## 3-DAY HEAT WAVE IN TEXAS

### Mr. and Mrs. Tom Johnson, Though Far Advanced In Years, Are Young In Heart—Plant and Sow for Others

### THREE CROPS OF PEACHES GROWN KITTRELL HOME

Mr. and Mrs. W. H. Kittrell and daughter, Miss Lucy, have shown what may be done in the way of beautifying a home and providing fruit for the table on a small plot of ground. Their home at 1800 E. avenue shows the result of much taste in arranging their little arbors, covered with vines and bordered with variegated flowers, and little nooks, here and there, with a profusion of bloom and fragrance. Mountain petunias, variegated mosses, dahlias, hollyhocks, extra large zinnias, marigolds, cosmos, shasta daisies and a dozen other flowers, both common and uncommon, are arranged to give the most charm and attractiveness to the yard. What might be an unsightly place is hidden by a cluster of flowers and vines which really make that particular spot most attractive. For instance, the gas meter is hidden from sight by vines and other flowers which beautifies that usually unsightly spot. Back yards are too often places to be avoided, but the Kittrells have arranged a group of flowers that may be called a bank, with large flowers in the center and clusters of smaller ones around that turns their back yard into a place to be enjoyed rather than to be avoided.

Then comes the orchard, with its grape arbors, plums, pears, blackberries and peaches. One tree is a marvel. A crop has ripened and has been eaten, while the writer saw on this tree a number of younger peaches almost ready to ripen, and at the same time on other limbs were small peaches that will not be ripe for months yet. And it is not a grafted or budded tree, either. Just a common Texas every-day wonder, Cisco just persists in doing things a little better and different from the common way.

Ordinary climates cause a peach tree to bear a crop and rest until the next season, but the Cisco climate ripens three crops a year on one tree.

Another wonder that Mr. Kittrell has brought forth is a mesquite tree, 45 feet in breadth of limb and without a thorn. He has looked and looked, but never a thorn has been able to find. It is full of beans and he is going to plant some of them to see if they will reproduce a thornless tree.

The younger generation, that does not plant pecan and other fruit trees because it will be so long to wait for them to bear, is put to shame by Uncle Tom Johnson and his wife, who live at 200 West Eighteenth street. These good people have reached the ripe age of seventy or eighty and yet they are just as proud of their young orchard as any young folks could be who have prospects of a long life before them.

Uncle Tom has a small place but he and his wife are utilizing every foot of it in a useful way. They have pecan, persimmon, mulberry and peach trees which are receiving the best of care. A small plum tree four years old bore a tub full of plums this season, while their peach trees bear enough fruit for their use, yet none of the trees are over four years of age. They have a good garden and over in one corner they have a patch of polk for early greens. Their yard is full of lovely and fragrant flowers, which makes it seem like a real home. At the front gate is a cluster of alfalfa that is just as thrifty as if it was on "Alfalfa Bill's" farm in Oklahoma. Uncle Tom thinks he will plant quite a bit of it and run his chickens on the patch next year. And then we must not neglect to say that they have sold over 100 dozen eggs this year from their little flock of about 35 hens.

All of which leads us to remark that some people go on giving to the world's progress as long as they live. They are willing to begin structures that must be finished by those who come after, and who will eat the fruit planted by those gone before.

### G. E. BEDFORD SAYS PEOPLE PAY TAX WELL

"The second installment of city taxes are now due," said G. E. Bedford, who is sending out notices to tax payers. "We expect to collect in right away a large percent of these taxes, but that all may be saved the extra cost that accrues after the delinquent rolls are made, we are sending out statements at this time, and think most of the tax payers will respond. Those who do not, and postpone their payments until the delinquent rolls are made up will have the extra expense added. It is our aim to have the smallest delinquent roll this year that we have ever had. Collections during the past spring were good, and we expect only a few to go on the delinquent roll after the final collection for the year."

### DUG BARTON TO MAKE LUBBOCK HOME IN FUTURE

EASTLAND, July 8.—J. D. Barton left Monday with his family for Lubbock, where he will make his future home. Mr. Barton has entered the automobile business with D. C. Gibson at Lubbock. Mr. Gibson left several days ago for Lubbock. Mr. Barton is moving his household goods by trucks. Mr. Barton has been a resident of Eastland county for the past 31 years. He was for two years sheriff of the county and for four years previous a deputy sheriff. Up until the time that he became a peace officer he was engaged in farming at Gorman, which was his home until he moved to Eastland. Two of his three boys are engaged in business elsewhere, one at Breckenridge and the other at Cisco. In leaving Eastland Mr. Barton said that he did so with deep regret, as Eastland and Eastland county appealed to him as no other section of the country could.

