Four Suspects Held in Two Bank Raids IS SHAKEN BY

Four men today were in Texas jails charged with robbery in the holdup of one bank in which a \$2,100 loot was taken after seriously wounding a bystander and the attempted robbery of another.

Roy Stephenson and "Shorty" McGee were arrested last night near Pampa and charged with the robbery of the First State bank of Alanreed.

M. D. Jacks, 25, Wichita Falls, and Fred Grayson, 34, native of the Freestone and Buffalo community, surrendered near Fairfield when a posse closed in on them a short time after an attempt was made to rob the Oakwood State bank.

ARMY DRILLS **KEEPING YOUNG FASCISTS BUSY**

By WEBB MILLER

United Press Staff Correspondent ROME, Feb. 5.—Thousands of squads, platoons and companies of boys in Fascist uniform march in disclipined military every Sunday in Italy.

Athletic youths in olive-green breeches, black shirts and fez-like At noon another squad mounted erable moral pressure to join. caps with swinging tassels, go on cycles with rifles strapped to through military drill to the comin hundreds of towns alert. Some drill with rifles, others without. crack of target practice.

This is an outward manifestation of one of the most notable Avanguardisti can become new MEMPHIS, Feb. 5.—Hungry men and significant institutions of the Fascist regime—the Opera Nazionale Balilla—comprising some 2,-083.240 boys and girls between 8 and 18 years. Upon this voluntary organization the Fascist state is placing its greatest reliance for the perpetuation of the reliance for the perpenation of the regime and the moral, physical and military education of rising generations. Fascism is centering its hopes for the future in youth, physical fitness and guns.

Military Phase

The military phase is only one and not the most important aspect of this remarkable Fascist institution, although emphasis is laid upon semi-military training in the later stages between 14 and 18.

Between the ages of 8 and 14 most emphasis is laid upon moral and physical education. This stage resembles the Boy and Girl Scout movement, although more nationrifle and marksmanship. Children are inculcated with the

concepts of Fascism from the beginning, in accordance with the primary purposes of the government. The Balilla's manual says: "It must nourish their minds and form them to Fascist standards impregnating them with all that is high, noble and pure in the doctrine of new Italy," and com-

The institution is organized on the basis of the armies of ancient ron of clause children. Three squadrons form a platoon; three platoons form a company, and so on to the legion, which comprises nine companies.

497 Legions

On the last anniversary of the Fascist "March on Rome" it was announced there were 497 legions game, with the farmer as the "goat" of boys between 8 and 14, and 238 has been uncovered by the weights legions between 14 and 18 years and measures division of the Texas | The movement is divided into four department of agriculture. PRAYER-O God, Thy way is a lamp unto my feet and a light upon my pathway.

FOR HEAVEN'S SAKE, LET'S DO SOMETHING.

The toll of human life that has been taken because of carelessness or inadequate precautions at railroad crossings in Eastland county during the past year is appalling. Almost a score of people have been snatched from healthy, useful existence, their mangled bodies hurled into premature graves emergency measures may be taken exerting an influence over the from the pilots of speeding trains during that time.

It is futile to argue who is at fault. For the safety of those whose lives have been forfeit to this grisly specter of tragedy, it has been futile that warnings have been repeatedly cried by the press, by the railroads and by safety organizations, futile that precautions have been established membership. to guard against this grim sacrifice. The toll that this country has paid is startling evidence that these precautions are inadequate. Probably no section of Texas, during the year, has suffered the loss of so many lives in proportion to popu-

Much of the responsibility for this disgraceful record must be laid at the doors of the public. Certainly the railroads do not want to kill people. The men who drive locomotives are not murderers. On the other hand the people who drive cars across railway crossings do not do so to be killed.

