NUMBER 84

## Liquidation of Cisco State Bank Announced

### Through the Editor's Spectacles

By GEORGE

An episode of first aid treatment in an emergency at Camp Billy Gibbons last month proves the practical value of Boy Scout training. Without doubt a Howard Payne college professor with an inquisitive flair for reptiles, owes his life to the knowledge and quick action of a group of scouts at the camp. The scientist, Dr. O. E. Winebrenner, was bitten on the index finger by a copperhead he had found. The savant had seized the snake, holding it by the throat in the approved, scientific manner, when his attention was distracted and his grip upon the reptile momentarily relaxed. Quick as a flash a fang ripped his finger.

The boys went into action at once, and by quick and expert first aid treatment of the wound and a coolness of mind that would do credit to an operating room, they prevented the venom from spreading while a doctor hastened from Brownwood.

The physician found little that he needed to do upon arrival, and he praised the skill and quick action of the boys. The professor, incidentally, was little the worse for his experience by nightfall. I venture he learned something really first-hand about copperhead snakes.

Comes from Fort Worth to me a letter from Boyce House, former Cisco editor, Eastland editor, Ranger editor and correspondent for the Fort Worth Record in its Hearst days and now a Star-Telegram staff man. In the letter is a chance picture of ourselves, very much interested in something Boyce was relating when a Renfro cameraman caught us in the act on a Fort Worth street. Pictures of ourselves when we are not expecting them are usually interesting. We get a glimpse of what Bobby Burns played for before the camera was invented.

Boyce, by the way, is the author of a book "Were You in Ranger?" just coming off the Tardy Publishing company press at Dallas. The book is the oil story of Breckenridge, Cisco, Desdemona, Eastland and Ranger, and written in House's inimitable style and from his intimate knowledge of the facts and fictions of that never-another-like-it boom, its chapters are deeply interesting to any who were in Ranger and absorbing for those who never experienced the peculiar American institution of an oil boom.

Among the chapters are: "Oil!"; "The Cemetery That Was Not for Sale"; "Hell at Hogtown"; "Rainbow's End"; "Racing Rails"; "With Their Boots on", etc. The book will sell for \$2 a copy.

### Wife Beating Affray Charge Draws Fine

Prince Bradley, colored, paid a fine in corporation court today when found guilty of a charge of affray growing out of an alleged wife-beating episode. Bradley's wife was the complaining witness.

Mrs. Oliver Allen of Temple, is a guest in the home of her brother, Dr. N. A. Brown.

### New Seasonal High For Hogs on Hoof

CHICAGO, Aug. (AP)—Hog on hoof prices hit a new seasonal high on the livestock market today. \$11.35 per hundredweight was being paid for prime medium weights.

### Weather

West Texas—Probably showers in extreme west tonight and Tuesday. Slightly cooler in the panhandle section Tuesday.  
East Texas—Partly cloudy tonight and Tuesday.

### ROOSEVELT'S TAX MEASURE PASSES HOUSE

#### Bitter Controversy in Senate and Many Changes Expected

WASHINGTON, D. C., Aug. 5. (AP)—The administration's tax bill, estimated to raise between \$250,000,000 and \$270,000,000 in additional revenue, passed the house today, 282 to 96, and was sent to the senate. A bitter controversy in that branch appeared certain before the measure, upon which the time of congressional adjournment depends, can be voted on.  
The action came after a republican attempt to pigeonhole the bill in the ways and means committee was defeated. Chairman Harrison of the senate finance committee hopes to complete hearings Wednesday and report the bill out this week. Floor consideration will probably be delayed until next week. It is likely that the finance committee will make many changes in the measure.

### Moderate Gain in Stock Shipments To Fort Worth

AUSTIN.—A moderate increase was recorded in livestock shipments from Texas to Fort Worth stockyards and interstate points during June as compared with the similar month last year, the University of Texas bureau of business research said in its monthly report on the livestock trade. Forwardings totaled 4,465 cars against 4,182 cars a year ago, an increase of 7 per cent.

"The greatest increase occurred in shipments of sheep, 586 cars against 449 cars last year, an increase of 30 per cent; followed by cattle, 3,197 against 2,861 cars, up 12 per cent. Shipments of calves totaled 507 against 505 cars, practically no change. Hog forwardings dropped 52 per cent from 367 cars a year ago to 175 in June of the current year. Aggregate forwardings during the first half of 1935 were 29,473 cars against 28,255 cars during the corresponding period last year.

"Shipments to the Fort Worth market were characterized by a sharp drop in the number of hogs and an equally marked rise in the number of sheep. Los Angeles received about one third as many Texas cattle and hogs as in June last year, while a sharp increase occurred in shipments of cattle and no forwardings whatever of sheep were made to points in California other than Los Angeles, just the reverse of a year ago. Substantial increases occurred also in shipments of cattle—other than the large markets—to Colorado, Illinois, Kansas, Oklahoma, Iowa, Indiana and New Mexico, and of sheep to Colorado, Kansas, Missouri and Indiana.

"Districts of the state showing substantial increases in forwardings of cattle in comparison with June of last year were; east Texas, Trans Pecos country, south Texas and the coastal prairies."

### Ciscoans Asked to Accompany Band

The Cisco Lobo band under direction of Dir. R. L. Maddox, will go to DeLeon Wednesday morning to participate in the parade and festivities incident on the annual Melon-Peach carnival there, Sec'y of the Chamber of Commerce, J. E. Spencer announced.

Spencer urged as many Cisco people as possible to accompany the band.  
He said it was planned to reach DeLeon at 10 a. m. in time for the address of Harry Hines, state highway commission chairman, at 11 o'clock.

Mrs. W. R. Simmons and Miss Titia Belle Simmons have returned home from a week-end visit in Dallas.

### He Can't Take It!

Advertising salesmen of the Ranger Times and Eastland Daily Telegram have been temporarily transferred to Cisco in an attempt to high-pressure the business men of this city into taking advertisements in a special edition of the competing newspaper, we are reliably informed.

We are reliably informed that the August 4 edition of the Cisco Daily Press is being used as a chart by these imported salesmen in their campaign to high pressure an advertisement out of every merchant who placed an advertisement with us. Now, we have no criticism of any merchant who wishes to place advertisements with the competing paper, and we shall be the last to raise a voice against that right. But we certainly do protest against a practice of trying to overpower advertising out of a business man simply because he placed an advertisement with another paper. The Cisco Daily Press had excellent reason to issue a special. It was bringing out its first edition. We are proud of the edition and thankful for the support it received. But we have never used an edition of the competing paper in an effort to force advertisers therein to advertise with us, and we regret and resent the use of our own efforts for the oppression of our advertisers at the hands of Eastland and Ranger high pressure men sent here by Walter Murray, of Mineral Wells and Ranger, in his admitted attempt to run the Cisco Daily Press out of town. If he is going to issue a special edition why does he not give the merchants a breathing spell? It is an imposition to ask them to support two big editions in one month, besides their regular advertising.

