ONE OF THE nice things about the annual Chamber of Commerce banquet last Thursday night was the place where it was held — the Victor Hotel's new Corral Room. More than \$20,000 has gone into an improvement program in the room and adjoining area. And the result is certainly a credit to our community.

Rev. Dick Crews, the speaker, enjoyed visiting with many old friends that he made in Cisco while he was pastor of the First Christian Church from 1946 to 1949. His program was super in all respects. Commenting on his loss of hair since leaving Cisco, he noted that the good Lord made a lot of heads and covered up those He didn't like. Rev. Crews reported that he was glad to meet up with Mayor John Webb again. The last time was in the Philippine Islands during World War II when he was a chaplain and Mr. Webb was in charge of Red Cross activities in that region.

Mr. Bob Elliott did a fine job as the master of ceremonies. The CHS stage band won a big hand for the splendid dinner music they rendered. Hats off to Manager Jim Smothers, Arrangements Chairman Gene Abbott, V-P Paul Blaine and others who helped make the affair a fine success.

SEE BY THE papers that the widow of Charles Crabtree, who lost his life in a T&P railway crossing accident here last July 27th, has filed suit for \$311,900 against the T&P in connection with the mishap. She was injured in the accident. Don Rupe and Roy Westfall and their workers went over to Brownwood last Wednesday night for a supper meeting of Phillips 66 dealers. The Bill Wrights are building a new brick fence and outdoor living room at their home up on West 14th Street. Salutations to the Cisco Jaycees. They're making curtains for the Girl Scout House.

LET'S ALL HELP Mrs. Alex Spears be a good historian for the Cisco Garden Club. She has been elected to that office and they've never had one before, and Mrs. Spears needs help in writing the club history. She would like to talk with charter members and others who are familiar with the club background.

Call her after Tuesday as she is one of a group of Cisco women at the Federation meeting in Sonora this Sunday and Monday.

AN EASTER SUNRISE pageant will be held at the Kendrick Poultry Farm, located between Eastland and Cisco, and many locals are signed up for parts. You'll be reading more about the pageant, which the Kendricks are to be credited for the arrangements and excellent site for such an appropriate undertaking.

Mrs. W. E. Austin has been OK'd on this past week with her sister, Mrs. Ernest Jeffrey, who had undergone surgery.

Jury Finds Mrs. Bratton Not Guilty

A verdict of not guilty was reached by the jury in 91st District Court Thursday in the murder trial of Mrs. Maurine Bratton for the rifle death of her ex-husband Sept. 30, 1963.

The jury took two hours and 15 minutes to deliberate her fate, and Foreman Steele Hill handed the verdict to Judge Frank Sparks at 4 p. m.

Mrs. Bratton, 43, was accused of shooting R. L. Bratton as he stood beside his pickup near the gate of her ranch home in the Ranger vicinity.

Defense Attorney Bill Hart used a strong plea of self-defense to win the acquittal, with witnesses testifying to the abuses to which Mrs. Bratton had been subjected by her former husband for some 16 years.

The trial began Monday and had included extensive defense testimony, including that of Mrs. Bratton and the Brattons' daughter, about ill treatment of Mrs. Bratton by the slain man.

Prosecuting Attorney Perry Brown contended that Bratton was shot in the back and had asked the jury to render a death sentence or the number of years they deemed right for the crime.

Pippen Issues Statement In Commission Race

W. L. (Roy) Pippen, candidate for re-election as a member of the City Commission, issued a formal statement Friday in connection with the April 6th election.

"I decided to run for a second term after careful consideration," Mr. Pippen said.

"I do not claim to be perfect and cannot say that I never have made a mistake. All I really wish to say is that everything I have done and everything I have voted for has been to the best of my judgment, and for the betterment of Cisco.

"We have never gone beyond the limits of the city charter, having cleared our decisions with the city attorney before taking any action.

