luggage which has been put down in some convenient place. The cover is thrown open, and—well, the secret is out; it's a portable radio receiver!

A World of Entertainment Packed in a Suitcase

Out of the case of the portable radio receiver comes a frame made up of a few turns of wire. This is the loop, or wave interceptor, which takes the place of the antenna and ground of so many home receivers. Then there is the front panel of the receiver, with tuning and other controls. No batteries, no loud-speaker, no loose wires are in evidence. The receiver is entirely self-contained, ready to be operated anywhere and everywhere, without installation work of any kind. There is just one thing to do now: tune the receiver for the desired program.

Softly at first, yet louder and louder, come the strains of an orchestra selection, as the person at the receiver adjusts the tuning knobs and swings the loop to various points of the compass. Finally, the air seems fairly saturated with melody. It seems hardly possible that such volume can be produced by a small portable receiver. And now the members of the party get down to the business of eating, which is all the more delightful

when accompanied by the music of an orchestra playing for metropolitan diners in a hotel several hundred miles away.

How different that radio music sounds! Out in the open the radio entertainment takes on new charm. Without the confining walls of indoors, radio music becomes more mellow, still more realistic, and more enjoyable, if that is possible. The background of parasitic noises is lost. There is nothing to suggest electrical reproduction; the music, in fact, becomes quite detached from the radio receiver and loud-speaker.

Then, too, there is the soothing effect of the setting. Even the most blasé radio listener will get a brand new "kick" out of radio music in an outdoor setting, especially amid new scenery, out in the open spaces beneath the summer sky.

The Portable Radio is a Receiver of Infinite Uses

Yet radio music, while enjoying the outdoor repast, is but one of the many uses of portable radio. It takes no great stretch of the imagination to find ways and means of enjoying radio programs wherever automobile touring may lead.

For one thing, the automobile party need never crave for a dance. Any evening, any place, after 10 o'clock, there is bound to be at least one dance program available, and as likely as not there will be others throughout the evening. An impromptu dance can be held anywhere when a portable radio receiver is at hand, and no one need sacrifice himself so that others may enjoy themselves.

In camp the portable radio furnishes constant entertainment. Not only that, but the radio brings very much needed news regarding the outside world. Stock reports, news, business talks and other features of the more serious side of broadcasting may often be of far

greater value to the motorist, especially if he be the notorious tired man, than dance and musical programs.

The quiet evening in the little wayside cottage may be enlivened with the portable radio receiver. The canoe ride may be made far more enjoyable by the portable radio, which takes up little room in the bow. The visit to the summer bungalow of friends may be turned into a surprise party if that extra piece of luggage on the running board proves to be a portable radio.

The Portable Radio is an Old Idea, but a New Achievement.

Of course there is nothing new in the idea of portable radio. Ever since the dawn of radio communication there have been portable radio receivers. Just so long as the radio public was contented to listen to local broadcasters with a pair of ear-phones, it was simple enough to produce a portable receiver. However, the radio public has grown in desire as well as in size. Today a receiver, whether used in the home or on a tour, must provide loud-speaker reception. And since the portable receiver is apt to be used in places many hundreds of miles distant from the nearest broadcasting station the utmost sensitivity is required.

In the portable super-heterodyne we have the highest development of the portable receiver. This type, with its six vacuum tubes, is so sensitive that the motorist at Niagara Falls can tune in New York and Boston one moment and Chicago and Minneapolis the next any summer evening, while the receiver is resting on the running board! With everything self-contained, this receiver, which is available in two types, is ready for instant operation. In this case, at least, it may be said that the radio engineers have surpassed by a comfortable margin the most rigid specifications ever drawn up for an ideal portable receiver.