### Guy Dabney Elected President Cisco Chamber of Commerce on Resignation of H. S. Drumwright

### PARDONED MAN RETURNS AGAIN TO VICE LIFE

BRECKENRIDGE, July 8.—J. Q. Eaton, already charged with forgery in seven complaints filed before Justice of the Peace C. T. Williams, was indicted in seven counts Monday by the grand jury, and his bond fixed by District Judge Hamlin at \$1,000 in one count and \$50 in each of the six others. He was arrested about a week ago and is still in jail. Eaton has recently served six years of a 10-year sentence for forgery. He was sent up from Eastland county but was pardoned in April by Governor Ferguson, it was reported. Indictments returned against him Monday charge forgery in the first count, and on the second count with either attempting to pass forged instruments or passing them, in most of the indictments.

One other indictment, a felony, was returned by the grand jury Monday.

### ANOTHER WELL DRILLED IN BY WARREN & WEST

L. A. Warren and Jimmie West have another nice little producer on the Diller tract in the shallow field northeast of Cisco. This well was brought in Monday, and is making 150 barrels, flowing natural, Mr. Warren stated. The pay was struck at the usual depth around the 550-foot level, and the volume of production is consistent with that of other wells drilled in on this tract. This well is the second producer Warren and West have brought in on that tract, and they are drilling in a third well at 100 feet, one location south.

L. A. Warren has three producers on the Isenhauer tract seven miles west of Cisco on section 6, the latest of which came in Friday, and these are averaging fifteen barrels per day each. The fourth well on this tract is expected to be drilled in Thursday, unless unforeseen trouble arises.

Mr. Warren, while one of the youngest operators in the shallow fields, has perhaps drilled more wells than any other operator. He has drilled 51 wells, and 42 of these have been producers. He drilled 15 in the Colony pool alone, 14 of which were producers. He recently sold his holdings in the shallow field for a neat little fortune, which are now owned by the Texas Company, and these later wells, are production acquired since disposing of his other oil properties. With the bringing in of these latest producers his production now is around 400 barrels daily, with considerable acreage yet undeveloped.

### TRAFFIC COPS WARN AUTOISTS OF CUTOUT LAW

Cars with cutouts open will be gathered in. That is the edict that has been made by the traffic cops, Robason and Hammett, who announce that from now on all cars running with cutouts must have the cutouts closed or the driver be arrested and fined as the law directs. The law prohibiting cutouts on motor vehicles is now in effect, and while not wishing to work a hardship on any one, they state they will enforce this law, and this is merely warning to those having cutouts still on their machines not to run them open. A disregard of this warning will subject motorists to the embarrassment and penalty of a fine, upon conviction, the traffic officers state.

The surprise and regret sprung at the meeting of the board of directors of the Cisco chamber of commerce Tuesday night was the resignation of President H. S. Drumwright, who stated that after serious consideration this course was imperative in justice to the chamber of commerce and to himself, for the reason that he could not give the time to the duties that it requires. It was with genuine regret that President Drumwright's resignation was accepted, and this action was not taken until it was ascertained that he could not serve in that capacity any longer. Upon the acceptance of President Drumwright's resignation, Guy Dabney was elected president and Forrest Wright was elected first vice-president, a vacancy existing by reason of Mr. Dabney's elevation to the presidency.

The formal resignation of Secretary Richardson was tendered and accepted with regret. Unlike the resignation of President Drumwright, it was generally known that this resignation would be presented at this meeting, as Mr. Richardson was recently elected secretary of the Brownsville chamber of commerce, and he asked that he be relieved July 15. E. H. Whitehead, field secretary, was designated acting secretary pending the election of a successor to Secretary Richardson. In accepting the resignation of Mr. Richardson, upon motion of Director Wright, a committee of three, consisting of P. W. Campbell, B. S. Huey and Forrest Wright was appointed to draft suitable resolutions expressing the amity that had existed between the directors and the secretary during the past four years of his service, and to congratulate the Brownsville chamber on securing him as their commercial secretary. Mr. Richardson in a few appropriate remarks thanked the directors for their action, and expressed his general regret at leaving Cisco and separating himself from such congenial associates. "Only the lure of the promotion the new position carries induces me to leave Cisco. I feel that whatever success I may have attained, the credit is due the directors of the chamber of commerce, for it was through their perfect co-operation and support that we have been able to accomplish the many things that have been put over. I shall always hold dear these associations, and Cisco will ever hold a warm place in my affections. I do not propose to sever all ties that bind me to Cisco, for it is my purpose to build a summer home at Lake Cisco where I may come and spend my vacations," he stated.

