The full staff of officers and teachers for the First Methodist Sunday school have been duly elected by the church board of Christian education and will be formally installed by the pastor, Rev. Leslie Seymour, at the morning preaching hour on Sunday.

**P. O. RECEIPTS INCREASE SOME SAYS M'CREA**  
Luther H. McCreia, Cisco postmaster, says local postal receipts for the third quarter of 1941 show an increase of \$344 over the same period last year.

The total for this quarter is \$11,111.

For the third quarter of 1940 receipts here were \$5,483.67, Mr. McCreia stated.

**FLOOD HURT; NOW RAINS HELP ALBANY**  
The city of Albany, Shackelford county, has received 12 cars of 10-inch cast iron pipe to be used in the Lake McCarty pipe line, and more cars are continuing to be shipped.

It is expected that all the five miles of pipe will arrive within a month.

Work at the lake has been delayed the past few days because of wet weather, but progress is continuing to be made.

Rains this week raised the water level in Lake Diller four inches, replenishing Albany's scanty water supply.

The city feels now that with continued rains the old lake basin with its five feet of water will supply the city until the new lake is finished and catches water.

**MORE GLAMOUR** — Heres' current glamour girl, also on hand at Belmont Park for the races. She's Betty Cordon, foremost deb of 1941, pictured scanning the scratch sheet in attempt to pick a winner.

### E. W. MARLAND, EX-GOVERNOR OKLA., IS DEAD

PONCA CITY, Okla., Oct. 3.—Ernest Whitworth Marland, former governor of Oklahoma and one-time owner of a great oil empire, died today.

### O'DANIEL AGAIN HITS CHARGE OF OIL SHORTAGE

WASHINGTON, Oct. 3.—The senate oil investigating committee arranged Friday for a new report on the eastern seaboard's threatened petroleum shortage, and one member — Senator O'Daniel of Texas — charged that it was all a "manufactured emergency."

O'Daniel, who has criticized a plan to build a 24-inch pipe line from Texas to New York, told reporters he was satisfied that sufficient oil could be delivered by rail to the Atlantic coast area to offset the drain on supplies caused by an excess of 175,000 barrels daily consumption over present shipments.

"I am fully convinced," he said, "that the railroads can deliver 200,000 barrels of oil a day. This is a manufactured emergency to build a pipe line and it won't stand examination."

Flattery is the easiest way to father's pocketbook, but the chances are it will be empty when you get there.

### CISCO PEOPLE BUY \$28,447.80 DEFENSE BONDS

Cisco people have purchased federal defense bonds and savings stamps to the amount of \$28,447.80. These purchases were made through the Cisco post office and First National bank.

Of this amount the Cisco post office is credited with the sale of \$11,975.75 defense bonds; plus \$472.80 saving stamps; \$1,406.25 of the post office total were receipts of sales during September.

The First National bank's sales, previously reported \$15,250.00; September sales, \$750; total sales, \$16,000.00. Total sales made by post office and bank, \$28,447.80.

### CADDO POOL IS OPENED IN E. YOUNG COUNTY

GRAHAM, Oct. 3.—A new Caddo lime oil pool for Eastern Young County was believed assured Friday at the Kerlyn Oil Company and Phillips Petroleum Company No. 1 Taylor, block 2, BS&F survey, one mile north of Loving.

Operators ran a drill stem test on the Caddo lime from 4,240 to 4,255 feet. The wildcat showed gas in 10 minutes and made three heads of oil in 1 1/2 minutes each. Bottom hole pressure gauged 1,800 pounds with 500 pounds of flowing pressure on the testing tool. While pulling the drill pipe, the well flowed another 12 minutes and an additional two minutes after the drill pipe was laid down. Operators plan to set casing and complete after running electrical survey.

### ESTOPPEL WRIT IS ISSUED FOR OIL OPERATORS

AUSTIN, Oct. 3.—Operators in the Gulf-McElroy area of West Texas Friday were prohibited by court order from attempting any further litigation concerning the validity of current oil proration orders applicable to the area.

