VOLUME VI.

CISCO, TEXAS, SUNDAY, JULY 12, 1925

NUMBER 105

DETROIT DRAWS COLOR LINE

Humble Company Meets New Posted Prices and Schedule of the Prairie Oil Company; Prices Boosted 11 Cts.

CONVENTION OF WEST TEXAS C. OF C. JUNE 7-9

AMARILLO, July 11.—The 1925 West Texas chamber of commerce convention probably will be held here June 7, 8, and 9. The executive committee of the board of city development, in conference with W. M. Adams, general convention chairman, and Porter A. Whaley, secretary, and R. Q. Lee, president, recommended these dates to the organization's directors. It is expected that they will be approved.

SHAMEEN WILL BE PROTECTED BY GUNBOATS

HONG KONG, July 11.—An indication that the Chinese strikers may carry out their threats to wrest Shameen, the international settlement from the foreign powers, was given today, according to reports from Canton, American, British, Japanese, and other gunboats there to protect countrymen have been strengthening the defense.

4 CONDITIONAL PARDONS AND 7 RESTORATIONS

AUSTIN, July 11.—Four conditional pardons and seven restorations to citizenship were announced by Governor Ferguson today. The pardons went to Jewell Hales, McLennan county, murder; Will Petty, Dallas, robbery; Jesus Torres, DeWitt county, murder, and El De Pattie, forgery, Tarrant county. Among those restored to citizenship were Rice Gilstrap, of Victoria county.

JUDGE SCOTT IS VISITING HOME OF HIS BOYHOOD

Leaving his Ohio home at the age of sixteen Judge D. K. Scott has not visited his native home in all these years. But he is returning to the scenes of his youth, and will fish by the old mill stream once more, and take a plunge in the "old swimming hole" where he was wont to disport when a bare-footed lad. He left Cisco Wednesday for Fort Worth, where he was joined by an old boyhood friend who will accompany him back to their native haunts. They will visit in Ohio, West Virginia, Illinois and Iowa, and have stored up in their mind's fancy a most glorious vacation.

MR. AND MRS. BYRNE VISIT IN THE J. J. COLLINS HOME. Mr. and Mrs. J. W. Byrne of Austin, are guests of Mr. and Mrs. J. J. Collins. Mr. and Mrs. Byrne were former residents of Cisco, when Mr. Byrne was Cisco manager for Swift & Co., later going to Breckenridge in a like capacity, but at present he is in the comptroller's office at Austin. Many of their friends gladly welcome them on the occasion of this visit here.

The new prices posted by the Prairie Oil & Gas Co. not only boosts the price of Mid-continent crude from five to thirty-three cents, but gives a new schedule of seventeen different classifications, whereas the old schedule only contained six classifications, with an average boost of about 11 cents per barrel. It is announced at the Cisco offices of the Humble Pipe Line Co. that the Humble Co. has met these prices, which will govern their purchases in this field. The Cisco offices of the Texas Company up to late Saturday had not been advised of the Texas company meeting the prices posted by the Prairie, though this will likely be the case, as the advances are universally met by all the major purchasing companies.

These new posted prices are significant in the fact that new classifications are made. In the old schedule there were but six classifications, starting off with "below 30 gravity," and ending with "42 gravity and above."

Following is the new schedule and prices posted by the Prairie, which will likely govern in this entire field: 28 to 28.9 Baume gravity, \$1.40; 29 to 29.9 gravity, \$1.48; 30 to 30.9 gravity, \$1.56; 31 to 31.9 gravity, \$1.64; 32 to 32.9 gravity, \$1.72; 33 to 33.9 gravity, \$1.80; 34 to 34.9 gravity, \$1.88; 35 to 35.9 gravity, \$1.96; 36 to 36.9 gravity, \$2.04; 37 to 37.9 gravity, \$2.12; 38 to 38.9 gravity, \$2.20; 39 to 39.9 gravity, \$2.28; 40 to 40.9 gravity, \$2.36; 41 to 41.9 gravity, \$2.44; 42 to 42.9 gravity, \$2.52; 43 to 43.9 gravity, \$2.60; 44 and above, \$2.68.

Old Schedule The old schedule thus replaced by the latest schedule and in effect since February 12, was as follows: Below 30 degrees Baume gravity, \$1.35; 30 to 32.9 gravity, \$1.55; 33 to 35.9 gravity, \$1.80; 36 to 38.9 gravity, \$2.00; 39 to 41.9 gravity, \$2.25; 42 gravity and above, \$2.35. In this schedule all over 42 gravity was paid \$2.35, while the new schedule's highest above 42 gravity is \$2.68. True, there is not a great quantity of this high gravity oil, yet some in the shallow fields tests out that high.

EX-MISSISSIPPI SOCIETY IS BORN HERE SATURDAY

A permanent organization of Ex-Mississippians was perfected when a number of former citizens of that state responded to the call of J. D. Brummel of Carbon, for a meeting in Cisco Saturday afternoon at 2 o'clock. J. D. Brummel was elected president, and Miss Lillian Wood of Eastland, was chosen secretary of the Society of Ex-Mississippians. A program and arrangements committee was appointed consisting of J. E. Spencer, chairman, I. Lamb, Mrs. R. Q. Lee, Dr. J. W. Gregory, D. J. Moss and Frank E. Harrell. By unanimous vote it was decided to hold an old fashioned basket picnic at Lake Cisco July 29, and all former Mississippians living in Eastland county and adjacent communities, are urgently requested to be present with their friends and form in one grand reunion those who once lived in that state. Newspaper men of Eastland and adjoining counties are given an especial invitation to be the guests of the ex-Mississippians on this occasion. The papers are also requested to give this picnic as much publicity as their space will permit. Any further information concerning the Society of Ex-Mississippians will be gladly supplied by addressing Miss Lillian Woods, secretary, P. O. box 1038, Eastland, Texas.

Among those present were C. E. Spruill, Miss Lillian Woods, Eastland; Mr. and Mrs. J. D. Brummel, Carbon; E. M. Newman, J. H. McDonald, I. Lamb, J. W. Barr, Dr. J. W. Gregory, Cisco.

Would Be Chicago's Mayor

JOHANNA GREGG, a member of the Chicago Board of Education, believes Chicago needs a good housekeeper in the City Hall and so has announced her candidacy for the Republican nomination.

FOREST FIRES MENACE TOWNS OF WASHINGTON

HOQUIAM, Wash., July 11.—Two logging towns, Carlyle and Stearns-ville, near here, are reported in grave danger of being destroyed by fire that has surrounded them in the burning of the green timber forest. Scores of fire fighters are battling the flames, apparently to no avail.

EIGHTH HIGHWAY DISTRICT TAKES IN LAMPASAS CO.

EASTLAND, July 11.—Lampasas county has recently been added to the eighth district of the state highway department, the headquarters of which is located at Eastland. This makes a total of fourteen counties in this district. A number of new projects are being started as well as much work being carried on as projects stated some time ago. A stretch of 23 miles of road between Zephyr and Goldthwaite is being oiled with a special oil. This is a new experiment and is being watched with considerable interest.

Beginning at Rising Star, the gravelled road through Pioneer, Burkett, Cross Plains, Coleman and on to the Rannels county line is being asphalted. A road from Hico to the south line has just been designated as a state highway. This road, it is stated, will eventually be extended on to Fredericksburg, connecting with a number of other state highways.