AMUSEMENTS

Broadway Today

If you visit a picture theater because of the stars appearing in the production, then you'll be eager to see Irene Rich, Clara Bow, Bert Lytell and Willard Louis all in the same picture, "Eve's Lover," which comes to this theater Sunday. And if you are attracted by the story, you will be thoroughly interested in this tale of modern love and business, written by Mrs. W. K. Clifford. And, last but assuredly not least in importance, if you look for the name of the producer, you'll want to see "Eve's Lover," because it is one of the Warner Brothers' classics of the screen.

Tuesday and Wednesday

"The Night Club," a new Paramount comedy featuring Raymond Griffith, that funny fellow with the high hat; Vera Reynolds, Wallace Beery and Louise Fazenda, comes to the Broadway Tuesday and Wednesday. "The Night Club" opens with Griffith at the altar with a girl a head taller than he is. He is just about to slip the ring on when a man dashes in and shouts "Stop!" The girl turns around and recognizes the newcomer as her long lost husband and rushes into his arms. Then and there Ray Griffith decides that he is through with all women for good. Later on his lawyer announces that he has inherited a million dollars from his uncle but to collect the legacy, he must marry a certain girl. Griffith decides that no girl is worth a million dollars and tells the lawyer not to slam the door as he goes out. So it is that Ray, with his uncle's valet who is bequeathed to him as a separate part of the legacy, goes to Europe to find some place where there are few, if any women. They select a little town in Spain, but Griffith's happiness proves short-lived, for women of every description soon seek him out and tend to make life misery for our "woman hater." What happens after that—when he meets "the one girl in the world"—proves unusual screen entertainment.

Prince Hero

Deserting his family temporarily, Prince Aage, of Denmark, joined the French forces fighting the Riffian forces, and has won the French Croix de Guerre and Cross of the Legion of Honor by several acts of heroism. PUREBRED SIRES ONLY USED BY 15,137 FARMERS

WASHINGTON, July 18. — More than 1,600,000 head of breeding stock on farms in the United States are undergoing systematic improvement through the use of purebred sires, according to a report just issued by the bureau of animal industry, United States department of agriculture. Persons participating in this work at the close of the year 1924 numbered 15,137 exclusive users of purebred sires, widely distributed among forty-six states. The department, in conjunction with state and county extension workers, is aiding these stock owners to improve their methods of breeding and feeding.

This organized plan, known as the Better-Sires-Better-Stock campaign, has resulted in noticeable rivalry among counties and states, where agricultural leaders have used it as a means of bettering farm livestock. Ohio, Kentucky and Virginia each have more than 2,000 farmers enrolled in the campaign. Largely through the activities of county extension agents, forty counties in nine states each have the distinction of possessing 100 or more livestock owners who are using purebred sires exclusively in all their livestock breeding operations. Pulaski county, Virginia, leads the list with 692 such breeders, and Union county, Kentucky, is second with 457 participants. The chief advances in the progress of the work during the last three months of 1924 occurred in Kentucky, Vermont and Ohio. A conspicuous new center of interest in this field of livestock betterment was Lee county, Iowa. Altogether 235 additional stock owners affiliated themselves with the cause during the three-month period.

Specialists of the bureau of animal industry call attention to the most important result of the work—namely, the superior types of animals which these breeders are raising and the substantial market benefits they are deriving. As a typical example, an Oklahoma stock owner reported to the department that "the difference in price on the market more than pays to keep purebreds, even though we sell no breeding stock. Scores of similar

reports show that the benefits are practically the same in all parts of the country. The department's records, showing the gradual growth of the better-sires movement, appear to be an index to the growing prevalence of good livestock on farms and in market centers.

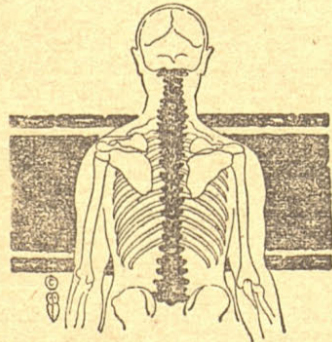

But before good livestock can be produced in large numbers, the specialists add, there must be a wide appreciation of the utility value of good breeding coupled with the actual use of high-class purebred sires at the head of herds and flocks. The Better-Sires-Better-Stock campaign undertakes to supply this need in an educational way.

