10,000 SEE DAM DEDICATED

Miss Cisco, Miss Eastland and Miss Thurber Were the Three Winners of The Bathing Girls' Review Saturday

SEVEN WELLS IN WEEK IS RECORD FOR CROSS CUT

CROSS PLAINS July 4. — Seven completions in the locality about Cross Plains, five in the Cross Cut field and two in the shallow district, have made a record run of production for this week.

The Gilman et al Teston No. 4 was drilled in early in the week at a depth of approximately 1230, with an estimated production of 100 barrels per day. Gilman, McMurry & Wilson have a 75 barrel well in their Thompson No. 1, in the east extension of the field, just east of the J. W. Newton tract. This well was for a deep test but the production was found on the Cross Cut shallow pay. Gilman et al drilled in their No. 4 J. M. Moore in the early part of the week with a resultant production of 50 barrels per day. This well is located in the east extension.

The Colbre Bros. Oil syndicate No. 2 W. A. Prater came in for 30 barrels per day in the old discovery field. The J. W. Newton No. 6 of Kuykendall et al was drilled in at approximately 1250 feet and is now flowing at 100 barrels per day.

Gilman et al are moving in a star machine in the G. H. Henry tract, which lies in the extreme eastern part of the field and is practically wildcat territory. Gilman et al are skidding a rig to begin their Teston No. 5 and the Canyon Oil & Gas Co. are building a rig on their Elsberry No. 4 in the extreme west part of the field. Moore & Wilson are drilling at 500 feet in their Gafford No. 4 and are also spudding in on their No. 2 location on the Baxter tract.

Moore & Curry have completed a fishing job on their Kilgore No. 1 in the northeast part of the field and are drilling at 900 feet.

F. W. Stone is spudding in on his Byrd No. 1, which lies adjacent to the town of Cross Cut, and B. D. Dozier et al are drilling at 1200 feet in their No. 5 W. A. Prater, in the old discovery field. Mendenhall et al are drilling at 1200 feet in their No. 7 J. W. Newton, and Root & Highers are drilling at 790 feet on their W. A. Prater No. 10 in the old discovery field. Huffman et al missed the pay in their Armstrong No. 1, northeast of the field. Wakefield et al are drilling at 1200 feet in the Cross Plains townsite well, on the McDonough tract.

In the shallow field eight miles from town, M. E. Wakefield et al have a 15 barrel well on their Key No. 3. This well was drilled in at 350 feet.

The Canyon Oil & Gas Co. have a small producer on their W. T. Burns tract. The exact production is not yet known as the well has not been put on a test gauge.

Houseman et al have a fishing job on their tract east of Burkett.

The Canyon Oil & Gas Co. & Victor Oil & Gas Co. are drilling at 325 feet in their deep test well on the Harris tract. The Canyon Oil & Gas Co. is drilling at 2680 feet on their deep test well, Harris No. 2, in north Coleman county, one and one-half miles from Echo store.

PRISON RELIEF SOCIETY GIVEN STATE CHARTER

HOUSTON, July 4. — Following the receipt of its charter the American Prison Relief society was formally organized here today. The society will give attention to prison matters in general, especially that of assisting discharged prisoners in obtaining employment.

WORTH-DALLAS WILL DAM THE TRINITY RIVER

DALLAS, July 4. — The building of a series of dams along the Trinity river between Dallas and Fort Worth, will be undertaken as part of the river improvement program. It is thought. A conference will be called with the officials of the two towns to discuss the matter in the near future, Mayor Blalock said.

ELUSIVE CHICK CAUSES DEATH OF 3 YEAR OLD

ATLANTA, July 4. — While trying to catch a chicken intended for his Fourth of July supper, four year old Billy Collup, son of Nick Collup, star center fielder of the Atlanta Crackers, fell from the third story window to his death on the pavement below.

K. C. MAN KILLS ONE HIJACKER, WOUNDS OTHER

KANSAS CITY, July 4. — Percy B. Baker, 64 years old, superintendent of a local laundry, shot two men who had assaulted and attempted to rob him. One of the bandits died. The other, bleeding profusely, was pulled into a motor car by a third accomplice who escaped.

Baker was attacked while en route to the laundry. He was knocked to the pavement and stunned. Drawing a revolver he opened fire on his assailants. One of them Rosolina Bonure, well known police character, fell fatally wounded. The other was shot through the body. The names of the wounded man and his comrade are unknown. No money was obtained by the bandits.

When the fourteen contestants in the bathing girls' review mounted the improvised iceberg at Lake Cisco Saturday evening, there were "ahs" and "ohs" from thousands of throats. It was a sight never to be forgotten as dignified and self-composed, they took their respective positions. The remark of one lady who stood near the judges aptly described the predicament in which the latter found themselves: "How on earth will the poor judges choose three winners from fourteen American beauties?" That the lady in question was quite right was evidenced when the judges later requested that the contestants be brought before them for a second review.

After much deliberation the following were designated as the winners:

First, "Miss Cisco," represented by Miss Lydia Prescott.

Second, "Miss Eastland," represented by Miss Willie Belle Williamson.

Third, "Miss Thurber," represented by Miss Gussie Oyler.

Other entrants were Miss Leota Pettus, of Moran; Miss Luey Mae Alford, of Rising Star; Miss Bettie Barry, of Desdemona; Miss Libbie Mae Ewing, of Fort Worth, and the following Cisco young ladies: Miss Billie Lang, Miss Caddie Mayberry, Miss Pauline Flaherty, Miss Gwendolyn Clements, Miss Louise Camden, Miss Nell Parker, Miss Eleanor Thomas.

MRS. MULLINIX'S BROTHER'S BABY FATALLY BURNED

Mrs. Ted Mullinix has just returned from a week's visit to her sister in Wichita Falls. The pleasure of her visit was greatly marred by the sad calamity that befall her brother, B. B. Mayfield, of Chillicothe, whose house burned Monday, in which the baby of the family lost its life. Mrs. Mullinix stated that the baby and two other small children were left alone at the house while the rest of the family were out on the farm. The two other children escaped, but the baby was burned to death before the parents could reach their home.

BROOD CRAPPIE, BREAM AND BASS FOR LAKE CISCO

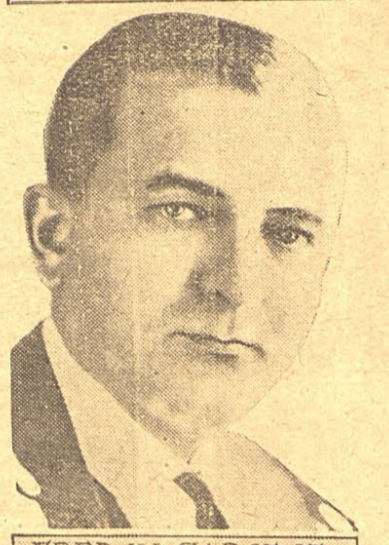

Additional fish were received for Lake Cisco Saturday morning when twelve cans of fish were received and placed in Lake Cisco, from the state fish hatchery at San Marcos. In the lot were forty or fifty bass weighing two and one-half pounds to four pounds, and several crappie and bream weighing around two pounds. These are brood fish, and Cisco is to be congratulated in the receipt of these brood fish, for the chamber of commerce is informed that no other town in Texas has been furnished with this class of fish. Besides the brood fish, there were hundreds of small fish, which were released in the lake. With these larger brood fish the population of the finny tribe in the lake will begin to increase, and it will not be long before Lake Cisco will be stocked with game fish, which will make it a fisherman's paradise. When the lake is finally opened to fishermen the followers of Isaac Walton will be attracted here from distances of hundreds of miles, and those of our own people can go out and land a big bass before breakfast most any morning.

