KIDNAPER IS GIVEN DEATH PENALTY

RFC Is Defendant In Suit Against Jesse H. Jones

CHAIRMAN IS CHARGED WITH "NEGLIGENCE"

FORT WORTH, July 27.—Jesse H. Jones, Houston financier and chairman of the Reconstruction Finance Corporation, today was ordered to appear in federal court in answer to a receivership suit against him and part of his interests.

The Reconstruction Finance Corporation also was named a defendant party to the suit on the basis of holding liens against the properties involved. The petition also charged "negligence" on the part of the Reconstruction Corporation on making loans to the involved interests.

The suit was brought on behalf of Mrs. Selma Sternberg of St. Louis. The petition asked that Federal Judge James C. Wilson, sitting as a court of equity, to appoint a receiver for the Fort Worth Properties Corporation, a Jones interest in which she claims to hold \$3,000 in bonds. She claimed that six interest payments due her are in default.

Judge Wilson ordered Jones to appear before Aug. 18 to show cause why the receivership should not be declared.

SHEPPARD TO MAKE TOUR IN SOUND TRUCK

WASHINGTON, July 27.—The author of the 18th amendment expects to get and grease his new sound truck today or tomorrow and take off for the prohibition battlefields in Texas.

Senator Morris Sheppard is letting it be known around Capitol Hill that he is just beginning to fight. The successive action in voting to remove from the constitution his favorite bit of prose writing has aroused the senator to unprecedented oratorical efforts.

"Texas will turn the tide," Sheppard said.

Sheppard probably will skipper his sound truck from here to Texas. The rambling loudspeaker will visit every part of the state. He will make 30 speeches, perhaps more.

19 Refineries In East Texas Closed

KILGORE, July 27.—Reports were current in the East Texas oil field today that several refineries were closed because of the government ban on interstate illegally produced oil and hot oil products.

Nineteen of 49 refineries in the area, according to L. B. Morand, in charge of the pipe line and refinery department of the Texas Railroad Commission, are shut down ostensibly to make repairs.

It was pointed out, however, that seldom more than five to eight plants ordinarily are closed at the same time for repair work.

Increased stringency of the federal regulations was blamed for the inability of some refineries to continue operations.

Puffed Up

A little feller attracting lots of attention in West Paterson, N. J., is two-year-old Charles Normand, Jr., who amazed a crowd of shoppers by puffing majestically on a big black cigar while seated in an automobile parked in a downtown street.

Smoking since the age of 14 months, Charles gives you here an idea of his advanced technique.

VARIETY TO BE FEATURED AT BAND CONCERT

The Lobo band will present a varied program at its regular weekly concert at the Lake Cisco swimming pool this evening, it was announced today by Director G. W. Collum.

Featured on the program will be "Fairy Kisses," a waltz medley by Johnson, and Friedman's "Shades of Night" intermezzo. The program will close with the favorite "Stars and Stripes Forever" march by Sousa.

The concert is scheduled for 8 o'clock, it was said. Following is the entire program:

Barnum and Bailey's favorite march—King.

Shoutin' Liza, trombone smear—Fillmore.

Fairy Kisses, waltz medley—Johnson.

Popular selection.

A Day in Bombay Overture—Eisenburg.

E Pluribus Unum March—Jewell.

Hostraiser's March—Chambers.

Vanishing Army—Alford.

Popular Selection.

Tropic to Tropic.

Shades of Night, intermezzo—Friedman.

Stars and Stripes Forever—Sousa.

MINERS FACE TROUBLE.

COLUMBIA, Mo., July 27.—Impending trouble smoldered today between striking workers and coal mine operators. Workers have threatened to picket two mines unless their demands for a daily salary of \$3.75 are met. Operators say they can afford to pay not more than \$2.38 a day.

CAPTURES TRANTULAS.

SPRINGFIELD, Mo., July 27.—Howard Wilson has a strange hobby. He tracks down and captures trantulas, insects with deadly poisonous powers. The largest he ever caught had a leg spread of five inches.

UNION STATION ROBBED EARLY THIS MORNING

The ticket office of the union railway station was robbed early this morning by an intruder who took \$44.25 from the cash drawer. The burglar was believed to have entered the office after tripping the night latch on the door.

The robbery took place while F. E. Allyn, night operator was at breakfast in a restaurant near the station. He left the office at 5:40 a. m. and was away about 15 minutes, he said.

Allyn left both the office door and the cash drawer locked and carried the keys with him. The baggage room key was found jammed in the drawer.

On going to breakfast, Allyn said he locked both the door and the cash drawer and took the keys with him. He left the baggage room keys and others on a table in the office. Each operator carries an office key, but only the operator on duty has the key to the cash drawer, Agent C. P. Cole said this morning.

Partly Unlocked Drawer.

A key from the baggage room group was used to open the cash drawer. It turned the lock far enough to allow the drawer to be pried open before it jammed. It was believed that the intruder tripped the night latch by pushing some instrument through the grill on the door until it reached the knob of the lock.

The theft was not discovered until 7:40 this morning when R. W. Moore, first truck operator, checked the cash drawer with Allyn, the agent said. At that time the drawer was found almost closed and with a key jammed in the lock.

