WILL YOU GIVE 15 MINUTES To Be Well Again?

What a question! Why, you would give fifteen hours—fifteen days if need be, to gain the gift of Health. But now, as a first step, you need set aside only a quarter of an hour, sometime today for a friendly co-operative talk with a competent Chiropractor. Is your Health worth this small investment? Think back to a day when you enjoyed perfect Health. A day when it was a thrill just to be alive. A day when it was a pleasure just to breath the air and walk in the sunshine. Yes, you've known days like that. And you may know more—many more of them. For Health is your natural heritage. It is your right to know the gifts of Health and Happiness.

DON'T RUN AWAY FROM FACTS

Yes, we realize that you have your own ideas about Chiropractic. You may have "looked into the matter" and decided that "they can't do anything for me". My case is different". But before you make that decision final, you owe it to yourself to consult an experienced and able practitioner of the Chiropractic profession.
You will find, in talking with a Chiropractor, that normal nerve function is the very foundation of all health. No matter what your malady or condition, you cannot enjoy perfect health, until your nervous system is functioning normally. For normal nerve function is the equivalent of health.

WHAT CHIROPRACTIC IS AND WHAT IT DOES

Now, the term normal nerve function may mean little to the average person. Let us explain it in simple terms. First, we'll liken the brain to a power house where vital energy or "nerve force" is generated. From the brain extends a "trunk line" or spinal cord. And from the spinal cord, a network of nerves reaches every organ and part of the body, carrying this vital nerve force.

This delicate spinal cord is protected by a series of movable bone segments, placed one on top of the other, and hollow at the core, to form a conduit which houses the cord. These segments collectively, comprise the spine. If one of these movable segments becomes displaced, it causes pressure on a nerve or system of nerves. The supply of nerve force is then diminished, or in some extreme cases, almost completely stopped. Thus, some organ or part of the body, deprived of this life-giving force, sickens and becomes diseased.

Your Chiropractor is trained to locate and correct these displacements. This being done through scientific spinal adjustments. These efforts are in no sense haphazard. When the Chiropractor has relieved pressure and restored the normal flow of nerve force, nature, in her own way heals the disease, and brings an invigorating sense of health and well being.

Rowden News

By Patsy Crow

Rev. Clifford Hancock and wife, Mr. and Mrs. Gene Mauldin and family had dinner with Mr. and Mrs. Walter James Sunday.

The primary grades, taught by Miss Purvis, had an Easter program Thursday night. Afterwards the high school and outsiders played volleyball.

The grade school pupils had an Easter egg hunt Friday evening. Everyone had a wonderful time.

Theida and Velda Crow spent Sunday with Pearl Smalley.

The Baptist church sponsored an Easter egg hunt for the community Sunday afternoon.

Mr. and Mrs. Blau Odum and Mike visited with her parents, Mr. and Mrs. Tuman, in Putnam Sunday.

Mr. and Mrs. Tabor and Annie Mae, Mr. and Mrs. Vonelle Gibbs, and Mandle spent Sunday with Mr. and Mrs. Sterling Odum.

Mr. and Mrs. Glen Curtis and Marjorie, Mr. and Mrs. Carlos Swafford, Rita Rene and Hoot Swafford were all at the home of their mother, Mrs. Lillie Swafford, Sunday.

A statistician gave up his Saturday afternoon golf to take care of the children. When his wife returned from her shopping, he handed her the following report: Dried tears, 9 times, tied shoes 12 times, purchased toy balloons, 3 per child. Average life of balloon 13 seconds. Cautioned children not to cross the street, 21 times. Child ran across the street, 21 times. Number of Saturdays I will do this again, 0.

If not pleased, your 35c back at any drug store. TE-OL, a STRONG fungicide, contains 90% alcohol. IT PENETRATES. REACHES MORE germ to KILL the Itch. Today at CITY DRUG STORE. (4tp1)

Disease Spread Can Be Greatly Lessened By Practicing Care

“Carelessness and ignorance represent two of the most powerful factors in spreading communicable disease from man to man. No more emphatic of this fact exists than the continued ravages of tuberculosis. In spite of the knowledge of its causes and spread, and of curative methods, tuberculosis is still a very serious problem not only in Texas, but throughout the United States,” states Dr. Geo. W. Cox, State Health Officer.