The Cisco Daily Press did not use outside men to sell its edition. We did it with our own men. The competing paper has as large an advertising force as we, and the motive of Mr. Murray in transferring these men here for this edition is all too plain. He is determined to intimidate the business men of Cisco who would place advertising with this paper. He can't take competition.

### Move to Transfer Rural Students in Is Approved

Cisco business men, representing the chamber of commerce, Cisco Boosters and the Lions and Rotary club today noon gave unanimous approval to the program of the Cisco public schools for bringing in students of outlying school districts for high school purposes.

Supt. R. N. Cluck presented the matter to the group, with two members of the school board—President R. L. Ponsler and Mrs. P. R. Warwick—present, before the board acts formally upon the program tonight.

He explained that negotiations have been completed for operating two school buses on as many routes to serve the following schools:  
Group 1—Shady Grove, Pleasant Hill, Grapevine and Central.  
Group 2—Reich, Friendship, Bluff Branch and Cottonwood.

Only students above the seventh grade would be transferred, he explained, so that there is no danger of crowding the lower grades in the Cisco schools, while the high school has plenty of room and faculty to handle the increase without inconvenience. He estimated that about 50 pupils other than would normally come to Cisco would be added to the local system by putting on the two buses. From a purely business standpoint, the business men asserted that this service to these outlying districts is commendable even if it must be maintained at a loss.

Resolutions commending the board and superintendent for their work in this project, were unanimously passed.

The eight districts, Mr. Cluck said, have this year a total of 361 scholastics. He estimated that normally there are about 70 students transferred from the districts into the Cisco district.

The group also unanimously approved a proposition of Dr. Hubert Seale's to the effect that effort be made to prevail on the state park board to erect a large auditorium on city land adjoining the state park. The air port, he pointed out, adjoins the park tract of over 500 acres and is within easy walking distance of Cisco.

The state customarily builds a large assembly building in state parks, he said, and he felt sure that with the proper approach, the board could be induced to construct a large auditorium on the site convenient both to the park and the city.  
Possibility that the area be developed into a stock ground with stock barns, etc., was also seen.  
A map of the park area, showing the relationship of the airport to the site, was exhibited.

Mr. Ponsler told the group, with reference to the school grouping proposal, that it is the opinion

### Dallas Man Split In Halves by Train

DALLAS, Aug. 5.—An attempt to ride on a moving switch engine Sunday morning on Central near San Jacinto ended fatally for Joe Thompson, 32, of 3209 Colby, when he slipped and fell beneath the wheels of the train.

Thompson's body was halved lengthwise and he died instantly. His body was taken in charge by Black & Clark, undertakers for Negroes. Judge Ben Fly held an inquest and returned a verdict of accidental death.

The switch engine was pushing one boxcar and pulling two others. Witnesses told investigating officers that Thompson attempted to hang the engine tender and fell. Wheels of the boxcar passed over his body.

### Texas Is Given Soil Erosion Fund

WASHINGTON, Aug. 5. (AP).—Texas and Oklahoma dipped deeply today into a \$27,500,000 fund allocated by President Roosevelt for soil erosion control.

H. H. Bennett, chief of the soil conservation service, announced \$1,725,375 had been allocated to Texas for 10 new erosion control demonstration projects and continuation of three existing projects, while Oklahoma received \$1,029,737 for seven new projects and continuation of two existing projects.

The 10 new Texas projects announced by Bennett, with the approval of Secretary of Agriculture Wallace, will be located in Caldwell, Hays, Dallas, Titus, Nacogdoches, Erath, Tom Green and Coke, Oldham, Deaf Smith, Hartley and Sherman counties. Those to be continued are in Bell, McLennan, Milan, Smith and Dallam counties.

### 30 Reported Killed In Cretan Revolt

ATHENS, Greece, Aug. 5. (AP)—Thirty persons, including five policemen, are reported to have been wounded today as a rebellion broke out in Candia, Crete. Martial law has been declared and the government has dispatched two destroyers and soldiers to restore order.

### Arizona Publisher Dies of Pneumonia

TUCSON, Ariz., Aug. 5. (AP)—Frank Harrison Hitchcock, publisher of the Tucson Daily Citizen and former postmaster general, died here today of pneumonia.

### DRUMWRIGHT FINDS EAST OPTIMISTIC

#### Recovery Seems Assured, Cisco Merchant Says

Henry Drumwright, manager of John H. Garner's department store, returned from a two-week buying trip in New York and St. Louis Sunday afternoon to report the most enthusiastic market since the depression.

"Everywhere you go," he said, "the retail trade is buying and manufacturers declare they are doing all they can do. It's like going into a new world to go there, to see the enthusiasm that those manufacturers have. They think that better times are coming back as fast as they can, and that unless something unforeseen, like a bad political situation, interrupts, the movement, business this fall will be the best since 1929."

**FDR Still the Power**  
Politically speaking, Mr. Drumwright said, Roosevelt is still the power in the east. Severely criticized by republican journals, the individual is still for him, he said.

A willingness to gamble on new ideas and a radical change in styles distinguish the markets this year, Mr. Drumwright said. He found a great variety of styles decidedly different. Instead of the plain, everyday styles that were the rule during the depression years, he found the sample rooms and salons crowded with sports models designed with lots of snap, and lots of color as well as the smartly tailored ready-to-wear which is always modified with dignity. Ordinarily fall designs feature navy

(CONTINUED ON PAGE 8)

### Zenge Charged By Warrant In Bauer Slaying

CHICAGO, Aug. 5. (AP)—Judge Justin F. McCarthy in felony court today issued a warrant charging Manderville E. Zenge, 25, with the manslaughter slaying of Dr. Walter J. Bauer. McCarthy made the warrant returnable tomorrow. Charles S. Dougherty, assistant states attorney, said he would go before the grand jury tomorrow and ask that a murder indictment be returned against Zenge.

### NRS Labor Clearance Agency for Works

EASTLAND.—The National Reemployment service will be the clearance agency for labor in the Works Progress and Public Works administration programs, Crigler Paschall assistant district manager, was told at a meeting in Abilene.

