Home Town Gossip.

Johnny: course you couldn't be here day afternoon, for you were an important job, upholding country's colors on the fight- fronts of war. But you would have been proud of your ol' home Johnny, if you could have seen the enthusiastic demon- stration of patriotism in a down town rally, the purpose of which to raise the communities quota fourth war loan campaign. Your parents and friends were hanging of you and your buddies, Johnny, I know they were, for when Master of ceremonies, a Major Camp Barkeley at Abilene, mention of the heroic service rendering, bond sales came fast that tabulators fell far- and. It had been expected that Plains would pour in around \$50,000, however, these were topped before things got into high gear. Final put sales at \$83,000 but the bank and post office report of the pledges are being in- creased and the total is expected even higher. folks back in your ol' home Johnny, are praying for the when victory will be won and can return to live among us, praying isn't all they're doing, they're doing everything in power to hasten the day of return, and the time of liber- ation for your buddies who are in the desolate pri- camps of Japanese and Germans. you would have thought that you at an old time camp meeting day afternoon, Johnny, if you have seen the tear stained eyes of hard nosed men, us 30 kids of servicemen were up to the speakers rostrum presented to the crowd. children had fighting dads on Italian, in Italy, New Guinea, Africa, England, in the air the seas, under the seas in subs, instant island outposts and in camps. As they were introduced, military band played softly: "My Johnny." It was really a dramatic out, Johnny, and if there had a Jap or Nazi around I be- lieve the crowd would have mobbed in nothing flat. sub, your little ol' home is doing its best in the war effort Johnny, and when you hear this talk about labor strikes, confidence and complacency, remember these conditions are true in the type of town you from. people back home realize Johnny, that their very best is being put forth in the war effort, the sacrifices you and the other American boys just like you are making every time the clock ticks past second, They'll keep right on doing everything their govern- ment asks. They're backing you everything they've got, Johnny; when the war's over and you're permitted to return to the ol' home walks of your own little town, they're planning a wel- come that will make your heart melt. Yes sub, that will be a good day, when you meet Bill and the others, whom you've not seen since you were kids at school, and the folks ol' home will be mighty happy to see you buddies swap experiences. Well that's about all there is to say about just now, Johnny, ex- cept to say when you chance to run across some of the other boys from ol' home town, we wish you would tell them that their parents, friends, sweethearts and friends back home are petitioning to Hen- derson that they will be safeguarded return again to the little commu- nity which misses them so much. Johnny's best of luck, Johnny, from the folks.

Yes Sir, Cottonwood Still On Map, And Doing Fine

Before you shed crocodile tears for the little community of Cottonwood, which some people will tell you is witing away, look at a few of the facts. Business in Cottonwood is exceptionally good, receipts at the post office are on the increase, new people have moved into the community within the last year. Cottonwood churches are all debt free. In fact one, the Cottonwood Baptist church, has a comparatively new building all paid for and a cash balance in the bank of nearly \$1,000 dollars. The congregation has grown to such an extent in recent months that the church is now full time instead of only half as heretofore. Other Cottonwood churches are likewise enjoying increased attendance and sound financial support.

County Judge B. H. Freedland acted as master of ceremonies. He presented County Attorney F. E. TRAFFIC ACCIDENTS DECREASED IN 1943

Traffic accidents killed fewer people in Texas in 1943 than in any year in recent history, State Police Homer Garrison announced today. The final count by the Department of Public Safety listed 1173 fatalities for the year, representing an 11 per cent reduction from the 1316 traffic deaths reported in the previous year.

Garrison expressed concern, however, over the fact that traffic fatalities now are on the increase. "The low point was reached in the summer," Garrison said. "Now the fatality rate is rising again, and it probably will continue to rise until a new peak is reached after the war. This peak probably will equal, if it does not exceed, the previous toll."

FSA SUPERVISOR SAYS IT IS TIME TO REPAIR ALL FARM MACHINERY

Wise farmers are checking their farm equipment in February so it will be ready to go in the spring. Nathan A. Waldrop, Farm Security Administration Supervisor in Calhoun and Shackelford counties, said recently in urging that especially should orders for needed repair parts be placed immediately.

"We are reminding FSA families to get their plows sharpened and tractors in condition now, rather than wait until they are ready to go to the fields with them," Mr. Waldrop said. "Also, now is the time for the farmer to put in necessary wooden parts in his equipment—cut and form the single and double trees he may need, and replace any broken ax or hoe handles."

In checking farm machinery, Mr. Waldrop suggests seeing if the planters are in good order or if the plates need adjusting to drop the seed evenly. "Just one day lost at planting time may mean the loss of essential moisture, and in turn loss of food for freedom," he emphasized.

Other February jobs on the farm should include checking the harnesses for needed repairs, and attention to the feeding of work stock so they will be strong and healthy enough for the spring labors. Now also is the time for ordering baby chicks and getting brooder houses in condition, for ordering seed for field and garden, and for repairing fences.

Leslie Bryant, County Clerk, of Baird, was a visitor in Cross Plains Saturday.