"We have so managed your tax money that we have the financial condition of Cisco on a sound basis. We are paying off our current bills and retiring some of our old notes. I cannot foresee any tax raise in the near future.

"Your vote and continued support will be appreciated." Mr. Pippen is a native of this Eastland County area. He operates his stock farm northwest of town and owns his home in town. He is a member of the First Baptist Church, the Woodmen's Lodge and is a Veteran of World War I. He is serving as commander of the VFW Post.

CofC Dinner Speaker Challenges Ciscoans To Work For Progress

FARM FAMILY OF THE YEAR

Mr. and Mrs. Don S. Schaefer and their three sons of the Romney Community, south of Cisco, were honored as the area's Farm Family of the Year at the annual Chamber of Commerce banquet in Cisco last Thursday night.

The above picture shows President Bob Elliott of the CofC with the Schaefer family. Shown standing, left to right, are Mr. Elliott, Danny Schaefer, 16, and Mr. Schaefer, 9, Mrs. Schaefer, and Craig Schaefer.

Mr. Schaefer was born in Cisco and is the son of Conrad Schaefer, who lives south of

town. He attended the Rising Star schools and in 1947 was married to Charlene Long, daughter of Mr. and Mrs. R. C. Long, of near Rising Star. She is also a graduate of Rising Star Schools.

After working in the oil fields several years, Don bought some brush land in the Romney Community. He built his home and cleared all of the brush from his home place. In addition to his farm, which he bought in 1959, he leases 475 acres of land and raises livestock on it.

Don does his own blacksmith work and welding and made much of his farm equip-

ment. He built their home and barns personally, spending only \$28 for labor.

The three Schaefer boys attend the Rising Star schools. The family attends the Union Baptist Church where they are active workers. They are members of the Rising Star P-TA and Band Booster Club. He is a Mason, and she is a member of the Eastern Star.

A practice of the Schaefers is to trade work with neighbors and to help people when they need it.

"The Schaefers are the kind of people who built this country as pioneers," said Roy Hathaway, who handled the award ceremony.

L. C. Davis Is Elected To High Ass'n. Position

L. C. Davis, vice president and general manager of the Sandler Manufacturing Company in Cisco, was elected as a district supervisor for the Steel Tank Institute's three-state southwest region at a meeting in Dallas last week.

The Sandler company is a member of the national organization, which has headquarters in Chicago. The southwest region covers the states of New Mexico, Arkansas and Texas. Appointment to the supervisor's post was regarded as a high honor for the Ciscoan.

The local factory is nationally recognized in the tank manufacturing industry.

Mr. Davis, a resident of Cisco since 1919, has been with Charles S. Sandler enterprises for some 25 years. The factory which he directs was his idea, and its growth has been steady under his guidance.

Guests in the home of Mrs. Leita Mendenhall this week-end are W. G. Cummings and daughter, Carolyn, of Dallas.

LIONS COMPLETE PLANS FOR BANQUET THURSDAY NIGHT

Plans for the annual Ladies Night Banquet were made at the regular meeting of the Cisco Lions Club last Wednesday at the Victor Hotel.

The banquet will be held Thursday, March 25, at 7 p. m. in the Victor Hotel Dining Room. Guest speaker will be Harry Rankin, governor of District 2E2, of Fort Worth. Master of ceremonies will be Sutton Crofts, and District Governor James McCracken will introduce special guests.

Special music will be presented by Mrs. Charlotte Griffith, and song leader will be Norman Huston. Invocation will be given by Jay Richardson.

Program at the Wednesday meeting was a report on the community's Girl Scout program. The program opened with a flag ceremony, and the club was told of the Girl Scout cookie sale. A skit, "Circling the Globe with Friendship," was presented by several Girl Scouts.

Jim Smothers, manager of the Chamber of Commerce, was introduced as a new Lion, and guest was Andy Anderson of Comanche.