Any livestock owner who replaces his inferior male breeding animals with good purebreds is eligible to take an active part in this work.

How this One-Profit Coach is built by Studebaker on the sturdy STANDARD SIX CHASSIS

SUPERFICIALLY other coaches may resemble this Studebaker Standard Six, but the resemblance will not stand analysis.

Only two cars are made on a one-profit basis—Ford in the lowest price field and Studebaker in the fine car field. Only in these two cases are all bodies, engines, clutches, gear-sets, springs, differentials, steering gear and axles designed, engineered and manufactured by one company.

Contrast this with the average car, where the extra profits of many outside parts and body makers must be included in the purchase price.

These profits are part of the production cost of the car—the same as the steel and wood of the body. They do not buy materials nor workmanship—they do not make any car one whit better.

Studebaker has achieved one-profit manufacture through years of far-sighted management and through sacrifice on the part of stockholders. Earnings which might have been distributed have been retained in the business to build one of the largest gray iron foundries in the world, to erect stamping mills, forges, etc., to purchase the finest labor-saving machinery, to construct enormous body-building plants.

As a result, resources totaling one hundred million dollars are concentrated upon the production of one-profit automobiles such as this Standard Six Coach.

What does it mean to you?

To you, as an automobile buyer, this means:

1. A Lower Price.
2. A Better Car.

A LOWER PRICE, because Studebaker does not need to pile its profit upon the profits of outside parts manufacturers and body builders.

A BETTER CAR, because it is a thoroughly coordinated, harmonious unit. Every part designed,

engineered and manufactured under one management, to work more efficiently with every other part.

A better car because Studebaker can afford to use finer upholstery, better steel, higher grades of lumber, more painstaking workmanship in hundreds of unseen places.

Scores of thousands of miles of excess transportation are built into every Studebaker. When the car which looked like an equal value while it was new, is breaking up, the Studebaker is breaking in.

That is why in Arizona—out where desert heat and rugged mountain trails test automobiles to the utmost—Studebaker sells double its normal proportion of cars. Every county in Arizona which has bought an automobile for its sheriff has bought a Studebaker.

This coach is not a one year car

As a splendid example of the facts stated above, we offer the Standard Six Coach. To appreciate this car you must see it and ride in it. We urge you to do so immediately. It is called a coach, but is in reality a roomy five-passenger coupe.

It is a car that will give you faithful economical service. It is built to yield dependable, comfortable transportation for years and years.

Buy now—no more "yearly models"

This is the time of the year when men have hesitated to purchase an automobile, fearing that the car they bought in July would be made obsolete artificially by the announcement of new yearly models in August or September. Studebaker has discontinued the custom of presenting yearly models. Instead, Studebakers will be kept up to the minute in body styles and chassis design regardless of the calendar.

Come in NOW—and see this sturdy, dependable, one-profit Coach.

\$541 Down

And the balance in 12 monthly payments of \$98.00. Come in and see how easy it is to buy this Standard Six coach on our liberal budget payment plan.

LEE IS BACK FROM A 2,000 MILE AUTO TRIP

Crop Diversification Program Met With Hearty Reception by the Many People Who Heard Him At Every Stop

President R. Q. Lee of the West Texas chamber of commerce, returned home Friday from his last stop at Abilene of the 2,000 mile auto trip in a swing through West Texas and the panhandle, which was made on a program of more intensive farming and better production. Accompanied by Mrs. Lee, Porter Whaley and E. H. Whitehead the party visited most of the towns in the section covered, at each place President Lee proclaimed his program of better crops on fewer acres by more intensive cultivation, and individual irrigation.

