SAWED WOMEN'S HEAD OFF

T. W. Davidson Will Not Be Candidate For Governor Next Year—Says Lack of Preferential Primary Law Hurts Texas

BIG MONEY TOLL TAKEN BY QUAKE IN CALIFORNIA

SANTA BARBARA, July 1. — A small death toll but gigantic property damages—that was the summary today, forty-eight hours after the disastrous quake that partially wrecked this city. It is believed the deaths will not be more than a score, but the damage to property will be thirty-five million dollars, though city officials hope to hold it to ten million dollars. Thirteen now are dead and five who are missing are believed to have been killed.

DENTON "JAKE" SELLERS ENJOINED BY OFFICERS

DENTON, Texas, July 1.—Temporary writs of injunction issued out of the Sixteenth district court prohibit five more places of business here, four grocery stores and one cold drink stand, from dispensing jake, extracts or any form of preparations containing more than the legal amount of alcohol for beverage purposes. This makes six places in Denton placed under the temporary writs of injunction in the campaign of county authorities to stop the sale of tincture of ginger, extracts and other preparations that the being used for beverage purposes. The campaign will be extended to other parts of the county as soon as the officers complete their work in Denton, they said today. Hearing of the injunction cases has been set for November 2, the opening day of the fall term of this court.

PRESIDENT IS AGAIN AT REST AT HIS SUMMER HOME

SWAMPSCOTT, July 1. — President Coolidge was back at Swampscott today after his trip to his father's bedside in Vermont. He plans no more trips during the summer unless it is found necessary to visit Col. John Coolidge again. The president's father is much better today.

Divorce Snarl

MRS. IDA M. SYMINGTON & TALBOT W. CHAMBERS

A few hours after he had admitted indiscretions with Mrs. Thomas H. Symington, wife of a millionaire New York manufacturer, Talbot W. Chambers, clubman, was placed under arrest on a statutory charge. He then denied guilt on the statutory case and laid himself open to prosecution for perjury.

AUSTIN, July 1.—The followers of former Lieutenant Governor T. W. Davidson of Marshall in the gubernatorial campaign of last summer will be denied the privilege of supporting him next year. The Marshall man is here attending the state convention of the Texas Bar association and paused long enough to say he would not be a candidate for governor for at least two years.

In one breath he condemned the double primary as a rank failure and said the Klan issue in Texas politics was not a thing of the past as most people might think.

While he announced his withdrawal from politics for the next two years, the former Lieutenant Governor pledged his support to rectifying the primary election laws of the state.

Analyzes Situation

Davidson, in making an analysis of the political situation declared that if a large number of candidates entered the field at the coming election the run-off primary would be between the Ferguson forces and a Klan supported candidate. He declared that if Texas had a preferential primary system the situation would be different, saying "neither Ferguson would have been in the race this last time nor would Earle B. Mayfield have beaten such men as Culbertson, Owsley and Thomas."

Davidson's statement in part says: "I make this early announcement that I will not be a candidate for governor next year because of my official connection with the State Bar association, which is rapidly growing in numbers and influence and I do not feel that the association should give the appearance of allowing itself to be used to advance the political interest of a candidate for governor.

Three Channels

"The public mind in the next primary election will flow toward the polls through three main channels; first, the administration forces; second, the anti-administration forces; and third, a great body of more or less apathetic citizens who would like to see a new deal. The Klan forces in Texas are not as dead as some seem to think, but will rally considerably to the anti-administration forces.

"This will tend to weaken the candidate that they espouse and to strengthen the administration. It will leave in the third group room but for one strong candidate. Lynch Davidson has already entered this field, with a considerable organization. I am reasonably assured there may be other entries. Unless this group of more or less independent thinking voters, a majority of whom voted for one of the Davidsons in the last election, or for one of the other candidates receiving a smaller number of votes can be aligned in a large measure behind one man, then the final or second primary will be between the administration candidate and the anti-administration candidate.

Like Pendulum

"Our policy swings like a pendulum, from one extreme to the other, and in the absence of a preferential primary or a convention it will be difficult to stop on any sane middle ground.

"We need first of all an amendment to the primary election system. The people will not support a candidate in the coming race whose platform declarations are adverse to such a law. Texas will go on the preferential primary or return to the old convention system. Until we do factions and organized minorities will run the politics of the state.

"I am conscious that my decision will be a disappointment to many of my friends who are already so kindly offering their support in the coming campaign. To them I wish to say that in my judgment the time is not auspicious. I wish to assure them that I am neither losing interest in the affairs of my state nor am I retiring from the political arena. We won our fight and it is only temporarily that we will be denied the reward."

MRS. DAN SMITH LEARNS OF DEATH OF BROTHER-IN-LAW

Mrs. Dan J. Smith has just received a message announcing the death in Hot Springs Sunday night of C. S. Bell of that place. Deceased was a brother-in-law of Mrs. Smith, and both he and his wife have visited Mr. and Mrs. Smith in Cisco in the past.

They Figure

Above: DR. CHARLES MAYO Below: ADMIRAL L. C. PAINE

Dr. Charles Mayo, Rochester, N. Y., degree from the University of Paris came acting head of the Government his vacation. Admiral L. C. Paine, private ownership of Government, Frederick C. Hicks, alien property, the department with sweeping changes in the personnel.

DRIVE OUT "BLUE FACED CANNIBAL DEVILS" IS AIM

SHANGHAI, July 1.—Asserting that the "blue-faced cannibal foreign devils" were still undefeated, agitators were precipitating new riots throughout this city today in an attempt to rid China of Japanese and British. The strike is continuing in full force.