SLOW SUICIDE IS VERDICT IN BANKER'S DEATH

KANSAS CITY, July 11.—"Slow suicide, accomplished by a will not to live," was the doctors' verdict in the death early this morning of Joseph R. Grant, alleged wrecker of the Centropolis bank, and accused of taking \$600,000 from the institution. He has been ill ever since his indictment.

KIDNAPPED BOY IS UNDER GUARD AT HOME MOTHER

SAN ANTONIO, July 11.—Private guards have been placed around the home of Mrs. Virginia Canaday to forestall any attempt to get possession of Roscoe Canaday, Jr., twice kidnapped son of Mrs. Canaday. The posting of guards followed a report that the boy's father had left his New York home. Mrs. Canaday, who "abducted" her son in Forrest Hill, N. Y., several days ago from the home of his father, said today she waited until the extradition proceedings against her husband had been dismissed before she took the law in her own hands.

PLOT TO SLAY KING ALFONSO IS FRUSTRATED

SAN SEBASTIAN, Spain July 11.—An assassination plot against the life of King Alfonso and General Primo De Rivera, head of the Spanish directory, was uncovered today, and a band of men who admitted affiliation with the communist international, were taken into custody. The plot was hatched in Paris. The men were plentifully supplied with money and propaganda.

AUSTIN, July 11.—Governor Miriam A. Ferguson this afternoon issued a requisition on the governor of Oklahoma for the return to Grayson county of E. A. Pruitt, charged with theft of an automobile. He is under arrest in Cleveland county, Oklahoma.

THREE ARRESTS IN COLLAPSE OF PICKWICK CLUB

BOSTON, July 11.—Three men were arraigned tonight on charges of manslaughter following the return of secret indictments by the Suffolk county grand jury probing the collapse of the Pickwick club a week ago that caused the loss of forty-four lives. Those arraigned were Timothy Barry, president and treasurer of the club; Hyman Bloomberg, leasee of the building, and George C. Funk, architect. The three were released on \$3,000 dollar bail and trials set for next Wednesday.

UNCOVER PLOT SMUGGLE RIFFS WAR SUPPLIES

PARIS, July 11.—The French secret service today uncovered a plot to smuggle five thousand rifles per month to Rifian tribesmen together with food and ammunition. The police withheld the names till they have been arrested. The port of Marseilles was to be used by the band in filibustering the operations.

NARCOTIC RAID BY MEXICANS LANDED CHINK

EL PASO, July 11.—First of a series of raids by Mexican officials in an effort to end illicit narcotic traffic was made early this morning and resulted in the capture of a Juarez Chinaman who is alleged to be the largest dealer in wholesale narcotics on the border. His elaborate establishment was raided and several cans of opium and morphine found. Several men smoking opium were found in the quarters and they, too, were arrested.

CONVENTION OF BOYS AND GIRLS CLUBS JULY 16-18

While in Cisco Saturday County Agent Bush stated that the Boys and Girls club convention which will convene in Eastland next Thursday, Friday and Saturday, July 16, 17 and 18, promises to be the largest in point of attendance yet held in Eastland county. Besides, a most interesting program has been arranged. Thursday the club boys and girls will arrive in Eastland by 5 p. m. and prepare for camp. At 7 o'clock they will go to the Connelley theatre where a special educational picture will be shown, portraying cotton production in the south, which will be featured by many fertilizer demonstrations. The picture carries a comedy feature, depicting the negro tenants on the cotton plantations of the delta regions. Not only will this picture be free to the Boys and Girls club members, but to all farmer men, women and children provided they are on hand to enter the show with the club members.

Friday morning the boys will hold livestock and grain judging contests, and the girls engage in home economic contests—bread making, sewing, etc. Friday afternoon the poultry judging contests will be staged. Friday night there will be stunts at the city hall by the boys, and practical dress style show by the girls, who make their own dresses. The stunts will include hog calling, cow calling and cracker-eating contests. Saturday morning the county federation of Boys and Girls clubs will meet when the election of officers will be held, preceded by addresses from G. W. Briggs, secretary of the Eastland chamber of commerce, Ed S. Pritchard, county judge, and Mrs. Phillip Pettit, president of the Eastland County Women's Federated clubs.

Near Riot Started When Negro Made Ready to Move Into House He Bought In White Section--Several Arrested

DETROIT, Mich., July 11.—Race rioting outbreaks, for which the police have been on the alert for the past several days, failed to materialize today, although a great deal of bad feeling is still apparent. The trouble between negroes and whites started when several white residents tried to persuade a negro not to move into a house he had purchased in a white residence district. The negroes resented this action and several were arrested and found in possession of guns.

HEREFORD HEARD INTENSIVE FARM TALK BY R. Q. LEE

HEREFORD, July 11.—Vigorous urging intensive and diversified farming, R. Q. Lee, of Cisco, president of the West Texas chamber of commerce, captured the large audience that greeted him here this afternoon, during the short stop of his party on their tour of the panhandle. He urged upon the farmers of Deaf Smith county and the panhandle a more constructive policy of agriculture, as well as the entire empire of West Texas. In his talk President Lee severely rapped those farmers who produce only cotton, telling them that a big cotton crop would bankrupt the south. President Lee strongly advocated individual irrigation, pointing out that a few acres irrigated would be the most profitable acreage cultivated; as it would enable every farmer to produce all the truck necessary for his own table, thus effecting an enormous saving in his household expenses. This idea was most attractive to those who heard him, as irrigation would make a veritable garden of any panhandle farm.

FURTHER CUTS IN REVENUES TO BE PUSHED

WASHINGTON, July 11.—The present tax law, designed to reduce the levy on the public by \$400,000,000 has effected a reduction by only a little more than half that amount, it is indicated in treasury internal revenue figures for the fiscal year 1925, giving the total tax receipts as \$2,584,010,847.

The total for the fiscal year 1924 was \$2,796,179,258, and the reduction of \$212,168,409 shown for the six months of 1925 during which the lower tax rates were operative leads treasury officials to believe the new law will fail to reduce the tax burden by the sum originally contemplated. The figures give indication, also, that tax reduction efforts to be made in the next congress will have as a goal at least \$200,000,000, and Senator Watson of Iowa, member of the senate finance committee, announced last night that he would favor cutting that sum from the tax load. He believed the combined normal and surtax on incomes should not exceed 35 per cent, but he had reached no conclusions as to how the levy should be divided.

Maximum surtaxes ranging from 13 to 25 per cent, have been advocated by other prominent figures, the higher one being sponsored by Chairman Smoot of the senate finance committee and Chairman Green of the house ways and means committee. Senator Underwood of Alabama has suggested a 13 per cent maximum surtax and Frank W. Mondell, retiring member of the war finance corporation, has favored a 15 per cent limit.

Of the total internal revenue for 1925, \$1,761,681,641 was from income taxes, representing a reduction from 1924 of only \$50,077,675, and this indicates to treasury experts that still lower taxes are possible without seriously impairing the government's revenue.

WARNING BY KKK TO BOOTLEGGERS AROUND CHICAGO

CHICAGO, July 11.—Two thousand Ku Klux Klansmen in automobiles today paraded through Cicero and La Grange, between Stickney and Chicago suburbs, warning law violators that they must change their ways or be driven out. Many alleged bootleggers were warned that if next time the Klan came to see them and they were still doing business, they would have cause for "terrible regret."

