COOPERATION ONLY SOLUTION

Lying in State on the Lawn Where He Died People of Countryside Pay Final Tribute to Memory of Great Commoner

RISING STAR RAISES FUND
Rising Star, July 28.—The body of William Jennings Bryan will lie in state this afternoon on the lawn at the home of Richard Rogers, where he died, while people of the countryside whose champion he was, come to pay tribute and say final adieu. Early today all roads leading to Dayton were crowded by farmers and people of the mountains coming here on horseback, on foot in cars and carriages.

A lot was offered Mrs. Bryan in the local cemetery for burial of the commoner, but she declined, stating it was her intention of granting Colonel Bryan's wish to be buried in the Arlington National cemetery.

Scott Again Reprieved

Above—MRS. RUSSEL SCOTT
Right—RUSSEL SCOTT

For the third time within three months Russell Scott, Chicago, was literally picked up and thrown out of jail. Four hours before he was to have stepped on the gallows, Judge Joseph David gave Scott a reprieve by signing a petition which alleged that Scott is insane. Scott was found guilty of murdering Joseph Maurer, drug clerk, and sentenced to death.

WIDOW OF R. M. Of Problems of Farmers of Drouth Stricken Areas; Cowan Urged Banks to Grant Such Credit as Necessary

AUSTIN, July 28.—Cooperative effort is the only solution of the serious difficulties facing the farmers in the drouth stricken areas of the State, W. D. Cowan, commissioner of the marketing and warehouse declared today. Commissioner Cowan stated that it was a policy of suicide for the banks to continue their announced plans of cutting off all loans. He strongly urged that the banks cease this policy, and to grant such credits as are absolutely necessary and thus help to rehabilitate, rather than annihilate the principal industry in a large section of the state that is now standing on the threshold of bankruptcy.

WATSON BURIED AT FT. WORTH
FORT WORTH, July 28.—The body of Kirtley (Noisy) Watson, shot and killed in Big Lake Saturday night by Graham Barnett, former Reagan county deputy sheriff, was brought to Fort Worth, where funeral services were held at the home of his mother, Mrs. Watson Allen, 719 Hemphill street, at 10 o'clock today. Watson, who was a teaming contractor and bus line driver in the section between Big Lake and San Angelo, was killed in a Big Lake recreation hall following a fist fight between Watson and Barnett, according to the testimony of six witnesses at the inquest.

While Her Soldier Escort Looked On 15 Year Old Girl Assaulted by Another Ft. Sam Houston Soldier

FUGITIVE FROM JUSTICE CAPIAS MRS. V. CANADAY

SAN ANTONIO, July 28.—A fugitive from justice warrant was sworn out against Mrs. Virginia Canaday today in connection with the kidnaping of her five-year-old son, Roscoe H. Canaday, Jr., whom she took from the home of his father in Forest Hills, New York, and brought back to Texas with her.

SAN ANTONIO, July 28.—While her soldier escort looked on a fifteen year old girl was assaulted near here early today by another soldier, according to charges filed against the two men who are being held in the guard house at Fort Sam Houston. They will be turned over to the civil authorities. They drove the girl home in a car where she sobbed out her story to her mother.

THE HEAT WAVE BROKEN BY RAIN FALLING TODAY

One of the most torrid heat waves that has ever been known in the Cisco country was broken today by the rain that fell slowly for about one hour. The precipitation was scarcely more than one-half inch, but indications are that the southwest and east part of the county received a nice rain. In Cisco the atmosphere was greatly cooled off which relieved the intense heat that has been almost unbearable.

BIG BLACK BRUTE CHASES PAIR THROUGHOUT NIGHT

SAN ANTONIO, July 28.—Miss Catherine Smith, 19 years old, and her escort, Derois Bressetti, Fort Houston soldier, were under treatment at a hospital here today for hundreds of thorn scratches received when they fled barfooted through the brush for hours, pursued by a giant negro whom they felled in an attempted robbery and assault. From midnight until dawn today the couple separated and robbed of all sense of direction by darkness, played a grim game of hide and seek with the negro in a dense thicket two miles from the city limits. The game ended when Miss Smith, her flesh torn by thorns, stumbled into a path that led to the home of a farmer who notified police. While Bressetti worked on the stalled engine of his car, the negro suddenly appeared with a pistol and forced the pair to walk more than a mile into a thicket. He then ordered them to remove their shoes and stockings. While the soldier obeyed the command, Miss Smith leaped and fled barefooted over the stony ground. As the negro turned to pursue the girl, Bressetti fled in the opposite direction. Then began the game of hide and seek. The couple sought each other in the darkness and often they heard the negro lumbering through the thicket muttering. They succeeded in eluding the highwayman until daylight. Shortly after Miss Smith succeeded in reaching the police, her escort sent in a call for military police.

BROWNWOOD PLANS BIG TRADE EXCURSION

BROWNWOOD, July 28.—The business men of Brownwood have planned to make a three-day visit to the territory south of Brownwood the latter part of this week and Fred W. Greber of the West Texas Telephone company has been appointed manager of the program. The trip is to be made in order to cultivate broader acquaintance with the business people of Brady, Coleman, Santa Anna, Mercury, Rochelle, Menard and Eden and other towns.

PRIME MINISTER BALDWIN GAINS POINT IN STRIKE

LONDON, July 28.—Prime Minister Stanley Baldwin today won a preliminary skirmish toward staying off the coal strike when he obtained from the mine owners an agreement to suspend strike notices conditionally, the Central News reports said today.

PROTECTOR OF THE AGED WAS SEVERELY SLASHED

DALLAS, July 28.—While trying to protect an aged man from the jeers of a crowd of youths in front of the Fair park, Southeast Dallas, Sunday night, E. A. Morgan, 27 years old, 614 Third avenue, was seriously cut about the face and body. He was taken in an ambulance to the Emergency hospital for first aid. Forty stitches were taken by Dr. H. R. Thomas of the Emergency hospital in closing the wounds. Eighteen stitches were taken in his back, twelve in his right hip, eight on the left side and two on the left cheek. Morgan also had abrasions on both knees and on the right cheek. Morgan told police that while endeavoring to stop a crowd of boys from harassing an old man, one of the boys attacked him.

REV. DUKE, VETERAN BAPTIST PASTOR, DIES

WACO, Texas, July 28.—Another of the veteran Baptist preachers of Texas died Sunday with the passing at his home here of the Rev. L. W. Duke, 82 years old. Mr. Duke was born in Alabama, served in the Confederate Army, a member of the Fifth Alabama Regiment. He had been a Baptist minister fifty-seven years, all of that time at Swan Smith County, near Tyler. He had lived in Waco for about two years. For fifty-two years he had been a member of the Masonic fraternity. Surviving Mr. Duke are four sons and four daughters, W. B. Duke, McAlester, Oklahoma; E. L. Duke, Waco; M. E. Duke, Hillsboro; P. J. Duke, Akron, Okla.; Mrs. John Holland, Tyler; A. B. Low, Jacksonville, and Miss Sudie Marchbanks, Brenham; J. D. Ear Duke, Lexington. He is survived by a brother J. H. Duke, Reagan.