Representatives in west Texas of the National Reemployment service were told of procedure to be followed in WPA work.  
The service will be directly responsible for the qualification and selection of all workers on WPA and PWA projects.

Mr. Paschall stated Saturday that workers of every classification are shown on registration rolls of the NRS in this county. For any project approval in the government agencies, the office will be able to supply the workers needed.

His office is assuming a more important role than that before, Mr. Paschall stated. Under the United States Department of Labor, the office until recently only placed workers in private channels and government buildings. Now with its part in the WPA and PWA programs it is assuming an important function, Paschall indicated.

### Mrs. Moldave Goes To Dallas Market

Mrs. I. Moldave left today for the Dallas markets to purchase fall stocks for the Boston store. In Dallas she will attend the fall style show.

### Driver of Death Truck Is Arrested

NACOGDOCHES, Aug. 5. (AP)—J. C. Forney, 25, negro driver of a truck which killed four persons in New Hope community here last night, has been arrested today and taken to an unannounced jail. Feeling, running high after the tragedy, subsided partly today. After the collision the negro went to his home on the farm of former Rep. Phil Sanders, who turned him over to the officers. The negro's two companions were not jailed.

### Discount Rates on Warrants Are Unusually Low

AUSTIN, Aug. 5. (AP).—Altogether the state's general revenue fund is more than \$5,000,000 in the red and official estimates of income are not encouraging, state employees are enjoying the lowest discount rates on state warrants in months.

The current discount rate of one per cent compared to the one per cent during time of depression prospects were better than at present. "Money" war between who had idle funds.

Employees receiving their warrants in general banks in the smaller towns adjacent to Austin have representatives who call regularly at state departments. They carry little black bags filled with cash and all the employee has to do is sign the warrant and take the money—less the one per cent.

One dealer in warrants constructed a small office building in the rear of the capitol to facilitate the business.

Employees are gratified at the happy turn of events but are wondering how long their good fortune will last, especially in view of the recent statement of the automatic tax board when it set the state tax rate. The general revenue fund deficit at the end of the next fiscal year was calculated at a few thousands short of \$13,000,000.

### McCann Death Decree Is Changed to Life

AUSTIN, Aug. 5. (AP)—Gov. Allred today commuted to life imprisonment the death sentence of Hugh McCann, convicted of the slaying of Lillian Davis on September 19, last, at Temple. The governor said the record showed that McCann was under the influence of intoxicants or drugs at the time of the slaying.

### 34-Year-Old Man Is Arrested As Dentist Slayer

KANSAS CITY, Aug. 5. (AP)—Officers today arrested Clarence Edwards, 4 years of age, as the slayer of Dr. Paul Rodgers, 35, dentist, and quoted him as saying "I stomped him because he hit me." Rodgers' brutally trampled body was found on a lonely roadside in the Missouri river bottoms near here Sunday. "We have admission of guilt," Police Captain Stanley Beatty said.

Dr. Rodgers' body, the chest crushed and the head and face bruised, was discovered by Herbert Harris, a negro farmer.

Harris' wife told officers she was preparing breakfast at 7:30 a. m. when she saw a man tramping up and down by a motor car parked at the roadside near the Harris home.

The man continued his strange actions, she told officers, for approximately half an hour. She called her husband's attention to him and Harris walked toward the scene. He said the man fled through an adjacent corn field as he approached him.

Harris found the dentist's body lying at the roadside. He notified the sheriff's office.

### EXPECTED HOME

Mr. and Mrs. E. P. Crawford and daughter, Miss Helen, are expected to return tonight from a two weeks visit in Ashville, N. C., and other places in the east.

### DEPOSITS ARE TRANSFERRED TO 1ST NAT'L

#### Voluntary Action Is Taken After Year of Operation

Liquidation of the Cisco State bank, with deposit in the First National bank of an amount of cash equal to its deposits, was under way Monday.

Announcement of the transaction was made in the following statement:

"The Cisco State bank has deposited with First National bank in Cisco an amount in cash equal to its deposits and will liquidate its affairs. All of its depositors are requested to call at First National bank in Cisco at once and sign for the amount of their deposit when same will be credited to their account in First National bank. The cash paid

"Mr. J. D. Lauderdale will be employed by First National bank in Cisco where he will be glad to meet and serve all of his old friends and customers of both banks."

**Voluntary**  
The action was taken voluntarily by the Cisco State bank, owing to the desire of J. H. Reynolds, its president and principal owner of its stock, to withdraw from the banking field. Mr. Reynolds is an oil operator.

"I am not a banker," he said. "I did not think at the time the bank was organized, and I am convinced now, that there is not enough room for two banks in Cisco. Because of the present policies and activities of the government lending agencies, most of the collateral available to banks for loans is already mortgaged to the government, and banks have no business with second liens. Nine out of every ten farmers and ranchers owe money to the government."

"I think that the town will be better off with one strong bank than it would be with two sharing the field. I think the First National bank is thoroughly capable and able to take care of the needs of the community."

**Very Liquid Condition**  
The Cisco State bank, President Alex Spears of the First National said, was in a very liquid condition. He expressed the First National's pleasure at the opportunity to cooperate with and serve the depositors of the liquidating institution. "We shall make a special effort," he said, "to serve them in every way possible."

The Cisco State bank was opened for business in the old Cisco Banking Co., building on July 16, 1934. Officers were Mr. Reynolds; Guy Dabney, executive vice president; F. D. Wright, vice president; J. D. Lauderdale, cashier and Tom D. Stark, assistant cashier. L. L. Keough was director in addition to Mr. Reynolds, Mr. Dabney, Mr. Wright and Mr. Lauderdale. Miss Ester Hale was stenographer.

It was organized with a capital of \$50,000 and surplus of \$10,000. A statement of the condition of the Cisco State bank on August 3 was published today by Cashier Lauderdale. It appears in this issue of the Cisco Daily Press.

### Classified Ads

FOR RENT — Newly decorated furnished duplex, 901 West 10th street.

THE CISCO DAILY PRESS

(Successor to the Cisco Weekly Citizen and Citizen-Free Press)

Published each afternoon, except Saturday and Sunday morning at Cisco, Eastland County, Texas, by the Free Press Publishing Corporation, incorporated under the laws of the state of Texas.

CHARLES J. KLEINER, President; J. H. REYNOLDS, Vice President; B. A. BUTLER, Vice President and Sec'y-Treas.

A Home-Owned and Home-Controlled newspaper devoted to the upbuilding of Cisco and Eastland county, independently democratic in politics.

SUBSCRIPTION RATES: ONE YEAR \$5.00

Any erroneous statement reflecting upon the character or reputation of any person will be gladly corrected if brought to the attention of the publishers.