Cisco was furnished these larger fish only after the deputy game warden had been here and personally inspected the breeding grounds at Lake Cisco, which he pronounced the finest in West Texas anywhere. He was perfectly delighted with what he saw at Lake Cisco, and stated at the time that Cisco had been neglected on account of the department not knowing what we had to offer as a fish breeding preserve. And he stated that Lake Cisco was billed for additional consignments of fish, but there was a proviso—Cisco must protect these fish until the lake is stocked. Acting upon this proviso Mayor Williamson has already revoked all fishing permits, and no fishing will be allowed hereafter in that lake. Permits have been issued to catch catfish, and some nice specimens have been taken from the lake, but all this has now been prohibited.

HOTEL REMODEL FOR THE ACCOMMODATION TALL MEN

NEW YORK July 4.—The Hotel McAlpin announces the conversion of part of its 22 floors into special accommodations for tall persons. When completed, by the end of next week, there will be accommodations for 50 oversized guests. The change is being made under the supervision of Benjamin B. Otland, Marshfield, Ore., president of the Tall Men's Association. Mr. Otland stand six feet five inches in his socks. Fellow club members emboldened by the hotel's action, now plan to make a drive on train seats and Pullman berths.

Rail Head

FRED W. SARGENT

Fred W. Sargent has been elected president of the Chicago and Northwestern Railroad to succeed William H. Finley, resigned.

COOLIDGE WAS 53 YEARS OLD JULY FOURTH

SWAMSCOTT, July 4. — President Coolidge celebrated his fifty-third birthday at the summer Whitehouse by listening in on the "Grand and Glorious Fourth" celebration, such as he had not heard for years. The youth of Washington, tied down by many safety regulations, is not allowed to shoot fireworks, but there are no such rules at Swamscott, and dawn was heralded by the booming of cannon crackers.

President Coolidge took a cruise on the Mayflower out into the Atlantic, and visited the executive offices at Lynn later in the day.

INTERNATIONAL SETTLEMENT IS IN BATTLE LINE

LONDON, July 4. — Preparations for what is feared will be a bloody battle, perilously close to the foreign settlement is being made by Chinese soldiers today who are digging trenches and erecting barb wire entanglements. The new battle positions are very close to the international settlement.

PROSPERITY'S RETURN SHOWN IN P. O. FIGURES

"The receipts of the Cisco post-office shows a steady increase, indicating the return of prosperity to this section," said Postmaster J. W. Triplett Saturday. "For the quarter ending June 30, 1924, the receipts of the Cisco postoffice were \$6,430.82; for the quarter ending March 31, 1925, the receipts were \$6,243.50. With the advent of the quarter ending June 30, 1925, the receipts indicate that better times were here, as the receipts were \$7,256.06, which is an increase over the quarter ending June 30, 1924, of \$825.24, and an increase of \$1,012.56 over the quarter ending March 31, 1925.

These figures are based on stamp sales and box rent, and do not include money orders, parcel post, and other revenues. These figures are the basis of postoffice classifications, on which salaries are based. On top of this \$100 per quarter over previous expenses, notwithstanding there has been a salary increase of about \$250 per quarter, making a net saving in operating expenses, not counting the salary increase, of approximately \$350 per quarter over the expenses of previous quarters."

DALLAS STREET RAILWAY WANT TO RAISE CAR RIDES

DALLAS, July 4.—The street railway company of Dallas today declared it could make no more improvements and must be allowed a raise of one cent in car fare, making a total of seven cents. Mayor Blalock declared the raise would not be allowed.

TWO JAPANESE TOWNS ERASED BY EARTHQUAKE

LONDON, July 4. — Two towns were wiped out and hundreds of homes destroyed in an earthquake today according to Tokio cables. Hundreds are reported dead. The two towns were seaports of the west Japan coast. A train outside Tottori, the largest of the two towns, was reported hurled from the track. Advice from the stricken communities are very meager. Tottori is a town of 35,000, and it is reported demolished. The other town suffered almost as greatly, reports said.

Santa Barbara in Panic

SANTA BARBARA, July 4. — Inhabitants of this quake-stricken town were sent flying from their beds into the streets in panic this morning at 7:45 central time, when new tremors rocked the town. The damage was believed to be slight, as the shock lasted only two seconds. Drizzling rain began falling immediately afterward but scores stood in the streets rather than return to their homes.

GILMAN'S CROSS CUT WELL DOING 35 BBL. PER HOUR

Parties in from the Cross Cut field Saturday report the bringing in of the Gilman & Conway Bros' J. W. Newton well Friday, which is one of the best wells yet drilled in that field. Some place the production as high as 1,200 barrels per day, but a conservative estimate of an oil man who was on the ground when the well came in, stated the well was making 35 barrels per hour, with the bit having penetrated the sand but fifteen feet.

This is their No. 5 on the 65-acre lease, which has a combined production of 58 barrels per hour for the tract. Another well is drilling at 400 feet, a rig is completed at another location, while a third is just building a derrick. This tract is joined on the north by the Baxter lease, which is also another prolific tract.

NO FISHING IN LAKE CISCO TO BE PERMITTED

"There will no more fishing in Lake Cisco on and after today," said Mayor Williamson Saturday, "and all permits to fish there have been revoked. This applies to catfish, or any manner of fishing. Those caught with lines in the water, even will be arrested, for such an act will be construed as prima facie evidence of guilt. Those convicted of fishing in Lake Cisco on and after this date will be fined the maximum penalty of \$50. This course is made necessary for the reason that a great many fish have just been placed in the lake, furnished by the fish, oyster and game department, in which are many large bass and crappie, which were sent to Cisco under the promise that all fishing in the lake would be prohibited. These brood fish are very gentle, and for some time will feed on anything, and even if they are thrown back in the lake after being caught, will likely die. Also under the promise of prohibiting all fishing Cisco has been promised other brood fish, which will fully stock this lake in a short while if given full protection while they are spawning."

CELEBRATION AT STATE CAPITAL SPECTACULAR

AUSTIN, July 4.—The Texas capital's celebration of July Fourth and of the national defense test, was spectacular but quiet. A salute of twenty guns opened the muster of the twenty-two hundred national guardsmen at Camp Mabry, and the spectacular pageant staged at the Texas University stadium closed the celebration tonight. Two regiments of the brigade, the 141st and the 142nd, headed by their bands created a warlike appearance.

Golf Champ

F. E. LAMPRECHT, MFL.

F. E. Lamprecht, of Tulane University, won the National Intercollegiate golf title at Montclair, N. J., defeating A. J. Westland, of the University of Washington, in the final match.

Gorgeous Display of Fireworks Followed Address of Hon. Walter Morris Who Made Principal Talk

In a blaze of pyrotechnical glory the program celebrating the glorious Fourth came to a close Saturday night when the most gorgeous and spectacular display of fireworks were set off ever seen in West Texas. This thrilling and spectacular feature followed the pageant of bathing beauties, one of the real attractions. The bewitching water nymphs were staged in a most picturesque setting on an improvised iceberg on the bosom of the majestic waters of Lake Cisco.