WOMAN HELD AFTER MATE IS WOUNDED

BRYAN, July 28.—Mrs. G. W. Boyd has been bound over to await the action of the grand jury at the September term of district court in the sum of \$1,000. She was first arrested on a charge of assault with intent to murder in connection with the shooting of her husband in the garage of her daughter's home in Bryan.

PERHAPS FATAL AUTO WRECK ON CARBON HIGHWAY

EASTLAND, July 28.—Mrs. Hill, of Spur, Texas, was perhaps fatally injured, and Mr. Barton, her son-in-law, Mrs. Barton and another daughter of Mrs. Hill were more or less injured when the car in which they were driving was struck by another car driven by two boys near the bridge two miles south of the city on the Carbon highway at 2:30 Monday afternoon.

Mrs. Hill, who sustained deep cuts and other serious injuries, was brought to the Eastland sanitarium here by B. R. Onstatt, of Lampkin, Texas, who happened near the scene of the wreck shortly after it had occurred. The other members of Mr. Barton's party were able to be about. At 3 o'clock it was reported that Mrs. Hill was still breathing. The two boys who are said to be responsible for the wreck, left the scene on foot, according to officers, being picked up by cars headed toward Carbon. Officers are searching for identification. Both cars were Fords and both were badly damaged.

OFFICIAL ANNOUNCEMENT OF DEATH OF W. J. BRYAN

WASHINGTON, July 28.—By direction of President Coolidge, Secretary Kellogg Monday formally announced for the government the death of William Jennings Bryan. The announcement follows: "By direction of the president, the undersigned is charged with the sad duty of announcing the death on July 26, 1925, at Dayton, Tenn., of William Jennings Bryan, a distinguished citizen of the United States, formerly a representative in congress from the state of Nebraska, a colonel in the Spanish-American war and secretary of state. "In all these capacities his services were characterized by a faithfulness to duty and a devotion to public interest. His private life was one of the emulation of all American citizens. Thrice the nominee of a great political party, his will be especially mourned by a large personal following who held him in affectionate esteem. "As a testimony of this respect, it is ordered by the president that the national flag be displayed at half-mast on the national buildings at Washington on the date of the funeral.—Frank B. Kellogg."

500 DOGS TRAIN FOR TRI-STATE FIELD TRIALS

AMARILLO, Texas, July 28.—One of the finest trophies ever offered in any field trials held in America. That is what the citizens of Amarillo claim for the \$1,500 loving cup which they have presented to the Tri-State Field Trials Association to be awarded to the winner in the member's all age stakes at the association's meeting to be held north of Wheeler, beginning Monday, Aug. 10. Citizens of Amarillo, led by the Board of City Development, contributed \$1,500 which was used in buying the cup, which was specially designed for the occasion. Under the rules adopted for the contest for the trophy the winner will be asked to furnish bond for the safe return of the cup after eleven months, in order that it may be on display in Amarillo for one month prior to the annual trials. It is to be competed for annually and should one member ever win it three times it will become his permanent property. The Tri-State Field Trials Association was organized in Amarillo a year ago and the first trials were held there last August in the famous prairie chicken country of the eastern Panhandle. At this time more than 500 dogs are in training near the course of the trials. It is believed it will be the largest field hunt held in the South this year and possibly the largest held in America. The open-all-age event has a purse of \$500 and the open derby a purse of \$400. One of the features of the trials will be the gentlemen's shooting dog stakes for a \$200 silver emerald dog by Tony Chisum, automobile man of Amarillo. F. T. Collins, of Amarillo is president of the association and Walter Crosssett is acting secretary.

Several Cases of Dreaded Hoof and Mouth Disease Found in Test Herd Pastured Near Houston is Alarming

HOUSTON, July 28.—The recurrence of the dreaded hoof and mouth disease that took large toll of cattle in the state last winter, which resulted in ten thousand head being slaughtered and the state put under quarantine, has broken out again, it was feared today. Several cases were found in test herd pastured south of this city.

NEW INSURANCE RULING MADE BY LEGAL DEPT.

AUSTIN, July 28.—The act of the 39th legislature authorizing issuance by corporations of shares of stock having no par value does not transgress the constitutional provision forbidding corporations to issue stock or bonds except for money paid, labor done or property actually received, the attorney general's department ruled in an opinion given Acting Secretary of State D. A. Gregg.

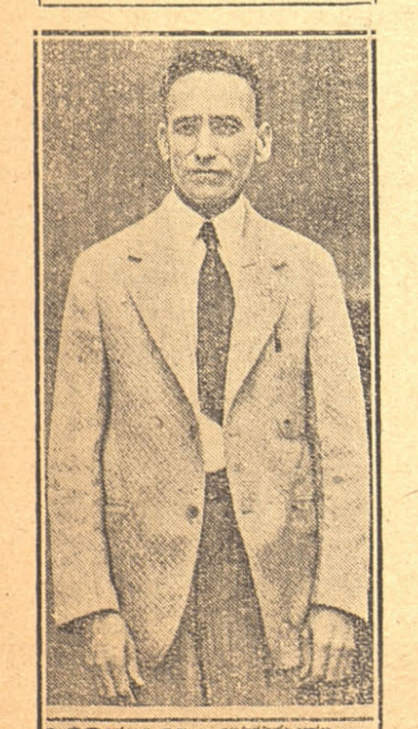

FIRST OF FOUR BOXING BOUTS THURSDAY NITE

Fight fans will have a chance to see Row Edwards in action at the legion arena Thursday night. Edwards is a native of Moran, and in the past has met some worthy opponents in the ring. He has been out of the ring lately, but the legion management persuaded him to take on Rusty Cahill of Breckenridge, and Edwards, as soon as agreed, went into training for the exhibition. Cahill is a hard fighter, clever boxer, and this bout should give the fans something to talk about. But the main bout is not the only attraction, as there will be several preliminaries that will be highly interesting. These will include an eight round bout between Young Burk of Breckenridge, and Mexican Joe of Baird, and this bout should be as interesting as the stellar attraction.

ORIENT HEADS VISITING WASHINGTON FOR LOAN

WASHINGTON, July 28.—W. T. Kemper and Clifford Histed, Kansas City, arrived here today prepared to appear tomorrow before the I C C and ask approval of the sale of the Orient railroad. At the formal hearing tomorrow Kemper and Histed are expected to reveal the real buyers of the road. Histed bought the road at public auction and has never revealed who he represented. But since Kemper was elected president of the Orient when it was reorganized, supposition has been that Kansas City bankers were the new owners. Kemper originally was receiver for the road and Histed was his attorney. While Kemper is in Washington he is expected to urge the Treasury Department that it grant extension of the government loan of \$2,500,000 and ask an additional loan of \$1,000,000. Histed believes that both requests will be granted. Miss Marguerite Terbet of Thurber is the guest of Mr. and Mrs. E. J. Barnes.

"Evolution"

Charging that officials of the District of Columbia are allowing doctrines "disrespectful to the Bible" to be taught in the public schools of the capital, Loren H. Wittner, filed a petition for an injunction asking that the salaries of the school superintendent and biology instructor be withheld.