Seen at his office after his return Saturday, President Lee stated: "We had a wonderful two weeks trip, and I had an opportunity of observing agricultural conditions in Texas more closely than I have ever done. We saw some wonderful country and outstanding farms, and in some instances farms that demonstrated the principles I have been preaching. We saw in places some of the best cultivated farms where splendid crops were growing, and right across the road, on land equally as good, crops were practically failures. The difference was in cultivation.

"While in Snyder I met Giles Garner, an old friend and scientific farmer. Garner, by intensive cultivation, produced in 1924 eighty-six bushels of wheat per acre. This was done on land infested with Johnson grass. He told me that he broke his land several times before seeding, and it was in a perfect state of preparation.

"We found all over West Texas the farmers were cultivating entirely too much land, and so far as I could ascertain the program of diversification was almost unanimously endorsed. At Hereford we had a very attentive audience, especially, as it was largely composed of farmers, and at Tulia, Lubbock and Slaton many county and industrial agents were in the audiences, and these seemed to be especially impressed. Some of those who heard the program discussed stated that the ideas advanced would be more popular as time passed, and in ten years the plans I advocated would come into general use in many sections. Many of the merchants and bankers especially endorsed the program, and pledged themselves to aid in promulgating the ideas advanced, agreeing with me that the one crop idea was ruinous. One banker stated that he had refused to make a small loan on ample security to a farmer until he had agreed to plant more feed and less cotton than his farm program called for. Only two men expressed opposition to my statement that a sixteen million bale crop would break the market. One of these was a cotton factory man.

"All towns we visited were members of the West Texas chamber of commerce except Clovis, New Mex., and we were most hospitably received in every place we stopped. I enjoyed the trip more than any I have made in a long time. We had the novel experience of sleeping under blankets, and having fires last Sunday while in the White mountains. We spent the night at the foot of Old Baldy, and some of the party complained of being too cold.

"I was most favorably impressed with West Texas and the panhandle, but this favorable impression is not disparaging to our own section."

When asked if he had matured anything as a follow-up of this tour Mr. Lee stated: "I have matured nothing in that nature, but will give the matter some thought after my return home from Washington, where I will go Sunday week in the interest of the Breckenridge terminal cases pending before the Interstate Commerce Commission in which the Cisco & Northeastern is interested. The fact is the enthusiasm that greeted our party, and the hearty endorsement of the agricultural program outlined, was so much greater than I anticipated, that it will require some thought to mature a program appropriate as a follow-up of the tour we have just made. I am really digesting the results already obtained, for I really believe we have done much to cause the people to stop and think, which will be beneficial to this entire section."

Mr. Lee, accompanied by his son, Stein Lee, will leave today for Plainview to attend the railroad hearing of the Interstate Commerce Commission as an observer, and in his official capacity of president of the West Texas chamber of commerce. "I believe this meeting will mean much to this section of Texas," Mr. Lee stated, "as there has not been a time in twenty years when there was such prospects for road building in this part of the state."

CHURCHES

First Baptist

Rev. Atticus Webb will speak at morning service at 11 o'clock. Rev. Webb is the superintendent of the Anti-Saloon league of Texas and editor of Home and State. His subject will be: "The Unfinished Task." Surely those of us who see the law despised and trodden upon every day by those forces which foster the liquor business will give Mr. Webb their earnest and moral support by their presence. The pastor will be in the meeting at Romney in the morning. At the evening service the pastor will preach. All BYPU's meet promptly at 7 p. m. The mid-week service Wednesday evening at 8:15. Study Acts 15 and bring your Bibles. Sunday school in all classes and departments at 9:45. There is a class for every one; find your place and step right in—this is your invitation. Every Baptist get in step; we are going forward together. Take up, catch up, and keep up.—Acker C. Miller, Telephone 572-R.

Catholic

Twelfth street and F Avenue. Mass at 8 a. m. with sermon taken from the Gospel of the 7th Sunday after Pentecost. Benediction of the Blessed Sacrament immediately after Mass. Catechism and Bible instructions at 9:30.—Rev. R. A. Gerkin, Pastor.

