SIXTY-SECOND YEAR

Home Towner

BY JACK SCOTT

With S. F. Bond moving from downtown quarters to home of his daughter, and no longer readily available for weather forecasts, the hometown newspaper has been supplied with two barometers to warn of approaching storms — or even worse, continued dry spells.

One of the instruments is a medium priced model, made by a well-known manufacturer. It doesn't seem as sensitive, though, as the other barometer, a crude-looking thing made by Noah Johnson. Johnson's creation is twin to one he keeps at his South Main Street barber shop. It reacts quickly to even minor changes, and is made from a bottle and contents of an orange soda pop and a regular fountain straw.

Even the slightest deviation in barometric pressure activates the home made model. An approaching sandstorm brings out its best performance; all stops seem bypassed. It is an interesting sight to behold.

Only difference in the Johnson model at his tonsorial establishment and the one at the newspaper office is that the former is made from a Coca-Cola. There seems to be little difference in the sensitivity of the two. Both are a full hour ahead of common commercial models with their responses. Both fail, though, to give those little vignettes of history which always accompanied any weather forecast Foster Bond took time to deliver.

"Fos" was not only accurate, he was also interesting. Speaking of soda pop and soft drinks calls to mind an observation that crops up every time a Dr. Pepper commercial appears on television.

In an effort to build-up nationwide sales the bottled drink, which originated in Waco, tells a lot of jokes on itself. Most deal with its name. None, though, seem to equal one a Cross Cut lady used to relate on herself.

She took a job in a Rising Star drug store. A customer came in and inquired: "Young lady, do you have a Dr. Pepper?" "No sir," replied the Cross Cut woman, "but we have a Dr. Busby and a Dr. Dill."

Local people with ties on the West Coast have recently received newspaper clippings telling of belated tragedies resulting from the recent California earthquakes. The damage now reportedly being experienced is not of property but of the minds and nervous systems of people, particularly those who experienced traumatic occurrences during the frightening catastrophe.

Personalities are said to have undergone drastic changes. There are reported numerous cases of happily married couples becoming uncongenial and filing divorce proceedings. Others are said overflowing mental health clinics and practice of psychiatrists is allegedly booming. Use of tranquilizers is said to have reached unprecedented proportions.

The Los Angeles Times devoted several columns to what has happened to individual persons in its Feb. 28 edition.

We who are presently experiencing the rigors of a protracted drought obviously have much for which to be thankful. Dry weather is less objectionable than is Terra Firma cavorting like a belly dancer. Be glad you live hereabouts.

No Opponents Face 6 Local Incumbents

LITTLE AD FINDS BUYER FOR RINGS

Classified ads sometimes accomplish surprising results.

Mrs. C. M. Boatright recently came into the local newspaper office and placed an ad to sell a diamond ring set. The ad taker accepted the business doubting that she would get results.

The next day after the paper came out, a prospect called and asked to see the rings. Buyer and seller got together and a deal was made.

Dallas Man Shows Interest In Eagle

Ralph D. Churchill, Dallas attorney, writes the Review in regard to an article which appeared in last week's edition concerning an eagle recently sighted on the La Reata Ranch 10 miles north of Cross Plains. Because the contents are expected to be of interest to many readers, Churchill's letter is reproduced hereunder.

"I read in the March 3 issue about the large bird sighted on the La Reata Ranch. I would assume that this was a Golden Eagle, which has a wing spread of approximately six and one-half feet.

"There are only two kinds of eagles in this area of North America — the Golden Eagle and the Bald Eagle. I checked into the scholastic book 'Birds of America' and do not find a Red Eagle mentioned. Sometimes the Golden Eagle is called the Ring-tailed Eagle, Black Eagle, Mountain Eagle, Grey Eagle and Brown Eagle. The Bald Eagle, our national symbol, has been called the White-headed Eagle, the White-headed Sea Eagle, American Eagle, Black eagle, Grey Eagle and Washington Eagle.

"I think it would be interesting for Americans to know more about their native birds and mammals. For a guide to birds there is a very expensive book recently put out by the Golden Press of New York entitled 'Birds of North America'. It is in paperback and would be easy to carry with your binoculars into the field. I am enclosing a Xerox copy of the page concerning eagles.

