## Grade 'A' Milk Production To Begin Here November 1

Several Cross Plains men are building facilities to enter the profitable dairy business here, producing grade 'A' milk to be sold to Abilene concern.

Earl Caraway last week purchased 45 acres from N. M. Dillard, four miles west of town on highway 36, and is starting construction of barns and sheds to accommodate 20 cows. Mr. Caraway has an initial outlay of \$5,000 to build a tile barn 26 by 14 feet, to be equipped with a concrete floor, running water, electricity and mechanical milkers and an electric cooler. He also intends to build a residence on the property. Mr. Caraway hopes to be ready to begin milking on November first.

Another local man laying plans to begin milk sales the first of the month is Tom Lane, who lives one mile south of town. His barn is being remodeled and equipped to meet the regulations required for grade 'A' production.

A number of others are seriously considering entering the production of dairy products for wholesale market. Among these are: Dick Brown, who lives between Cross Plains and Pioneer; C. W. Brown, who has a place just south of town on highway 279; Merlin Barrett, who lives on the same road; O. O. Sandifer, of the Cottonwood locality; and Rev. E. H. Parks, who owns a place five miles west of Cross Plains, as well as others whose names the Review did not immediately learn.

## Fumbles Hurt Local Gridders And Santa Anna Triumphs 20-0

Loose ball handling proved costly to Cross Plains high school Buffaloes here Friday night as the Santa Anna Mountaineers capitalized on two miscues to push across touchdowns, and took advantage of a 15 yard penalty for another to pile up a 20 to nothing verdict in the first conference game of the season for the local athletes.

The visitors covered a Buffalo fumble on the last play of the first quarter and scored a few minutes later with Walters crossing the double-stripe for the tally. Dunn converted from placement to make the score seven to nothing. Remainder of the period was fought on virtually even terms and the half ended without further scoring.

Santa Anna came back in the third period and pounced on another Buffalo fumble. Walters again sparked the offense on a trip to pay territory, and Dunn repeated his conversion effort to make the score 14 to nothing.

A few minutes later coach Bill Shield's thundering herd was penalized 15 yards, for their own two yard stripe for unnecessary roughness. From this point Dunn juggled the leather over but failed on his placekick.

Cross Plains offense showed streaks of brilliance but was never able to gain sufficient momentum to present a serious scoring threat. A crowd of some 1,200 people who witnessed the game, however, was generally pleased with the performance of the local athletes, realizing that only experience is needed to transform them into a winning combination. Lack of a coach late in August, when other teams were well underway in pre-season training, has handicapped the purple and gold supporters believe.

Cross Plains made five first downs to 10 for Santa Anna. The Buffaloes had a net gain rushing of 97 yards as compared with 171 for the Mountaineers. The locals threw five forward passes completing two for a total of 37 yards and getting one intercepted. The visitors took to the air on two occasions, connecting one time for an aggregate of 12 yards on both the throw and run. Cross Plains fumbled five times, losing the ball twice, while Santa Anna was charged with no less-of-ball fumbles. The Buffs drew two penalties for a total of 20 yards and the Mountaineers one for five.

## LOCAL PEOPLE ATTEND NATIONWIDE BROADCAST IN ABILENE ON FRIDAY

Among those attending the coast-to-coast radio broadcast of the "Queen for a Day" program at the West Texas Fair in Abilene last Friday noon were the following: Mr. and Mrs. W. A. (Red) Huckaby, Mr. and Mrs. C. D. Westerman, Mesdames, C. R. Cook, Fred Heyser, C. A. Stone, George Scott, Clark Anderson, Edwin Baum, Jr., J. L. Bonner, O. B. Edmondson and Jack Scott, as well as probably others whose names the Review was unable to learn.

Although the Cross Plains lady failed to be one of the five chosen for interviews on the air, she did win a place on the grand council and received a number of valuable merchandise gifts.

## Last Rites Are Held Here Wednesday For Mrs. John Tyson

Funeral services for Mrs. John Tyson, 79, who died at her home in the southwest part of town here Tuesday afternoon, were conducted from the First Methodist Church Wednesday afternoon at two o'clock with the Rev. J. U. McAfee, pastor, officiating. Interment was made in the Santa Anna cemetery beside the grave of her husband, a pioneer physician, who died a number of years ago.