The shortage was not discovered at once due to the fact that Allyn had already checked the cash sales before leaving the office, it was said.

Police and company officials were notified of the robbery early this morning, Agent Cole said. The loss consisted of \$31 in currency, \$10.50 in half dollars, and \$2.75 in quarters. The dimes, nickels, and pennies were untouched.

There was no clue as to the identity of the intruder. Only one boy had been seen loitering about the station during the night, and Allyn said he found him in the restaurant when he entered and left him there when he finished his breakfast.

Continue Production Order, Says Terrell

AUSTIN, July 27.—G. V. Terrell, state railroad commissioner, back from Washington oil conference today announced that it is his view and that of Commissioner E. O. Thompson, still in Washington, that the present oil proration order should be extended until after a decision is made in Washington on the oil industrial code.

MRS. W. B. REED TO BE BURIED HERE TODAY

Funeral services for Mrs. W. B. Smith Reed, 86, who died late yesterday afternoon, were to be held at 3 o'clock this afternoon from the Church of Christ, with the Rev. Paul Witt, of Abilene, in charge of the services, assisted by Rev. West of Anson.

Mrs. Reed was born at Talabigo, Ala., Nov. 12, 1847, and came to Texas at the age of five years. She first settled in Anderson county. She was married to W. B. Reed in 1872 and later to W. B. Reed in 1878. She was a member of the Church of Christ.

Surviving are one son, T. A. Smith, and one daughter, Mrs. B. A. Parker, both of Cisco. She was the grandmother of Bill Smith, former Cisco high school star and captain of next season's University of Texas football team.

Interment will be in Oakwood cemetery with Wippen's funeral home in charge of the body.

TOBACCO CROP GOOD

WESTON, Mo., July 27.—Farmers are busy erecting new barns to care for Missouri's 1933 tobacco crop. Conditions are better than normal.

Sign of Recovery

Soon you will see this badge, in red and blue, reproduced in shop windows, on factories, on the labels of goods, on letterheads. It means that the proprietors of the factory or shop displaying the sign, or the makers of goods bearing it, are co-operating with the National Recovery Administration by adopting the working conditions which the administration believes necessary for recovery. The president himself has urged that organizations displaying this label be patronized rather than others which have refused to co-operate.

TRANSFERS MUST BE MADE BY JULY 31 SAYS SUPERINTENDENT

July 31 is the last day to make school transfers, Supt. R. N. Cluck of the Cisco school system said this morning.

He issued a plea for all those who intend to transfer from one district to another to do so as soon as possible. "We are particularly anxious to know how many transfers we are going to have so that we will know just how to act in regard to the size of the teaching force," he said.

All pupils transferring from one district to another may do so before August 1, he said. If they wait till after that date they will be required to pay two months tuition, due to the fact that the state will pay the per capita apportionment for a pupil in only one district.

Some emergency transfers may be made during August, however, it was said. These emergency transfers deal with situations in which a change in the school district in which the pupil is living makes it necessary, after Aug. 1, for him to attend another school, and do not apply to other cases.

All who intend to transfer may secure blanks and information at the office of the Cisco school board in the Cisco Banking company building, Supt. Cluck said.

He added that he will be glad to assist anyone who wishes to transfer anywhere in the county, whether the Cisco schools are involved or not.

BATHING REVUE HERE TO HAVE MANY ENTRIES

The annual Oil Belt bathing revue to be held at the Lake Cisco swimming pool will have a large entry list according to the Lake Cisco Amusement company, sponsoring the revue. Most of the cities of the Oil Belt will send entries, it was announced.

In addition, there will be a large number of Cisco business firms represented, the management said. An effort is being made to have the best revue in the history of Lake Cisco.

Prizes for the winners are unusually attractive, it was said. First place will receive a diamond ring. Second prize will be a wrist watch. The third prize, to be selected, will be in keeping with the other two.

Entrants will be met at the Laguna hotel by chaperones and escorted to the Cisco Country club, where they will prepare for the revue. From there they will go to the swimming pool and pavilion, where the revue is to be held at 8 o'clock. Judges will be selected from outside the territory represented, it was announced.

Following the revue the contestants and their escorts will be the guests of the Lake Cisco Amusement company at a dance given in the pavilion. The management has engaged Red Krause and his ten-piece orchestra for the dance, it was said. The orchestra is well known in this part of the state.

The Cisco Lobo band will furnish music during the revue, it was announced.

Entrants in the bathing revue will not be expected to wear shoes.

Williamson Named R. F. C. Administrator

J. M. Williamson, of Cisco, has been appointed to the position of R. F. C. administrator for Jefferson county. He is to leave Cisco for Beaumont as soon as notified by the welfare committee of that county.

Williamson was selected after members of a committee from Beaumont and Port Arthur had failed to agree on an administrator. Reclamation Engineer Vance and former governor James E. Ferguson made the choice.

COMM'N OKEHS PLAN OFFERED BY COMMITTEE

The city commission, meeting last night in conjunction with a committee of ten which it named to assist in effecting a solution of Cisco's bonded indebtedness, last night approved a proposition prepared by that committee and submitted to the commission for approval or rejection.