"Incidentally, the Golden Eagle does a good job in controlling rodents and rabbits. There is a study being conducted at the present time to ascertain if, and if so, to what extent the Golden Eagle preys on newly born lambs or pronghorns. This study is being conducted by the Audubon Society and the Cattlemen's Association. One of our most wasted forms of tax money goes for so called predator control. Man is the worst predator and needs controlling far more than the native animals."

CARD OF THANKS

We would like to express our thanks again to our wonderful friends who were so nice to us in our dark hours of sorrow in the death of our brother. The ones who brought food, the ones who served, the visits in our home, telephone calls, cards of consolation, words of comfort and all acts of kindness were deeply appreciated.

We must remember, they were lent, not given; just budded on Earth, to bloom in Heaven.

Thanks again to all.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III, Section 24, of the Texas Constitution, be amended to read as follows:

"Section 24. (1) The State Ethics Commission is created as an agency of the State. The commission consists of nine members. Three members shall be appointed by the Chief Justice of the Supreme Court of Texas with the advice and consent of the Associate Justices serving on the Court, three members shall be appointed by the Presiding Judge of the Court of Criminal Appeals of Texas with the advice and consent of the other Judges serving on the Court, and three members shall be appointed by the Chairman of the State Judicial Qualifications Commission with the advice and consent of the other members of the commission, of each group of three appointees no more than two shall be attorneys engaged in the active practice of law. In addition thereto there shall be two ex officio members, one from the House of Representatives and one from the Senate to be elected on the first day of each Regular Session of the Legislature by a majority of the membership of each House for a term ending on the first day of the next Regular Session.

"(2) With the exception of the initial appointees, each member shall hold office for a term of six (6) years and until his successor is appointed and has qualified. In making the initial appointments, each appointing officer shall designate one (1) appointee to serve a term of two (2) years, one (1) appointee to serve a term of four (4) years, and one (1) appointee to serve a term of six (6) years. Interim vacancies shall be filled in the same manner as vacancies due to expiration of a full term, but only for the unexpired portion of the term in question. The membership shall designate one of its members to serve as chairman for a period of two (2) years.

"(3) The members of the commission shall be reimbursed for actual and necessary expenses incurred in the performance of their duties.

"(4) The commission shall recommend the compensation, per diem, and mileage allowance of members of the Legislature, and may recommend the salary of the Speaker of the House of Representatives and the Lieutenant Governor

at an amount higher than that of other members notwithstanding any provisions to the contrary of Article IV, Section 17, of the Texas Constitution.

"(5) The commission shall promulgate rules of ethics to govern the conduct of all legislators, legislative officers and all officeholders, appointive or elective, of any office, department, district agency, commission, board or any governmental unit or branch established by or under the authority of the constitution and laws of the State of Texas and all persons who shall use any privilege of the floor in either House of the Legislature. The Texas State Ethics Commission shall further promulgate rules providing that each member of the Legislature and each of the hereinabove named officeholders upon election and any appointee to any of these offices shall file with the State Ethics Commission a statement under oath setting out a complete financial statement in detail within 10 days after being elected or receiving an appointment. This information shall be privileged information to the State Ethics Commission to be used only by them to determine if there exists a conflict of interests or if there is or has been a violation of any of the rules of ethics promulgated by the Texas State Ethics Commission or any laws of the State of Texas. The Legislature shall enact statutes dealing with unauthorized disclosure or misuse of said privileged information.

"(6) The commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet in Austin at least once each year to review existing rules of ethics, Legislative compensation rates, mileage allowances and per diem rates, and to make any changes deemed necessary.

"(7) All rules of ethics, compensation rates, mileage allowances or per diem rates currently in force, as well as all changes and recommendations by the State Ethics Commission shall be promulgated before the convening of any session of the Legislature by filing a certified copy of the proclamation with the Secretary of State.

"(a) Each rule of ethics or change thereof made by the commission shall take effect on the 15th day of the legislative session following the proclamation unless dis-

proved before that day by resolution of either House of the Legislature.

"(b) All rates of compensation, mileage allowances or per diem rates and all changes and recommendations made by the commission thereof shall not take effect until approved section by section by resolution of both Houses of the Legislature.

