Mrs. Fred Tunnell Guest Of Honor At Baird Art Exhibit

An exhibit of the work of Callahan County artists was shown Wednesday afternoon of last week from three until seven o'clock in the American Legion Hall at Baird.

Some 40 artists entered 100 paintings and artistic pieces in the show, sponsored by the Baird Wednesday club in observance of National Art Week, approved by the American Artists Professional League and endorsed by the General Federation of Women's Clubs. Places were awarded by popular vote of the more than 175 persons visiting the exhibit. Mrs. Harold Ray, of Baird, won first with a picture of her dog "Penny". Second place went to Mrs. W. B. Jones, of Baird, with "Yellow Cosmos". A scene "Highway of Trees" by Mrs. Homer Shanks, of Clyde, won third.

Mrs. Fred Tunnell of Cross Plains, one of Callahan County's outstanding professional artists, was guest of honor. Mrs. Ray and Mrs. Jones are students of Mrs. Tunnell.

Hostesses for the afternoon were Mrs. V. E. Hill and Mrs. Sam H. Gilliland, with the assistance of a committee composed of Mrs. Ace Hickman, Mrs. L. L. Blackburn, Mrs. A. E. Dyer, Mrs. M. L. Stubblefield, and Mrs. M. D. Bell, other members of the Wednesday Club assisted during the social hour. Refreshments of coffee and tea were served, with cookies shaped like small palette boards marking the plate favors.

Artists participating are living or have lived in Callahan County. They included Mrs. Lewis Williams, Putnam; Mrs. O. Schwartz, Cincinnati, Ohio; Mrs. Fred Tunnell, Mrs. Roy Arrowood, E. Terry Neeb, Mrs. E. L. Freeman, and Mrs. Bob Sutphen, Cross Plains. Clyde was represented by Mrs. T. O. Dulaney, Mrs. Homer Shanks, and Raymond L. Morgan; Victor Scarpelli, a student at Hardin-Simmons University in Abilene, and the following from Baird exhibited: Carlyne Hearne, Mrs. Sam H. Gilliland, Mrs. Rupert Jackson, Mrs. Everett Hughes, Mrs. F. E. Mitchell, Mrs. D. Lilley, Mrs. Lee Loper, Mrs. Jimmy Settle, Mrs. B. L. Russell, Sr., Mrs. Ada Uzzell, Mrs. Ace Hickman, Mrs. Harold Ray, Mrs. Kate McCleary, Mrs. W. B. Jones, Bea Hickman, Mrs. Willie Barnhill, Mrs. Joan Ann Newton, Mrs. Curtis Sutphen, Mrs. B. Freeland, Mrs. Willie Ray, Miss Ruth Dyer, Willie O. McWhorter, Earl Hall, Claude Flores and Nell Gilbreth.

Putnam Club Women Note Art Week With Exhibit November 5

The Woman's Study Club of Putnam sponsored an art exhibit November fifth in the school library, featuring the Creative Art Club of Abilene. It was the club's observance of American Art Week, sponsored by American Artists Professional League and General Federation of Woman's Clubs.

The registry was presided over by Mrs. Fred Cook. Guests were given hand-painted programs.

Mrs. S. P. Henagan, Mrs. T. O. Massey, Mrs. Kathryn Morrow and Mrs. C. H. Watters represented the Creative Arts Club, bringing with them some 25 pictures, all work of their members. Medias included oils, watercolors, pastels, etchings and lithographs. Mrs. Henagan gave a talk on "How to look at a picture", and explained each picture in the exhibit.

Guests were invited by the club hostesses, Mrs. L. A. Williams, Mrs. Bryon Clinton and Betty Moberly to the music room for refreshments.

A beautifully appointed table was presided over by Mrs. Fred Heyser and Mrs. L. L. Clinton. Coffee, sandwiches and palatte shaped cookies, nuts and mints were served to guests from: Cross Plains, Baird, Abilene, Moran and the Putnam club. Mrs. E. C. Waddell played piano numbers during the social hour.

MESQUITE CONTROL TEST LOOKS FAVORABLE

Mesquite, the invading weed tree, which has infested some 65 million acres of Texas range land may soon be shivering in its bud zone. That is the report made by A. H. Walker, the Range Specialist from A&M College, upon his return from the recently held Field Day at the Spur Experiment Station. They have been carrying on work there on mesquite control since 1938.

