VOL. 5.

CROSS PLAINS, TEXAS, FRIDAY, AUGUST 7, 1914.

NO. 22

## LOCAL RAINS FALL

Monday Evening around the Dressy, Burnt Branch and Caddo Peak Communities a nice and much needed rain fell. West of Dressy quite a sprinkle of hail fell. It did but little damage, only slashing cotton up some, and covered but small territory. The picnic at Burkett also was interrupted by the rain.

Tuesday evening and Wednesday Morning local rains fell around Dressy, Burnt Branch, Caddo Peak and the Bayou country, giving a good season at these places. Henry Austin came from Coleman Tuesday and reports a three inch rain in places. Rain in Cross Plains has been very light.

R. M. McCoy of Pioneer was here Saturday and returned home a subscriber to the Review.

## JUDGE BLANTON THANKS SUPPORTERS

I am indeed grateful to the many good citizens of Cross Plains and Callahan County, for their loyal support, and I thank you with all my heart for same. I shall never forget you for it. Notwithstanding my opponent published and sent to every voter a statement from five of my personal enemies that out of 713 voters in Abilene, only 94 were for me, I nevertheless carried Abilene by 89 majority, and carried Taylor County by 434 majority, while my opponent beat me only 280 votes in his home County of Mitchell. The returns indicate that I carried more Counties than did my opponent. I have no ill will against those who did not support me, and expect in the future, as in the past, to devote my public life to the cause of progressive democracy and the rights of the Common People.

Sincerely, your friend,  
Thomas L. Blanton.

Homer Varner of Cottonwood was here Saturday. Homer is to teach at Rowden this winter

For "a braying fellow" one couple gave "burros", and thought they were certainly right, while "Jack Rose" was the correct answer.

Dessert consisting of ice cream and cake was served. Those present, all of whom attest to having spent a pleasant time, were: Misses Jones, Higginbotham, Scroggins, Correll, and Carter, and Messrs. Shackelford, McLaughlin, Erwin, and Henslee.

AUSTRIA DECLARES WAR ON SERBIA

PEOPLE LOOK TO ACT OF WAR WITH A FEELING OF RELIEF.

SHARP FIGHTING REPORTED

Prices on Provisions Goes to Such High Stage as to Cause Great Indignation Among Populace.

Vienna, Austria.—Austria-Hungary Tuesday declared war on Serbia.

The text of the declaration of war follows: "The royal government of Serbia not having replied in a satisfactory manner to the note submitted to it by the Austro-Hungarian minister in Belgrade on July 23, 1914, the imperial and royal government finds itself compelled to proceed itself to safeguard its rights and interests and to have recourse for this purpose to force of arms."

"Austria-Hungary considers itself from this moment in a state of war with Serbia."

The people in the dual monarchy look forward to war with Serbia with a feeling of relief.

High officials are optimistic that the war will be confined to these two countries. Certain knowledge that Russia would intervene, however, would not cause Austria to alter her course in the slightest.

Advices from Belgrade say the Serbian capital is now located at Nish where the Skupstina (national assembly) met. All Serbians between 18 and 60 years able to bear arms have been called out and mobilization is proceeding rapidly.

Sharp Fighting Reported.

The Militarische Rundschau reports sharp fighting along the river Drina, where Serbian volunteers, who attempted to cross, were opposed by Austrian frontier troops. It also reports that Serbians fired on their own river transpots by mistake, killing and wounding several Serbian soldiers.

The ministry of foreign affairs has addressed a verbal note to the foreign representatives informing them of the declaration of war and declaring that Austria will on the assumption of similar observations by Serbia adhere to the provisions of The Hague conference of Oct. 15, 1908, and the declaration of London of Feb. 26, 1909.

An abnormal rise in the price of provisions caused great indignation on the part of the public, who flocked to the markets to lay in stores. Vegetables in many cases tumbled in price. Peeling ran so high that in many instances stalkkeepers in the markets were mobbed and the police were called out to restore order.

Austria Prepares for Russian Attack. Nish, Serbia, via Saloniki.—Austria appears for the present to have abandoned her aggressive campaign in order to prepare for possible Russian attack. The bulk of the Austrian troops, who were concentrated at Semlin have been moved to an unknown destination. The few troops remaining conduct a desultory bombardment of Belgrade.

Wheat Makes New Record.

Chicago.—War rdn up wheat transactions Tuesday on the Chicago board of trade to a total of nearly 100,000,000 bushels and short prices skyward \$3.40 to \$3.60. No other day of the twentieth century has witnessed such wild trading here. Failures were momentarily expected, but none was announced. However, margins were being called for to such a wild degree that it seemed certain the volume of business would be greatly restricted.