Chas. G. Gray, of the trade extension committee, reported the receipt of fish for the lake, including a large number of brooder bass, bream and crappie. Mr. Gray stated that Deputy Game Commissioner Fred Smith had personally inspected Lake Cisco and the game preserves around this city, and was completely sold on the Cisco country. Besides the fish already received we are notified that a consignment will reach here today from the federal hatchery, at the instigation of Congressman Tom Blanton. While here Mr. Smith indicated that Cisco would have a resident game warden, and the game preserves would be increased to 20,000 acres, which would be stocked with deer, turkeys, pheasants, grouse and quail. Inside of eighteen months Lake Cisco will be well stocked with game fish, Mr. Gray stated, and Cisco will be the best fish preserves in West Texas, which game men say is the biggest thing in the state. Director Fanning of the entertainment committee, reported that the celebration dedicating Lake Cisco and Williamson dam, and the attendant festivities, had proven successful beyond his sanguine expectations, for notwithstanding the rain that kept many from coming, there was one of the largest crowds in attendance that ever assembled in West Texas, there being at least 15,000 present, and he strongly advised that Cisco make this an annual event.

President Drumwright upon motion appointed Alex Spears, Guy Dabney and J. M. Williamson a committee to investigate and re-

### WATER SHORTAGE AIDS HEAT HURT IN KANSAS CITY

KANSAS CITY, July 8.—One is dead and two are in hospitals and the southern part of the city is without water as a result of the heat wave that today showed no sign of lessening. The mercury stood at eighty-two at seven a. m. The heavy tax on the water system caused a cessation of flow.

### DANCE AT CISCO COUNTRY CLUB FRIDAY EVENING

The entertainment committee of the Cisco Country club will give a dance at the club house Friday evening of this week. The Aggieband orchestra of A. and M. college will furnish the music. Nine o'clock is the hour, \$2.50 per couple the price and admission will be by invitation only.

### BRYAN PHYSICIAN RECOMMENDS THE CISCO COUNTRY

Julius Groginski, of Bryan, and his brother, Philip Groginski, of Fort Worth, were Cisco visitors today and called at the Daily News office to see A. E. O'Flaherty, an old friend. Both of the brothers are excellent young business men and sons of Joe Groginski, one of the foremost business men of Bryan. Philip Groginski is a geologist and is in the employ of the Mahlested-Mook Oil company, which operates extensively in the Cross Cut field. Julius has been in bad health for sometime and is temporarily sojourning in the Cisco country on the advice of a Bryan physician.

### ELY IS AFTER FLORISTS MEET HERE NEXT YEAR

J. B. Ely proprietor of the Cisco Floral Co., wires Secretary Richardson that Cisco and Galveston are the only contenders for the convention city of the Texas State Florists for 1926, which is now convening at Brownwood, and the convention city will be named this afternoon. The florists were extended an invitation to meet in Cisco by a strong letter from the mayor and chamber of commerce, which invitation was followed by telegrams from the mayor and Rotary and Lions clubs. Ely wires that Cisco's chances are good for securing the convention.

### GAS TEST SPURRED NEAR DEEP WILDCAT

ALBANY, July 8.—Phillips Petroleum company No. 1 Fry, center of the southeast of block 384, T. E. & L. company survey, northeastern Shackleford county, 10 miles northeast of Albany, is drilling at around 800 feet. Phillips has spudded No. 2 Fry, an offset, to get the shallow gas for fuel which was encountered at about 386 feet. No. 1 Fry will go deep.

commend a new secretary of the Cisco chamber of commerce.

At the meeting Tuesday night a visitor was present in the person of Mr. Bruce, in charge of the education department at Randolph College, who made an interesting talk on the school, stating that the affiliation board had given the school almost full affiliation as a junior college, and pointed out that the shortage would be made good during the 1925-22 term.

The report of the firemen's convention showed a slight deficit of approximately \$250.

Directors present at the meeting Tuesday night were President Drumwright, B. S. Huey, A. E. O'Flaherty, Guy Dabney, Forrest D. Wright, F. E. Harrell and John Fanning.

### Another Wave Such as Took Heavy Toll of Life a Month Ago Feared In Eastern and Western Sections

FORT WORTH, July 8.—With official forecasts fixing temperatures during the next three days at between 98 and 100 throughout most of Texas, intense suffering is feared in some parts of the state. One heat prostration was reported here today, when a woman was stricken, but not seriously. A woman died from the heat in Kansas City and deaths are reported from New York, Washington and Chicago. Another wave such as took heavy toll a month ago is expected.

### JOHN D. TAKES HIS ROUND OF GOLF ON 86TH BIRTHDAY

TARRYTOWN, N. J., July 8.—John D. Rockefeller got in his daily round of golf today on his eighty-sixth birthday. John D. will hear an organ recital this afternoon and then have dinner with his family.

### KELVIN HALL BURNED

GLASGOW, Scotland, July 8.—A relief fund for homeless and injured was being raised today for victims of Glasgow's five million dollar fire as firemen were still combating the flames. Six fires broke out simultaneously. Kelvin Hall, and all exhibition buildings and a college were all destroyed.

### SEVERE SHOCK IN JAPAN

TOKIO, Japan, July 8.—Nagoya was shaken by a severe earthquake today that demolished several buildings and opened great fissures in the ground, killing at least one person and resulted in the injury of many others. It is feared an active earthquake zone has started in this section of Japan.