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under the act of March 3, 1879.

MEMBERS OF THE ASSOCIATED PRESS: The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or not otherwise credited to this paper.

BIBLE THOUGHT FOR TODAY

Say not ye, There are yet four months, and then cometh harvest? behold, I say unto you, life up your eyes, and look on the fields; for they are white already to harvest.

Inspiring Demonstration

THE initiatory edition of the Cisco Daily Press which appeared Sunday morning represents an inspiring demonstration of confidence of Cisco business men in Cisco.

DISTRIBUTION of the issue is continuing. Most of the copies have already been distributed, but there are yet a sufficient number to supply the wishes of Ciscoans who may want to send copies to acquaintances and friends as an advertisement of the community.

Distributing Wealth by Taxes

CONGRESS and the president do not see eye to eye on the administration-fostered tax bill. The president wants a higher graduated levy on excess corporation profits but the house, overwhelmingly democratic as it is, scales the levy down to a small percentage in comparison.

more than likely that the owners of the means of making money will get the greater portion of it, and, even if the Utopian idea works, nothing more beneficial than a tax circuit will be set up.

BUT the actual results is not likely to be anything like that. There could not be so much complaint against the program, if it were for there would at least be a circulation of money and when money circulates some benefits accrue to the workers and the owners of investments.

BUT it is difficult to comprehend how excessive taxation may be used to distribute wealth, when the effect of high taxes is to stifle initiative. The result of any such program is more apt to be a destruction of the means of producing wealth and, hence, of wealth itself, rather than a redistribution of it.

Home Demand

THE work of the federal housing administration has done much to stimulate interest in home ownership. There is, it is said, a growing demand for moderate priced homes embodying new principles of construction and insulation.

OF ALL the programs initiated by the administration in its recovery efforts, none has a sounder bottom than the federal housing program. It is so thoroughly tied into the fundamentals of good citizenship and sound economic conditions that its influence is bound to be an influence toward recovery.

THE building of a new home should embody the latest developments in home construction and operation. Air conditioning, in some practical form, proper insulation of the building to conserve heat in winter and protect the interior against summer temperatures, and use of the multifiform services that the development of modern electrical equipment and transmission has devised, ought to be included.

Most of the Alaskan colonists, now unhappy, are said to be republicans. Maybe sending them away was a trick.—Toledo Blade.

Following in Footsteps of Their Fathers

Following in the footsteps of their distinguished fathers, these nine members of congress are the second generation to occupy seats in the nation's highest legislative body.

Under the Courthouse Roof

THE NINETY-FIRST DISTRICT COURT

Judge Davenport, Presiding New Cases Pending Joe Jones vs. Attee Jones, divorce.

E. C. Brand, state banking commissioner, in re liquidation Texas State bank, application to sell note of J. M. and J. F. Sharp.

A. C. White vs. Dimples White, divorce.

Mable Dunn vs. Clavis Dunn, divorce and restoration of maiden name.

Judgments and Orders

Bess Paschall vs. M. D. Paschall, injunction and custody and control of children.

Order of the court that the custody and control of Betty Lee Paschall, a minor, be vested in her mother, Mrs. Bess Paschall, and the custody and control of M. D. Paschall, Jr., a minor, be vested in his father, M. D. Paschall.

Each of the parents was restrained from violating or interfering with this order, but each were granted permission to visit their children at reasonable times, Friday, and the father once a week.

This order is to be in force and effect until Sept. 15, provided the parties heretofore do not reach an agreement between themselves as to the disposition and custody of the children.

Otherwise the court will hear the evidence and determine definitely the disposition and custody of the said minors on that date.

A divorce had been previously granted between the parties.

The June term of the 91st district court came to a close Saturday, and the commencement of the August term of the court began Monday.

No juries will be summoned for August. Two juries for Sept. 9 and 16 have been ordered, but not yet summoned.

THE EIGHTY-EIGHTH DISTRICT COURT

Judge Patterson, Presiding New Cases Pending

Mrs. Maggie Dullin vs. J. P. Martin et al, Ciso Mortgage and Loan Co. vs. C. H. Fleming, Ciso Mortgage and Loan Co. vs. Burtram Hartley, E. H. Dawson vs. C. N. Deaton, Emma Burton vs. C. L. Burton, divorce and custody of minor child.

Don. D. Parker Named Auditor

A joint order of the presiding officers of the 91st and 88th district courts was filed in the office of the district clerk as of August 1, whereby Don D. Parker was appointed county auditor for Eastland county for the ensuing two years, beginning August 20 with his tenure of office running until August 20, 1937.

This order reappoints Mr. Parker, who was appointed to succeed the late W. S. Michael, whose unexpired term he is now serving.

Judgment and Orders

J. J. Parks vs. Hall Walker, et al. Judgment for defendants as their interests appears.

THE DEPARTMENT OF THE COUNTY CLERK

Matters in Probate

Ex parte Mrs. Ella Echols, application to have Robert M. Echols adjudged a feeble minded person.

Upon a hearing of the evidence the court is of the opinion that the application should be granted, and the order of the court is that the said Robert M. Echols be adjudged a person of feeble mind, and it was further ordered by the court that he be sent to the state school for the feeble-minded at Austin.

In re estate of Everett E. Harper, N. C. M. Application of T. E. Knight, guardian, to invest certain funds of his ward in vendors lien notes.

It appearing to the court there was on hand sufficient funds over and above those necessary for the maintenance of the ward, to make the above investment the same was approved, after it had been determined that the security was sufficient to guarantee the payment of the notes at maturity, and to protect the estate of the said Everett E. Harper, the said T. E. Knight, guardian was authorized to invest \$300 of the funds of said estate in the vendors lien notes therein considered.

Ex parte S. M. Root. Application for license to sell beer approved and order issued to the tax collector to issue license.

In the matter of the estate of T. F. Wynn, deceased; Application of A. P. Newberry, administrator, to sell certain real estate, approved, and order of sale issued and report of sale approved.

Marriage Licenses Issued

The following were issued licenses to wed by the county clerk's office fore:

B. B. Murrell and Miss Mary Bell Wilcox, Crane.

Claude Robinson and Edda Hightower, Ciso.

Thomas S. Williamson and Miss Fern Stokes, Abilene.

Lowell A. Rich and Pauline Preacher, Ciso.

J. M. Brooks and Miss Tomzene Rucker, Strawn.

L. F. Jordan and Miss Ann M. Lankford, Reisel.

Bob Blackwell and Miss Luzell Sims, Gorman.