The proposition, framed by a sub-committee of three after the whole committee had approved it in principle, provides for a settlement of the municipal bonded debt, approaching \$5,000,000 on the basis of 10 per cent.

The proposal will be submitted to the New York bondholders committee as the city's counter-proposition to one made by the New York group some time ago, and which was rejected by the city. If the New York group accepts, the plan will then be placed before the voters of Cisco for their approval or rejection.

Under the proposition the city agrees to issue and deliver to the bondholders of the city refunding bonds on the basis of \$100 for each \$1,000 of principal in exchange for the old bonds and coupons which would be surrendered to the city "at the time of the exchange of not less than 95 per cent of the outstanding bonds."

40-Year Bonds.

The refunding bonds would mature 40 years from date of issuance and bear three per cent interest. They would be secured "in their entirety by a tax levy and by pledge of the net revenues of the city's utilities so far as the same can be legally pledged." Any part of the refunding bonds would be redeemable by the city at its option.

The proposition also provides that about \$48,000 now in the sinking fund of the city be delivered to the bondholders at the time of the exchange "in full payment of all past due interest on said date."

The proposition was prepared by a committee of ten citizens named by the commission. Present of the ten members of the committee were Chairman R. E. Scott, W. H. LaRoque, R. H. Boon, E. P. Crawford, G. B. Kelly, A. J. Olson and T. J. Dean. Other members are Alex Spears and A. Grist.

A sub-committee of three, consisting of Mr. Fee, Judge Scott, and Mr. LaRoque drew the proposal in its final form.

The meeting of the committee of ten was called to order by Chairman C. H. Fee, who asked W. H. LaRoque to read the proposal as drafted by the sub-committee. This was read first in its entirety and then by paragraphs, each being discussed separately. At the conclusion, motion to accept the proposal was made by E. P. Crawford and seconded by R. H. Boon, and was carried unanimously.

The proposal was then given to the city commission and was accepted at a session of this body later in the evening.

The committee of ten were thanked by the mayor and retained in recess for future consultation to be called later.

NO NEWS FROM KIDNAPERS OF OIL MAGNATE

OKLAHOMA CITY, July 27.—Increasing tension felt at the Urschel mansion as silence of the captors of Charles Urschel lengthened into the fifth day failed to swerve the anxious family from its course today.

The family has decided to take no action toward effecting the release of the multi-millionaire oil man until the kidnapers who seized him at his home last Saturday night make the first move.

Arthur Seelgison, chief of the negotiators, appointed by the family, is still of the opinion Urschel was kidnaped solely for ransom and not by persons with a grudge.

BOOM SEEN IN WHEAT PRICES AT CHICAGO

CHICAGO, July 27.—A booming wheat market, similar in its violent fluctuations to that which brought a decline last week, closed today with net gains for the day of 7 1/2 to 7 3/4 cents a bushel.

WHEAT UP ON PORT WORTH MARKET.

PORT WORTH, July 27.—Wheat bounded upward again today on the Fort Worth market to close \$1.13 1/2 cents a bushel, a gain of 5 1-2 above yesterday's close.

WHEAT DELEGATES TO HOLD ANOTHER MEET.

LONDON, July 27.—The United States wheat delegates announced today that since it was impossible to reach an international agreement for control of production now, they would convolve another meeting on Aug. 1.

Americans Held In Spanish Jail

The jailing of five Americans at Palma, on the island of Mallorca, on the charge of assaulting a civil guard, has led the state department to bring pressure to bear upon the Spanish government for their release. Two of the five held without bail are Mr. and Mrs. Clinton B. Lockwood (shown above) of Springfield, Mass.

Parley Not Failure Says FDR Message

LONDON, July 27.—President Roosevelt in a message to the world economic conference, at its dying session today, said he did not regard the conference as a failure. He pledged continuance of United States cooperation.

The message was read by Cordell Hull, chief American delegate as the leaders of delegations rose one by one and gave their versions of the situation that led to deadlock and the decision to recess indefinitely after today's meeting.

As a result of the conference, the president said, people in the United States better understood Europe's problem and a number of European statesmen understand better the American problems.

Man Killed By Train At Dallas

DALLAS, July 27.—J. P. Bryant, 53, was killed here today by a Santa Fe freight train which passed over his body as he lay apparently asleep on the track.

Engineer E. W. Rawls, of Cleburne said he saw Bryant's still body on the tracks but was unable to stop the train.

R. O. Bryant, son of the victim, advanced the theory his father, returning from a meeting of RFC workers, had become ill, sat down on the track, and had fallen asleep.

NATION OPENS WAR AGAINST RANSOM PLOTS

KANSAS CITY, July 27.—Death was decreed by a jury here today for Walter H. McGee, convicted of the ransom kidnaping of Miss Mary McElroy, daughter of the city manager of Kansas City.

The jury returned a verdict finding McGee guilty of plotting and leading the abduction and recommended he be hanged for the crime. The recommendation of the jury is mandatory under Missouri law.

The verdict of the jury was the first case in which the death penalty had been given in the war against kidnaping.

"This verdict will serve notice to kidnapers throughout the nation that they may expect the severest punishment for their crime, said Joseph Keenan, special assistant United States attorney-general.