Those attending the field day were told that 5,000 mixtures of various chemicals had been tested on mesquite at Spur during the past few years. Chemicals are first tried on individual trees in the nursery and then on 20 tree plots. Those showing promise are further tested on five acre plots and application is by air plane spraying. One hundred of these five acre plots have been treated with the chemicals that have shown best in the preliminary tests. Treatments were made during the spring, summer and fall of this year.

Results so far indicate that 2, 4, 5-T and formulations thereof are far superior to any formulations of 2, 4-D for mesquite control or eradication. Top kill of mesquites is running up to 95 per cent and root kill 25 per cent with solutions of 2, 4, 5-T applied in diesel oil and water in May of this year. Final permanent kill cannot be determined until next spring and farmers and ranchmen are advised to wait and see before using any of the chemicals. The cost of the material and application runs around \$3.50 per acre.

Officials at the Spur station say if you have only a few mesquite trees to kill, an application of pure 2, 4-D amline applied with a paint brush to the cut stump should do the job. Those with an acre or so, may spray a one per cent solution of 2, 4, 5-T in diesel or kerosene in a band around the tree from the ground up to 30 inches high and expect satisfactory control. Ranchmen and operators who have large acreages of mesquite to control are advised to wait and observe the results next spring at the Spur station.

It is not expected to find a chemical that will give 100 per cent kill, but it is hoped that a chemical can be found that will give low cost control of mesquite for five years. The increased forage production during this period should more than pay for the control program. Spring applica-

tions of these chemicals have also given excellent control of such weeds as sunflower, russian thistle, purple nightshade, annual broomweed, buffalo bur and many other troublesome range weeds.

Proper stocking to maintain a good cover of grass on the pastures will become more important with mesquite control. The mesquites, though robbing the grass of needed moisture, have served to protect a lot of our good grasses from livestock, says Mr. Walker. Keeping of cover of better grasses on our range lands is the best insurance against mesquite seedling invasion.

TREAT CATTLE FOR LICE NOW

Lice bother cattle more in the winter and early spring and the best time to treat cattle for these pests is the fall of the year. You should use eight pounds of 50 per cent wettable DDT powder to 100 gallons of water and treat twice. The second treatment should come two weeks after the first. This second treatment will take care of the lice that hatch after the first treatment. In case of dairy cattle, methoxychlor should be substituted for DDT and it can be used exactly the same as the DDT. These can be used either as a spray or dip.

Cattle will make better gains and come out of the winter in better shape if all the external parasites are killed.

W. B. Webb has bought Wade Albin's farm three miles east of town. Thus Mr. Webb becomes owner of land upon which an oil well is to be drilled. Mr. Albin will buy a larger farm. We hope he stays in this county.

This county can boast an unusual experience in seasons last week when considerable snow and sleet fell the last day of November. The extreme cold weather has temporarily stopped ginning and marketing of cotton, and crippled business in general.

W. T. Wilson, the furniture man, has bought the Clark Nichols home in northeast Cross Plains and has moved to the same.

Ollie Harlow has given up his work at the Cross Plains Merchantile Co. and will go to farming.

Alvin Smith, who has just finished gathering a good cotton crop, has gone to California on a prospecting trip.

V. L. Foster and H. D. Maxwell and families are this week moving to their farms in the Oklahoma country, northeast of Rising Star. Mr. Foster has been working in the hardware department at Higginbotham's Store, where he made himself valuable. He had charge of the livestock department.

20 YEARS AGO November 22, 1929

Roy Carmichael, the genial proprietor of the Lone Star Cafe, who returned from a recent camp-hunting trip in the southern part of the state, bringing with him a fine buck deer, treated the members of the local fire department and the city council to a big venison banquet at his cafe last Tuesday night. The occasion included a program of short and apprecia-

tive talks by a number of the guests, was greatly enjoyed by all.

The busiest place in Cross Plains the past few weeks is the killing and picking department of the Neeb Produce Co., with from 100 to 500 people hitting on all six, and everything humming. The plant has a capacity of nearly 3000 dressed turkeys daily.

Miss Sophie Stump, of Brownwood, has leased the Cross Plains hospital and is arranging to re-open the institution the last of this week.

Mrs. Jim Settle, who underwent an operation at the Santa Anna hospital last Saturday morning is reported to be recovering very nicely.

M. A. Martin, accompanied by H. B. Haughton of Oklahoma City, returned from a camp-hunting trip near Menard the first of the week. They bagged one fine six point buck.

Roy Carmichael, S. V. Webb, and Bo Cavet returned Monday with three deer, after a hunt in Mason county.