PROGRESS AND GOOD HIGHWAYS KILL DISTANCE

"Time and progress has wrought many changes," said W. H. Kittrell, after accompanying Judge D. K. Scott to Eastland on business Monday. "We left Cisco at 9 o'clock, transacted business with the county clerk, the county court at law and the abstract office and returned to Cisco by 11 o'clock. On the return trip Judge Scott remarked that every time he made this trip of ten miles to Eastland he remembered those trips of the past when he dreaded the all day drive, especially when it was raining and the roads were muddy. Now, the drive is made in 20 minutes, and only a couple of hours' absence is necessary to attend to business at the county seat. Great have been the changes in the past ten years," Mr. Kittrell soliloquized.

MONTANA AND CALIFORNIA QUAKE ARE UNRELATED

WASHINGTON, July 1.—The California and Montana earthquakes, although occurring so closely together, were said by William Bowie, chief of the division of geodesy of the coast and geodetic survey and president of the International Geodetic association, to have been unrelated. Pointing out that congress is expected to appropriate funds at the next session for the earthquake survey of the United States authorized at the last session, he asserted that the disturbances are local phenomena and that no community is absolutely free from the possibility of such an occurrence.

Decatur—Million dollar bond issue to be voted on June 27 for construction of system of highways throughout county.

DO YOU REMEMBER ?

(Dallas News, April 28, 1894)

CISCO, Eastland Co., Tex., April 28, 1894.—Cisco held memorial services today on account of the cyclone, which one year ago demolished the town and killed a number of people. The Knights of Pythias lodges, school children and citizens formed in line at 9 o'clock and marched through the city and out to the cemetery, where services were conducted by Rev. R. F. Dunn of the M. E. church, who spoke of the pleasant and busy scenes on the streets one year ago today, all unmindful of the pending disaster wrought by the hand of providence a few hours later (the time of the destruction being at 9:05 p. m.) The roster of the dead was then read by Prof. B. W. Glasgow, principal of the public school as follows:

Capt. R. M. Whitesides, Dave Cameron, M. B. Owens, Mart Owens, Jr., Ruby Owens, Mrs. Martha Thomas, Mrs. W. H. Knight, Mrs. Jones and baby, Julia Hickman, Pearl Hickman, Carma Hickman, Lillie Hickman, Guy Hickman, Mrs. Wharton, Wade Bledsoe of De Leon, Jim Bibbes of Walnut Springs, William Simms, unknown, J. C. Horton, Mrs. L. D. Ladd of Eastland, Mr. Beeman, Miss Panola Ellis, Arthur Moeller, Total, 23.

While the band executed a dirge those present sought the graves of their friends as listed above and decorated them with flowers, great baskets full having been contributed yesterday by Morgan, Walnut Springs, De Leon and other towns down the Texas Central railway.

The benediction was then pronounced and the assembly dispersed. The first annual ceremony of the citizens was impressive. The graves were freely watered by loving tears and beautified by the kind hands of affectionate relatives and friends. Thus closes the last sad chapter in Cisco's eventful history for the year ending April 28, 1894.

PRINCE OF DENMARK IS DECORATED FOR BRAVERY

FEZ, Morocco, July 1. — Prince Aage of Denmark, fighting as a captain with the French foreign legion, has been decorated with Croix Degerre, it was announced today, for bravery, in leading the troops under fire from the Rifians. Prince Aage is a son of King Haakon of Denmark, and a cousin of King Victor Emanuel of Italy. Reports say the Rifis are driving the French back with heavy losses along the Moroccan front.

ON HIS PREMISES

The home of Dan J. Smith is becoming famous for the nice fruit and vegetables grown in his orchard and gardens. Mr. Smith always has something just "a little better" growing on his premises. Today he brought to the Daily News office fine specimens of the Mamie Ross and Pear's Beauty peaches, plucked from trees grown at his home. He has fifteen trees of fine varieties of peaches growing, but some of them are too young to bear, but those bearing are very fine.

Mr. Smith is 71 years old, and has been a resident of Cisco for forty years, coming here from Arkansas, and takes considerable pride in "growing things" on his quarter of a block at Fourth and H avenue. He is not a farmer, but none raise better fruit, vegetables and flowers. Then his example bears fruit, as his neighbors are benefitted by his example, for he told Alex Spears how to get rid of the Johnson grass on his quarter of a block on the east, and instead of a hay meadow Mr. Spears has a nice young orchard coming on, and between the trees the land is cultivated in vegetables and flowers—something useful instead of the grass that formerly covered the lot.

MATCH TONIGHT EXHIBITION OF FISTIC PROWESS

The stage is all set for the big boxing exhibition which will be pulled off tonight at the legion stadium, and as the weather is much cooler today than has prevailed for the past week, the legionaires expect a large number of fans to be in attendance. These exhibitions are deserving of the patronage of the public, as the local post is putting up some good boxers, and the proceeds will be used to augment a fund to erect a building on the legion lot at E avenue and Fifth street.

Both the main bout, which is between heavy weights, and the semi-finals, promise to be interesting from the sound of the bell till the exhibition is over. The gladiators are all in fine fettle, and a real scientific exhibition of boxing is on the card for this evening. Ladies admitted free, when accompanied by a gentleman.

Dallas—Plans have been drawn for extension of Turtle Creek Boulevard from present terminus in Highland Park through University Heights.

Will Arthur, Negro Held in Kansas City, Will Be Extradited For Most Wanton Crime In Criminal Annals

AUSTIN, July 1.—Governor Ferguson has issued extradition papers on the governor of Missouri for the return of Will Arthur, an escaped negro murderer, to Texas from Kansas City, where he is being held for Texas officers. The crime for which Arthur was indicted was one of the most wanton and heinous in the criminal annals of the state, officers declare, who state that he was indicted for murder of a negro woman whom he held while he sawed her head off.