Conviction of McGee came just 2 months after the daring abduction of Miss McElroy, who was seized at her home while other members of the family were away from home.

FORMS FOR NRA AGREEMENT ARE MAILED TODAY

WASHINGTON, July 27.—Voluntary agreements to shorten working hours and establish minimum wages were placed in hands of employers throughout the nation today.

Attached to the printed forms was a personal message from President Roosevelt urging signatures in compliance with the reemployment drive now going forward with all the fervor of a wartime drive.

Postmen were given the task of distributing the agreement forms to everyone of the five million large and small employers.

Re-employment of five or six million by Labor Day is the goal.

EASTLAND COUNTY AT SHORT COURSE.

Thirty-three Eastland county farmers, farm women and agricultural workers are attending the annual A. and M. College short course at College Station this week.

The size of the Eastland county delegation is significant for several reasons. It is not unusual. In past years this county has been well represented at the A. and M. college summer courses of this character.

Then glance at the list of those who are attending the A. and M. college short course this week. Your conclusion should not be surprising. Those 30-odd names are not drawn from the list of those whose land is poorly tilled, whose soil is leached, whose crops show the evidence of a haphazard, hit-or-miss method of cultivation.

The Eastland county delegation is significant for another thing. That is the fact that it reflects the work of Eastland county agents and vocational instructors. For the past 12 years or more this work has been carried on in the county. Steadily, surely over that period it has borne fruit in the uplifting of agricultural standards.

THE WAR-TIME SPIRIT.

Fervor, approaching the war-time spirit, is being brought to bear upon the problem of raising wages and putting men to work as an antidote to the depression.

But there is plenty of room for comfort on the part of those who dislike being forced into a program. They are not being asked to make the sacrifices of war, but the supreme effort of peace.

REBUILT HAT MAKER GIVEN JOLT.

Watchers appear to be on the job. Now the federal trade commission has issued an order requiring nine. New York hat companies to "stop selling made over felt hats for new hats."

"All said that they had always asked strictly for a hat and none knew that there was such a business as renovating hats."

Coast Shipping of Lumber Increases

SEATTLE, July 27 — Shipping lines have announced they were "filled up" with lumber orders, and space aboard their boats has been signed for some time in advance.

Lumber tariffs are up from \$9.75 to \$10.75. Higher rates, because of increased bookings, are expected. The Arrow line is booked to the end of July and is putting on an extra ship, the Helen Whitler, which has been tied up in San Francisco since 1931.

The Quaker line and the Hawaiian steamship companies also reported capacity lumber orders.

Texas Topics

By RAYMOND BROOKS

AUSTIN, July 27. — Three major public developments in the national employment works are located in Texas, each more than 700 miles from either of the other.

BROOKS

Whatever else of public works is under way, employment from the federal money allotted Texas highways will start very quickly.

In the unprecedented degree to which Texas and other states are looking to Washington, and counting on federal aid as an urgent temporary panacea, it cannot be forgotten that finally the successful outcome of the concerted anti-depression fight now must rest on private enterprise and individual initiative.

A way in which Texas can express

its willingness to do for itself a little of what it is asking from Washington, is the public works bond issue, still a half-way step from private enterprise.

Three of the greatest pieces of national policy legislation in the century have been the federal reserve system, the farm loan bank system and the home loan bank system.

The United States has seen for a period the federal reserve system turned over to the giant banking interests and a tool of immense power for private benefits. It has seen the federal reserve system rescued and turned back in the Glass and Woodrow Wilson ideal of service.

BEEES ATTACKED TEAM CAMERON, July 27 — A swarm of bees angered when their hive fell from a truck bed, attacked the driver and team of a passing wagon and caused a runaway. Driver Jack Davenport, stung unconscious, was carried to a hospital. Veterinarians doubted if one of the horses ever will be fit for harness again.

HONOR SWEDISH KING STOCKHOLM, July 27 — The memory of the great Gustavus Adolphus, Sweden's hero king of the Thirty Years War, was honored at Wolgast, Germany, on the 300th anniversary of the transfer of the king's body from German to Swedish soil. A memorial service was held in the St. Petrus church.

crumbs from his table. It was not a pleasant thought for one of Marcia's temperaments. SHE settled herself in a chair. "Tell me, was Cuba amusing?" "Rather," said Barrett, again looking at Elinor. "I've always been attracted by the place."

Barrett stood with his arms on the piano, staring down at the girl. Marcia had never seen him before with that look of adoring tenderness. Elinor's face was raised to his and she was smiling. They were obviously devoted to each other.

Barrett said slowly. With a quick frown, "Hello!" He was too happy, she saw, to hold resentment. Elinor rose. "I'm so glad to see you, Marcia!" she exclaimed.

"I happen to think so too," Barrett said slowly. With a quick shy glance at him, Elinor flushed. Marcia felt herself hardening as she stared at Barrett. She had thought him to be devoted to her but she realized now he had given her only the surface of his love.

THIS WEEK TO PITCH MAJOR TEXAS ISSUE

By RAYMOND BROOKS
AUSTIN, July 27—This week will do more to shape the outcome of the governor's and 165 legislative races than many dusty weeks' campaigning next summer.