Mrs. Don Helberg and sons, of this place, and Fred Helberg, of Burkett, visited in the home of Mr. and Mrs. Raymond Smith near Coleman Saturday evening.

The story deal with a newspaper editor's chagrin when he has to take over the love column because he allows his sense of good news-story to run away with his better judgment. Brent plays the role of the editor and Brenda that of a sob-sister whose faint heart gets her into a similar predicament.

After some clever and amusing manipulations, they trap a group of racketeers and top one of the biggest scoops in their newspaper's history.

The production was directed by Jo Graham.

Rent Your Cold Storage Food Locker Now Only 160 Boxes Left

Why It Is Necessary To Rush Your Locker Rentals.

Why It Is Necessary To Pay In Advance

The War Production Board will issue priorities for only a limited number of this type locker plants to be built in the United States during 1944, so we must hurry, hurry, hurry. If you plan to get a frozen food locker box, you must be one of the first. We can not be assured enough to go around.

The War Production Board requires that 60 to 70 percent of these lockers be rented, with one year's rental placed in escrow accounts, for assurance that the lockers will be used and the service justified. This is a requirement that must be met.

How To Obtain Rentals On These Lockers

It is an impossibility to see or contact everyone who may wish to rent a locker. So we have worked out the following plan --- Either mail cash or checks to Ray Gilliam or Mrs. Hazel Chapman at the Coleman County State Bank, Coleman, Texas Your receipt will be attached to your check at the time it is placed in escrow, or if you desire it will be mailed direct to you.

Price And Size Of These Lockers

What is known as the drawer type locker which is approximately 24 inches wide, 18 inches high, and 30 inches deep, containing 7 and one half cubic feet of space will be \$15.00 per year. The door type locker, 24 inches wide, 15 inches high and 30 inches deep and containing 6 and one half cubic feet, will be \$12.00 per year.

This service will be optional: Killing of animals, chilling, cutting, aging, and preparing in desired sizes, wrapping and quick freezing, delivering to your locker; also, meat curing will be optional with reasonable service charge.

Location Of The Plant

This frozen food locker plant will be located in Coleman, Texas, at 310 Commercial Avenue in the building owned by Ray Gilliam and formerly occupied by Ray Gilliam Motor Co.

THEY'RE FIGHTING... ARE YOU BUYING?

The kid who lived next door... the girl up the street... Sister Sue's oldest boy... your son... they are doing the fighting in this war. And are doing it well. But YOU — you're the guy that has to do the buying. YOU are the only one who can decide how much EXTRA you should put into War Bonds as your part of the Fourth War Loan Drive. Remember, as you figure it out, that — Time to a soldier is a commodity of life and death. He cannot sell it or buy it. He cannot cash it in at the nearest bank. He has to endure it. Each day longer that a soldier must fight lessens his chance of survival. Your purchase of EXTRA War Bonds should shorten his fighting time. Modern warfare is often a question of logistics. Victory — men being equal — goes to the side which is best supplied and equipped. Your purchases of EXTRA War Bonds will give you more rights to insist that it be properly spent to equip those fighting for you. Yes, as you figure it out remember... They're doing the fighting — it's up to YOU to do the buying. Let's ALL BACK THE ATTACK!

BOOS' TOWN WITH SUCCESSFUL FIRMS SAYS PAINTER HERE

Take R. Blaine Jordan's word for it that nothing builds a successful town more substantially than scores of wide awake business concerns, right on their toes, working endlessly to attract business.

One of his best customers is the Community Public Service Company, which has been so pleased with his work that the Cross Plains painter is now favored with the business of painting their trucks and signs for their stores over a wide territory.

PRECAUTIONS SHOULD BE TAKEN TO AVOID SPREAD OF DISEASES

Dr. George W. Cox, State Health Officer, recently issued a warning to every victim of influenza, colds, or upper respiratory infections to be on guard against the possibility of spreading these diseases or a pneumococcus infection through coughing and sneezing.

"Persons who cough or sneeze without the proper use of a handkerchief will be very likely to be responsible for the spread of pneumonia. Placing a handkerchief over the mouth or nose when coughing or sneezing will help prevent the spread of infections," Dr. Cox said.

"The air is the medium through which influenza spreads. A person coughing or sneezing in an unventilated room where the air is stagnant and moist will almost certainly pass the infection on to others."

The increased prevalence of influenza is usually associated with an increased incidence of pneumonia. The sharp rise in the incidence of pneumonia in the past few weeks has demonstrated that influenza victims by coughing and sneezing

have almost certainly been responsible for the present large number of pneumonia cases reported, Dr. Cox stated.

"A person who is not suffering with pneumonia may still have the pneumonia germ in his throat or upper respiratory tract and can very easily pass the disease on to others. Considering the fact that pneumonia is a dangerous killer, especially in children and old people, every person should guard against spreading this infection among his fellow men," Dr. Cox declared.

CARD OF THANKS

I wish to convey my appreciation to members of the Cross Plains Volunteer Fire Department, neighbors and friends for the many services during the following the fire at my home last week. I was away at the time and have not had time to thank each of you personally, so please accept this installment on the debt of gratitude I owe.