THE JAPANESE CONTINENT

A new continent is predicted during the life of the coming generation, when undersea forces shall have forced the Hawaiian Islands further up out of the water until the constitute an area equal to that of Japan.

The comparison might have been carried even further, by a political economist. Long before the end of the next generation Hawaii will be dominated by native born Japanese, under the law citizens of the United States but at heart still Japanese and forever loyal to their racial codes and customs. Not many people realize the conditions existing in Hawaii. It is a literal and actual fact that inside a few years more sufficient native born Japanese will come to a voting age in Hawaii to control things there politically. They can take charge of the government and occupy all of the public offices without even firing so much as a salute, and nothing can be done to prevent it.

AMERICANS IN AUSTRALIA

The American navy touring the Pacific has arrived in Australia, and is receiving a fervid welcome. Everywhere the Americans are received with enthusiasm. The Victoria parliament adjourns for three weeks to enable members to do their share of entertaining. A threatened street car strike in Melbourne is called off because the unionists do not want to interfere with the pleasure of the visitors. The public shows its friendship in unmistakable ways.

All this is natural and expected, though none the less grateful to the visitors and their people at home. The Americans and Australians are largely of the same blood, Australian orators remark, and their two great democracies are akin in spirit. The American soldiers in Europe during the World War found it easier to fraternize with the Australians than with any other contingent there. The two nations understand and like each other as nations seldom do.

The visit of the American fleet is a fortunate event for both, because it serves to emphasize this friendship. Each is destined to play a big part in future history, at opposite ends of the greatest of oceans.

There is nothing menacing, either, in this visit to our antipodean friends, as some of our Mongolian friends feared. It is good for navies to visit other countries as messengers of peace.

NATURALIZATION SNAGS

It is not only harder to get into the United States than it used to be. It is harder to get naturalized after the alien arrives.

Many former Canadians are now discovering this to their sorrow. They are those who have not come through the regular immigration channels, or who for some other reason have failed to establish a record of their entrance. Candidates for naturalization are now required to produce a certificate of arrival. Those who have no such certificate are technically not in the country, and so of course not eligible to citizenship. Thus Canadians who have come by "bootleg" routes, instead of through the regular ports of entry, pay dearly for the slight trouble and expense they avoided. Worse still, they are subject to deportation for not paying their head tax when entering.

In many cases this rule works hardship. On the whole it seems justifiable. It will cultivate more respect for the law of the country and the rights of citizenship.

Arthur Brisbane takes the trouble to make a note in his interesting column that Dudley Field Malone, talented New York lawyer recently associated in the Scopes case at Dayton, Tenn., is not a Catholic, as has been reported. What difference does it make? Nobody cares much nowadays about the brand of religion a man uses. And then, according to the constitution of the United States, that is his business and his alone. We should respect the other fellow's religion—IF HE HAS ANY—and he should respect ours. The real Christian will be glad the other fellow has religion—no matter what sect-banner he sees fit to sail under.

RICHERS AND POVERTY

O. P. Van Sweringen, rising railroad magnate, in testimony before the Interstate Commerce Commission, gives a bit of philosophy hardly expected in such a connection: "Dollars don't have the attraction for me they have for some people," he says. "I have enough of them. I can take care of myself. I am not sure whether to be rich is to be poor, or to be poor is to be rich."

Charles M. Schwab, president of the Bethlehem Steel company, said something to the same effect once, suggesting that after a person gets all the money he can use personally, the rest doesn't mean much, and then it is plans and purposes he is interested in, not dollars.

The Rockefellers plainly look upon their vast fortunes as responsibilities rather than personal blessings.

"Oh, it's easy enough for them to talk like that!" the poor man says.

Each sees the other's blessings and overlooks the other's burdens.

As a matter of fact, there is usually far less difference between the life of the rich man and the poor man than is indicated by their outward circumstances. Fundamentally they live, work, play, enjoy and suffer pretty much the same. Happiness is a matter of temperament and health rather than money or environment.

Anybody who ever tasted home brew ought to understand why there's a law against it.

THE REVOLT OF THE CITIES

American cities are certainly in a revolting mood. When New York alone talked of seceding from the state and constituting itself a separate commonwealth, it was looked upon elsewhere as little more than a bit of metropolitan petulance. But lately Chicago has been seriously considering the possibility of such action. Detroit is up in arms against the state of Michigan. Cleveland is talking

rebellion against Ohio. Various other cities, not so large as these but metropolises of their states or sections, are showing indignation at what they consider rural tyranny in their states.

The complaints are very much alike. The cities say that they are not granted the representation in the state legislatures to which they are entitled by their population, that they are forced to pay more than their just share of taxes and not allowed their share of state funds for their own needs, and that they are ignored and discriminated against generally in state legislation. They would be more satisfied if they were granted a larger share of home rule, but the state legislatures show a disposition to dominate the states.

So far, this spirit of revolt has been considered rather amusing by the rural voters. But it may soon have to be taken seriously. If it is not, the cities will be inclined to revenge themselves on the rural sections when they gain political control through increased population—which from present indications may not be long.

If, as an astronomer says, the earth once turned around in four hours instead of 24, how did anybody ever get enough sleep?

Naturally the driver with the least light in his own head uses the strongest headlight on his car.

Daily Lessons in English.

(W. L. Gordon)

Words Often Misused: "Jewels" and "jewelry." These two words are often misused. Speak of "a lady's jewels," of "a jeweler's jewelry."

Often Mispronounced: Gratitude. Pronounce the "g" as in "tube," and not as in "rule."

Often Misspelled: Souvenir. Study the "ou" and the "ir."

Synonyms: Ridiculous, ludicrous, grotesque, whimsical, laughable, fantastic.

Word Study: "Use a word three times and it is ours." Let us increase our vocabulary by mastering one word each day. Today's word: Impregnable; proof against attack. The walls of the city were impregnable.

DINNER STORIES

A painter in Kentucky had just employed a strange negro as a mule driver. He handed him a brand-new blacksnake whip, climbed up on a seat behind a pair of mules, and the honeybee fell dead.

Noting a pair of bumblebees on still another blossom the negro switched them out of existence with the cracker of his new blacksnake and drew further admiration from his new employer.

A little farther along the planter spied a hornet's nest in a bush beside the highway. Two or three hornets were assembled at the entrance to the nest.

"Can you hit them Sam," he inquired, pointing to the hornets.

"Yes, sah I kin," replied the negro, "but I ain't goin' to; dey's organized."

A Washington man, while motoring through Virginia, stopped one day at a toll bridge he had often passed over and found a new keeper in charge.

"Where's the man who used to act as keeper here?" asked the motorist.

"He's dead sir," was the reply.

"Dead Poor fellow. Joined the great majority eh."

"Well," said the new keeper cautiously, "I wouldn't like to say that, sir. He was a good enough man as far as I know."

A story is being told of the engagement of an additional chorus man for a musical production.

The male chorus in the show are mainly mounted police and frontiersmen, for the action of the musical comedy takes place in northwest Canada.

Out of the 200 applicants for the position one was selected because of his excellent voice. He was duly brought before the "powers that be" and promptly turned

down as looking "nothing like the part."