Early Saturday morning caravans of human laden autos began pouring into Cisco, and before the noon hour parking space was scarce on the streets, besides the hundreds of cars that crowded the park at the lake. Up to 6 o'clock Saturday evening 3,021 automobiles had passed through the gates at the park, besides hundreds who came on foot. For the fireworks the crowd at the park was greatly augmented, and all available space from the limits of the park to the water's edge of Lake Cisco, cars were jammed, and at the hour of dispersing exit was made difficult by the congested state of the grounds. It is estimated that the throng attending the celebration exceeded 10,000, but no accurate count could be had Saturday night.

Rain falling early in the afternoon was the only thing that prevented this celebration from eclipsing any event perhaps ever staged west of Fort Worth in point of attendance, completeness of detail and spectacular in attractions shown. Many left for their homes as soon as the rain slowed down a bit, and many who undoubtedly expected to come for the evening's program were thus prevented from doing so.

As a prelude to the dedication of Lake Cisco and Williamson dam, the five members of the city commission other than the mayor Friday formulated the following communication which was addressed to the Cisco chamber of commerce:

"Mr. G. C. Richardson, Secretary Chamber of Commerce, Cisco Texas:

"Dear Sir—We, the undersigned members of the city commission of Cisco, Texas, constituting the full board, hereby designate 'Lake Cisco' as the official name of the new city lake north of Cisco, and the giant dam at this lake as 'Williamson Dam'. We request that these terms be used in the dedication exercises on July 4, 1925.

"Minter Womack, J. V. Heyser, Origer Paschall, E. P. Crawford, L. H. McCrea."

Thus, acting upon the authority of the entire personnel of the city commission Williamson dam and Lake Cisco were formally dedicated. Hon. Walter Morris of Fort Worth, made the principal address during the dedication ceremonies, and was followed by Hon. M. H. Hagaman of Ranger, who chose for his subject industrial development. Hon. Fred Morris, deputy fish, oyster and game commissioner, formally dedicated Lake Cisco on behalf of Commissioner Hubby to the sportsmen of Texas, giving an outline of the progressive policies to be carried out by Commissioner Hubby in administration of the fish, oyster and game department of the state. A. B. Spencer, secretary of the Fort Worth chamber of commerce, closed the speaking, who spoke on Fort Worth and her relation to West Texas.

The aquatic sports began in the forenoon, and were continued through the afternoon with the following as winners of the water sports:

Swimming—50 yards for girls: Miss Catherine Moss, first; Miss Julia Hall, second.

Girls' fancy diving—Miss Julia Hall.

Swimming—50 and 100 yards for women: Mrs. J. R. Henderson.

Swimming—50 and 100 yards for boys: Harold Pippin, first in both events; Dick St. John, second in both events. (In the 50 yard race Pippin and St. John tied, and the result was declared by the toss of the coin, Pippin winning.)

Hall Phillips of Eastland won the 50 and 220 yard race. In the men's division E. Carr won in fancy diving.

TWO CASUALTIES AT WACO

Waco, July 4.—Two casualties resulted from the fourth of July celebration here. One man was shot accidentally.

TWO VESSELS OF MAMILLAN CRAFT BUFFETED BY WIND

WASHINGTON, July 4.—The Mamillan vessels Bowdoin and Peary, were badly buffeted by a forty-five knot gale after leaving Battle Harbor, according to word received here by radio from the ships.

Hall Phillips of Eastland won the 50 and 220 yard race. In the men's division E. Carr won in fancy diving.

GARNER FAVORS LOWER FEDERAL AND INCOME TAX

NEW BRAUNFELS, July 4.—Congressman John H. Garner in a July Fourth address here today declared himself in favor of lower taxation, forcibly attacking the income tax statute. He urged five thousand dollars as the exemption for married men, and two thousand dollars for single men. He declared he favored lowering the surtax twenty-five to thirty per cent.

MONTH OF JUNE COOLER THAN IN SEVERAL YEARS

ABILENE, July 4.—June was cooler than usual, a report on weather for the month issued by W. H. Green Local Observer, shows The highest temperature reached was 101 degrees on the thirteenth, highest reached on any other day. That was the maximum heat on June 23. The thermometer failed to reach ninety degrees on eight days.

Rainfall during last month was 3.09 inches, which lack but .08 inch being normal. The highest temperature ever recorded here in June was 110 degrees and the lowest 44. The lowest recorded last month was 60 on June 26.

Sixteen days of June were clear eleven partly cloudy and three were cloudy. The average hourly velocity of the wind was 10.2 miles per hour, and the highest velocity attained during the month was 33 miles per hour from the southwest on June 3.

REV. PIEMAN IS NEW PASTOR OF GRACE CHURCH

Taking the place of pastor of Grace Lutheran church in this city made vacant by the resignation of Rev. A. Arndt, who was called to the pastorate of the Lutheran church at Harlingen, Rev. Herb. Pieman arrived here Friday evening and he and Mrs. Pieman and their four children are now domiciled in the Lutheran parsonage at 1603 E Avenue.

Rev. Pieman will be installed as pastor of this church this morning by Rev. Obenhaus, pastor of the church in the Lutheran community. In addition to Grace Lutheran church, this minister will supply the churches at Albany and Cross Plains.

Rev. and Mrs. Pieman come to Cisco from Wittenberg, Mo., accepting the appointment by the mission board of the Lutheran church, in which place he was formerly in business prior to his entering the ministry.

Grace Lutheran church was built after the coming here of the former pastor when this mission was established three years ago, which supplied Albany and Leaders also, giving each of those places services once a month. The Lutherans have a neat little chapel at 601 E Avenue, and this congregation consists of thirty or forty members.

Boston All-Night Dance Hall Scene Of Many Tragic Deaths When Floors Collapse and Tumble to the Basement

MODERN PUBLIC LIBRARY SEEMS TO BE ASSURED

The Cisco public library fund started by the Cisco Daily News some two weeks ago Saturday reached a total of \$1,074.50. The ladies of the Twentieth Century club are still hopeful of reaching the goal of \$1,500, and if that sum is secured it will mean that the city will soon be in possession of an adequate, up-to-date public library. Recent contributions turned in by Mrs. T. J. Dean, Mrs. G. B. Kelly, Mrs. William Reagan and Mrs. C. H. Fee are as follows:

E. R. McDaniel	\$25.00
John L. McMurray	10.00
Rockwell Lumber Co.	10.00
Dr. F. E. Clark	2.50
Denslow Hotel	2.50
Mr. and Mrs. Guy Dabney	10.00
Miss Helen Crawford	1.00
Mrs. F. C. leVeaux	5.00

BARNEY CARTER ACQUIRES PEOPLE'S BANK BUILDING

RANGER, July 4.—A deal whereby Barney Carter, Ranger's newest oil magnate, has secured the ownership of the large, six-story People's State bank building of Ranger, was consummated, it is announced. The consideration involved in the transfer of the building from the hands of the defunct banking company to Mr. Carter is reported to have been \$52,000. The fixtures were included in the transfer at an extra price of \$10,000. The building was sold by the state banking commissioner.

BOSTON, July 4.—Seventy-five were killed and probably 100 seriously injured early today when the fourth floor of the building housing the Pickwick club, an all-night hang-out, collapsed, carrying the third floor with it. The dance and club rooms were on the second floor and 175 persons were dancing and at tables when the fourth and third floors came crashing through. The second floor in turn gave way and the entire mass was hurled to the basement.

At noon sixteen bodies had been recovered, five of them being young, bobbed-haired girls, all fearfully mangled.

The falling building shook the city. Beginning with a slow rumble, the noise increased in volume, interrupted by crashes and shrieks, until windows rattled for blocks about. Hundreds of people leaped from their beds and rushed out to see and help, but were powerless to render aid. As the floors began to fall the lights went out and shrieking men and women fought each other to get out.