“It is true that tuberculosis is no longer first on the list of killing diseases as it was formerly,” Dr. Cox said, “but despite having been reduced to fifth place in Texas, it still is responsible for more deaths between the ages of fifteen and forty-five than any other disease. And this fact exists even though the majority of tuberculosis patients could have their condition arrested if it were recognized early and proper treatment applied.”

“Treatment of the early recognized case is essential. It is of equal importance, from a public health viewpoint, that the spread of this devastating infection be prevented. A more intelligent appreciation of this fact would result in the saving of thousands of lives.”

“When a diagnosis of active tuberculosis has been made, examination of all of the other members of the immediate family should follow as a matter of course. Tuberculosis runs in families, not because of any special susceptibility to the disease, but because it

is communicable, being usually transmitted through close and prolonged contact with the active case.”

To reduce the number of deaths caused by tuberculosis, Dr. Cox suggests periodic examination of all adults, a check-up by physicians of the known active cases and contacts, regular examinations of high school children, isolation or hospitalization of the active tuberculosis case, and a more intelligent application of hygienic living principles.

Mr. and Mrs. J. C. Watson visited the past week in the home of their son, I. M. Watson and family, in Dallas.

Mr. and Mrs. Oral Ray and Mrs. Bud Lindsey were visitors in Breckenridge last Sunday.

Q.—Can veterans of the Spanish American War get Government insurance because of his service in the armed forces?

A.—No. Government Insurance was first made available to veterans of World War I.

Earl Long or Brownwood who friends here the first of the week.

Billy Mac Jobe of Baird was business visitor here Monday.

The curtain rises on THE NEW FERGUSON TRACTOR
MORE POWER
MORE SPEEDS
AUTOMATIC HYDRAULIC OVERLOAD PROTECTION
HYDRAULIC IMPLEMENT CONTROL
FRONT WHEEL TREAD ADJUSTABLE
No other tractor combines ALL these features
Beginning... another great era in power farming!
A Great New Farming Machine to help you cut the costs of food production still more! A powerful, rugged tractor with many new high-performance features designed from the experience of over 300,000 Ferguson System users. Stepped-up power lets you walk away with two 14-inch plows—with reserve for the tough spots. You can brake both wheels with a single pedal, or use the individual brake pedals for turning. And many other improvements for greater safety, economy and convenience.
A Miser on Fuel! Powerful Continental valve-in-head engine, combined with the weight-saving and automatic traction control of the Ferguson System, gives you more work from a gallon of fuel than you ever dreamed possible! High-torque design to give you amazing lugging power at low engine speeds. Responsive governor, fully enclosed from trash and dust. High-efficiency cooling fan and removable "wet" sleeves with full-length water circulation. An engine built to "take it!"
A New System for Low-Cost Hauling with revolutionary method of linking trailer to tractor. With this new Ferguson System of transportation you can haul loads of 3 tons or more out of soft fields, up steep grades, on slippery roads or over rough ground. On countless farms, located at average local market distances, this latest Ferguson invention slashes costs of hauling farm products—a revolutionary new solution to your farm transportation problems.
Only the Ferguson System, invented, perfected and patented by Harry Ferguson, and authorized only for use in the new Ferguson Tractor, gives you all five of these big advantages: 1. Penetration without excessive implement weight. 2. Both finger up and automatic hydraulic depth control. 3. Traction without excessive built-in weight. 4. Keeps the tractor's front end down. 5. Automatically protects both implement and tractor when the implement strikes an obstruction.

Mrs. Annie Travis visited sons in Fort Worth and Houston recently.

The teacher asked Johnny, "Is the world round?"

"No'm", was the short reply.

"It isn't," exclaimed the teacher.

Well, then Johnny, is it flat?"