The Third Court of Civil Appeals late Thursday issued a writ of prohibition, directed to District Judge Gardner and several plaintiffs, principally the Gulf Oil Company, who had sought to enjoin the commission from enforcing its orders.

Operators of the Gulf-McElroy area claim they should have a larger allowable than operators in the other areas—McClintic, and Church-Fields; and that in the Gulf-McElroy area alone, the daily allowable should be 35,000 barrels and not less than 85 per cent of the total for the entire field. This is about twice the present allowable of the entire area.

### Prison Rodeo Contestants Drawing Their "Number"

Huntsville, Oct. 3.—(Special)—Above is pictured part of the 104 inmate rodeo contestants who will take part in the Eleventh Annual Texas Prison Rodeo which gets under way in huge Prison Stadium at Huntsville Sunday.

These cowboys pictured above are the entrants in the Saddle

Bronc Riding event, the one contest which calls for the best riding skill in any rodeo program.

Buster Bishop, top prize winner of last year's four big shows, is seen drawing his number from Albert Moore, rodeo director.

Inmates riding this year during the four Sunday afternoon shows, have sentences ranging

all the way from two years up to 99 years and life. However, the average sentence is 31 2-10 years.

In the background, watched over by inmate cowpunchers, is part of the salty prison herd of fancy bucking stock, to which several head of hard bucking broncs have been added during the off-season.

### MEN AND 1,000 ARMY TRUCKS HERE SATURD'Y

Soldiers and 1,000 army trucks, returning to Camp Barkeley at Abilene from summer maneuvers in Louisiana, will pass through Cisco Saturday morning. The first contingent is expected to arrive here about 9 o'clock Saturday morning. They will spend tonight at Weatherford.

Fifty trucks and men passed through Cisco about 6:30 this morning, bound for the home camp at Abilene.

### SINGERS WILL MEET AT UNION HILL SUNDAY

The Chuck Wagon Gang is to be present, along with many other visiting quartets. Mr. Lewis extends a cordial invitation to the general public.

### TORPEDO SINKS U. S. TANKER NEAR BRAZIL

RIO DE JANEIRO, Oct. 3.—The United States embassy reported that the American-owned Panamanian tanker, I. C. White, had been torpedoed and sunk.

Eighteen survivors of the tanker were picked up 450 miles off the coast of Brazil, inside the American neutrality zone.

**RAIN STOPPED GAME.**  
NEW YORK, Oct. 3.—Commissioner Kenesaw Mountain Landis called off the third game of the world base ball series today because of rain.

### FIREMEN ENJOY DOVE

Delegates who attended the Mid-West Texas Volunteer Firemen's convention at Merkel Thursday had a very enjoyable and profitable program, according to Fire Chief Bill Sledge, who with his wife and a number of other Ciscoans attended the meeting.

Cisco team won first in the 6-man hookup and third place in the pump race. The afternoon was taken up with business and races, followed by a dove and chicken-fried steak 6 o'clock supper that preceded a dance and social time.

Colorado City was chosen as the next semi-annual meeting place.

Those attending from Cisco were Messrs and Mesdames Bill Sledge, C. L. Tune, R. L. Thacker, H. A. Agnew, B. B. Hurst, H. O. Anderson, Clyde Weathers, M. B. Osburn, C. L. Hightower, Miss Marie Tune and Bruce Campbell.

Towns represented were Cisco, Baird, Albany, Snyder, Colorado City, Loraine and Merkel.

### MILK PRICES INVESTIGATED BY THE STATE

DALLAS, Oct. 3.—An investigation of raised milk prices in Dallas was to start Friday, following a general price hike of 2 cents a quart by major dairies Thursday.

Attorney General Mann ordered the investigation after a protest had been filed by D. R. Jamerson of Dallas, who complained the prices were out of line.

The major dairies announcing the price increase in addition to a one-cent a quart boost in August, said the higher cost of production, feed costs and operating expenses made it necessary.

### WHILE HITLER BRAGS, REDS HAMMER AWAY

Adolph Hitler, very likely hoping to stem the tide of rebellion steadily rising in all conquered territory, today defiantly claimed victory over Russia and all other possible enemies, including the United States.