### RAILROAD GROUPINGS

AUSTIN, July 8.—Proposed grouping of I. and G. N. Gulf Coast lines, Houston and Brazos Valley and Texas and Pacific under the one management and control, for the application of freight rates, will be the principal item on docket of Texas railroad commission, July 14. Should order for application be granted by rail body, two lines and three hauls will be reduced to single line rates between points on these railroads.

### PLANS COMPLETED FOR "KATY" SURVEY

SNYDER, July 8.—A reconnaissance survey of the territory proposed for the Missouri-Kansas & Texas rail extension from Rotan to Roswell, through Snyder, is to begin immediately. Towns along the proposed railroad have been asked to appoint committees to receive bonus subscriptions, right-of-way and depot terminal spaces. The work is an aftermath of the recent rail meeting held at Seminole when representatives from towns along the route organized. Reports indicate that the outlook for the extension is good.

### LIONS EAT AND TALK

Lion G. C. Richardson was the principal speaker at the weekly luncheon of the Cisco Lions club today, when Lion Holloway was master of ceremonies. The Lions on this occasion, enjoyed one of the most palatable lunches, and short talks were made by several present. Lion Richardson took this occasion to express his regrets on his leaving his fellow Lions, as he will leave for Brownwood before the next luncheon is held. There was a fair attendance and a pleasant meeting.

### WAYLAND

Mrs. O. O. Turner and children are visiting relatives in Collin county.

C. R. Brown has moved to his farm near Wayland.

Miss Irene Hodges from Woodson spent the week end with her parents, Mr. and Mrs. Thomas Hodges of this place.

A new baby girl arrived at the home of Mr. and Mrs. T. C. Cox, July 3.

Mr. and Mrs. Roy Blackburn gave a party for the young people of Wayland Saturday evening.

Miss Georgie Lauderdale has returned home from Denton, where she has been attending high school.

Miss Flora Fincher left recently for Oklahoma, where she will visit relatives.

Mrs. Hilliard Nunn is visiting her son in the Rio Grande Valley.

Miss Clara Lee Wagley and Miss May Posey from Cisco, are visiting in Wayland.

### COMMITTEES OF LOCAL POST TO REPORT FRIDAY

"There will be a special meeting of the John William Butts post, American Legion, at the legion stadium Friday evening," said H. G. Bailey, commandant of the local post, "at which time committees will make their report of collections for the endowment fund. These committees are now at work among the ex-service men, and it is our purpose to ascertain what can be done among the ex-service men before we apply to the general public for funds to put over Cisco's quota of the endowment fund, which is only \$1,400.

"Cisco cannot afford to fall down on this quota," said Mr. Bailey, "as it would give this city a black eye that we would not get over in some time, for certainly there is and can be no more worthy object than to endow a home for the orphans of ex-service men. It is the duty of the entire nation to see that those left dependent by the ravages of war have a chance to live after their fathers have made the supreme sacrifice. This fund is not for the benefit of legionnaires, as some might suppose, but is a sacred fund for the endowment of a home for war orphans, and can be used for no other purpose."

### INCIDENTS OF INTEREST FROM BRECKENRIDGE

BRECKENRIDGE, July 8.—J. D. Hill was convicted in county court before Judge John W. Hill this morning on charge of swindling. He is alleged to have passed a "hot" check here for \$5. He was sentenced to 60 days at hard labor on the county roads.

Judge F. E. Higgins of El Paso, associate justice of the court of civil appeals there, and his wife, had a narrow escape from injury Sunday when the car in which they were riding skidded and went into a ditch in Shackelford county, badly wrecking the car.

Workers in the American legion endowment campaign for the care of widows and orphans of world war veterans have raised \$1,001, and hope, in the next few days, to secure the remaining \$199, according to a report today.

Six arrests were made last night by the sheriff's department, most of them for being drunk and fighting. One choic joint was raided on Dyer street and a 20-gallon barrel poured out. A man alleged to have been the owner of the beer, was arrested. Another man, said to have had two bottles of choc in his possession when arrested, was taken into custody by officers, just after he had come from the place where the raid was made, the officers said.

Preparations for the Seventh Annual Old Settlers Round Up and Rodeo to be given at the farm of Elec Fambro at Wayland Friday and Saturday, July 10 and 11, are now under way. Cowboys and oldtimers from Eastland, Stephens, Palo Pinto, Callahan, Shackelford and other counties have announced their intention of being on hand for the celebration, and a crowd of around 3,000 people is expected to attend.

### HIGHWAY ASSOCIATION PRESIDENT HAS RESIGNED

FORT WORTH, July 8.—W. E. Lea, former mayor of Orange and president of the Texas highway association since the annual convention of the association in Galveston last August, sent his written resignation to W. T. Wheeler, secretary of the association here yesterday. President Lea announced in the letter that he was going to Tennessee to be gone for several months and would be unable to devote his time to the affairs of the association.