Mrs. Tyson expired Tuesday afternoon shortly before two o'clock, after having suffered a heart attack eight days before. She had been in ill health, however, for several years.

Survivors include four children: Mrs. H. B. Hart, Port Worth; Clovis I. Tyson, Coleman; Lindsey W. Tyson, Cross Plains, and Mrs. Garrett R. Fomby of Brownwood, as well as three step-children: Grady Tyson, San Antonio; Mrs. W. B. Williams, Cross Plains, and John Tyson, Lubbock.

Palbearers at the funeral and interment services Wednesday afternoon were: Dave Lee, L. F. Foster, S. N. Foster, O. B. Edmondson, S. C. Teague and J. L. Settle. Arrangements were in charge of Higginbotham's, Cross Plains.

## Citizens Reminded To Include Poll Tax Fee When Paying '48 Tax

Cross Plains property owners, who last week received tax statements, are reminded that no poll tax was assessed for 1948 and if they desire to vote next year a remittance should be included when tax payments are made.

It is pointed out that many property owners have been mailing in checks to cover 1948 state and county taxes and since no poll tax was assessed on the statement they received, payment for the voting certificate has been overlooked by most early payers.

There have been repeated rumors of a county wide beer election for Callahan county during 1949 and should a referendum on this question materialize, citizens will not wish to be disfranchised for lack of a poll tax certificate.

## Brown County Beer Election Gets Hot

Interest in Brown County's beer election to be held Saturday, appeared to be approaching a white-hot yesterday as both pros and antis outlined a busy schedule for closing days of the campaign. Full page advertisements in Brownwood newspapers, radio time and personal solicitation of the electorate were being utilized by both sides.

## DESIGNATION AS NEW FIELD ASKED FOR WELL 2 MILES EAST OF CITY

Request for designation as a discovery well and granting of a new pool allowable has been made by Paul Jawless, Callahan County producer two miles northeast of Cross Plains, 330 feet from south and west lines of 100-acre S. G. Jones lease in Jesse Dyson survey 751.

The well, which has been in process of completion for more than a month, gauged 84.18 barrels of 40 gravity oil in 24 hours through one-inch choke with 200 pounds on casing and 20 pounds on tubing from Ranger lime at 3,245 to 3,325 feet.

It is an outcrop to Lake sand production, but was dry in that formation at 3,390 feet, and plugged back to the shallower show.

## EX-SERVICEMEN'S WIVES, MOTHERS AND SISTERS TO HAVE PARTY MONDAY NITE

A forty two party for mothers, wives and sisters of ex-servicemen will be held in the Legion Hall here Monday night, October 11, beginning at seven thirty. A nice program has been arranged and it is hoped that a large number will be present.

The entertainment is not just for members of the American Legion Auxiliary but all ladies who are eligible as a result of relationship to former members of the armed services.

Psyche was the maiden loved by Cupid.

## Old Indian Fighter Was First Settler In Community Known As Cottonwood

The history of Cottonwood, oldest surviving Callahan County community, has been often told with various persons claimed as the first settler, but "Uncle" Hugh Breeding, who has lived in the community 71 years, gives credit to an old Indian fighter, named Hightower, who lived in a picket house along the banks of Cottonwood creek, just east of the present townsite.

Hightower, who is not to be confused with an early-day Baptist minister of the same name, was living there when the Breeding family settled on what is now the D. C. Hargrove place in 1877.

"The hardened, old woodsman made all of his clothes, and those of his wife and four children", Mr. Breeding says. "He always wore a coon skin cap, buckskin shirt and shoes made entirely by his own hand".

When the Breeding family came to Cottonwood from Comanche County in 1877 ownership of much land was unknown, although there were, of course, records. Callahan County had just been organized a few months and some of the records of ownership were in Eastland, and others in San Antonio and Austin.

"We bought a log house and a few meager improvements on what is now the Hargrove place, but no one knew who actually owned the land. This became my first home in a community where I was to spend so many years. After a year here, my father found some 'vacant' land a few miles west and we moved over there, starting a little ranch."

First school at Cottonwood was built by the elder Mr. Breeding and several of his neighbors, and Hugh and his sister, Mrs. Winnie Shuford, of Cross Plains, attended classes there in 1878. The first term was of four months duration.