THE LANDRETH ROSS ELLIOTT IS BIG GASSER

The Landreth Ross Elliott well was brought in as a big gasser Friday, and is reported to be making ten to twelve million cubic feet of gas. Several days ago this well began to gas, but the hole was drilled deeper, and Friday it blew itself in for one of the biggest gassers in that field. This well is located two miles north of the Charley McClelland big gasser, nine miles north of Cisco, and proves that district one of the most prolific gas fields, equaled only by the gas production in the East Cisco field. This huge volume of gas was struck at the same depth and in the same sand as the gas found in the McClelland well, at 2091 to 2240 feet.

RUSSELL RUNS CHICKEN RANCH AS SIDE LINE

O. J. Russell operates a nice little chicken ranch at his home at 507 West Tenth street, where he has 500 very fine white leghorn pullets just coming into production, besides 350 choice laying hens. This is the remainder after having his flock culled Saturday while County Agent Bush was here from Eastland. Russell's flock is now one of the best of the many chicken ranches of Cisco and vicinity, as Bush culled out the inferior stock, and those remaining are all choice birds. He operates this chicken ranch entirely as a side line, as his main duties are to see that Cisco folk are kept cool and comfortable by being supplied with plenty of ice from the Cisco ice factory where he is superintendent.

U. S. A. BEATS ENGLAND EASILY AT TRACK MEET

CAMBRIDGE, Mass., July 11.—Harvard and Yale beat Oxford and Cambridge (England) here today in the international track meet, when Carr of Yale won the pole vault event and gave the Americans a lead of six in first places won. Although the pole vault was not the last event, it clinched victory for the United States colleges.

MCDONOUGH THE WINNER WASHINGTON, July 11.—Bob McDonough, driving a Miller special, won the 250 mile race at the Washington-Baltimore speedway. Peter De Paolo, in a Dusenberg, was second, and Harry Hartz, in a Miller, third. McDonough's time was two hours, one minute and 59 seconds.

A NECESSARY FORWARD STEP

If the commissioners court of Eastland county could work out a plan to light the Bankhead highway between Ranger, Eastland and Cisco, such forward action would be a constant delight to our own people and a far-reaching magnet to visitors and prospective residents.

One of the greatest pleasures possible to the people of Eastland county and the Cisco Country throughout the summer season is enjoyment of our always wonderful nights.

Effective lighting of the twenty-mile stretch of brick road linking the three principal cities of the county would make it safe under all circumstances and be highly gratifying to thousands of men, women and children who are busy throughout the warm days, and who would live longer and better for an occasional forty-mile ride through air that rebuilds and rebraces for the duties of tomorrow.

If Ranger and Eastland could be prevailed upon to extend their city lights to the municipal limits—as Cisco has already done—it is probable that lights could be placed at intervals of 100 yards over the entire route at a cost of approximately \$250 per month.

The Cisco Daily News would like to see Commissioner Birt Brittain take hold of this lighting plan and work it out. That he could do it is very likely, and that it would meet the approval of an overwhelming majority of the people is a foregone conclusion.

It really does seem to be getting "a bit thick" here in the land of the free and the home of the brave when young Mr. Scopes' sister is fired from a job of teaching mathematics in Kentucky because her brother taught evolution in Tennessee.

POE'S GOOD SUGGESTION

R. L. Poe makes the excellent suggestion that the Cisco chamber of commerce map the highways leading out of Cisco, plat a large number of acres of land, here and there, into parcels of ten and twenty acres, and then have the owners of said land place an equitable purchase price thereon.

Mr. Poe, who is studying the poultry business from every angle, and who realizes that the future of the poultry industry in the Cisco Country depends entirely on the volume of infertile eggs, thinks the map and data as outlined above would meet with instantaneous favor and give the local poultry industry much-needed impetus.

It looks like a highly practicable suggestion, and the Daily News hopes the Cisco chamber of commerce will be able to put it in working order immediately.

FACE TO FACE WITH RUM

Liquor outlawry has been brought home to President Coolidge. In going to Swampscott for the summer, he ran right into a smugglers' nest. Liquor had been brought in by thousands of cases to the bathing beach of "White Court," his summer residence, and stored in an empty cottage next door.

Little wonder that the president promptly issued orders to the Coast Guard to concentrate on that sector of the prohibition front and clean up the outlaws. Such flouting of the national law under the very eyes of the national executive would be intolerable even to a less conscientious president.

And when he does return, he will find plenty of work of the same kind. For if there is anything more scandalous than this barefaced seacoast smuggling, it is the liquor traffic that honeycombs the national capital.

FIRE COST \$1,044 A MINUTE

America's bill for fire waste last year, 1924, was \$1,044 a minute, an annual loss of \$548,000,000, exceeding all previous high records.

The total amount of property destroyed during the year was equivalent to more than half the annual interest on the national debt.

Much of this enormous loss is preventable waste. "Although the fire losses of the United States continue to mount," says a bulletin, "it is not necessarily an indication that they cannot be reduced. The experience of the 1924 Inter-Chamber Fire Waste Contest shows that losses in the reporting cities were reduced to the extent of \$4,000,000 over their average for the preceding five years coincident with the activities undertaken by local fire prevention committees."

"What has been done in some cities might well be duplicated in others through energetic fire prevention programs carried on under the auspices of local chambers of commerce and similar organizations. Although fire waste is a national problem, it can only be solved through the combined endeavor of all communities."

CHECKING AUTOMOBILE THEFTS

The joy-rider and the automobile thief have both come to grief through the enactment of laws for the certification of automobile titles. Twenty-two states have enacted such statutes, seven of them this year, and more states are considering legislation of this character.

Estimates of automobile thefts vary, running from \$100,000,000 to \$150,000,000 annually, in the aggregate. Certification laws have had the effect of checking them

perceptibly by making it difficult for the thief to dispose of them, not being able to give title. Insurance companies have agreed to reduce their rates against theft ten per cent in the states where statutes are enacted.

The curb intended for thieves has also placed a check upon the joy-rider, as the latter often takes some one else's car when indulging in this diversion.

It is generally admitted that the maximum benefit will not be obtained from certification until it has been adopted in all the states. When this comes to pass the thief will not be able to dispose of the stolen cars without forging a certificate of title.

DO YOU REMEMBER ?

Roundup, July, 1912.

Whereas, it has pleased our Heavenly Father to remove from our midst brother F. E. Aycock, be it resolved, that in the death of this worthy brother Cisco Lodge I. O. O. F. No. 261 is profoundly sensible of the deplorable loss sustained. That we testify to the high and splendid qualities of character exhibited by the departed brother, to the fidelity of all those relations sustained in life. Resolved that we extend to the bereaved family our heartfelt sympathy in their great affliction.

Cards have been received by Cisco friends announcing the marriage of Miss Minnie Goldbeck, teacher in the high school during the past two years, on July 17 at the First Methodist church at Uvalde, Texas, to a Mr. Fincher of McKinney, Texas.

Rev. W. B. Johnson, age 60 years, died at his home at Scranton Sunday morning of paralysis. Rev. Johnson was born Oct. 25, 1851, in Alabama. At the age of sixteen he professed religion and joined the Primitive Baptist church. He went to preaching in 1878, and was ordained at Arlington, Texas, in 1883. He was married June 17, 1872, to Susan Bostick. To this union were born nine children, eight of whom are living.

The Cisco Fair and Institute will be bigger and greater than ever this fall. The committee on grounds have in mind a splendid place and are planning to fence same.