### RAIN-MAKING IN SOUTH AFRICA

South Africa is said to be going dry—not alcoholically, but in the matter of rainfall. The Zamesi river, through its southern tributaries, has long been tapping three large lakes which have been the region's chief aid in producing necessary moisture and rainfall. As these smaller rivers have cut deeper channels by erosion they have drained more water out of the lakes until at the present time two of them are practically empty. And as this happens the rainfall is decreased and a slow process of desiccation goes on. This has continued for many years, of course, but it has only recently begun to appear menacing.

The South African parliament engaged engineers to study the problem and their first proposals involve replenishing the lakes by building weirs in the river and diverting water from the Zambesi above Victoria Falls. This would open to cultivation about 80,000 square miles of otherwise waste land, and it is believed that it would increase the average yearly rainfall by at least ten inches. The initial cost would be ridiculously small, only \$2,000,000 according to the engineers. If their project proves feasible and does what they intend, the cost would be saved many times over.

Both klan and anti-klan national leaders, in an effort to create political issues that would be to their advantage, persist in trying to draw the president of the United States into what might easily become a seething caldron of hate and revolution. But the astute head of this great government merely smiles and blocks all advances.

### CONFUSING TRAFFIC LAWS

A newspaper writer who has been looking into the subject of laws and law-breaking finds special room for comment on traffic legislation. The traffic rules seem to be beyond computation, and the infractions are nearly so. He says that if there are as many arrests for the breaking of traffic laws throughout the country as there are in Washington and Baltimore, there are about 5,000,000 Americans arrested for traffic offenses in the course of a year, and the number of offenders who escape must be more than that.

Nobody can possibly obey all the traffic laws. Even if one masters and observes all the traffic rules in his own town, he is lost when he leaves home. The tourist is in a perpetual state of doubt.

"In some towns, for example," remarks the investigator, "a motorist may be arrested if he dims his lights on some streets and doesn't dim them on others. Going in front of a crossing policeman at a left turn is required in one town and in the next is cause for summons." There are endless differences as to speed, parking, signals, manner of entering a main thoroughfare, etc.

Obviously the traffic laws ought to be reduced and simplified and made as nearly uniform as possible.

### COLONIAL WHITE HOUSE

There is talk of making over the interior of the White House, changing it back to the colonial mansion that it was originally. At present it has much the effect of such a mansion externally, but the interior has been modified at various times in harmony with European rather than American styles.

As it stands now, the interior effect is largely that of the French empire. Settings of that type were introduced during the Roosevelt administration and have been retained ever since. The present proposal, submitted by a committee of architects and decorators authorized by congress, would make the entire interior reflect the colonial period, with furniture, rugs, hangings and colors representing the best American taste of the eighteenth century.

It seems altogether appropriate that the White House should be distinctively American, outside and inside, and should suggest the great period in which the nation was born.

### AIR AND WATER SERVICE

An innovation in the London-Paris air service was tried out recently with success. A French plane, carrying passengers, descended on the Thames near Fulham instead of going on to its airdome. It came down smoothly to the surface of the water and reached its mooring buoy under its own power. Later it took off again from the Thames and made its descent at Paris on the Seine river. It is simple enough to build and equip planes for either water or field landings.

The elimination of the airdomes and landing fields at both ends of the channel trip is said to save a good deal of expense and an hour's time. The first trial was so satisfactory that the water landing will be used in regular service soon.

Airdomes probably have their uses in stormy weathers or when repairs are needed. The new regime referred to is of chief interest perhaps because it indicates the tendency in air service to branch out and to employ every means to insure speed, safety, effectiveness and comfort at as reasonable a cost as possible.

### THE HEALTHFUL CITY

George E. Vincent, president of the Rockefeller Foundation, corroborates the view expressed by other medical scientists that, contrary to tradition and current belief, the city is a more healthful place than the country. That is, the average urban community is more healthful than the average rural community. Statistics prove it. There is more sickness and more mortality among country folk than the city folk.

Is the benefit of a natural environment therefore a delusion? Is there no real merit in space, air, sunshine and green fields? This is not the lesson taught.

Other things being equal, human beings enjoy better health in the country than in the city. The difference is in the extent to which human beings help nature. The city person, living in a less wholesome environment, has more of what President Vincent calls "scientific protection."

His water supply is better protected, and therefore his faucet is superior to the old well in the back yard. His damp soil is better drained and his house better screened, and therefore he suffers less from malaria. Often, surprising as that fact is, he gets better food. He protects himself better from bad weather. He goes to the druggist or the doctor or the dentist more readily, when he has need of it.

If the rural population took as much care of itself in hygienic ways as the city population does, it would have a better health record. The ideal situation for health is city standards in the country. That is found, more and more, in suburban communities.

### CHICAGO'S GRIEVANCE

"What ails Chicago? people ask, when they read that it wants to secede from Illinois and form a separate state of Cook county.