Grace Lutheran

Sunday school at 9:00 a. m.; morning services at 10:30; evening services at 8:00 o'clock. The topic of the morning service will be "Christ's explanation of the commandment: 'Thou shalt not kill,' and for the evening 'What does the scripture teach concerning God?' Everybody is heartily welcome.—H. F. Peiman, Pastor.

Episcopal

Church of Our Savior, 404 West Seventh street. Rector Frank H. Stecman. Services for the sixth Sunday after Trinity. 10 a. m. church school; 11 a. m. services. All are always welcome.

First Methodist

Sunday school at 9:45 a. m.; preaching at 11 a. m. by the pastor; Young People at 7:30 p. m. Preaching at 8:15 p. m. by Rev. Atticus Webb, subject, "The Unfinished Task." This message will deal with the general breakdown of law enforcement, and the remedy. Brother Webb is perhaps the best informed

man in Texas on matters covered by this subject. I trust we may have a large congregation to hear him. We ought not to have anything in the way on Sunday to keep us from going to church. You will receive a cordial welcome to all these services.—T. E. Bowman.

Christian Science

Services this evening at 8 o'clock. Sunday school at 7 p. m.; mid-week services Wednesday evening at 8 o'clock. Subject today: "Life." All are invited to attend these services. Visitors and strangers in the city are cordially welcomed.

Church of Christ

Elder E. A. Bedichek of Abilene, who has had thirty-two years in the ministry, an having held revivals in the principal cities in the north central and western part of the United States, and under whose ministry ap-

proximately eight hundred have been taken into the church, will preach at the Church of Christ this morning at 11 o'clock.

Christian Endeavor

The following program will be presented at the First Christian church this evening at 8:15: Song service, led by the Endeavorers; prayer, led by attending minister; expository talk, C. E. president; scripture lesson Rom. 12, Mrs. Ray Godfrey; talk, outline of C. E. establishment, Miss Tommie Ford; reading, selected, Miss Theresa Weddington; talk, C. E.'s contribution to foreign missions, Miss Ruby Payne; song, selected; talk, C. E.'s contribution to home youth strength, Sylvia Lee; piano solo, selected, Mr. Columbia; talk, general of C. E. accomplishments, Wendell Tarr; song, selected; Mizpah, C. E. members.

FORD COMPANY JUNE SALES IS A NEW RECORD

DALLAS, July 18.—A new June sales record was established by the Ford Motor company during the month just passed, when approximately 6,000 more Ford cars and trucks were delivered to retail customers in the United States than during the same month a year ago, which held the previous high mark for June. Reports indicate a continued large volume of business through the summer months with a higher buying level than is usual during this season of the year. The outlook is for another record breaking month for July. Urgent requests for additional shipments have made necessary increasing the company's July production schedule, which now calls for several thousand more cars and trucks than were produced in June. Sales figures just given out by the company show that the total sales for June were 195,300 Ford cars and trucks. Of this number, 176,256 represent domestic sales, as compared with 170,547 cars and trucks sold in June a year ago. Buying conditions also continue good in the high priced car market. Evidence of this appears in the sales of Lincoln cars during June, with deliveries to domestic customers totaling 892, an increase of 95 over June a year ago.

Happiness, Comfort for Your Family is The Savings Book Goal

It is no sacrifice to save when you get a true vision of what it means for the future. After the starting of your account the rest will be easy. You are charged with the responsibility of your future support and that of your family. Why not provide it today in an account started here?

ARE YOU WORKING For your husband's second wife?

This is a rather blunt way of putting it, nevertheless, that is what you are doing if you are still trying to wash the family clothes in the old way—breaking your back over the rub board and wash tub. The bloom of the cheeks that your young looking and well cared for husband admired so much before you were married, will soon fade and he will live to bring in another bride to take your place if you do not change.

Why Does Husband Look Young?