SECURITIES MARKETS SUSPEND BUSINESS

NEW YORK, LAST GREAT MARKET OF THE WORLD, WAS UNABLE TO HOLD UP.

BARGAIN HUNTERS ARE OUT

Many Buying Orders Waited Opening, But It Was Feared There Were Not Enough to Hold Up Prices.

New York.—The vast and complex machinery of the securities market of the world came to a complete halt Friday for an indefinite period.

With all Europe seemingly on the verge of war, the continental exchanges closed several days ago, with the London market following suit.

The action closed the last great market of the world. All other American exchanges quickly followed suit.

On the floor of the exchange wildly excited brokers rushed back and forth shouting. In almost every brokerage house in the street there were crowds of men, some eager for the chance to buy stocks at low prices, others in dread of disaster should the market be opened.

The events of the morning gave prosaic Wall street one of its rare hours of pure drama. When word came that the London market had been closed uneasiness grew until it was realized that Wall street was face to face with a real crisis.

Record Year for Houston Oil Company Baltimore, Md.—The Maryland Trust company, as trustee, under the trust instruments of the Houston Oil company, disburse \$730,000 in payment of interest due August 1 on the outstanding second issue and new series timber certificates and in redemption of the outstanding balance of \$446,000 second issue certificates, series C, and in payment of \$100,000 of new series certificates called for redemption August 1.

Belgium is Making War Preparations. Brussels.—Military movements in Belgium are being pushed rapidly, following the decision of the Belgian cabinet to immediately call out three classes of the army reserves.

The First State bank of Swan has closed its doors. The Guarantee State bank of Tyler took over its business.

AMERICA ACTS PROMPTLY

Steps Taken to Assure Country Against Results of European Trouble.

Washington.—President Wilson and the administration acted promptly Friday to reassure the country against any threatening financial dangers growing out of the European war situation.

To make more easily accessible this emergency currency the senate, at Mr. McAdoo's suggestion, passed unanimously an amendment to the currency law modifying the clause providing that banks or national currency associations, to avail themselves of the issue, must have outstanding currency notes "secured by bonds of the United States to an amount not less than 40 per cent of its capital."

"Europe is in a crisis," said Senator Owen in presenting the measure. "Something should be done to prepare this country to meet any emergency that may arise."

MME. CAILLAUX IS ACQUITTED

Sensational Trial in Paris Ends With Wildest Excitement.

Paris.—Mme. Henrietta Caillaux was acquitted Tuesday night by a jury in the court of Assizes of the wilful murder on March 16 last of Gaston Calmette, editor of the Figaro.

Mme. Caillaux staggered and then threw her arms about the neck of her counsel, Fernand Labori. Her hair fell over her shoulders and her hat fell to the floor.

The din was deafening. Several groups of barristers came to blows and the Republican guards, trying to separate them, joined in the melee.

DEFENDS COLOMBIAN TREATY

Bryan Insists That Country Should Be Paid for Canal Territory.

Washington.—A second formal statement in defense of the proposed Colombian treaty has been issued by Secretary Bryan. Without mentioning Col. Roosevelt, Mr. Bryan replied to arguments advanced by the former president in his attacks on the administration's proposal to pay Columbia \$25,000,000 in settlement of claims growing out of the separation of Panama and the acquisition of the canal zone by the United States.

Reiterating his declaration that in considering the treaty it is not necessary to examine into the merits of the controversy over the action of the United States in 1903, the secretary urged that even if the United States, in acquiring the canal zone, was exercising a right of eminent domain, it was not relieved of liability for actual damages resulting to Columbia.

Col. Roosevelt recently asked the senate foreign relations committee to hear a statement from him before reporting the pending treaty. Chairman Stone replied that if the committee decided to pass upon the convention at this session it would be glad to hear from the colonel, but the general understanding is that the matter will go over until December.

Wheat Prices Fall After Big Advance

Chicago.—Contrary to previous experiences, wheat prices in the final dealings here Thursday were driven not up but down by prospects that the Austro-Serbian war would spread. After a rise of 9c a bushel values shrank as much as 3c in 30 minutes, largely on account of assertions that the bulk of the surplus crop, instead of being rushed to Europe, might be held in this country as a result of general war disrupting all ocean trade.

Cape Cod Canal Opened

Buzzards Bay, Mass.—The Cape Cod canal, connecting Buzzards Bay and Cape Cod Bay and shortening by 70 miles the water route between Boston and New York has been formally opened to commerce.

Basis of Peace Agreed Upon

Washington.—Gen. Carranza and Provisional President Carranza have agreed on a basis for the arrangement of peace in Mexico, according to a message received here.