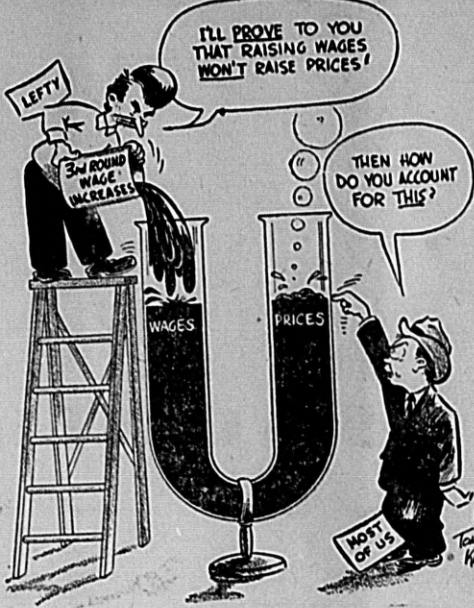

"No'm," said Johnny's reply.

"Well," said the teacher with a smile, "if the world isn't round, and it isn't flat, then tell me, what is it?"

Johnny looked confident as he replied, "Daddie says it is crooked."

The thief of time robs us of a lot of accomplishments.

THE AMERICAN WAY

Another Fallacy Exploded

Mr. and Mrs. Marvin Clark visited Mr. and Mrs. Ernest Clark in San Angelo Sunday.

Mrs. Musselman, mother of Mrs. Inez Cromer of the Cromer Hotel, was carried to a German hospital Sunday in a Higginsbotham ambulance. She has been in ill health for some time.

Mrs. Tom Price of Albany visited her mother, Mrs. A. Ozilvy, and Hazel Sunday.

S/Sgt. and Mrs. Grady Ramey left Saturday morning for Kearney Field, Nebraska where he will be stationed with the Air Force. Ramey is a former employee of the Review before making enlistment one month ago.

CHURCH OF CHRIST GROUP MEETS LAST WEEK IN LACY HOME

Eleven members of the Church of Christ met in the home of Mrs. Jack Lacy Thursday of last week for an all-day quilting bee. Two quilts were completed during the session.

At lunch time a covered dish spread was made and an enjoyable time reported. The church group meets at regular intervals at the home of a member to pursue the gift quilting past time.

Among those present were Mrs. L. W. Placke, Mrs. Ab Harris, Mrs. Annie Crockett, Mrs. R. S. Peavy, Mrs. McDaniel, Mrs. Ed Henderson, Mrs. Norma Saunders, Mrs. Tom Burks, Mrs. Silas Havens, Mrs. Tom King and the hostess.

SABANNO H. D. CLUB MEETS ON MARCH 23

The Sabanno Home Demonstration Club met March 23 in the home of the president, Mrs. J. L. King, who presided during the session. After the club pledge was said and roll called, minutes were read and approved.

Mrs. Helen Marquardt, Eastland County H. D. Agent, was present with the group and talked on landscaping and also talked raising. During the afternoon club members also learned to do the Italian hem stitch.

Ten members were present. Next meeting date will be April 13 when the club meets in the home of Mrs. C. F. Goleanor, reporter for the organization.

COLLEGE STUDENTS VISITING HOME FOLKS HERE EASTER

College students of Cross Plains were home over the week end to spend Easter holidays. Most schools closed last Thursday and re-opened Tuesday of this week.