Most of the victims were dancing merrily to the strains of a lively one-step and were trapped like rats. Some leaped from windows and were painfully injured, but many made a rush for the stairways, falling headlong into the black pit left when the stairs buckled and fell to the basement.

DRIVER OF CAR IN WHICH RUMPH KILLED IS FINED

FORT WORTH, July 4.—Dan Curtis, driver of the death car in which W. V. Rumph, Jr., was riding on the night of June 24, when he was shot and killed by Motorcycle Officer A. C. Farrar, was found guilty of being drunk and speeding by a jury in city court Friday noon. Fines of \$50 in each case were assessed.

English Golfer Sponsors Plus Fours of Extra Voluminousness

WITHIN the past few seasons there has been a marked change in the type of clothes worn by sportsmen. Many of the extreme features which characterized sports clothes in their infancy have been eliminated, clever changes in cut and line make for greater comfort and a more attractive appearance, while subdued colors have taken the place of more obvious shades just as subtle indefinite designs of geometrical inspiration have superseded the vibrant plaids of other days.

When a suggestion of plaids appear it is in the form of fine lines of color marking out a more or less indefinite overplaid.

While tweeds of the Dunmoil and Kilravock weaves are frequent choices there is at present according to style authorities of

Hart Schaffner & Marx, considerable interest manifested in the smoother surfaced materials in Glenurquhart plaids for the voluminous plus fours introduced by the famous English golf champion, C. J. H. Tolley during his undergraduate days at Oxford, which are still popular with British sportsmen.

In their latest version plus fours are unusually full, as shown by the type worn by C. J. H. Tolley at a recent match at the Royal Liverpool Golf Club, Holylake. The well-known Englishman follows the prevailing fashion of dispensing with a coat. In place of the jacket British sportsmen, it is said, are wearing knitted pull overs with self tone geometric designs in natural shades of greys, fawns, and browns.

OFFICIAL COURT REPORTER FOR 88TH COURT

EASTLAND, July 4.—Miss Ilvie Moore has been appointed official court reporter of the Eighty-eighth district court by Judge Elzo Ben to succeed L. D. Hillyer. The appointment was made and Miss Moore took up her duties Wednesday. Miss Moore is the first woman to fill such a position in Eastland county and in this section of Texas.

The examining board which conducted Miss Moore's examination was composed of County Attorney W. J. Barnes, former County Judge Joe H. Jones and Judge J. S. Grisham. Miss Moore's record was not announced, but it is presumed to have been entirely satisfactory as she assumed her duties immediately. Miss Moore has been studying for some time to qualify for this or a similar position.

Miss Moore's home is at Lampasas, but she has been living in Eastland for the past three or more years, having been connected with the county tax collector's office.

L. D. Hillyer, former court reporter for the eighty-eighth district court, has served as court reporter for more than 10 years, under five different judges. He is a licensed attorney and expects to engage in the practice of law in Eastland. He will, for the present at least, have an office with Judge Tom L. Cunningham of the Eastland county court-at-law. Mr. Hillyer and family have lived in Eastland several years and own their home.

LOS ANGELES, Cal., July 4.—Mrs. Charles Knowles drowned here when she fainted as she was being immersed in the baptismal tank at the Angelus temple. Aimee Semple McPherson, pastor, was baptizing Mrs. Knowles when the woman dropped and fell to the bottom of the tank. Efforts to revive her proved futile.

BAR ASSOCIATION FAILS CONDEMN PARDON RECORD

AUSTIN, July 4.—Attempt to place the Texas Bar association on record as opposing Gov. Miriam A. Ferguson's pardoning program was defeated today when President Bobb Stayton ruled out of order a condemnatory resolution offered by W. C. Wear of Hillsboro, a candidate in the last election for chief justice of the supreme court. The resolution threw the convention into tumult with proponents and opponents of the resolution all striving at one time for recognition.

CISCO GIRL CHOSEN

Miss Ruth Williamson, daughter of Mr. and Mrs. J. M. Williamson, who was a member of Randolph college faculty last year, has been engaged to teach history in the Amarillo high school during the next term of school. Miss Williamson, who graduated with honors from Texas Woman's college at Fort Worth, is a deservedly popular young woman and well equipped for her new duties. She will go to Amarillo some time in September.

SHOE REDUCTIONS

150 pairs of Shoes, odds and ends, all good styles, and which sell regularly at our store at \$6.50 to \$8.50, will be grouped to sell for

\$4.95

Another group of stylish shoes will go at

\$5.85

We are offering all white shoes at reduced prices that are very attractive, considering that so much of the summer is still ahead of us.

ALL CABINET IS INVOLVED SAYS DOHENY

NEW YORK, July 4.—Edward L. Doheny's recent statement of the naval oil leases, if true, places some degree of responsibility for the "odious transaction" upon every member of the Harding cabinet, according to Senator Thomas Walsh of Montana, chairman of the senate committee on public lands which investigated the leases.

Senator Walsh who is on his way abroad, also regarded as important parts of the Doheny statement which he said showed that the leases were not given to Doheny to protect the oil lands from drainage by outside wells.

"Mr. Doheny asserts that the subject of the executive order transferring control of the oil reserves from the navy department to the interior department was discussed in at least two cabinet meetings, at which Secretary of the Navy Denby expressed

his desire to have the transfer made," the senator said.

"The source of Mr. Doheny's information is not disclosed but presumably it came from Secretary Denby, although it is inconsistent with the testimony given by that gentleman before the public lands committee.

"According to my recollection, Secretary Hughes and Secretary Hoover were at least asked if the subject was ever considered at a cabinet meeting. Both replied that it was not, or at least, that neither of them had any recollection of such an event. It will be interesting to learn what they have to say on the subject."

COWBOY ROUNDUP PLANS ARE MAPPED

AMARILLO, July 4.—Plans for the annual reunion of the old-time cowboys' association are well under way, according to L. Gough, president. The roundup will be held Aug. 20 at Hale Park, near Canyon. It will include old-timers who punched cattle prior to 1890. Entertainment features will include story telling, a dinner prepared by an old time Chinese range cook and a campfire program. Preparations are being made for 200 guests.

Presenting Memorial Coins To Confederate Veterans

PERHAPS the most impressive and touching ceremony in connection with the recent Encampment of Confederate Veterans at Dallas, Texas, was the presentation to their officers of the fifth, sixth and seventh memorial coins minted by Hollins N. Randolph, President of the Stone Mountain Confederate Monumental Association.

To the Veterans, these beautiful coins minted by the United States Government in their honor, have a

erected to Robert E. Lee and Stonewall Jackson could have possibly equalled in sentiment the gracious national tribute to these Southern leaders paid in the minting of these beautiful coins. Bearing the likenesses of these great leaders, enshrined in every Southern heart, as a prize pocket piece of every Southerner, of every Veteran in whose veins flows Confederate blood, they will occupy an intimate place in the affections of our people, such

Colonel Hollins N. Randolph, president of the Stone Mountain Confederate Memorial Association, presents the fifth coin minted of the Confederate Memorial currency, to General James A. Thomas, Commander-in-Chief of the United Confederate Veterans. The first of these coins was given to the president of the United States.

double significance. Not only do they bear on their face the likenesses of their beloved leaders, Robert E. Lee and Stonewall Jackson, but by one of those strange coincidences, in which many are wont to see the hand of Providence, they were struck at the Mint on the birthday of Stonewall Jackson, January 21st.