It will pitch the issue that will overshadow all others in the election of a legislature. That issue is: Hard liquor.

It will predetermine the course of the anti-trust law campaign, in which the race of Atty. Gen. James V. Alfred for governor is bound up.

Mr. Alfred is in Washington to take part in the discussion over adoption of an oil industry code. Alfred, on behalf of the state, has pending his \$17,750,000 anti-trust penalty suit against oil groups for following a similar code.

The stampede of states ratify repealing the 18th amendment, and the failure of dry forces in Texas to get any mass effort in motion, now make certain Texas will legalize beer and will join the ratifying states.

College Industry Plan Is Developed

Randolph college next fall will inaugurate one of the most unique experiments in the educational field—a combination of the industrial workshop and the classroom.

The experiment represents a year of study and planning on the part of Dr. John W. Tyndall, president of the school, and his co-workers, and all these are confident that the program will not only be a success but will mean eventual development of a strong, four-year college on the hill where already so much of work and sacrifice has been expended in the effort to build up a large school.

Contracts which will make possible the program are already ready to be signed, Dr. Tyndall said, only a few details remaining to be ironed out. These contracts provide for supplying the raw materials to the school industry and for taking all of the products of that industry.

He pointed out that the industrial plant is the basic item of the school program. "When that is a success," he declared, "the whole program will be a success. By providing for 200 students to earn their way through the college we shall have established a student body foundation that will assure success. It will be an easy matter to attract the needed class."

Our Weekly Story... The Circus Queen Murder

With ADOLPHE MENJOU—GRETA NISSEN
Serialization by Arrangement with Columbia Pictures.

WHAT HAS HAPPENED
Thatcher Colt, police commissioner, and his secretary Miss Kelly, are in Gilard, N. Y., for a vacation. There is a circus in town, the "Greater Rainey Show Circus," which is being operated by a man named Flandrin. Dugan asks Colt to investigate among the circus folk as to the man who was killed.

CHAPTER FIVE
The next day dawned bright and clear, though an evil omen of tragedy seemed to hang pall-like over the circus grounds.

Colt read the telegram hurriedly, then walked quickly to Rainey's wagon. Rainey was dressing putting on his ringmaster's costume.

"No. He was afraid of Flandrin." "But I thought Flandrin was killed!" exclaimed Rainey. "And who killed Flandrin?" Colt asked. "Nobody."

"He committed suicide?" asked Josie La Tour. "Something like that. He did all the things necessary to make it appear that he was killed. He wrote the note, fired the bullet, and killed your dog to get the blood with which to smear the cot." Colt took the telegram from Lovell out of his pocket and started to read.

"Flandrin swore he'd get La Tour, Sebastian and myself and wreck the circus besides. Maybe he was bluffing, but I decided not to wait around to find out." Colt put the telegram back in his pocket. "Excellent judgment, I should say."

Colt interceded. "Fools rush in where angels fear to tread. I'm going to tell you just what Flandrin did after he carefully created the impression he'd been murdered. First of all, he changed his clothes. He

The Week in News

News events selected from the columns of issues of The Daily News during the past week appear on this page.

The various acts took their positions to begin the show Rainey, resplendent in his riding master's habit, strode to the center ring, took his stand on a platform and began to announce the opening features.

"Ladeez and gentlemen," his lusty voice bawled. "We introduce the Great Sebastian, trapeze artist extraordinary, who will beguile you with his death defying routine in the air!"

Sebastian bowed, then ascended the long strand of rope to his high trapeze. He started his first swing—a hush fell over the crowd as though some giant hand had stilled the audience in death.

Rainey mounted his wooden stand again. "Ladeez and gentlemen, I have the honor to present the greatest aerial performer in the world—Miss Josie La Tour!"

La Tour stepped forward to the plaudits of the crowd. Her red velvet cloak fell to the ground revealing her beautiful, young figure in its white tights. She bowed and climbed to the high platform.

The cannibal act began its routine at the same time. First, the large tom-toms began to beat in monotonous, terrifying rhythm, then the all-mast-naked savages began to play their thin reed pipes.

Expert Says Fish Left Sucker Family

WASHINGTON, July 27.—Certain members of the sucker family of fishes are not "suckers," according to E. D. Reid, Smithsonian Institution biologist.

This rare member of the sucker family, which Reid found recently at the headwaters of the James river in Virginia, has rid itself of its air bladder, so that it can stay on the bottom and not be washed away by the rapid stream it lives in.

Reid explained that the air bladder enables the fish to float without effort. Otherwise, he says, its body has the same specific gravity as that of a man, and it either must sink or swim.

"The fish without any air bladder," Reid pointed out, "is almost the equivalent of a bird without wings." The Smithsonian terms this as "remarkable example of the way evolution fits life forms for almost every sort of environment."

FACTORY FARM TO BE SOLD AT RECEIVER SALE

By MERRILL E. COMPTON
United Press Staff Correspondent
DALLAS, July 27.—The "Factory Farm," modeled along the lines of a motor car factory, is apparently destined to become a thing of the past.

Announcement of a receiver's sale August 1, of 7,000 to 8,000 acres of the Hickman Farm in West Texas, near Amarillo, is perhaps the closing chapter in one of the most pretentious ventures of this kind.