Boys around Cottonwood Springs, as the town was first known, enjoyed nothing more than sitting at the feet of the old Indian fighter and listening to his tales of happenings on the frontier.

"One narrative we all enjoyed was of how Mr. Hightower fought an injured bear in a plum thicket", relates Mr. Breeding. "The bear had been shot and crawled into the thicket to hide. Mr. Hightower pursued the animal and was attacked by the animal but managed to emerge winner in the dangerous scrap."

Another bear was killed by Mr. Hightower about six miles north of Cross Plains. To the best of Mr. Breeding's recollection this was the last bruin ever killed in the Cross Plains-Cottonwood locality. Mr. Hightower butchered the bear and divided meat with neighbors.

"That bear steak was fine", Mr. Breeding says.

Asked whether he found life in the early days better and more desirable than now, Mr. Breeding was prompt to reply:

"No three, life in the twentieth century is better in every way."

Now in his eighty second year, Mr. Breeding and his sister, Mrs. Shuford, who is 80, are among the oldest settlers from the standpoint of continuous residence in Callahan County. Their parents came to Texas from Tennessee in 1874, settling first in Denton County. A year later they moved to Comanche where they stayed two years. Both have remained here through the intervening nearly three quarters of a century.

## Retired Merchant Is Laid To Rest Friday In DeLeon Cemetery

Funeral services for Z. W. McClellan, 77, who died at his home here Thursday afternoon, were held from the Cross Plains Methodist Church Friday afternoon at two o'clock with Rev. J. U. McAfee, pastor, officiating. Interment was made in the De Leon cemetery.

Mr. McClellan, who retired from business several years ago had been in ill health for some time, however, it was not until Tuesday that his condition became critical. He suffered a stroke shortly after noon Tuesday and lapsed into a coma from which he never regained consciousness.

The deceased was born October 11, 1870. He was married in 1895 to Miss Kate McGregor, who survives. To this union were born six children, two of whom died in girlhood. The surviving children are: Mrs. H. L. Hock, De Leon; C. S. McClellan, Hempstead; Mrs. C. C. Holdridge, Cross Plains, and Mrs. Howard Spencer, Taylor. Other survivors include five granddaughters and only one grandson, Charles Mack Holdridge, of this city, six great grandchildren, and twin brothers, Northy McClellan, Granger, and Nollie McClellan, Jackson, Mississippi.

Active pallbearers at the funeral and interment services Friday afternoon were: P. V. Tunnell, E. C. Koehnig, C. B. Edington, B. K. Eubank, Travis Foster, Edwin Baum, Craig McNeel and Ralph McNeel.

Honorary pallbearers were: A. D. Petty, Henry Hamilton, Mark Adair and F. R. Anderson.

The flower escort was composed of: Mrs. Doyle Burchfield, Mrs. E. C. Koehnig, Miss Ada Clark, Miss Betty Browning, Mrs. H. A. Young, Mrs. Ralph McNeel, Miss Myrtle Davis, Mrs. C. B. Edington, Mrs. Tom Cox and Mrs. F. V. Tunnell.

All Cross Plains business houses closed during the funeral services Friday afternoon in tribute to the former local merchant who was deeply respected and admired.

Arrangements were in charge of Higginbotham's, Cross Plains.

## Johnson Can Get 466 More Votes In Brown County After Ruling

Lyndon B. Johnson, Democratic senatorial nominee, indirectly received a 466-vote gain in a Brown County election dispute which the 11th Civil Appeals Court ruled on at Eastland last week.

The appeals court affirmed a lower court ruling which threw out six boxes in Brown County, invalidating 1,727 votes, and thereby making Brown County Judge A. E. Wilson the Democratic nominee. Wilson's name will go on the ballot.

Although Congressman Johnson was not a party to this suit, it was believed that he could, if he wished to press the issue, gain the 466 votes. Johnson was declared winner of the U. S. senatorial nomination over former Gov. Coke R. Stevenson by 87 votes by the Democratic state convention.

## New Field Promised In Mississippi Lime Mile West of Nimrod

Promise of possible Mississippian production one mile west of Nimrod was seen this week after the Rathke Oil Company number one Carl Strobel wildcat encountered a strong flow of gas and spray of oil at 3,970 feet, just below the top of this formation. Location is 2,310 feet from the south and 330 feet from the west line of the east half of section 117, block three H&TC survey.