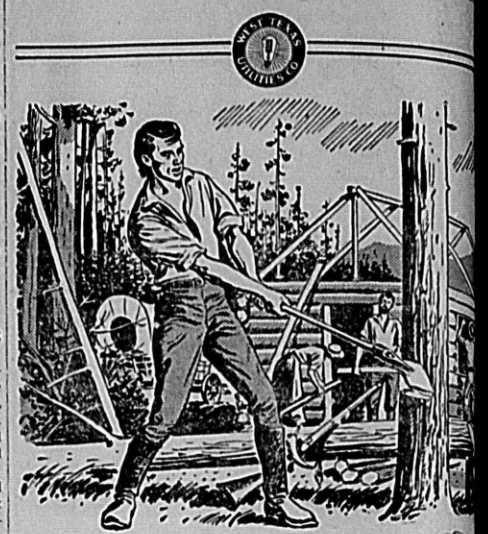

Among those here were Miss Lynn Lee Smith of Denton, Charles Coburn of San Antonio, Dick Vestal, Jack Lacy, Paul and Margaret Greenwood and Harold Garrett of Stephenville, Dean Womack and Ben Wagner of Amarillo, Donnell Clark, Paula Jean and Anna Belle Harrell, and Billy Anderson of Lubbock, Helen Ruth Plumlee, Ann Marshall, Donald Smith, Neal Smith, Gerald Moon and Burley McCowen of Abilene, Mr. and Mrs. Dickie Huntington and Ray Plumlee of Abilene, and probably others whose names the Review failed to get.

Mr. and Mrs. Shelton Caton, of Dallas, and Mr. and Mrs. Norman Caton, of Wichita Falls, spent Easter in the home of their parents, Mr. and Mrs. J. A. Caton in Cross Plains.

Guests in the home of Mrs. Mary Lou Shelman over Easter holidays were her daughter, Mrs. Loren Kellar of Stillwater, Okla.; granddaughter, Mrs. C. G. Sivells and Mr. Sivells of Wharton, cousin, Mrs. Ethel Price of Oklahoma City and Mrs. Kate Dickerson of Norman, Oklahoma.

B. F. Russell, of Dallas, visited in Cross Plains Saturday. Mr. Russell was formerly County Attorney of this county.

Miss Doris Hall of Odessa, Mr. and Mrs. Arthur Boyles, Burkett visited Mr. and Mrs. Hall over the week end.

ALL THEY ASKED WAS AN EVEN BREAK

BUILDING a new country was no easy job. But there were men and women willing to turn their backs on the comfortable way of life and their faces toward new frontiers. All they asked was an even break.

Free enterprise is another way of saying, "an even break." Free enterprise is the basic American principle of vision and personal initiative. Just give an American an even break—chance to get ahead—and he'll go on from there.

In West Texas—where the "frontier" is a little more than one generation removed—the West Texas Utilities Company is recognized as a real pioneer. It opened up an "electric frontier" when in 1915 it constructed the first power transmission line in West Texas. This first transmission line, which helped pave the way for the economic growth of the area, was built by a farseeing group of business men who believed that a paying, self-supporting company could best supply the enormous amounts of electric power that the development of this western empire depends on... at the lowest possible cost.

Today, that original transmission line has been expanded into a power system of 2,833 miles of high power transmission lines... more than any other company in the Southwest... serving 322,000 persons with dependable, low-cost electric service in 45,000 square mile area.

The West Texas Utilities Company, in 1947, contributed more than \$1,800,000 to local, state and federal governments... paid more than \$2,800,000 in wages to employee citizens of West Texas.

There are still new frontiers in electric living to be opened... and businessmen can do the job better than bureaucrats. Believing in the soundness of the "free enterprise system," the Company will spend \$18,000,000 during the next four years enlarging plants and existing facilities, and building transmission lines in an all-out effort to "open" those new frontiers.

VOTE FOR CHARLES H. DAWSON FOR MAYOR

— FAIRNESS TO ALL —

H. D. Agent Column

er Makes Me . . .
 long ago, specialists at New State College of Agriculture a survey of the homemaking and dislikes of 4-H Club . . . and since 4-H clubbers pretty representative of all people, their sentiments are the same as those of Ruth and Jane in every

all the chores to be done at the house, the girls said enjoyed ironing most—and washing least. Their complaints against dishwashing ranged from "It's so messy" to "chaps my hands." It was household chores that at one half of the girls said "I to do it, because Mother me."

Florence Low, associate extension specialist in home management for Texas A&M College, says children in every home should definite jobs around the house—it teaches them responsibility and gives them an added security, even though it is a job they don't particularly like. It helps if the job can be more interesting—and that's be even with dishwashing. question of a little ingenuity your head to save your and heels" is the way Mrs. puts it.