Frank Walker was called to Eastland Monday, a witness in the Du Bose case in the district court.

R. R. Gracey, the jolliest candidate in the county, was in Eastland Monday meeting the voters.

Bear in mind that Hon. Ed. T. Cox is a pro and Dr. R. G. Powell is an anti. They are candidates for representative.

Larkin Neel of Guthrie, Arizona, arrived in Cisco Saturday and surprised his parents, Capt. and Mrs. T. W. Neel.

The Southwestern Telephone Co. will give free service in getting the returns of the election, which the public will greatly appreciate. The bulletin board will be placed in the Air dome and will be managed by Mr. Judia. R. F. Davis, A. L. Mayhew, J. M. Williamson, W. W. Moore, Stuart Williams, Jno. Garner and G. Fisk will have charge of the election returns.

F. E. Harrell has returned from a business trip to Hereford.

Homer Brelsford, Jr., of Eastland, is visiting in the city this week.

Prof. O. C. Britton was a business visitor to Eastland last Friday.

Born to Mr. and Mrs. Lloyd Brabbin, a fine girl Wednesday, July 17.

Mrs. John F. Patterson was called to Rotan Wednesday on account of the serious illness of her daughter, Mrs. Hague.

Eastland county should be loyal to her candidate for the state senate, Hon. H. P. Brelsford.

THE BEST GAME

"It's easy to cry that you're beaten — and die;

It's easy to crawl and crawl; But to fight and to fight when hope's out of sight—

Why, that's the best game of them all!

And though you come out of each grueling bout All broken and beaten and scarred,

Just have one more try—it's dead easy to die;

It's the keeping on living that's hard."

AN EPITAPH

Here lies the body of John McPlunk, He died digesting the vitamin bunk, He studied and read—his poor head abuzz,

But he never could learn what a vitamin wuz.

CHURCHES

First Methodist

Nothing special, just the regular services. Sunday school at 9:45; a fine place for you to attend Sunday school. Interesting program, courteous treatment. Classes for all. Preaching at 11 a. m. and 8:15 p. m. Good music and cool auditorium. I think you will enjoy the services. Young people meet at 7:30. We have a fine bunch of young people. They will be glad to have you meet with them. May we look for you today. —T. E. Bowman.

Christian Science

Communion services will be held by the Christian Scientists this evening at the Episcopal church at 8 o'clock. Subject: "Sacrament." Sunday school at 7 p. m.; mid-week service, Wednesday at 8 p. m. All are invited to these services.

Episcopal

Church of Our Savior, 404 West Seventh street. Recor. Frank H. Stedman. Services for the fifth Sunday after Trinity, 10 a. m. church school, 11 a. m. sermon and holy

communion. The rector will preach. All are always welcome.

Grace Lutheran

Corner of Sixteenth street and avenue F. Sunday school at 9 a. m. Evening service at 8 p. m. In this service the new pastor will preach his inaugural sermon. Basing his remarks on Rom. 1-16, he will preach on the theme: "Why am I not ashamed to preach the gospel of Christ here in Cisco." Everybody is welcome at this service. Because of the absence of the pastor, there will be no morning service.—H. F. Peiman, Pastor.

First Christian

Wendell Carr will preach both morning and evening at the First Christian church—10:45 a. m. and 8:15 p. m. Sunday school at 9:45 a. m. All invited.

Church of God

T. H. McNeill, pastor. Sunday school at 9:45 a. m.; preaching at 11 a. m. and 8:15 p. m. C. Y. D. meets at 6:45 p. m. conducted by Miss May Jensen. Prayer meeting Wednesdays at 8:15 o'clock. The little church with the big welcome.

Christian Endeavor

The following program will be presented by the Senior Christian Endeavor of the First Christian church on July 12: Time 7:15. Leader, Nona Ford; subject, Beatitudes of the New Testament. Scriptures, Matt. 5:1-12; John 20:29; Romans 4:7. Song, "More Like the

Master." Scripture reading, Song, "The Old Rugged Cross." Prayer. Discussion of the Beatitudes: No. 1, Robbie Craighead; No. 2, Rollan Carr; No. 3, Ruby Payne; No. 4, Olivia Mayer; No. 5, Hester Tume; No. 6, Azlee Ford; No. 7, Mrs. Jack Winston; No. 8, Mrs. Ray Godfrey; No. 9, Wendell Carr; No. 10, Tommie Ford. Special number, Sylvestia Lee. Song, one verse of "Till We Meet Again." Mizpah Benediction.

WILL BE BIGGEST YEAR

SOUTH BEND, Ind., July 9.—Record sales and profits for the Studebaker corporation of America are forecast by President A. R. Erskine in a statement issued today, following a second quarter sales 49 per cent greater than the same quarter last year. "July's production and sales will exceed those of any previous July in the corporation's history, while results for the quarter will doubtless be 100 per cent above those of last year, he stated. "Sales of the second quarter just closed were 42,046 cars, against 28,152 in the same quarter last year, an increase of 49 per cent. April increased 23 per cent, May increased 41 per cent. June, 1925, increased 112 per cent over June of last year. After all charges and tax reserves, net profits for the quarter should exceed \$6,000,000. Record sales and profits are forecast this year by capacity operations which continue unchecked at all plants. The second quarter sales of 42,046 cars were 2,000 above the schedule that had been set for the quarter."

HARD SURFACING COLEMAN TO CROSS PLAINS HIGHWAY

RISEING STAR, July 11.—Four car loads of gravel have arrived and are now being unloaded and placed along the edge of fstate highway No. 23 leading from Rising Star to Coleman which will be used in the asphaltting of this pike which is to begin in the near future. Gravel to be placed between Cross Plains and Coleman will be unloaded at Cross Plains and Coleman. Supervisor M. C. Robertson, of this section, stated that he had not been informed just

when the asphaltting would be started but understood that it was to be finished about Sept. 1, and would be begun immediately after the completion of the placing of the material on the ground.

Don't Burn Up Your Battery

WHEN your battery overheats it is on the road to a repair bill. Our service helps to prevent overheating. We replace the evaporation—and keep connections, grounds and hold-downs tight for you. Drop in and let us tell you how to avoid overcharging which heats your battery up.

Cross Cut Secured Three Good Oil Wells During the Week--Streets of Little City Throng With Oil Men

CROSS PLAINS, July 11.—While one big producer and two smaller wells are the features of this week's activities in the Cross Cut field, the center of interest is the exclusive wild cat play in this vicinity.

The largest well of this week is the property of the Prairie Oil & Gas company, on the G. B. Gaines tract. Drilling in this well touched the sand at approximately 1280 feet and responded with a showing for light production Monday. It was drilled in a few feet of sand Tuesday and is now flowing by heads. No test gauge has been taken but report places production at 150 barrels per day.

B. D. Dozier et al drilled in their W. A. Prater No. 5 Tuesday for a 30 barrel producer, in the old discovery field. The Canyon Oil & Gas Co. shot their No. 2 Elsberry, in the west part of the field, early in the week. This well was the first drilled in that part of the field and production had dropped off to a negligible quantity. It is now flowing at approximately 30 barrels, from a depth of 2388 feet.

H. H. Adams is rigging up for a deep test well on the J. W. Newton tract 1 1/2 miles west of the town of Cross Cut. This is absolutely new territory so far as oil activities are concerned, and this well is arousing much interest. A great deal of wild-cat play is going on in other parts of the field, which show a marked trend toward the southeast part.