Operations were shut-down while the drilling crew awaited orders from owners of the test. It was expected, however, that operators would cement casing to the top of the formation and try for completion as a Mississippian discovery. Initial plans were to probe the Ellenburger.

Moon of this city and a graduate of Odessa high school.

## Caddo Peak Voting Place Consolidated With Cross Plains

By request of citizens of the Caddo Peak voting precinct, Callahan County commissioners court has consolidated that box with Cross Plains effective immediately. As a result of the action by the court last week Caddo Peak voters will ballot in Cross Plains at the October 23 election, when a \$75,000 bond issue is to be decided upon.

Caddo Peak has about 20 qualified voters and for a number of years the polling place has been the F. A. Oglesby home. Mr. Oglesby was Democratic chairman of the precinct.

The Dressy box was consolidated with Cross Plains in July and for the first time in recent years Cross Plains polled the largest vote in Callahan County in the run-off primary held August 28.

Cross Plains had 644 paid poll tax holders before consolidation of the Dressy and Caddo Peak boxes. Addition of these two polling places and including the overs and unders, who are unregistered, it is estimated that Cross Plains' potential voting strength is now above 800.

manded to appear before the  
Honorable District Court of Calla-  
han County at the Court House  
thereof, in Baird, Texas, at or be-  
fore 10 o'clock A.M. of the first  
Monday next after the expiration  
of forty-two days from the date  
of the issuance of this citation,  
same being the 25th day of October,

bered 10562 on the docket of said  
court and styled Claud Hammond  
Plaintiff, vs. Lois Hammond De-  
fendant.

A brief statement of the nature  
of this suit is as follows, to wit:  
Plaintiff has been a bona fide in-  
habitant of the State of Texas, for  
one year and of the County of  
Callahan for six months next pre-  
ceding the filing of this suit, and  
that the residence of the defendant  
is unknown. That plaintiff was  
married to the defendant on or  
about January 23rd 1947 and that  
they were permanently separated  
on May 22nd, 1947. That Plaintiff  
was kind to defendant. That de-  
fendant was indifferent to plain-  
tiff and was indolent and extrava-  
gant. That she took \$400.00 of  
plaintiff's money and left defend-  
ant on May 22nd, 1947 and never came  
back, but wrote plaintiff for more  
money and promised to come back  
to him. That Plaintiff sent her  
\$100.00 in cash and that she has  
never been seen or heard of by  
plaintiff since that date. That  
plaintiff and defendant have no  
children and no community prop-  
erty, as is more fully shown by Plain-  
tiff's Petition on file in this suit.

The officer executing this pro-  
cess shall promptly execute the  
same according to law, and make  
due return as the law directs.

### Wintertime Lawns

A green winter lawn brightens the home grounds. It stands out in lush greenness against the bare, brown background of winter. It catches the eye of passers-by, and makes them say, "That family grows green in the wintertime."

Italian rye grass makes a good winter lawn for this area. It's easy to grow, and does not injure Bermuda or any of the other summer grasses. It takes up in the fall where the summer grasses leave off, and dies out in the spring when they are ready to start in again.

This grass is well-known among stockmen as a good winter pasture grass, and can be bought from feed stores, seed companies and nurseries.

This is the time of year for the people in North Texas to seed Italian rye—about the middle of September. Around the first of October is the best seeding time for Central Texas, and those further south should wait two weeks or a month later. Seeding rate for this grass is a pound and a half to two pounds for every thousand square feet of lawn area.

It's possible to wait on into the winter, but there's a risk there. Cold weather slows up seed sprouting, and some of the seed may not come up until next spring. On the other hand, if you plant too early—before the cool season starts—young plants are likely to be killed by the heat. Italian rye thrives in cold weather.

Before sowing this winter grass, mow the lawn grasses to at least an inch and a half. When the Italian rye comes up, mow it just like any other lawn grass. Seed will come up in about three days in moisture conditions are right.

Keep the young plants moist until the roots have a good start in the ground, and water the grass as it begins to grow. Italian grass

doesn't make seed until it gets about 18 inches tall, so you'll have to replant it again next year.

Miss Hatfield says another reason why it has to be replanted is because the roots die out every summer.