250 Are Present For Hotel Event

A challenge to believe in the future of Cisco and to practice the kind of citizenship necessary to bring about more prosperous and progressive conditions was given by Dr. Richard Crews, San Angelo minister, in an address Thursday night at the annual banquet of the Chamber of Commerce.

The dinner was attended by approximately 250 persons in the new Corral room of the Victor Hotel.

Presentation of Mr. and Mrs. Don S. Schaefer and their three sons of the Romney Community, southeast of Cisco, as the Farm Family of the Year was a highlight of the dinner. Other awards went to Al Anderson for the Jaycees, a plaque of appreciation; and to Dr. E. E. Addy, retiring CofC president, a plaque of appreciation for serving two terms.

Mayor John H. Webb, who will retire next month after serving as mayor for six years, was presented the American Legion's Community Service Award — a pair of cowboy boots.

Dr. Crews, former pastor of the First Christian Church here, offered three suggestions as pathways to follow to achieve good results in community progress. These were:

1. Dedication — Something necessary for people who expect to accomplish something in the field of civic endeavor.

2. Discipline — Those who practice daily prayer, regular study of community needs, and give time to help in public matters need this.

3. Demonstration — Show interest in community progress by participation and discharging the obligations of citizenship.

Dr. Crews opened his program with a humorous rendition of two classics of comedy poetry — Casey at the Bat and The Shooting of Dangerous Dan McGrew. He was introduced by Bob Elliott, the CofC president who served as master of ceremonies.

Mr. Elliott, in presenting the plaque to the Jaycees, noted that they had accomplished a great deal in the civic work field, including their annual Lake Cisco Beauty Pageant, Labor Day Safety project, sponsoring junior golf and boxing programs, operating concessions at football and basketball games, Christmas light work, and others.

Roy Hathaway introduced the Farm Family of the Year, and introduced out-of-town guests. Abilene had 18 present, Baird 4, Breckenridge 5, Eastland 1, Houston 2, Lueders 2, Moran 2, Nimrod 2, and Rising Star 4.

Jim Smothers, the new manager, and his wife were introduced, along with Dr. and Mrs. E. E. Addy, Mayor and Mrs. Webb, Mrs. Bob Elliott, Mrs. Roy Hathaway, and Rev. and Mrs. J. Morris Bailey, who were at the head table. Rev. Bailey gave the invocation and the benediction.

The Cisco High School stage band provided dinner music. The group, directed by Eris Ritchie, was composed of Vance McCracken, Marilyn Hathaway, Tommy Golemon, Beverly Caudle, Andy Hughes, Steve Kent, Bobbie Golemon, Ann Rutherford and Sandra Blaine.

CofC officials described the event as a good success from all standpoints.

Mrs. Robert Douglas is visiting a few days with her daughter, Mr. and Mrs. Roy Moore, in Mineral Wells. She was expected to return home Sunday.

March 26 Is Deadline or Feed Grain Signing

Friday, March 26 is the final day to file intentions to participate in the 1965 Feed Grain program, according to County Extension Manager, Agriculture Conservation and Conservation Service (A. S. C. S.) Jesse Meredith. He also stated that March 26 is the last day to re-plant peanut acreage that will be planted.

Meredith reminds producers to winter legumes planted under the 1964 ACP program to be left on the land until April 15, 1965 before plowing. Rye cover crop planted under the program must be left on the land until after the first frost or until the first blow season or until the first frost is prepared for spring planting. Rye or winter legume planted under ACP program may not be harvested in any manner.

Producers with domestic allotments that are eligible to participate in

domestic price support payments, intentions must be filed by March 26, 1965, Meredith stated. Producers interested in cost-share on approved conservation practices must file a request before beginning the practice. When the practice is completed, sign and return the application for payment, which will be furnished when practice is approved.

Fruit Crop Not Believed Seriously Hit

Hope exists for Eastland County's fruit crop after the temperature dropped into the low 20s Thursday night and Friday morning.