PARKS PUBLIC RIFLE-PISTOL SHOOT JULY 4

"The president of the United States has designated our national holiday for holding the national defense test, and Parks Rifle club will celebrate the occasion with a public rifle and pistol shoot at the club gallery," said J. P. Mason this morning. "The Parks Rifle club invites the public to make free use of their 22 target and pistol gallery, furnishing targets free to any who wish to shoot. The club's rifles will be loaned to all who use the gallery. The club has light rifles for the ladies and heavier ones for the men. The gallery has electric lights and is equipped with a 75-foot range, and will be operated from 8 a. m. till 12 m. by club members, being closed in the afternoon so the members can attend the celebrations in the neighboring towns. The public is invited to take advantage of this opportunity to get some practice and to try their skill with the rifle and pistol," said Mr. Mason.

ANNUAL CAMP BOY SCOUTS TO START FRIDAY

The first troop, Boy Scouts of America, will hold their fourth annual camp at the scout cabin on Lake Cisco, beginning Friday evening. The boys will leave after supper and stay over the Fourth, returning Sunday morning in time for Sunday school. They will take part in the swimming, diving and boating contests, besides having a chance to pass a number of scout tests.

If you intend to make this trip, scouts, get in touch with Ernest E. Lennon, acting scoutmaster, and register before scout meeting Thursday night. Don't forget, scouts, this is the longest camp the local troop has ever attempted, so don't miss any of the fun.

The fee for this camp is one dollar, which covers the cost of four meals. All scouts making this trip must re-register for the coming year in order to be eligible for camp. Total fee for registration and camp is \$1.70. (This does not include swimming fee).

Whether you are going to camp or not, come to scout meeting Thursday night at the American legion club rooms, as there will be something doing of interest to all.

TICK SUPERVISOR ARRIVES

EASTLAND, July 1.—H. C. Clark of Graham, district supervisor for tick eradication, will take active supervision of the tick eradication work in Eastland county beginning today, it is announced. E. A. Hudson, who has been in the service for three years, will remain in Eastland county as inspector with headquarters at Ranger.

BROWNWOOD MEN HELD FOR ASSAULT

BROWNWOOD, July 1.—Three young men have been arrested at Bangs and placed in jail here, charged with assaulting A. L. Hughes, conductor on a Santa Fe freight train. Hughes was so badly beaten on the head and face that he was taken to the company hospital at Temple for treatment.

EMBEZZLEMENT CHARGE AGAINST NEW APPOINTEE

AUSTIN, July 1.—Claude Callaway, newly appointed chief clerk of the oil and gas division of the Texas railroad commission was arrested on three charges of embezzlement on the eve of assumption of his duties in the railroad commission office, and is being held for return to Shackelford county.

LOCATION HAS BEEN MADE ON HITTSON LAND

The T. B. Hoffer Oil Co., which recently closed a lease contract for a big block of acreage on the W. T. Hittson ranch north of Cisco, has made a location, and the rig is now being built for the well which will be drilled right away. The contract for drilling the well, it is understood, will be let this week for a well of 3,900 feet, which was the approximate depth of the oil found in the Donovan and other wells north of Cisco. The Hittson tract is north of the Ward lease, where Gilman and Simmons and the New Domain have brought in oil and gas producers.

It is indicated that the north Cisco field is due for considerable oil activity in the near future, as reports come here that the Phillips Petroleum company will soon begin the erection of a casinghead gasoline plant within the vicinity of the Donovan well, as it is thought the well is that district will supply plenty of gas for a casinghead plant. The Charley McClelland well is the biggest gasser in that district, and a casinghead plant out there would utilize the gas from this well.

POULTRY AND EGGS

AUSTIN, July 1.—With Chicago firm to unchanged and a stronger tone at Texas points, the trend of egg sales continued upward this morning. Butter was fully steady on recent advances, but poultry was barely holding its own. The range of prices delivered Texas points follows: Poultry—Hens 14c to 16c, springs 20c to 27c; old roosters 9c; turkeys 16c to 17c pound liveweight; geese 75c; ducks 50c and 60c; guineas 75c each. Eggs—No. 1 candled \$8.40 and \$8.50 case; infertile mostly \$9. Butter—Packing stock county 20c and 25c, creamery A 43c, creamery B 41c.

Hustler

EUGENE PFEIFFER

Eugene Pfeiffer, fifteen, of Houston, Texas, was so anxious to study law that he walked all the way from his home to Petersburg, Tenn., to enter a boarding school when family funds would not permit his taking a train.

THE AMERICAN LANGUAGE

An English professor is coming over to edit a dictionary of American English, or, more properly, the American language.

Yankee professors, after refusing to admit these many years that there is such a thing as an American language, have happened upon the amazing discovery that there is one after all, and are bent now on isolating and imprisoning it in the marble walls of lexicography.

Ambrose Bierce, himself a master of English, satirically defines a lexicographer as a "pestilent fellow who, under pretense of recording some particular stage in the development of a language, does what he can to arrest its growth, stiffen its flexibility, and mechanize its methods.

"For your lexicographer, having written his dictionary, comes to be considered 'as one having authority,' whereas his function is only to make a record, not to give a law.

"The natural servility of the human understanding having invested him with judicial power, surrenders its right of reason and submits itself to a chronicle as if it were a statute.

"Let the dictionary (for example) mark a good word as 'obsolete,' and few men thereafter venture to use it, whatever their need of it and however desirable its restoration to favor—whereby the process of impoverishment is accelerated, and speech decays.

"On the contrary, the bold and discerning writer, who, recognizing the truth that language must grow by innovation, if it grow at all, makes new words and uses the old in an unfamiliar sense, has no following, and is tartly reminded that 'it isn't in the dictionary,' although down to the time of the first lexicographer no author had ever used a word that was in the dictionary."