Vital Statistics—Births.

The following vital statistics of the births and deaths of the county have been filed with the county clerk for July:

W. J. Mays, son of E. L. Mays and wife, Carbon, born Sept. 9, 1917.

Carroll Bernice Johnson, daughter of T. M. Johnson and wife, precinct No. 1, born Feb. 1.

Dana Fay Ware, daughter of D. M. Ware and wife, Eastland, born Sept. 24, 1926.

Baby Bint, son of Arlan Bint and wife, born July 23.

Normal Campbell Alsobrook, son of B. F. Alsobrook and wife, born July 21.

Deaths

Only one death is contained in the first reports filed, that of Elmo Rae Drinkard, Eastland, aged 15 years, died July 9.

New Cases Pending

Ex parte J. W. Sumrall, application for license to sell beer.

SUPERINTENDENT'S DEPARTMENT

School Transfers

The entire scholastics of two schools of Eastland county, those of Salem and Reagan, have been transferred, said C. S. Eldridge, superintendent. These transfers were by special contract, and the scholastics will be conveyed by bus to the schools to which they have been transferred.

The pupils of Salem will attend the school at Alameda, and those of Reagan have been transferred to Morton Valley. Salem is 12 miles south of Ranger, while Reagan school is near the old location of Lee Ray.

COUNTY ATTORNEY'S DEPARTMENT

Criminal District Attorney Grady Owen and Mrs. Owen are absent from Eastland on their annual vacation which will be spent on the west coast and other western states. Their itinerary will include, Los Angeles, Salt Lake, Denver, Colorado Springs and

other places of interest. W. D. Owen is taking care of the district attorney's office during Grady's absence. In regard to the report that two murder cases from Hood county would be transferred on change of venue to Eastland county W. D. R. Owen said nothing further had developed, and understood that the cases had been reset for trial at Granbury early in September, and inferred that they will be tried in Hood county.

A third brother of the Owen family has moved to Eastland. J. D. L. Owen has located in the county seat with his family. He will be connected with the Texas Service Co.

Simple Language Amendments in

Editor's Note: The Citizen-Free Press presents below summaries of the proposed amendments to the constitution of the State of Texas to be voted in August 24.

The amendments, numbered this year for the first time, will be discussed in order. The briefs were written in the department of state, which like the Citizen-Free Press, in publishing them, has no desire to be placed in the position of endorsing any, but is actuated solely by a desire to acquaint the public with the contents of each.

Proposed Amendment Number 5

Proposition Number 5 on the ballot of the August 24th special election reads: "For (and Against) the amendment to the state constitution authorizing the courts to place defendants on probation."

Proponents claim that if this amendment is passed, many who are now sent to the penitentiary for first offenses will be permitted to enjoy suspended sentences under restrictions of the court.

The only restriction under the present suspended sentence law is the fact that the defendant must not be convicted of a felony—that is, a crime punishable by confinement in the penitentiary. The judge or court has no control nor can it set up or impose any other restrictions.

It is the understanding of those who have studied the amendment that if passed it would permit the legislature to pass laws giving the courts the right to suspend sentences and place defendants on such probation as the court might deem proper. In other words the court could suspend sentences subject to certain limitations. If those restrictions or limitations were not observed the court would have the authority to have the defendant committed to the penitentiary without further ado.

Many courts now refuse to grant suspended sentences for the reason that they have no control over the defendant after the same is granted. It is pointed out that this would prevent many first offenders from having to go to the penitentiary and reclaim many of them for society.

If a suspended sentence is given under the present law the only limitation is that the defendant must not be convicted of a felony. The court has no control over him nor can it impose other conditions.

ARRESTED

EASTLAND, Aug. 5.—Wanted in connection with a forgery charge, Jack Millwee of Rising Star was arrested by Loss Woods and then turned over to Fort Worth officers, the deputy sheriff announced.

Human and Other Nature

By W. F. BRUCE

W. F. BRUCE I came across a curious couple the other evening who were rolling a ball as big as themselves up the rough slope of a hillside, so strenuously that they appeared to have a job that must be finished before quitting time.

One could be sure from their actions that these workers are industrious subjects of the animal kingdom. Their various and sundry movements and positions of limb identify them as belonging to the joint-footed tribe. Their separating off of themselves personally into sections puts them into the insect class.

The boss was not merely directing, but mostly doing the work. Perhaps it was Mrs. Tumblebug whose interest was in those soon-to-be little Tumblebugs promised by the eggs safely rolled up inside this rounding mass of refuse.

With hind feet handling the rolling ball and front feet pressed against the earth, or for a particularly strenuous hour her nose against a more or less solid pebble, she worked with might and main over tufts of grass or weeds or rocks that happened to obstruct the aimless way over which they were taking their load.

Once in a while her hold would slip and she would lose all her effort. Occasionally the ball gave way and rolled suddenly forward, perhaps with him on his back underneath. But he would scramble good-naturedly to the top again. Now and then she (if she was the worker, for there was not enough difference in appearance to distinguish them one from another) crawled up to fuss with him about the way he was doing or to instruct him in the next move, while he listened submissively or, if she got too emphatic, backed away to show his acquiescence.

If I had been an ancient Egyptian I would probably have honored their intelligent foresight in some ceremony, or have petitioned them for some favor, worshipping there in the evening twilight. But as I am a modern, presumably educated, Christian I walked away with a new idea of the wonders of nature.

Slight Decrease in Employment Report

AUSTIN, Aug. 5.—Reports from 1,581 Texas establishments covering the week ending July 13 showed that a total of 75,760 employes were employed, a decrease of two-tenths of one per cent from the like week of the previous month and five-tenths of one per cent from the corresponding period last year, according to the University of Texas bureau of business research.