When you're washing dishes, she try to figure out some time-labor-saving steps. For instance, use a wheel table or tray try soiled dishes from the to the kitchen—and you'll many steps. Wash from right—that is, stack your dishes right side of the sink or on, and drain them on the follow a routine in washing— first, then silver, then and last, the pots and pans. the dishes with boiling and drain—they'll dry in few minutes and be ready away. If they are stored in and drawers to the left of the sink, you'll save yourself that many steps.

Minute Jobs
 you've not made all the things which you plan in your day, there's still time to get before the growing season. Evelyn Wieland points

shrubs around the house are and, some of them can be moved, border or used for screening buildings, she says. Or go nurseries, and select the which will fit into the home scape, as they can be successfully transplanted now.

er jobs which can be done at home landscape now are by Miss Wieland. Flower for late spring or summer can be prepared as fertilizer will have about six to decay before planting. Order rose bushes from resources and set them out in here only grass has grown past five years. That will healthy plants and many

shrubs which have grown too and are crowding other can be pruned. Do not prune blooming shrubs, such as flowering peach and form until they finish blooming. Some shrubs which have not to bud can be sprayed with emulsion to control scale. If spray emulsion has been frozen the oil has separated, it's a idea to get fresh material and directions exactly so the won't be injured.

As a final job, Miss Wieland says, remove and burn all diseased plants, diseased and dead limbs and take out unhealthy plants. The general appearance of the landscape will be improved.

Veterans' News

An explanation of recent increases in subsistence allowance for World War II veterans taking full-time courses in schools, colleges and universities under the GI Bill is being mailed to veterans in Texas, Louisiana and Mississippi with their March checks, the Veterans Administration reports.

The enclosure states that only veterans taking full-time courses of education in schools will be entitled to the increased allowances. The new payments, effective after April 1, will be at the monthly rate of \$75 for a veteran without dependents, \$105 for a veteran with one dependent, and \$120 for a veteran with more than one dependent.

The message explains that eligible veterans who are entitled to \$75 or \$105 under the new rates will not have to apply for the increased allowances. Existing applications will supply all the information needed to pay the new benefits. These veterans, therefore, need not write VA, since their increases will be paid automatically. The note also includes instructions to veteran-trainees who are entitled to \$120 because they have more than one dependent. It directs them to submit the information about their additional dependents needed before payments at the new rate can be made.

Student-veterans planning transfers to other schools are advised by the Veterans Administration to give at least 30 days notice of their plans, if they wish to avoid possible delay in payment of subsistence.

To enroll at a new school, the veteran will need a supplemental certificate of eligibility from the VA regional office. This requires both a notice to the VA and a statement from the present school showing satisfactory progress in studies.

Farmers all over the county are still busy with re-vegetation. Billy Mae Jobe of the Deep Creek Soil Conservation group seeded 3 acres of Weeping Love Grass and 2 acres of Sand Love Grass on his farm last week.

J. A. Sikes, of the Rowden Soil Conservation group, has seeded 4 acres of Yellow Bluestem.

Eliska Gilliland, of the Bayou Soil Conservation group seeded 4 acres of Madrid Clover and 2 acres of Sand Love Grass last week on her farm.

Chester Barr of the South End Soil Conservation group seeded 4 acres of Yellow Bluestem, 2 acres to Weeping Love Grass and 3 acres to Little Bluestem last week.

G. B. Booth, of the West Turkey Peak Soil Conservation group constructed .8 mile of terraces and 900 feet of diversions on his farm last week.

J. P. McCord of the Burnt Branch Soil Conservation group completed 3.1 miles of terraces last week. All terraces outlet onto native pasture or into a natural waterway.

When tillage begins, other arts follow. The farmers, therefore, are the founders of civilization. — Daniel Webster

County Agent Encourages Local Farmers To Enter Hens In Contest

By A. R. Grote, Jr.

If you are a poultryman who has been wondering just what kind of an egg production your flock has, here is your chance to find out. Texas A&M College has announced a ten month egg laying contest beginning October 1 this year and running until July 31, 1949.

This state wide Farm and Home Egg Laying Contest is being announced at this time so Texas poultrymen will have a chance to purchase their baby chicks now, and have them in production when the contest gets under way next

October.