### Live Oak Disease

If you notice a peculiar light green color about the leaves on your live oaks that later turns grey, take heed. The trees have live oak disease. After the leaves turn grey, the small twigs die, and the disease spreads on to the larger limbs until finally the whole tree is dead.

Sadie Hatfield, extension landscape gardening specialist of Texas A&M College, says "live oak disease" is killing quite a large number of trees in Central Texas and may move on into other areas, but there's not much we can do about it since the cause of this disease is not known. The only thing we can do is prune back the dead part of the tree.

The disease spreads slowly from one tree to the next. Dying may start at the edge of a grove and spread slow ythrough it, leaving all dead trees. It may take a whole season to kill a tree after the first signs of the disease are found. This gives the owner time to prune away the diseased part.

At the first sign of "live oak disease", prune back the outer limbs three or four feet or more. Make all cuts on a slant and flat against the larger limb from which the smaller one grew. This way, no dead stubs of wood will be left to injure the tree.

Many large and small trees alike have been saved by topping or severe pruning. The new growth does not seem to be affected by the disease.

It's a good idea to burn all the dead limbs that are cut off, and sterilize the saw and shears by dipping in gasoline or alcohol.

Wait until after the first hard freeze to prune the healthy trees, but the diseased ones should be cut at once, says Miss Hatfield.

## St. Louis Cardinals To Conduct Try-Outs At Coleman Oct. 18-19

The St. Louis Cardinals, always strong contenders for the National League Pennant, will conduct a two day try-out at Hufford Park, Coleman, Monday and Tuesday, October 18 and 19. The camp, made possible through the cooperation of Bob Russ, Coleman high school coach, will be one of a large program of try-outs scheduled by the Cardinals this year.

Workouts, which will get underway at 11 o'clock each morning, will be under the supervision of Fred Hawn and C. A. "Runt" Marr, former minor league players and experienced scouts. They will put the aspirants through regular drills in runnings, fielding, hitting and throwing, giving each player a real chance to show what he has to offer the major leagues. To conclude camp activities, several games will be played between teams made up of players in attendance.

Players are requested to bring their own gloves, baseball shoes, and uniforms if they have them, for the Cardinals do not supply this type equipment for their trial camps.

All expenses incident to attending the camp will be refunded to those players who are signed to contracts with any of the 21 minor league clubs comprising the famous Cardinal minor league network.

This is the time of year for the

for Central Texas, and those fur-

It's possible to wait on into the

doesn't make seed until it gets a-  
bout 18 inches tall, so you'll have  
to replant it again next year.

Miss Hatfield says another reason  
on why it has to be replanted is  
because the roots die out every  
summer.

### Live Oak Disease

If you notice a peculiar light  
green color about the leaves on  
your live oaks that later turns grey,  
take heed. The trees have live oak  
disease. After the leaves turn grey,  
the small twigs die, and the disease  
spreads on to the larger limbs un-  
til finally the whole tree is dead.

Sadie Hatfield, extension land-  
scape gardening specialist of Texas  
A&M College, says "live oak dis-  
ease" is killing quite a large num-  
ber of trees in Central Texas and  
may move on into other areas, but  
there's not much we can do about  
it since the cause of this disease  
is not known. The only thing we  
can do is prune back the dead part  
of the tree.

The disease spreads slowly from  
one tree to the next. Dying may  
start at the edge of a grove and  
spread slow through it, leaving  
all dead trees. It may take a whole  
season to kill a tree after the first  
signs of the disease are found. This  
gives the owner time to prune a-  
way the diseased part.

At the first sign of "live oak dis-  
ease," prune back the outer limbs  
three or four feet or more. Make  
all cuts on a slant and flat against  
the larger limb from which the  
smaller one grew. This way, no  
dead stubs of wood will be left to  
injure the tree.

Many large and small trees a-  
like have been saved by topping  
or severe pruning. The new growth  
does not seem to be affected by the  
disease.

It's a good idea to burn all the  
dead limbs that are cut off, and  
sterilize the saw and shears by  
dipping in gasoline or alcohol.