The producer was keen to have him and made inquiries as to his previous stage experience. Imagine his surprise when the man replied: "I haven't done much acting lately—I've spent the last five years in the Canadian northwest mounted police."

ALL IS READY FOR PICNIC AT LAKE TOMORROW

Former Mississippians will meet at Lake Cisco tomorrow for a big picnic. Dr. Joseph W. Gregory in charge of arrangements states that he is expecting at least a thousand former residents of "Ol' Miss" to be on hand. An interesting program published in a former issue of the Daily News has been prepared and all expect to have a great day.

The chamber of commerce has agreed to aid in furnishing transportation to those who are old or in ill health, but who want to attend the picnic. Cisco people who will assist in taking these people out are requested to phone 395 and proffer their services. Those who have baskets they want to send out may also use this service. A big brush arbor has been erected on the bluff overlooking the lake and seats and tables will be provided. This will furnish plenty of shade and will give a place for the picnic.

THE HIGHWAY THIEVES AT BRADY GET THIS CITY HAVE MOST DARING THEFTS EACH TO PUT THE McCULLOUGH COUNTY ATTENTION TO THE CRIMINALS.

night when thieves stole 200 registered turkeys from J. T. H. Miller, three miles northeast of Brady. Neighbors who live close by saw lights about the place, and heard the nailing up of crates, but thought it was Mr. Miller. The turkeys were registered Naragansets, foundation stock, and were valued at \$800. A reward for the apprehension of the culprits has been announced by Mr. Miller.

FAIRBAIN PITCHES EASTLAND VICTORY

EASTLAND, July 28. — Superb pitching by Rawley Fairbairn gave the Eastland Tigers a 2 to 0 victory over the fast rising Star nine on the local diamond yesterday. Fairbairn allowed three hits and fanned fourteen men, hanging up at least one strikeout to the inning for the first eight frames. He drove in the first tally in the eighth, when he singled with two on and two out. Nicholson, little left-hander, hurled a brilliant game for the visitors, yielding five hits and striking out ten men.

A "Broken Out" Face Holds You Back

Many men and women of middle age feel that they have never had a chance to make anything out of themselves. But the main reason for it usually is that they let such things as pimples, rash, "breaking out," eczema, tetter, etc., on their face, neck, hands or arms, make them feel that they are not wanted around and they keep to themselves too much.

You can get just as much out of life as anyone. All you need is a little confidence in yourself, which you can get by using the "Broken Out" Face Cream. It will clear your skin, if you are troubled with pimples, eczema, tetter, etc. All you need is a little confidence in yourself, which you can get by using the "Broken Out" Face Cream. It will clear your skin, if you are troubled with pimples, eczema, tetter, etc. All you need is a little confidence in yourself, which you can get by using the "Broken Out" Face Cream. ECONOMICAL CALL BELL SYSTEM

As a matter of fact an excellent call bell system can be put into operation with five dry cells with but a little more expense than if the distance were 100 feet instead of 1000. A little device, known as a relay, solves the problem. It is sensitive enough to react to the slightest current and will close a second circuit in garage or barn which will in turn ring a bell with enough vehemence to awaken the sleepiest chauffeur or farm hand.

In making installation care should be taken that the wires leading into the house and into the garage or barn are not inserted in holes which slope inward and, hence, let in the rain. The diagram shows how the bushings should be tilted downwards toward the outside. In practically every window frame there is room at the top of the weight box where the bushings can be placed.

The diagram above shows how it is done. All you need is the following: Five No. 6 dry cells; about 2000 feet of No. 18 twisted weatherproof wire; a relay; a push button an alarm bell; two three inch porcelain bushings; a half dozen porcelain insulating knobs; and several dozen insulated staples. You will find all of these in any electrical dealer your distance and number of cells used and he will tell you what size relay you need.

A glance at the diagram will show how the system works. Two dry cells in series supply just enough current, when the circuit is closed by pushing the button, to activate the sensitive relay 1000 yards away. The relay, in turn, closes the shorter circuit of three dry cells connected in series with the alarm bell. The bell will keep ringing as long as the button is at the house is being pushed.

state of Texas, and belonging to the said Mrs. C. C. Brooks, to-wit: 167.5 acres of land out of the H. B. Sparks and C. L. Lewis Pre-emption surveys, described by metes and bounds as follows: Beginning at the S. W. Corner of the H. B. Sparks Pre-emption Survey, Abstract No. 690; thence North 0 deg. 48 min. East 2155.6 ft. to the West line of said Sparks Survey and the East line of the Thos. Benson Survey to a point to the south line of the F. W. Kersch farm, being 193 ft. north 88 deg. 30 min. East of the S. W. Corner of the said F. W. Kersch farm; thence North 88 deg. 30 min. East 3517.1 ft. with the south boundary line of the F. W. Kersch farm to the West boundary line of block 2, E. T. Ry. Co. Survey; thence South 0 deg. 26 min. West 2266 ft. to the west boundary line of block No. 2, E. T. Ry. Co. lands and the East boundary line of the C. L. Lewis survey; thence North 88 deg. 55 min. West 3522.3 ft. through the C. L. Lewis pre-emption survey and along the south boundary line of the H. B. Sparks survey to the place of beginning and containing 165.5 acres, and being the same land described in an oil and gas lease from Mrs. C. C. Brooks to D. E. Waters, said lease being of record in Vol. 107, pages 340, E. T. Sec. deed records of Eastland County, Texas, reference being here made to said lease and the record thereof for a more particular description.

And on the 4th day of August, A. D. 1925, being the first Tuesday of said month, between the hours of 10:00 o'clock a. m. and 4:00 o'clock p. m., on said date at the court house door of said county I will offer for sale and sell at public auction for cash all the right, title and interest of the said Mrs. C. C. Brooks in and to said property to satisfy said judgment.

Dated at Cisco, Texas, this 18th day of July, 1925.
C. S. LOONEY,
Constable, Precinct No. 6, Eastland County, Texas. 107-112-117

EXECUTION SALE
The State of Texas, County of Eastland.
In the 91st District Court of Eastland County, Texas.
L. H. McCrea, receiver for the Harris Fisher Oil Company, plaintiff vs. American Oil Company and the Western Oil Sales Corporation, defendants.
WHEREAS, by virtue of an alias execution issued out of the 91st District Court of Eastland County, Texas, on a judgment rendered in said court on the 31st day of March, 1925, in favor of the said

L. H. McCrea, receiver, for the Harris Fisher Oil Company, plaintiff and against the said American Oil Company, a trust estate and the Western Oil Sales Corporation, a corporation, numbered 10863 on the docket of said court, said judgment being for the sum of Three Thousand Forty and 03/100 (\$3,040.03) Dollars, with interest thereon from the 31st day of March, 1925, at the rate of six per cent per annum, there having been paid on said judgment the sum of Six Hundred Forty-One and 15/100 (\$641.15) Dollars, there remaining a balance due of Two Thousand Three Hundred Ninety-Eight and 88/100 (\$2,398.88) Dollars with six per cent interest thereon from date of the rendition of said judgment until paid, I did on the 13th day of July, 1925, at 9:00 o'clock a. m. levy upon the following described real and personal property situated in Eastland County, Texas, as the property of the Western Oil Sales Corporation, to-wit:

Those certain lots, tracts or parcels of land lying and being situated in the townsite of Pioneer, Eastland County, Texas, and being lots one to twelve inclusive of Block No. Twelve and lots numbered thirteen, fourteen, fifteen and sixteen in block number Thirteen in the said town of Pioneer, in Eastland County, Texas, as shown by the plat thereof of record in the deed records of Eastland County Texas, together with the Refinery tanks, pipe lines, tools, pumps,

loading racks, equipment and appliances used or obtained in connection with the refinery and pipe lines loading racks; and being the property purchased by the American Oil Company from the Western Oil Sales Corporation, as shown by the original contract and bill of sale, and all property of every kind and character used or obtained in connection with said refinery and pipe line, the major portion of all of the above described property being described in Exhibits "A" and "B" to an in a certain deed of trust recorded in Vol. 37, pages 284 to 292 inclusive, of the deed of trust records of Eastland County, Texas, and reference is here made to such record for a more particular description of said property, as fully and completely as if the same had been itemized fully herein, together with all other property belonging to the Western Oil Sales Corporation and being a part of said refinery, said pipe line and pipe line system, belonging to the Western Oil Sales Corporation, said property being the refinery and pipe line with the other property appurtenant and belonging thereto, which formerly belonged to the American Oil Company in Pioneer, Eastland County, Texas, and on the 4th day of August, 1925, being the first Tuesday of said month, between the hours of 10:00 o'clock a. m. and 4:00 o'clock p. m. on said day at the court house door of said county, I will offer for sale

and sell at public auction for cash all of the right, title and interest of the Western Oil Sales Corporation.
Dated at Cisco, Texas, on this the 13th day of July, 1925.
C. S. LOONEY,
Constable Precinct No. 6, Eastland County, Texas.
107-112-117

If they love cake and hot bread at home . . .

Surprise them! Give them muffins, or biscuits, or pastry that will seem to melt in their mouths before they can get a real bite. You can! All you have to do is to use Mrs. Tucker's Shortening in preparing them.
Mrs. Tucker's Shortening is a pure, wholesome, vegetable shortening. It is made exclusively of choice cottonseed-oil. When you use it, whether in making cakes or in frying foods, it imparts a wonderful richness like that of butter. But it is never heavy or greasy. And it goes much further than ordinary shortenings.
Mrs. Tucker's comes to you in an air-tight container that keeps you absolutely pure and fresh shortening. It is easy to open, and convenient while you are using it. Once empty, it is useful in the house as a bucket or dinner pail. Interstate Cotton Oil Refining Company, Sherman, Texas.

Hot Weather Washing

Doing the family washing at home is a nuisance at any time, but, when it becomes necessary to stand over steaming tubs on a blazing hot mid-summer day—it's no joke at all. Solve this once-a-week problem by sending the family washing to us. We can do it quickly, thoroughly and at a smaller cost than it can be done at home. Try us once and see for yourself. Phone 138.

Cisco Steam Laundry

EXAMINATION FOR TEACHERS AUGUST 17 to 18

AUSTIN, July 28.—In a recent letter addressed to all county and city school superintendents in Texas, State Superintendent S. M. N. Marrs, calls attention to a number of matters of vital importance to the holders of certificates to teach in the schools of the state; to those interested in transferring pupils, free school age, supplies for school etc.

There will be a county examination held throughout the state, Aug. 17 and 18, in order that holders under the old law may complete their examinations for permanent certificates in the recent certificate law providing for the continuation of these examinations, but no more permanent or permanent primary certificates will be issued. Only two kinds of certificates will be issued on examinations after September—elementary and high school, and the elementary may be built upon to secure the high school certificate. These certificates are second class because they are obtained by examination. All certificates obtained by examination after September 1, 1925 will be second class and all those obtained through college training will be first class.

"The second class elementary certificate is legally valid in any public school in the elementary grades, but the second class high school certificate is only legally valid only in unclassified high schools of the third class. All certificates issued prior to September 1, 1925 have the same validity as heretofore. The certificates issued, valid for life, to a person who has taught six years on a state first grade certificate since 1910 is only a first grade certificate and not a permanent certificate within the meaning of the law. It has not been legal to issue a county certificate of any kind since September 1, 1923."

The letter states that the correspondence in the state superintendent's office at Austin indicates that a mistaken idea prevails concerning the school age. This extends from 7 to 21 years as heretofore, the bill offered in the legislature to reduce the age to 6 years having failed to pass.

In regard to transfers, the state superintendent's letter says: "Since the court of civil appeals has not given any written opinion in the case of transferred pupils, they will receive credit for their state and county apportionment; but tuition

should be paid the district to which the transfer is made after the free term has expired. In the case of high school students, the tuition should be paid by the state; and for pupils below the high school, the tuition should be paid by the district. Unfortunately, the last legislature declined to authorize the payment of this tuition by the state, and the burden falls upon the district or the parent. If the home district does not offer the grade in which the child is classified, the district trustees should pay its tuition in a neighboring school for so long a term as is maintained in the home district.

The letter states that the usual supplies, including teachers' registers, will be sent out the latter part of August and that requests being received for supplies are being filled and will be filled at that time.

Miss Beulah Speer, Eastland county school superintendent, states that Aug. 1 is the time limit for the transfer of scholars, and that only emergency transfer for high school purposes will be allowed by the county board after that date. All transfers should be made with the county superintendent.

NOTICE OF SALE
The State of Texas, County of Eastland:
In the County Court at Law, Eastland County, Texas.
J. H. Garner, R. F. Davis, plaintiffs; Mrs. C. C. Brooks, defendant.
Whereas, by virtue of an execution issued out of the county court at law of Eastland county, Texas, on the 9th day of July, 1925, on a judgment rendered in said court on the 4th day of June, 1925, in cause No. 3790, in favor of the said J. H. Garner and R. F. Davis against Mrs. C. C. Brooks for the sum of Nine Hundred Eighteen and no-100 Dollars (\$918.00) with interest thereon from the 4th day of June at the rate of ten per cent per annum, together with the sum of Eight and 30/100 (\$8.30) Dollars, as costs, I did, on the 11th day of July, 1925, at 9:00 o'clock a. m. levy upon the following described tract, and parcel of land, situated in the county of Eastland,

Ciscoans Use Average of 13,673 Gallons of Water Per Year

Consumption of water has more than doubled within the past five years in Cisco, it was revealed today by figures obtained by the Daily News from the city water office. And prohibition is not to blame for this addiction to aqua pura, according to Bob Scott, superintendent of the water service. In 1924 a total of 139,661,950 gallons of water was consumed in Cisco. Based upon Cisco's population of 10,214 each person in Cisco consumed 13,673 gallons of water last year, which is more than double the per capita consumption five years ago. The increase is attributed by utility officials to the extensive use in Cisco of modern household conveniences that eat up large quantities of water.