In presenting the fifth coin to General James A. Thomas, Commander-in-Chief of the Veterans, President Randolph declared: "No monument or statue which the Federal Government might have

as would be possible to no other Memorial.

"Lee died five years after Appomattox, his citizenship never having been restored, virtually a prisoner on parole. I like to think that through these coins the National Government has sought to restore that citizenship and has recognized that the valor and those manly virtues which shine forth so transcendently in the life of Lee, are national heritages, worthy to be handed down from generation to generation."

HOGS ON STEADY BASIS WITH TOP PRICE OF \$13.85

FORT WORTH, July 4.—Beef steers were neglected Friday, but cows sold readily at an advance of 15c to 25c and calves were 25c up. Mixed shipments made up the bulk of the receipts, estimated at 2,500 head of cattle and 500 calves. Some cattle, however, were on through billing. Good heavy calves reached \$7 and a few light calves went at \$8. Some hard canners sold at \$1.50, but the good canner grades sold at \$1.65 and \$1.75.

Hogs were purchased on a steady basis. The choice kinds were quotable at \$14, but the best here stopped at \$13.85. Most sales were from \$13.50 to \$13.75. Pigs and sows brought as much as \$12. Hog receipts were close to 600 head.

Around 1,000 head were offered in the sheep house. Market conditions remained quotably unchanged.

When the market advanced last week it was signal for cattle shippers to crack down. At least, they so construed it, and the only reason assigned why more shipments were not offered for sale Monday, Tuesday and Wednesday was probably because cattle could not be loaded out any faster. Official receipts for Monday and Tuesday alone were 18,661 head of cattle and 3,926 calves. The total for the five days amounted to approximately 38,000 head of cattle and calves. This compares with 34,602 head of all last week and 16,503 for the corresponding week a year ago.

RICHARDSON IS FELICITATED ON NEW POSITION

G. C. Richardson, secretary of the Cisco chamber of commerce, who has recently been appointed and accepted the position of secretary of the chamber of commerce at Brownsville, is being felicitated by many of the chamber of commerce workers of different sections of the state, as this position was regarded as one of the choice positions of the state, and the selection of Mr. Richardson is a distinct compliment. One of the latest to congratulate Mr. Richardson is from the Dallas chamber of commerce, by John Boswell, in charge of the development service. Mr. Boswell writes as follows:

"We have just seen in the San Antonio Express that you have been elected manager of the Brownsville board of city development, and that you have accepted the position. Although we will miss you greatly in this part of the state, we feel that you are to be congratulated on securing this splendid position. We happen to know that a large number of very successful secretaries were applicants for the Brownsville job, and your election is a distinct compliment to your ability. With yourself at Brownsville, Bell at San Benito and the several other splendid secretaries who are now in that section, we expect some splendid results in the Rio Grande valley soon. It is needless for me to say that the Dallas chamber of commerce will always welcome opportunities to cooperate with you in your new work.

"Mr. Saville joins me in wishing you the greatest success in your new location. He has written to the president of the Brownsville board of city development, congratulating his organization on having secured your services."

AUTO BANDITS ROB TWO
SAN ANTONIO, July 4.—Two men Friday were victims of motor bandits who took them to the city limits after pilfering their pockets, and hurled to the pavement. T. J. Doran was beaten into insensibility and robbed of \$72 as his woman friend looked on. A. A. Carr, a disabled ex-service man, was taken four miles into the country and robbed of \$35, then hurled to the road and left.

Kidnaper

MRS. MARY JONES

Mrs. Mary Jones faces a long prison term in New York following her conviction on a charge of kidnaping the young son of a woman who boarded her husband after he left her. The child, Raimonde Vor Maluski, has not been seen since. Mrs. Jones is alleged to have taken him away in a taxicab.

Southern Hospitality at Convention For 130 Bishops and 5000 Followers

Beginning October 7 next and continuing until the 23rd, the forty-eighth Triennial General Convention of the Episcopal Church in the United States will be in session in New Orleans. In attendance at the Convention there will be at least 130 bishops, many of them from missionary districts in all parts of the world, 546 clerical and lay delegates, and in addition 500 members of the Woman's Auxiliary. Altogether the Convention will muster between four and five thousand visitors in the Crescent City for the three weeks of its deliberations. There will be daily sessions of the bishops, deputies and Woman's Auxiliary, mass meetings at night, exhibits of work in the mission fields, conferences and special services of a diverse character.

The population of an average-sized small city will thus move bodily into New Orleans and the city of entertaining them will fall upon the Diocese of Louisiana at the head of which is the Rt. Rev. Davis Sessums D. D. its Bishop. It is no small task, but fortunately it is old-fashioned Southern hospitality which will be invoked in this instance; and in Bishop Sessums the Par South, which the Convention will visit for the first time in the 140 years of the history of the Episcopal Church, has no finer exponent of its famed hospitality.

Bishop Sessums, the host of the gathering, is a Southerner by birth. He was born in Houston, Texas, graduated from the University of the South, and his whole life has been spent in the Southland; as rector of Grace Church, Galveston, Texas, then of Calvary Church, Memphis, Tenn., and finally, of Christ Church, New Orleans. Elected Co-adjutor Bishop, and consecrated June 24, 1891, on the death of Bishop Gallaher the December following, he succeeded to the charge of the Diocese, over which he has since exercised jurisdiction. He is famous as an orator, and has wide influence throughout the South, not only as a Churchman, but as a broad-minded and progressive citizen, active in every interest looking to the welfare of the South and the nation. In the work of entertaining the Convention he has summoned to his assistance Mr. Warren Kearny, one of the leading business men of New Orleans, and a committee of prominent citizens, and New Orleans is ready now for the Convention which will assemble October 7 next.

Rt. Rev. Davis Sessums D. D., Bishop of Louisiana, who will be the host of the forty-eighth Triennial General Convention of the Episcopal Church in the United States, which will meet in New Orleans, October 7 to 23 next.

HORTON NAMED PRESIDENT OF EASTLAND CLUB

EASTLAND, July 4.—The Eastland gun club held its annual election of officers Wednesday afternoon. James Horton was re-elected president of the club, while J. C. Harrell and Walter Gray were elected vice president and secretary-treasurer, respectively. The officers will enter immediately upon plans for the holding of the club's big fall tournament here on September 1.

Many of the members of the local club will attend the prize shoot at Ranger this afternoon, July 4, and

the Eastland shooters are confident of bringing back their share of the many prizes which are being offered.

Scores at the traps Wednesday were, 50's—James Horton 49, Jim Amyx, 47, J. C. Harrell, 46, Guy Sherrill 45, A. C. Cameron 45, Mrs. Landon 43, Len Hightower 43, Doc Richardson 42, Walter Gray 42, T. L. Landon 39, W. A. Hackett 36, C. O. Manning 35, Kimbrell 34, E. D. Finney 33, John Hartley 30.

Doubles, 24's—Len Hightower 22, J. C. Harrell 21, James Horton, 21, Jim Amyx 19, Doc Richardson 15, Kimbrell 15, E. D. Finney 14.

CISCO CLIMATE REMINDS CHILD OF CALIFORNIA

Many have remarked on the delightful climate Cisco people enjoy, and those who were in the past headquarters of California during the heated term, have often remarked that the climate of Cisco was at all times equal, and often superior to that of the west coast state.