Because he is modern enough to install every known modern equipment that will facilitate his tasks and remove the drudgery from the daily routine. He finds it pays. You have a false sense of economy and think that you are helping him save by toiling each week with the family wash.

You May Look Young and Still Help Husband

Buy a FEDERAL ELECTRIC WASHER for a few dollars down and the balance in small easy payments. It will clean your clothes all white and nice—will not tear them—and all you do is direct the machinery. That's the way husband does. It is interesting and far from drudgery. It is rather a pleasure to play with the big, beautiful piece of machinery and make it do your will.

Bridge Party

Miss Helen Anderson of El Paso was the honor guest at a bridge party given by Miss Bernie Chesley Thursday afternoon. Honoring the occasion, the Chesley home was decorated with pot plants and daisies. Victrola music was enjoyed while the bridge games were in progress. At the close of the afternoon a delicious salad course was served and the honoree was presented with a dainty vanity. The guest list included Miss Helen Anderson of El Paso, Julia Shepherd, Cano Morris of Fort Worth, Olga Beard, Catherine Cunningham, Gwendolyn Clements, Linouise Campbell, Roberta Moss, Marie Winston, Robbie Craighead, Mary McGinnis, Edna Mae Westfeldt, Avalon Nabors and Flora Mae Stockard.

Morning Party

Friday morning Mrs. A. E. Willig entertained a number of her friends at her home on West Fifth street. The cool porch, decorated with a variety of summer flowers, furnished an ideal place for an hour of bridge. Mrs. J. L. McMurray was the winner of the high score prize, and Mrs. Carl Patton received the consolation prize. Terminating the bridge games, refreshments were served to Mesdames Jack Kelly, Leonard Simon, W. K. Esgen, Jack Hazelton, Carl Patton, J. L. McMurray, T. C. Griesbeck of San Antonio, F. H. Stedman, E. P. Crawford, Frank Logan, Miss Cano Morris of Fort Worth.

Bridge Party

Complimenting Mesdames J. S. Glass and J. H. Underwood of Wichita Falls, and Mrs. T. C. Griesbeck of San Antonio, Mrs. J. L. McMurray entertained with a bridge party at the Country club Tuesday afternoon. Numerous vases of zenias in effective arrangement were placed about the room. Following the usual number of bridge games, Mrs. Austin Fures of Eastland was presented with the high score prize, which was a marble statue. Mesdames Underwood and Glass each received a bottle of perfume and Mrs. Griesbeck a floral door knocker. The refreshments consisted of strawberry ice cream, molded in the shape of a rose, individual angel food cakes, embossed with pink roses and green foliage, and pink and green mints. Among those enjoying this delightful hospitality were Mesdames T. C. Griesbeck of San Antonio, J. H. Underwood and J. S. Glass of Wichita Falls, Austin Fures of Eastland, Jean Medecaris of Abilene, Barlow Winston of Panama, Jack Hazelton, W. K. Esgen, H. S. Drumwright, Will St. John, W. W. Wallace, Winnie Gray, Charley Renaud, Charley Gray, W. E. Spencer, Ray Vaughan, N. F. Payne, F. A. Blankenbecker, Don Sivals, Guy Dabney, E. L. Graham, A. C. Green, R. W. Mancill, Charles Yates, G. C. Richardson, Jack Kelly, Henry Benham, Leonard Simon, Carl Patton, C. A. Whitfield, A. E. Willig, Paul Woods, Emmons Bahan, Emma Butler, Ray Yancey, O. T. Maxwell, Misses Ruth and Bess Maxwell, Helen and Ruth Williamson, Titia Bell and Elizabeth Simmons, Addie Fee, Katherine Pettit, Ester Hale and Mary Elizabeth O'Flaherty.