While the German fuhrer was broadcasting this encouragement and challenge, war dispatches reported the Red Army had smashed Axis attacks on three fronts and that terrorism was continuing to spread through Nazi-held Europe.

The Nazi leader, speaking for the first time since his invasion of Russia, told the German people by radio that a gigantic operation is in progress to complete the assured destruction of the enemy on the Eastern front.

Moscow reported the Germans have been pushed back on the Leningrad front in heavy fighting, that Soviet marines have won a foothold on Nazi-occupied islands at the mouth of the Gulf of Finland and new advances made by the Soviets on the Central front.

Strong Axis forces are reported encircled in the Ukraine sector.

Hitler admitted that the war might last a long time—that the Russian conflict was a "life-and-death" battle.

### FD WILL TELL NEUTRALITY NEEDS TUESD'Y

WASHINGTON, Oct. 3.—President Roosevelt will communicate his neutrality law revision program to a bi-partisan delegation of senate leaders at a conference next Tuesday, he disclosed at a press conference today.

Don't try to keep your friends from finding it out. They already have heard it worse even than it is.

### CISCOAN BADLY HURT

Durwood Boyd, son of Mr. and Mrs. Walter Boyd, is in a Waco hospital, suffering from brain concussion following an automobile accident at Mexia. Mrs. Walter Boyd, the mother, and a brother, Marvin Boyd of Merkel, are now at the young man's bedside. Walter Boyd, the father, is ill and unable to go to Waco.

Young Boyd, who was returning with his company from army maneuvers in Louisiana, was struck by a civilian car while he was directing traffic as the soldiers passed through Mexia.

Word from Waco at noon today was that the young man had regained consciousness twice since the accident, but his condition was still deemed very serious.

Durwood Boyd is well known and highly esteemed in Cisco. He was born here, graduated from Cisco high school and later graduated from Texas Tech.

### RAIN DAMAGES ONLY HAY OF PEANUT CROP

Farmers in Cisco today questioned regarding the probable damage by recent rains to the peanut and hay crop, were of the opinion that the loss would be slight, if any. They stated that very few of the growers had begun harvesting, and the plants were still growing in the fields in many communities. Some who had pulled the plants were fortunate enough to get most of them threshed before the rain.

T. T. Horn, C. U. Horn and R. N. Hazlewood of the Dan Horn community said very few growers had begun harvesting before the rain set in. All said the crop was looking good and if the rain ceased in time there would be an abundance of hay. Hazlewood stated that some growers would be disappointed in the yield, as they thought it would be less than anticipated.

However, neither of the above farmers were growers, and admitted that their opinions were based on reports of those who are growing peanuts.

But one grower was contacted, Will Zeibr, living in the Lutheran community, who said his crop was satisfactory, and he had been fortunate enough to harvest and thresh most of his crop before the rain.

Highways and feeder roads were under water but slow traffic was permitted. Oil wells and pump stations were damaged, and the M.-K.-T. Railway lost 1,500 feet of track between Wichita Falls and Burkburnett. Ten feet of water covered the Ft. Worth and Denver City Railway tracks near Bellevue.

### CISCO NURSERY SCHOOL ELECTS NEW OFFICERS

Chas. J. Kleiner, retiring president, had charge of the meeting of the Cisco nursery school board at the chamber of commerce Thursday morning at 10 o'clock. Mrs. C. O. Pass, nursery school director, was present and expressed thanks to the group for their help and cooperation in this great work.

New officers were elected for the incoming year as follows: President, Mrs. James Harvey; vice president, Mrs. Wilson Davis; secretary, Mrs. J. B. Pratt; treasurer, Mrs. Sterling Drumwright; new board members: Mrs. C. M. Nevill, Mrs. Ralph Glenn, Mrs. Bill Mitcham, Mrs. Jack Anderson, Misses Helen Crawford and Lillian Shertzer. All board members of the past year were asked to continue to serve.

### WICHITA FALLS AGAIN FACES FLOOD THREAT

WICHITA FALLS, Oct. 3.—Rains of cloudburst intensity swept through North Central Texas into Oklahoma last night and early today.