Naturally, there are reports of scattered individual fruit damage where single trees had blossomed out, it is reported, but the larger orchards aren't believed far enough out to have been damaged.

The mercury dipped to 21 in Eastland and Cisco, and was recorded at 20 in Ranger; and Gorman had a 23-degree low.

Earliest bloomer traditionally is the apricot and not many of these trees had put out, it

is believed.

As temperature climbed Friday to above freezing by noon, thoughts were whether another sudden drop, say about April 1, which could conceivably be the "Easter snap," would in deed, damage the county's fruit potential.

Consensus appears to be that enough trees hadn't bloomed out yet to have been seriously, across-the-county disastrous to fruit, although many individual trees undoubtedly bore black, black blooms Friday.

Temperatures dropped to 18 degrees early Saturday morning for the lowest reading of the present cold wave.

WIN BRIDGE HONORS

Mrs. E. L. Graham and Mrs. R. A. Bearman were winners of the Eastland County Special Event held during the past week at Lone Cedar Country Club. They were awarded a first place trophy.

Players participating were from Eastland, Ranger, Cisco, Gorman, Stephenville, Brownwood, Coleman, San Angelo, Breckenridge, Graham, Strawn and Abilene.

Spirits is a general term used for drinks containing at least 40 per cent alcohol.

Broom corn is a grass from which brooms and clothes brushes are made.

Cutting Horse Meet Set For March 28 In Eastland

The next cutting meet of the West Central Texas Cutting Horse Assn. will be held Sunday, March 28, in the arena of the Eastland County Sheriff's Posse, according to Booley Cotton, secretary-treasurer.

The Eastland show will be the second one since directors voted to add a new novice-division class and to permit a contestant to ride two horses in the two classes.

Books will close at noon for the Eastland show. The working order follows: \$1,000 novice, \$500 novice, any rider, \$500 novice-novice, \$250 novice-novice and open.

Malcolm Jernigan and Robert Terring are to be the judges.

down Mitzy, ridden by John Israel and owned by Thompson Israel of Hominy, Okla., tied for second and third money with scores of 142.

In the \$1,000 novice event, 15 horses entered, Marion's Ann, ridden by Perry and owned by Circle K, topped the field with a score of 143. Showdown Mitzy and Senior Tom, the latter owned by Sonny Knutzen of Akron, Colo., and ridden by Dad Blue scored 141 points to tie for second and third.

Dutchess Lady Wins

In the \$500 novice, any rider class, 18 horses were entered and the winner with 142 points was Dutchess Lady, owned by D. L. Powell of Seymour and ridden by James Powell. Second was Butcher's Poncho, ridden by Glenn McWhorter and owned by Billy Gene Crowder of Fort Worth, with a score of 137.

In the \$500 novice - novice class Billy Wynn of Joy rode his own horse, Miss Blue, to first with a score of 137. There were 14 horses entered. Second was Bubble's Red, owned and ridden by Delwin Burch, Graham. The score

was 136.

County Native Is Opening New Roswell Office

G. Dee Williamson has resigned from the Midland District of the Lone Star Producing Co. and is moving to Roswell, N. Mex., where he will establish an office to buy and sell mineral and royalty interests and broker oil and gas leases. He went to Midland with the Lone Star Gas Company in 1953 as a scout. He later advanced to landman and after two years of military leave of absence he returned to the company in 1957, and was assigned to Roswell as a landman. He continued at the same location until last October when the Roswell office and the Midland office were consolidated, and he returned here as a senior landman. Williamson is a past vice president of the New Mexico Landman's Association, and a member of the Permian Basin Landman's Association and the American Association of Petroleum Landmen. He is married to the former La Nita Creager from Ranger. They have three daughters, Amy Kay, Alice Kay and Mary Carol. He is the son of Mr. and Mrs. D. F. Williamson of Morton Valley.