The whole question comes down to the obvious fact that something, somewhere is radically wrong. So far motor traffic and its reaction to the safety devices in use at crossings is concerned it is easy to determine what is wrong. These devices are not adequate to curb carelessness. They have known as state rangers, rode the mill under the big dome accept failed to provide the essential safeguards against caution, and in many instances a reckless instinct to gamble with death in the path of the speeding flyer. The fact that in none of the fatalities which have blotted the record of Eastland the '90's. He had the gift for the chief entertainer. county during the past year has an impulse to take chances knowingly been to blame, does not weaken the truth of the

W. C. Rivers, an Austin merchant, says the Capitol City must and 60 days to passage of meas- voted almost in its entirely to an have more municipal building at ures. There is provisions in the argument concerning federal pro- the end of 1931 or higher cotton constitutional amendment that hibition and Al Smith, aimed at prices to keep things moving. He sends American a Cotton Digest which is a special pamphlet 1931 and 1932. It is a very interesting document. Twenty-one leaders of the American cotton trade co-operated with Bonds, Mc-Enamy and company of New York in this inquiry of cotton prices by giving their respective price estimates. They agreed that a ten million bale crop would sell at an average farm price of 16.49 cents per pound or a farm value of the lint crop totaling \$824,500,000. On the other hand a 15 million bale crop would sell at a farm price 7.36 and a total farm value \$552,000,000.

It is a powerful appeal for acreage reduction and a ten million bale crop. There are two million cotton farmers in the south and those responsible for the estimates say the saving in expense to the farmers from a reduction in their acreage of 14,317,000 acres would be approximately \$225,000,000 or ton growers.

These are the conclusions: First, every dollar which the average farmer spends this year in planting, cultivating, fertilizing harvesting and ginning a cotton acreage in excess of 70 per cent of that which he had last year will farmer's entire crop.

Second, every dollar which a banker or a local merchant admeet expense of putting in an acreage in excess of 70 per cent of what a farmer had last year will not only bring no net return to the farmer but will also tend to impair the farmer's ability to repay the money borrowed by him to plant, cultivate and harvest the

In the estimates furnished by the 21 leaders the highest price estimate was 22.50 cents per pound and the lowest price estimate was 12 cents per pound.

There are bills pending under the big dome calling for drastic acreage reduction in Texas. Are they dead-or just sleeping?

A hundred and fifty railroad executives are being recruited in th United States to rehabilitate and extend the transportation lines of five great American railways are helping to select the men for the

General Medicine Emphasizing Obstetrics and Diseases of Women.

DO YOU CALL ONE DOCTOR --- AND OWE ANOTHER?

No law can force you to trade continuously with any merchant. Neither should you be or can you be compelled to call repeatedly on any one doctor.

You have the right to change as frequently as you please or as often as you feel that a change is desirable.

But the smallest trick to which we can stoop is to change from one

doctor to another to avoid paying a bill. Both doctors know what is going on. Both the one you left and the one you went to know why you changed. They have seen it happen before.

Of course honest folks don't do it — until they have paid the first doctor in full, or at least have honestly told why they couldn't — and honest folks have the courage to explain.

Honest folks do not resort to tricks or subterfuge. They do not switch doctors to avoid paying.

Your physician comes at your call — day or night. In many instances if he demanded cash, he could get it — many times his modest fee. But he trusts humanity and hurries to your aid when he is needed. Not for the paltry few dollars. No indeed! It's because of the honor of the profession that he answers the call of the unknown at 2 A. M.

Be square, straightforward and courageous with your physician. Pay him promptly if you can. if you cannot - tell him frankly. He will remain your friend and may help you when you are in sore need of his aid.

If you still owe your physician and can pay him, why not call and do so? Pay him today. You'll both feel better about it.

If you still owe your physician and can pay him, why not call and do so? Pay him today. You'll both feel better about it.

> Treat Your Physician Fairly. Pay Your Bill When It Is Due.

Exciting Series in Prospect as O. P. C. Meets Kittens

OKLAHOMA 6 HERE FOR TWO GAMES

First of Contests to take Place at 7:30 This Evening

The 1931 edition of the Randolph Kittens basket ball team will be again seen in a major engagement local court when Coach H. R. Garrett sends his charges against the strong Oklahoma Presbyterian college sextet in the first of a two game series at the high school gym tonight at 7:30. Kittens, with only one regular back from last year's highrated team, have been drilling hard during the past four weeks to reach a chamionship form. So far their defeats outweigh their victories, the girls having failed to cop a single engagement with A. A. U. rated teams. But that record is parallel to last year's record and to the usual routine of developing girls' basket ball teams at Randolph.