Chicago, it may as well be said at once, is not likely to secede, for the conclusive reason that Illinois will not let it. No state wants to lose its metropolis. But Chicago's grievances are real, and genuinely American. What Chicago objects to is what the American colonists objected to a century and a half ago—taxation without representation—also various other forms of legislation affecting it in the same undemocratic way.

Chicago has by no means as many representatives in the state legislature as it should have according to its population. The legislature, controlled by the rest of the state, particularly by the rural sections, steadfastly refuses a just apportionment. Several other big cities in this country are in the same fix, though nowhere else except possibly in New York is the injustice quite so glaring.

### DO YOU REMEMBER?

Roundup, July, 1912.

Mayor L. B. Platt stated to a Round-Up reporter that tax rolls indicate that we will not be able to issue more bonds for improvements in Cisco. A new city hall and fire station has been talked of for quite a while and it was thought that Cisco's rendition of taxes would increase to such an extent that we would be able to issue bonds for this purpose, but since the board of equalization has completed its work and the totals have been added it is found that the renditions are much lower than was expected, consequently Cisco will have to wait at least one year before she can start the improvement again.

Leonard DuBose, who was arrested for the killing of C. M. Pilcher, made bond and is now awaiting the action of the grand jury.

County Attorney Allen D. Dabney of Eastland, was in the city Saturday and spoke to a large crowd on D avenue in the afternoon, followed by John F. Patterson of this city.

The following officers were elected in the Cisco Eastern Star chapter last Tuesday night and will be installed next Tuesday night: Mrs. A. J. Ward, worthy matron; G. D. Ward,

worthy patron; Mrs. Reagan, assistant worthy matron; W. W. Moons, secretary; Mrs. R. A. St. John, treasurer; Mrs. J. J. Winston, conductress; Miss Ethel St. John, assistant conductress.

Rev. and Mrs. S. W. Turner of Eastland spent Sunday in Cisco at the home of their daughter, Mrs. J. H. Garner. Rev. Turner preached at the Methodist church Sunday night.

Mrs. Tillman Perkins of Snyder, who has been visiting her aunt, Mrs. C. S. Williams, was joined by her husband Friday night, and left for Palo Pinto to visit Mrs. Perkins' parents, J. L. Cunningham, and family.

Mr. G. H. Kinsey, of Cisco, Texas, is visiting old friends in this county. He came last week with the corpse of Mr. Tom Thorn, his father-in-law. He will be here for several days.—Trenton, Tenn., Herald Democrat.

Master Everett Davis entertained the younger crowd at his home last Saturday night in honor of Sam Martin of Morgan. All kinds of games were indulged in. Refreshments of ice cream and cake were served to the guests. All report an enjoyable time.

Misses Lois and Eunice Gates of Gorman have been spending a few days in the city the guests of Mrs. K. P. Barton.

### RAILROAD HEARING MAY BE POSTPONED

TULIA, July 7.—Ireland Hampton, field director of the Texas Panhandle and Gulf, believes that the hearing of the Interstate Commerce Commission, scheduled at Plainview July 20, will be postponed until Oct. 1. Hampton recently filed a motion before that body asking that the Santa Fe Fort Worth & Denver and Panhandle & Gulf hearing be consolidated and set for Oct. 1, when the final hearing of the Powell road comes up. In his motion Hampton says that the hearing of the Santa Fe and Denver applications will be prejudicial to the Powell road which, he claims, has priority of definite action from the Commerce Commission.

### Bumps and Blotches Cause Folks to Be Backward

Help them wherever you see that they are standing back, afraid to assert themselves simply because they feel sensitive about their pimply, red and rough face.

Thousands of people all over the country are praising Black and White Ointment, and Black and White Soap, because they get rid of their skin troubles when everything else they tried did them no good.

Tell your friends, who are struggling under this handicap in life, to get Black and White Ointment, and Soap, from any dealer. They will be delighted with the quick results they will get from it. They are economically priced, in generous packages. The 50c size Ointment contains three times as much as the 25c size.

### ELECTRICAL WORK AND PLUMBING

All Plumbing and Electrical work entrusted to us will be cared for in an efficient and workmanlike manner, by men well experienced in those lines.

Phone us your wants.

### WEATHERFORD PAIR SERIOUSLY INJURED

WEATHERFORD, July 8.—Mrs. Will Taylor and Jack Yearly are each in a critical condition at Bowie hospital here as a result of an automobile collision here. Mrs. Taylor suffered concussion of the brain and Yearly suffered a broken arm and broken leg. A baby of Mr. and Mrs. Taylor was hurled from the car into the street but was not injured. Other occupants in the car received severe cuts and bruises.

### MANY DOGS KILLED

SWEETWATER, July 8.—Ruring June nearly a hundred canines "bit the dust." The war on the dog without license and muzzle will be maintained.