Crandall & Reynolds have made a location on the Willis-Stone tract, about 1 1/2 miles southeast of the town of Cross Cut, and J. H. Hughes et al are making a location on the S. J. Moore tract, adjoining the Willis-Stone tract on the east.

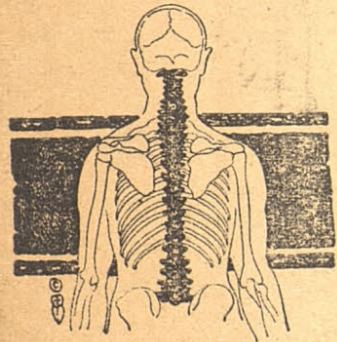

Gilman et al have skidded a Standard rig to their No. 5 Teston and are drilling at 500 feet, and Root & Highers are spudding in on their No. 9 W. A. Prater, in the old discovery field. Moore & Wilson are moving in a rig on their No. 3 Gafford, and B. H. Hughes is drilling at 820 feet on the Byrd No. 2. The No. 1 deep test on the Armstrong tract, property of the Prairie Oil & Gas Co., is on the Pioneer sand at 2400 feet. This well is located in the extreme northeast part of the field. The Prairie company missed the pay in their No. 11 J. W. Newton.

A great amount of leasing and trading is going on in this field, and crowds of oil hunters throng the street of Cross Cut, which is rapidly assuming the appearance of a real boom town.

Just south of Cross Plains, on the townsite well, M. E. Wakefield et al are drilling on the sand at 1380 feet. Activities in the shallow field, three miles from Cross Plains received an impetus this week by the bringing in of three good wells. Fox & Adams brought in two wells on the Watson tract, one late last week and one early this week, each good for 50 barrels per day. M. E. Wakefield et al drilled in their No. 6 Key Wednesday, with a resultant production of 50 barrels per day. The Canyon Oil & Gas Co. is drilling at 200 feet on their Harris No. 2 and are drilling at 2770 on their No. 1 Harris deep test in the vicinity of the Echo store.

Crabb & McNeal and Tom Bryant and the Crowell Oil Co., are setting 15 1/2 inch pipe in their deep test Harris No. 1.

WALKER-CALDWELL OIL CO. PAYS 5 PERCENT DIVIDEND FORT WORTH, July 9.—A dividend of five per cent, amounting to \$30,000 on a capital stock of \$1,200,000, was declared by the stockholders of the Walker-Caldwell Production company, in the regular annual meeting which was held at the Texas hotel in Fort Worth Monday. The company was shown to be on a fine operating basis, free from debt, and with a steady production. Future operations of the company will be in accordance with conservative policy and along the most approved lines, it was decided. A total of 92 per cent in dividends, amounting to around \$1,100,000, has been paid back to stockholders since the organization of the company in 1920, reports show.

SEVERAL HURT IN ABILENE'S \$225,000 BLAZE

ABILENE, July 11.—Two fires which destroyed the Fulwiler building on Walnut street, and a frame residence on Cypress street belonging to Comper and Comper, caused property damage of more than \$225,000 and injury to at least five men, here late Thursday.

Fire, which was discovered at 6:55 p. m., destroyed the three-story brick building at 133-143 Walnut street occupied by Swift & Co., J. D. Moore Transfer and Warehouse Co., the West Texas Real Estate Co., and a large stock of automobiles belonging to the Fulwiler Motor Co. Firemen fought the blaze for four hours before it was brought under control.

Cecil Armstrong, mechanic, received four large scalp wounds, one of which slightly cut the skull and sustained other cuts and burns from flying brick and glass. Ray Roe, another fireman, was knocked temporarily unconscious when a ceiling collapsed. Several men not members of the fire department received bad cuts and bruises. One man had his thumb almost severed. Several were partially overcome with smoke.

Fire, which was discovered at 6:55 p. m., destroyed the three-story brick building at 133-143 Walnut street occupied by Swift & Co., J. D. Moore Transfer and Warehouse Co., the West Texas Real Estate Co., and a large stock of automobiles belonging to the Fulwiler Motor Co. Firemen fought the blaze for four hours before it was brought under control.

FLORISTS VOTE GALVESTON 1926 MEETING PLACE

J. B. Ely, Cisco florist, who attended the Texas State Florists convention at Brownwood just closed, has returned home. Mr. Ely stated Cisco was a close second in the vote for the 1926 convention city, though Galveston was selected after a strong fight for Cisco, which polled a heavy vote. "The principal reason for the convention's action Cisco was practically in the same district as Brownwood, and the delegates wanted to meet in a city more remote from the convention city this year. Then Galveston had placed a life-sized oil painting in the convention hall,

showing a bathing beauty on the cool beach, inviting the convention to Galveston. The excessively hot weather and this picture was too much, hence the stampede for Galveston. Cisco is promised a serious hearing in the future.

"The most important work of the convention was done along the line of trying to keep down prices on flowers at holidays. Wholesale growers from Chicago, Denver, Dallas and Fort Worth and other places told of the added costs of growing a large crop of flowers for one special occasion, over that of producing an even crop that is marketed regularly as it is developed. Retailers told of extra cost of advertising and preparing for holiday business, and of buying flowers in distant markets, and the great losses in transportation.

"Could the general public have heard these papers and talks, concerning the great losses, incident to uncertainty in weather conditions, unsold stock, evergrowing insect pests, increased wages, etc., it would do much to correct the erroneous impression that florists are a bunch of heartless profiteers.

"The Texas State Florists association passed resolutions endorsing the decision of the American Florists association and other large organizations to spend a million dollars in propaganda to educate the American flower buyers in the real facts concerning flower production and cost."

JAMES M'CAMNEY DRILLING AGAIN IN EASTLAND CO.

RISING STAR, July 11.—C. G. Shults and Mack Anderson have let contracts for two new wells, both in new territory and wildcat ventures. The first well to be started will be on the Williams tract two miles southeast of the big gasser brought in by Delaney a few weeks ago. This well is to be drilled by Jas. McCamey, who has placed material on the ground and will be at work within ten days. The second of the wells is to be on a lease pooled by W. N. Favor, Bob Stuart and Chas. Hubbard and will likely be about one-fourth mile southwest of the Blake church. This well is to be drilled by

W. W. McDonald of Dallas, and will also be started immediately. In discussing the projects both Messrs. Anderson and Shults appeared very optimistic and stated that Waldo Bradstreet, recognized as an authority on the formations of this section, had carefully geologized and mapped the leases and had made a very favorable report. Mr. Bradstreet brought in the first producing well in this vicinity and is said to know more about oil in this section than any man who ever worked here.

Messrs. Anderson and Shults are working out another location and stated yesterday that they expected to be able to give complete details within a few days.

Hall's Catarrh Medicine will do what you need for Catarrh or Deafness caused by Catarrh.

Mother Needs This Relief from the Great Weekly Burden

THERE are plenty of responsibilities left for Mother without the strain and fatigue of an old-fashioned washday coming around every week. Besides the physical saving—there is also the great saving of clothes and of time. You can't very well make progress in the home nowadays, without a good washing machine—and the best one to buy from every viewpoint is a

FEDERAL ELECTRIC WASHER

Make Mother happier with this coveted household economy—the cheapest use of electric current—costing on the average

25c per month to operate washer

After making small first payment, the remainder may be charged on your monthly light bill to your convenience.