Expense Account Shows That Total of \$8,662.34 Was Expended.

Dallas, Texas.—Showing the unusually small total expense of \$8,662.34, exclusive of personal expenses of the candidate himself, A. W. Walker, campaign manager for Col. Thomas H. Ball, defeated candidate for governor, filed the expense account for the Ball state headquarters here.

The receipts of the Ball headquarters, according to the sworn statement filed with the county judge, were \$8,814.65, of which \$6,050 was contributed by Col. Ball himself.

I. & G. N. TO PASS FROM GOULDS

Under Terms of Agreement in New York Majority Stock Will Be Sold.

New York.—An agreement has been reached between the trustees of the Jay Gould estate, which holds a majority of the stock of the International and Great Northern railroad, which, if successfully carried out, will result in the passing of the Gould control of that property to a group of bankers representing the holders of the \$11,000,000 three-year 5 per cent notes, maturing Aug. 1.

Texan May Be Attorney General

Washington.—T. W. Gregory, of Austin, is being prominently mentioned as successor to Attorney General McReynolds providing the latter is named on the supreme bench in place of the late Justice Lurton.

Condition of National Banks

Washington.—The abstract of condition of the national banks of Texas, exclusive of reserve cities, at the close of business June 30, shows the following: Average reserve, 17.5; loans and discounts, \$136,567,558; gold coin, \$2,433,037; lawful money reserve, \$9,537,075; individual deposits, \$11,343,284. BEGIN INVASION OF FRANCE

Reported French Ambassador, Jules Cambon, has Left German

London.—According to a newspaper at Ljege, 20,000 German troops crossed the French frontier Sunday near Nancy. They encountered French forces and were repulsed with heavy losses.

A telephone dispatch from Brussels said it was reported that Germany had declared war on France and that the French ambassador, Jules Cambon, had left the German capital. This report could not be confirmed.

"French territory has been invaded at Cirey and German troops are marching on the fort at Cirey without a declaration of war. The German ambassador is in Paris."

Germany declared she was unable to answer the question put by the British ambassador as to whether she is prepared to respect the neutrality of Belgium.

The neutrality of Belgium has been guaranteed by Great Britain and she is bound to protect Belgium for her own safety, as Belgium under German rule would be a never-ending menace to England.

GERMANY AND RUSSIA AT WAR

Events in European Crisis Come With Startling Rapidity.

London.—Events in the European crisis developed Saturday with startling rapidity. The German ultimatum to Russia, demanding that Russia cease the mobilization of her army, expired at noon and at 5:15 o'clock the German emperor signed a mobilization order. At 7:30 o'clock the German ambassador at St. Petersburg, Count von Pourtales, delivered a declaration of war in the name of his government to the Russian government and the entire staff of the embassy immediately left St. Petersburg.

Now the die is cast and Europe is to be plunged into a general war, which has been the apprehension of European statesmen for generations.

Germans Fire on French Aeroplane

Berlin.—German troops Sunday fired on and brought to earth, a French flying machine near Wesel. Saturday night several other hostile air craft were seen in the Rhine provinces. One was observed flying from Keprich toward Andernach. Others were sighted near Duere, flying in the direction of Cologne. A hotel keeper in Kochem and his son tried to blow up the Prussian state railroad tunnel at Kochem. Their attempt failed and the men were shot and killed. Wesel, where the aeroplane was destroyed, is about 140 miles from the northeastern frontier of France.

Naval Fight in Progress

Berlin, via Brussels.—The small German cruiser Augsburg has sent the following report to Berlin by wireless: "Am bombarding the naval harbor at Libau and am engaged with the enemy's cruiser. The naval port of Libau is in flames." Libau is one of the principal seaports of Russia and is located on the Baltic Sea, 100 miles or more north of the German coast. It is fortified and is used as an arsenal by the navy. The German protected cruiser Augsburg is of 4,280 tons displacement and her chief armament consists of twelve 4.1-inch guns. Her crew numbers about 400 men.

Russia's Invasion of Russia Begins

Berlin.—Russia has begun the invasion of German territory, Russian forces having crossed the German frontier at Schwinden, southeast of Biialla, while a Russian patrol entered Germany near Eichenreid, in Posen. The Russian patrol which entered near Eichenreid attacked the German guard at the railroad bridge over the Warthe. The attack was repulsed. Two Germans were slightly wounded. The above information was given out by the imperial staff. The staff at the same time said that the invasion near Schwinden showed that war had actually begun.