Annual Reports Due From Many Claimants Of SS

Early each year, many people who get social security payments must file an annual report of their earnings for the prior year. This report in 1965 must be filed by every social security beneficiary who was under age 72 during any part of 1964 and had income of over \$1200 in wages or in profit from his own business. One of the questions on this report is: "Do you expect to earn over \$1200 in 1965?" If so, you show your expected total earnings for 1965. Many times the estimate shown in January or February is not high enough when a second look is taken in mid-year. If you then think your actual earnings will be more than you at first anticipated, you should get in touch with your social security office. Someone there will be glad to help you revise your estimate. You may find that you have already received more benefits than you will be entitled to get for the year and are overpaid. The adjustment of this overpayment need not be made until after the end of the year when you make your next annual report.

Free Washington Trips Offered In Oratorical Event

All expense paid trips to the nation's capital city will be awarded to winners of an oratorical contest it was announced this week by Bill Kins, manager of Comanche County Electric Cooperative.

The contest is open to any boy or girl at least 16 years of age but not 18 years of age prior to September 1. Mr. Parks said. Winners will join winners of similar contests sponsored by other electric cooperatives across the state on the first annual Textile Government in Action Youth Tour to Washington, D. C. All expenses of 11 day trip beginning June 1 will be paid by Comanche County Electric Cooperative, Kins said.

Each entrant will be required to give a 3 to 5 minute speech on the subject "Rural Electrification Good for All Americans" and answer one or more of 50 questions asked by the judges. The oratorical event will be judged on the basis of (1) knowledge of subject — 40 per cent; (2) speaking ability — 30 per cent; (3) poise — 10 per cent; (4) originality — 10 per cent; (5) appearance — 10 per cent.

Interested young people may obtain an official entry card from their school or the office of Comanche County Electric Cooperative. The deadline for submitting entries will be March 5, 1965, Kins said.

Participants in the Textile Cooperative Youth Tour, local contest winners will travel by chartered bus to Washington, D. C., where they will spend three days visiting places of historical interest and seeing the nation's government in action.

On Wednesday, June 9, the group will meet more than 600 students from 10 schools for a program sponsored by the National Rural Electric Cooperative Association and the Rural Electrification Administration. The program will feature presentations by officials of these organizations and other Washington personalities and the Presidential staff.

The eventful day will end with a charter cruise down the Potomac which will include entertainment and refreshments.

Also included on the 11 day tour will be visits to the George Washington Mount Vernon home, Arlington National Cemetery, U. S. House and Senate, U. S. Department of Agriculture, the Smithsonian Institute, the U. S. Printing and Publishing Bureau, the Lincoln Memorial and other places of interest.

Medicare Is a Misnomer

A recent Gallup Poll indicated that a majority of Americans favor medicare. But, of great significance, the same poll found that a very large percentage just don't know what the scheme would and would not do. They believe that it is far more liberal and inclusive than is actually the case. To take one important example, 40 per cent think it would cover the fees of doctors, surgeons and dentists — which it wouldn't.

The fact is, as many observers have pointed out, that the very term medicare is a misnomer. It suggests a broad program for meeting all the needs of those coming under it. Instead, it is essentially a hospital and nursing home program, and even in those areas the benefits are strictly limited.

So, if medicare should become law, millions of people will be due for a grave disappointment. Along with that, the heavy cost — which in all probability would be larger than the estimates — would have to be paid by substantial boosts in the social security tax rates.

We might have to accept these dangers and disadvantages if medicare was the only way to deal with the medical problems of the aged. But there are other and better ways. What seems to be the best of these is a plan proposed by the American Medical Association. It would expand the existing Kerr-Mills federal-state program and authorize people over 65 to buy private health insurance providing liberal hospital and medical benefits. Government would pay part or all of the premium of policyholders who could not afford the cost. If a policyholder's income was below a certain level, established by the state, he would pay nothing at all. A simple statement of income, filed with a state agency would be all that was needed to qualify.