Your Federal will serve you faithfully for 20 years or more—an investment worth while.

West Texas Utilities Company

Mothers Are the Natural Enforcers of Laws Says Mrs. Wallace Reid— She Gives Fathers Some Pointers

"Who enforces the law in your family?" asks Mrs. Wallace Reid, producer of "Broken Laws," now at the Broadway theater.

And then she proceeds to answer her own question.

"Isn't it mother? You just bet it is. That's the reason I am stressing the mother angle in "Broken Laws."

Mrs. Reid, a mother herself, has some original ideas on this subject.

"Any time mother fails in enforcing the laws of the home, or deals in suspended sentence, the government breaks down." Since I decided to make a picture on law observance in the home I have naturally read many articles on the subject. People began to send them to me and I collected several hundred, proving that it is one subject of universal interest. In many of these articles I found that woman was held responsible for either making or breaking the laws. One police official has gone so far as to say that there is a woman in every case of sustained criminal intent, especially among the youthful criminals who are so much in evidence today.

"I do not believe this, but I do believe that a great many women encourage criminal tendency in youth through neglect to enforce home laws. Once a child recognizes authority and the rights of others in the home he will recognize them on the outside. Mother Love is a difficult thing to deal with because it is the greatest thing in the world. A mother will give her life for her child. She will suffer poverty, hunger and physical pain to spare that child a single moment of grief or suffering after the harm has been done, but she rarely sees the danger soon enough to forestall it. If we begin early enough—and babyhood is not too early—we can save our children and ourselves much of the pain that Mother Love, inclined to indulgence, brings upon us.

"If 'Broken Laws' shows this in even the slightest degree I shall feel that I have succeeded. It isn't for mothers only. It is a picture for fathers as well. Fathers may be the law-makers in the home, but it is up to the mothers to enforce the law, and the children are going to like 'Broken Laws,' too, I hope, because, you see, I've kept them in mind all the time.

"I have made the picture for the world to see. It isn't simply a dry preachment, but it is an entertaining

drama, full of life and action, and I hope that it will not only amuse and entertain, but that the world will be a little better because of it."

CLEBURNE LEGION POST TO PLAY THURBER SUNDAY

THURBER, July 8.—The Cleburne American legion baseball team will play the Thurber team here Sunday. The locals played this team a short while ago at Cleburne and beat them by a score of 4 to 2, which they won in the ninth inning by scoring two runs. The Cleburne team have won the majority of games played this season and have an exceptionally fast combination of professional and college players. They are coming to Thurber for their first time and are determined to win. They will be fast company for the locals and will be hard to beat.

TURKEY CROP GOOD

BROWNWOOD, July 9.—The turkey crop of Brown county is reported as being fine, the birds are more numerous and in better condition than they were at this time last year. One woman residing in the country five miles from Brownwood has 168 turkeys which will come to the market in fine shape and for which she hopes to get not less than \$3.50 each.

SAN SABA STAMPS OUT GRASSHOPPER

SAN SABA, July 9.—The grasshopper situation is well under control in San Saba county, according to County Agent F. R. Brison. While they are still doing some damage and some poisoning is still being done by farmers, the cotton growers of this county began early and made a timely fight on the pest that has been far reaching in the way of combating the hopper depredations this season. Rain is needed on the cot-

ton crop in San Saba county, while the plant is holding up well, a good rain would mean thousands of dollars to the farmers of the county.

PIONEERS TO MEET IN TAYLOR COUNTY

BUFFALO GAP, July 9.—More than half a thousand old settlers of Taylor county will hold their annual reunion here July 17. All persons who reside in Taylor county prior to 1900 are eligible for membership in the Taylor County

Old Settlers association, now having 400 members. G. M. Hunt, Bradshaw, is president, and Fred Jones, Tuscola, secretary. Buffalo Gap, reunion ground, is probably the oldest town in West Texas. It was in early days a buffalo slaughtering station and later became the county seat of Taylor county, which it subsequently lost

to Abilene. It is a very picturesque mountain hamlet.

MASONS OF RISING STAR INSTALL OFFICERS ELECT

RISING STAR, July 11.—At the last regular monthly meeting of Rising Star lodge A. F. & A. M., the newly elected officers of the lodge were installed. Those who will fill

the chairs for the ensuing Mason year are E. E. Bryant, W. M.; E. Howard, S. W.; J. T. Wood, J. Frank Robertson, secretary; D. W. Patterson, treasurer; M. G. Robinson, tiler; G. B. Jones, S. D.; G. Williams, J. D.

Now-a One-Profit Car in the Quality Field

STUDEBAKER has achieved one-profit manufacture in the quality field. This marks a new era in the automobile industry. Studebaker's achievement eliminates unnecessary profits running up to \$500 on a single car. It banishes double overhead. It results in quantity production of quality cars. It vitally affects pricing by establishing a new criterion of value in the fine car field.

TWENTY-FIVE years ago practically all "manufacturers" of automobiles were nothing more than assemblers. They purchased motors, bodies, tops, axles, etc., from parts makers who were the manufacturers in reality. On this basis it was easy to become an automobile "manufacturer," and more than five hundred makes of automobiles have had their day in the American market and disappeared. They are represented only by "orphan cars" with practically no resale value.

Why Studebaker is the "one-profit" car
There are more than 60 makes of passenger cars built in the United States, but very few are manufactured complete in the plants of the producers who sell them.
Only 42 build all their own motors—and one of the 42 is Studebaker.
Of the 42 which claim to make their own motors only 14 make the iron castings, stampings and forgings which go into their motors—and one of the 14 is Studebaker.
Only 5 make all their own bodies and one of the 5 is Studebaker.
Only 2 make all their own motors, bodies, clutches, springs, axles, gear sets, differentials and steering gear. One of these 2 is Studebaker and the other is Ford.

serve transportation, into every car—yet keep down the price to you.

This sound manufacturing principle not only holds down price, but it insures a better car regardless of price. The car is not a patchwork, but a unit.

Last year at the New York and Chicago automobile shows four well-known automobile manufacturers exhibited coaches mounted on the same body—a body made from the identical dies, jigs and fixtures. Certainly these manufacturers must have sacrificed engineering advantages in chassis construction to accommodate this "standardized" coach body built by an outside supplier.

Contrast this with Studebaker, where the entire car is designed and built as a unit—and engineered complete. This construction means (1) longer life—(2) greater comfort in riding—(3) greater freedom from repair expense—(4) greater resale value.

With the advent of this one-profit one-overhead plan of motor car manufacture, it is folly today to buy a car by the same comparisons you used yesterday. Today you must measure all cars with this "one-profit" Studebaker.

Notwithstanding this writing on the wall many manufacturers still assemble their product, piling profit upon profit for the ultimate purchaser to pay. Each profit which a maker pays to a body builder or parts supplier enters into his costs just as though he had spent the money for steel or plate glass or upholstery. Although it represents no value he not only passes it on to the purchaser but figures his own profit on top of it.

The Ford is a one-profit car and reigns supreme in its field.

In the fine car field Studebaker—and Studebaker alone—now offers the American public one-profit values.

During the past seven years, when demand exceeded supply, Studebaker has been plowing earnings back into plants and machinery until we are now able to make this announcement.