Yes, it gets warm in Cisco some times, so it does in California, but there are always places in Cisco where one can spend a pleasant hour even in the warmest part of the day. One of these is Electric park, situated just east of the ice factory. This resort is especially popular for the mothers and small children, who use it frequently during the warm evenings. There is beautiful shrubbery growing, and the atmosphere is always cooled by the water from the spray pond. On visiting this park one of the warm nights recently with Mrs. J. H. Blanken, enjoying the difference in the temperature from the street, her little girl remarked: "Mamma, this is like California." Mr. and Mrs. Blanken came to Cisco from California, and have revisited that state with their children since their coming here, so this little tot could notice a similarity in the climate of Cisco to that of California.

Governors Convene in Maine

Here is a group of governors and former governors sailing from New York on the steamship "Calvin Austin" for Portland, Me., for the 17th annual convention of governors. Left to right are Ex-Gov. John C. Townsend, of Delaware; Gov. Thomas G. McLeod, of South Carolina; Governor Ed Jackson, of Indiana; Gov. E. Lee Trinkle, of Virginia; Gov. Robert P. Robinson, of Delaware; Gov. Ralph C. Brewster, of Maine; Gov. John Hammill, of Iowa; Governor M. E. Trapp, of Oklahoma; and Gov. Adam McMullen, of Nebraska.

MORAN LUNCHEON CLUB ELECTS NEW OFFICERS

Make Mother Happy with a FEDERAL

SURELY, such a reward is a fitting tribute to the years of hard labor and sacrifice. To begin with, the Federal saves 2-3 of the time needed for any washing—and does it better than the old hand process. It saves health and strength; for there is no hard physical labor. Washes rugs and bankets or ingerie. No wear and tear in clothes.

It is economical in every way. Economical to buy—to keep. Nothing to get out of order. Made for a lifetime of service. Economical in use of current. 25 cents per month is the average cost to run, for every particle of electrical energy is used in the motor without waste. The Federal Washer is the most economical way to use current.

FEDERAL ELECTRIC WASHER

The Great Labor Saving Device For the Home!

Three styles to select from—all embodying the features that have made the Federal famous.

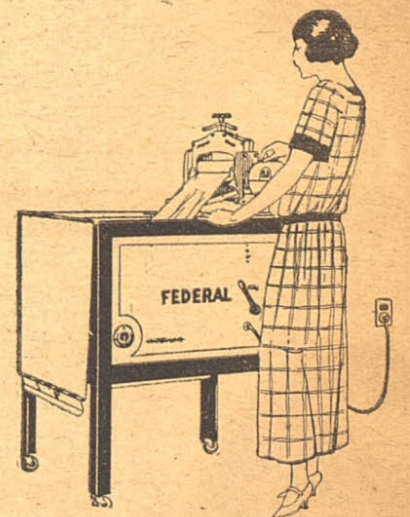

Easy to Buy --- Easy to Pay For

When you order your Federal make the first payment of a few dollars—then have the remainder charged in convenient equal payments on your regular light bill.

COUNTY SUES EASTLAND BANK SURETIES FOR \$600,000.00

Litigation has been started by Eastland county for the recovery of the \$600,000 county funds on deposit in the Eastland Security State Bank and Trust company when that bank closed its doors August 3, 1921.

Suit was filed by the county Friday afternoon in the 88th district court against the sureties of the City National Bank of Eastland, and the Security State Bank and Trust company.

The petition among other claims, alleges that originally in this transaction, the City National bank was designated as the county depository for the funds of Eastland county, which executed five security bonds aggregating \$400,000. The City National bank later transferred its assets to the Security State Bank and Trust company, conditioned on its assumption of the liabilities of the City National, including the deposits of Eastland county, which the petition alleges approximated \$600,000. This transfer, according to the allegations, was made without the knowledge or consent of Eastland county, and Eastland county did not release the City National and its securities from liability on their bonds for the funds on deposit to the credit of Eastland county.

Subsequently, the plaintiffs allege the Security State Bank and Trust company was designated as the county depository, and in February, 1921, the Security State Bank executed a personal bond in the sum of \$750,000, and during April, 1921, this bank made another bond for a like amount. On August 3, 1921, the Security State Bank and Trust company was officially closed by the state banking commission, at which time there was on deposit in the Security bank approximately \$600,000.

The petition alleges that Eastland county has made demands of the respective banks for these funds, but each bank has failed to pay or to account to Eastland county; that it is difficult to determine the date of default, or the amount due by the respective depositories, the petition alleges, and the respective securities on the bonds given as such depositories. Both the City National and the Security State Bank and Trust company, including the sureties on all the bonds, are made parties as defendants in this cause of action.

In the petition Eastland county seeks an accounting from the respective banks with respect to its deposits, and seeks judgment against both of the depositories and their sureties for the sum of \$600,000 and against such depositories and their sureties as appear are liable.

Eastland county is represented in this suit by W. J. Barnes, county attorney, J. R. Stubblefield and Chas. Robey of Eastland and E. W. Patterson of Cisco.

In commenting upon this litigation, Hon. B. W. Patterson stated that the filing of this suit is one of the campaign pledges that a suit would be filed to recover the money on deposit in the Security State bank. Another suit had been previously filed to hold the guaranty fund liable for the deposits in the Security State bank at the time that institution was officially closed, but the court of civil appeals held the guaranty did not protect this character of deposits, and the supreme court, in effect, affirmed this decision, but later granted Eastland county a rehearing, which is now pending in that tribunal.

It is evident that the county, in order to avoid the question of limitation, caused this suit to be instituted before the supreme court passed on the question finally, as a decision from that court could not be hoped for before next fall, which would be more than four years after August 3, 1921, when the Security State bank was closed.

CITY PHYSICIAN WARNS AGAINST TYPHOID GERMS

Dr. J. W. Gregory, city health officer, warns Cisco people regarding the water they drink. Cisco water is free from all typhoid and other disease germs, and no precaution is necessary while remaining in Cisco. But his warning is directed largely to those who contemplate taking a vacation trip into other parts of the state or elsewhere. Two cases of typhoid occurring among Cisco folk are directly traceable to other towns, the victims contracting the disease while visiting away from Cisco, it is practically certain, the health officer stated, "as this is the season for typhoid, and one cannot be too careful.

"Beware of drinking questionable shallow well water," is the admonition of the health officer, who stated that "great care should be taken by vacationists and summer tourists with regard to drinking all kinds of water.

"All health authorities are urging that tourists should take the 'vacation typhoid' vaccination against this most dreaded disease. Three doses immunizes the person for at least two to three years. If any of our citizens are planning a trip it is hoped that they will call upon their physician and get this protection. This is not a guess. The typhoid vaccine is positive. During the world war, our boys were given this protection, and from a great army of some five million men less than two hundred cases were had by our soldier boys. It is believed by those in authority that the soldier who developed typhoid after his induction into the army was infected before entering. Better get this protection."

TOWN COVERED WITH LAVA BY VOLCANOE'S ERUPTION

BOGOTA, Columbia, July 3.—Violent eruption of the volcano of Galeras, near Pasto, began yesterday, great flames issuing from the crater and large quantities of rocks and ashes covering the surrounding country. Communication with the towns of La Florida and Sonsaca is cut off and it is feared they have been destroyed.

The volcano of Galeras, in the table land of the Andes in Southern Colombia, near the Ecuadorian frontier, was in eruption last on May 17. An earthquake shock preceded its activity on that date. Galeras also gave signs of activity on Feb. 22, which continued until Feb. 28, the date of the earthquake shocks in the United States. Then the disturbances within the crater increased and vast quantities of ashes were thrown up, covering the surrounding country and obscuring towns.