Bierce recalls the golden prime and high noon of English speech; when from the lips of the great Elizabethans fell words that made their own meaning and carried it in their very sound; when a Shakespeare and a Bacon were possible, and the language now rapidly perishing at one end and slowly renewed at the other was in vigorous growth and hardy preservation, the lexicographer was a person unknown, the dictionary a creation which his Creator had not created him to create.

Don't be afraid to use a picturesque, unstilted, effective word, regardless of whether it is in the dictionary. If it's a good word, it'll be there eventually.

And if you converse in the tongue your neighbors understand, abandon the idea that you speak English. American is your language.

OPPORTUNITY

"One of the greatest crimes of the age," Senator Fess remarks to a business college class, "is to tell young people that America is not a land of opportunity."

It is not only criminal but foolish. Anyone who really thinks that "there is no such opportunity in this country as there used to be" doesn't know the history of his country or isn't awake to present conditions.

What conspicuous successes of the past cannot be matched now? Certainly not those of business achievement. The country is full of millionaires who have risen to their wealth from poverty. It is also full of professional men who, starting life poor and ignorant, have risen to distinction for scholarship and scientific achievement. It is full of men who, born apparently "without a chance," now occupy high places in public life.

It was the exceptional man who rose to wealth or eminence in the past. It is the exceptional man who rises to eminence or wealth today, or will do so tomorrow. But that is only because so few are really alert and persevering.

Conditions change in form, but opportunity continues and spreads, growing with the population and wealth of the country. The essential thing is to do what the opportunists of former times did—fit their energies and abilities to the needs of the day.

Opportunity is ever shifting, and comes not once to every man, as the poet said, but over and over again to every man and woman. It is especially so in America, where conditions and classes are so plastic and the forces of life are always flowing full and strong. Only the dull do not see it and the lazy do not use it.

EMBATTLED SCIENCE

In a way, all that spectacular marshalling of local, scientific and oratorical talent at the Scopes trial in Dayton, Tenn., which opens July 10, looks superfluous.

To a layman, considering the main facts in the case, it looks rather simple. The legislature enacted a law providing punishment for any teacher who should teach evolution. The defendant taught evolution, and admits it. It looks like sure conviction, if the legal machinery works as it was intended to, in spite of mitigating circumstances. Technically, the defendant looks like a goner. And it looks as if some of his scientific friends really want him convicted, as a "martyr to science."

Nevertheless all the elaborate preparations on both sides, all the scenery and talent, all the color, sound and fury, are probably a good thing. For they will exploit the case for all it is worth and show what it really means.

There will be a notable clash between two ideas, two interpretations of human life and destiny. The case is immensely bigger than anybody in it. Science, rather than the science teacher, is on trial. Theology, not the "state," is the plaintiff. And if the two sides are presented and reported adequately, several million people are due to learn something.

ITALIAN PAYMENT

Italy is beginning debt negotiations at Washington. The Italian government assures this country more convincingly than ever before of its willingness to repay the American war loans. At the same time it pleads the necessity for easy terms. Italy says she can pay if she is allowed a long period for payment, low interest rates, a few

years' delay before starting, and especially low tariff rates to enable her to export more goods to this country, from which to obtain the money to meet payments. Regarding the first three of these conditions there may not be much difficulty. It is recognized in America that Italy is heavily burdened by debt and in none too good financial condition, with limited resources to draw upon. American sentiment is evidently favorable to making the terms generous for honest debtors who sincerely want to pay. But it is hardly conceivable that special tariff privileges will be granted any foreign country for such a purpose.

DINNER STORIES

It was just after the banquet and the toastmaster arose to introduce a prominent elderly speaker, and said: "Gentlemen, you have just been giving your attention to a turkey stuffed with sage. Now you will please give your attention to a sage stuffed with turkey."

Billy Sunday stopped a newsboy in a city where he was conducting a revival and inquired the way to the postoffice.

"Up on block and turn to the right," said the boy.

"You seem a bright little fellow," said Sunday. "Do you know who I am?"

"I'm Billy Sunday, and if you come to my meeting tonight I'll show you the way to heaven."

"Aw, go on!" answered the youngster. "You didn't even know the way to the post office."

The colored minister was loud in his praise for the goose which Elder Johnson had served for dinner.

Finally he said: "Brother Johnson, where did you get such a fine, fat, tasty goose?"

"Pahson," replied the elder, "when you preach a specially good sermon, does I ever ast you where you get it at?"

When Queen Liliuokalani was in England during the English queen's jubilee she was received at Buckingham palace. In the course of the remarks that passed between the two queens the one from the Hawaiian Islands said that she had English blood in her veins.

"How so?" inquired Victoria. "My ancestors ate Captain Cook," replied Liliuokalani without a smile.

THE STATE OF TEXAS AND COUNTY OF EASTLAND

To Mrs. N. G. Poe, and her husband, H. C. Poe:

To all persons owning or having or claiming interest in the following described land delinquent to the Cisco Independent School District in the County of Eastland, State of Texas, for taxes, to-wit:

WAR WOUNDS AND MERCIES

The airplane ambulance is proving very useful on the French front in Morocco. It is reported that 80 per cent of the severely wounded French soldiers are transported to the base hospital by airplane. Frequently very bad cases have been brought to the hospital within two or three hours. This means, of course, that surgeons can cure for wounds promptly and effectively. It does away with a good deal of preventable suffering and sickness. But to the person whose mind refuses to admit the inevitability of war, many such humanitarian accessories to a battlefield are puzzling. Slaughter and mercy, diabolical ingenuity in devising new and terrible instruments of death along with marvellously efficient methods of saving life—these seemingly incompatible characteristics of war are found side by side. Civilization is needlessly convicting itself of incompetence if it does not set the fighting energy to work on something constructive and beneficial.