Americans are notoriously large consumers of water, said Mr. Scott, and in the matter of cleanliness Cisco folks, both native born and those who have lived here but a short time are 100 percent Americans, so far as the condition that is next to Godliness is concerned. Why? Five years ago, continued Mr. Scott, the house equipped with the devices termed "modern conveniences" was the exception rather than the rule. So much so, that it was, on rare occasions the chief selling point used by realtors. Today the situation is reversed. Nearly every Cisco house is fitted out with the ultra-modern appliances, such as bathtubs, showers, plentitude of spigots and washstands, electrical washers, garden sprays and many other fixtures.

Shower baths are blamed chiefly for the great increase in water consumption, because, in prevalent use here, they add to the pleasure of

bathing and detract from any annoying features it may have, so that frequent recourse is had to them.

SWEETWATER W. O. W. BAND WILL ATTEND ENCAMPMENT
SWEETWATER, July 28.—The Sweetwater regiment, Woodmen of the World, will be accompanied to the annual encampment of the order at Galveston, August 10 to 15 inclusive, by a 20-piece Sweetwater W. O. W. band, according to a communication received by Col. J. M. Simms, commanding the 101st regiment here, from the Omaha office of that organization. The notice stated that the band would be taken care of at the Galveston encampment, and local Woodmen pointed out that the musical organization would be quite a credit to the W. O. W. delegation and to the city while at the encampment. H. M. Rose is captain of the band and will be in charge of the organization at Galveston. About thirty members will make the trip. The Sweetwater Woodmen will leave here August 8th for Galveston in a special car over the Santa Fe. Twenty enlisted men and five or six commissioned officers will go from here. A delegation from Roby, consisting of 20 enlisted men and one commissioned officer will accompany the Sweetwater Woodmen.

Port Arthur—Contract let for \$1,395 for constructing fire station on Grannis avenue.

Dallas—More than \$8,300 worth of improvements being made on railway terminals here.

What the World Is Doing

As Seen by Popular Mechanics Magazine

Hobby-Horse Chair on Springs Kept Cromwell in Training

One of the reasons for Oliver Cromwell's fame is the fact that he successfully developed the cavalry units of his army to a high degree of efficiency, demonstrating the value of horses in many battles. An interesting sidelight on this phase of his career has attracted attention recently in a curious machine with a seat resting on high springs extending above the bottom frame. When home from campaigns and too busy to take regular exercise on his mount, Cromwell is said to have exercised in this chair, bouncing up and down for a short period each day to keep himself accustomed to the motions of horseback riding. The relic is now in the possession of Premier Baldwin of England and was demonstrated by him when friends visited him at his residence.

Radio Control on Railways to Start and Run Trains
A radio system capable of operating railway trains, throwing switches, and providing means of communication with passengers, all from a central point, has been described by G. T. Allen, of the Westinghouse Electric and Manufacturing Company. It is entirely possible, he said, through a combination of electric and radio supervisory control, to start a train without a crew from a station, operate it at full speed, or to slow or stop it, automatically in compliance with automatic block signals, permitting a central dispatcher to control and supervise completely all movement of trains on a system. The carrier-current of signaling and communication, as the process is called, is based on the principle that wireless waves will practically follow along the course of wires without leaving them, if propelled in a certain way.

Making Giants Out of Mice and Men

Rats as large as raccoons and guinea pigs as big as badgers are possibilities as a result of a discovery by a scientist of the University of California, while its application to cattle, sheep and hogs, as well as to geese, ducks and chickens, would result in such an increase in size and rapidity of growth that one-half the live stock now produced would furnish the same quantities of foodstuffs as those raised today.

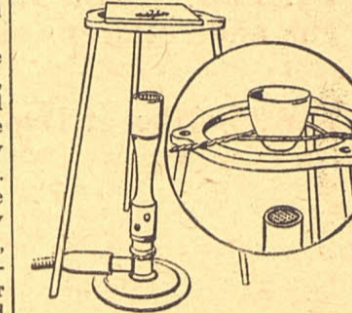

The discovery was made, after nine years' work, by Dr. Herbert M. Evans, who also announced that he had found that barren animals may be made capable of producing young by feeding them with a certain food. The first of these findings is that the extract of the pituitary gland, a tiny organ hidden in the base of the brain, when injected into the tissues of living creatures, no matter what their age, starts a period of growth limited in time, amount and rapidity only by the quantity administered and the duration of administration. Rats born in the same litter and treated daily with "pituitrin" extract outgrew by fifty per cent other rats of the same litter reared under the same conditions but without pituitrin.

Dr. Evans says he does not know when it will be possible to apply this

treatment to human beings, because his experiments are not yet complete, and because of the difficulty of obtaining a purified extract from the pituitary gland. The fluid which was used in the experiments was obtained from tadpoles. If, however, the administration of the pituitary extract produces the same result in all rats, regardless of age or sex, there is every reason to believe that it will have the same effect on larger animals, even to man.

Making Crystals at Home

Good crystals can be made at home. Crystal set users are always anxious to try new crystals, and many of these now on the market are not as good as they should be. The ingredients used are powdered lead and sulphur, and when properly made will equal, in clearness and volume, many of the best commercial types. Lead shavings can be melted on an iron plate over a gas stove, but if the crystal maker is equipped with a porcelain crucible and Bunsen burner, the lead can be handled more easily.

Methods of Melting Lead and Sulphur on Iron Plate and in Crucible for Making Synthetic Crystals

When the lead is molten, sprinkle powdered sulphur over it and stir with an iron wire. The lead, if hot enough, will then burn with a blue flame, and the result is a synthetic form of lead sulphide, which, when cool, will act as a good detector.

from the Guadalupe county line west to the Fayette county line, but amount of aid was not specified.

Roads for which designation as state highways was asked were: Fisher county road from Hamlin to Clairmont by way of Rotan; San Saba County Pecan Belt highway from Comanche to Fredericksburg by way of Goldthwaite, San Saba and Llano; Haskell county requests highway No. 18 from Stamford to Aspermont by way of Hamlin; Bell county road by way of Sagerton, as was originally intended; Gillespie county asked that Pecan Belt highway designation be extended from Fredericksburg to Kerrville.

MRS. JEWELL JEROME and BETTY INT

A hot court fight was staged for possession of Betty Jerome, daughter of Mrs. Jewell Jerome, of San Francisco, who kidnaped the child from its guardian, Mrs. Frank C. Grubel, prominent Kansas City club woman.

MODERN DR. JEKYL AND MR. HYDE REVEALED IN SUICIDE
MINNEAPOLIS, July 28.—Leaping from the fifth story of this city's most fashionable family hotel, Dr. R. J. Phelan ended his life here this afternoon thus thwarting prosecution on a charge of manslaughter brought against him following the death of a woman patient. The death of Dr. Phelan ends the almost incredible story of a Jekyll-Hyde existence. Known in the exclusive university district as Doctor Phelan a philanthropically inclined physician and surgeon of great skill who gave his services to thousands of poor patients during the last twenty-four years, and whose practice was among the oldest and wealthiest residents of the city, it was discovered last week that for years had been practicing in another part of the city as Dr. W. T. Stevens, whose specialty was criminal operations. The dull existence feature came out following the death of a woman who had been directed to "Doctor Stevens" by a bell boy at a hotel. Taken as Doctor Stevens he confessed.