This plan is based on actual need, as any sound plan must be. It would provide much more than medicare and do that without setting up another Washington bureaucracy. It would not open the door to socialized, or politically dominated medicine, as many fear medicare would. It meets the problem — without creating new and serious problems in the process.

Edward W. O'Brien, of the Portland Oregonian's Washington Bureau, writes: "An

unpublished study by top government actuaries shows that the administration's medicare proposal would cost \$3.8 billion a year by 1975 and that the proposed special health care fund would be just about broke by then.

"In this study, Social Security Administration experts found that the cost of operating medicare would exceed by 1972 the income to the fund from the new payroll taxes provided . . ."

These findings square with warnings given by nongovernmental authorities of the financial perils that medicare contains. And there is more than theory to back them up. Some foreign countries have imposed various medical benefit plans on top of pension and retirement programs and have invariably found that the actual costs far exceeded the optimistic estimates. In France, which took that step, reports indicate that the welfare system is perilously close to bankruptcy.

Farm And Ranch Land Prices Up Again In Texas

COLLEGE STATION—Texas farm and ranch land prices reached a record high of \$94 an acre in 1963. This, said Boyd Andrews, Extension resource development specialist at Texas A&M University, was an increase of 10 percent over the average price in 1960.

He added that a recent study by the resource econom-

ics section of A&M's Department of Agricultural Economics and Sociology points out other interesting facts. Due to the vast differences in soil types and locations, sale prices ranged from \$20 to over \$1,000 per acre.

While land prices moved upward, the net farm income was declining. Thus requiring a larger investment for a smaller return. A popular view expressed to the study group was that the low net farm income does not justify the existing high land prices, Andrews said.

But a closer look at the dominant sources of demand for agricultural lands may explain the situation, the specialist added. First, he said, the average net farm income can be misleading. Many farmers and ranchers receive a far greater return than the average indicates. This group is capable of adjusting rapidly to incorporate technological advances and financially able to bid up the price of land to gain a larger economic sized unit. The strong demand for strictly agricultural land comes almost entirely from this group, Andrews said.

Another important source of demand for agricultural land is from industry and urban developments. In many areas of Texas industry is expanding and using large acreages of agricultural land and pushing prices upward. Urban centers are spreading out and taking up more and more land and highways are also taking their share, the specialist said. These intensive uses of land exert great influ-

ence on land prices, the study noted.

A third important source of demand comes from urban dwellers. These buyers are interested in using land for agricultural purposes as well as for homes, week-end farms and for recreation.

These demand sources for land are the dominant forces in the Texas land market and are not expected to change in the near future, Andrews concluded.

VETS QUESTIONS & ANSWERS

Q — Upon my discharge from the Armed Forces, I received a lump sum disability severance payment. Will I have to pay this back to the Government if I am awarded VA compensation for the same disability?

A — The law requires that VA monthly compensation payments be withheld until the amount recovered is equal to the amount of disability severance pay you received.

Q — How can I get an increase in my rate of compensation?

A — Submit your request for an increase and present medical evidence to show that your service-connected disability is more disabling than at the time of your last examination for compensation.

Letters TO THE EDITOR

I have been thinking about how many kind, considerate, thoughtful people there are in the world, and have made a list of some of my favorites:

People who take their mail home to read instead of parking right in front of the post office to read it all, while office and store workers hunt vainly for a parking place.

Housewives who do their big grocery-shopping in the middle of the morning or afternoon instead of bottlenecking the checking counter with a huge load while workers are waiting in line to pick up a loaf of bread for lunch.

Leisured people who do their drive-in banking at hours when it won't hold up workers who have to get back on the job at 1:00 o'clock.

People living on a corner who don't plant fast-growing bushes that block the view of drivers crossing the intersection.

Policemen stationing themselves at highway crossroads who realize that unless they park their car pretty far back from the intersection, it will block the vision of drivers trying to cross the highway and probably cause an accident rather than prevent one.