GERMANY AND POLAND AT AN ECONOMIC WAR

BERLIN, July 4.—Economic war between Germany and Poland has been declared with the issuance of a decree by the reichsrat imposing prohibitive duties on Poland's main agricultural exports.

CHURCHES

First Methodist

All of the regular services as usual. Sunday school at 9:45; preaching 11 a. m. and 8:15 p. m.; young people at 7:30 p. m. Our new Sunday school superintendent, H. G. Bailey, will take charge this morning. Let's give him a rousing reception. So many folks are gone we will need everybody that can get to church and Sunday school. You will not suffer with heat. We have about the coolest building in town. Come without your coat if you wish. We are trying to break the record for summer attendance.—T. A. Bowman.

Christian Science

Services this evening at the Episcopal church at 8 o'clock; Sunday school at 7 p. m.; mid-week services Wednesday evening at 8 o'clock. The public is cordially invited. Strangers in Cisco will be given a cordial welcome. Subject this evening: "God."

Episcopal

Church of Our Savior. Lay services conducted by Alex Angus at 11 a. m.; Sunday school at 10 a. m. All are cordially invited. The rector, Rev. Frank H. Stedman, is in El Reno, Okla., today.

Grace Lutheran

Corner Sixteenth street and F avenue will have this Sunday with them their newcoming pastor, Herb Pie-man, being installed by the Overhouse. This Sunday the services begin at 10:30 a. m.; Sunday school at 9 a. m.; night services 8 p. m. Everybody welcome.—Herb Pie-man, Pastor.

Church of God

T. H. McNeill, pastor. Sunday school 9:45 a. m.; preaching service 11 a. m. and 8:15 p. m.; Young People's meeting 6:45 p. m., conducted by Miss May Jensen; prayer meeting Wednesday evening. Church located 11th and F avenue. The little church with a big welcome.

CHARGES RIDDLE TOOK DEPOSITS BANK DEFUNCT

DALLAS, July 4.—George W. Riddle, prominent Dallas banker, was charged with receiving deposits in an insolvent bank in four indictments returned Wednesday by the Dallas county grand jury. W. P. Cupp, who purchased the Farmers' bank of Duncanville, unincorporated, and which closed its doors shortly after the al-

leged purchase, was also charged in two indictments with the same offense.

Earl Wheeler and H. G. Musgrove were also indicted in two cases each on like charges. The banks involved are at Vickery, Farmers' Branch and Duncanville, all in Dallas county.

The indictments allege that they unlawfully received and gave assent to the reception of deposits while they had knowledge that the banks were insolvent and in failing circumstances.

Motion for a new hearing in the recent bankruptcy case involving Cupp and his connection with the Duncanville bank was overruled in federal court today. The motion asked reopening of the case in the attempt to show that George W. Riddle was still interested in the bank and liable to depositors. A jury in federal court in the first case held Riddle had no connection with the bank, having disposed of his interest to Cupp.

BROWNWOOD BODY FAVORS GAS RAISE

BROWNWOOD, July 4.—The committee of citizens selected by a mass meeting two weeks ago to draw up a proposition to present to the Brownwood Gas company in regard to a readjustment of gas rates has reported that after taking all things into consideration they had decided that it would be just on the part of the city council to permit the gas company to raise its minimum rate on 3,000 cubic feet of gas to \$2, instead of \$1.50, as it is at the present, and to retain the former rate of 50 cents per 1,000 cubic feet on all gas used above the minimum. The report was adopted and the matter will now go to the city council for consideration.

TEXAS COMPANY GETS ANOTHER DILLER GUSHER

MORAN, July 4.—The Texas company completed another big producer on the Diller lease Thursday on section 49 L. A. lands. This is their No. 21 well and is offsetting their No. 22 that was brought in Wednesday. The well is flowing. The pay was found at 550 feet and will probably do better than 200 barrels. It is on the extreme north location.

The Phillips Petroleum company touched the pay on the R. A. Elliott farm, a few miles northeast of Moran, at a depth of 2,000 feet. This well is flowing and is making an enormous amount of gas. It is located on the extreme north location of this lease and is one location west and one north of the No. 1 well that came in about two years ago. No estimate has been made on this well, but the three other producers made from 800 to 1,300 barrels, and this will probably be as good.

The Landreth Petroleum company

brought in a big gasser on the Ross Elliott land, six miles east of Moran, Thursday. This company was drilling for the 4,000 foot sand and was not expecting to find anything at a lesser depth. The well is making

more than 2,000,000 cubic feet of gas at present and has shut down for further instructions. The Landreth people will possibly use the gas for a gasoline plant and for commercial use.

Velvet Capes Loom Large On Fashion's Horizon

FASHIONS launched at the races in Paris usually influence to a marked degree the immediate and future modes and while in many instances the costumes worn by mannequins of the famous couture establishments are a bit too extreme or bizarre for general fashion exploitation, nevertheless, the origin of a successful and popular mode may often be traced back to its initial appearance at the beautiful race courses of Longchamps, Auteuil, or Chantilly.

This season considerable interest is attached to the introduction of long capes of black chiffon velvet worn over light colored silk frocks. These were worn by several of the smartest women at the races within the past week and the contrast in texture as well as in color were commented upon as exceptionally smart and attractive.

Capes it is said will assume a role of importance in autumn fashions and as evidence of this are the models included in the group designed by Martial et Armand for the Exposition of Modern and Decorative Art in Paris.

One, an exquisite affair of ab sinthe green velvet is lined with gold tissue which forms a background for an exotic design of conventionalized petals cut from velvet in two shades of rose and appliqued on with metal stitching. The effect is of a modern patchwork pattern. Another use of velvet is shown in a cape of gold tissue lined with velvet in two shades of rose.

Both have large oiled collars which are such a significant detail of the newest wraps. For the model shown in the photograph velvet in a rich tone of lipstick red is chosen. The collar fashioned like a huge ruche frames the face in a most flattering manner. Worn with a frock of white chiffon closely beaded in glittering crystals it forms an ensemble that is intriguing in its youthful appeal.

Class Party

The Daughters of Wesley of the Methodist Sunday school entertained with a party at the home of Mrs. T. E. Bowman, Wednesday afternoon, honoring the young ladies' class of the Sunday school. After an inspirational talk by Mrs. Bowman, Miss Zelia Blanche McClinton gave two splendid readings. A unique telegram contest furnished much amusement for the guests. Terminating the party refreshments of apricot ice and cake were served by the refreshment committee, which was composed of Mesdames T. J. Dean, Gid Roberts, Grover Brock, T. E. Bowman, Dossler, Hoyt Agnew. The guests present were: Mesdames G. E. Limnroth, H. E. Sothern, H. O. Hawkins, E. O. Elliott, T. B. Smith, T. L. Shepard, George Winston, B. L. White, H. E. Pye, Ben McClinton, John Sherman, J. E. Flaherty, C. C. Newton, Ed Aycock, W. E. Fairless, S. J. Taylor, M. V. Mitchell, Crigler Paschall and Misses Tommie Lee Smith, Loma V. Rainbolt, Zelia Blanche and Pauline McClinton, Maxime Smith, Lois Long, Edith Turner, Marie Glenn, Helen Gould and Marian Chambliss.

Humble Bridge Club

The Humble Bridge club met Friday afternoon at the home of Mrs. G. M. Simpson. Cut flowers and pot plants were artistically placed about the rooms, where the following guests assembled: Mesdames John N. Sloan, W. J. Armstrong, J. R. Henderson, Guy Griggs, Leo Halliburton, W. K. Esgen, Jack Hazeline, W. W. Wallace, J. R. Almond, E. C. Hitchcock, G. C. Hanson, R. E. Bridges, and Miss Mildred Davis. In the game of bridge, Mrs. Hitchcock was the winner of high score. Punch was served throughout the afternoon and at the conclusion of the games a delicious salad course and angel food cake were served. Nasturtiums were used as plate favors.