Price, former newspaper executive and California film company official, was the leading proponent of the "factory" farm plan in Texas.

REPORT SHOWS 7,899 WELLS IN THIS DISTRICT

The monthly oil production summary for the west central Texas district just issued by Omar Burkett, deputy supervisor in charge of production in the district, reveals that there is now a grand aggregate of 7,899 producing wells in the district, with a total marginal production of 35,331 barrels per day and a total potential production of 41,953 barrels. Average marginal allowable of the wells is 4.4 barrels per day.

Analyzed this total is composed of 6,990 wells of class No. 1, or wells up to 2,000 feet in depth, with a total marginal of 14,885 barrels; 1,777 class No. 2 wells with a total marginal allowable of 19,646 barrels, and 32 class No. 3 wells with a total marginal of 800 barrels.

There are 32 flowing wells in the district, according to the report, with a production of 1,274 barrels. Twenty-three of these are in class 2. Percentage of total marginal production produced by wells making less than 10 barrels each was 52.6 per cent.

Judge Proves Egg Would Fry on Walk

EL PASO, July 27.—Judge W. D. Howe, 34th district court, turned scientist here on the hottest day of the season to prove that an egg can be fried on the sidewalk.

It was 104 degrees in the shade when he began his experiment, only three was no shade. The judge tried an automobile hood first. He dropped an egg gently on the hood. The egg just as gently slid from the hood.

"That doesn't count," the judge declared. "I'll grant a new trial." He broke the second egg on the sidewalk.

"Hey," yelled a passerby, "put some ham on that." The egg hardened. Judge Howe stooped down gleefully.

President's Son And Second Bride

EFFECT OF CODE AGREEMENTS IS BIG QUESTION

In its weekly review of business and financial conditions The Wall Street Journal says: The president now has promulgated a plan to bring all employees in this country under a blanket agreement designed to provide higher wages and shorter working hours. Codes are being whipped into shape to be put into effect to cover the operations of a number of industries.

Quite obviously, they mean higher costs of production and higher prices. The question as to whether buyers will take the products at higher prices is one that is worrying the administration, and worrying the financial community. The answer to it will not be given until the fall.

While the prime cause of the wide break in stock prices in the week ended July 26, was the drastic cleaning out of a top-heavy speculative position in the alcohol shares, the financial communities worries over the ultimate effects of the administration's program were partly responsible. It is quite clear, that the administration's major immediate aim is to raise purchasing power, without regard for the near term effect it has on corporate profits.

With prices for stocks extremely high, pushed up by inflation talk and a big public following, a full realization of what the administration's policy might mean in the way of at least temporarily cutting down corporate earnings hardly could avoid creating uneasiness.

The break in stocks was one of the most severe which has occurred in the history of the markets. In three days, prices for numerous issues were carried down 50 per cent or more from the highs set early in the week. Even in the debacle of late 1929, percentage drops, in many cases, were not so wide.

The week's range of the Dow-Jones averages follows: 30 Industrials—High, \$108.67; low, \$93.75; last, \$98.75; 20 Railroads—High, \$55.63; low, \$44.82; last, \$44.82; 20 Utilities—High, \$37.56; low, \$30.30; last, \$30.30; 40 Bonds—High, \$89.07; low, \$87.87; last, \$87.87.

Young Roosevelt and Miss Googins Marry

BURLINGTON, Ia., July 27.—In the romantic setting of a flower garden over-looking the Mississippi, Elliott Roosevelt, second son of the president, and Miss Ruth Googins, Fort Worth society girl, were married here at 6 p. m. Saturday.

A double ring ceremony was used with the Rev. Naboth Osborne, retired pastor of the First Congregational church, officiating. Immediately after the ceremony the couple departed unaccompanied for the Pacific coast.

Church Exclusion Doesn't Worry Him

FORT WORTH, July 27.—Elliott Roosevelt, son of the president, and his bride did not seem greatly disturbed Monday by reports young Roosevelt would be barred from communion in the Episcopal church. "Isn't that frightfully worrisome," Roosevelt said jokingly.

"If the Episcopal church doesn't want me, there are other churches," he continued in the same manner. His remarks were in answer to a reported quotation from Bishop Stewart, of Chicago, that Roosevelt might be excluded from communion because of his second marriage.

The smiling and gleeful couple arrived here Sunday. "This employment could not arrive at a better time," the road association's statement said. "Highway Engineer Gibb Gilchrist has pointed out the steady decline of roadwork this year, and the thousands who are being deprived of livelihood. Payrolls totalling 25,000 men early this year have dropped over 50 per cent."

As a result, this federal work will snatch thousands of men members out of the breadlines, or save thousands who are on the brink of charity, conserving relief funds and providing purchasing power to give impulse to general business."

Furthermore, Texas road-building quota may be increased later, the association added, pointing out that the act now merely provides for at least 400 millions in road work. In the event that cities and other political subdivisions are unable or unwilling to raise their 70 per cent share of other classes of public work, money not applied for may be shifted to highways. Whereas the government provides but 30 per cent of the money for most types of general public works, it provides 100 per cent for highway construction.