Annually the Kittens have lost the greater portion of their games the practice season, pointing A. A. U. tournaments in which they have always taken a leading position. The reason for their earlier losses has been due to the fact that the Randolph teams have to be built from comparatively new and green material while the commercial teams with which they contest are composed FROGS MUST style of play are almost as fully style of play are almost as fully developed at the first of the season as at the end. O. P. C. Team Here

The O. P. C. squad arrived last night and is billeted at the college. Ten players, a chaperon and Coach S. F. Babb make up the This team has not been defeated in Oklahoma this year.

only tonight but tomorrow night age column.

CISCO TEAMS GO TO BRECKENRIDGE

Games which will practically decide what positions in the Oil Belt Basket Ball league standings the Loboes and Queens are to fill at the end of the current season will take place on foreign soil tomorrow evening when the two local high chool teams go to Breckenridge for return game. The Cisco teams each hold victories over the Breckenridge teams in previous contests here and each must defeat its Stephens county opponent to remain a contender for first honors in its division.

If the Loboes can defeat the Buckaroos tomorrow the Cisco team hub of the Frog offensive will meet for the 1931 crop than in 1930, will move into undisputed possession of second place with two loss-when they lock horns with Strickolds grimly onto first place.

Buckarettes have suffered vo defeats this season, losing to the Queens here and losing Tues-day evening to Eliasville at Elias-The score was 23 to 18 in avor of the Eliasville sextet. The Breckenridge boys, however, defeated the Eliasville team 18 and 6 on the same night.

Muralist Seeks to Paint Helen

SAN FRANCISCO, Feb. 5.-The famous classic profile of Helen Wills Moody may yet be preserved in oils

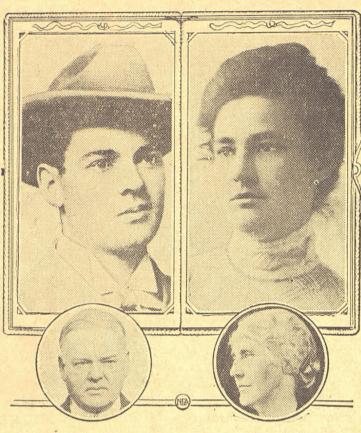

down on future Western financiers.

The story originated when it was met Diego Rivera, world-known Mexican muralist and that Rivera ad been captivated by the famous Wills profile and had made several sketches. Rivera is here to do the nurals in the new San Francisco

Stock Exchange building.
One version of the story is that Rivera asked for permission to use Mrs. Moody as a model in the fore-most feminine figure of the main mural and that Mrs. Moody refused. Then, the story went. Rivera begged for permission to make sketches and use face and figure as a "base," so altering the appearance as to make unrecognizable. Interst hings oon whether Mrs. Moody agreed to

Mrs. Moody told reporters "there s nothing to it." Rivera denied it also; but it was pointed out that. nad Mrs. Moody consented, in all probability it would have been conlitioned upon Rivera's sworn silence

OLD FURNITURE MAY BE WORTH A LARGE SUM

Have you a mohair-covered chair or sofa in your home? If so, you may be two hundred and fifty dollars the

The American is in receipt of a message from the Household Science Institute. Chicago, asking for help in locating the oldest piece of mohair-upholstered furniture in the United States. The Institute feels that there is a possibility of its being found in this section. The style of the sought for furniture or its use or non-use at the present time are not important, providing it is in good condition. The owner of the piece selected will be awarded two hundred and fifty dollars and the piece itself will be exhibited with other old-time furniture during the World's Fair at Chicago in 1933.

Back of the institute's offer is the desire on the part of Grace Viall Gray, its director, to ascertain the longevity of mohair. Although in-numerable pieces of mohair-covered furniture and mohair rugs have seen many years of hard daily service, it is claimed that unless deliberately njured no instance has yet been found of a mohair fabric ever wearing through.