Foundries, stamping mills, machine shops, are now complete. As final links in the chain of one-profit production, the enormous Studebaker body plants have been operating for months at peak capacity. Resources totaling one hundred million dollars are concentrated on the production of this one-profit car.

No other individual manufacturer in the world (except Ford) possesses such facilities for the complete manufacture of automobiles.

That is why Studebaker is able to put finer steel, finer wood, finer upholstery, better workmanship, hundreds of thousands of miles of re-

One-fourth of all American passenger cars built today belong in the fine car field—a total of 57 different makes selling above one thousand dollars.

There are 21 Studebaker body styles available on three different chassis. The Standard Six Models, 113-inch wheelbase, 50 h.p. engine, \$1125 to \$1600 f.o.b. factory. The Special Six Models, 120-inch wheelbase, 65 h.p. engine, \$1450 to \$2120 f.o.b. factory. And the Big Six Models, 127-inch wheelbase, 75 h.p. engine, \$1875 to \$2650 f.o.b. factory.

And you may buy your Studebaker today with the assurance that it will not be arbitrarily stigmatized by any act of ours as a "last year's model." Instead of spectacular annual announcements of "new yearly models," Studebaker has adopted the policy of keeping its cars up-to-date in body styles and chassis design every day in the year. Therefore, buy your Studebaker now!

POULTRY RAISERS FIND THAT INFERTILE EGGS PAY THE BEST

Fertile Eggs Not Wanted at 20 Cents While Association Stamped Guaranteed Infertile Eggs in Demand at 30 Cents

"Poultry people are alive to the importance of producing infertile eggs for the market," said W. S. Jarrett, sales manager of the Bankhead Marketing association. "The difference in the value of fertile and infertile eggs is a daily demonstration with the association. We find no trouble in disposing of every association egg at 35 cents per dozen, while fertile eggs are hard to get rid of at 20 cents. Infertile eggs are in demand, and all dealers, as well as the public in general—the consumers—are demanding association stamped infertile eggs."

"During the past week I picked up two cases of fertile eggs from a poultry farm that had not taken the roosters off the yard. There were forty-seven roosters running with the hens. Out of these two cases of thirty dozen each, sixteen dozen were bad eggs, which I refused to accept. Producers are seeing the folly of leaving the roosters to run on the yard until this late in the season and a very expensive proposition. First, the roosters have to be fed, and this alone will consume more than their value; second, fertile eggs are a drug on the market, and only worth a little over half the price of infertile eggs when a market is found, and third, about one-fourth are bad, and a total loss. I believe next season the roosters will be taken off the yards universally among members of the marketing association."

"Yes, the association handles fertile eggs, but they are sold as fertile eggs. We are fast building up a reputation in the infertile eggs we place on the market. Every egg is guaranteed by the producer, and the association guarantees every infertile egg sold. We do not stamp fertile eggs, and sell them only as fertile. These are not guaranteed, as fertile eggs remain sound only for a short time."

The quality of the eggs sold through the association has held up the price around \$10.50 per case. Occasionally there is a sluggish market and the prices lag a little, but it is only for a few days, and is usually occasioned by somebody shipping in a consignment of those 20-cent eggs. Usually one shipment is enough, for after he has made good the bad eggs, he finds that these supposedly cheaper eggs have cost him more than association stamped infertile eggs at 35 cents.

"I look for the price to remain around \$10.50 per case, and perhaps higher, but the present high prices are due to organization of the marketing association, and demonstrates the success of co-operative marketing. Without this organized co-operation eggs would have been selling in the Eastland county towns today for 15 cents per dozen."

R. H. Bush, county agent, who acts in an advisory capacity with the Bankhead Marketing association, was here Saturday and stated that the marketing association had now passed the experimental stage. "I find that the poultry people all over the county, are highly pleased with the results so far obtained. The only fellows I hear kicking are the consumers. Their only objection to the association is the high prices they have to pay, but when I tell them they can still buy the fertile eggs—like those they formerly handled before the association was organized—at 20 cents per dozen, they say they can't handle them. Their customers don't want the fertile eggs any more. This is natural, as most of the housewives know the difference in the value of fertile and infertile eggs. The Eastland County Women's Confederated clubs have endorsed the Bankhead Marketing association, and they advise housewives all over the county to de-

mand association stamped infertile eggs. "But the Women's Confederated clubs are doing more than this to push the poultry products movement in Eastland county for more and better poultry. They are assisting financially through their club work. Three boys club members have been furnished 1,000 baby chicks by the federation, and these are thriving. The federated club women are helping to create a demand for poultry products by demanding association stamped infertile eggs."

"I believe the Eastland County Poultry Raisers, and the Bankhead Marketing association are movements that in a short while will be the biggest institutions in this part of the state. But we must have more land available on which to start poultry ranches. It seems to me that this is a work for the several chambers of commerce of the county to handle. Each of the towns in the county should have options on several hundred acres that would be available for poultry ranches when parties come here to engage in the business. We should not wait until these new comers get here, but have the land available for them before hand, and when they arrive take them out and show them. If this was done the output would be more than doubled another year."

REVIVAL AT 12TH STREET CHURCH CLOSING 11 TODAY

Pastor J. W. Leggett, of the Twelfth street Methodist church, says the protracted meeting in progress there will close with the services at 11 o'clock this morning.

"The interest manifested and the number of conversions have been very gratifying," Mr. Leggett stated.

"During this revival twenty-eight have been converted up to the services Friday night. Large congregations have attended nearly all of the services, and much interest has been shown in the meetings, especially the song services conducted by Rev. and Mrs. T. H. Martin. I feel that this feature has worked a great good, as more interest has been manifested by the congregation in the singing than is usually the case with revivals. This is especially noticeable among the younger people. The junior choir organized by Rev. and Mrs. Martin has steadily grown in numbers, and their influence in this direction will add materially to the services in the future. At the choir service Friday night there were 111 present in the junior choir. This work among the

young people is a demonstration of the efficiency of these song leaders in the gospel work."

With the closing of the revival here this morning Rev. J. W. Leggett and Rev. and Mrs. E. H. Martin will go to Olden this evening, where the

initial service of a new revival at that place will be held.

"BROKEN LAWS"

With the Following Remarkable Cast

Percy Marmont
Jacqueline Saunders
Ramsey Wallace
Pat Moore
Arthur Rankin
Virginia Lee Corbin
Jane Wray

Her boy could do no wrong! Petting, coddling, indulging, she brought him up that way. But when she found him behind bars—when she threw herself weeping on the judge's bench in the great Court Room scene, she knew that hers had been a terrible mistake!

Careless mothers — thoughtful mothers — indulgent mothers — loving mothers — jazz-mad mothers — freestyle mothers — mothers of men — "Broken Laws" will give you pause to think and at the same time furnish the greatest evening's entertainment you have ever had!

HERE is a picture that will wind itself around your heart and make you feel and think as a picture has never made you feel and think before! You think you have seen the "Last Word" in strong drama and human, vivid characterization, but you haven't—*not until you've seen this picture!* It reveals the jazz-made age as it has never been revealed—it shows the youth of the country in its wild striving after new sensations—and it tells the most beautiful story of mother love ever told! It's the biggest picture sensation of the decade and every man, woman and child in the country should see it!

Time of Shows 1:00, 3:00, 5:00, 7:00, 9:00

daughter, Miss Jouridine, spent Friday in Breckenridge with Mrs. H. N. Pardee.