LAWRENCE C. THAW INT

Charging that her grandson, Lawrence Copley Thaw, imposed upon her old age, Mrs. Mary Copley Thaw, mother of Harry K. Thaw sued Lawrence for \$600,000—the sum she said she gave him when he represented he had not been fairly treated in his father's will.

HIGHWAY AID PLEAS REACH OVER MILLION

AUSTIN, July 28.—Application asking for appropriation of \$1,020,021.26 for state highway aid were filed today with the state highway commission. Hardeman county asked for \$600,000 and Atascosa for \$400,000. Other counties seeking aid were Kent and Bowie.

Besides passing on applications, other matters before the commission involved considerable number of highway designation requests and awarding contracts for trucks.

C. Y. Welch, county judge of Hardeman county, asked that \$600,000 be appropriated to aid that county in building a thirty-two mile road of brick, concrete or asphalt from the

Wilbarger county line to the Childress county line. Hardeman county has voted \$600,000 in bonds.

Representatives of Atascosa county asked that \$400,000 be given to aid in building macadam base, asphalt top roads from Pleasanton to Live Oak county line and from Pleasanton to Jourdan. The proposed roads would be thirty and a

half miles long.

Kent county asked \$15,000 to build a road four and a half miles long from highway No. 84 to the Stonewall county line. Bowie county asked \$5,021.26 to build a six-mile road from New Boston to three miles north of Corley.

Gonzales county asked aid to build a hard surfaced forty-two mile road

The First State Bank is Now The First National--Federal Examiners Pay Cisco Institution Compliment

In line with the policy adopted by a great many of the stronger State banks in Texas, the First State Bank of Cisco has nationalized and in the future will be known as the First National Bank. This is one of the strongest and most conservative banks of its size in Texas and is backed by men of financial strength and long experience and ability in the banking business. State banks changing from the state to the national system are required by the United States government to stand a most rigid examination as to their standing and the value of their assets before they are permitted to do so, and we are informed that federal examiners who have made the examination for the local change, state this bank stood one of the best examinations of any state bank they have so far examined out of the many state banks that have applied to make the change from the state to the national system.

JULY SHOWS 27 NEW PATRONS TO WATER SERVICE

The records at the water office show that twenty-seven new water consumers have been added to the service. Most of these new connections are for recent arrivals, or those who have commenced keeping house. A few are known to have lived here for some time, and are just changing addresses, but allowing for these it will be seen that Cisco is adding new citizens all the while, especially when it is well known that many are living at hotels, rooming houses and private residences. These families who have ordered water connections during the month are: A. B. Owen, West Twenty-fourth street; J. Whitney Lewis, G. C. Richardson place; L. L. Nixon, 907 West Eighth street; Charles Christ, 304

West Ninth street; L. M. Stewart, 806 West Fifteenth street; F. A. Bates, 406 West Sixth street; Mrs. G. R. Langston, 205 West Fourteenth street; J. H. Morgan, 511 West Sixth street; George Owens, 408 East Sixth street; J. H. Reynolds, 1400 M avenue; W. B. Royer, 505 West Third street; W. B. Allen, 1609 F avenue; George Timmons, 1906 C avenue; Walton L. Multer, 606 I avenue; Leslie Spoons, 1005 West Fourteenth street; Mrs. John Holder, 107 East Thirteenth street; O. I. Murray, 303 West Fourteenth street; Joe Warren, 206 West Fourteenth street; Mrs. Fern Joy, Broadway Hotel; Mrs. Elizabeth Adeock, 409 West Fifth street; L. C. Anderson, Elm Hts.; J. N. Ghormley, 805 West Thirteenth street; E. F. Bender, 708 Harris avenue; A. A. Belding, 1008 West Ninth street; Hugh A. Lay, 704 West Tenth street; Grady Guffee, 1208 M avenue; Mrs. P. O. Albright, 1004 West Eighth street. If any of these new comers are your neighbors, drop around and make their acquaintance, and show them that their welcome to Cisco is cordial.

THE JNO. HART HOME SCENE OF FAMILY MEETING

EASTLAND, July 28.—The home of John Hart, six miles east of Cisco, was the scene of a pleasant family gathering when the members of the Hart family assembled on this occasion for a family reunion. There were present thirty-four at the reunion. Those present were I. N. Hart, the father, of Cisco; John S. Hart and family; Mrs. Newson, of Killen; Mr. and Mrs. Joe Matthews, and niece, Avis, and nephew, Travis, of Hereford; Jim Hart and family, of Eastland; Sam Hart and family, of East-

land; Misses Rosa and Katy Hart, of Eastland; Newt, Gus and Josh Hart, of Eastland; and Mr. and Mrs. Leslie Hock, of Cisco. A very enjoyable time was had by eating chicken, watermelon and ice cream.

I. N. Hart, the father, is an old settler of Eastland county, having settled on the old Blaylock farm which is in the Bedford community about six miles northwest of Eastland in the winter of 1898. In this family there were twelve children, and of this family all are living except Mrs. I. N. Hart, mother, and one son, Tom Hart, and one daughter, Mrs. Bessie Matthews.

CARBON PIONEER DIED THERE AT THE AGE OF 75

CARBON, July 28.—At the age of seventy-five years, B. D. Snodgrass died at the home of his son, G. W. Snodgrass in this place Monday, with the funeral services Monday afternoon and burial in the Carbon cemetery. The deceased is survived by three daughters and four sons. The children are: Mrs. W. A. Tate, Carbon; Mrs. J. A. Walker, Carbon; Miss Fairy Snodgrass, Carbon; G. W. Snodgrass and E. R. Snodgrass, also of Carbon; B. B. Snodgrass and C. M. Snodgrass, of Olustee, Okla.

Mr. Snodgrass was born in Union county, Tenn., on December 4, 1849. He enlisted in Company C, 53rd Regiment of Indiana infantry on March 30, 1865, and was honorably discharged on July 21, 1865. He moved to Eastland county in 1898 where he lived until the time of his death. His wife died about one year ago.

FORMER LOBOES GIVE THE TECH THE ONCE OVER

LUBBOCK, July 28.—Five members of the Cisco Lobos arrived here this week with E. C. Patton to see the Texas Technological college and

talk with the faculty. They first sought out Coach E. Y. Freeland, and his famous "smilin' smile."

The boys are regulars on the team which was not defeated in West Texas last year, and that went into the semi-finals for the state football championship.

Coming through the country from Cisco to Lubbock, with the sign "Cisco Lobos," bound for Texas Tech," showing from the rear of their car, they attracted wide attention. Many other students along the route declared they would enroll this fall if the Lobos did, the boys report.

After going through the administration, textile, engineering, stock judging pavilion, and home economics buildings, the boys declared that they would answer the initial call of Freeland, Sept. 15, for gridiron material.

