IN U.S. SENATE

WASHINGTON, Oct. 18.—Three senators demanded Saturday that the United States adopt a hardfisted policy toward Japan in what they viewed as an explosive situation in the Far East.

Senators Norris of Nebraska, Pepper of Florida and Gillette of lowa outlined their views on the subject to reporters after navy de partment officials here disclosed that some American merchant ships, presumably in Oriental waters, had been ordered to port for instructions.

"We can't appease Japan any more than we can appease Hitler, said the veteran Senator Norris If Japan wants to attack us, she will atttack, All she is waiting for on the winning side."

Pepper said that the "only way o deal with them is to draw line and warn them that if they cross it there will be shooting. We front the Red army reshould let Japan know that we have certain interests we will maintain even if they meet resist ance and that the only way to ge along with us is a clear-cut and definite understanding."

Gillette said he viewed the navy COW. nnouncement about merchan hip orders as an indication that administration officials "have be ome pretty discouraged abou our efforts to reach an undertanding with Japan."

The burst of senatorial comment came after published stories that American and British ships in the First Methodist Sunday school the Far East had been ordered to Russians claiming the ports for instructions.

Man Wins Race With Train; Saves Scores From Fatal Crash

THREE people imprisoned in a wrecked automobile, and possibly a trainload of sleeping passengers, were saved from sudden death by the prompt action of John Giles, of Frayser, Tenn.

Giles was in his home, not far from the rail line, when he was awakened late at night by a series of loud crashes. The sounds seemed to come from the direction of the railroad cutoff below the Frayser station.

Stopping only to pull on trou-sers and shoes and get his flash-light, Giles ran toward the cutoff. There he found that an automobile had gone through a wooden viaduct. It had plunged down some sixty feet on to the tracks and lay across the rails with its three unconscious occupants inside. The impact had jammed the metal doors and made it impos-Sible to extricate the three people.

Knowing that the night express was due any minute, Giles started running down the tracks. "I could just picture that trainload of passengers crashing into that wrecked car," he said. "And then

I heard the train whistle.

Above, Air Corps Flying Cadets at Randolph Field, Texas, are shown by an instructor (kneeling) how the line of flight of a diving plane controls the bomb's aim. Here, dummy planes, a toy ship and a piece of string suffice. Later, at advanced training schools, the embryo pilots will try the real thing as their ships speed over a target area. Mr. and Mrs. Simon W. Coplin, epresenting the Pearl beer distributorship of this city, attended the San Antonio Brewing association's annual distributors' meetng and 56th birthday party, in San Antonio, yesterday.

The advertising, merchandising and production plans for 1942 were outlined by B. B. McGimsey, vice president and general manager; H. B. (Pat) O'Brien, sales manager; Otto A. Koehler, vice president in charge of production and Jack N. Pitluk of the Pitluk Advertising company.

Week for week, month for month during the first nine and one-half months of 1941 the sales for Pearl beer were the greatest, by season comparison, in the brewery's 55 years' history, according to Messrs. McGimsey, O'Brien and Koehler.

Plans for increased production, bottling and distribution have peen authorized for 1942 to take care of the persistent increasing demand for Pearl beer. Today as every day, during the current year, more people than ever before in the brewery's history are saying, "Bottle of Pearl, Please." While the distributors were be-