COTTON TAKES SPOTLIGHT ON WORLD STAGE

AUSTIN, Texas, July 27.—Cotton takes the spot light on the stage of rapidly moving world affairs, Dr. A. B. Cox, University of Texas economist, points out in his monthly survey of the cotton industry.

The goal of the government price raising scheme was a farm price of about 12.4 cents on the basis of the 1909-1914 price level. It is proposed to put it there by one or all of the following means: Taking cotton out of production or plowing up cotton, inflation or cheapening of the dollar, or by stimulating consumption, or by a combination of all three.

Doug and Mary Protested Love Long After Friends Warned Them of Coming Reaction

EDITOR'S NOTE: This is the final installment of the Pickford-Fairbanks romance series.

By ALANSON EDWARDS United Press Staff Correspondent HOLLYWOOD, July 27.—Screenland found only mild surprise in Mary Pickford's disclosure of a separation from Douglas Fairbanks, her partner in the "perfect romance" that endured for 13 years.

"This sort of thing is a mistake," they told Mary. "There is bound to be a reaction." Mary always had the same reaction: "Our lives are too short as it is. We are not going to lose a single day being together."

Blame Temperament Love even so strong as this cannot surmount every obstacle. For one thing, there's temperament. Doug is a bundle of nerves and energy. Somewhat under medium height, he is able at 50 to out distance larger and younger men. He is restless and "on the go" constantly. If there are no pictures to be made, Hollywood bores him.

Mary's temperament either has her touching the clouds or in the depths of despondency. There's no middle ground for "America's Sweetheart." Too, she loves Hollywood. Movies are her life.

And there's money. On most matters, Doug and Mary agreed. When John Fairbanks died and Doug assumed his picture company's finances, he and Mary established trust funds to assure a comfortable living should a film venture fail.

The latest Pickford surprise, her announcement of a separation and possible divorce, was a stop and go "the only Mary." But she saw the inevitable and cut the Gordian knot in typical Pickford fashion.

like most other Hollywood marriages—on the shoals of discord. Mary waits now in Pickfair for a real estate agent to tell her the dream house is sold. Doug is in Europe with his friends.

Okehs Bond Plan--

of the city of Cisco, we find it to be absolutely impossible with any hope of being able to carry out the proposition and therefore advise said proposition be rejected.

We, your committee, further advise that we have carefully examined into the available revenues of the city that can be applied on the bonded indebtedness. In consideration of the earnest desire expressed in a mass meeting of the citizens of Cisco, to make a settlement based on the city's ability to pay, we respectfully submit the following proposition for your consideration and to be handed, if approved by your body, to the City of Cisco Bondholders' Protective committee:

The City of Cisco agrees to issue and deliver to the Bondholders refunding bonds of the city of Cisco, on the basis of \$100,000 for each \$1,000.00 of principal in lieu of the old bonds and coupons which are to be surrendered to the city at the time of the exchange of bonds.

When a fateful cable arrived a few days ago, Mary felt the time for maintaining appearances was ended. In the cable Doug told her she must maintain Pickfair hereafter at her own expense. It developed he had wanted to close Pickfair some time ago.

And thus "the little lady of a hundred successes" admitted sadly, wistfully, that her greatest bid for happiness was a failure.

".....If there is a divorce, the grounds will be incompatibility." Incompatibility! The two love birds who ate together every night for six years couldn't get along. The partners in Hollywood's biggest business and social success now were the best of enemies. The greatest romance in Hollywood's history ended.

TEXAN NAMED AS ASSISTANT LEHIGH COACH

BETHLEHEM, Pa., July 27.—A complete reorganization of the football coaching staff of Lehigh university has been completed. Colonel Nelson A. Kellogg, Lehigh's new director of athletics, has announced.

Three former Purdue university athletes, where Colonel Kellogg formerly was in charge of athletics, will be on the staff under Head Coach A. Austin Tate.

Several weeks ago Kellogg started his reorganization with the appointment of Paul Calvert, a Purdue end who played on the famed and undefeated 1929 team, as freshman coach. A second addition to the staff is Elbert F. Caraway of Sherman, Texas who starred in the Purdue backfield of 1927-28-29.

Alex Yunevich of Bicknell, Ind., another former Purdue star, also was named as an assistant varsity coach, while Tommy Ayre, for several seasons assistant freshman coach, was promoted to the varsity squad.

One other appointee, Phil Hery of Kingston, Pa., a former Lehigh player completes the staff.

Happy Landings.....

AGAINST the black night a ten-mile finger of light sweeps the clouds in tireless circles. Out of the darkness you hear the drone of an invisible plane. The motors roar louder. They fade to a faint hum . . . then silence. The night mail has passed.

Far above in the cockpit a muffled figure peers ahead, picking up beacon after beacon. Over treacherous mountains and forests and cliff-like cities they lead him safely to a "happy landing."

The advertisements in this paper are beacons erected by manufacturers and merchants to aid you in making 'happy landings' with your buying dollars. Through the confusion and obscurity of unbranded, unsponsored merchandise they mark a straight path to known values, honest service and safe investment.

To be at all successful, the manufacturer and the merchant must advertise. To remain unknown is to be passed by.