Cotton \$3.50 to \$5.00 a Bale Off

New York.—Cotton broke \$3.50 to \$5 a bale July 30 in one of the most sensational markets since the Sully campaign. In two months the price has declined \$8 to \$12 a bale. This collapse was due to the fact that in the event of a general European war domestic markets would have to absorb and finance most of this year's crop.

Great Britain Calls Naval Reserves

London.—British naval reservists were called Sunday afternoon. This was taken as confirming the belief that the British government is ready to take part in the struggle. The naval forces of the empire now are prepared for any contingency. The ships had just concluded their maneuvers and therefore were virtually mobilized when the war cloud appeared. The territorial forces of England also are equally prepared without an actual mobilization order.

The MAID of the FOREST RANDALL PARRISH

HOSE were stirring times on our western frontier just after the War of Independence. Then the name of Simon Girty was the most hated, reviled and feared along the whole border; Hamilton, the British commander at Detroit, was stirring the Indians to revolt, and death lurked in every shadow of the forest. It's just the setting for a real Parrish story—the kind that only he can write—the swinging, thrilling kind like "Molly McDonald" or "Keith of the Border." When we tell you that "The Maid of the Forest" is every bit as good as these two, we know you'll lose no time in reading it. We have secured this story for our next serial and the first installment will appear soon. Watch for it

Such a trip is as easily made as a ten mile journey in a buggy. Besides he says, it is easier on the host, as the guest doesn't stay so long and saves the horse feed.

### Texas Industrial Congress to Promote Dairying.

The Texas Industrial Congress is ready to begin its work of promoting the dairying industry in Texas under the "Moser Plan", which was indorsed by the Farmers Congress and the State Dairymen's Association at College Station. The Moser Plan, named for C. O. Moser, of Dallas, who devised it, provided for financing the purchase of the animals, silos, and equipment necessary for any town to have a dairying industry, for seeing that the purchasers get good cows, etc., for their money, and for the dairying to be carried on in the most modern, profit-earning way. Every town that wants an industry which will change its farmer trade from a credit to a cash basis is interested in this proposition, and the Congress will send a copy of the Moser Plan to every person who asks for it. The Congress will go further, it will send a man to any town whose business desire to have the matter gone over at length with a view of promoting dairying there, and who will assist in organizing guarantors associations and in the other steps necessary to get the proposition under way.

A dairying industry will automatically bring about hog raising and poultry growing, because the skimmed milk that is not used in raising calves can be marketed most profitably in the form of pork or poultry. Every dairymen can raise two hogs a year for each cow he keeps, and sour milk is one of the best poultry feeds in the world. The dairying-promotion work of the Congress will be under the direction of C. O. Moser, president of the State Dairymen's Association and who was for several years the representative in Texas of the U. S. Department of Agriculture, Dairy Division. He is probably best known to the people of the State though having been for years in charge of the dairy show of the State Fair at Dallas. Mr. Moser is of course, by training and business experience an expert in the work he will have in charge.

What town will make the first application?

Milton Houston, Commissioner-elect of this precinct, attended the hog club meeting here Saturday. Mr. Houston is a practical farmer, and a level headed man with a term experience as commissioner, all of which should qualify him for an efficient Commissioner.

Let Those Who Know Advise You About Attending The Tyler Commercial College. Men At The Head Of The Affairs Of Our State And Nation.

Following are extracts from of America's greatest men on the value of business education. Hon. Champ Clark, Speaker of the House of Representatives, Washington, D. C. says: "Since I have been elected Speaker I have had it more thoroughly impressed on me than ever before that a thorough business college training is of exceeding importance." O. M. Dickinson, former Secretary of War, Washington, D. C. "Contemporaneously with taking my general education, I took a course in a business college and found it of value to me, not only generally, but in the practice of law." R. B. Glenn, ex-Governor of North Carolina: "I cheerfully recommend to every ex-Governor of Oregon: The modern business school plays a large part in fitting young men and women for their entrance into the business world." T. C. Pickett, Representative from Iowa: "The value-even necessity of a practical education to young people today is obvious that no argument should be required in support of it."

"E. F. Noel, ex-Governor of Mississippi: "I take pleasure in testifying to the importance of a practical business education, and to the efficiency of a properly conducted business school in imparting such knowledge." B. N. Haskell, ex-Governor of Oklahoma: "I consider practical business education of the greatest importance." John W. Kern, United States Senator. "Everybody ought by this time to understand that business men and business women need business education on the same principle that a doctor must have a medical education." Joseph M. Carey, Governor of Wyoming: "Too much cannot be said in behalf of a good commercial education. I do not believe that such an education can be too highly commended."

Shouldn't the above evidence settle the question with you as to what kind of an education is needed? ## HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side. The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work.

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows it will do. Ask him. He'll send it.
