Confidence in Ford Performance

The owner of a Ford is Never in doubt as to what he can expect in service. He knows what his car will do and how sturdily it will do it.

When bad weather and roads put other cars out of commission, the Ford car will stay on the job. It will carry thrugh slush and snow, over frozen ruts, newly constructed roads-anywhere.

Yet Ford benefits can be yours for the lowest prices ever offered. This is made possible by the efficiency of Ford manufacture, the volume of output and practically limitless Resources.

Permanent roads

Building Poor motor roads stifle industry and agriculture; waste buge sums annually in high maintenance costs, and greatly increase gasoline, tire and repair

There is not a state, not a county, not a community, that isn't paying a heavy price for having too few permanent roads. There are still many sections

of the country-even whole states—that are trying to operate twentieth century traffic over nineteenth century roads. This is costing millions of dollars every year, and will keep on

costing millions until we have well developed permanent highway systems everywhere. Even what we often call the

Poor motor roads stifle industry and agriculture; waste huge sums annually in high maintenance costs, and greatly increase gasoline, tire and repair bills.

There is not a state, not a county, not a community, that isn't paying a heavy price for having too few permanent roads. There are still many sections of the country - even whole states—that are trying to operate