Peculiarly---the reflex of advertising is that it compels truth. The advertiser who deliberately misrepresents is like the aviator who "bales out" without a parachute.

TEST CAR HERE WEDNESDAY ON 50,000-MILE RUN

With more than half of a 50,000-mile drive in front of him, R. B. Crookston, of the mechanical engineering department of Rice Institute, Houston, paused at the Nance Motor company in Cisco yesterday in the Ford Tudor sedan that he is driving that distance in a scientific test of gasoline and oil consumption as well as a test of Ford performance generally.

The test has been made possible through the cooperation of the Humble Oil and Refining company and the Ford Motor company. Gasoline and oil mileage at varying speeds is being checked accurately by special instrument while upkeep and repair items are subject to a minute a scrutiny. A certified re-

port of the results of the test will be published.

Accompanying Mr. Crookston is George Perkins, also of Rice Institute, as a guest observer. The pair will spend this week in this region of the state.

When the car, painted a brilliant red with a broad band of blue, reached here shortly before noon yesterday, it had travelled at an average speed of 50 miles per hour with an average mileage of 19 plus miles per gallon of gasoline.

Averages were checked at varying speeds as follows: 23.8 miles per gallon at a speed of 20 miles an hour; 23.2 miles per gallon at 30 miles an hour; 22 miles per gallon at 40 miles an hour; 19.15 miles per gallon at 50 miles an hour; 16 miles per gallon at 60 miles an hour; 14 miles per gallon at 70 miles per hour, and 11 miles per gallon at 80 miles per hour.

BROOCH HOME AGAIN.
STOCKBRIDGE, Mass., July 27.—Worn originally here 196 years ago, a small brooch has found its way back to town and is now deposited at the historic Mission House, once the home of the Rev. John Sergeant, pioneer Indian missionary. The relic was presented to the House by Mrs. Herbert Haire, whose great-grandmother once wore it.

DEAFNESS CAUSED SUIT.
KANSAS CITY, Kan., July 27.—James F. Ball filed suit for divorce here because, he said, his wife, who was deaf, could argue and find fault in her normal voice, but Ball could not answer her without resorting to the use of sign language. Such a condition, he asserted, was "very hard on his nerves."

JEAN HARLOW CO-STARS WITH CLARK GABLE IN NEW PICTURE

Jean Harlow and Clark Gable are reunited as co-stars by popular demand in "Hold Your Man," a new Metro-Goldwyn-Mayer feature opens today at the Palace theatre. The smashing success of "Red Dust," in which they were teamed romantically, brought such a response from public and exhibitors that Anita Loos, famous "Gentlemen Prefer Blondes" author, was assigned to provide a new vehicle for the screen lovers.

Third Time Together
Miss Harlow, who sprang into film recognition in "Hell's Angels," won

JEAN HARLOW and CLARK GABLE in "HOLD YOUR MAN"

even greater acclaim in "Red Headed Woman" and clinched her hold on stardom in the tropical picture with Gable, with whom she first appeared in "The Secret Six".

Gable, whose career likewise skyrocketed in the same path as Miss Harlow's won his first success in "A Free Soul," and recently scored in "The White Sister."

"Hold Your Man," which teams them romantically, has an underworld flavor and is a rapidly-moving, rowdy, worldly story of timely tempo. In it Miss Harlow plays the part of a gaudy creature who is willing to allow herself to become the lure in a "love racket" for the sake of her

man. Gable, as the man in the case, is a light moralized chap who finds his real worth when the girl is sent to jail because of the trouble his racket gets her into. The plot is thrilling and with a climatic background in a women's reform school.

Sam Wood, one of the screen's best-known directorial aces, was behind the cameras on the production. He recently filmed "The Barbarian," with Ramon Novarro.

Gardner to Play For Dance at Lake

Rebekahs Postpone Bridge Tournament

The Rebekah lodge has postponed its benefit bridge and forty-two tournament, until Thursday, August 3, it has been announced. The tournament was to have been tomorrow evening, but was postponed because of the fact that the Country club is having a bridge party at the same time. The public is invited to attend the Rebekah tournament August 3.

Mrs. Barrow Awaits Preliminary Trial

PLATTE CITY, Mo., July 27.—With bond set at \$15,000 Mrs. Blanche Barrow, wife of Marvin (Buck) Barrow, today awaited preliminary hearing August 5 on a charge of assault with intent to murder.

Captured Monday near Dexter, Ia., she was brought here to face the charge brought in connection with the escape of the Barrows through a cordon of officers. The assault charge applied specifically to the wounding of Sheriff Coffey.

Mrs. Barrow pleaded not guilty when the charges were read.

WHAT IS A VACATION?

Every year there is a break in the regular routine of daily work—this we call a vacation. To most of us it is a wonderful chance to "get away"—to rest—to relax and forget about the worries of everyday life. If you want that experience, if you want this vacation to be the most enjoyable and worthwhile you ever had, come this year to the CRAZY WATER HOTEL, Mineral Wells, Texas.

Incidentally, this year the rates are the lowest in history.

Please send me free of charge full particulars concerning a health vacation at the CRAZY WATER HOTEL. It is understood that I will not be obligated by this request.