BAD COOKING

Sir Albert Fripp, surgeon-in-ordinary to the king, pronounces English cooking "abominable." That is, the cooking done by English women. If there is anything "more commonplace and dull" than their cooking, Sir Alfred would like to know what it is. He tells the women to their faces, but more in sorrow than in anger, for he himself doesn't have to eat their stuff. And in his largeness of heart he is encouraging a movement to teach them how to cook and bring them to regard that occupation as an art rather than an irksome duty.

Lady Eve Trustram agrees with Sir Alfred's verdict, saying:

"There is very little variety in what is served in the English middle class homes, and the average housewife has no idea what is meant by vitamins and other food value. Much of the house-keeping money is spent in buying what is believed to be good food, but what is in reality of little value from the point of view of building up bone and muscle. Menus are monotonous, and the housewife clings with almost pathetic faith to the English tradition of roast beef and leg of mutton. It is all nonsense to say that a man should have a pound of grilled steak."

It is generally admitted that home cooking is at a low ebb in England. If the English race is growing stunted and decadent physically, perhaps it is due as much to that cause as anything else.

What would those critics say, however, if they saw the extent to which the frying pan is used, and the delicatessen shop patronized in this country, and the way many people in the warmest part of the United States consume fats and sugar, thereby turning themselves into furnaces.

GHOST DRAWS GUN. FARM HAND FLEES

BAYNESVILLE, Kns., July 1.—While plowing in an abandoned cemetery near here recently, Martin Conway, 17 years old, suddenly believed he saw people arising from graves. "I didn't run at first," Conway told authorities when he was found later at Schulte, six miles north of here, "but when one of the fellows drew a gun on me I decided it was time

to leave." Those handling the case believe the intense heat which was prevalent at the time caused the youth to become mentally unbalanced. Friends will see that he is returned to his home at Anderson, Mo.

Grand Jury Thinks Parents Should Control Their Young Folks Better and Regulate Night-riding Habits

CHICKEN THEFT MAY STOP WITH THREE ARRESTS

RANGER, July 1.—Pilfering of chicken ranches and farmers' hen houses should slacken, according to police officials, as a result of the arrest of three young men of Ranger who are said to have made a statement to police relative to having pilfered a number of hen houses in the vicinity of Ranger. The one deed that was fastened on them and paved the way for their statement was the looting of the hen house of Bud Williams, about three and one-half miles from Ranger on the Desdemona road. About 28 chickens were taken on that occasion and the car in which they made their getaway was seen at the number taken. The Chandler car, belonging to it is said, to Roy Cravens, one of the older brothers, did not have any license plate on it when located, but the plate was discovered later. Numbers on the plate were registered under the name of a Mrs. Hill of Abilene and belonged to a Ford roadster. No explanation was made as to how the number plate came into Craven's possession.

Roy Cravens, Odie Pruitt and Joe Pugh, all between the ages of 15 and 18, confessed to stealing the Williams chickens, the police claim, and are now charged with theft. They are being held in jail pending final disposition of the case by county officials. The arrests were made by local police officials, who were on the lookout for the Chandler car, described by Mr. Williams.

RANGER T. & P. STATION MEN ROBBED OF \$99

RANGER, July 1.—Railroad detectives are here today investigating the station robbery when a lone bandit stuck up the Texas & Pacific ticket office early Tuesday morning and escaped with \$99 in cash.

W. H. Lasater, night operator, and W. E. Clark, baggage master, were held at bay with a pistol by the bandit who wore khaki and had a handkerchief over the lower part of his face. A dozen men, asleep on the lawn of the depot, were rounded up by police and searched but very little money was found on any of them. The stick-up was the second robbery of importance here in three days. Sunday morning yeggs blew the safe of the Ranger Steam laundry, but got nothing. Ranger authorities believe that an organized band of yeggs has made its headquarters here and is bent on pillaging the oil fields.

MAN HELD AFTER BOY IS BEATEN TO DEATH
MOBERLEY, Mo., July 1.—Following the death of Pharus Dugger, 8-year-old boy who died from the effects of a beating Monday, William Minor, 43 years old, was arrested here on a charge of felonious assault. Minor is alleged to have beaten the lad after young Dugger threw rocks at him.

Coolidge Guard

NORMAN A. PHILLIPS

Policeman Norman A. Phillips, of Lynn, Mass., guards the outer door to President Coolidge's summer executive office in the Security Building.

The grand jury adjourned Tuesday afternoon and made its final report to Judge George L. Davenport of the 91st district court. Among the fifteen true bills for felonies returned one was against Dee Johnson for the burglary of the Jno. H. Garner's store, and one against Albert Florence for the murder of Arthur Toombs.

Among the recommendations made by the grand jury in its final report is the co-operation of all produce dealers to inquire into the ownership when purchasing poultry from unknown persons. The body also takes cognizance of the sale of "jake," and asks dealers to sell this drug only for legitimate purposes. The report in full follows:

To the Honorable George L. Davenport, Judge, District Court, 91st Judicial District, Eastland County, Texas:

We, your grand jury, duly empaneled, most respectfully submit to your honor the following report:

We have been in session for a period of seven days, during which time we have examined 160 witnesses, and upon their testimony we have returned eighteen true bills of indictment, of which fifteen were felonies and three misdemeanors.

We have inspected the county jail and premises, and find same to be in a sanitary and well-kept condition, and are fully of the opinion that the prisoners kept therein are being well treated.

We heartily commend the splendid spirit of co-operation now existing between the official departments of Eastland county, and the support which each is giving to the other in the performance of their respective duties. Furthermore we commend the diligent activities of the county attorney's and the sheriff's department in the work that is being accomplished and has been accomplished during the past several months as is evidenced by the comparative lack of lawlessness and law violations existing in this county at this time.