"All votes on these resolutions or parts thereof shall show the individual votes in the respective journals of both Houses.

"(8) The commission shall investigate any alleged violation of any rule of ethics promulgated by it and report its findings to the appropriate State agency, official, legislative body, grand jury or district attorney.

"(9) Until otherwise provided by the commission, each member of the Legislature shall receive from the public treasury an annual salary of Four Thousand, Eight Hundred Dollars (\$4,800) per year and per diem not exceeding Twelve Dollars (\$12) per day for the first 120 days only of each Regular Session and for 30 days of each Special Session of the Legislature. No Regular Session shall be of longer duration than 140 days. In addition to the per diem, the members of each House shall be entitled to mileage in going to and returning from the seat of government, which mileage shall not exceed Two Dollars and fifty cents (\$2.50) for every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the comptroller to each county seat now or hereafter established; no member to be entitled to mileage for any extra session that may be called within one day after adjournment of the Regular or Called session.

"(10) The commission is further authorized to recommend to each Legislature changes which will update, improve, and effect economy in the legislative process."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the 18th day of May, 1971, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment to create a State Ethics Commission empowered to set rules of ethics for members of the Legislature, State officers and legislative officers, to investigate violations thereof, and to recommend compensation for members of the Legislature and the Lieutenant Governor and recommend improvements and economy in the legislative process."

HOME AND FAMILY HINTS

By Barbara Williams

It looks like mouse and you say is like moose. It's a mouse.

Mousse is a French word which, literally translated, means "frothe". Cooks use it to refer to a rich dish that is spongy or frothy. Mousses can be savory or sweet, hot or cold.

Fish, meat, vegetables or cheese are often used for savory mousses, which are lightened with beaten egg white or gelatin. When served hot, they are set in a dish of water and either steamed or baked in the oven.

Cold mousses make a scrumptious dessert and are light enough to follow a heavy meal or a ladies' luncheon. Whipped cream is often added to increase the dish's fluffiness and add to its goodness.

The classic cold mousse is chilled, but not frozen. However, frozen mousses are sometimes accepted as members of the family.

A mousse is an elegant dish that is perfect for entertaining since it can be completely prepared ahead of time. It makes a great treat for the family, too!

Use your blender (from Higginbothams, of course) to create this refreshing Avocado Mousse. Serve it with an assortment of fresh, frozen or canned fruits and shredded lettuce.

Combine in blender container and blend until jello is dissolved: 1 T. gelatin dissolved in 2 T. cold water, 1 pkg. lime Jello, 1 c. boiling water. Add 1 c. cold water, 1/2 c. mayonnaise, 1 c. ripe avocado. Blend

until very smooth. Refrigerate until partially congealed. Fold in 1/2 c. heavy cream that has been whipped. Pour mixture into a mold greased with mayonnaise and allow to set in refrigerator until congealed. Unmold just before use, or unmold and refrigerate until use. Adv.

Health Officer Outlines Precautions On Rabies

With warm weather approaching, the season which presents greatest threat of hydrophobia, Dr. Carl J. Sohns, Cross Plains city health officer, offers six hints which are recommended in emergencies which may involve rabies.

The suggestions are published hereunder:

1. Don't panic.

2. Domestic animals and pets suspected of having rabies are best penned or caged so that they cannot contact other animals or man. Observe for illness; if the animal becomes ill report this to your health officer or veterinarian. If the animal dies, or is killed, the head must be packed in ice (but not frozen) and sent to the laboratory. Instructions may be obtained from your local health officer or veterinarian.

3. If the animal must be killed, it is absolutely necessary to preserve the head and brain intact. Do not shoot the animal in head because brain destruction makes it impossible to make the rabies test at the State Health Department Laboratories in Austin.

4. All bites should be properly treated, regardless of whether the animal has rabies or not.

5. If a rabies diagnosis is made, all persons bitten or in close contact or having hand wounds or scratches should be considered for immediate treatment by Rabies vaccine, which your health officer can procure from the State Department of Health at no cost. If the animal is well at the end of 10 days, it may be presumed not to have rabies.

6. Clip this article for future reference.