Wait until after the first hard  
freeze to prune the healthy trees,  
but the diseased ones should be cut  
at once, says Miss Hatfield.

cinct No. 4 who own taxable prop-  
erty in said Precinct and who have  
duly rendered the same for taxa-  
tion, praying that this Court order  
an election in Commissioners' Pre-  
cinct No. 4 of Callahan County,  
Texas, on the question of the is-  
suanace of \$75,000.00 of Road Bonds,  
which said petition was heretofore  
filed in this Court; and

WHEREAS, heretofore on the 1st  
day of September, 1948, the Com-  
missioners' Court passed an order  
fixing a time and place for a hear-  
ing on said petition, to-wit: Sep-  
tember 22, 1948, and directed the  
County Clerk to issue a notice of  
such time and place of hearing to  
inform all persons concerned of  
their rights to appear at such hear-  
ing and to contend for or protest  
against the order of such election; and

WHEREAS, the County Clerk has  
heretofore duly executed said notice  
by posting true copies of said  
order of hearing in three public  
places within said Commissioners'  
Precinct No. 4 of Callahan County,  
and another copy thereof at the  
Courthouse door of said County for  
ten days prior to the date fixed for  
the hearing, and said notice has  
also been published in a newspaper  
of general circulation in said  
Commissioners' Precinct No. 4,  
namely "The Cross Plains Review",  
one time, on the 17 day of Sep-  
tember, 1948, which was at least  
five days prior to the date fixed  
for said hearing; and

WHEREAS, this Court, having  
met at the time and place set for  
the hearing of said petition, pro-  
ceeded to hear such petition and  
all matters in respect to the pro-  
posed bond election, and it is found  
by the Court that the said petition,  
is signed by a majority of the  
qualified electors who own taxable  
property in Commissioners' Pre-

cinct No. 4 of Callahan County,  
Texas, and who have duly rendered  
the same for taxation, and that the  
notice required by law to be given  
of said hearing has been given; and

WHEREAS, pursuant to the hear-  
ing held on said date and from the  
evidence submitted at said hearing,  
the Court has determined that the  
proposed improvements would be  
for the benefit of all taxable  
property situated in such Com-  
missioners' Precinct No. 4, and that  
it is desirable and necessary to is-  
sue the bonds of such Commis-  
sioners' Precinct No. 4 in the  
amount of Seventy Five Thousand  
(\$75,000.00) Dollars to construct  
such improvements, and that said  
election should be ordered; and

WHEREAS, the Commissioners'  
Court further finds that the a-

mount of said proposed bond issue,  
together with all outstanding bonds  
heretofore issued on the faith and  
credit of Commissioners' Precinct  
No. 4 of Callahan County, Texas,  
will not exceed one-fourth of the  
assessed valuation of the real  
property of said Precinct; and

WHEREAS, said Commissioners'  
Precinct No. 4 of Callahan County  
has heretofore been legally created  
by order of the Commissioners'  
Court passed on January 3, 1936.

## St. Louis Cardinals To Conduct Try-Outs At Coleman Oct. 18-19

The St. Louis Cardinals, always strong contenders for the National League Pennant, will conduct a two day try-out at Hufford Park, Coleman, Monday and Tuesday, October 18 and 19. The camp, made possible through the cooperation of Bob Russ, Coleman high school coach, will be one of a large program of try-outs scheduled by the Cardinals this year.

Workouts, which will get underway at 11 o'clock each morning, will be under the supervision of Fred Hawn and C. A. "Run" Marr, former minor league players and experienced scouts. They will put the aspirants through regular drills in running, fielding, hitting and throwing, giving each player a real chance to show what he has to offer the major leagues. To conclude camp activities, several games will be played between teams made up of players in attendance.

Players are requested to bring their own gloves, baseball shoes, and uniforms if they have them, for the Cardinals do not supply this type equipment for their trial camps.

All expenses incident to attending the camp will be refunded to those players who are signed to contracts with any of the 21 minor league clubs comprising the famous Cardinal minor league network.

**HARVEST WEATHER IS EXCEPTIONALLY GOOD**

Peanut harvesting increased in the southwestern states this week, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Most sections reported weather conditions favorable for digging and field curing. Picking went forward actively, too. Sales of farmer's stock peanuts moved on the basis of the government support price schedule. Current marketings averaged 69 to 70 per cent sound meals.

Demands for shelled peanuts continued slow. Occasional sales of No. 1 Spanish brought 16½ to 16½ cents per pound.

Sales of peanut oil and meal in the southwest remained too few to establish a market. In the southwestern states, peanut oil and meal said slightly weaker.