It appearing to this grand jury that there has been numerous petty violations perpetrated by the youth of our county, which are generally traceable to the use of what is commonly known as "jake" or Jamaica ginger, mingled with night rides and parties, we respectfully recommend to the parents a more vigilant care and protection of their children, and we especially recommend that all citizens of this county take upon themselves the responsibility of citizenship and law enforcement and encourage the youth of our country to lead straight-forward, honorable lives and as the occasion may arise to lend words of advice and encouragement to our youth, to the end that they may grow up to be law abiding and law enforcing citizens. We most respectfully appeal to the retail merchants of our county with the request that they hereafter refuse to sell "jake" and such other intoxicating products to the citizens of our county where it is known that such purchase is being made and such product is being obtained for use as an intoxicating beverage. And in this connection we regard the indiscriminate sale of "jake," especially to the youth of our county, as a deplorable crime against society and the well being of our citizenship, and we especially implore the co-operation of every good citizen in each community in our county to the end that this condition may be suppressed.

It appearing to this grand jury that throughout the county there has been a great deal of chicken stealing, and in most cases it appears that such stolen chickens have been disposed of to the produce dealers and cafes of the

county, we respectfully recommend that the sheriff's department and the county attorney's department request that all produce and poultry dealers require the sellers of poultry to furnish them with sufficient identification in all cases, and sufficient evidence as to the title to the poultry sold, believing that such co-operation on the part of purchasers of poultry will in a large measure control such petty thefts throughout the county.

We desire to thank the county attorney and his department for the splendid assistance and spirit of co-operation they have rendered as during our session; we also desire to thank the bailiffs appointed by the grand jury for the splendid service they have rendered, and for the splendid work they have done for us; also the sheriff's department for their services and co-operation.

Respectfully submitted: W. E. Tyler, foreman; H. W. Kutenan, C. M. McClelland, W. N. Compton, J. J. Gattis, T. L. Scott, Bob Cox, J. L. Lary, H. L. Vestal, E. H. Webb, E. Day, Minter Womack.

STUDEBAKER GUARANTEES RESOLD CARS

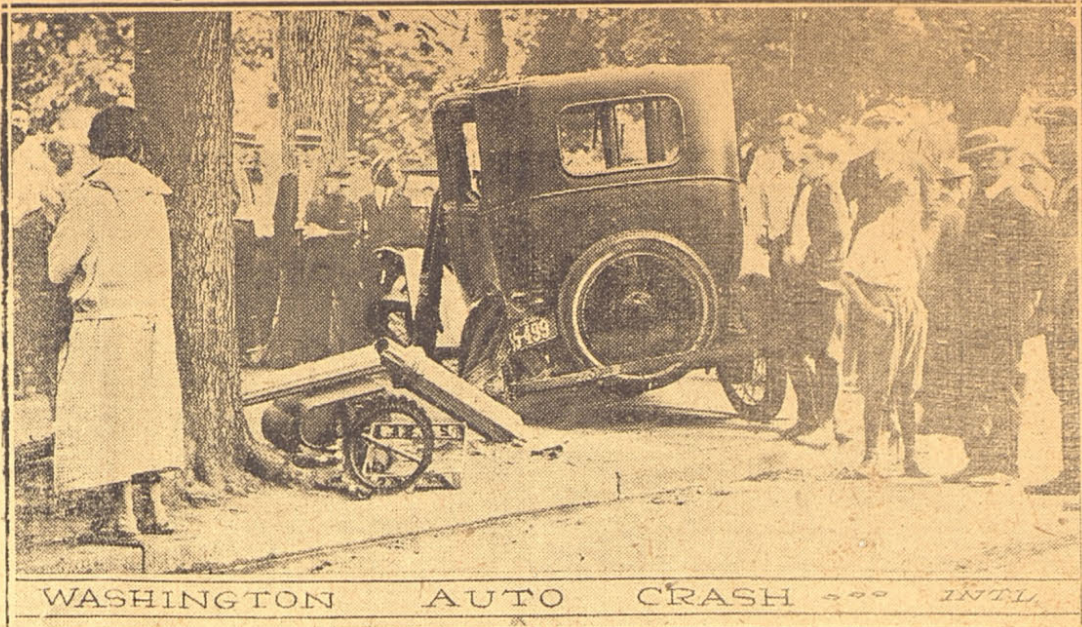

Square deal merchandising of used motor cars, established by Studebaker dealers with the backing of the Studebaker corporation; ends any uncertainty attending the purchase of a used car, declares F. A. Blankenbecker, of the B. & H. Motor company, local dealers, and among the first to sign the nationally adopted Studebaker pledge to the public on used car sales. In signing this pledge, Studebaker dealers agree to the following:

1. All used cars offered to the public shall be honestly represented.
2. All Studebaker automobiles which are sold as certified cars have been properly reconditioned, and carry a thirty-day guarantee for replacement of defective parts and free service on adjustments.
3. Every used car is conspicuously marked with its price in plain figures, and that price, just as the price of our new cars, is rigidly maintained.
4. Every purchaser of a used car may drive it for five days, and then, if not satisfied for any reason

Bootlegger's Car Kills Nun

Fleeing pursuing police, an automobile driven by a Washington, D. C., liquor seller crashed into the sedan occupied by Sister of Charity Cephas and her companion on a shopping tour for a hospital. Sister was killed. The remains of the sedan are shown above.

son turn it back and apply the money paid as a credit on the purchase of any other car in stock—new or used.