The rules and regulations of the contest as well as application blanks for entering and monthly report blanks may be secured at the office of the County Agent or Home Demonstration Agent. These monthly report cards are filled out at the end of each month and sent to the County Agent's office. Since the contest is based on a record of the number of eggs per hen, and not on the number of eggs per flock, any hens that die or are culled from the flock during any one month will not interfere with the progress of the contest. The five big objectives of the

contest are to get higher egg production in Texas poultry flocks, to demonstrate the value of record keeping in the poultry business, to put poultry production on a sound basis, to demonstrate the advantages of good feeding, breeding, and management and to market eggs on a quality basis when it is possible to do so. If these objectives are reached, then the contest will have been a complete success.

The contest is open to all poultry producers in Texas who own and manage 100 or more hens of not more than two breeds or varieties. However, to keep the contest on a

fair basis, the R. O. P. breeders will not be allowed to enter the contest, since they are on a professional standard.

Each contestant must tell how many chickens he expects to enter at the beginning of the contest, and all pullets over four months old and all hens on the farm must be entered.

All poultrymen who expect to enter the contest must have their entry blanks turned in by September 15; each contestant will be visited by either the county agent or the home demonstration agent between September 15 and October

15 in order to get everyone off to a good start.

When the contest ends July 31 of next year, all the records will be counted to find out who the state wide winner of poultry egg production is. The first prize is \$100. The second prize is \$75, and the third prize is \$50. Fourth, fifth, sixth and seventh prize winners will receive awards ranging from \$35 down to \$15, and the next eight high place winners get \$10 each.

Come on Callahan County farmers and enter this contest. You can't lose and have much to gain. Entries will be accepted now.

It has recently been announced that Navarro County Negro school students soon will have gymnasium facilities available for them. They have none at present.

Surplus buildings at near-by Camp Maxey have been purchased and are being removed for this purpose.

The new buildings will be erected at Kerens this summer it was stated.

A radio tower to be built near Des Moines, Iowa, will be the tallest man-made structure in the world, the Westinghouse Electric Corporation has announced.

Present plans call for a 1530 foot tower, and it was pointed out that this is taller than the Empire State Building which is at present the world's tallest building.

Atwell News

By Mrs. Ben Riffe

Elder D. C. Foster of this place and Elder Coy Marcum of Cisco preached the morning service at the Primitive Baptist church.

Joe Bentley and children of Eula and Mr. and Mrs. Lantz Reid and J. A. Reid of Putnam accompanied Mr. and Mrs. Stewart Bentley to the above services Sunday.

Mmes. Sam Jones and Clint Brashear heard Mrs. E. P. Mead of Abilene speak in the Lee Bishop home in Cross Plains Friday afternoon.

Mr. and Mrs. Truett Holley of Cottonwood spent Sunday with Mr. and Mrs. J. D. Goble and attended church here Sunday night.

Mr. and Mrs. Henry Ester spent the week end with his daughter, Mrs. Aubrey Hobson, and family in Breckenridge.

Edgar Sessions of Dallas spent Saturday and Sunday with home folks.

Mr. and Mrs. R. W. Purvis and Deane and J. B. Riffe, Jr., of Albany visited in the Ben Riffe home

Wednesday night and Thursday of last week.

Mr. and Mrs. Tipton Winkle and Royce visited Mr. and Mrs. Robert Brown Saturday night and Sunday.

Mrs. R. N. Brashear visited her daughter, Mrs. C. M. Matthews, of Putnam Wednesday of last week.

Mr. and Mrs. Louis Griffith and Avril of Fort Worth spent the week end in the S. A. Black home.

Mr. and Mrs. Buster Foster and children of Cross Plains spent Sunday with her parents, Mr. and Mrs. Sam Jones, also visited in the E. P. Foster home.

Rev. and Mrs. Maurice Treadwell and sons of Texico, New Mexico spent from Thursday until Sunday with her parents, the J. P. Purvis. They were on their way to Fort Worth where Mr. Treadwell expects to take an examination for mission work in foreign fields.