# It's Here Again!

## Once More Big Savings in Ladies' Ready-to-Wear are Made Possible Through the Annual

# July Clearance Sale

### Beginning 9 a.m. Friday, July 10

**E**AGERLY anticipated every year by our customers in Cisco and surrounding territory, this big sale again brings big values in timely, seasonable goods to those wise and thrifty ones who take advantage of it. The cuts in ladies wearing apparel, greater than any other in this store-wide sale, furnish an opportunity to pick up lovely garments at almost ridiculous prices, but this is what the name implies, a Clearance sale. We want to clear out every garment in this department, no matter what the loss, and have made the prices accordingly. If you have some dress you **PARTICULARLY** want, you'd better be here bright and early Friday morning.

### Linens and Voiles

# 1/2 OFF

A fine assortment of these popular dresses, so cool and pretty, including hand-made, hand-drawn, hand-embroidered imported voiles at ridiculously low prices. One half off makes their price \$3.25 to \$11.25.

### Any Silk Dress in the House

# 1/2 OFF

From dainty little printed crepes in lively colors to dressier frocks in silk failles, Crepe Elizabeth, Crepe Romain, and other beautiful fabrics, every silk dress in the entire stock will be sold at this drastic cut. This means:

\$12.85 dresses	\$ 6.49	\$22.50 dresses	\$16.25
\$14.95 dresses	\$ 7.49	\$39.50 dresses	\$19.75
\$16.85 dresses	\$ 8.45	\$44.50 dresses	\$22.50
\$22.50 dresses	\$11.25	\$49.50 dresses	\$24.75
\$27.50 dresses	\$13.75	\$59.50 dresses	\$29.75

### Suits and Ensembles

# 1/2 OFF

An opportunity to buy luxury garments at practical prices. The coats to these suits and ensembles are of silk faille, wool faille, twill and flannel. Dresses are of colorful printed crepes and striped flannel. Not so many of these but a good choice of colors and sizes.

### Coats

# 1/2 OFF

A big assortment of light weight coats that will be suitable for fall wear. Most are in light colors, of soft light-weight woolsens and camels hair effects.

\$16.50 coats	\$11.00
\$27.50 coats	\$18.37
\$37.50 Coats	\$25.00
\$47.50 Coats	\$31.67

You can't make a mistake at a Jno. H. Garner sale. Every item in our large stock is reduced in price and sold strictly as advertised. Nothing restricted. A fine time to buy for yourself and family.

### Fashionable SUMMER HATS

## at 1-2 price

All spring and summer hats will be offered at this big reduction! This is your opportunity—the styles are smart and seasonable and becoming. It's a timely offering we want you to take advantage of. All midseason hats also at substantial reductions.

#### THE BIG \$1.00 HAT SALE

Will be conducted as usual in the summer sale. Those of you who've been before, know that you HAVE to be early!

### Sweaters

# 1/2 OFF

Silk sweaters and wool sweaters in both pull-over and Tuxedo styles. Lots of colors and plenty of sizes.

### Petticoats

### and

### Kimonas

All petticoats, bloomers, and kimonas in our stock will be greatly reduced in price for Clearance.

### Blouses and Skirts

# 1/2 OFF

Broadcloth Blouses and blouses of sheer voile; as well as every skirt in our stock will be sold at one-half their regular price.

No special purchases of "sale" merchandise. Just a clearance of our entire regular stock to make way for our fall merchandise. Every article is reliable and backed by the "Dependable" guarantee of satisfaction.

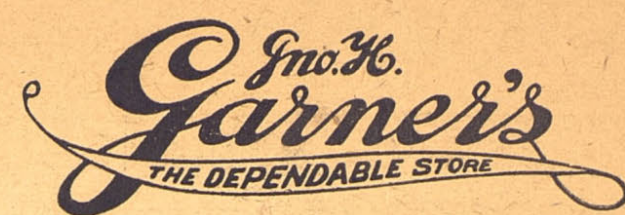

### Store Closed All Day Thursday, July 9th

Don't forget that the first purchaser of \$10 worth Friday morning will receive a merchandise certificate good for another \$10.00 worth. On account of the extremely low prices, everyone will be expected to pay cash.

# Jno. H. Garner's

THE DEPENDABLE STORE  
CISCO, TEXAS.

## Everything's Reduced

### Here Are Some Samples!

### Vacation Time Means

## LUGGAGE

### Especially When It's

# 20 per cent off

All handbags, suitcases, and trunks in our stock will be offered at 20 per cent discount. No trip is as pleasant as it might be when you haven't enough luggage. This will be an economical way of buying for future use. Our stock includes steamer trunks, wardrobe trunks, dress trunks, suitcases, kit bags, fitted cases, and handbags.

## Thread Silk Hose

### Values to \$1.75

# 95c

A big assortment of thread silk hose, including Phoenix \$1.75 grade in assorted colors and a full range of sizes.