To sell unused transportation rather than used cars is the keynote of the Studebaker pledge plan. It is generally recognized that many cars are traded in on new cars before their full worth has been exhausted. This is especially true with Studebaker cars, hundreds of which show records of 100,000 to 300,000 miles and some even as high as a half million miles of service. Yet the average car turned in has been driven but 28,000 miles. To take advantage of this reserve transportation, most of the Studebakers taken in trade are repainted and

otherwise reconditioned before being offered for sale. These are known as "certified sixes" and carry a guarantee of 30 days free service on adjustments and replacement of defective parts.

"The Studebaker pledge to which we have unconditionally subscribed is the most progressive step ever taken by any automobile concern," said Mr. Blankenbecker in commenting on the common sense method adopted by the Studebaker factory for regulating the sale of used cars. "It enables the purchaser to know exactly what he is buying, and to purchase with the full assurance that we stand squarely behind the car he buys from us."

Daily News want ads pay.

GRAHAM MAN ASKS TERM FOR BIGAMY
EASTLAND, July 1.—Apparently desirous of serving time for all his misdeeds while he is about it, a man has written a letter to District Attorney W. J. Barnes, admitting that he is guilty of bigamy and asking to be tried. The letter was the first intimation the authorities had that the offense had been committed. The writer of the letter, giving his address as Graham, "care of the Sheriff," stated: "I already have over me four years in the pen and would like to get it all over with as soon as possible. The District Attorney is making an investigation before filing a complaint."

If Kidneys Act Bad Take Salts
Says Backache Often Means You Have Not Been Drinking Enough Water

When you wake up with backache and dull misery in the kidney region it may mean you have been eating food which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.

THIS IS A STUDEBAKER YEAR

Pledge to the Public on Used Cars

- 1 All used cars offered to the public are honestly represented. If a car is suitable only for a mechanic who expects only a few months' use, it is sold on that basis. Each car must be sold on that basis.
- 2 All Studebaker automobiles have been properly reconditioned, and carry a thirty-day guarantee for replacement of defective parts and free service on adjustments. This is possible because tremendous care is given to every Studebaker, which is its merit.
- 3 Every used car is conspicuously marked with its price in plain figures, and that price is rigidly maintained. The public can deal in confidence on this basis, every one of them must.
- 4 Every purchaser of a used car may drive it for five days, and then, if not satisfied, may apply the money paid for the car to the purchase of another car in stock—new or used. It is assumed, of course, that the car is in good condition, or other accident in the past.

Not only to the public, but also to The Studebaker Corporation of America, whose cars we sell, we pledge adherence to the above policy in selling used cars.

B. & H. MOTOR CO.

The Studebaker Corporation of America takes pride and pleasure in announcing that the above Pledge is being carried out by

B. & H. MOTOR COMPANY
AT SIXTH AND E

THE Pledge speaks for itself. It is a formal declaration of the fair and square attitude of Studebaker dealers toward the public. It is an assurance of honest dealing in a line of merchandising

which in some times and places has fallen into ill repute. It is an assertion of confidence in the reserve mileage built into the sturdy "one-profit" Studebaker automobiles.

AMUSEMENTS

Broadway Last Time Today
 Milton Sills and Noah Beery, principals in Jesse D. Hampton's picture of "The Spoilers," claim the world's championship in the long distance fighting handi-cap.
 Sills, playing the role of Glenister, and Beery in the role of McNamara, battled five straight days, shed quantities of real gore and received more black and blue spots than there are a Chinese lottery ticket before they satisfied Director Lambert Hillier.
 They were taking scenes in the fight which occurs between the two enemies in Rex Beach's novel, "The Spoilers," at the Broadway theatre, and were determined to outdo the famous screen battle staged by William Farnum and Tom Santschi in a film version of the book made ten years ago.

Coming Tomorrow
 Among the many comedy angles in "Racing Luck," the starring Monty Banks at the Broadway theatre tomorrow there is one that will appeal to all auto enthusiasts, whether they own cars or are saving up to buy them. This is the one where Monty takes lessons in driving. Monty almost loses his life and knocks down everything that he hits and he hits everything to the right, left and middle.
 "Racing Luck" is Monty Banks' first big production, this popular comedian heretofore confining his screen activities to two-reel subjects. Monty plays a young man who has so many things happen to him that his days and nights are too short to keep track of them. He falls in love with Rosina, played by Helen Ferguson, and his love affair tags him as a special mark of persecution by Tony Mora and his gang of guerillas. Mora is enacted by Francis McDonald. And don't forget children's special matinee. All kiddies admitted 2 on 1 ticket.

ROUTING THE BANKHEAD THROUGH TAYLOR COUNTY

ABILENE, July 1.—Resident State Engineer McCandless is preparing plans and specifications on three routes which the county will propose to state and federal highway engineers on the section of state highway No. 1 bordering the Lytle Lake and Wise brothers property east of Abilene. This point is the only section of highway No. 1 on which county, state and federal authorities have not agreed as to the route which the highway will follow when it is permanently improved. The county's route proposals will be presented to the state authorities as soon as they can be completed.

MERIDA GOLD SHIP SUNK OFF CAPE CHARLES FOUND

NEW YORK, July 1.—The two trawlers, Foam and Spray, which slipped out of New York harbor three weeks ago on a \$3,000,000 treasure hunt, backed by a group of wealthy sportsmen, have accomplished the first part of their mission, it is announced. A diver sent down from one of them has located the treasure ship Merida off Cape Charles, Va. The next step will be to cut through the iron walls of the storeroom and bring up nearly thirty tons of gold and silver bullion, smuggled out of Mexico fourteen years ago by the adherents of Madero and Madiz.

JUNIOR CHOIR ADDS MUCH TO M. E. REVIVAL

"Good congregations have featured the meetings now being held at the Twelfth street Methodist church," said the pastor, J. W. Leggett, "and much interest is being manifested. Rev. E. H. Martin and Mrs. Martin are helping the revival wonderfully with their song service. The junior choir was organized Monday with the younger ones of the congregation, and twenty-six enrolled at the organization, but there were sixty who were at choir practice Tuesday, and this interest is steadily growing. The song service is adding much to the meeting, especially among the younger folk. We feel if we can get them interested much good will result. The meeting will continue as long as the present interest is manifested."