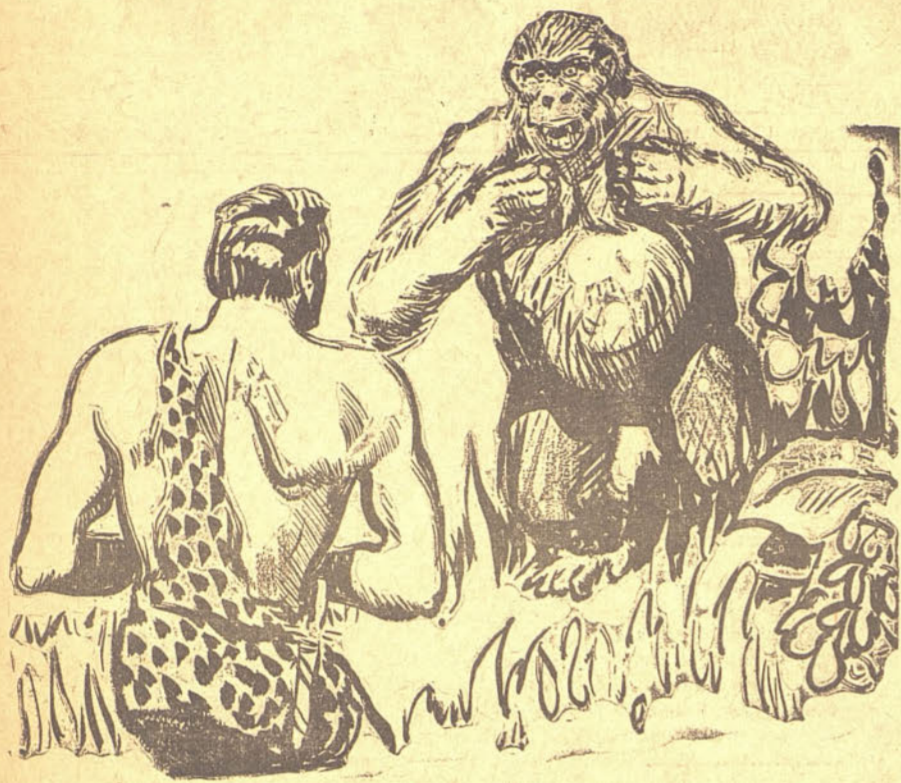

Aggregate payrolls of the firms were \$1,762,000, an increase of two-tenths of one per cent over the previous month and 2.1 per cent greater than during the like period of last year. Cities showing a gain over the two comparable periods were Abilene, Austin, Houston, Laredo and Wichita Falls. Industries showing gains over both the previous month and the corresponding period last year were: Beverages, commercial printing, electric railway car shops; flour mills, foundries, machine shops, furniture manufacturing, ice factories, laundries and dry cleaning, meat packing and slaughtering, men's clothing manufacturing, petroleum refining, structural iron works and wholesale stores.

PLENTY PWA FUNDS

FORT WORTH, Aug. 5. (AP)—The limit on how much Texas can receive from the \$4,000,000,000 (billions) PWA fund has been made sky-high. Col. Horatio B. Hackett, assistant administrator, said Saturday before taking off with his party by plane for Albuquerque, N. M. The new rules are, first come, first served, and the limit on amounts will be set only by the limitation of the fund itself, said Colonel Hackett, who landed here in a navy plane Friday to consult with State PWA Engineer Julian Montgomery and his staff. The fund likely will be overtaken by October 1 at the rate that demands on it are coming in at this time.

# BUSINESS MEN FACING WEEK IN OPTIMISM

NEW YORK, Aug. 5. (AP).—Business and financial men faced the new week today with modified optimism. There was plenty of evidence that business was doing a good job of resisting the summer slump.

Steel operations continued their steady rise from the summer low, made in the Independence Day week, with a further improvement of 1.8 points to 44.0 per cent of capacity.

Power production rose a little more than seasonally and retail trade continued to broaden and to increase its takings from the wholesale firms.

It was in reflection of such constructive news, most market observers felt, that stocks last week were able to penetrate previous tops for 1935. The Associated Press average of 60 stocks on Saturday scored a new high for the year at 47.4, surpassing tops made Monday and Wednesday.

Bonds were generally steady to firm with numerous issues at or near the best levels for the year, especially in the utility and industrial classifications.

Some observers, however, believed that slight hesitation in the business swing might lie ahead. It was recalled that Ford had begun his usual two-week summer shutdown and that General Motors' production was beginning to taper considerably, after holding up better than seasonally for some time.

## Farm Mortgage Loans Will Now Be Made in Cash

HOUSTON, Aug. 5. — Farm mortgage loans by the Federal Land bank of Houston and the land bank commissioner will now be made in cash instead of bonds of the Federal Farm Mortgage corporation and part cash, as has been the practice for nearly a year and a half. A. C. Williams, president of the land bank, announced Saturday.

With a ready market for bonds, Mr. Williams explained, there will be no difficulty in selling these bonds and putting the land bank and commissioner's loans on a cash basis.

The federal land banks make loans to farmers and ranchmen on the security of first mortgages on farm or ranch lands and buildings. Acting as agent for the land bank commissioner the bank may also make loans to those engaged in farming operations on the security of first or second mortgages on farm property.