Delightful Picnic

A picnic was given Tuesday evening by a number of friends, as a courtesy to Prof. and Mrs. J. J. Godbey and family, who left Wednesday for their new home in Ardmore, Okla. One of the hills overlooking the dam was the scene of this delightful affair. After reaching the picnic grounds many diversions suitable on such occasions were greatly enjoyed.

decorated living room and when seated, Misses Bernice Key and Kathleen Speights presented her a large basket filled with many beautiful and useful gifts. After the opening of the gifts a delightful musical program was given. At a late hour the bride's cake, which bore the date, July 2, was cut and served with delicious punch. After the serving of the refreshments Mrs. Key invited the girls to remain for a slumber party which was followed by a sunrise swim at Lake Cisco. Ten girls remained for the night.

Master Williams Entertains

Thursday afternoon, Coleman Williams, son of Mr. and Mrs. T. C. Williams, entertained a number of his little friends with a theatre party, honoring his ninth birthday. The guests met at the Broadway theatre at 3 p. m. The viewing of the interesting picture was followed by a visit to Brock's where strawberry ice cream was served. Those present were: L. A. Harrison, Walter Campbell, Sterling Drumright, John Peter Huey, Charles Clark and George Alden Wells.

Christian Society

The ladies of the Christian Aid Society enjoyed a social meeting Tuesday afternoon at the home of Mrs. Bob Winston. Mrs. Jack Winston had charge of the following program: Piano and cornet duet, Mrs. F. E. Shockley and son, Eugene; reading, Miss Marie Doran; piano solo, Little Miss Dorothy Powell; reading, Little Miss

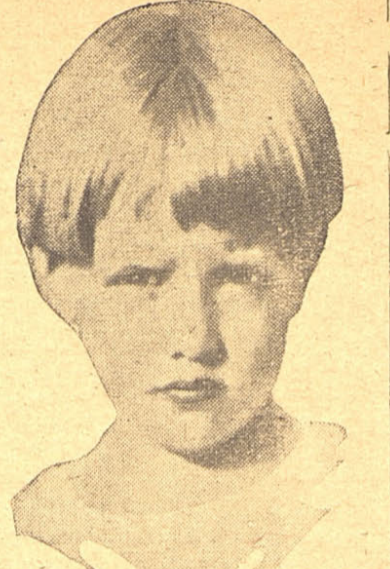

Colorful Clothes

A GROWING color consciousness and a more general appreciation of its value as an element in men's styles, is one of the outstanding features of style interest this spring. And that the acceptance of a certain colorfulness heretofore absent from masculine modes is becoming more widespread is evidenced by the numbers of men who have discarded the drab, uninteresting colors of other days in favor of the subtle tones of beige, tan, biscuit, Gothic browns and the distinctive shadings of grey and Antwerp blue that in the opinion of sartorial authorities will be among the most popular colors for summer wear.

"America is becoming a nation of knicker wearers," was the comment made on the growing popularity of golf suits and their companions, the four piece suit which, in a single model, serves a double purpose of providing an appropriate and correct costume for country wear, and in the long trousered version, is in excellent taste for town.

The increased width across the shoulders, the straight hang and plain back without a vent are features of special interest in the newest models of homespun tweed and herringbone weaves which have been imported by Hart, Schaffner & Marx and used in the development of suits that exploit the two or three button fastening, and the varied types of pockets, either patch, flap or bellows.

Saved by Knife

LOTTIE FURRH

The end of a pencil was removed from the brain of Lottie Furrh, six, of Dallas, Tex., after she had thrust it up her nose when she fell enroute home from school. She is recovering.

Joyce Ray. At the close of the afternoon the hostess served ice cream and angel food cake to the 50 ladies present.

PRIVATE JEWELS ON SUNKEN BOAT TREASURE TROVE

MEXICO CITY, July 3.—Wealthy Mexicans lost valuables on the ill-fated Ward line Merida, just located off the Virginia Capes, according to Mark J. Travivuk, purser, who has arrived here. Travivuk says that the silver and gold bars locked in his cabin were so heavy that the captain ordered the cabin braced from underneath to prevent a collapse. Forty-five packages of jewelry were also in the purser's cabin. It is reported that the Archbishop of Yucatan lost \$1,000,000 in jewels when the Merida sunk.

Travivuk believes that the personal baggage aboard the Merida will yield great treasure as Mexicans have a habit of keeping their valuables in trunks.

The purser thinks that the bars of gold and silver may be found near the ship as when it went down the craft listed sharply to the starboard and the bars may have broken through.

(STUDEBAKER)
Special Six Coach

\$665.00 down and
12 monthly payments of \$119.50

Why Call It a Coach?

THEY couldn't understand! "Why call it a coach—why confuse it with cheap closed cars?" asked the dealers at a recent Studebaker meeting. "Surely it would be better to name it the Special Six Coupe."

To be sure, the Special Six Coach is upholstered in fine quality of material—with high-grade carpeting—and heavy decorative door pulls to assist passengers in alighting.

To be sure, it is lacquer finished in two styles—beautiful Studebaker blue or a rich duotone finish of Wyandotte green-gray above and Ponca green-gray below.

And, furthermore, to get a coach as large and roomy you must pay more than \$1,000 above the price of this car.

But the fact remains—that it carries the lowest price at which a fine closed car has ever been sold on the world-famous Special Six chassis.

It is a coach—in price alone. But in quality—a fine type of five-passenger coupe.

In buying a closed car, do not underestimate the importance of engine and chassis. With extra weight to carry, these units become increasingly vital.

Plus—the Special Six Chassis

This fine coach body is especially designed for and mounted on the Special Six chassis which has contributed to the splendid reputation of Studebaker cars for dependability, endurance and reserve mileage.

Definite records show that many Studebaker have delivered from 125,000 to 200,000 miles of service. Up in the rugged country around Three Rivers, Quebec, there are eight Studebaker cars that have each traveled 100,000 miles or more.

In Stockton, Calif., one Studebaker car has piled up 138,000 miles over steep mountain grades and rough country roads with negligible upkeep—not a single major part has been purchased or repaired by reason of wear or accident.

So do not buy this Special Six Coach with the expectation that you'll have to trade it in at the end of a year or so. Instead, consider this your permanent investment in transportation. At the mileage when other cars are breaking up, this Studebaker Special Six Coach will just be breaking in.

Buy now—no need to delay

You may buy this Studebaker Special Six Coach today—or on any day of the year—with the confident assurance that no act of ours will stigmatize it as a "last year's model."

For Studebaker has discontinued the custom of presenting a new line of cars each year. Instead Studebaker will keep up-to-date all of the time—introducing new improvements and refinements as their merit is proved through practical use.

From the very beginning, the coach has been an effort towards economy on the part of automobile manufacturers. But, unlike other manufacturers, Studebaker has been able to build a coach without sacrifice in essential quality—and offer it to you at an accepted coach price.

The reason for sedan quality at coach price

Studebaker builds all of its own closed bodies—builds finer coaches than have been built before—and builds them at a lower cost—because there is no outside body-maker's profit to be included in the purchase price to you.

This Special Six Coach is built complete—both body and chassis—in Studebaker plants. It is a "one-profit" automobile.