In some sections it was the fourth day of the downpour and flooding creeks and rivers washed out rail and highway facilities.

Fully 500 people have already been driven from their homes in this city.

The flood resulted from three continuous days of heavy rainfall reaching upwards of eight inches in some watersheds north and west of here.

The downpour continued in Wichita Falls Friday, making the fourth straight day of rain. Heavy rains also fell throughout the area.

Fast-rising water Thursday night sent farm families in Burkburnett and Iowa Park fleeing to safety through the heavy rain and over water-logged roads. Boats were used to evacuate many persons as water continued to surge upward during the night.

Highways and feeder roads were under water but slow traffic was permitted. Oil wells and pump stations were damaged, and the M.-K.-T. Railway lost 1,500 feet of track between Wichita Falls and Burkburnett. Ten feet of water covered the Ft. Worth and Denver City Railway tracks near Bellevue.

Superintendent Paul Powell of the Wichita Valley Irrigation District said Holliday creek largely would govern the amount of territory in the city which would be inundated.

Henderson's Admission St. Louis Post-Dispatch: Price Administrator Leon Henderson made a startling admission before the House banking committee during his testimony in favor of the price control bill.

Records of the Bureau of Labor Statistics show an alarming trend. Although the cost of living, up 7.5 per cent since the start of the war, is soaring, weekly income of workers in manufacturing industries, where much defense production is concentrated, has skyrocketed.

Yet how does the administration intend to prevent inflation in this sector of the price structure? By voluntary agreement, Henderson replies, the very method that has failed so dismally in every other instance where it was tried.

If the administration is going to pussyfoot on this important part of the price control program, its efforts to prevent inflation will be a tragic failure.

Summarizing Great Britain's experience, A. Wym Williams wrote recently in the New Republic:

"Price control cannot be effective if it is a matter of patchwork edicts haphazardly applied to separate segments of the price structure.

Our own experience with voluntary price controls, the experience of England, the testimony of experts like Bernard Baruch, all condemn the policy Mr. Henderson outlined as fatally inadequate.

Protests Too Much Dallas News: No more astonishing demonstration of the mentality of the spoils system could be made than the reply by Administrator Aubrey Williams to the criticisms of his National Youth Administration by the Comptroller General.

**Wondering about the 1942 cars?**

Here is Buick's superb solution to the problems posed by making our national defense, as it should be, industrial America's No. 1 job

**BUICK BUILDS FOR DEFENSE**

Our assignment: Building Pratt & Whitney valve-in-head aircraft engines for defense use.

IT WAS no time to duck or dodge the facts. I So we didn't try.

Instead we said—these being the materials critical in the defense program, we'll do our planning for 1942 with that foremost in mind.

Not merely for an "acceptable" car—certainly not for any "ersatz" number.

We had to have a real and representative Buick. One we could be proud of. One able enough, active enough, durable enough to serve till annual new models are the rule again.

We resolved on a 1942 automobile of such merit as could carry the Buick reputation without fault until other new Buicks, however far off, could come along to refresh it.

Now we're announcing those 1942 cars.

Why waste words telling you how good they are! You can't put language in the gas tank and learn either how many or how enjoyable are the miles you'll get per gallon.

There's a better answer—you drive these cars themselves. Come on, do that! Put your own yardstick on their quality.

It would be a shame, for you and for us, to have you miss the dreadnaught Buick we've built to stand up successfully to the toughest job in years.