Ciscoans who feel that they have omething of interest should communicate with Mrs. Grace Viall Gray, Household Science Institute, S. Dearborn St., Chicago, Illinois, giving the history of the piece they have in mind and all facts concernng age, color, condition and other pertinent information. Mrs. Gray will then decide whether the ar-Reynolds of S. M. U. are tied with ticle is the one wanted and make 72 points. DROUTH AREA HAS HAD NO **FORECLOSURES**

HOUSTON, Feb. 2. - "More than the Federal Land bank of Houston living in the west Texas drouth area met all their installments up to December 31, 1930," said M. H. Gossett, president of the bank here to-day. "The bank has not found it the drouth area to date. The officers of the bank have a sympathetic at titude and concern toward the plight of agriculture but they also realize that any relaxation of the policy of urging payments would result in wholesale delinquencies and a serious menace to the bank's ability to meet its own obligations.

The farmers realize that the value of Federal Land bank loans is too great to be jeopardized by sub-stantial delinquency, and therefore their purpose and performance to protect and perpetuate its service.
"When the Federal Land banks

were established under the Federal Farm Loan Act, back in 1917, there was no provision made for a cushion or surplus funds from which the banks could pay the interest on the bonds which they have sold to the public, in order to get funds to loan to the farmers. Therefore, the bank has no alternative than to ur farmers to pay their installments promptly, for the bank in turn has obligated itself to pay the interest on the bonds outstanding against the farmers' loans. Most farmers understand that the Federal Land bank of Houston is not a government institution in the sense that the government supplies funds which we lend, owns the stock, or is responsible for our obligations. They appreciate that the government granted a charter to the bank, and national farm loan associations. The government further made it possible of interest charged to the farmers

Nature Faker Springs Good One

PROSPECT, Conn., Feb. 5. — A narrow escape on the part of Lester Green, prospect nature faker and by Lou Mortisson, imaginative coun-cy correspondent for the Waterbury

Lester and his wife were driving to a Grange meeting in their auto, operated by electric ells, according to Mortisson, when the machine doubled its speed. Ordinarily the tank of 12 eels propelled the ma-

chine at 35 miles per hour. Lester was amazed until his wife whispered in his ear. He opened the ell tank and found the 12 had become 91. He removed the 79 infant eels and continued his drive, at least so reported Mortisson.

TWO WIN SCHOLARSHIP NEW HAVEN, Conn., Feb. 5. So closely matched were Squire of New Haven and J. H. Whittlesey of Redding, graduates of the Yale school of Architecture, that for the first time the trustees of the scholarship of the American School at Athens awarded it to two students instead of one. The two will spend a year at Angora, Cornth, aiding in the excavation of a

BILLS WOULD STOP HORSE RACE BETTING

SPRINGFIELD, Ill., Feb. 5.—The petting angle in horse racing has bobbed up again in the Illinois legislature as a possible threat against "the sport of kings" by elimination of the pari-mutuel ystem at tracks.

Bills have been sponsored in both houses, one in the house by Representative J. W. Harris, reoublican, Chicago and another in the senate by Senator E. C. Mills, republican, Virginia.

Harris' bill is aimed specifically at the betting angle of horse racing. He proposes to repeal that part of the law legalizing betting at race tracks but would continue norse racing, the revenue derived from same through an admission tax to be used for premiums at

county fairs. Harris declared he was opposed to the pari-mutuel system because it discriminates between the rick and the poor.'

Senator Mills said he introduced his bill at the request of several constitutents but that he was in hearty agreement to repeal the horse racing law because of its 'gambling" angles.

Mills' bill would do away with and engines valued at \$38,548,679 four of which are located in Chicago, one at Aurora and another

in East St. Louis, are threat Five of the tracks net the state \$2,500 a day when running. A measure now under consideration for introduction into the leg-

islature would amend this law to allow the Fairmount track at East St. Louis to come under the same provisions which govern the Aurora track. The law provides that all tracks