Doyce Purvis of Bayou also spent the week end in the Purvis home.

Mrs. Nathan Foster and boys spent Sunday with her parents, Mr. and Mrs. Edwin Erwin, at Sabanno.

Mr. and Mrs. W. M. Tatum of Putnam spent from Tuesday until Thursday with their sons, Roy and Alton.

Mr. and Mrs. Newman Jackson and family of Christoval spent the week end in the E. P. Foster home.

Mmes. Nathan Foster, Truman and their small sons and Mrs. Robert Brashear attended the Easter egg hunt, carried their children to the Cross Plains park Friday afternoon.

Mr. and Mrs. Clint Brashear heard Dr. J. Frank Norris of Fort Worth preach in Abilene Sunday afternoon.

Jim Hewes, Nathan Foster, Howard Pillans, accompanied by Mark Foster and Kay Foster of Slaton and others whose names we did not learn, left Sunday on a fishing trip to the Rio Grande River.

Billy Dean Havens of Baird spent last week in the Ebb House home. He, together with Mrs. Havens, returned to Baird Saturday.

Billy George Morgan of Baird is attending school in Cross Plains and staying with his grandparents, Mr. and Mrs. Ben Pillans.

Some people create happiness wherever they go—others whenever.

WTU ASKS PERMISSION TO ISSUE FIVE MILLION DOLLARS WORTH BONDS

West Texas Utilities Company, this week filed application with the Securities and Exchange Commission for permission to issue and sell \$5,000,000, principal amount, of its First Mortgage Bonds, Series B. It is proposed that the bonds, which will be dated March 1, 1948, and which will mature in 1978, will be sold by competitive bids.

Mr. and Mrs. Grover Henderson visited in Ranger Easter Sunday.

A deed that you might consider so light a thing that by tomorrow you will have forgotten it may have untold effect on the whole life of some youth.

When I was attending high school in Memphis, Tenn., the Memphis Press published a "feature story" about a young tax assessor out West who had unusual ideas on taxation. I wrote him a letter and he replied, making a suggestion which, indirectly, led to my becoming a "cub reporter" on the Commercial Appeal and to a career as a newspaperman.

So when my newest book, "Cub Reporter", was published, I wanted to present a copy to my benefactor of so many years before—if he was still living. I recalled that his name was Knapp and that he lived in Pueblo, Colo. So I wrote to Lloyd Wilson (who used to be manager of the Waco Chamber of Commerce and before that at Vernon); he's manager of the Pueblo (CofC) and he enlisted the aid of the Pueblo Chieftain.

After the news item appeared, Knapp wrote me. Oddly enough, he had moved away from that city about the time I was entering newspaper work and he lived in Utah, Iowa, Minnesota, Arizona and Missouri (engaging in newspaper work himself) and then had returned to his old home city.

And so a copy of "Cub Reporter", suitably inscribed, was sent to the man who, by answering a school-boy's letter, helped to shape an individual's destiny.

Austin is a sea-port—at least, you can take a voyage there. You go out to Lake Austin, board a luxurious motor boat (almost a yacht) and glide on the moonlit waters up the lake and across to the Cliff House, where you climb a flight of rock stairs to the building on top of the hill and there you enjoy an excellent dinner, then make a return voyage and take your car from the landing or back into the city.

Ye Olde Home Town Paper 39 Years Old

Thirty nine years ago this week first copies of the Review made their appearance in Cross Plains. The new publication was edited and published by Belmont L. Shields, who later attracted nationwide attention as a result of the banning of his magazine, "Wampus Cat", from the United States mails.

It was in 1928 that the present Review building, a two story structure on 8th Street, was built to replace a frame building which has since been converted into a dwelling and is now located in the Northeast part of town.

Sabanno News

By Mrs. Edwin Erwin

Mr. and Mrs. Lawrence Kelly of Abilene spent Sunday with her parents, Mr. and Mrs. Lawson King.

Mr. and Mrs. Ray McBee of Brownwood visited her parents, Mr. and Mrs. H. T. Porter, last Sunday.