LUTHERANS TO MEET JULY 8 TO 14 AT WALBURG

GEORGETOWN, July 1.—One hundred and seventy-five voting delegates and about forty missionary pastors and at least that many teachers of Christian day schools, besides the usual large number of laymen visitors, will be on hand for the opening service of the five-day state convention of the Lutheran church, synod of Missouri, Ohio and other states, to be held at Walburg, nine miles east of Georgetown, on July 8 to 14, according to the figures released here today by the convention committee.

The final decision will be made at this convention whether the Lutheran College, which will be located at Austin, and for which the national church body appropriated \$50,000 to be matched by a like sum by the Texas district, will be co-educational or merely a ministerial institution. The original sum was pledged solely for a ministerial college, and it is up to the Texas Lutherans to bear the additional expenses if the co-educational and business courses are to be added.

Among the notable Lutheran speakers on the convention program will be Dr. F. Protenhauer of Chicago, national president of the synod; E. H. Englebrecht of Chicago, international field secretary of the Walther league, an organization of Lutheran young people; Professor G. Eifrig of the Lutheran Theological Seminary at River Forest, Ill., who will read a paper on "The Use of God's Law," and the Rev. Mr. J. W. Bhenken of Houston, who has become nationally prominent as a speaker on noon-day Lenten programs.

The Lutheran congregation at Walburg, of which the Rev. John Seick Sr. is pastor, won the convention last year by a unanimous vote when they pledged themselves to feed and lodge all delegates, pastors and teachers of Christian day schools free of charge.

SLAYER OF OTIS BALLARD ASKS FOR SPEEDY DEATH

MOUNT PLEASANT, July 1.—Clem Gray, convicted of the murder of Otis Ballard in September, 1923, near here, was Tuesday sentenced to death in the electric chair at Huntsville penitentiary on Aug. 7, by District Judge Wilkinson. Aug. 14 was the first date set for the execution, but was moved up a week at the request of Gray, who asked for execution as quickly as possible. Asked if he had anything to say as to why sentence should not be pronounced, Gray replied: "Not a word." After being sentenced Gray requested the grand jury investigate how John Dillard had qualified as a juror in his case. Since his conviction, Gray said he had written letters concerning the matter.

Fit Mother

MISS FLORENCE WHITMAN

A sensational case involving the custody of an orphaned girl, 13, was decided in favor of Miss Florence Whitman (above), cabaret singer, when a Chicago judge ruled her occupation did not render her unfit to act as a mother, taking the child from her grandmother, Mrs. E. B. Gray, of Quanah, Texas.

SUSPENSION SERVICE MEN'S BONUS TODAY

WASHINGTON, July 1.—Discontinuation of the adjusted compensation branch of the adjutant general's office, effective today was announced by Major General Robert C. Davis, adjutant general of the army, in an order expressing his appreciation of the work done by the personnel of the branch during the year it has functioned in carrying out the soldier bonus act.

"Your record of achievement is outstanding," General Davis said. "With such personnel there is no task, however great, that cannot be accomplished."
 General Davis explained that approximately 70 per cent of all compensable veterans in the army during the world war have applied for adjusted compensation and their claims have been adjudicated. Approximately one million veterans or their dependents have not as yet made application. These cases will be handled as they come in.

BUREAU OF MINES TAKES OVER HELIUM CONTROL

FORT WORTH, July 1.—The control of the world's helium plant located here, passed from the control of the navy department to the United States bureau of mines today. Lieut. Commander Z. W. Wicks will be sent to Lakehurst where he will be connected either with the Los Angeles or the Shenandoah officers crew, and C. F. Cook, mining engineers, will assume charge here.

CONFERENCE OF NATIONS TO REVISE CHINA TREATY

WASHINGTON, July 1.—The United States has called a conference of nations relative to revising the treaty with China, which will be held probably in the fall. This country is to prepare to extend a helping hand to the Peking government.

34,507 BAPTISMS IN TEXAS 1924 BY THE BAPTISTS

DALLAS, July 1.—Appointment of three Baptist state evangelists by the executive board of the Baptist general convention of Texas at its recent session is another step in the intense soul winning campaign in which Texas Baptists are now engaged. Dr. F. S. Groner, general secretary of the board, said Dr. W. Y. Pond of Hillsboro, a former state evangelist, will assume charge of the work in co-operation with Dr. B. B. Blalock of Temple. Dr. Bonnie Grimes, of Nacogdoches, who was elected at the meeting, declined the appointment due to refusal of his church to accept his resignation.

Last year was one of the most successful years of the Baptist evangelistic work in Texas with 34,507 baptisms. In the last six years the baptisms in Texas have numbered 181,206, or an average of 30,206 baptisms a year. About one-third of these were through the efforts of the missionaries and other workers who are assisted by the state mission fund.

In his last year as state evangelist, and up until last November, Dr. Pond baptised 800 persons and received in collections aside from the pledges and regular offerings in churches where he held meetings the sum of \$12,000, which is sufficient to pay the expenses of the whole department of evangelism for a full year. Dr. Blalock also has a record as an evangelist.

BIG CONTRACTS LET AT STAMFORD TUESDAY

STAMFORD, July 1.—Contract was let Monday here for the seating equipment of the new \$30,000 auditorium, which is now under construction. Contract was also let Monday for the nurses' home at the sanitarium. There will be

a modern nurses' home on the upper floor, while the lower floor is to be used by Drs. Dunkley, Southard and Hudson. The sanitarium is to cost more than \$100,000.