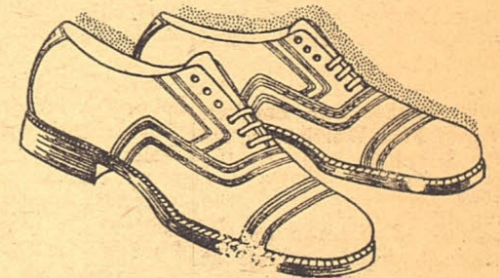

MODERN DRY CLEANER A modern, up to date dry cleaning process has been installed at the

Powell & Dossett tailor shop which equips that place with the latest means of removing dirt, grease, stains from the most delicate fabrics. Installed in the back part of their shop this equipment can be seen in operation at any time. The clothing is run through the gasoline washer, which removes every particle of dirt or grease, then it is placed in the gasoline extractor, where the gasoline is evaporated by a rotary drying process, then the garments are allowed to hang in the air a few minutes, then to the drying room where the last particle of the gasoline odor is removed, and the clothes are ready for pressing. The operation requires a surprisingly short time, and is known as the Sherer system, adapted to remove all grease and dirt from garage or oil field workers' overall as easily as from the most delicate garments.

REV. STEDMAN TRANSFERRED TO BIG SPRINGS

The news that Rev. Frank H. Stedman will be transferred from Cisco was received here with genuine regret. It was just learned that Mr. Stedman will be transferred to Big Spring, where he will serve the Episcopal church there, and at Sweetwater and Colorado City. Also, he is transferred out of his present diocese, as he will be in the diocese administered by Bishop Seaman of Amarillo. It is stated that Mr. Stedman and family will depart about August 15, and in their going the best wishes of a host of friends attend them, for this family was beloved by many aside from their own fellow communicants.

Coming here two years ago from Stamford, where he was temporarily stationed Mr. Stedman was placed in charge of this field of work, and as an impress of his ministry has built neat chapels in several of his charges where he had only a handful of his faith for his working basis. He served Cisco, Breckenridge, Eastland, Ranger, Thurber and Graham. As a result of his work each of these places will continue the services under a lay reader, and supplied by the arch deacon once each month.

CAN'T GATHER CATTLE; HE STOPS BLASTING

WEATHERFORD, July 28.—The work on the highway at Clear Fork, where the road is being changed to avoid the dangerous curve in that vicinity, has stopped temporarily. Mr. Beggs, executor of the E. D. Farming the greatest of his kind in the district court here, stopping the blasting, alleging that he can not gather his cattle for shipment owing to their being stampeded by the shots. Ten thousand dollars in damages are asked of the highway commission in the suit.

HOLDS ARMENIANS MAY BECOME U. S. CITIZENS

PORTLAND, Ore., July 28.—Armenians are eligible to naturalization as American citizens, Federal Judge C. E. Wolverton decided Monday. In the noted Cartozian case, the judge handed down a decision that was an entire victory for the Asia Minor people. As the entire proceedings was a test case, it is expected the government will appeal to the United States supreme court. The federal government has sued for annulment of the naturalization papers of Tatos O. Cartozian, member of a local firm of rug dealers. The government's contention was that Armenians are of Asiatic descent and, therefore, not eligible to naturalization.

TEXAS RANGER FORCE TO BE FURTHER CUT

AUSTIN, July 28.—When the new appropriations become effective Sept. 1, next, a further reduction of the state ranger force will be necessary, Adjutant General Mark McGee said Monday. The last legislature made a big cut in the ranger appropriation which, said Adjutant General McGee will provide salaries for not more than 30 men.

Dog Barred

When a Chicago hotel refused to let her take her dog into room with her, the dowager Duchess of Sutherland, widow of one of the largest landholders in Europe, immediately left and went in search of another hotel.

BRYAN MADE UP TO \$1,000,000 IN REALTY

MIAMI, Fla., July 28.—William Jennings Bryan was an elder in the First Presbyterian church of this city and teacher of its open air Bible class which was conducted in Royal Palm park every Sunday morning. This class has the distinction of being the greatest of its kind in the world and is frequently attended by thousands of persons. Mr. Bryan is credited with having prospered greatly in his venture here in real estate and is estimated to have made from \$250,000 to \$1,000,000 in the sale of real estate. His home, Villa Serena, south of Miami, was recently sold by him at a considerable profit, and he bought a less expensive home at Coconut Grove, near Miami, and the home of his daughter, Mrs. Reginald Owen.

SIKI DASHES OUT IN HIS PAJAMAS

NEW YORK, July 28.—Batting Siki, Senegalese boxer, former light heavyweight champion, clad in pajamas, today hurriedly left the hospital in which he was placed yesterday after being stabbed in the neck when he intervened in a street fight in the "Hell's Kitchen" district. Enraged by the refusal of his white wife, who visited him at the hospital to bring him clothes so he could leave, Siki dragging a newspaper reporter by the arm, lurched into the street and hailed a taxi cab, ordering the driver to take him home. Siki's injuries were thought at first to be serious and he was carried to the hospital unconscious from loss of blood. Today he was found not to be critically hurt, but his wife thought he should remain longer in the hospital. He replied to her protests by his dash to the street.

RESERVE BANK'S LIQUID WEALTH OVER \$80,000,000

DALLAS, July 28.—Member banks of the Eleventh Federal Reserve district report a total liquid wealth of more than \$80,000,000 over the same periods in 1924, Lynn P. Tally, governor of the Federal Reserve bank here said today. He said the banks were standing behind agricultural interests in sections threatened by drought. The liquid wealth represents uninvested capital and reflects a steady increase in financial resources of the southwest, Mr. Tally said.

home of Mrs. Goldman's parents. Mr. and Mrs. J. P. Majors here, were they are recovering from injuries sustained when their automobile overturned near Seymour at 11:30 Friday night. They arrived in Sweetwater Saturday morning. The Goldman's were returning to their home in Colorado following a visit in Wichita Falls, when the accident occurred near Seymour. Mr. Goldman's collar bone was broken, and Mrs. Goldman, and their small daughter received minor cuts and bruises. They continued their trip to Abilene by rail and were brought to Sweetwater by a stage car. Mr. Goldman is a noted musician in West Texas. He is director of the Gold Medal band of Colorado, and is newly elected director of the Sweetwater Boys Band.

les government is believed to have been broken up with the arrest at Mier, Tamaulipas, Sunday afternoon of Abelardo Hinojosa alleged to have been actively engaged in Texas in revolutionary activities against the Mexican government, according to Consul general A. P. Carrillo.

Notice of the arrest of Hinojosa was received here in a message from Consul Montemayor of Rio Grande City. Arrest of other Mexican citizens suspected of revolutionary activities on this side of the border may be made within the next month, Mr. Carrillo said. Hinojosa was deported across the border at Rio Grande City yesterday afternoon by American immigration officers and was given into the custody of Mexican officials at Mier. Charges of sedition have been preferred against him, according to information Mr. Carrillo received from Consul Montemayor. The pris-

oner is alleged to have been distributing revolutionary propaganda along the border.

RUM DOODLE BUG MAN BEHIND BARS

OKEMAH, Ok., July 28.—A new wrinkle in Volsteadian procedure was uncovered here the other day when "Shorty" Thomason, deputy sheriff, appeared in court armed with a whisky "diving rod" of his own invention. When it gets close to contraband it begins to shake and quiver, Thomason told the court. "That's what it did when I passed it over the ground on the farm of Burt Hammon." When the evidence was brought in and placed near the rod, the latter began to do a shimmy in the hands of Thomason. The court was convinced. Hammon was fined \$50 and sent to jail for 30 days.