# U. S. MARINES LAND FROM THE SKY

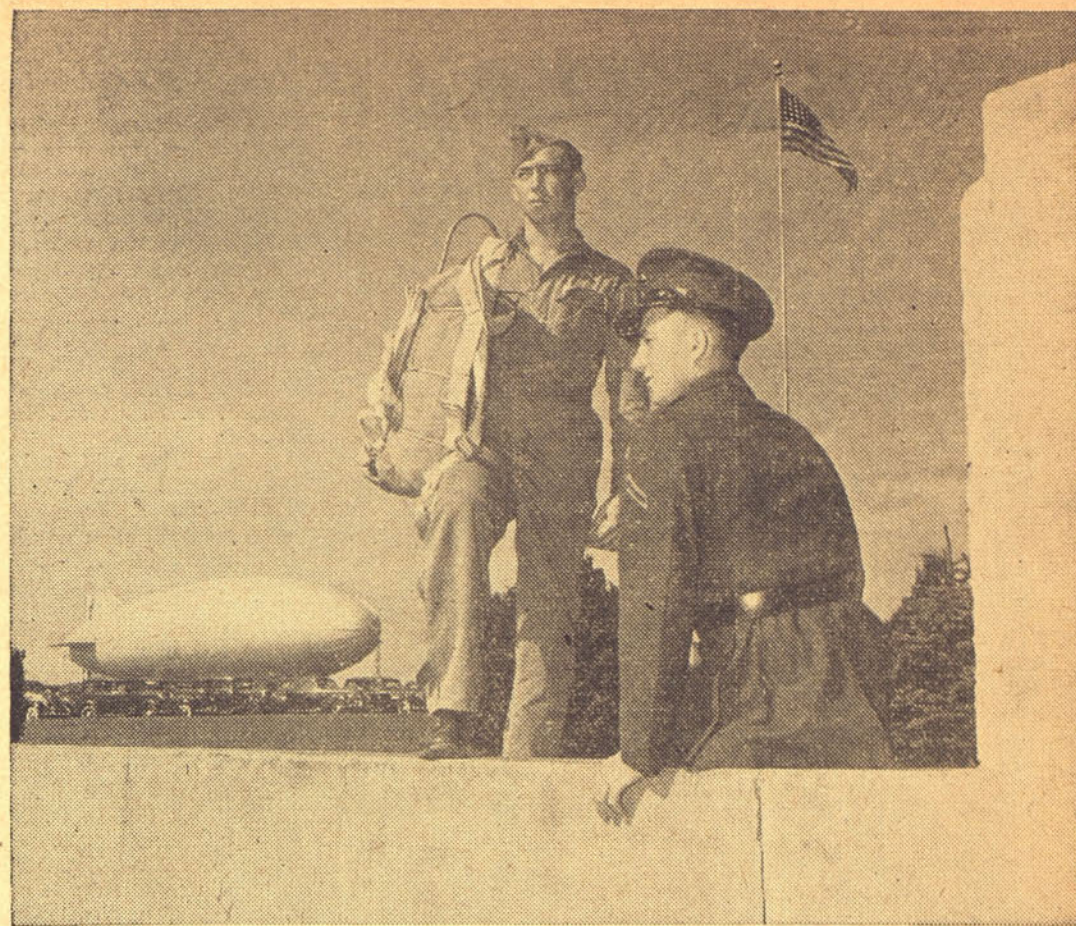

MARINES GOING UP FOR GRADUATION JUMP FROM 900 FEET.

Now the U. S. Marines are more than ever ready for action by land, sea, or sky. At the Naval Air Station at Lakehurst, N. J., they are being put through an intensive course in the parachute training school. Here they learn the technique of surprise attack from the air, which is so necessary in modern warfare.

Graduation day comes often at the parachute school, when groups of Marines go up in huge transport planes for their "diploma" jump from 900 feet. As the Marines land, they quickly go into action with rifles and Tommy guns.

The base at Lakehurst, N. J., is alive with defense activities these days, for in addition to the Marines in training, there are the Navy's famous blimps operating from here and engaged in coastal patrol as well as bombing practice. All of which goes to show that Uncle Sam is getting the situation well in hand.

### SELLS RANCH LEASE.

COLEMAN, Oct. 3. — Frank Lewis, former tax collector for Coleman county, Wednesday sold his lease on 5,000-acre ranch near Albany and all his livestock to Tommie Windham of Oplin at an un-announced consideration. The ranch is owned by Mrs. Estelle Flippin of Coleman. Mr. and Mrs. Lewis and child may move back to Coleman, Lewis said this week. Lewis retired as a county official several years ago because of ill health. The ranch life seemingly has restored his health. Several hundred head of sheep and some horses were run on the ranch.