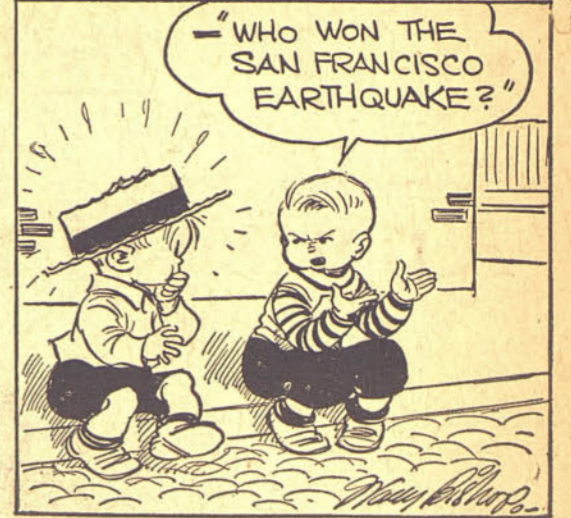

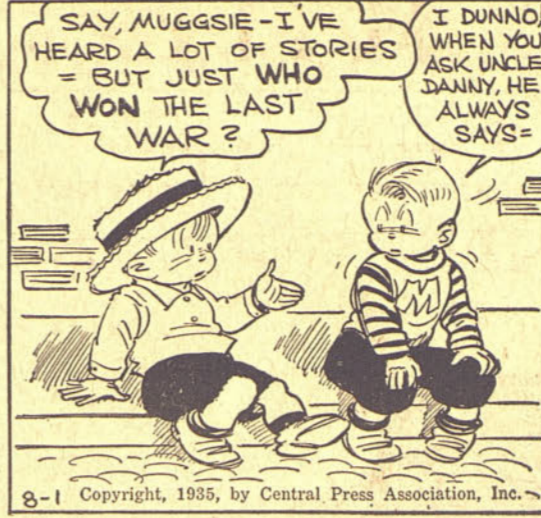

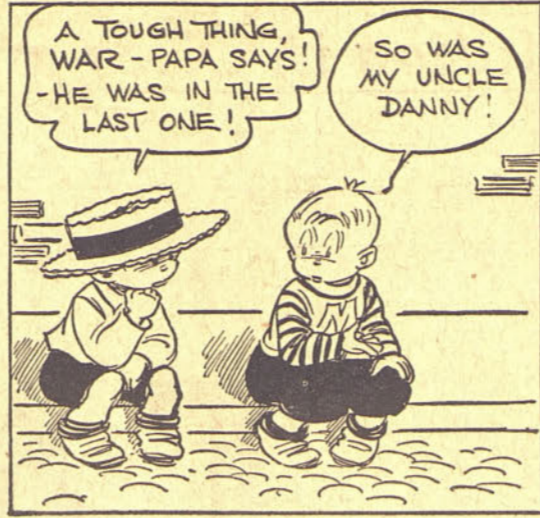

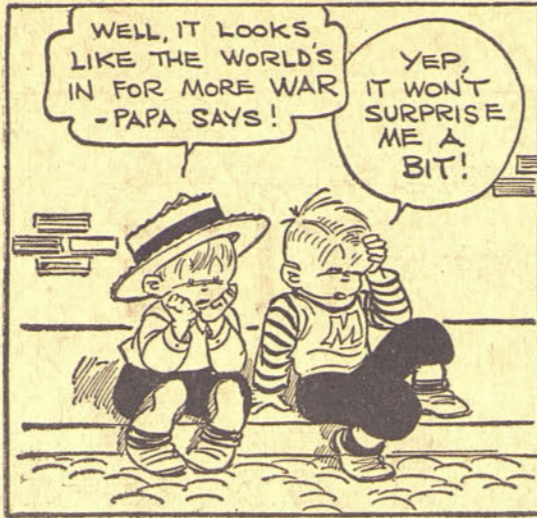

Recent amendments to the federal farm loan act and the emergency farm mortgage act of 1933 have broadened the lending powers of the land bank commissioner so as to include the refinancing of secured or unsecured indebtedness of the farmer, and for the purpose of refinancing indebtedness incurred in connection with the purchase of land for agricultural uses, provided the loans are eligible in other respects and the applicants can show the required equity in their properties and are in satisfactory financial condition.

"One of the principal reasons for using bonds in lieu of cash in making land bank and commissioner's loans," Mr. Williams said, "was to get a wide distribution of the bonds throughout the country and small towns as well as in the cities. About 425,000 loans have been made since the corporation came into existence. These bonds have been very well received by the public in general and the farmers' creditors in particular. In fact, during much of the time in which they have been in existence they have sold at above par.

The interest rate on new federal land bank loans is now four per cent per annum and loans by the land bank commissioner bear interest at the rate of five per cent per annum. A temporary reduction of interest on federal land bank loans having installments due prior to July 1, 1933, was put into effect July 1, 1935. This was the result of new legislation, the farm credit act of 1935, which was signed by President Roosevelt June 3, and reduced the interest rate to 3 1/2 per cent for interest payable in the one year period, commencing July 1, 1935, and to four per cent for all interest payable in the two year period commencing July 1, 1936. Interest payable on installment dates occurring after July 30, 1935, will be at the original contract rate of the loans. These loans are payable over a long period of time and on convenient terms.

Receipts of the London Transport Board in a recent week were \$2,572,500, an increase of \$65,000 over the corresponding period of last year.

## Ten Deluxe Chair Cars Are Added to TP Equipment

The Texas and Pacific railway announces that ten new deluxe chair cars, assuring a degree of travel comfort heretofore unknown in chair car travel, have been placed in service on its three crack trains, the Sunshine Special, the Texan and the Louisiana Limited.

In making the announcement, Frank Jensen, general passenger agent, said the new chair cars "embodied every new feature known in passenger car equipment and that they meant a new high point in pleasure and relaxation for passengers."

"The new cars," Mr. Jensen explained, "introduce an innovation in reclining arrangements. The chairs, heavily upholstered to make them soft and comfortable, can be turned entirely around. If the occupant wants to face the window, his chair will turn that way. If a party of four want to face one another, the chairs are quickly turned to accommodate them. In addition, the reclining arrangements have been greatly improved. The chairs tilt back farther so as to provide a greater degree of comfort than was possible in the old style chairs."

Lounge compartments are provided at both ends of the cars, where passengers may lounge and smoke. These compartments also have mirrors and dressing tables for women. Then there are dental lavatories, free soap and towels, sanitary water coolers and parcel racks.

**Indirect Lighting**  
The cars are lighted by a new system of indirect lighting that prevents glare and makes it possible for all lights in the car to be lowered so as not to interfere with the sleep of passengers. Floors are covered with a material that acts as a sound deadener. Window shades and interior decorations strike a new note in modern passenger car construction. Provision has been made for tables for passengers who want to play cards, write or eat their food in their chairs.

No matter how hot or dusty it may be outside, air conditioning insures fresh, cool, clean air and comfortable temperatures at all times. To add further to the comfort of passengers, noise and shock absorbing material has been placed in trucks and springs. "What a contrast these new chair cars present with passenger equipment of other days," exclaimed Mr. Jensen. "They are far more comfortable and enjoyable than Pullmans were not so long ago."

The inauguration of this new equipment makes it unnecessary for passengers traveling on the Louisiana Limited between Ft. Worth or Dallas and points in Louisiana, to change cars at Marshall, as these new chair cars go straight through on this popular train.

### Absentee Voting Procedure Explained

EASTLAND, Aug. 5.—Stricter absentee voting procedure was explained by County Clerk T. M. Collie.

This year, Collie stated, prospective absentee voters must make application at his office, showing a poll tax receipt, exemption certificate or an affidavit that they have either been lost or mislaid.

After making the application, the voter must mark the ballot in the presence of the clerk in such a manner that it is not known how he is voting.

After marking the ballot and sealing it in an envelope it is given to the clerk. The absentee voter must pay 24 cents to the clerk for costs of the ballot and mailing to the election judge. The county clerk will mail the ballot.

Voters out of the county will make application to an authorized officer at his temporary address from where it is sent to County Clerk Collie. Collie will mail the ballot to the officer to whom the voter has made application. The voter will mark the ballot in the presence of the officer to whom he has made application. The out of county officer then sends it by Clerk Collie who forwards it by

### Centennial Theme For 1936 Cactus

AUSTIN, Aug. 5.—John Pope, student editor of the Cactus, University of Texas yearbook, has designated the 1936 edition of the annual as a "Centennial Cactus." Pope, who this summer acceded to the editorship, regards his research into Texas history as one of his most important duties, and uses a grade school volume of Texas history as a handbook.