All other hose will be reduced — children's sox, Phoenix Bobbed Hoses, Van Raalte Chiffons, everything in our stock.

### Swimming Season

### Is Just Beginning

## Bathing Suits

### Reduced 20 Per Cent

This includes suits for every member of the family from two years up. We are headquarters in Cisco for the famous "Jantzen" suit. These will also be reduced in price for Clearance. You will find a big assortment of colors and sizes.

## Corset Reductions

Corsets, step-in girdles, reducing garments, summer corsets, brassiers, every item in our well-stocked corset department will be reduced for the July Clearance. Buy now for future needs.

**INSTALLING A MODERN PLANT**

"Cisco is to have a real modern dry cleaning plant right away," said Leon Tullos of the City Tailors this morning. "A. J. Olson, owner of the City Tailors building, is erecting a special building in the rear of the lot to house the machinery which will be installed just as soon as the building is completed. When this machinery is placed Cisco will have one of the largest and most complete dry cleaning establishments west of Fort Worth, which will include in its equipment the Sherer Flow system, the same that will be found in the larger cities, and is the most modern system now in use.

"When this equipment is installed we want the public to call and inspect this modern plant, for we take a pride in its completeness, and are proud of the fact that we are able to

**Drink Water to Help Wash Out Kidney Poison**

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.

give Cisco one of the best equipped semi-wildcat territory and will open dry cleaning plants in West Texas, the way for more drilling in its vicinity. The well is 3,613 feet deep. It is three miles north of the Barney Carter field, in southern Stephens county. Barney Carter's Langford No. 1, in the Carter Barkley pool, about seven miles north of Ranger, came in Sunday producing about 500 barrels daily. Another Carter well and several other neighboring wells are nearing the pay sand.

TELEPHONE 164

**Christian Society**

The monthly meeting of the Christian Aid society was held at the church at 4 p. m. Tuesday with the president, Mrs. J. E. Elkins, and Mrs. F. E. Shockley as hostesses. During the business session it was decided to meet at the church for the remainder of the summer, instead of in the different homes. Two divisions were made of the society. The leaders are to be named later. After an interesting report of the state convention at Abilene by Mrs. J. E. Elkins the hostesses served punch and wafers to the fifteen members present.

Mrs. E. L. Howard and family of Stamford are spending this week in the city with relatives.

Mrs. Alex Waugh left today for her home in Strawn after a visit with Mrs. Campbell Binney of Rosewell Heights.

Miss Azloe Ford returned yesterday from a three weeks' visit with relatives in Lubbock.

Mr. and Mrs. Roy Arnold, Rev. J. S. Stockard and sons, Carl and Walter, and Truett La Roque left this morning for the Colorado river, where they will spend a week fishing.

Mr. and Mrs. Ray Godfrey and Miss Hester Tune are visiting Mr. Godfrey's parents at Swinson.

Mr. and Mrs. W. R. Charters are leaving today for Eastland, where they will make their home. Mr. Charters will have charge of the Corner Drug company there.

Miss Dixie Bills left this morning for Bic Lake, where she will visit her brother, Melton Bills.

Mrs. M. M. Boyd has returned to her home in Plainview after a short visit with Mrs. Will St. John.

Lt. Commander Ronald Barber of Brooklyn, New York, arrived today for a visit with Dr. and Mrs. C. C. Jones. Lt. Barber is an old friend of Dr. Jones, and was associated with him in the navy yard at Brooklyn during the war.

Mr. and Mrs. J. N. Rupe of the Mitchell community were in Cisco this morning. Mr. and Mrs. Rupe and family have just returned from a visit with relatives near Hamilton.

Mrs. F. W. Murphy and son, Gerald, leave tomorrow for a two months visit in Buffalo, N. Y., and other points in the east.

William Weatherford of Ennis spent a few hours in Cisco yesterday with his daughter, Mrs. Minter Wo-

**AMUSEMENTS**

Broadway Tomorrow

"The Man Without a Conscience" is the latest Warner Bros. "classic of the screen" to be shown at the Broadway theatre. It is announced for a two days run, starting tomorrow. Willard Louis, Irene Rich and June Marlowe, "the girl with the soulful eyes," have the principal parts. In this story is shown the folly of a man who, disregarding the ideals which are inborn in every one of us, seeks, through his dynamic personality, to gain his own selfish ends. He, however, is thwarted and turned from his path of greed by the idealism of another.

**Ideal Tomorrow**

If there is a thrill left in you, if your memory can go back to the days of real sport, when the greatest hero of your imagination was the two-gun man of the plains—then you have a great evening's entertainment in store for you at the Ideal theatre. Tom Mix in "The Deadwood Coach," is a story of an outlaw who has terrorized the countryside and to whom all manner of crimes have been attributed. In reality, he is not a vicious character. He is the enemy of only one man—Tex Wilson, the man who killed his father and caused his mother's death when he was a boy. Mix is at his best in this picture.