County Epworth League

The meeting of the County Epworth League union, which was held in Eastland Friday night, was attended by quite a number of Cisco members. A large crowd of Eastland, Ranger and Desdemona boosters were also present and joined in the song service. During a short business meeting Miss Eileen Wilson of Cisco was elected secretary. The union voted to accept the invitation, extended by the Cisco League members, to meet in Cisco August 14. A social hour followed the business meeting and games were played until a late hour. Refreshments of punch and cake were served. Among those from Cisco attending were: Rev. and Mrs. T. E. Bowman, Mesdames Neal Turner, H. O. Hawkins, John Clark, Misses Mary Bowman, Bessie Olson, and guest, Edith Green of Abilene, Eileen Wilson, Edith Turner, Louise Clark and Messrs. Mal and Price Rumph and Marvin Boyd.

Reception

Complimenting Mrs. Barlow Winston of Panama, and Miss Sara Taylor of Hamilton, Mrs. C. C. Jones entertained on Wednesday afternoon from 4 until 7 o'clock with a reception at the Country club. The spacious hall looked unusually invit-

ing in its decorations of tall jardinières and vases filled with roses and ferns. The list of invited guests numbered one hundred and thirty-five. Assisting Mrs. Jones in receiving and entertaining these were her honor guests, Mrs. Barlow Winston and Miss Sara Taylor, also Mesdames Rescoe St. John, Belle Stamps, Will St. John, N. F. Payne, Charlie Davis, Bob Mancill and Alfred Erby. Mrs. W. J. Foxworth presided at the punch table, where delicious punch was served throughout the afternoon. Ice cream molded in the shape of roses and individual angel food cakes were served by Misses Ester Hale and Helen Williamson. Daisies were given as favors.

Humble Bridge Club

Mrs. W. W. Wallace was hostess to the Humble Bridge club Friday afternoon. Four tables were arranged in the living and dining rooms, where a series of interesting games were played, with Mrs. G. M. Simpson winning high score. After the final game refreshments of punch and cake were served. At the close of the social hour the members held a business meeting to elect new officers. They also decided to discontinue the regular club meetings until September. The new officers elected are: Mrs. G. M. Simpson, president; Mrs. W. K. Esgen, secretary; and Mrs. W. W. Wallace, reporter. Members and guests present were: Mesdames J. R. Almond, G. M. Simpson, S. L. Mullinix, T. R. Hanrahan, W. K. Esgen, Jack Hazelton, C. C. Moore, Guy Griggs, M. McGannon, Leo Halliburton, R. E. Bridges, Reggie Henderson, W. J. Armstrong, I. J. Jensen, O. C. Cope and Miss Mayme Davis.

Birthday Party

Miss Mary Ann Simon, winsome little daughter of Mr. and Mrs. Leonard Simon, celebrated her second birthday anniversary Tuesday morning with a party at the home of her parents. Many old fashioned games were played and the little guests enjoyed fishing in an improvised pond for chewing gum and candy. During the morning a number of group kodak pictures were taken. At 11:30 o'clock the guests were invited into the dining room. Holding central position on the dining table was the large white birthday cake, surmounted by two tiny pink candles, one for each happy year. Delicious homemade ice cream and generous slices of the birthday cake were served each guest. Those present were: Mary Louise Poe, Charles Yates, Jr., June Davis, Mary Frances Keough, Bill Bahan, Jack Lauderdale, Jack Hale, Jr., Buddie Riddle, Harriette Angus, Dorothy Flynn, Leila Mae White, Quincy Lee, Clyde Sandidge of Fort Worth and Julia Lee Simon.

Mr. and Mrs. W. W. Wallace and children and H. L. Edwards of Houston are leaving tomorrow for a visit in Colorado Springs and other points in Colorado.

Mrs. J. C. Dyer and son, J. C. Jr., and Mrs. J. K. Bowne of Pueblo, who have been visiting Mrs. Homer McDonald, left last week for a month's visit in Arizona.

Miss Helen Anderson of El Paso is the guest of Judge and Mrs. L. H. McCrea.