Pope is a law student in the university and is a graduate of the university school of business administration. He has served as president of the junior class in the school of business administration, is an active member of the Curtain club, the Young Men's Christian association cabinet, the Business Administration council, the University Round-Up committee, Interfraternity council, and the Order of San Jacinto. Last year he was associate editor of the Cactus.

### Strong Pressure To Peg Cotton Prices Is Used

WASHINGTON, Aug. 5. (AP).—Strong political pressure for a 12-cent loan to help peg 1935 cotton crop prices has descended upon farm administration officials.

Some of the AAA bosses were disclosed to doubt the advisability of any loan at all. Others said privately they believed an advance of from 10 to 12 cents may be authorized.

Chester C. Davis, AAA administrator, said the amount of the loan probably will be announced shortly after the government estimate of 1935 cotton production. This will be issued Thursday.

Meanwhile, those favoring the 12-cent figure were reported to have turned their attention also to the White House and congress, as well as the AAA.

#### Same Situation

What worried the AAA was the possibility that with the cotton loan policy, the AAA and the Commodity Credit corporation may find themselves confronted with the same situation which gained criticism for the old farm board. The Commodity Credit corporation has advanced directly, or had guaranteed through private agencies, 12-cent loans totaling \$271,775,525 on 4,454,039 bales of cotton. These figures do not include advances made on cotton held by the producers' pool. The pool now has 675,000 bales of spot cotton and 933,000 bales of futures.

The loans were due this year but have been extended until Feb. 1, 1936. Some officials said they did not believe that the government would be repaid unless the price of cotton reached 13 cents a pound.

#### 8,300,000 Bales

The carryover of American cotton Aug. 1 was 8,300,000 bales, and the Bankhead allotment this year, 10,983,264 bales. However, some private estimates of the 1935 crop run as high as 12,000,000 bales. If the crop should be that large, an official said, the Farm Administration would be confronted with a delicate problem.

Suggestions have been made that the government take over cotton on which loans now are outstanding, and use this to establish the "ever-normal granary" sponsored by Secretary Wallace and authorized in the AAA amendments pending in congress. Under this plan, the government would use the cotton itself for benefit payments, instead of cash.

### May Seek Confidence Vote for Rep. Patton

WASHINGTON, D. C., Aug. 5. (AP)—Friendly Texas colleagues of Rep. Patton were disclosed today as feeling out the possibilities of bringing a house vote of confidence as a result of his part in the utilities lobby inquiry.

### FLIRTING WITH FAME - By Jack Sords

### Meet Charlie Plumb, Creator of "Ella Cinders" in the Press Comics

His is a big square-built, square-shooter, in his middle thirties. His wife is just about as big as Ella Cinders. They live in the shade of the old avocado trees—forty of them—on three acres of San Gabriel, California. The crickets supply most of the excitement of their night life. The three Plumb children—Charles, Joan and Barbara—supply most of the excitement of their day life. They used to live in South Pasadena, but moved away because it was too big and bustling for them. They like ease, trees, quiet, youngsters and lots to eat.

Charlie was born in New Mexico, where his father was a mining engineer, but grew up in southwest Missouri, where he continued to be a mining engineer. He attended the school of journalism at the university of Missouri, where he discovered he was no journalist. So he got a job on a newspaper. The job he got was in the art department,

so he became artist. He discovered that all newspaper artists are prepared at the drop of a hat or the flash of an eye to become millionaire comic strip men. So he thought that would be a good idea.

The idea came to life when Bill Conselman, who worked on the same paper—The Los Angeles Times—supplied it. The idea was "ELLA CINDERS." It was such a grand and glorious idea that— with Bill Conselman writing the continuity and Charlie Plumb supplying the drawings— Ella Cinders has come close to being the strip that outstrips all others.

Charlie especially admires the work of N. C. Wyeth, Bateman, Arthur Rackham and Edmond Dulas. His hobby is fishing. His ambition is to invent blotless ink and a three-speed-roller-bearing drawing pen. When not drawing Ella, he sits in the shade of the old avocado trees and smiles. Who wouldn't?

Beginning Sunday, August 11, "Ella Cinders" will be a regular feature of the Cisco Daily Press 8-page Sunday color comic section.

### Soft Ball

Standings		
Team	W.	L. Pct.
Community	4	0 .1000
Nance	3	1 .750
Garner's	1	3 .250
Loboes	0	4 .000

The Community team will play the Nance team tonight at the lighted field.  
Saturday evening an all-star team from Stamford lost a hard fought game 8 to 7 to a Cisco all-star team.

### Negro Lynched For Attempted Attack

PITTSBORO, Miss., Aug. 5 (AP)—Bodie Bates, negro accused of attempting to attack a 22-year-old white woman here Saturday night, was lynched by a mob last night. The mob, comprised of white citizens, was formed after the negro was arrested and had overpowered an officer at Jal. Bates was taken to a sparsely settled section of Calhoun county and hanged from a bridge over the Yalobusha river where the officers found the body today.

coffee a single time, although on his last visit in 1930 he could hardly go two blocks without being asked at least a dozen times.

### "Les Miserables" New Screen Drama

Frederick March and Charles Laughton play fugitive and pursuer in the most celebrated of all fictional man-hunts in Darryl Zanuck's 20th Century production of Victor Hugo's "Les Miserables," August 6, one day run at the Palace theater.

March is seen as Hugo's ill-starred young hero, Jean Valjean, who spends five bitter years on a French prison ship for stealing a loaf of bread and then becomes a fugitive from justice by violating his parole. Laughton is Javert, the fanatical detective, whose devotion to the letter of the law drives him relentlessly along the reformed ex-convict's trail.

Sir Cedric Hardwicke, the distinguished English stage and screen star, shares stellar honors with the pair as the benevolent Bishop Bienvenu, whose faith starts the degraded galley slave on the road toward a better life. Richard Boleslawski directed "Les Miserables" from a screen play by W. R. Lipscomb.

Rochelle Hudson, Frances Drake and John Beal are featured in the supporting cast which also includes such popular and distinguished players as Florence Eldridge, who is Mrs. Fredric March in private life, Jessie Ralph, Ferdinand Gottschalk and little Marilynne Knowlden, who played Madge Evans as a child in "David Copperfield."

"Les Miserables" is a Joseph M. Schenck presentation, released through United Artists.

W. H. Grove of Fort Worth, owner of the Grove ranch, north of Cisco, was here Monday to attend the funeral of T. A. Smith, who was a tenant on the Grove ranch.

Mr. and Mrs. Clyde Karkalits of Eastland spent Sunday in Cisco.