Drivers who take compassion on a pedestrian who has waited for dozens of speeding cars while trying to cross Avenue D, and slow down to let her cross (I have actually known a few to do that!).

People who never, never park sideways or crossways so that they take up room for three cars on an unmarked parking space, thereby casting gloom into the heart of somebody needing a parking place badly and not having much time to hunt.

People who come into your office and promptly state their name and business, even if they think you ought to know it, realizing that you have hundreds of people to keep track of who look too much like too many other people.

People who wouldn't want me to throw beer cans on their front lawn, so they don't throw any on mine.

That about rounds out the list, except for people like you who put up with the vagaries of people who write "Letters to the Editor" when they could be devoting that space to printing NEWS!

Sincerely yours,
MRS. SUTTON CROFTS

Virginia, Thomas Jefferson's old home. Some of the literature we got had some of his maxims or sayings. They still make good sense. He surely was an unusual man—far ahead of his time. He must have been the supreme gadgeteer of his time and if living now as a teenager he would surely have his car loaded down with all the accessories in the book.

Sayings of Thomas Jefferson include:
My confidence in my countrymen generally leaves me without much fear for the future.

Character of good faith is of as much value to a nation as to an individual. The moral obligations constitute a law for nations as well as individuals.

The force of public opinion cannot be resisted when permitted freely to be expressed. Whenever the people are well informed they can be trusted with their own government.

I have sworn up on the altar of God eternal hostility against every form of tyranny over the mind of man.

If we are forced into a war we must give up difference of opinion and unite as one man to defend our country.

Agriculture, manufacturing, commerce and navigation, the four pillars of our prosperity, are the most thriving when left most free to private enterprise.

I never considered a difference of opinion in politics, in religion, in philosophy, as cause for the withdrawing from a friend.

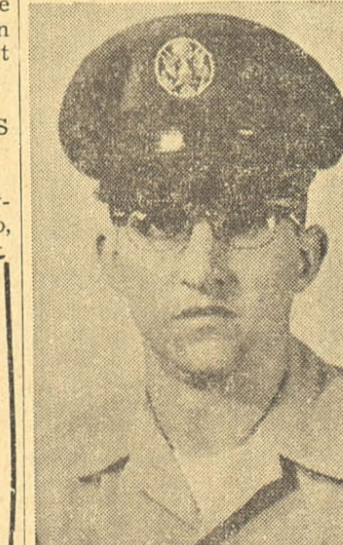

Honesty is the first chapter in the Book of Wisdom. Let it be our endeavor to merit the character of a just nation.

The last hope of human liberty in this world rests on us. Our liberty cannot be guarded but by the freedom of the press.

The bulk of mankind are schoolboys through life. Education is the true corrective of abuses of constitutional power.

Adore God. Reverence and cherish your parents. Love your neighbor as yourself. Be just. Be true.

Time indeed changes manners and notions, and so far we must expect institutions to bend to them.

Deadline Near To Obtain Auto Safety Sticker

MIDLAND — "Many motorists are going to be caught in long lines, before April 15th," said Major Leo E. Gossett, commander of the sprawling west Texas Region of the Dept. of Public Safety. "With less than 30 days left during the present Motor Vehicle Inspection period, over 208,000 vehicles remain to be inspected within the 49 county West Texas Region," Gossett stated.

"The period set by law for securing the 1965 inspection sticker ends at midnight, April 15, and there can be no extension of the deadline, Gossett pointed out. "Any Texas motorist whose vehicle does not display the new sticker after April 15 is subject to arrest by any sheriff, deputy, city policeman, or by officers of the Department of Public Safety."

The 49 county Midland Region of the Department of Public Safety has 533,810 registered vehicles, with 325,366 inspected as of March 15. This leaves 39 percent of the registered vehicles within the Region yet to be inspected.

"May we encourage all motorists, who have not had their vehicles inspected, to have this done immediately as some of the inspection stations are already becoming crowded," Gossett asked.