Mr. and Mrs. O. R. Smart and Mrs. Smart's mother, Mrs. Harris, left Saturday for Wichita Falls, where they will spend the week end.

A. J. Olson has returned from a business trip to Colorado City.

Mrs. J. R. Almond of Humboldt has as her guest, her mother, Mrs. J. J. Conner of Austin.

Messrs. Dick Fisher of Los Angeles, Cal., and Monte Claire of San Diego, Cal., enroute to New York, are spending several days in Cisco as the guests of Edward Mancill.

Mr. and Mrs. O. J. Russell and family are spending today in Baid with Mr. Russell's parents, Judge and Mrs. B. L. Russell.

Mrs. Frank Logan had as her guest Thursday, Mrs. Wesley Beard of Dallas, formerly Miss Mae Claire Herrison of Eastland.

Mr. and Mrs. J. E. McDermitt of Abilene are the week end guests of Mr. and Mrs. F. H. Petty.

Mrs. Morris Simon and daughter, little Miss Louise, have returned from Waco, where Mrs. Simon has been attending the bedside of her sister. On the return Miss Louise was accompanied by her cousin, little Miss Regina Leah Auerbach of Waco, who will be her guest for some time.

Miss Idalia Allen returned to her home in Moran Saturday after a week's visit to Mr. and Mrs. Zed Kilburn.

Daily News want ads pay.

GRASSHOPPERS FAIL IN BROWN COUNTY

BROWNWOOD, July 11.—Grasshoppers have done no damage in Brown county so far, according to reports. In some localities a few of the insects have been reported, but not as yet in alarming numbers.

COTTON IS BLOOMING IN TAHOKA SECTION

TAHOKA, July 11.—Cotton over this section is blooming and growing at a rapid rate. This county has the largest cotton crop that has ever been planted here. Present indications point to the largest yield that has ever been made. This not only applies to the increase in acreage, but also to the yield per acre. Much land that was devoted to ranches a few years back is now in cotton. These ranches have been subdivided and partly settled, while new farms are being sold from them every week. New gins have been built in most of the rural communities with the addition of several more in each town of this county.

Evening
"I never think of evening, Of the girls that go a-milking, Of the girls that go a-milking, Where the slender birches grow; That my mind turns not to splendor To a seeming glory tender, As a lane where soft lavender Grows, row on perfumed row."

SOCIAL CALENDAR
Monday—The Blue Bonnet club will meet with Mrs. W. J. Armstrong at 3 p. m.
Tuesday—Circle 1 of the Presbyterian auxiliary will meet at 9 a. m. with Mrs. George H. Wells, 1002 West Tenth street.
Circle 4 of the Presbyterian auxiliary will meet at 4 p. m. with Mrs. O. C. Cope, cottage 3, Humboldt.
Circle 2 of the Presbyterian auxiliary will meet at 4 p. m. with Mrs. T. C. Hitchcock, cottage 8, Humboldt.

Friday—The Humble Bridge club will meet at 2:30 p. m. with Mrs. W. W. Wallace.

Blue Bonnet Club
The Blue Bonnet Bridge club met Monday afternoon at the home of Mrs. W. W. Wallace. Zenias and nasturtiums in yellow and orchid shades were effectively used for decorations and gave added beauty to the reception suite. In the several interesting games of bridge played, Mrs. W. K. Esgon made high score. Fruit ice and angel food cake were served terminating the games. Those present were Mesdames J. H. Moyer, W. J. Armstrong, E. C. Hitchcock, G. C. Hanson, J. P. Flynn, F. H. Stedman, O. T. Maxwell, Henry Benham, J. R. Almond, W. K. Esgon, J. N. Sloan, Bridges, J. J. Connor of Austin.

Mr. and Mrs. Don Sivalls spent Friday evening in Ranger with Mr. Sivalls' parents, Mr. and Mrs. J. T. Sivalls.

Mr. and Mrs. J. W. Byrne and children of Austin, formerly of Cisco, are guests of Mr. and Mrs. J. J. Collins.

Dr. and Mrs. Chas. C. Richardson of Eastland left this week for their new home in Dallas.

Mr. and Mrs. G. C. Richardson and Mr. and Mrs. Frank Harrell spent Friday evening in Abilene.

Mrs. John Neel and daughter, Miss Liburn, and her sister, Mrs. W. E. Mercer of Fort Worth, are leaving tomorrow for Fort Worth, where Mrs. Neel and daughter will spend the summer.

Miss Maurine Shelton returned today from a visit with relatives in Fort Worth.

Mr. and Mrs. Frank Bates of Wichita Falls have arrived in the city to spend the summer here. They have leased the John Neel home for the summer.

Mr. and Mrs. F. M. Shelton of Abilene left this morning by motor for Denver, Colo. They were accompanied by Mrs. W. C. Shelton.

John Kelly of Breckenridge was a business visitor in Cisco Friday.

Miss La Velle McMath and Elliott McMath left Saturday for their home in Fort Worth after a short visit in Cisco with Mr. and Mrs. J. E. McCord.

Messrs. George Buck Park and Lynn Hooker of Carthage, Texas, enroute to Mineral Wells, spent a few hours in the city Thursday, as the guests of Mr. and Mrs. P. W. Campbell.

Mr. and Mrs. Ray Godfrey and Miss Hester Tune have returned from a visit with relatives in Swinson.

Mrs. Forrest Wright and son, Billie Butts, and Miss Mary Jane Butts are leaving Monday for an extended stay in Boulder, Colo.

Mr. and Mrs. Minter Womack and daughters and Mrs. Silliman Evans of Fort Worth left Friday for Fort Worth. After spending a few days there on business, Mr. Womack will return to Cisco. Mrs. Womack will go to Ennis for a two weeks' visit with relatives and Mrs. Evans will visit in Austin.

Mr. and Mrs. John Sherrin and baby have returned from a short visit in Dallas.

Mrs. Victor Anderson and son, Victor, Jr., and daughter, Miss Helen, of El Paso arrived in the city yesterday for a visit with Mrs. L. H. McCrea.

Mr. and Mrs. Clarence Tune and daughter, Marie, have returned from a visit in San Antonio and Austin. They were accompanied home by Miss Marie Judia of Waco.

Mrs. Annie Carradine of Memphis, Tenn., who has been visiting relatives in the city, left yesterday for a visit in Abilene with Mesdames Elizabeth and Thomas Brownlee.

Leonard Simon and daughters, Julia Lee and Mary Ann, left last night for a week end visit with Mr. Simon's mother, Mrs. Anna H. Simon of Colorado City.

Mrs. E. C. Hitchcock and daughter, Miss Helen, Mrs. W. W. Wallace and Mrs. W. J. Armstrong and

Pleasant Dealings—A Feature We Like to Advertise.

The Big July Clearance Sale

Is Going Strong!

Attended by the huge crowds characteristic of the opening of a Garner sale, the July Clearance is rushing merrily along furnishing good values to customers from all over Cisco's trade territory. People know that a Garner sale means a store full of dependable goods at real reductions. Better get your shopping done soon. Sale closes next Saturday, July 18th.

MONDAY
FREE FOOT COMFORT DEMONSTRATION

We will have in the store Monday as an added attraction, a foot comfort expert from Chicago who will examine your feet, make a free photograph or "pedograph" of them, and prescribe the proper remedy for any foot trouble you may have. In addition samples of Dr. Scholl's Zino Compads will be distributed free of charge.

DON'T MISS IT!