Mrs. J. J. Winston and guest, Mrs. Barlow Winston of Panama, are spending the week end with relatives in Fort Worth.

Mr. and Mrs. R. Q. Lee, Mrs. Annie Carradine of Memphis, Tenn., and Miss Harriette Sandidge of Fort Worth left this morning to spend a few days at the Baptist encampment at Lueders.

Miss Sara Taylor of Hamilton, who has been visiting her sister, Mrs. Everett Davis, left yesterday for a week end visit in Waco.

Mrs. W. L. Harrell and son, G. E. Berry of Brownwood, left Tuesday

by motor for El Paso. Mr. and Mrs. Berry, former residents of Cisco, who have made their home in Brownwood for the past four years, will remain in El Paso. Mrs. Harrell will visit her son, John Harrell, in New Mexico before returning home.

Mrs. Opal Kelly has returned from a short visit in Fort Worth.

Coach W. B. Chapman has returned from a visit with friends at Eden, Texas.

Mr. and Mrs. C. C. Sellers and daughters of Abilene are spending today in Cisco as the guests of Mr. and Mrs. P. W. Campbell.

Marsene Fowler of Grand Prairie arrived in Cisco yesterday for an extended visit with his aunt, Mrs. C. C. Cole.

Mr. and Mrs. N. J. Winn and children returned yesterday from a visit in Dallas.

W. J. Holt of Shady Grove was in the city on business Saturday.

W. C. Foreman of Fort Worth is spending a few days in the city with his sister, Mrs. Lula Paschall.

Mrs. G. M. Simpson and daughter, Myrtle Augusta, have returned from a visit with friends in Breckenridge.

Mrs. Austin Fures of Eastland visited friends in the city Tuesday.

Mr. and Mrs. Bob Winston, Mr. and Mrs. Jack Winston, Mr. and Mrs. Henry Dods of Breckenridge and Mr. and Mrs. O. C. Miller of Rush Springs, Okla., have returned from a fishing trip at the Clear Fork near Albany.

Phil Berry of Colorado City is spending the week end in the city with his parents, Mr. and Mrs. J. T. Berry.

Mr. and Mrs. G. E. Drewery and George, Jr., of Dallas, stopped over in Cisco with Mr. and Mrs. J. T. Anderson and Mr. and Mrs. W. J. Foxworth for the week end as they were enroute home from a month's stay in California and other points of interest.

Miss Leonora Payne and daughter, Miss Ruby, departed Saturday for Sweetwater, where they will join Mrs. Payne's brother-in-law and wife, and her daughter, Miss Lillian, who is already at Sweetwater, for a two weeks' trip to Fort Collins.

H. E. Brown of Bowie, is here visiting his daughter, Mrs. C. K. Hammers. The little daughter of Mr. and Mrs. Hammers is spending a part of her vacation at the home of Mrs. T. W. Tomme at Brownwood.

MRS. ROEHSLER and DR. INGRAHAM

Charging that his home was broken up when his wife fell a victim to the wiles of Dr. George Inghram (above), former Iowa University football star George Roehsler, a Milwaukee carpenter, filed suit against the doctor, asking \$50,000 damages. The couple denied the charges.

And Now NEW FALL SHOES!

We've never been so enthusiastic about shoes before. Such grace of line—such beautiful leathers—such fine craftsmanship we've never before been able to find. You'll be delighted, too, when you see these new fall shoes. Three models by this designer will be on display Monday.

Adlon (Illustrated)—A superb design with graceful high heel and high, slender ankle piece which gives it the appearance of a custom made shoe. In an unusual combination of bronze kid vamp and bronze patent quarter.

\$10.85

Larchwood—with a tilted block heel, wide ankle strap with side buckle. Of black patent with strap of biege calf. A very smart shoe for street wear.

\$9.85

Rossonia—A distinctly different combination of ivory kid quarter and the new Indian Tan kid vamp. With a slender medium high heel.

\$9.85

See these shoes in our window.
